Mission Statement

The faculty of the Department of Communication share Youngstown State University's mission to maintain high standards in teaching, research, and service. To this end, faculty members are productive scholars in the discipline, staying abreast of technological and theoretical developments. These advancements are brought into the classroom to foster students' ability to communicate competently using traditional and mediated channels. Students are introduced to the most recent and relevant communication theory, research, and technological skills through practical activities in mediated, interpersonal, public, and professional contexts that serve students' long-term goals, promote the university, and serve the larger Youngstown community.

Department Overview

The Department of Communication houses three Bachelor of Arts (B.A.) degree programs and one Master of Arts (M.A.) degree program. The B.A. programs include Communication Studies (p. 1), Journalism (p. 2), and Telecommunication Studies (p. 2). The M.A. in **Interdisciplinary Communication** is a multidisciplinary graduate program with courses in communication, marketing, and professional and technical writing.

In addition to completing general education and major courses within specific programs, students are required to complete a minor. B.A. degrees can be earned in four years (eight semesters) if a student averages 15 to 16 hours per semester, and in three years (six semesters) if a student averages 18 to 21 hours per semester. The M.A. degree can be earned in three or four semesters.

Department of Communication students find many outlets to build on the skills they learn in and out of the classroom. For example, Lambda Pi Eta, a communication honorary organization, recognizes our outstanding students and provides opportunities for greater involvement and leadership. Opportunities for active involvement in media production and programming exist with YSU Athletics (<http://www.ysusports.com>) (NCAA D1 sports productions), Penguin Rundown (<https://www.facebook.com/Penguinrundown>) (weekly sports web show), *The Jambar* (YSU's student newspaper), Light the Wick (<https://www.youtube.com/channel/UCPSmcPPEDs-YwLMVZDb1AcA>) (arts-based web show), and Rookery Radio (<http://www.rookeryradio.com>) (YSU's first-ever, internet-only, student-run radio station).

Our full- and part-time faculty are more than teachers and professors. They are mentors and motivators. Many come with experience from various communication- and media-related industries (e.g., *Cleveland Plain Dealer*, ESPN (<http://espn.go.com>), WHOT 101 FM (<http://www.hot101.com>), WFMJ (<http://www.wfmj.com>), WKBN (<http://www.wkbn.com>), WYTV (<http://www.wytv.com>), NewsRadio 570AM (<http://570wkbn.iheart.com>), *The Vindicator*, etc.). They are active scholars engaged in their disciplines. Most of our faculty have interest in the study of mass media and new media, but other research interests include argumentation and rhetoric, group and organizational communication, interpersonal and intercultural communication.

The department's home office is located in Bliss Hall within the College of Creative Arts & Communication. Here, you will find a medium-sized department (a little more than 350 students) with a warm and cheerful environment that

puts students first. Our facilities include smart classrooms, audio and video labs, journalism labs, and an full-HD television studio.

For more information about the department, including meeting with a faculty member who will help you prepare for the future, contact the department office at (330) 941-3631, or email our department administrative assistant, Ms. Debbie Yiannaki, at dayiannaki@ysu.edu. The department office is located in Bliss Hall, Room 2000.

Programs

Communication Studies, B.A.

Courses in this B.A. degree program provide students with the necessary communication skills for an evolving global marketplace and future career demands. The Communication Studies program deals, in part, with people in conversations in settings that are usually face-to-face, but that are increasingly becoming mediated (such as computer-mediated). Public speaking, media and public relations, persuasion, conflict management, social media, and gender communication are some of the areas students examine in this major. Courses touch on a wide variety of areas including social and political movements, the process of legislation, or new media communication.

Program Tracks

Communication Studies courses address the universal emphasis placed on effective, competent communication skills by employers and recruiters. The core curriculum of 18 credit hours includes courses covering these communication skills. The curriculum is then divided into four unique tracks to better prepare students for a particular career. Each of the tracks is described below. The overriding goal of each track is to challenge each student to explore and apply the many forms of communication:

- Human resources or management careers in profit or nonprofit organizations, or those looking for a general, all-encompassing communication degree, should consider the **interpersonal/organizational track**.
- A career path in media management, media criticism, or public relations and advertising should choose the **media track**.
- Careers in pharmaceutical sales, industrial sales, retail and corporate sales, politics, or law (including law school) should choose the **persuasion track**.
- Our newest curricular offering focuses on social media management, marketing, literacy, communication, and campaigning. Students interested in these new media options should choose the **social media track**.

Learning Outcomes

Regardless of track, students graduating with a B.A. degree in communication studies will:

- differentiate between key theories and concepts in communication
- find, interpret, evaluate, and synthesize academic research in communication studies
- demonstrate verbal and nonverbal competence

Students completing their degree in communication studies are uniquely qualified to enter the job market and compete effectively throughout their careers for advancement and promotion.

Through course offerings and applied learning experiences, the communication studies program combines a rich liberal arts emphasis with a much needed specialized professional and career focus for undergraduate students.

Admission Policy for Communication Studies

To major in communication studies, entering freshmen may simply declare a communication studies major. Transfer students must have a GPA of 2.00 and be in "good academic standing." Students are expected to meet with a communication studies faculty advisor prior to registration and are

encouraged to meet with an advisor when they have questions or concerns, and to monitor progress.

Journalism, B.A.

Information is power. Society must have professionals who can supply people with the information they need to make decisions about their lives and their futures. At Youngstown State University, we believe in the importance of journalism to society and to democracy. We believe that journalists have the power to shape the world.

Guided by this philosophy, YSU's journalism major gives you a balance of practical and theoretical experience. We teach you to ask tough questions, to uncover and interpret information, to write leads, to conduct interviews, and to work with technologies to deliver the news in multiple platforms from print to broadcast to podcast. We also encourage you to think critically about the stories you report and the impact they will have on communities and society in general.

The journalism program trains students for entry-level positions in reporting, editing, and newspaper design. The curriculum is a blend of courses that support this goal, such as news reporting, editorial and opinion writing, feature writing, editing and design for newspapers, a journalism practicum (journalism workshop) in which students write for the student newspaper, and a battery of courses designed to enhance editing, writing and publishing skills. Journalism majors are encouraged to declare minors that support their specific career objectives, such as public relations, photography, political science, telecommunications, or art/design.

Why Journalism?

There has never been a better time to study journalism.

With the explosion of available information, people now need and want credible information. They need what journalists do and there are more venues now than at any other point in history for how to disseminate that information.

Be prepared. This is not the journalism of yesterday. While still loyal to the basic principles of giving people accurate and reliable information that they need to make decisions about their lives, journalism has changed in how news is delivered.

Ink and newsprint are virtually obsolete. Instead, you will be telling stories with video cameras and still cameras and you will be getting story tips from readers and linking to other people's reporting. The world of modern journalism is all about innovation and entrepreneurial spirit.

Why Journalism at YSU

At Youngstown State University, we understand the importance of journalism in society.

With a hands-on teaching philosophy and a strong belief in practical experience, YSU journalism instructors train students for careers in journalism. We also train students to be entrepreneurial in their thinking about how to apply their journalistic skills. From the basics of news judgment to more sophisticated ethical decisions, YSU journalism majors graduate with the skills to land jobs, build careers and most importantly, report important stories in all media platforms.

We keep close watch on trends in the industry and are always eager for ways to integrate new ideas and technologies into what we teach. We are also deeply committed to innovation and experimentation. We work hard to help our students gain professional experience and routinely help them get their work broadcast or published by local, state and national media.

Reporters and editors from numerous legacy and new media organizations, from *The Vindicator* and *The New York Times* to ProPublica and WFMJ Television, offer us regular feedback about our program and what we need to be offering students.

Learning Outcomes

Regardless of track, students graduating with a B.A. degree in journalism will demonstrate an understanding of:

- what constitutes news
- the First Amendment
- how to find and extract news
- how to write news, feature, and opinion stories
- how to evaluate others' work
- how to recognize bias in the media

Telecommunication Studies, B.A.

Telecommunication Studies (TCOM) at YSU is a dynamic, cutting edge baccalaureate program comprising about 125 majors and 12 full- and part-time faculty. We focus on the messages that bombard us every day — through advertising, television and film, news, the Internet, magazines, friends, family and more. We study how to make those messages, how to package and distribute them, and how to profit from them.

Our program addresses human communication that passes through some medium such as television, radio or the Internet. For example, in this area, students may study how the Internet impacts traditional forms of broadcast media (i.e., radio, television). Students learn about early stages of the field, as well as contemporary combinations of telecasting through the Internet. Courses in the TCOM curriculum provide students with an in-depth knowledge and intellectual challenge in electronic communication. Students receive practical orientation to the skills and techniques of broadcasting. Students explore contemporary theories and problems which are central to media, as well as examine new communication media.

From a liberal arts perspective, the TCOM curriculum is designed to aid the student in pursuit of careers not only in broadcasting but also in recently expanding avenues of communication such as non-commercial broadcasting, corporate communication, industrial communication, cablecasting, and independent production. Internships are available in media organizations to students of superior academic achievement.

Program Tracks

Your degree program will comprise several clusters of requirements:

General Education, which helps you learn the core knowledge for a college education and to master the skills you'll need to be effective in learning at advanced levels.

Major and Minor, where you develop mastery of your main interest areas. Also, you study at levels far above that in any other course area.

You'll find two types of courses in your major. Some are regular classroom courses where you develop your intellectual knowledge and skill. Others are **applied or studio courses** that help you master your media performance, production or business skills.

Tracks are clusters of required and elective courses within your major to develop a specific focus of study or a particular set of media skills. There are two tracks in the B.A. degree program in telecommunication studies:

- Media Arts Track
- Sports Broadcasting Track

Electives, which are courses you elect to take because of their particular importance to your intellectual growth.

Learning Outcomes

The student learning outcomes for the B.A. degree program in telecommunication studies are as follows:

- The student will construct arguments using basic reasoning skills and avoiding fallacies;
- The student will compose messages using multi-media technology;
- The student will design written, oral, and visual messages to communicate ideas to a specific audience;
- The student will appraise the values, attitudes, and goals of a potential audience using demographic and psychographic variables;
- The student will describe the prevailing theories of electronic media and appraise the relative value of each.

Admission Policy for teleCommunication Studies

Students who declare an intent to major in telecommunication studies, whether on the media arts track or sports broadcasting track, will be assigned to the "Pre-Telecommunication" (Pre-TCOM) category. Upon completion of 15 semester hours while in the Pre-TCOM category, and completion of ENGL 1550, TCOM 1570 OR 1580, and TCOM 1581 (with grades of A or B in all three), students will be reassigned to the "Telecommunication Studies" (TCOM) category and track of choice (media arts OR sports broadcasting).

Students may transfer to the Pre-TCOM, but not TCOM, category from another program at YSU or from another institution. Students who have completed associate- or bachelor-level degrees also may enter the Pre-TCOM, but not TCOM, category. Upon completion of 15 semester hours while in the Pre-TCOM category, and completion of ENGL 1550, TCOM 1570 OR 1580, and TCOM 1581 (with grades of "A" or "B" in all three), students will be reassigned to the TCOM category.

Students who have interrupted their attendance at YSU for three consecutive semesters or more will be assigned to the Pre-TCOM category upon return (even if the student was a TCOM major). After completion of 15 semester hours while in the Pre-TCOM category, and completion of ENGL 1550, TCOM 1570 OR 1580, and TCOM 1581 (with grades of "A" or "B" in all three), students will be reassigned to the TCOM category.
