## About the Minor

The Minor in Studio Art for Non-Art Majors expands students' understanding of how art can intersect with other fields, allows them to develop additional skills that complement the marketable competencies and knowledge they acquire in their majors, and provides the opportunity for them to integrate creative and artistic pursuits with other studies.

Creativity, problem-solving abilities, and critical thinking skills are competencies sought across all professions, and students who earn the Minor in Studio Art for Non-Art Majors often pursue careers in arts administration, business, museum professions, the sciences and medical fields, and other similar professions.
