Although current at the time of publication, the information in this catalog is subject to change without notice. The University reserves the right to change requirements, fees, course offerings, or other policies at any time. Please check with the department or dean’s office for the most current information.

Youngstown State University is committed to a campus environment that values all individuals and groups, and to non-discrimination and equal opportunity for all persons without regard to sex, race, religion, color, age, national origin, sexual orientation, gender identity and/or expression, handicap/disability, or identification as a disabled and/or Vietnam Era veteran. The University is also committed to the principles of affirmative action and acts in accordance with state and federal laws. Inquiries should be directed to Youngstown State University’s Director of Equal Opportunity and Diversity, who is responsible for coordinating the University’s programs for compliance. Inquiries can be initiated in writing or by calling 330-941-3370.

**Youngstown State University Mission Statement**

Youngstown State University, an urban research university, emphasizes a creative, integrated approach to education, scholarship, and service. The University places students at its center; leads in the discovery, dissemination, and application of knowledge; advances civic, scientific, and technological development; and fosters collaboration to enrich the region and the world.

**The University**

- Creates diverse educational experiences that develop ethical, intellectually curious students who are invested in their communities;
- Provides access to a broad range of undergraduate programs;
- Offers graduate programs in selected areas of excellence, including those that meet the needs of the region;
- Supports economic development through applied learning and research;
- Integrates teaching and learning, scholarship, and civic engagement;
- Fosters understanding of diversity, sustainability, and global perspectives; and
- Advances the intellectual and cultural life of the city, region, and world.

**Youngstown State University Core Values**

We—the faculty, staff, administrators, and students of Youngstown State University—hold the following values essential to achieving the University’s mission:

**Centrality of Students**

We are a student-centered institution committed to the education, development, well-being, and success of students of all ages and from all walks in life. In concert with our mission to help students grow intellectually, we strive to foster their personal, social, emotional, and career growth, as well as their capacities for lifelong learning, civic responsibility, and leadership.

**Excellence and Innovation**

We value excellence and innovation inside the classroom and out. Thus, we strive to integrate curricular and cocurricular activities; to offer outstanding academic programs; to foster intellectual inquiry, exploration, and discovery; to transcend traditional boundaries; to apply and perfect knowledge; to encourage creativity; to provide effective tools, technologies, and facilities for learning; and to excel in research and scholarly activity, including the “scholarship of teaching and learning” — an area of research that explores how individuals teach and learn.

**Integrity/Human Dignity**

As a campus community, we expect all conduct to be rooted in integrity, mutual respect, and civility. We value ethical behavior in scholarly and other endeavors; believe in the dignity and worth of all people; strive to foster an appreciation of, and respect for, differences among the human race; and celebrate the diversity that enriches the University and the world.

**Collegiality and Public Engagement**

As scholar-citizens of many extended and interconnected communities, we pledge to work collegially and cooperatively to enrich the cultural environment; establish productive partnerships; provide responsible leadership; address community and workforce needs; foster sustainability; and bring about the greater good of the collective whole—be it the University, the city of Youngstown, the state of Ohio, the region, or beyond.
YSU Vision Statement

Youngstown State University will become a national model for university-community engagement that enhances teaching and learning, student and faculty research, and community well-being. The University will expand its regionally focused mission to include national and international emphases, while working with other colleges and universities, business and industry, and the K-12 community to stimulate the economic, technological, and cultural rebirth of Ohio.

This Vision will be supported by

• Leading scholars and practitioners using multidisciplinary approaches to address societal challenges;
• Engagement of undergraduate and graduate students in research;
• Strategic development of undergraduate and graduate programs;
• Curricular and co-curricular integration of professional and liberal education, problem-solving, critical thinking, and communication skills;
• An emphasis on applied learning and community engagement; and
• Respect for the deep and rich diversity of the communities we serve.

Priority Statements

Critical Issue 1: Enrollment/Retention
YSU will build enrollment strategically and manage it effectively.

Critical Issue 2: Programs/Teaching, Learning, and Research
YSU will promote excellence in teaching, learning, service, and research—and prepare students to undertake civic and leadership responsibilities—through programs and educational experiences that meet student and workforce needs.

Critical Issue 3: Financial Resources
YSU will manage resources efficiently and strategically, leverage them effectively, and develop additional resources to fulfill its mission.

Critical Issue 4: Image/Market
YSU will develop and communicate a positive, shared institutional identity and market its strengths and successes aggressively.

Critical Issue 5: Student Services/Alumni Relations
YSU will provide the range of student services necessary for a student-centered University to attract, support, retain, advance, and graduate students. YSU will also maintain ongoing and lifelong relationships with its alumni.

Critical Issue 6: Diversity
YSU will provide a climate of respect for all people. Its students, faculty, staff, and course content will increasingly reflect the diversity of the community, the nation, and the world.

Critical Issue 7: Technology
YSU will pursue an integrated approach in using technology to meet the academic, research, student-services, and administrative goals of the University.

Critical Issue 8: Community Engagement
YSU will undertake community partnerships to serve and address the cultural, intellectual, educational, social, and economic needs of the region.

Critical Issue 9: Human Resources Development
YSU will further develop a competent, motivated, diverse, and competitively paid workforce committed to carrying out the mission of the University.

Critical Issue 10: Facilities/University Neighborhood
YSU will develop and maintain a safe, attractive, convenient, and functional physical plant responsive to the present and future needs of students, staff, alumni, and the community. The University will work with the community to enhance the safety, aesthetics, and vitality of the campus periphery and surrounding neighborhood.
Accreditation

Youngstown State University is accredited by the Higher Learning Commission and a member of the North Central Association (web address: http://www.ncahlc.org; telephone: (312) 263-0456).

Programs within the individual colleges may be further accredited by their respective professional bodies. Those accreditations are listed in each college section.

Assessment

YSU is committed to providing an effective assessment process that supports student learning, improves academic programs, and enables YSU to provide exemplary services to all constituents. To sustain the University’s continuous improvement on all levels, the Office of Assessment collaborates to design and coordinate regular and ongoing assessment of student learning outcomes with each academic department in the six colleges for each degree program; with the Office of General Education for the general education program; and with non-academic units in ongoing efforts to document student success. A systematic feedback loop also enables both academic and non-academic units to share information about student learning with students, faculty, staff, and appropriate organizations. All information is shared in aggregate form only, and confidentiality of individual students is safeguarded. If assessment information is shared beyond the internal efforts of program improvement or accreditation, departments and the Office of Assessment abide by the Human Subjects Research Committee guidelines at YSU.

Office of Equal Opportunity and Diversity

Youngstown State University is committed to a campus environment that values all individuals and groups and to non-discrimination and equal opportunity for all persons without regard to sex, race, religion, color, age, national origin, sexual orientation, gender identity and/or expression, handicap/disability, or identification as a disabled and/or Vietnam Era veteran. The University adheres to the principles of affirmative action and acts in accordance with all applicable state and federal laws.

The Office of Equal Opportunity and Diversity works to assess and facilitate the progress of the University in fulfilling its commitment to affirmative action, equal opportunity, and diversity for all members of the campus community. People are our first priority and most valuable resource. We believe that excellence and diversity are inextricably linked; the University is strengthened as its community becomes more diverse and inclusive, and the institution consistently reflects the contributions of all its members. We work to assure that all faculty, staff, and student members of the YSU community are full participants in their chosen fields of endeavor and are regarded and treated with dignity and respect at all times.

The Office of Equal Opportunity and Diversity responds to complaints and reports of discrimination, discriminatory harassment, sexual harassment, and retaliation at the University. The office also provides informational counseling to faculty, staff, and students who believe they have experienced such treatment.

The office monitors changes in the University’s workforce and works to recruit, hire, and retain individuals who would contribute to the diversity of the campus community. It provides a diversity orientation for faculty and staff search committees, and reviews and approves faculty and staff hiring decisions before an employment offer can be made. Periodic reports are issued to the University community on the progress the University is making in meeting its diversity goals.

The Office of Equal Opportunity and Diversity is also charged with helping the University and the University Diversity Council implement the institution’s commitment to diversity. The Council advises the president of the University and the Board of Trustees on the formation of diversity-related policy, and the office works with faculty, staff, students, and the community to implement that policy.

Historical Sketch

Youngstown State University traces its beginnings to a commercial law course offered by the Young Men’s Christian Association in 1908. The YMCA had offered high school level and vocational courses since 1888, but wanted to meet the college-level needs of area residents in a society undergoing rapid industrialization and urbanization. The “Y” offered courses on law, business and engineering, and in 1910, even instituted a School of Law that granted no degree, but prepared students to take the bar exam. In 1916, the YMCA incorporated all of its educational work under the Youngstown Association School.

By the early 1920s, the Ohio Board of Education granted the School of Law the power to confer the Bachelor of Science in Law degree, and in 1924 the School of Commerce and Finance the right to confer the bachelor’s degree in commercial science. The YMCA also offered courses to prepare teachers for certification, a program that evolved by 1927 into a separate school named Youngstown College and recognized by the State Department of Education. Throughout the 1920s, the schools of law and commercial science were called the Youngstown Institute of Technology, which began a move from downtown to the present location with the purchase of several mansions owned by the Wicks.

In 1931, the YMCA constructed its first building, the present-day Jones Hall, and appointed Howard Jones as the educational director. By the mid-1930s, the Board of Directors decided to incorporate with
the official name of Youngstown College separate
from the other “Y” educational efforts; they ap-
pointed Howard Jones as the first president, a posi-
tion he held until 1966.

In 1944, the trustees of the Young Men’s Christian
Association transferred control of the institution to
the members of the Corporation of Youngstown Col-
lege, and in 1955 the corporation was rechartered as
The Youngstown University. The University joined
the Ohio system of higher education in September
1967 as Youngstown State University.

Dana’s Musical Institute, founded in nearby
Warren in 1869, became Dana’s Musical Institute of
Youngstown College in 1941. In 1946, the Engineering
Department, organized several years before, became
the William Rayen School of Engineering; two years
later, the Business Administration Department be-
came the School of Business Administration; and in
1981 the school name was changed to the Warren P.
Williamson, Jr. School of Business Administration. In
1960, the Education Department became the School of
Education.

The Graduate School and College of Applied Sci-
ence and Technology were created in 1968, and, in
1974, the College of Fine and Performing Arts was
established.

In 1972, Youngstown State University, with the
University of Akron and Kent State University
formed a consortium to sponsor the Northeastern
Universities College of Medicine, which enrolled its
first students in 1975.

In 1991 the engineering technology departments
separated from CAST and joined the new College
of Engineering and Technology; the remaining
departments formed the new College of Health and
Human Services.

In 2007, the Rayen College of Engineering and
Technology incorporated the science and mathemat-
ics departments from the College of Arts and Sci-
fences. This reorganization linked science, technology,
engineering, and mathematics on one hand, and the
humanities and social sciences on the other.

Youngstown State University now consists of the
School of Graduate Studies and Research and six
undergraduate colleges: the Williamson College of
Business Administration; the Beeghly College of
Education; the College of Fine and Performing Arts;
the Bitonte College of Health and Human Services;
the College of Liberal Arts and Social Sciences; and
the College of Science, Technology, Engineering,
and Mathematics. Degrees offered range from the
associate, bachelor’s, and master’s to a doctorate in
educational leadership and the Doctor of Physical
Therapy.

Academic Organization
The Academic Division is organized in the fol-
lowing units:
The Williamson College of Business
Administration
The Beeghly College of Education
The College of Fine and Performing Arts
The Bitonte College of Health and Human
Services
The College of Liberal Arts and Social Sciences
The College of Science, Technology, Engineering,
and Mathematics
The School of Graduate Studies and Research

The colleges are described, along with their major
programs and curricula, in subsequent sections of
this catalog.

YSU also offers a B.S./M.D. program leading to
medical studies at The Northeastern Ohio Universi-
ties Colleges of Medicine and Pharmacy.

The post-baccalaureate programs of the School of
Graduate Studies and Research are set forth in the
Graduate Bulletin and Supplement.

Virtually all departments offer courses during
daytime and evening hours, and several majors
may be obtained by students who are able to attend
only during the evening. To accommodate working
students, classes are offered on a flexible schedule—
from classes that meet five days a week to classes
that meet only one day a week. To better serve the
community, many general education courses are also
offered at the Metropolitan College site in Boardman.
The main academic year runs from late August into
May in two 16-week semesters. During the summer
term, courses are offered both for a 12-week session
and for three sessions of six weeks each. Courses are
also offered in shorter time frames.

The School of Graduate Studies and
Research

The School of Graduate Studies and Research
offers programs in American studies, art education,
economics, financial economics, English, and history
leading to the Master of Arts degree; a program in
computing and information systems leading to the
Master of Computing and Information Systems
degree; a program in creative writing leading to the
Master of Fine Arts degree; programs in applied be-
avior analysis, biology, chemistry, criminal justice,
environmental studies, and mathematics leading to
the Master of Science degree; concentrations in ac-
counting and general business leading to the Master
of Business Administration degree; a program in
health and human services leading to the Master
of Health and Human Services; programs in music
education, performance, music theory and composi-
tion, music history and literature, and jazz studies
leading to the Master of Music degree; programs in
chronic illness care, nurse anesthesia, and school
nursing leading to the Master of Science in Nursing;
a program in public health leading to the Master of Public Health degree; options in chemical, civil and environmental, electrical and computer, industrial and systems, and mechanical engineering leading to the Master of Science in Engineering degree; teacher education, educational administration, educational technology, counseling, and special education programs leading to the Master of Science in Education degree and a program in social work leading to the Master of Social Work degree. The program in educational leadership offered by the Department of Educational Foundations, Research, Technology and Leadership. The program in physical therapy leads to the Doctor of Physical Therapy degree.

Certificate programs are available in autism spectrum and related disabilities, bioethics, enterprise resource planning, environmental studies, professional writing and editing, teaching of writing, health care management, literature for children and young adults, working-class studies, and teaching of English to speakers of other languages (TESOL). A certificate in applied history is also available as part of the master’s program in history. Please refer to the latest Graduate Bulletin for additional program and admission information, or contact the Office of Graduate Studies and Research at 330-941-3091.

Degrees

Youngstown State University grants the following baccalaureate and associate degrees: Bachelor of Arts (B.A.), Bachelor of Engineering (B.E.), Bachelor of Fine Arts (B.F.A.), Bachelor of General Studies (B.G.S.), Bachelor of Music (B.M.), Bachelor of Science (B.S.), Bachelor of Science in Applied Science (B.S. in A.S.), Bachelor of Science in Business Administration (B.S. in B.A.), Bachelor of Science in Education (B.S. in Ed.), Bachelor of Science in Nursing (B.S.N.), Bachelor of Science in Respiratory Care (B.S.R.C.), Bachelor of Social Work (B.S.W.), Associate of Arts (A.A.), Associate of Applied Science (A.A.S.), Associate of Technical Study (A.T.S.), and Associate of Labor Studies (A.L.S.). All bachelor’s and associate degrees may be taken as honors degrees. A combined B.S./M.D. degree is offered in conjunction with the Northeastern Ohio Universities Colleges of Medicine and Pharmacy.

Majors

The college in which each major resides is noted in parentheses, with colleges coded as follows: Business Administration, WCBA; Education, BCOE; Fine and Performing Arts, FPA; Health and Human Services, BCHHS; Liberal Arts and Social Sciences, CLASS; and Science, Technology, Engineering, and Mathematics, STEM.

Baccalaureate degrees may be earned in:
Accounting (WCBA)
Adolescent/Young Adult Education (BCOE)
- Earth Science

School Nurse Licensure (BCHHS)

ADMISSION

Youngstown State University offers broad access to education through open admission for all Ohio high school graduates.

Undergraduate admission is handled by the Office of Undergraduate Admissions (OUA), located in Sweeney Welcome Center at the corner of University Plaza and Bryson Street. You may contact the admissions office in any of the following ways:

Phone: Toll free 877-GO-TO-YSU (877-468-6978)
330-941-2000
TDD: 330-941-1564
Fax: 330-941-3674
E-Mail: enroll@ysu.edu
Web Site: www.ysu.edu

The Office of Undergraduate Admissions is open on weekdays and selected Saturdays. Please call the numbers above or visit the website for times. Campus tours are available twice daily M-F and on selected Saturdays. Tours can be scheduled by calling the Admissions Office or by scheduling on-line at http://cfweb.cc.ysu.edu/visit/index.cfm. Tours are best scheduled a week or more in advance, but you are welcome to visit the YSU campus and stop in the office any time without an appointment. If you schedule ahead, we can arrange free parking; otherwise, visitors can park in the F-1 (University Plaza) lot across from the Sweeney Welcome Center for a nominal fee that covers parking for a full day.

Admission to the University does not guarantee admission to every program. Some programs within the University have separate admission standards that must be met before a student may enroll in that particular program. Developmental courses are available to assist in satisfying scholastic deficiencies. Those students who lack high school subjects required by the various colleges within the University may be admitted with the understanding that these courses will be completed as soon as possible and not later than the end of the college sophomore year.

Admission with Conditions

Students will be admitted to YSU with conditions if their high school grade point average is below 2.00 and their composite ACT is 17 or below (or SAT verbal and math composite is 820 or below). For more information about admission with conditions, please see p. 13.

State Residency Status

Place of residence for admission and tuition purposes will be determined at the time of admission or readmission by the Office of Undergraduate Admissions on the basis of the residency rules stated in Appendix A and information supplied on the “Application for Admission” and “Undergraduate Application for Readmission” form.

If at any time you have questions about your appropriate classification, you should immediately bring it to the attention of Undergraduate Admissions for review. Students requesting Ohio residency are required to complete a State of Residency Verification form and provide additional supporting documentation. A change to resident status cannot be made retroactive if supporting documentation is received after the first day of the requested semester.

Residency Status Appeal

After Undergraduate Admissions makes their determination, a decision will be sent in writing to the student. If a student wishes to appeal the decision, she or he can request an appearance before the Residence Classification Board. Such appearances occur within two weeks of the request, if possible. The Residence Classification Board’s appellate decision is final.

Please see Appendix A of this Bulletin for the complete text of the Ohio Board of Regents’ residency criteria.
**Academic Credentials**

Academic credentials include high school and college transcripts, test scores, GED scores, and/or any other records required for admission or granting credit. Only properly certified and signed credentials issued to YSU and received directly from the issuing institution will be accepted.

**Application Fee**

A non-refundable application fee of $30 is required unless the applicant is a former YSU student.

**HIGH SCHOOL PREPARATION**

Students desiring to pursue a baccalaureate degree should have completed the following college preparatory units:

<table>
<thead>
<tr>
<th>Subject</th>
<th>Units</th>
</tr>
</thead>
<tbody>
<tr>
<td>English</td>
<td>4</td>
</tr>
<tr>
<td>Mathematics</td>
<td>3</td>
</tr>
<tr>
<td>Science</td>
<td>3</td>

<tr>
<td>Social Studies</td>
<td>3</td>
</tr>
<tr>
<td>Foreign Language††</td>
<td>2</td>
</tr>
<tr>
<td>Arts</td>
<td>1</td>
</tr>
<tr>
<td><strong>Total Units</strong></td>
<td><strong>16</strong></td>
</tr>
</tbody>
</table>

††Two units in one language.

It is recommended that coursework include English composition; algebra 1, 2 and geometry; laboratory science; and United States history and government.

In addition, the Bachelor of Engineering (B.E.) degree program suggests a unit of mechanical drawing, a half-unit of trigonometry, and in the sciences, one unit of chemistry and one unit of physics specifically. Students interested in programs such as computer information systems, physical sciences, and mathematics should also take a fourth year of mathematics. For the Bachelor of Music (B.M.) degree program, the applicants are expected to have proficiency in one or more branches of applied music. See the Dana School of Music section.

**Application Deadlines**

We encourage all students to apply at least two months prior to the application closing dates listed below. Review of applications received after these dates cannot be guaranteed.

</table>

*If you are accepted for admission by February 15, you will be eligible for the Early Advisement and Registration Program (EARLY). If you do not participate in the EARLY program, please keep in mind that your orientation and registration date is based on the date of your acceptance to the University.

The following programs have a deadline date of December 31 and a credentials deadline date of January 31 for enrollment in the fall semester: dental hygiene, histotechnology, and clinical laboratory technology.

**Phase I B.S./M.D.**—If interested in applying for this program, contact NEOUCOM for deadlines and application procedures.

*The director of Undergraduate Admissions has discretionary authority regarding these requirements under an approved procedure.*
Students wishing to pursue an associate degree should have completed the following college preparatory units:

<table>

Students admitted to the University may have their high school records evaluated by the college in which they are enrolled. Specific coursework, in addition to what is listed above, may be required in order to be accepted into a specific program or major. Since such coursework may vary depending on the college and degree requirements, students should check with advisors as to the academic expectations that need to be met.

**ADMISSION STATUS**

**New Freshman Applicants**

**Ohio Residents**

Ohio Residents who have graduated from a public or chartered high school or successfully completed the General Education Development (GED) test are eligible for admission to the University. Admission to restricted academic programs may have additional requirements.

Students graduating from an Ohio non-chartered high school must show evidence of having successfully passed the GED or have an ACT composite score of 17 or higher, or have a combined critical-reading and math SAT score of 820 or higher.

Applicants who have been out of high school two or more years are not required to submit ACT or SAT test results.

**Home-schooled applicants** must meet the following criteria:

1. Applicants are required to submit results from the ACT or SAT. Those applicants who have been out of school for two or more years are exempt from this requirement.
2. An official transcript showing documentation of coursework completed of grades 9-12 and indicating date of completion of studies or graduation must be sent to Admissions.
3. Any relevant supporting documents required by the applicant's home state verifying home school curriculum.
4. Curriculum outline, detailing course content, textbooks used, and any other relevant information regarding coursework must be submitted to Admissions.
5. A copy of the Superintendent’s Exemption Notice showing the student is excused to receive home schooling.

**Out-of-State Residents**

Out-of-state residents must have graduated from a high school with a state-approved diploma and be ranked in the upper two-thirds of their graduating class; or have an ACT composite score of 17 or higher, or have a combined SAT critical-reading and math score of 820 or higher.

Applicants who have been out of high school two or more years are not required to submit ACT or SAT test results.

Out-of-state residents who hold a valid GED will be evaluated upon an individual basis but may also be required to have an ACT composite score of 17 or higher, or have a combined SAT critical-reading and math score of 820 or higher.

**Home-schooled students** must meet the following requirements:

1. Applicants are required to submit results from the ACT or SAT. Those applicants who have been out of school for two or more years are exempt from this requirement.
2. An official transcript showing documentation of coursework completed of grades 9-12 and indicating date of completion of studies or graduation must be sent to Admissions.
3. Any relevant supporting documents required by the applicant's home state verifying home school curriculum.
4. Curriculum outline, detailing course content, textbooks used, and any other relevant information regarding coursework must be submitted to Admissions.
5. A copy of the Superintendent’s Exemption Notice showing the student is excused to receive home schooling.

**Mercer and Lawrence Counties**

By special agreement, residents of Mercer and Lawrence Counties in Pennsylvania are afforded the same admission requirements as Ohio residents.

**Athletics Participation**

Students planning to participate in intercollegiate athletics in their first year at YSU must take either the SAT or the ACT prior to enrolling in college. Please call the Office of Intercollegiate Athletics at 330-941-2282 for more information about eligibility for athletics participation.

**Conditional Admission**

Students will be admitted to YSU with conditions if their high school grade point average is below 2.00 and their composite ACT is 17 or below (or SAT critical-reading and math composite is 820 or below).
If a student has a high school GPA below 2.00 (or does not have a high school GPA) and has not taken the ACT or SAT, the student will be conditionally admitted. However, if a conditionally admitted student who has not taken the ACT or SAT tests out of RSS 1510b and ENGL 1539 on the placement exams, the student will be reclassified as a regular-admission student.

Conditionally admitted students must meet the following requirements:

1. Conditionally admitted students cannot register for more than 14 semester hours in a single semester.
2. Students placing into R&SK 1510b must take that course in their first semester.
3. Students placing into R&SK 1510a, ENGL 1539, or ENGL 1540 must take those courses within their first 20 semester hours.
4. Conditionally admitted students are restricted to an approved list of courses (see course listing below). They may take courses not on the list with the approval of an academic advisor.
5. Conditionally admitted students must receive approval of their course schedule by an academic advisor.
6. Conditionally admitted students must, in their first semester, sign a contract with a coordinator in the Center for Student Progress committing them to work with the center until their conditional admission status is removed.

The restrictions imposed on coursework and semester hours will be removed when the student has done the following:

1. Successfully completed any developmental courses that the student has tested into (RSS 1510a, RSS 1510b, ENGL 1539 or 1540).
2. Successfully completed six semester hours of non-developmental courses
3. Achieved good academic standing.
4. Fulfilled the contract with a coordinator in the Center for Student Progress.

A student fulfilling these requirements may file a petition with an academic advisor to have the restrictions removed.

Approved courses for conditionally admitted students:

* Indicates that the course has a prerequisite

English Requirement for Permanent Residents, Refugees, or Political Asylees

YSU requires proof that you have sufficient knowledge of the English language to follow your program of study.

If your native language is not English, please see International Student Applicants section on p. 20.

Early Admissions Options Program

Youngstown State University offers an Early Admission Options Program (EAOP) which provides additional academic challenges to high school students who have demonstrated above-average academic performance. The program allows qualified high school students to experience college-level course work, supplement their high school curriculum, enjoy special interests and accumulate college credit. Course work may be applied toward a program at Youngstown State University or may be transferable. Since this is a selective admission program, students must contact the Office of Undergraduate Admissions in sufficient time to review admission standards. Financial responsibility for coursework is solely that of the student. EAOP students who plan to continue at YSU after graduation from high school must reapply to YSU and provide a final high school transcript to the Office of Undergraduate Admissions. Students interested in the EAOP should contact the Admissions Office.

Post-Secondary Enrollment Options (Senate Bill 140) Program

The Ohio General Assembly has adopted a Post-Secondary Enrollment Options program (SB 140) designed to provide Ohio high school students with additional options for learning at no cost to the student. Youngstown State University welcomes the opportunity to work with high school students, their parents, and high school personnel interested in this program. The experience allows appropriately qualified students to earn college and high school graduation credits. Applications are submitted in the spring of each year for consideration of participation beginning with the following fall semester. Summer is not included in this program. However, if students wish to attend YSU during the summer term, they may do so through EAOP. Details may be obtained from local high school guidance offices or the Office of Undergraduate Admissions.

Articulated Credit

In the presence of a formal agreement between Youngstown State University and a particular career center or high school, students may earn college credit for specified courses they successfully completed in high school. Youngstown State University has several program-specific articulation agreements with career centers and high schools, including Ashtabula County Joint Vocational School, Choffin Career and Technical Center, Columbiana County Career and Technical Center, Girard High School, Mahoning
Youngstown State University

County Career and Technical Center, Maplewood Career Center, Trumbull Career and Technical Center and Mercer County Career and Technical Center. Students in those articulated programs receive instructions from their career/technical center or high school about how to have earned credits posted to their YSU transcripts after they enroll at YSU. Students who complete College Tech Prep programs may also receive specified articulated college credit. For information about College Tech Prep programs at YSU, see http://www.ysu.edu/adtp.

High School Transcripts

Applicants must arrange to have their high schools send to the Office of Undergraduate Admissions a record of all work completed. Partial transcripts will be given consideration for early decisions. If the applicant’s record clearly indicates satisfactory completion, notification of conditional acceptance will be made before high school graduation.

Non-Matriculated Admission

The option of non-matriculated admission provides an opportunity for adults out of high school two or more years to enroll in undergraduate courses without completion of the regular admission process. High school or previous collegiate transcripts are not required until the non-matriculated student completes 18 credit hours or decides to seek admission to a degree program. Coursework taken in the 18 semester hours as a non-matriculated student can be applied to a degree program at Youngstown State University. Non-matriculated students are able to register only after current students have registered.

Applications for non-matriculated admission can be obtained through the Office of Undergraduate Admissions.

TRANSFER

An applicant who has graduated from high school and was enrolled in another college or university for at least one course is classified as a transfer applicant. This classification includes post-graduate applicants from other institutions seeking additional undergraduate coursework.

The Ohio Board of Regents in 1990, following a directive of the 119th Ohio General Assembly, developed the Ohio Articulation and Transfer Policy to facilitate students’ ability to transfer credits from one Ohio public college or university to another in order to avoid duplication of course requirements. A subsequent policy review and recommendations produced by the Articulation and Transfer Advisory Council in 2004, together with mandates from the 125th Ohio General Assembly in the form of Amended Substitute House Bill 95, have prompted improvements of the original policy. While all state-assisted colleges and universities are required to follow the Ohio Articulation and Transfer Policy, independent colleges and universities in Ohio may or may not participate in the transfer policy. Therefore, students interested in transferring to independent institutions are encouraged to check with the college or university of their choice regarding transfer agreements. In support of improved articulation and transfer processes, the Ohio Board of Regents has established a transfer clearinghouse to receive, annotate, and convey transcripts among state-assisted colleges and universities. This system is designed to provide standardized information and help colleges and universities reduce undesirable variability in the transfer credit evaluation process.

OBOR Transfer Module

The Ohio Board of Regents’ Transfer and Articulation Policy established the transfer module, which is a subset or entire set of a college or university’s general education curriculum in A.A., A.S. and baccalaureate degree programs. Students in applied associate degree programs may complete some individual transfer module courses within their degree program or continue beyond the degree program to complete the entire transfer module. The transfer module contains 54-60 quarter hours or 36-40 semester hours of course credit in English composition (minimum 5-6 quarter hours or 3 semester hours); mathematics, statistics and formal/symbolic logic (minimum of 3 quarter hours or 3 semester hours); arts/humanities (minimum 9 quarter hours or 6 semester hours); social and behavioral sciences (minimum of 9 quarter hours or 6 semester hours). Oral communication and interdisciplinary areas may be included as additional options. Additional elective hours from among these areas make up the total hours for a completed transfer module. Courses for the transfer module should be 100- and 200-level general education courses commonly completed in the first two years of a student’s course of study. Each state-assisted university, technical and community college is required to establish and maintain an approved transfer module.

Transfer module course(s) or the full module completed at one college or university will automatically meet the requirements of individual transfer module course(s) or the full transfer module at another college or university once the student is admitted. Students may be required, however, to meet additional general education requirements at the institution to which they transfer. For example, a student who completes the transfer module at Institution S (sending institution) and then transfers to Institution R (receiving institution) is said to have completed the transfer module portion of Institution R’s general education program. Institution R, however, may have general education courses that go beyond its transfer module. State policy initially required that all courses in the Transfer Module be completed to receive its benefit in transfer. However, subsequent policy revisions have extended this benefit to the completion of individual transfer module courses on a course-by-course basis.
Transfer Assurance Guides

Transfer Assurance Guides (TAGs) comprise transfer module courses and additional courses required for an academic major. A TAG is an advising tool to assist Ohio university and community and technical college students planning specific majors to make course selections that will ensure comparable, compatible, and equivalent learning experiences across the state's higher-education system. A number of area-specific TAG pathways in the arts, humanities, business, communication, education, health, mathematics, science, engineering, engineering technologies, and the social sciences have been developed by faculty teams. TAGs empower students to make informed course selection decisions and plans for their future transfer. Advisors at the institution to which a student wishes to transfer should also be consulted during the transfer process. Students may elect to complete the full TAG or any subset of courses from the TAG. Because of specific major requirements, early identification of a student’s intended major is encouraged. TAG courses count toward the major without adding to the overall total of credits in the particular major.

Students should also check with their department about which courses have received approval from OBOR as part of the Transfer Assurance Guide program. Only those courses that have received such approval can be guaranteed transfer credit as part of the major. Students may also check with the OBOR TAG website link http://regents.ohio.gov/transfer/index.php.

OBOR Conditions for Transfer Admission

1. Ohio residents with associate degrees from state-assisted institutions and a completed, approved transfer module shall be admitted to any state institution of higher education in Ohio, provided their cumulative grade point average is at least 2.0 for all previous college-level courses. Further, these students shall have admission priority over out-of-state associate degree graduates and transfer students.

2. When students have earned associate degrees but have not completed a transfer module, they will be eligible for preferential consideration for admission as transfer students if they have grade point averages of at least a 2.0 for all previous college-level courses.

3. In order to encourage completion of the baccalaureate degree, students who are not enrolled in an A.A. or A.S. degree program but have earned 60 semester or 90 quarter hours or more of credit toward a baccalaureate degree with a grade point average of at least a 2.0 for all previous college-level courses will be eligible for preferential consideration for admission as transfer students.

4. Students who have not earned an A.A. or A.S. degree or who have not earned 60 semester hours or 90 quarter hours of credit with a grade point average of at least a 2.0 for all previous college-level courses are eligible for admission as transfer students on a competitive basis.

5. Incoming transfer students admitted to a college or university shall compete for admission to selective programs, majors, and units on an equal basis with students native to the receiving institution.

Admission to a given institution, however, does not guarantee that a transfer student will be automatically admitted to all majors, minors, or fields of concentration at the institution. Once admitted, transfer students shall be subject to the same regulations governing applicability of catalog requirements as native students. Furthermore, transfer students shall be accorded the same class standing and other privileges as native students on the basis of the number of credits earned. All residency requirements must be completed at the receiving institution.

Acceptance of Transfer Credit

To recognize courses appropriately and provide equity in the treatment of incoming transfer students and students native to the receiving institution, transfer credit will be accepted for all successfully completed college-level courses completed in and after fall 2005 from Ohio state-assisted institutions of higher education. Students who successfully complete A.A. or A.S. degrees prior to fall 2005 with a 2.0 or better overall grade point average would also receive credit for all college-level courses they have passed. (See Ohio Articulation and Transfer Policy, Definition of Passing Grade, Appendix D on the OBOR website, http://regents.ohio.gov/transfer/index.php) While this reflects the baseline policy requirement, individual institutions may set equitable institutional policies that are more accepting. Pass/fail courses, credit by examination courses, experiential learning courses, and other nontraditional credit courses that meet these conditions will also be accepted and posted to the student record.

Transferring to YSU

Transfer Credit

Transfer credit is given for all coursework taken at a regionally accredited institution, provided that the student has a cumulative point average equivalent to at least a 2.0 (on a 4.0 system) at that institution and the work is creditable towards a degree at that institution. YSU accepts a “D” grade on the same basis as the rules governing native students. Courses from nonregionally-accredited institutions may be accepted on a case-by-case basis with the approval of the chair of the department and the dean of the college in which the course would be housed at YSU. For example, a “D” grade might not satisfy a prerequisite for which a higher grade is needed.

Conditions for transfer admission to the University are in line with OBOR rules and regulations (see above). Per OBOR policy, the University recognizes
the associate degree as preliminary to the baccalaureate and admits advanced-standing students possessing the associate degree from a regionally accredited institution. Transfer credit is granted for all work successfully completed from the associate degree. Admission to the University does not guarantee that a transfer student will be automatically admitted to all majors, minors, or fields of concentration. Some programs within the University have separate admission standards that must be met before a student may enroll in that particular program. Please consult the appropriate college or department for information on restricted program admissions. Once admitted, transfer students shall be subject to the same regulations governing applicability of catalog requirements, class standing, and other privileges as all other native students.

Transfer applicants who are in good standing at the last institution attended and who have an aggregate cumulative point average of 2.0 or higher (on a 4.0 system) for all previous college-level courses are admitted in good standing. Transfer applicants with an aggregate cumulative point average of less than 2.0 or who are on probation will be admitted on probationary status for one term. Applicants suspended or dismissed from their most recent institutions are not eligible for admission until at least one semester (excluding summer) has passed following the term in which the suspension occurred. Transfer students with multiple suspensions or a dismissal may not be eligible for admission. See the reinstatement policy for YSU students in the University Bulletin. Consistent with undergraduate academic policy, failure to maintain a grade point average of 2.0 or higher (on a 4.0 system) during the probationary semester will result in academic suspension.

Transfer students will receive a preliminary review of the transfer ability of their courses from the Office of Undergraduate Admissions. The university is continuing the process of examining all courses from surrounding collegiate institutions. Both the department chairs and the coordinator of General Education work with the Office of Undergraduate Admissions to identify courses that equate or courses that could count toward a major or general education credit. The appropriate school or college and/or department and/or coordinator of general education in accordance with policies governing the fulfillment of degree requirements will determine distribution of any accepted course work.

Credentials for Transfer Students

Official transcripts must be sent directly from the issuing institution to the YSU Office of Undergraduate Admissions. The Ohio Board of Regents has established a transfer clearinghouse to receive, annotate, and convey transcripts among state-assisted colleges and universities.

Pre-baccalaureate. All undergraduate transfer applicants will need to provide the Youngstown State University Office of Undergraduate Admissions with an official copy of their high school transcript and must provide an official copy of all undergraduate transcripts.

Baccalaureate. Postgraduate applicants are required to submit a transcript from the institution that granted their highest degree. High school transcripts and any other undergraduate transcripts are not required unless specifically requested by YSU.

General Education and the Transfer Module

1) Per the articulation and transfer module guidelines developed by the Ohio Board of Regents, any student transferring to YSU with a completed transfer module from another Ohio public institution of higher learning will receive credit for all hours (36-40 semester hours; 54-60 quarter hours) contained within the module. Furthermore, the transfer module portion of YSU's General Education Requirements will be judged to be completed.

2) For those students who have completed the transfer module at another university or college, equates will be established for YSU courses and the transferred courses. The General Education Office will determine how many hours remain to be completed and which domains need to be satisfied. Students may find a list of courses that satisfy each domain on the general education website www.ysu.edu/ger/.

3) For those students who have not completed the transfer module at another school, OBOR has guaranteed that any approved transfer module course taken at one institution must receive general education credit at the receiving institution. YSU has also determined that courses beyond the TM list may satisfy general education requirements. The Office of Undergraduate Admissions will process equates between YSU courses and the transferred courses. Advisors, in conjunction with the General Education Office, will determine which courses being transferred fit within the YSU general education model. The student will then be advised as to how many courses in each domain must be taken to satisfy the general education requirements at this university. Each student must complete a capstone course at Youngstown State University.

Transfer from a Regionally Accredited Institution—Articulation Agreements

YSU also has a number of articulation agreements with community colleges in Ohio and western Pennsylvania. Through these agreements a maximum number of credits from the associate-degree-granting institution will be applied toward a bachelor's degree program at YSU. Associate-degree holders meeting that criterion will, in most cases, be admitted with junior standing at Youngstown State and entitled to all the rights and privileges of native junior students, including eligibility for financial aid and priority in registration. The colleges listed below will have information on each of their articulation agreements.
College of Liberal Arts and Social Sciences
Eastern Gateway Community College
Butler County Community College

Beeghly College of Education
Eastern Gateway Community College—early childhood education
A consortium of fourteen Ohio public and private institutions in northeast Ohio

College of Science, Technology, Engineering, and Mathematics
Eastern Gateway Community College—Power Plant Technology
Belmont Technical College—Power Plant Technology

Bitonte College of Health and Human Services
Loraine County Community College
Allied Health Partnership Program
Criminal Justice Baccalaureate Degree Program
Public Health Partnership Program
Social Work Baccalaureate Degree Partnership
Cuyahoga County Community College
Allied Health Partnership
Columbus State Community College
Allied Health Partnership Program
Winner Institute of Arts & Sciences
Culinary Arts Partnership Program
National Restaurant Association
Hospitality Management Academic Credit
Food and Nutrition Academic Credit

The College also has articulation agreements with the following career and technical centers to award college credit for various courses: Choffin, Mahoning County, Trumbull County, and Columbiana County. Most of this credit is applicable in the Departments of Health Professions and Criminal Justice & Forensic Sciences. Please contact those departments for additional information.

Articulation agreements are pending with several other institutions in the region. Applicants who have not completed an associate program are considered on the same basis as other transfer applicants.

Transferring from YSU

In order to facilitate transfer with maximum applicability of transfer credit, prospective transfer students should plan a course of study that will meet the requirements of a degree program at the receiving institution. Students should use the Transfer Module (see below), Transfer Assurance Guides (http://regents.ohio.gov/transfer/index.php), and Course Applicability System (http://www.transfer.org/uselect/) for guidance in planning the transfer process.

Specifically, students should identify early in their collegiate studies an institution and major to which they desire to transfer. Furthermore, students should determine if there are language requirements or any special course requirements that can be met during the freshman or sophomore year. This will enable students to plan and pursue a course of study that will articulate with the receiving institution’s major. Students are encouraged to seek further information regarding transfer from both their advisor and the college or university to which they plan to transfer.

YSU TAG Courses

Students should check with their department about which courses have received approval from OBOR as part of the Transfer Assurance Guide program. Only those courses that have received such approval can be guaranteed transfer credit as part of the major at another state institution. Students may also check with the OBOR TAG website link (http://regents.ohio.gov/transfer/index.php).

YSU Transfer Module

Based on OBOR guidelines, students wishing to transfer to another state college or university can complete the general education transfer module by taking the following:

Writing I, II (6 hours), one of the substitute mathematics courses (see GER Basic Skills chart, 3-5 hours), Natural Science (must include one laboratory science and two different disciplines, 6-9 hours), Arts/Humanities (must include two different disciplines, 6-9 hours), Social and Behavioral Sciences (must include two different disciplines, 6-9 hours), Oral Communication Course (3 hours) and Interdisciplinary Studies wherein students may substitute one course designated as a special topics course for natural science, arts/humanities or social and behavioral sciences.

Consult with an advisor or the General Education Office to determine in which area special topics courses may substitute. No course may count unless it is on the 1500 or 2600 level. The student must take the minimum credits in each category and at least 36 credits overall to complete the transfer module. However, each course approved as part of a university’s Transfer Module is guaranteed credit at another state institution as a general education course.

Students planning to transfer from YSU should refer to the Bulletin (see the tables on pages 47 and 48) for a list of general education courses approved as part of the transfer module. Only those with a diamond will receive general education credit. This information will also be available on the general education website, which is linked to the YSU homepage. Since these state-defined categories do not match the domains at YSU, a student planning to transfer to YSU should check with the general education coordinator (330-941-2983) to determine where their general education courses fit within the YSU general education program.
Advanced Placement (AP)

The state of Ohio, working through the University System of Ohio, has initiated policies to facilitate the ease of transition from high school to college as well as between and among Ohio’s public colleges and universities.

Beginning in the fall term 2009:

1. Students obtaining an Advanced Placement (AP) exam score of 3 or above will be awarded the aligned course(s) and credits for the AP exam area(s) successfully completed.

2. General education courses and credits received will be applied towards graduation and will satisfy a general education requirement if the course(s) to which the AP area is equivalent fulfill a requirement.

3. If an equivalent course is not available for the AP exam area completed, elective or area credit will be awarded in the appropriate academic discipline and will be applied towards graduation where such elective credit options exist within the academic major.

4. Additional courses or credits may be available when a score of 4 or 5 is obtained. Award of credit for higher score values varies depending on the institution and academic discipline.

5. In academic disciplines containing highly dependent sequences (mathematics, sciences, etc.) students are strongly advised to confer with the college/university advising staff to ensure they have the appropriate foundation to be successful in advanced coursework within the sequence.

Appeals

A student who disagrees with the award of transfer credit by the receiving institution has the right to appeal the decision and should contact the Office of Undergraduate Admissions to begin the process. The institution will make the student aware of the entire appeal process at the time of contact. You can also visit this website for an explanation of the process—http://www.ysu.edu/admissions/pdfs/transfer_appeal.pdf

Admission with Non-Traditional Credit

You may be admitted to Youngstown State University with credits from non-traditional educational sources.

Veterans

Efforts are made to give all necessary guidance and assistance to military veterans and others eligible for VA educational benefits.

Courses taken through the United States Armed Forces Institute (USAFI) or the Defense Activity for Non-Traditional Education Support (DANTES) as well as certain formal service school courses may be considered for transfer toward the student’s degree program. USAFI or DANTES courses must be evidenced by an official transcript, and service school courses by certification of in-service training on DD Form 214 (Armed Forces of the United States Report of Transfer or Discharge).

An individual who has served or is serving in the United States Armed Forces and has completed Basic Military Training will receive credit for that training. Credit may also be granted for Advanced Individual Training (A.I.T.) obtained while a member of U.S. Armed Forces. A copy of the applicant’s DD 214 or DD 229 must be supplied to the Office of Veterans Affairs in order to validate such credit. AARTS (Army), SMARTS (Sailors and Marines), CCAF (Air Force), and Coast Guard Institute transcripts should be provided to the Office of Admissions. Granting of credit for A.I.T. will be based on the American Council of Education’s (A.C.E.) recommendation. Credits granted may not be applicable to specific degree requirements. The University participates in the Con-Ap Program.

Questions should be addressed to the Office of Veterans Affairs, 330-941-2503.

Credit by Examination

Credit by examination is available to students who satisfactorily complete the appropriate subject examination.

Advanced Placement Program (APP)—available only through student’s high school.

College Level Examination Program (CLEP)

Departmental Examinations—Call the specific department for a list of available exams and registration information.

Online Credit

The University will accept online work taken in connection with a regionally accredited institution under the same circumstances as provided in the section titled “Transfer Credit.”

Transient Applicants

A student seeking a degree at another institution may ordinarily take one semester of course work at YSU as a transient student. The student must apply for admission to the University and provide a statement from the registrar from the student’s current institution that she or he is in good standing. Only students in good academic standing and eligible to return to their institution will be permitted to enroll as transients. Students who wish to remain as a transient student for a second consecutive semester should contact Undergraduate Admissions. A transient student who wishes to transfer to Youngstown State University must complete an Undergraduate Application Form, provide an official high school transcript, and submit official transcripts from all other colleges attended.
Former-Student Applicants

All students who have interrupted their attendance at Youngstown State University for three consecutive semesters must reactivate their record in the Office of the Registrar or in the Office of Records. Students who have attended any accredited college or university since last attending YSU must contact the Office of Undergraduate Admissions, submit an application and provide all official documentation described under, “Credentials for Transfer Students.”

Suspended Students

A former student who was academically suspended must apply for reinstatement to the dean of the college he or she wishes to attend. Reinstatement procedures may vary with the college. For details, consult either the Office of Records or the appropriate dean’s office.

See Grade Requirements on p. 40 for rules regarding suspension and reinstatement.

Combined Bachelor of Science/Doctor of Medicine Applicants (B.S./M.D.)

Prospective students seeking admission to the YSU combined B.S./M.D. degree program must submit an application for admission to Northeastern Ohio Universities Colleges of Medicine and Pharmacy and must take either the ACT or the SAT. Official results from either the ACT or SAT must be sent directly to the Northeastern Ohio Universities Colleges of Medicine and Pharmacy from the testing agency. Also, high school transcripts with grades through the junior year must be mailed directly from the high school to the Northeastern Ohio Universities Colleges of Medicine and Pharmacy.

Northeastern Ohio Universities College of Medicine is a publicly chartered and funded institution in the state of Ohio. Therefore, its charter mandates giving admissions preference to residents of the state of Ohio as defined by the Ohio Board of Regents. Only U.S. citizens and permanent residents may be considered for admission to NEOUCOM. Upon application, you must have U.S. citizenship or permanent-resident status.

The application and official transcripts and test results deadline is December 15 preceding the summer in which the program begins. There is also an Early Action Program. Students should consult with NEOUCOM regarding this. Also see the website http://neoucom.edu/audience/about.

INTERNATIONAL STUDENT APPLICANTS

Youngstown State University welcomes applications from qualified students around the world. The University’s Center for International Studies and Programs (CISP) provides a wide range of support services for international students, described in detail in other sections of this Bulletin.

Applicants who are not U.S. citizens or legal permanent residents apply for admission through the CISP (www.ysu.edu/cisp).

General Admission Statement

The admission information contained in this section reflects standard admissions requirements. Meeting these requirements does not guarantee admission to the University or to specific programs. Persons who are not citizens of the U.S. but hold permanent resident, refugee, or political asylee status should apply based on their state of residence.

International Freshman and Overseas Transfer Students

Applicants from overseas must submit the following information well in advance of the desired date of admission. Admission is possible during all terms provided the deadline for application is met. Students should plan to arrive one week prior to the beginning of the term.

1. A completed application form, a $30 non-refundable application fee (to be drawn on a U.S. bank) and a list of all educational experiences including studies undertaken in the U.S. Applicants seeking F-1 or J-1 (student) nonimmigrant status must submit certification of sufficient financial resources available for education and living expenses while attending the University.
2. Official credentials and transcripts from all secondary schools, colleges, and universities that the student has attended, including subjects studied, grades, and a key to the grading system. If credentials are not in English, official translations must be provided. Transfer credits may be granted for courses taken at U.S. and overseas accredited institutions only if an official syllabus or course description is provided; other options include credit by examination. Evidence of academic and disciplinary good standing at the last prior institution with a minimum grade point average of 2.00 (on a 4.00 scale). Some YSU programs may have higher requirements.
3. Transfer applicants who have successfully completed more than one year of full-time post-secondary study (excluding English-as-a-second-language [ESL] courses) do not need to submit secondary school records or results of school certificate, matriculation, or certificate of education examinations. However, they must submit official transcripts and syllabi for all college-level work as described above.
4. English Language Proficiency

Applicants whose education is from an English-medium secondary or postsecondary institution in the following countries are exempt from the standardized English proficiency testing requirement: Antigua & Barbuda, Australia, Bahamas, Barbados, Belize, Bermuda, Botswana, the British Caribbean and British West Indies, Canada, Cook Islands, Dominica, Fiji, Gambia, Ghana, Granada, Guyana, Ireland, Jamaica, Kenya, Kiribati, Liberia, Mauritius, Micronesia, Namibia, Nauru, New Zealand, Nigeria, Niue, Northern Mariannas, Papua New Guinea, St. Christopher Nevis, St. Lucia, St. Vincent, Seychelles, Sierra Leone, Solomon Islands, South Africa, Swaziland, Trinidad & Tobago, Uganda, United Kingdom and the United States (except Puerto Rico), Zambia, and Zimbabwe. International students who graduate from an English-medium secondary school in the United States are required to submit either the ACT or SAT.

All other applicants for whom English is a second language must present evidence of proficiency in the English language in one of the following ways:

1) Official Test Score on one of the following:
   a) Test of English as a Foreign Language (TOEFL) directly from the Educational Testing Service (ETS) with a minimum score of:
      • 500 or higher on the paper & pencil test
      • 173 or higher on the computer-based test, or
      • 61 or higher on the Internet Based TOEFL test (iBT)
   b) a minimum score of 69 on the Michigan English Language Assessment Battery Test (MELAB)
   c) a minimum score of 5.5 composite on the International English Language Testing System (IELTS)
   d) a minimum score of GRADE 1 on the Society for Testing English Language Proficiency (STEP) Test
   e) a minimum score of 950 on the SAT II English Language Proficiency Test

2) Successful completion of 24 semester hours of college-level coursework from an accredited English-medium college in the United States or another country where English is an official language.

3) Students may also be referred to enroll in CISP’s full-time English Language Institute (ELI); for information call 330-941-2336 for applications. Successful completion of the English Language Institute at YSU fulfills the proficiency requirement (determined by examination and classroom assessment).

4) Applicants whose standardized test score is below the minimum may be admitted, at the discretion of the University, if there is compelling additional evidence of English language proficiency commensurate with academic study at YSU.

Students may be required to enroll in supplemental noncredit courses in English as a second language (ESL). Applicants may be required to submit additional materials.

TOEFL/MELAB Registration and Official Score Reports

It is to your advantage to take the TOEFL early or before the application process. The TOEFL Bulletin, which includes a registration form, is available in many locations outside of the U.S., usually at American embassies and consulates, U.S. educational commissions and foundations, binational centers, and many private organizations, such as the Institute of International Education (IIE), the African-American Institute (AAI), American-Mideast Educational and Training Services (AMIDEAST), and the American-Korean Foundation. You may also contact: TOEFL/ TSE Educational Testing Services, P.O. Box 6154, Princeton, NJ 08541-6154, USA (website www.toefl.org; telephone 609-771-7780). The official reporting TOEFL code for YSU is 1975.

You may register for the MELAB if you are unable to take the TOEFL. For more detailed information about the MELAB, contact: English Language Institute, MELAB Office, TCF Building, University of Michigan, 401 E. Liberty, Ste. 350, Ann Arbor, MI 48104-2298. Telephone 866-696-3522, fax 734-615-6586.

The English Language Institute (ELI)

The English Language Institute (ELI) at YSU was established through the Center for International Studies and Programs (CISP) and the Department of English to provide intensive study of English to speakers of other languages. It offers pre-college, non-credit courses designed to teach English to students who already have some knowledge of English. In addition, the ELI provides an orientation to college life and culture in the U.S. Courses are available both to international students and to immigrants.

English-as-a-second-language courses cannot be used as credit toward a degree. Applicants need to understand in advance that deficiencies in English may increase the amount of time and money required for completing a regular program of study.

Proficiency testing is also available by special arrangement. YSU’s Center for International Studies and Programs (CISP) administers both the institutional TOEFL and the MELAB. These scores are valid at YSU only.

For more information see English Language Institute (ELI) in the Special Academic Programs section on p. 75.

Types of Admission for International Students

Regular Admission

Regular admission will be granted if your records meet YSU’s academic requirements for admission, satisfy the high school curriculum requirements, and show that you have adequate preparation for study in your proposed major. Regular admission is unconditional admission.
Conditional Admission

Students meeting all the above admissions requirements except the specified level of English proficiency may be admitted conditionally. This admission is conditional upon successful completion of English language study at CISP's English Language Institute (ELI).

Admission with Transfer Credit

All transfer credit is evaluated by the Center for International Studies and Programs. Credits from accredited or officially recognized institutions in other countries will be evaluated upon presentation of official transcripts, official translations and course descriptions. Students holding undergraduate degrees equivalent to the bachelor's degree may be admitted to the University for post-baccalaureate study upon recommendation of the International Undergraduate Admissions Committee consisting of the dean of the proposed college, CISP's director, and the chair of the relevant department.

Standardized Academic Testing

Scores on the SAT or ACT are required only for the admission of international students from Canada, those who are attending U.S. high schools or international schools that follow a U.S. high school curriculum, and those who intend to participate in the intercollegiate athletic program and need to comply with NCAA eligibility requirements.

Other students will be tested on a case-by-case basis.

To receive more information about the SAT I: Reasoning Test, contact:
The College Board
SAT Program
P. O. Box 6200
Princeton, NJ 08541-6200 USA
Telephone: 609-771-7600
Web address: www.collegeboard.org
YSU's SAT reporting code number: 1975

To receive more information about the ACT, contact:
ACT National Office
500 ACT Drive
P.O. Box 168
Iowa City, IA 52243-0168
Telephone: 319-337-1000
Fax: 319-339-3020
Web address: www.act.org
YSU's ACT reporting code number: 3368

GRADUATE ADMISSION

Application for admission to the University for graduate study is made directly to the School of Graduate Studies and Research. (For details, consult the Graduate Bulletin or the School of Graduate Studies and Research website, http://www.ysu.edu/gradschool/)

CONTINUING EDUCATION

Information about workforce development, non-credit programs, and off-campus credit-bearing courses offered through YSU's Metro College can be found in this Bulletin in the University/Community Outreach section.

TUITION, FEES, AND CHARGES

Payment of Tuition and Fees

Student accounts are billed each semester. Tuition statements are sent out electronically, and an e-mail is sent each time a bill is issued. Current account information—including charges, payments, and refund amounts—is available online via the MyYSU Portal. Tuition statements may also be printed from this site.

Tuition and fees for the term are due in full on or before the date shown on the statement of account. Late and/or partial payments are subject to late payment fee assessment. You are strongly encouraged to pay your bill online. You may also make payment in person at the payment windows on the second floor of Meshel Hall, via the payment drop box also located on the second floor of Meshel Hall, or by mail to the Office of Student Accounts (One University Plaza, Youngstown, OH 44555). You may pay by check (made payable to Youngstown State University) or with Visa, MasterCard, or Discover. If you deliver a check in person, mail it, or place it in the payment drop box, you authorize us to convert that check to an electronic Automated Clearing House (ACH) transaction. That check will then appear on your monthly bank statement as an Electronic Debit. If you do not wish to have your paper check converted to an ACH, you must present it in person, or select an alternative payment method (for instance, credit card).

A payment plan is also available that will allow you to spread your payments out over a longer period. Payment plan enrollment must be processed online and requires an initial payment at the time of enrollment. There is a fee for enrollment in the payment plan, and late payments are subject to late payment fee assessment.

Students are solely responsible for timely payment of their tuition and fees. In the event that the account becomes past due, the University reserves the right to withhold services (e.g., transcripts, diplomas, registration) until the past-due balance is paid in full.

If full payment cannot be obtained, then the delinquent balance must be turned over to the Ohio Attorney General's Collection Enforcement Office for collection and it will be reported to the Credit Bureau. Once an account becomes delinquent, the student will be required to pay in advance of registering for subsequent terms. An account turned over to the Attorney General will incur interest and collection expenses which must be paid before any of the adverse sanctions can be removed.
# Student Fees and Charges

**Effective Fall 2010**

## Tuition

### *Instructional Fee*

**Undergraduate:**
- Part-time, 1 to 11 credits: $241.78 per credit
- Full-time, 12 to 16 credits: $2,901.36 per semester
- Undergraduate credits over 16: $241.78 per credit
- Graduate Students, 1 to 11 credits: $340.77 per credit
- Graduate Students, 12 to 16 credits: $4,089.24 per semester
- Graduate credits over 16: $340.77 per credit

Graduate Consortial Programs:
- Master of Fine Arts: $488.00 per credit
- Master of Public Health: $515.00 per credit
- Graduate Workshops Special Rates:
  - In-state Participant: $129.32 per credit
  - Regional Participant: $137.66 per credit
  - Non-Regional Participant: $137.66 per credit

**College of Liberal Arts & Social Sciences (Junior and Senior Level only):**
- Over 16 credits: $17.00 per credit
- 12-16 credits: $204.00 per semester
- Graduate credits over 16: $17.00 per credit

**College of Science, Technology, Engineering, & Mathematics (Junior and Senior Level only):**
- Over 16 credits: $6.50 per credit
- 12-16 credits: $204.00 per semester
- Graduate credits over 16: $17.00 per credit

**Bitonte College of Health & Human Services Fee (Junior and Senior Level only):**
- Over 16 credits: $488.00 per credit
- 12-16 credits: $515.00 per credit

**Doctoral Students, 1 to 11 credits:**
- Over 16 credits: $488.00 per credit
- Graduate Students, 12 to 16 credits: $515.00 per credit

**Graduate Workshops Special Rates:**
- Graduate credits over 16: $8.34 per credit
- Graduate Students, 12 to 16 credits: $100.08 per semester
- Graduate Students, 1 to 11 credits: $8.34 per credit

**Students registering for excess credits:**
- Over 16 credits: $236.36 per credit
- Students registering for 12-16 credits: $2,836.32 per semester
- Students registering for 1 to 11 credits: $112.19 per credit

**Undergraduate:**
- Students registering for credits over 16: $8.34 per credit
- Students registering for 1 to 11 credits: $8.34 per credit

## Non-Resident Tuition Surcharge

### Western Pennsylvania Advantage:

**Undergraduate:**
- Students registering for 1 to 11 credits: $8.34 per credit
- Students registering for 12 to 16 credits: $100.08 per semester
- Students registering for credits over 16: $8.34 per credit

**Regional Service Area:**

**Undergraduate:**
- Students registering for 1 to 11 credits: $112.19 per credit
- Students registering for 12 to 16 credits: $1,346.28 per semester
- Students registering for excess credits: $112.19 per credit
- Graduate Students, 1 to 11 credits: $8.34 per credit
- Graduate Students, 12 to 16 credits: $100.08 per semester
- Graduate credits over 16: $8.34 per credit

**Non-Regional Service Area:**

**Undergraduate:**
- Students registering for 1 to 11 credits: $236.36 per credit
- Students registering for 12 to 16 credits: $2,836.32 per semester
- Students registering for excess credits: $236.36 per credit
- Graduate Students, 1 to 11 credits: $8.34 per credit
- Graduate Students, 12 to 16 credits: $100.08 per semester
- Graduate credits over 16: $8.34 per credit

## College Fee

**Bitonte College of Health & Human Services Fee (Junior and Senior Level only):**
- Over 16 credits: $6.50 per credit
- 12-16 credits: $78.00 per semester

**College of Science, Technology, Engineering, & Mathematics (Junior and Senior Level only):**
- Over 16 credits: $17.00 per credit
- 12-16 credits: $204.00 per semester
- 11 credits: $17.00 per credit

**College of Liberal Arts & Social Sciences (Junior and Senior Level only):**
- Over 16 credits: $5.00 per credit
- 12-16 credits: $60.00 per semester
- 11 credits: $5.00 per credit

These fees are required of all students. The non-resident tuition surcharge, college fees, and others listed below may or may not apply.

††Western Pennsylvania Advantage service area is defined as including the counties of Erie, Crawford, Mercer, Venango, Lawrence, Butler, Beaver, Allegheny
†††The Youngstown State University regional service area, for non-resident tuition surcharge purposes, is defined as including the counties of Chautauqua, New York; Armstrong, Clarion, Fayette, Forest, Greene, Indiana, Jefferson, Warren, Washington, and Westmoreland, Pennsylvania; and Brooke, Hancock, Marshall, and Ohio, West Virginia.
††††Credit by Examination—Credit awarded for courses based upon the successful completion of a test administered by an academic department at YSU. The course title appears on the transcript but no grade is listed.
†††††Proficiency Examination—A course or courses may be waived based on the performance on an examination. No academic credit is given and the course is not listed on the transcript.

THE UNIVERSITY RESERVES THE RIGHT TO CHANGE ANY FEE WITHOUT NOTICE.
Your enrollment at the University creates a contract between you and YSU. If you choose not to attend the University, you must officially withdraw from all courses by the 14th day to receive 100% refund or reduction of charges (see refund policy on page 26). All days of the week are counted, including weekends and holidays, to determine the 14th day. Please be advised that all University offices are not open on weekends and holidays; thus, online withdrawal may be required.

If you decide to withdraw from the University once you have enrolled, you must access the registration functions through the MyYSU Portal (www.ysu.edu).

Fees

The Board of Trustees of Youngstown State University has pledged to make every effort to keep the required fees as low as is consistent with providing quality education. It is intended that fees not be adjusted more often than annually and that fee changes be announced in the spring or early summer. The Board of Trustees does, however, reserve the right to change any fee, charge or fine without notice if conditions warrant.

The table found on the following two pages lists all fees, charges and fines for the current academic year. An explanation of each follows.

Tuition. The sum of the instructional fee, the general fee, and the information services fee constitutes tuition.

Instructional Fee. This fee is assessed all students each term. The rate is per academic semester hour of credit for one to 12 credits or for more than 16 credits; it is a flat rate for students registering for 12 to 16 credits during one term. Students registering for 17 or more credits pay the flat rate plus the per-credit rate for each credit over 16. This fee supplements the state subsidy and is a source of revenue for the University's educational and general fund.

Audited Courses. Students may audit courses (i.e., register to take a course without receiving credit). The fee for auditing a course is the same as if the course were taken for credit.

General Fee. This fee is also assessed all students each term; the rate depends upon the number of credits registered for. This fee is for non-instructional services such as Kilcawley Center, intercollegiate athletics, intramural sports, performing artists and lecture programs, student government, and the Career Services Office.

Non-Resident Tuition Surcharges. As noted above, all students pay the instructional fee, the general fee, and the information services fee. Those students who are not legal residents of Ohio must pay a surcharge in addition. Students who are residents of the regional service area pay a lesser surcharge than do students who are legal residents of other states and/ or areas. The regional service area includes the counties of Chautauqua, New York; Armstrong, Clarion, Fayette, Forest, Green, Indiana, Jefferson, Warren, Washington, and Westmoreland, Pennsylvania; and Brooke, Hancock, Marshall and Ohio, West Virginia. Students who are residents of the following western Pennsylvania counties pay a further reduced surcharge: Allegheny, Beaver, Butler, Crawford, Erie, Lawrence, Mercer and Venango.

Information Services Fee. This fee is charged to all students each term. It is applied on a per-credit basis to provide information technology infrastructure and services across campus, including the new Student Information Systems, wireless connectivity, classroom technology, and a continuous strengthening and securing of the computing and networking environment. It provides support for technology enhancements and initiatives contained within the IT Master Plan, supporting the vision to keep pace with an evolving, interactive, student-centered and collaborative electronic learning environment.

College Fee. This fee is designed to recognize the differential cost of instruction among colleges. Examples of use include research instrumentation, enhanced teaching equipment, specialized software, specialized information resources (databases), maintenance and repair of capital equipment, technical and laboratory personnel support, and lab and instructional space upgrades.

Credit by Examination Fee. A fee is charged for each course for an individual examination provided by an academic department to determine whether a student can be given academic credit for his or her knowledge of the course material. The fee must be paid before the test can be taken. This fee is charged on a per-credit basis.

Health and Physical Education Locker and Towel Fee. Students enrolled in a class requiring use of a basket, or towel service in Beeghly Physical Education Center or the Sports Complex do not pay a fee. Other authorized persons pay a Campus Recreation Locker and Towel fee each academic term. Loss of or damage to the lock or towel will result in assessment of a replacement charge.

Late-Add Fee. Late adds will be granted on an exceptional basis only and there will be a late-add fee assessed for each course added after the add deadline. This fee is nonrefundable and cannot be appealed.

Late Payment Fees. Payment of a bill received after the due date results in assessment of a late payment fee. All fees and charges billed must be paid in full. Partial payments will result in assessment of a late fee. Payment plan participants who do not pay their scheduled payment amount by the due date are also subject to assessment of a late payment fee.

Late Registration Fee. A fee is charged a currently enrolled student who fails to register for the next term at the assigned time and later registers at the time assigned new or returning students.
Parking Permit Fee. A permit to park in YSU parking facilities will be issued to students and employees of the University upon payment of the fee. The fee is for the academic term and does not guarantee an available space in any particular lot. Some facilities are restricted (e.g. for students only, for faculty and staff only, or resident hall residents only). The current Driving and Parking Regulations pamphlet and parking lot map should be consulted. A daily fee is charged anyone without a permit who wishes to park in facilities designated for cash business. Persons other than employees and students who are on campus for a short period of time to conduct business may park in one of the visitors’ lots if space is available. The parking permit fee is refundable only if the student returns the permit access card and current validation sticker prior to the end of the 100% tuition refund period (see Reduction/Refund on following page). If a student completely withdraws, the permit, access card and current validation sticker must be returned within five days of either the withdrawal date or the last date of the 100% tuition refund period—whichever is earlier—in order to obtain a refund for this fee.

Performance Music Fee. This fee is charged in addition to the regular tuition. It is assessed students taking music lessons and is applied on a per-credit basis.

Proficiency Examination Fee. A fee is charged for an examination provided by an academic department to determine a student's proficiency for some reason other than assignment of academic credit. If academic credit is to be awarded, the credit by examination fee applies and not this fee.

Technology/Laboratory Materials Fee. This fee is designed to partially offset expenses associated with courses that make use of supplies, equipment or personnel support beyond that associated with typical lecture courses. Examples include chemical supplies, engineering equipment, computers, software, and lab monitors.

Testing Fees. The University Office of Testing supervises a variety of special tests used for admission to college, graduate, or professional schools. The fees are established by the agencies responsible for the tests. Students are advised to contact the Testing Office for information and to make reservations.

Undergraduate Application Fee. This fee is charged every new applicant for admission. This fee is non-refundable. Former students do not have to pay to apply for re-admission.

Service Charges

Check Replacement Fee. A nonrefundable fee is charged for each request to have a student refund check replaced.

Computer-Based Placement Re-Test Fee. A nonrefundable fee is charged each time a computer-based placement test is retaken.

Identification Card Replacement Charge. A nonrefundable fee is made for replacement of an ID card.

Payment Plan Enrollment Fee. A nonrefundable fee is charged for enrollment in the payment plan. All tuition and fees are due in full by the payment due date unless the student enrolls in the payment plan.

Physical Education Activity Charge. Certain activity courses (e.g. bowling, skiing, ice skating, scuba diving) are available only upon the payment of a charge sufficient to cover the cost of the facility or transportation. These charges are set by the operator of the facility, are paid by the student to that operator (not to the University), and are in addition to any other applicable fee.

Housing Charges. University housing is available for the academic year and summer terms. The academic year contract includes fall and spring terms. Charges are billed each semester. The residence contract includes room and full meal plan. In addition to the charge for service, a security deposit is required. Payment and refunds are as scheduled in the housing contract. Meal plans are also available for students who are not residents of University Housing.

Returned Check or Credit Card Charge. A charge is levied on anyone whose check or charge is returned unpaid by the bank. If any late payment results therefrom, the applicable fee is also assessed. Failure to pay billing of return check and/or charge within six days; and/or a second check/charge return will result in the University not accepting this type of payment at any of its collection points and may subject the student to financial suspension for the term.

Student Locker Rental. A limited number of lockers are available in various buildings for the convenience of commuting students. Locker payments and assignments are made in Kilcawley Center.

Thesis-Binding Charge. A charge is made for each copy of a master’s thesis bound by the William F. Maag, Jr. Library.

Transcript of Credits Charge. While no charge is made for normal transcript processing requests issued by the Office of Records, there are charges for rush or overnight express requests. Transcripts will not be issued for anyone with outstanding debts owed to the University.

Fines

Parking Violation Fine. Parking without a permit, parking in unauthorized areas and other offenses as identified in the Parking Regulations brochure will result in the issuance of a citation against the vehicle and its owner, or against the student responsible for the vehicle (e.g., a student driving a parent's car). Payment of a fine removes the citation. In certain cases, vehicles may be towed. See the regulations for detailed information.
Library Fines. Fines are assessed for failure to return books on time as stipulated or for the unauthorized removal of a reserved book. Willful damage or defacement of library materials or other property is a violation of state law and is punished as such.

Reduction/Refund of Fees and Charges Upon Withdrawal

To withdraw from a single course, or from all courses (complete withdrawal), it is necessary to access the registration functions online via the MyYSU Portal – Registration. It is the student's responsibility to confirm that the withdrawal was correctly processed, and the course(s) is (are) deleted. Nonattendance of class, or notification to the instructor or department, does not constitute official withdrawal.

Effective Summer 2009, if a student is permitted to withdraw from the University or if a student reduces his or her academic load, a refund of the tuition charge, and the nonresident tuition surcharge, where applicable, shall be made in conformity with the following schedule for regularly scheduled courses:

<table>
<thead>
<tr>
<th>Length of Course</th>
<th>100% refund/reduction thru the 14th day*</th>
<th>No reduction of charges 15th day and later*</th>
</tr>
</thead>
<tbody>
<tr>
<td>6 weeks or more</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

*Since access to registration/change of registration is now available online 24/7, every day of the week is counted (including weekends and holidays) when calculating tuition refunds. Be advised that University offices are not open most weekends and/or on holidays. Therefore, online withdrawal may be required.

Note: For a complete withdrawal from any term, all applicable fees, fines, and penalties will be deducted from any refunds. If fees were paid by scholarship, loan or grant-in-aid, the appropriate credit will be issued to the fund from which the initial payment was made. Student accounts paid with financial aid may be subject to a financial aid repayment. No refunds will be issued until after the 15th day of the term.

If the student withdraws after the prescribed time limits (as indicated above), all tuition and other applicable fees and charges are forfeited.

If fees were paid by scholarship, loan or grant-in-aid, the appropriate credit is issued to the fund from which the initial payment was made. Refunds are calculated for Title IV recipients who completely withdraw during the first 60% of the semester.

Title IV financial aid funds are awarded to a student under the assumption that the student will attend school for the entire period for which the assistance was awarded. If a student completely withdraws on or before the 60% point in time of the period of enrollment, calculated using calendar days, a portion of the federal aid awarded (Federal Pell, SEOG, Perkins Loans, Stafford, and PLUS Loans—but not Federal Work Study) may need to be returned according to the provisions of the Higher Education Amendments of 1998. This recalculation may result in the student's owing a balance to Youngstown State University and/or the federal Department of Education.

Any withdrawal, or reduction in academic hours after the schedule outlined above will not be entitled to a reduction of charges and/or refund unless an Application for Involuntary Withdrawal is submitted and approved by the Fees and Charges Appeal Board. All decisions made by this board are final and binding.

If a student withdraws for reasons beyond his or her control (e.g., illness, military service, job transfer, or shift change imposed by the employer that creates a direct conflict with the class schedule), the fee charges may be reduced in proportion to the number of weeks enrolled, upon submission and approval of an application for involuntary withdrawal.

An application for involuntary withdrawal can be processed only for courses in which the student has already received a grade of “W” (withdrawn). Applications for involuntary withdrawal will be considered only for terms falling within the immediately preceding one-year time period (3 semesters). Appeals pertaining to terms beyond this one-year time limit will not be accepted. All applications for involuntary withdrawal must be documented, and are processed only by mail on forms provided by Student Accounts. Address such correspondence to the Fees and Charges Appeals Board, c/o Student Accounts, Youngstown State University, One University Plaza, Youngstown, OH 44555.

FINANCIAL AID AND SCHOLARSHIPS

The University has a comprehensive program of financial assistance which includes scholarships, grants, work-study, and loans. Most of these programs are administered by the Office of Financial Aid and Scholarships.

All YSU applicants for admission or current YSU students seeking financial aid should apply no later than February 15 of the year in which aid is desired. For maximum consideration, students should apply online at www.ysu.edu/finaid. There you will find:

1) Free Application for Federal Student Aid (FAFSA) to apply for all federal and state aid and for need-based scholarships and grants.

2) Youngstown State University Institutional Aid Application to apply for certain miscellaneous scholarships.

If students meet the February 15 priority filing date for financial aid consideration, they will receive a YSU financial aid offer by the end of April. Prospective students are strongly encouraged to apply for financial aid as early as possible.
TYPES OF FINANCIAL AID

Scholarships (Gift Aid)

Scholarships are gift aid awarded to students on the basis of superior academic performance or talent, other criteria, and/or financial need. Scholarships do not have to be repaid. Amounts may vary depending on academic ability, financial need and/or the current state of funding or endowment support for the scholarship. Scholarship funds have been established at YSU by individuals, corporations, clubs, and religious and fraternal organizations. In addition, the Youngstown State University Foundation administers endowments which provide substantial funding for numerous scholarship programs at Youngstown State University, including the Scholarships for Excellence program.

Scholarship awards to Youngstown State University students are based upon the student’s academic record, character, and/or financial need. Scholarships for entering freshmen are awarded on the basis of high school academic record, recommendation by high school administrators, scores on a standard college entrance examination, and/or class rank. Scholarship applicants are considered for all scholarships appropriate to their aims and interests.

To be considered for scholarships, students should complete all appropriate forms by February 15 of each year. To apply, contact the Office of Financial Aid and Scholarships or visit the YSU financial aid website at www.ysu.edu/finaid.

To be considered for scholarships that are need-based, students should file the Free Application for Federal Student Aid (FAFSA) so the Office of Financial Aid and Scholarships can determine a student’s financial need.

In addition to completing Youngstown State University’s Institutional Aid Application and the FAFSA, students also should check with their particular college or department to apply for academic-specific scholarships. Students and their parents are encouraged to check with their places of employment to find out if there are any scholarships provided to students or if they provide for fee remission. Check with local community resources for scholarships such as church organizations and the library to find out about scholarship opportunities. Another excellent resource is the World Wide Web at: www.fastweb.com or www.finaid.org. Web access is available for these purposes in the Office of Financial Aid and Scholarships.

For a searchable listing of all scholarships currently offered at Youngstown State University, visit www.ysu.edu/finaid. If web access is not readily available, be sure to read the current Financial Aid and Scholarships brochure for other detailed information on financial aid. You can find this brochure in the Office of Financial Aid and Scholarships, Meshel Hall, or you may call to request a brochure at 330-941-3505.

Grants-in-Aid (Gift Aid)

Grants-in-Aid are gift monies that do not have to be repaid. The amount of grant aid awarded is determined by the recipient’s financial need and/or academic record and character.

A.) The Federal Pell Grant is a need-based federal grant provided to eligible undergraduate students pursuing a first bachelor’s degree or associate’s degree. File the FAFSA every year to be considered for this grant.

B.) Academic Competitiveness Grant
This federal grant provides financial assistance to eligible students meeting the following criteria: U.S. citizen or eligible non-citizen; Pell Grant recipient; enrolled in a degree program; enrolled in the first or second year of academic study at a two- or four-year institution; completed a rigorous secondary school program of study after January 1, 2010, (if a first-year student) and after January 1, 2009, if a second-year student. If the student is a first-year student, she or he must not have been previously enrolled in an undergraduate program. If the student is a second-year student, she or he must have a cumulative 3.0 GPA on a 4.0 scale. Awarded amounts are $750 for first-year students and $1300 for second-year students based on full-time status. Awards are pro-rated for students attending part time. Half-time minimum enrollment is required. This federal program may not be funded beyond the 2010-2011 academic year.

C.) National SMART Grant
This federal grant provides financial assistance to eligible students who have: full-time enrollment status; a cumulative 3.0 GPA; a Pell Grant; a major in physical, life, or computer sciences, mathematics, technology, engineering, or a foreign language determined critical to national security. Only juniors with 63-93 semester hours and seniors with 94-124 hours may receive the award. Maximum award per academic year is $4000 based on full-time status. As of July 1, 2009, awards will be pro-rated for students attending part time. Half-time minimum enrollment is required. This federal program may not be funded beyond the 2010-2011 academic year.

D.) The Federal Supplemental Educational Opportunity Grant (FSEOG) is a need-based grant funded by the federal government and awarded by YSU. Students who meet the eligibility requirements for the Federal Pell Grant receive primary consideration for this grant. File the FAFSA as early as possible after January 1 to be considered for this campus-based aid program.

E.) The Ohio College Opportunity Grant (OCOG) is awarded by the State of Ohio to full-time undergraduate students who are residents of Ohio and who are pursuing a first bachelor’s degree or associate’s degree. Eligibility is based on family income. File the FAFSA by October 1 of each year to be considered for this grant.
F.) Part-time Ohio College Opportunity Grant is awarded to students enrolled less than full-time who otherwise would have been eligible for an Ohio College Opportunity Grant had they been full-time.

G.) The Pennsylvania Higher Education Assistance Award (PHEAA) provides grants to Pennsylvania residents who are YSU students. Students may be full-time or half-time undergraduates enrolled in an approved program of study requiring at least two years to complete. File the FAFSA by the appropriate PHEAA deadline date to be considered for this grant (May 1).

H.) The YSU Foundation PHEAA Supplemental Grant. Because of the legislative cap on Pennsylvania grants to Pennsylvania residents attending Ohio universities, YSU has initiated a supplemental grant program funded by the YSU Foundation. This grant will be automatically awarded to YSU students who are awarded and eligible to receive a PHEAA grant. The supplemental grant will be awarded in amounts up to 200% of the PHEAA grant, subject to availability of funds.

I.) The Martin Luther King Inner-City Achievement Award. Funded by the YSU Foundation, this award is available to graduates of Youngstown/Warren inner-city schools (Calvary Christian Academy, Cardinal Mooney, Chaney, East, Rayen, South, Ursuline, Wilson, Youngstown Christian School, John F. Kennedy, Warren G. Harding, and Warren Western Reserve). Also included are graduates of Campbell Memorial, Niles McKinley, Farrell, New Castle, Sharon and Struthers high schools. Need-based awards of up to $1500 per academic year are available to students who have financial need. Students must be admitted to the University in good standing or, if currently enrolled at YSU, must maintain a minimum cumulative grade point average of 2.5 and be registered for at least 6 credit hours. For priority consideration, complete the FAFSA by February 15 as funds are limited. (You must have completed FAFSA results to be considered.)

J.) The Youngstown State University Non-Traditional Student Grant-In-Aid is awarded to non-traditional students who are not eligible for other grant or scholarship assistance. In cases where students receive other aid, the total of the other aid and the amount of assistance awarded under this grant may not exceed the amount the student would have received from the Non-Traditional Grant alone. A non-traditional student is a person who is at least 22 years removed from formal education (high school or college) and at least 22 years old whose entire annual family income did not exceed $30,000 for the previous year, or a person whose family income was more than $30,000 for the previous year, but who has experienced a drastic reduction in family income for the current year. To be considered for this grant, file the FAFSA and complete YSU’s Institutional Aid Application by February 15.

K.) Veterans’ Administration Education Assistance. The Department of Veterans’ Affairs provides education assistance to veterans or current armed services personnel. Programs include contributory plans, rehabilitation benefits, work-study, and dependent/spousal benefits. Contact the Office of Financial Aid and Scholarships or phone toll-free 888-GI-BILL1 (888-442-4551).

L.) Bureau of Vocational Rehabilitation Awards are two programs funded by the Bureau of Vocational Rehabilitation in Ohio (BVR) and the Office of Vocational Rehabilitation in Pennsylvania (OVR) that provide grants for tuition, fees, and/or books for residents with disabilities. Eligibility is determined by each state’s Bureau.

M.) Ohio War Orphans is a grant for children of disabled or deceased U.S. Armed Forces veterans. There is a needs test and the student must be between 16 and 20 upon application for a grant. The grant is for tuition and fees. Phone 614-466-7420.

N.) Ohio National Guard provides grants for tuition to members who are full-time undergraduates. Apply through the National Guard, and pay close attention to deadlines. Phone 614-336-7032.

O.) Graduate Assistant Fee Remission is for graduate assistants who are graduate students working toward a degree who are employed by the University through the School of Graduate Studies and Research. The stipend, or salary, starts at $7,500 per year. Graduate assistants are also entitled to remission of tuition, including, where applicable, the non-resident tuition surcharge.

Employment (Self-help Aid)

To help pay for educational and living costs, students may contact the Office of Student Life for on-campus student employment. Any student currently enrolled and in good standing may apply for on-campus employment. All on-campus opportunities are posted in Student Life, outside the Office of Financial Aid and Scholarships on the second floor of Meshel Hall, and on the YSU website under Student Life. Students are encouraged to check regularly for open positions.

The Federal Work-Study Program is a need-based program which provides funds for eligible students. This program also helps students with educational expenses and living costs, as work-study students receive paychecks for hours worked. To receive maximum consideration for this campus-based program, file the FAFSA as soon as possible after January 1 but not later than February 15 of each year. To the question on the FAFSA “Are you interested in being considered for work-study or student loans?” you should answer “Both work-study and student loans.”

Loans (Self-help Aid)

Loans are a form of financial aid for many students to help meet educational expenses. Keep in mind that loans accrue interest and must be repaid.
A.) The Federal Perkins Loan is a need-based federal loan (with a 5% fixed interest rate) awarded by Youngstown State. Eligible undergraduate and graduate students attending at least half-time may be considered for this loan. This is a subsidized loan, which means the government is responsible for the interest during the student’s enrollment of at least half-time; for the grace period after the student is no longer enrolled half-time; or during deferment periods. After the nine-month grace period, the student is responsible for the interest. For priority periods. After the nine-month grace period, the student is responsible for the interest. For priority consideration for this campus-based program, file the FAFSA as early as possible after January 1 but not later than February 15 of each year. To the question on the FAFSA “Are you interested in being considered for work-study or student loans?” you should answer “Both work-study and student loans.”

B.) The Federal Subsidized Stafford Loan is a need-based federal loan awarded to students who demonstrate financial need based on the information provided on the FAFSA. Undergraduates, graduates, and professional students attending at least half-time may be considered for this loan. “Subsidized” means the government is responsible for the interest that is accruing during at least half-time enrollment; during the six months’ grace period after the student stops attending school at least half-time; or during periods of deferment. The student is responsible for the interest at all other times. To be considered for this loan, file the FAFSA. To the question on the FAFSA “Are you interested in being considered for work-study or student loans?” you should answer “Both work-study and student loans.”

C.) The Federal Unsubsidized Stafford Loan is a non-need based loan that is available to all students regardless of income. Undergraduate, graduate, and professional students attending at least half-time may be considered for this loan. “Unsubsidized” means that the government is not responsible for the interest at any period of time. Borrowers may choose to make interest payments while in school or borrowers may defer (accumulate) the interest until repayment. To be considered, file the FAFSA. To the question on the FAFSA “Are you interested in being considered for work-study or student loans?” you should answer “Both work-study and student loans.”

D.) The Federal Parent Loan for Undergraduate Students (PLUS loan) is available to the parents of dependent students. These loans are based on educational costs and cannot exceed the cost of attendance less other aid. Since these loans are not subsidized, the parent borrower must repay the amount borrowed plus the interest.

E.) Grad PLUS Loans are federal loans that graduate and professional students with good credit history may borrow to help pay educational expenses. Half-time enrollment is a requirement. Since these loans are not subsidized, the borrower must repay the amount borrowed plus the interest.

Part-time Students

Part-time aid is available for students. The amount of part-time aid and the type of aid available vary. Be sure to file the FAFSA and YSU’s Institutional Aid Application by February 15 each year for maximum consideration. Also, check with the Office of Financial Aid and Scholarships to find out how part-time attendance affects your financial aid.

Financial Aid: Helpful Hints and Important Tips

—Make sure to have all applications in by their priority deadlines. Youngstown State University’s priority deadline to be considered for campus-based aid, scholarships, and some grants is February 15 each year. If you miss the deadline date, you may reduce or eliminate your chances to be considered for every type of financial aid that you otherwise would have been awarded.

—If you are selected for verification/documentation, you are required to submit certain documentation to YSU. Be sure to submit this requested documentation as soon as possible so that the processing of your financial aid is not delayed. If you are late in submitting this requested documentation, you might not receive every type of financial aid that you otherwise would have been awarded, even if you applied on time.

—If you missed application deadlines, you should still apply. Late funding may become available.

—Check with your specific department or college to find out if there are any academic-specific scholarships for which you may apply.

—Keep copies of all your tax forms and W-2 forms each year. Be sure to keep copies of all forms and documents submitted to the Office of Financial Aid and Scholarships.

—Check with the Office of Financial Aid and Scholarships to determine the status of your financial aid processing. Do not wait until you receive your bill.

—Remember to apply on time each year!

—If you or your family have unusual circumstances that have occurred during the academic year, such as unusual medical expenses or loss in income, check with a counselor in the Office of Financial Aid and Scholarships to discuss your situation.

—Contact the Office of Student Accounts at 330-941-3133 to find out about convenient payment plans to help pay for tuition and fees.

—Contact the Office of Financial Aid and Scholarships at 330-941-3505 if you have questions. Mailing address: Youngstown State University, Office of Financial Aid and Scholarships, One University Plaza, Youngstown Ohio 44555-3505. Email: ysufinaid@ysu.edu. Web address: www.ysu.edu/finaid.
Some Commonly Used Financial Aid Terms:

**Cost of Attendance:** The total cost of attending school for one academic year, including direct costs (tuition, fees, room, and board) and indirect costs (books & supplies, transportation, and miscellaneous expenses).

**Expected Family Contribution (EFC):** The amount that you and your family will be expected to contribute toward your educational expenses, as determined by the federal government from the information on your FAFSA. To obtain a booklet that explains the formula used to determine your EFC, call 1-800-4-FED-AID.

**FAFSA (Free Application for Federal Student Aid):** The form that you must complete so that the federal processor can determine your EFC and YSU can determine your financial need. Must file if you are interested in loans and grants and certain scholarships.

**Financial Aid:** All forms of financial assistance, including scholarships and grants (gift aid) and work programs and loans (self-help aid).

**Financial Need:** The difference between the Cost of Attendance and your Expected Family Contribution.

**Gift Aid:** Aid, usually in the form of scholarships and grants, that does not have to be paid back.

**Grant:** Gift aid awarded to a student on the basis of financial need and sometimes academic performance and character. Does not have to be paid back.

**Scholarship:** Gift aid awarded to a student on the basis of academic performance, talent, other criteria, and/or financial need.

**Subsidized:** A subsidized loan is a need-based loan in which the government pays the interest while the student is enrolled at least half-time; during the grace period after the student stops attending at least half-time; and during periods of deferment (postponement of repayment).

**Verification/Documentation:** The process by which Youngstown State University confirms the accuracy of the information supplied on a percentage of FAFSAs each year as required by federal regulation. If you are selected for verification/documentation, you and your family will be requested to supply the Office of Financial Aid and Scholarships with additional information and copies of documents.

**Unsubsidized:** An unsubsidized loan is not based on financial need. The borrower is responsible for all interest which accrues during in-school, grace, and/or any applicable deferment periods.

**Standards of Satisfactory Academic Progress**

Federal regulations require that Youngstown State University review the academic progress of students annually who apply for and/or receive federal financial aid, whether they are previous aid recipients or not. The purpose of this review process is to measure whether a student is making satisfactory progress toward his or her educational goals. The following federal programs are affected when a student is not in compliance with the Satisfactory Academic Progress Policy:

**Federal Pell Grant**

**Academic Competitiveness Grant**

**National SMART Grant**

**Federal Perkins Loan**

**Federal Supplemental Educational Opportunity Grant (SEOG)**

**Federal Work-Study Program**

**Federal Stafford Loans (subsidized and unsubsidized)**

**Parent Loans for Undergraduate Students (PLUS)**

**Grad PLUS Loans**

State grant programs such as the Ohio College Opportunity Grant (OCOG) and the Pennsylvania Higher Education Assistance grant (PHEAA) are not governed by the federal Standards of Satisfactory Academic Progress but rather by the respective state.

Youngstown State University’s satisfactory academic progress requirements for undergraduate and graduate students include the following three components:

1. **Grade Point Average (GPA)**

   In order to maintain federal financial aid eligibility, undergraduate students at Youngstown State University must maintain a minimum cumulative 2.00 GPA if over 49 credit hours, a minimum cumulative 1.75 GPA if 32 to 49 credit hours; graduate students must maintain a 3.00 GPA. The following grades will count toward the calculation: A, B, C, D, and F. Credit hours that negatively impact Satisfactory Academic Progress include F-Failed, NC-no credit, AU-audit, I-incomplete, W-withdrawal. For incompletes, the credit hours apply to the term the student was enrolled, not the term the student was making up the incomplete. Students academically suspended cannot receive federal aid during the period of suspension.

2. **Percentage Completion**

   a. **Freshman** undergraduate students (0-31 hours earned) must complete a minimum of 65% of the total hours attempted each year;

   b. **Sophomore** undergraduate students (32-62 hours earned) must complete a minimum of 70% of the total hours attempted each year;

   c. **Junior** undergraduate students (63-93 hours earned) must complete a minimum of 75% of the total hours attempted each year;

   d. **Senior** undergraduate students (94+ hours earned) must complete a minimum of 80% of the total hours attempted each year.
Percentage completion will be calculated by dividing 
Completed Hours by Attempted Hours. Rank is also 
calculated based on attempted hours.

Attempted hours exclude audited hours and include 
accepted transfer hours plus all hours attempted as 
of the last date to add a class.

3.) Time Frame

When a student’s attempted hours, as defined 
above, reach 150% of the maximum hours needed to 
complete an associate or bachelor’s degree, federal 
financial aid eligibility will be suspended unless the 
time frame is extended with an appeal accompanied 
by an Academic Advisor Evaluation. Non-Degree 
Students cannot receive any federal aid until they 
become degree seeking students.

Transfer and Transient Students

Transfer students will be eligible for federal aid 
through the spring semester of the academic year 
they begin at Youngstown State University. Transfer 
students will be evaluated for Standards of Satisfactory 
Academic Progress annually. Transfer hours 
will be included in the number of hours earned and 
attempted, but only YSU grades enter into the GPA 
calculation.

YSU transient students must submit a Consortium 
Agreement and a Verification of Enrollment for a 
determination of financial aid eligibility, which can 
be obtained from the Office of Financial Aid and 
Scholarships. Courses that transfer to YSU will be 
included in the hours-attempted calculation.

Non-Degree Students (undergraduate, post 
undergraduate, and graduate)

A student must be enrolled in a degree program 
to receive federal financial aid. If students are cited 
for Standards of Satisfactory Academic Progress 
due to their status as non-degree students, they 
must complete an appeal and contact their college 
to complete an Academic Advisor Evaluation. Non-
dergree students cannot receive any federal aid until 
they become degree-seeking students.

The Appeal Process—Reinstatement of Federal 
Aid

If a student is non-compliant, he/she must appeal 
the denial of financial aid by submitting an appeal 
form that explains the circumstances. Supporting 
documentation may be required. Appeals will be 
evaluated by the Academic Progress Appeal Commit-
tee, which will respond in writing with the decision 
within 30 days.

The decision made by the Appeal Committee 
is final. Students who consistently abuse the 
Academic Progress policy will be denied eligibility for 
federal financial aid.

Students who do not appeal, or who are denied 
by the Committee, will not be eligible for federal 
financial aid programs for the award year, until their 
academic record is once again in compliance with 
the Standards of Satisfactory Academic Progress. To 
attain compliance, students must attend school with- 
out federal financial assistance while clearing their 
satisfactory academic progress. When reinstatement 
is granted, a student may be considered for those 
financial aid funds available at that time. Contact 
the Office of Financial Aid and Scholarships for an 
Appeal Form and for additional information.

Financial Aid Refund Policy

The refunding of financial aid funds to the appro-
priate funding source corresponds to federal regu-
lations and YSU’s refund policy regarding student 
fees upon withdrawal from class(es). This policy is 

Students should note that effective Fall 2000, 
Youngstown State University implemented the new 
Return of Title IV Funds regulations as put forth 
These regulations stipulate a specific formula for 
calculating the return of Federal Pell, Academic 
Competitiveness Grant, National SMART Grant, Fed-
eral Supplemental Educational Opportunity Grant 
(SEOG), Federal Perkins Loans, Federal Stafford 
Loans and Federal PLUS Loans (but not Federal 
Work Study) when a student completely withdraws 
from school before completing 60% of the semester. 
This recalculation may result in the student owing a 
balance to Youngstown State University and/or the 
Federal Department of Education.

SCHOLARSHIPS FOR 
EXCELLENCE

Please check with the Office of Financial Aid and Scholarships for current information.

Scholarships for Excellence are awarded by the University and largely funded by the YSU Foundation. The YSU Foundation, with an endowment of over $140 million, is committed to providing this “edge of excellence” for the University, providing more than $4 million in scholarship assistance annually for YSU students. These Scholarships for Excellence are awarded to eligible new high school graduates, transfer students, and current students. Current and transfer students will automatically be considered for these scholarships. In addition, incoming freshmen should apply for admission by February 15 to be considered for these scholarships automatically.

Leslie H. Cochran University Scholars. These are four-year, full-ride academic scholarships which require a separate application. These scholarships are awarded annually to as many as 40 incoming freshmen based on minimum criteria of an ACT of 28 or SAT of 1340 and upper 15% ranking in the student’s high school class. Must attend full-time and maintain at least a 3.5 cumulative GPA to renew. A separate application is required for the Leslie H. Cochran Scholarship.
Trustees’ Scholarships: These are $4,500, four-year scholarships awarded to incoming high school valedictorians. Must attend full-time and maintain at least a 3.5 cumulative GPA to renew.

President’s Scholarships: These are $2,500, four-year scholarships awarded to the upper 10% of high school graduating class with a minimum ACT of 27 or SAT of 1220. Must attend full-time and maintain a 3.5 cumulative GPA to renew.

Deans’ Scholarships: These are $2,000, four-year scholarships awarded to the upper 15% of the high school graduating class with a minimum ACT of 25 or SAT of 1140. Must attend full-time and maintain a 3.5 cumulative GPA to renew.

Red and White Scholarship: These are $1,500, four-year scholarships awarded to 22 ACT/1030 SAT and 3.0 high school cumulative GPA. Renewed each year up to a maximum of four years if the student maintains a 3.0 GPA and completes a minimum of 24 semester hours per year.

Transfer Student Scholarships: Available to students who have completed at least 24 transferable credit hours. Those who transfer to YSU with a GPA of 3.50 or higher qualify for an award of $1,500 per academic year; those with a GPA between 3.00 and 3.49 will receive $1,000. Renewable for three years if the recipient maintains a 3.5 GPA for the $1,500 award and a 3.0 for the $1,000 award. Awards are available for part-time students (at least 6 hours per term) on a pro-rated basis. Students should apply for admission by February 15 to be considered for these scholarships automatically.

YSU Advantage Scholarships: Awarded to associate degree graduates from Jefferson Community College, Cuyahoga Community College, Stark State College of Technology, Lorain County Community College, and Kent State University regional campuses. Those who transfer to YSU must have an associate degree from one of the aforementioned target colleges with a minimum of 2.5 GPA to qualify for this one-year award of $1,100. To be considered for this award, students must apply for admission to Youngstown State University and submit transcripts documenting associate degree completion. Students are encouraged to apply as early as possible; funds are limited and will be awarded on a first-come, first-served basis.

Academic Achievement Award: These are $500, three-year scholarships awarded to continuing YSU students with a minimum criteria of 24 hours completed and a cumulative GPA of 3.5. Must attend at least half-time and maintain a 3.5 cumulative GPA to renew. These scholarships are based on the level of scholarship funding and the number of eligible students. Students are automatically considered for this award.

Other YSU Scholarships

For a listing of scholarship opportunities currently available to YSU students, go to www.ysu.edu/finaid. Under “Tools to Search and Estimate,” click on “Scholarship Search” for a display of over 460 scholarships.

Academic Policies and Procedures

Placement Tests

New students may be required to take placement tests to determine their readiness for college-level work. If placement testing shows that students are not prepared for college-level work, they will be placed into one or more developmental courses in composition, reading and study skills, and/or mathematics. The Composition Placement Test, the COMPASS® Reading Test, and the COMPASS® Math Test are required of all students unless there is an automatic placement or exemption due to ACT/SAT scores. Students who have AP credit or transfer coursework may not need placement testing. Students will be informed about what testing is needed when they are accepted for admission to the University.

Students who are required to take one or more placement tests must do so before advisement and registration.

Composition Placement Test and COMPASS Reading Test

The Composition Placement Test and the COMPASS® Reading Test are required of a student who has not been placed through ACT/SAT scores, or is not required to take the ACT/SAT test. No student is permitted to register for classes without having taken the tests, except those students placed into English classes for non-native speakers and those with approved transfer credit.

Students placing into the developmental courses Reading and Study Skills (RSS) 1510, English (ENGL) 1539, and/or ENGL 1540 must complete the specified coursework within their first 36 semester hours. Otherwise, the student will be limited to enrolling only for those developmental classes until they are completed successfully.

Conditionally admitted students placing into RSS 1510B must take that course in their first semester. Conditionally admitted students placing into RSS 1510A, ENGL 1539, or ENGL 1540 must take these courses within their first 20 semester hours.

Students directed to enroll in ENGL 1539, ENGL 1540, and/or RSS 1510A or 1510B must do so. The student may not withdraw from these courses unless he or she is making a complete withdrawal from the University.
None of the above-named mandatory developmental courses may be taken more than twice without the approval of the college dean. Should a student not successfully complete any of these courses within two attempts or he or she withdraws from them twice, the student will be disenrolled from the University.

Please note that credit hours from ENGL 1509, ENGL 1512, ENGL 1539, ENGL 1540, RSS 1510A and RSS 1510B will not count toward a degree.

COMPASS Math Test

Students who have not been placed through ACT/SAT scores or are not required to take the ACT/SAT test must take the COMPASS® Math Test unless they have approved AP math credit or sufficient transfer coursework. Students will be placed into appropriate mathematics courses based on their ACT/SAT scores or the COMPASS® Math Test.

Please note that credit hours from developmental MATH 1500, 1501, 1502, 1503, 1504, and 1507 will not count toward a degree.

For more information regarding math coursework, visit the Department of Mathematics and Statistics' website at http://class.ysu.edu/~math/. For a sample math placement test, visit http://www.act.org/compass/sample/math.html.

English Composition Requirement

A student must complete the regular English composition requirement for graduation within the first 60 hours of coursework. A student who does not complete the English requirement within the first 60 hours of coursework will be prohibited from registering for any additional upper-division courses until the English requirement has been met. Transfer students having completed 60 hours or more are exempt from this policy for their first 12 hours of enrollment at Youngstown State University.

Foreign Language Placement Test

Students in BS and AB degree programs must satisfy a foreign language requirement for the degrees. Students in the BA and BM degree programs in the College of Fine and Performing Arts should consult with advisors in that college.

Students who have had some high school or college-level language study may enroll in any 1550 elementary foreign language course without taking the FLPT.

Students who wish to begin their college-level foreign language study with 2600 Intermediate or above to satisfy the requirement MUST take the foreign language placement test (FLPT).

Students with AP credit in a foreign language have completed the requirement. Students with transfer credit for college foreign language courses may enroll in the next course in the sequence.

REGISTRATION

All YSU class registration takes place online through the MyYSU Portal (http://my.ysu.edu). Registration day and time are determined by the student classification. (Registration dates and appointment times for current students are published on the MyYSU Portal.)

Registration must be concluded no later than the date published for the particular term. All significant dates for each term are published in the front of this Bulletin and on the YSU website.

Photo Identification Card. The Office of the Registrar issues a photo identification card to every student enrolled at the University. The student must carry the card while on campus. The use of this card is restricted to the student to whom it was issued. The student must report the loss or theft of his or her card to the YSU Police. Lost or stolen cards must be replaced at the student's expense (see “Student Fees and Charges” for amount). To replace the card, the student must present proper identification (e.g., driver's license) to the Office of Student Accounts and pay the applicable replacement fee. The photo identification card is the property of the University and must be surrendered by the student upon request by University officials.

Advisement

The Office of the Registrar provides instructions for advisement and registration prior to registration.

All students are urged to consult with advisors in their major area. Each department or college has a procedure for either assigning an advisor to a student or having the student select an advisor. Advisement is required for the following students:

1. Freshmen (with fewer than 32 hours of credit).
2. Post-Secondary Enrollment Option/Early Admission Options Program students.
3. Any student not in good standing.
4. First-semester transfer students.
5. All former students returning to the University.
6. Athletes

The responsibility for fulfilling all requirements rests ultimately upon the student; the advisors provide assistance in that process.

Students may use the online Schedule of Classes to determine the specific classes offered in a particular term. For information about future offerings or when a particular course will be offered again, consult the appropriate department.

Change of Registration

Registered students may change their registration by accessing the registration functions through the MyYSU Portal (http://my.ysu.edu). (Also see “Reduction/Refund of Fees” section).
Students should consult their advisors prior to changing their schedules. In general, each student who needs an advisor’s approval for registration must also have an advisor’s approval for add/drop (change of registration). However, advisors’ approval is not required for (1) withdrawing from a course(s), (2) changing sections of a course, or (3) changing physical activity courses.

A registered student may add an additional course through the change-of-registration procedure until the last day to add a class as published in the academic calendar (see inside front cover, p. i of this Bulletin).

Withdrawal from a course must be accomplished through the change-of-registration procedure. If a student withdraws from one or more courses during the full-refund period (or the end of the first week of the summer term), no entry will be made on the student’s permanent record for the course(s) dropped.

Administrative change(s) of registration may occur if a student is improperly enrolled in any course or has registered for more hours than permitted.

Students who wish to completely withdraw from the University should consult the appropriate section in this Bulletin.

Cancellation of Registration

A student’s registration may be cancelled for any of the following reasons:

1. Academic suspension for the previous term.
2. Disciplinary action against the student.
3. Insufficient class enrollment.
4. Failure to meet admission or prerequisite requirements.
5. Failure to satisfy past-due financial obligations to the University.

CREDIT HOURS/CLASS STANDING/ MAJORS

The class hour is a weekly 50-minute class period and is the basic unit of instruction. The term “semester hour” (s.h.) signifies one class hour a week carried for one 15-week semester (or the equivalent in a summer term or flexibly scheduled class). A semester hour of credit is the amount of credit given for one semester hour successfully completed. Each semester hour of credit represents an average of three hours of study and instruction every week through the term.

Maximum/Minimum Credit-Hour Value

Registration is not permitted for less than the approved credit hour value of any course as listed in the catalog. Students may not register for more than the approved credit-hour value of a course.

Variable Credit Hours

Certain courses have variable credit hours. A student wishing to register for such a course may do so only after consulting with the department offering the course to determine the number of hours for which to register.

Student Load

The semester hours of credit a student carries per term depend on the degree sought and on the curriculum being followed. A minimum of 124 semester hours must be satisfactorily completed to earn a baccalaureate degree; a minimum of 64 semester hours for an associate degree. Students expecting to complete a bachelor’s degree in four years or an associate degree in two years should average 16 credits per term. Students interested in taking 21 credit hours or more per term must seek approval from the dean of their college.

Full-time Status

A full-time undergraduate student is one carrying 12 or more hours for credit per term.

Academic Classification

All students working for any undergraduate degree conferred by this University are ranked in classes, by semester hours completed, as follows:

- Freshman ................. 0-31 semester hours of credit
- Sophomore ............ 32-62 semester hours of credit
- Junior ..................... 63-93 semester hours of credit
- Senior ........... 94 or more semester hours of credit

For purposes of satisfying course prerequisites, the term “senior standing” may be defined by reference to the specified curricula of a given school or college, if it provides detailed programs leading to the attainment of a degree. A student who has completed a four-year degree and who continues undergraduate enrollment is classified as post-baccalaureate.

Majors

Declaring or Changing a Major

A student may enter the University as an undetermined major.

A major and minor (if required) must be declared by the time the student has completed 63 semester hours.

In order to change or declare a major, the student must fill out a form from the department of the desired major. The form will be forwarded to the Office of Records.

Students who need help selecting a major should contact an academic advisor, the academic department, or the Office of Career Services for assistance with academic and career planning.

Additional Majors and Degrees

A student interested in pursuing more than one major at a time should contact the departments offering majors to be assigned an advisor for each program. Multiple majors or degrees may be awarded concurrently.
Multiple majors/single degree: A degree—e.g., Bachelor of Science, Bachelor of Arts—may be awarded only once. However, more than one major for the degree may be posted on the transcript when the appropriate department chairpersons certify completion of the requirements. The student should indicate in each of the appropriate colleges each major completed when filing for graduation. When the student completes more than one major in a given degree, one diploma is awarded. A minimum of 30 semester hours or 50% of the credits counted towards a major, whichever is less, must be specific to that major and not shared by any other major.

Multiple majors/multiple degrees: If a student wishes to complete the requirements for multiple majors that are awarded under different degrees, the student must fulfill all requirements for each major and each degree. The appropriate chairpersons and deans must then certify completion of the requirements for each major and degree. The student must file intent to graduate and graduation application forms for each major and each degree in the appropriate colleges. A minimum of 30 semester hours or 50% of the credits counted towards a major, whichever is less, must be specific to that major and not shared by any other major.

Students may not earn the Bachelor of General Studies concurrently with another bachelor’s degree. Students who hold a bachelor’s degree are not eligible for a Bachelor of General Studies degree.

Any student who has received a degree from another institution and desires a second degree from YSU must complete a minimum academic residency of 20 semester hours for an associate degree and 30 semester hours for a baccalaureate degree, meet all requirements for the second degree, and complete the requirements for a new major. Students coming from another university or from YSU with an already-completed bachelor’s degree will not have to complete any additional general education requirements at YSU but will have to satisfy the residency requirements described above.

Minors

For information about minors, please see p. 46.

Credit from Professional Schools

Students at YSU wishing to enter professional schools with the option of completing their baccalaureate degree in absentia may do so with the completion of at least 94 semester hours of coursework, which must include the following:

1. All general University requirements.
2. Completion of major.
3. Completion of minor (if required).
4. 54 s.h. of upper-division coursework (3700-4800-Level).

The University will accept the completion of not more than 30 semester hours from any professional school granting any of the degrees listed below and approved by the accrediting agency of that profession, provided that the student has been accepted for further study at the professional school. The student may thus secure the baccalaureate degree after three to three-and-a-half years in the University followed by approximately a year in the professional school. The relevant professional degrees are: Doctor of Dental Surgery or equivalent; Doctor of Medicine, Doctor of Osteopathy, Doctor of Podiatry, Doctor of Veterinary Medicine, Doctor of Jurisprudence or equivalent; Doctor of Ministry or equivalent; Bachelor of Divinity or equivalent.

The policy above does not apply to students admitted in the BS/MD Integrated Program of Youngstown State University and the Northeastern Ohio Universities Colleges of Medicine and Pharmacy (NEOUCOM). However, credit of up to 13 s.h. may be granted toward the completion of the B.S. degree to those students who have participated in the 6th year Human Values in Medicine Programs of NEOUCOM.

Undergraduate Preparation for Post-Baccalaureate Degrees

Medical schools have specific requirements for pre-medical study, and many law, theological, technological and graduate schools have curriculum requirements for those seeking admission. Anyone wishing to enter a professional, technological, or graduate school of any kind should consult advisors in the appropriate undergraduate college of this University as early as possible. Such special needs can usually be met within the degree requirements of Youngstown State University, but the proper selection of courses may have to begin in the first year.

Requirements for Enrolled Nonimmigrant International Students

In accordance with federal regulations, F-1 students may not be employed on campus for more than 20 hours per week while school is in session. Furthermore, F-1 students are required to “pursue a full course of study,” which for undergraduate students is defined as a minimum of twelve credit hours each semester. In order to avoid being de-registered from courses and thus violating nonimmigrant status, it is essential that international students pay their YSU tuition and other fees, including health insurance (see below), in full at the beginning of each semester.

During international student orientation, results of any required placement tests in math or English language are coordinated with testing and academic areas to assist students who may need to further improve proficiencies for academic success.

The Center for International Studies and Programs can provide advice on maintaining nonimmigrant status, authorization for a reduced course load, and...
obtaining additional employment authorization for unforeseen economic hardship or practical training. For more information, see Center for International Studies and Programs on p. 74.

**International Student Health Insurance**

Enrollment in YSU’s student health insurance plan is mandatory for all international students (F and J status) and for their nonimmigrant dependents.

An exception to this requirement is granted only to:

1. students who have comprehensive group health insurance coverage through a parent or spouse’s U.S. employer OR
2. students whose sponsorship by the U.S. government, the student’s home government, or a U.S.-recognized international organization includes comprehensive health insurance.

To request a waiver from enrollment in the YSU international student insurance plan, students must, by the end of the first week of classes each semester:

Submit a completed YSU International Student Health Insurance Waiver Request Form to the Center for International Studies and Programs with proof of insurance (including confirmation of coverage dates and a description of covered expenses and exclusions) through a qualifying relative’s employer or qualified sponsor.

**ATHLETIC ELIGIBILITY**

The Athletic Eligibility Committee is responsible for the athletic eligibility certification for Youngstown State University with respect to academic “standards of progress” for current student athletes and incoming students in compliance with (NCAA) National Collegiate Athletic Association’s regulations.

**COURSES**

**Prerequisites**

No student may receive credit towards graduation for a course that is a prerequisite for a more advanced course which the student has already successfully completed, unless an exception to this policy is recommended by the appropriate chair and approved in writing by the student’s academic dean.

**Repetition of Courses**

A student may repeat a course once, unless otherwise stipulated in the course description or unless an additional repetition is authorized by the student’s academic dean. If the course is a prerequisite to another course, the repetition must be successfully completed before the other course is taken. Both the original course and the repeated course must be taken at YSU. Transfer, study abroad, and/or transient courses are not eligible to be used as a repetition. If the student has received credit for a more advanced course in the same subject, a repetition is treated merely as another course, along with the first, in calculating the point average, unless the student secures an approved repetition form for recalculation of point average from the dean of the college in which the student is enrolled. (See Recalculation of Point Average.) A course repeated, however, may be counted only once as credit toward a student’s total academic hours for graduation.

The Repetition form and the Petition for a Late Withdrawal cannot be used for the same course. In other words, a Petition for a Late Withdrawal cannot be processed for any course that was repeated and a recalculation of point average processed and posted on the student’s academic record.

Credit towards graduation will not be given for a course on the semester system if the student has credit for the equivalent course on the quarter system.

**Closed Classes**

Departments set limits to the number of students that can be accommodated in each section. During the registration period or the period for adding courses, many classes become filled. These classes are called “closed,” which means that no more students will be admitted to them. Only the chair of the department offering the course can admit a student to a closed class or reopen a closed class.

**Audited Courses**

A student may audit any course. The student pays the full tuition, as well as any other applicable fee, for the course(s) audited. Audited courses are carried in a student’s load only for fee purposes. A student receiving financial aid should confer with the Office of Financial Aid and Scholarships before electing to audit a course.

A student may not change registration from audit to credit status or from credit to audit status after the last day to add a class.

**Conference Courses**

Conference work is available only in exceptional cases and if the academic advisor considers conference work essential. You must obtain the required approval(s) and complete the registration on-line.

Conference courses have the following restrictions:

1. Permission is limited to seniors with a 3.00 average. Exceptions must be approved by the dean of the college in which the student is enrolled.
2. The course must be given by a full-time faculty member.
3. A brief description of the plan of procedure must be given by the full-time faculty member.
4. Must have approval from the department concerned and the dean of the school in which the course is offered.
Graduate Courses for Undergraduates

An undergraduate student who has senior standing and an unrecalculated grade-point average of at least 2.7, may enroll in 6900 or higher level graduate courses, provided such enrollment does not cause the total schedule for the term to exceed 12 semester hours. Before registering for courses the student must have the approval of the student’s advisor in the program where the credit will be applied, the course instructor, and the dean of Graduate Studies and Research. The credit earned may be used for graduate credit at YSU only after the student is admitted to the School of Graduate Studies and Research and the credit is accepted by the department in which the student continues graduate work. (Such coursework cannot count toward fulfillment of the requirements for a bachelor’s degree.) The maximum amount of such credit that will be accepted at Youngstown State University is nine hours.

TRANSIENT STUDENT AUTHORIZATION

Current YSU students desiring to attend another institution as transient students must complete and submit the Transient Student Authorization form, available from the dean of the college in which they are enrolled. Instructions are on the form. To be certain the transient class is applicable to the degree, the TSA form must be completed prior to taking the course. If the form is completed after the course is taken, applicability cannot be guaranteed.

To receive credit for approved coursework, the student must have received a grade of “C” or better and must attend Youngstown State University the semester following the completion of the transient term. It is the student’s responsibility to have an official transcript sent from the other institution to the YSU Office of Records.

COMPLETE WITHDRAWAL FROM THE UNIVERSITY

Procedure: The student who wishes to withdraw from all courses in a particular term must access the registration system on the MyYSU Portal or come to the Office of the Registrar. Any student receiving Title IV financial aid should seek advisement from the Office of Financial Aid prior to processing a complete withdrawal. A complete withdrawal may be executed before classes or after the term starts. The student should consult the MyYSU Portal for deadlines.

Eligibility for future registrations:

1. A new applicant who withdraws from all courses prior to the first day of the term will not receive notice for future registrations unless the person requests that the Office of Undergraduate Admissions defer the application to a future term.

2. A former YSU student who withdraws from all courses prior to the first day of the term will not receive notice for future registrations unless the person requests that the Office of Records defer the application to a future term.

3. A current undergraduate student withdrawing on or after the first day of the term will receive notice of future registrations for one academic year.

HONORABLE WITHDRAWAL

On occasion, a student voluntarily withdrawing from the University may need a letter stating the conditions of her or his withdrawal.

If a statement of honorable withdrawal is needed, the dean of the appropriate college or other appropriate offices (i.e., University Discipline Officer) will furnish one, provided the student is of good character, has a satisfactory record of conduct, has no financial obligations to the University, and is withdrawing voluntarily for acceptable reasons; and provided that the student, if withdrawing during a term, follows the official procedure for a change of registration.

GRADING SYSTEM

Faculty assign grades on the basis of achievement in the subject matter of the course and in accordance with accepted professional standards for that subject. The grade earned by a student thus represents the quality of work and is not based merely on competition within the class.

The grade of A represents exceptional work in which the student shows that he or she has firmly grasped and achieved the objectives of the course.

The grade of B indicates very good work and considerable grasp of the essentials of the course.

The grade of C indicates good work and a usable grasp of the essentials of the course.

The grade of D indicates a definite, but not necessarily coherent, knowledge of the course.

The grade of F indicates that the student has not achieved even a minimum grasp of the essentials of the course. This grade can also result from failure to withdraw officially from a course (see Change of Registration and Refund of Fees Upon Withdrawal).

An incomplete grade of I may be given to a student who has been doing satisfactory work in a course but, for reasons beyond the control of the student and deemed justifiable by the instructor, had not completed all requirements for a course when grades were submitted. A letter grade may not be changed to an I (Incomplete) after the term has ended and grades have been recorded. A written explanation of the reason for the I and a date (which must be within one year) by which all course requirements will be completed must be forwarded by the instructor to the
Students should not register for the same course the subsequent term. Rather, the student should work individually with the instructor to fulfill the course requirements. The instructor will initiate a grade change upon completion of the course requirements. If no formal grade change occurs within one year, the I automatically converts to an F, unless the student received the I because of being called to active military duty. If a student receives an I as a result of being called to active military duty, the student will have one academic year from the date when he or she is released from active duty to complete the course requirements and have the change of grade recorded. If graduation occurs within this one-year time period and a grade change hasn’t occurred, the Incomplete grade will be converted to an F before graduation.

Department chairs are granted authority to convert grades of I into final grades in cases where instructors may have severed connections with the University or have been otherwise unable to convert the grades.

A progress grade, PR, is given in certain approved courses to indicate that work is still in progress on a project that occupies more than one semester. This grade is changed to a final letter grade at the end of the term in which the work is completed.

The PR grade may also be given at the end of a term in courses specifically identified as competency-based to indicate that the student needs more time to demonstrate a mastery of the subject matter. In such instances, the PR grade will be converted to a letter grade by the instructor no later than the end of the subsequent term, excluding the summer. A PR grade not changed by this time is automatically converted to an F grade.

W represents a withdrawal properly processed at any time from the end of the full-refund period through the last day to withdraw with a W (as published in the Academic Calendar for each semester). For courses involving foreign travel, the last day to drop a course with a W shall be the date at which the student first leaves the campus to begin the travel. Withdrawal after the designated date (or an improper withdrawal) is recorded as F. Withdrawal thereafter (or improperly done, at any time) is recorded as F.

If the grade resulted from circumstances over which the student had no control, the student may petition the appropriate dean for a late withdrawal.

A Petition for Late Withdrawal and the Repetition Form cannot be used for the same course. In other words, Petition for a Late Withdrawal cannot be processed for any course that was repeated and a recalculation of point average processed and posted on the student’s academic record.

When withdrawals change a student’s status (full-time to part-time), the student immediately forfeits any privileges contingent upon full-time status, and all interested parties which legally require it will be notified.

The distribution of achievement levels, and therefore of grades, in a large unselected group of students generally follows the normal frequency curve, in which 5% to 10% are A’s, 20% to 25% B’s, 40% C’s, 20% to 25% D’s, and 5% to 10% F’s. However, since it is likely that substantial variation from the normal will occur in individual classes, the instructor does not use the “curve” as a standard to be imposed, but only as a model against which the instructor may compare each particular class, using his or her own judgment on the basis of professional standards.

Instructors may use plus and minus modifications of the grades, but they are not recorded or used in calculating the point average.

The Point Average and Scholastic Standing

The student’s scholastic standing is indicated by the quality point average (also called “grade point average,” “grade average,” or “point average”).

For determining this, every grade has a quality point value for each semester hour it represents, as follows: A, four quality points; B, three points; C, two points; D, one point; F, zero points. For example, an A in a three-hour course is worth 12 quality points; a D in a four-hour course, four points; and an F in any course, zero points. To find the point average, the total number of quality points earned is divided by the total GPA hours. Thus, a student who earns 16 hours and 40 quality points has a point index of 2.50. Only grades of A, B, C, D, and F are included in the calculation of the point average.

Grading Options

Traditional Grade (A,B,C) /No Credit

To receive credit for courses offered on a traditional grade/no credit basis, a student must earn a grade of C or better. If the student fails to do so, an NC is entered on his or her transcript.

An NC does not fulfill the requirements for satisfactory completion of the course; it does not affect the grade point average.
Audit (AU)

The AU grade indicates a student has registered for a course on an audit basis and has met the audit attendance requirement established by the instructor. Failure to meet the attendance requirement results in a grade of AU (W).

Students must indicate their election of the audit grading option at the time of registration or within the time limits established for adding a class. The audit option will not be changed to the standard grading option beyond the last day to add a class.

Credit/No-Credit (CR/NC)

Credit/no-credit grades are given in some specific courses as approved by the Academic Senate. Such courses are identified in the course descriptions.

Credit/No-Credit (CR/NC) (Student Option)

To encourage students to experiment with courses outside their major field of concentration, a credit/no-credit policy exists within the following guidelines.

Youngstown State University students who have completed at least 15 semester hours of credit and have a grade point average of 2.00 or better, or transfer students admitted unconditionally who have at least 30 semester hours of transfer credit, may elect to take a course for credit/no-credit.

The grade recorded for the student is not a letter grade, but either CR (credit) or NC (no-credit). If a student who has opted for CR/NC earns an A, B, or C in the class, the grade officially assigned is CR; otherwise it is NC. In either case, the grade point average is not affected.

This option may be elected for a maximum of twelve (12) semester hours for the baccalaureate degree or six (6) semester hours for the associate degree. Courses offered only under the CR/NC option (by department designation) do not count as a student-elected credit/no credit class. Students are restricted to taking one CR/NC course per fall and spring semester and one CR/NC course per non-overlapping summer term.

Courses taken under the CR/NC option may not be counted toward a student’s major or minor. Students should confer with their advisors prior to electing the CR/NC option.

Students must indicate their election of the CR/NC option at the time of registration or within the time limits established for adding classes. The CR/NC option will not be changed to the standard grading option beyond the last day to add a class.

Changing of Grading Options

You may change your grading option only through the last day to add a class.

Excluding Older Grades (Statute of Limitations)

An undergraduate student currently enrolled may petition the dean of his or her college to exclude from the calculation of the grade point average grades earned five or more calendar years before. If the petition is approved, all grades (not merely grades of D and F) earned during the specified quarter or semester and all previous grades (not merely grades of D and F) will then be removed from the calculation. However, all grades remain on the permanent record.

Excluded course credit (including transfer credit) will not count toward the total hours required for graduation. However, courses passed may fulfill basic curriculum requirements and may satisfy prerequisites for higher courses where applicable. Courses excluded from the calculation may be taken again and repeated once without infringing upon repeat privileges specified in catalog course descriptions. Courses excluded are not subject to credit by examination. A student whose petition has been approved is ineligible for graduation honors. Only one petition from each student may be approved. Students may not petition to exclude older grades after a degree has been conferred.

Grade Reports

Final grades are available through the MyYSU Portal (http://my.ysu.edu). Students are notified by e-mail when end-of-term grade processing has been completed.

Grade Changes

A request for a grade change must be made to the course instructor. Applications for grade changes must be signed by the instructor, department chair, and dean. All grade changes must be submitted by the dean or the instructor to the Office of Records; they will not be accepted from the student. After a degree has been conferred, in no case may a grade change be made for a course or courses taken while pursuing that degree.

A student’s academic record contains a complete history of his or her academic performance while earning a degree. Therefore, the academic record of a student who graduates may not be revised using a Grade Change Form, Repetition Form, Petition for a Late Withdrawal, or Statute of Limitations.

In the case of a student who has completed an associate degree, the above policy may, on occasion, be waived, but only if the student is currently pursuing a baccalaureate degree. However, changes cannot be made in a student’s record which would affect the status of the awarded associate degree. Waivers must be approved by the appropriate dean.
Credit by Examination — Departmental

A currently enrolled student who can demonstrate ability and knowledge in a particular subject area may establish credit in certain courses without enrolling in them, by taking a special examination (through the appropriate department). An examination fee is assessed for each examination. The only grade possible is “CRX”, and there is no effect on the student’s grade point average. For the examination fee, see “Fees and Expenses”. Information on courses for which credit by examination is possible may be obtained from the student’s academic dean or the Office of Testing. Registration for departmental tests is done through the specific department.

Recalculation of Point Average

A current undergraduate student may wish to improve his or her cumulative point average by repeating a course in which a grade of ‘D’ or ‘F’ was earned. In order to recalculate the cumulative point average, the repetition must be consistent with the policy on repetition of courses, and the student must initiate the recalculation process with the approval of his or her advisor (or the dean, if it is a second repetition). Although courses are not deleted from the permanent record, the record is adjusted to reflect the inclusion of only the last grade in the computation of the point average. The hours credited toward degree hours completed are those earned with the last grade.

Only undergraduate students currently attending the University may request this recalculation privilege, and only courses taken at Youngstown State University may be used in recalculating the cumulative point average. A post-baccalaureate student is not eligible to petition for a recalculation unless both the course and the repetition are completed subsequent to the conferring of the degree. A student holding the associate degree may petition after receiving the associate degree only if currently pursuing a baccalaureate degree. All YSU grades, including those deducted from accumulative totals as a result of an approved Repetition Form, will be counted in determining honors for graduation.

Proficiency in English and Grading

The student’s ability to express himself or herself in English is the concern not of the Department of English alone, but of every member of the University faculty. Inadequate competence in English is to be regarded as a reason for lowering a student’s grade in any course in the University.

Absence from Classes and Examinations

The problem of excessive class absence concerns instructor and student, and consequently requires their mutual effort. All students must realize that for their own welfare they are expected to attend all class meetings of courses in which they are enrolled.

The instructor, however, has the prerogative of determining the relationship between class attendance, achievement, and course grades, and the responsibility for communicating the relationship to the students at the beginning of each term.

A student must have the instructor’s consent in order to take any examination at a time other than that scheduled.

GRADE REQUIREMENTS

Four categories of academic standing are established: Good Standing, Warning, Probation and Suspension. These are intended to signify a student’s progress toward graduation or to provide an opportunity for making improvements and achieving academic success.

“Warning” and “Probation” indicate that grade standards consistent with graduation requirements are not being met. An advisor’s approval of course load is required prior to continuing studies at the University.

“Suspension” means that a student is separated from the University for a period of time.

Recognizing that the transition from high school to college may be a difficult one, the University has set the minimum levels of academic achievement during the student’s first year below the level required for graduation. Academic standing is based on the total earned hours (TEH) completed, including accepted transfer hours. The point averages (PA) required for good standing are as follows:

<table>
<thead>
<tr>
<th>TEH</th>
<th>PA</th>
</tr>
</thead>
<tbody>
<tr>
<td>1-31</td>
<td>1.75</td>
</tr>
<tr>
<td>32+</td>
<td>2.00</td>
</tr>
</tbody>
</table>

A student whose point average falls below the specified average for the number of credit hours achieved will be given a warning.

A student who has been on warning and who fails to bring the average up to the minimum by the end of the following term will be placed on probation for the next term. A probationary student who has failed to bring the average up to the minimum by the end of the probationary term will be suspended; however, a student who makes substantial improvement during a probationary term and averages at least 2.00 for that term will be continued on probation even though the student’s cumulative average does not reach the desirable minimum.

A student on warning is permitted to participate in University activities.

A second suspension will have a duration of at least one full year before reinstatement on probation. Students should not expect to be reinstated after two suspensions unless the dean agrees that extraordinary conditions or circumstances have occurred. Additional suspensions will have durations of at least two years.
Reinstatement after any suspension is determined by the dean (or designee) of the college from which the student was suspended, or, if the student wishes to change colleges, by the dean of the new college. Exceptions to the suspension policy may be granted by the dean.

Transfer students admitted in good standing or on probation must meet those point-average requirements indicated for their total hours, including transfer hours accepted by Youngstown State University.

TRANSCRIPTS
The official transcript is a record of all coursework taken at Youngstown State University. Transcripts may be ordered only by the student. Transcripts may be ordered in person at the registrar’s counter in Meshel Hall, by mail, or by fax. Mail and fax requests should be sent to the Office of Records and should include the student’s name, any former name(s), Social Security or Banner ID number, dates of attendance, day-time phone number and written signature. Students are advised that most graduate and professional schools and many employers accept transcripts only if sent directly by the University. Photo identification is required when ordering or picking up the transcript in person. Transcripts will be released only for those students who do not currently have a financial obligation to the University.

A transcript indicates the academic status of a student. Disciplinary action is not shown on a student's academic record.

ACADEMIC HONORS
The Dean’s List
The Dean's List (for each term except summer) includes those full-time undergraduate students who have earned at least a 3.4 average for not less than 12 semester hours’ credit in the semester just ended.

Included in the listing for the spring term are those part-time students who have earned at least a 3.4 average for the fall and spring terms, and who have accumulated a minimum of 12 hours of credit.

Class Honors
To be eligible for undergraduate class honors a freshman must have completed at YSU at least 12 semester hours; a sophomore 24 semester hours; a junior 36 semester hours; and a senior 48 semester hours. Honors are based on the cumulative point average at YSU only; no transfer work is included. Both full-time and part-time students are eligible, provided they 1) have a minimum cumulative point average of 3.00; 2) have earned at least 12 credits in traditionally graded courses taken during the three semesters (including summer) preceding the term in which honors are awarded; and 3) are enrolled during the current term. Non-matriculated, post-secondary enrollment option students, transient students, post-graduate transfer students, and YSU students who have received a baccalaureate degree prior to spring semester in the academic year in which the honors convocation is held are not eligible. A student can receive class honors only once as a member of a particular class (freshman, sophomore, etc.). The number of honor recipients approximates the top one percent of the total fall enrollment of every class in each undergraduate unit of the University, but it may slightly exceed this figure because of ties.

Honors Convocation
The Honors Convocation recognizes those students who have distinguished themselves academically. Class honors certificates are given on this occasion, and some of the awards listed under Awards and Prizes (See Student Activities section) are announced and presented.

Graduation Honors
Students graduating with a baccalaureate degree who rank high scholastically are awarded special honors at the commencement exercise, as follows:

Those who attain a quality point average of 3.8 or higher are granted their degrees summa cum laude.

Those who attain a quality point average of less than 3.8 but not less than 3.6 are granted their degrees magna cum laude.

Those who attain a quality point average of less than 3.6 but not less than 3.4 are granted their degrees cum laude.

Students graduating with any associate degree who rank high scholastically are awarded special honors at the commencement exercise, as follows:

Those who attain a quality point average of 3.7 or higher are granted their degrees With High Honors.

Those who attain a quality point average of less than 3.7 but not less than 3.4 are granted their degrees With Honors.

A student who has processed an approved Statute of Limitations is ineligible for graduation honors. All YSU grades (including those deducted from accumulative totals as a result of an approved Repetition Form) will be counted in determining honors for graduation.

Transfer students who are baccalaureate degree candidates must have at least 60 semester hours of credit at Youngstown State University, or those who are associate degree candidates must have at least 40 semester hours of credit at Youngstown State University to be eligible for graduation honors. However, no transfer red credit—work taken at any time at an institution other than Youngstown State University—is included in the calculation of the point average.
ACADEMIC MISCONDUCT

Academic Honesty

Academic honesty is essential to the educational process and serves to protect the integrity of the University community. Therefore, all members of the University community have a responsibility of maintaining high standards of honesty and ethical practice. Cheating, plagiarizing, and other forms of academic dishonesty constitute a serious violation of University conduct regulations.

Though instructors are responsible for taking all reasonable precautions to prevent cheating and plagiarizing, students share a joint responsibility and should report any act of academic dishonesty to the instructor.

In cases involving academic dishonesty, the faculty member may take one or more of the following actions:

- warn a student; no further action
- submit an “F” grade on the exam or paper
- submit an “F” grade for the course
- and/or request additional sanctions from the Student Academic Grievance Subcommittee.

The faculty member shall obtain from the Office of Student Life an Academic Dishonesty Report to be completed and returned to the Office of Student Life.

The faculty member should discuss the circumstances of the incident with the student prior to taking any action.

The student may appeal any actions affecting the grade. The Student Academic Grievance Subcommittee will handle such appeals.

A report requesting additional action will be forwarded to the Office of the Provost. Repeated incidents of academic dishonesty or flagrant single offenses may warrant action beyond a failing grade in the course.

Procedures for reporting, investigating, and considering student conduct are found in The Code. The Code is available online at the YSU homepage or may be obtained in the Office of Student Life.

Academic Grievances

The Undergraduate Student Academic Grievance Procedure provides students with a formal channel through which complaints concerning academic matters may be heard. A student must attempt to resolve the complaint by first discussing the issue with the faculty member. If not resolved at that level, the student should direct his or her complaint to the department chair and, if the complaint is still not resolved, then to the dean of the college. Complaints not resolved following a discussion with the dean will be considered by the associate provost for Academic Administration. Upon his or her review, the associate provost determines whether the complaint is grievable. If so it is presented to the Student Academic Grievance Subcommittee. This committee may mandate a grade change only in cases of academic dishonesty or when the faculty member materially deviates from the course syllabus.

Students wishing to file a grievance should contact the secretary in the provost’s office for an appropriate referral. Further information may be found in Article IX, Section B of The Code, which is available online at the YSU homepage or may be obtained in the Office of Student Life.

STUDENT RECORDS

Student Name Changes

Students who need to have their official name changed must complete the Student Name Change form (available at www.ysu.edu/records). Legal documentation (marriage license, passport, divorce document, court order, naturalization papers) must accompany the form. This documentation may also be presented to either the Registrar’s or Records office.

Notification of Rights under FERPA

The Family Educational Rights and Privacy Act (FERPA) affords students certain rights with respect to their education records. They are:

1. The right to inspect and review the student’s education records within 45 days of the day the University receives a request for access.

A student should submit to the registrar, dean, head of the academic department, or other appropriate official a written request that identifies the record(s) he/she wishes to inspect. The University official will make arrangements for access and notify the student of the time when and the place where the records may be inspected. If the records are not maintained by the University official to whom the request was submitted, such official shall advise the student of the correct official to whom the request should be addressed.

2. The right to request the amendment of the student’s education records that the student believes are inaccurate, misleading, or otherwise in violation of the student’s privacy rights.

A student should write the University official responsible for the record in question, clearly identifying the part of the record he/she wants changed, and specifying why it is inaccurate, misleading, or otherwise in violation of his/her privacy rights.

If the University decides not to amend the record as requested by the student, the University will notify the student of the decision in writing and advise the student of his/her right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.
(3) The right to consent to disclosures of personally identifiable information contained in the student's education records, except to the extent that FERPA authorizes disclosure without consent.

Personally identifiable information is information that, if disclosed, would make a student's identity easily traceable, e.g., social security number. One exception which permits disclosure without consent is disclosure to University officials with legitimate educational interests. A University official is a person employed by Youngstown State University in an administrative, supervisory, academic, research, or support staff position (including law enforcement unit personnel and health staff); a person or company with whom the University has contracted (such as an attorney, auditor, or collection agent); a person serving on the Board of Trustees; or a student or volunteer serving on an official committee, or assisting a University official in performing his/her tasks.

A University official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility for Youngstown State University.

Upon request by another school in which a student seeks or intends to enroll, Youngstown State University also discloses education records without a student's consent to officials of such school.

(4) The right to prevent the University from disclosing any or all of the information about the student the University has designated as directory information.

FERPA permits the disclosure of directory information without the consent of the student. Directory information is information contained in a student education record which would not generally be considered harmful or an invasion of privacy if disclosed. Youngstown State University has designated the following types of information as directory information:

- a. name;
- b. address (campus and home);
- c. telephone listing (campus and home);
- d. e-mail address (campus and home);
- e. date and place of birth;
- f. field of study;
- g. participation in officially recognized activities and sports;
- h. weight and height of members of athletic teams;
- i. dates of attendance;
- j. degrees and awards received;
- k. the most recent previous educational institution attended; and
- l. photographic, video or electronic images of student.

Any student wishing to exercise this right must inform the Office of Records in writing within the first seven (7) calendar days of any academic term of the information not to be designated as directory information with respect to that student. If no such written notification is submitted, the University will assume that a student does not object to the release of the directory information. A student's request for such non-disclosure will remain in effect until the student notifies, in writing, the executive director of Enrollment Management otherwise.

(5) The right to file a complaint with the U.S. Department of Education concerning alleged failures by Youngstown State University to comply with the requirements of FERPA.

The name and address of the office that administers FERPA is:

Family Policy Compliance Office
U.S. Department of Education
400 Maryland Avenue, S.W.
Washington, D.C. 20202-5901

Any questions about this notification should be directed to the executive director of Enrollment Management.

GRADUATION REQUIREMENTS

Catalog of Entry

Each undergraduate student entering Youngstown State University is entitled to a copy of the Undergraduate Bulletin. This catalog or any one subsequent catalog will be the guide to graduation requirements, provided the student is in continuous attendance and does not change majors.

When a student changes majors, the guide to graduation requirements will be the catalog in effect at the time of change or any one subsequent catalog. Exceptions to this rule include the requirements for the minor and general education requirements. Unless the minor is specified by the new major, a student who has been in continuous enrollment and changes majors can fulfill the requirements for a minor by using the criteria in effect in either the catalog of entry or the catalog in effect at the time of the change in major. See the section on General Education Requirements for the relevant policy on general education.

Readmitted students will use the catalog in effect at their last readmission or any one subsequent catalog as the guide to graduation requirements. Any exceptions to requirements must be approved by the student's department chair and/or college dean. The University reserves the right to change course offerings and academic requirements.

Candidacy for a Degree

To be eligible for candidacy for any degree, the following three requirements must be fulfilled:
Application. You must file a Request for Graduation Evaluation form with the dean of your college after the completion of 40 semester hours for the associate and 100 semester hours for the baccalaureate degree.

An Application for Graduation form must be filed with the Office of the Registrar, registration counter, by the deadline indicated in the University Academic Calendar published on the inside front cover of this Bulletin. The application form is available at the dean’s office in your college.

If the student does not graduate at the commencement exercise for which the application has been filed, the application must be reactivated with the appropriate dean. It is the student’s responsibility to make certain all degree requirements are complete. The student must fulfill the: 1) University-wide, 2) college, and 3) departmental requirements as well as the minimum credit hours.

Residency. The last 20 semester hours leading to an associate degree and the last 30 semester hours leading to a baccalaureate degree must be completed at Youngstown State University. (In the pre-forestry, pre-law, and pre-medical curricula, however, which allow the student to earn final credit hours in absentia, the last 30 semester hours prior to the period of absence must be spent at Youngstown State University.) A minimum of 16 semester hours in the concentration area for the associate degree, and a minimum of 16 hours of credits comprising the major in the baccalaureate degree, must be earned in residence. A minimum of 21 semester hours of upper-division credit for the baccalaureate degree must be earned in residence. Exceptions must be approved by the Office of the Provost. Additional requirements may be specified by individual colleges.

Grades. The cumulative point average must be at least 2.00 (see The Point Average and Scholastic Standing) at the time candidacy is approved and at the time the degree is granted.

Additional requirements for the associate or baccalaureate degree appear on the following pages.

Baccalaureate Degree

A minimum of 124 semester hours must be successfully completed in order to earn a bachelor’s degree. In addition to requirements stated under Candidacy for a Degree, the following requirements must also be fulfilled for a baccalaureate degree:

Course Levels. At least 60 semester hours must be completed in courses numbered 2600 or higher; at least 48 of these 60 hours must be in courses numbered 3700 or higher.

Majors. Each student must complete a major. A department major consists of at least 30 semester hours of an approved set of courses. A combined major, in which courses are given by more than one department, consists of at least 48 semester hours. All grades in the major must be “C” or better.

Each department determines the course requirements for its own major or majors. Responsibility for certifying that a student has completed a major rests with the chairperson of the major department. The student may be required to do more than the minimum stated in the preceding paragraph.

As soon as a student has decided on a major, he or she should consult with the department chair of the major department. A major must be declared by the time a student has completed 63 semester hours. Early consultation with the department chair is strongly recommended, since in some departments the student must begin coursework related to the major during the freshman year or risk a delay in graduation.

Minors. A minor is an intellectual venture that broadens and deepens the student’s intellectual growth. An intellectual framework and coherence are evident in the scope and sequence of the minor course of study. A minor is intended to contrast with or deepen the major or General Education and is to be taken in a discipline other than that of the major. In approved interdisciplinary minors, courses from the student’s major discipline can be counted in the minor provided that the same courses are not counted toward the major. Each student must complete a minor, unless the student has a combined major or is enrolled in a professional or technical curriculum that does not require a delineated minor. Check with an academic advisor for specific information.

A minor consists of at least 18 hours of an approved set of courses. All grades in the minor must be "C" or better. Courses taken under the Credit/No Credit option may not be counted toward the minor. Upper-division courses must comprise at least 1/3 of the credit hours in the minor. An individualized minor may be developed and approved through the Individualized Curriculum Process (ICP). Transfer students may also use the ICP process for approval of a minor course of study. A minor is designated on the student’s transcript at the time the degree is awarded.

Each department develops the specific pattern or sequence of courses for any minor(s) it offers. However, the department in which the student receives the major is responsible for certifying that a student has completed a minor. Certification will be guided by the description of minors published in the Undergraduate Bulletin. For a list of minors and their requirements see Minor Areas of Study, p. 237.

Associate Degree

A minimum of 64 semester hours must be successfully completed in order to earn an associate degree. Students in associate degree programs must take a minimum of six general education courses, including Writing I and Writing II, and four additional courses selected from at least three of the following areas: mathematics, speech, natural science, artistic and literary perspectives, societies and institutions, and
General Education Requirements — (Basic Skills)

The University implemented this general-education program in the Fall 2000 semester. See page 45 of this Bulletin for more information.

All students should see an advisor before registering for general education credit.

For the most current information about GERs, visit the General-Education website: [http://www.ysu.edu/ger](http://www.ysu.edu/ger).

* These courses are officially approved by the Board of Regents as part of the Transfer Module. For additional information, see the Bulletin, pp. 15–18. To know whether other courses beyond the Transfer Module might be accepted by another Ohio University, go to the CAS System on the Internet at [www.transfer.org](http://www.transfer.org).
## General Education Requirements — Knowledge Domains
The University implemented a new general-education program in the Fall 2000 semester. See p. 45 of this Bulletin for more information.

All students should see an advisor before registering for general education credit.

* These courses are officially approved by the Board of Regents as part of the Transfer Module. For additional information, see the Bulletin, pp. 15–18. To know whether other courses beyond the Transfer Module might be accepted by another Ohio university, go to the CAS System on the Internet at [www.transfer.org](http://www.transfer.org).
personal and social responsibility. No more than one course counted toward the requirement may be in mathematics. Students should check with their departments to see if certain general education courses are mandated by their program.

GENERAL EDUCATION REQUIREMENTS

Preface: The purpose of the general education requirements is to foster:

- Qualities such as curiosity, intellectual honesty, fairness, civility, and openness to ideas and the sharing of knowledge,
- Thinking that is critical, independent and objective,
- Integration of knowledge across disciplines,
- The ability to function effectively in a technological society,
- Understanding of the importance of studying the past and present,
- Appreciation of literature and the arts as expressions of human culture,
- Recognition of the importance of acting as informed, responsible, democratically minded citizens of the world,
- And an attitude that learning is a personal and a collaborative process exercised over a lifetime.

GENERAL EDUCATION GOALS

Goal 1: Write and speak effectively.

Students demonstrate communication skills necessary to function in society and to compete in the global market place.

Goal 2: Acquire, process and present quantitative and qualitative information using the most appropriate technologies, including computers.

Students demonstrate the ability to select and use effectively the most appropriate technologies for gathering, analyzing and manipulating, transmitting, storing and presenting information.

Goal 3: Reason critically, both individually and collaboratively, draw sound conclusions from information, ideas, and interpretations gathered from various sources and disciplines, and apply those conclusions to one’s life and society.

Students will demonstrate the ability to reason critically, to distinguish among forms of argumentation, and to derive justified conclusions.

Goal 4: Understand the personal and social importance of ethical reflection and moral reasoning.

Students develop their capacity for ethical sensitivities and insight and understand important social issues that confront our society and those values necessary for a democratic nation to prosper.

Goal 5: Comprehend mathematical concepts and reason mathematically in both abstract and applied contexts.

Students demonstrate a fundamental understanding and competency in the use and interpretation of mathematics for problem-solving and decision-making in their personal and professional experiences.

Goal 6: Understand the scientific method, forming and testing hypotheses and evaluating results.

Students demonstrate an understanding of how data are gathered and organized, of how models, theories and laws are constructed and evaluated, and of the purposes, values and limits of scientific investigation. Students are able to critically evaluate scientific problems and assertions using the scientific method.

Goal 7: Realize the evolving interrelationships among science, technology and society.

Students understand the impact and changes in society that take place as scientific principles are discovered and new technology developed. Students understand that societal conditions and needs influence and shape progress in science and technology.

Goal 8: Grasp and appreciate artistic expression in multiple forms and contexts.

Students identify the elements and principles in works of art from a variety of artistic media and evaluate their personal interpretations of the works in light of the viewpoints of experts. Through a variety of aesthetic experiences, students recognize that the arts enrich their lives.

Goal 9: Understand the relationships between physical, mental, and emotional well-being and the quality of life of the individual, the family and the community.

Students recognize the interdependent nature of the individual, family, and society in shaping human behavior and determining quality of life. They understand that mental, physical and emotional well-being are interconnected, make informed decisions about life-style choice, and apply this knowledge to their own well-being and that of others.

Goal 10: Understand the development of cultures and organizations of human societies throughout the world and their changing interrelationships with Western Society.

Students comprehend how various societies have approached the common problems of human existence over time. They learn that solutions to those problems vary because of tradition, geography, philosophy, or religion, economic development, technological change and political power. Students understand how and why these societies have interacted with Western Society, where applicable.

Goal 11: Evaluate the impact of theories, events and institutions on the social, economic, legal and political aspects of society.
Students develop knowledge about the markets, social organizations, legal systems, and levels of government that comprise society. They understand, through study of theories, how these institutions function, interact with each other, and evolve in our society and others.

Goal 12: Comprehend and appreciate the development of diversity in America in all its forms.

Students comprehend the historical development of the United States as a democratic political system and the ideals, rights and institutions associated with that system. Students appreciate the diverse characteristics of the populations that comprised American society over time, the ways devised to cope with these differences, and the impact of conflicts over differences on politics and society in general. Diversity includes but is not limited to the characteristics of race, social and economic class, religion, gender, ethnicity, age, disability, lifestyle and political identity.

Goal 13: Understand and appreciate the natural environment and the processes that shape it.

Students demonstrate knowledge of the characteristics, processes, and laws that define natural environments. They evaluate the impact of events and changing conditions within these environments.

Transfer Students

Transfer students with a bachelor’s degree. Students coming from another university or from YSU with an already completed bachelor’s degree do not have to complete any general education requirements at YSU.

Transfer students without a bachelor’s degree. All transfer students will take the new general education requirements. Students who have completed the transfer module at a recognized institution may transfer 36–40 semester hours of general education credit. Such students must check with an advisor to determine which courses must be taken beyond the 36–40 hours to complete the YSU general education requirements. Transfer students who have not completed a transfer module must check with a college advisor. (See Transfer Credit on p. 16.) Most Ohio transfer-module courses will equate automatically when YSU receives the transcripts from your original institution. If you have questions, see an advisor or the Coordinator of General Education.

Baccalaureate Degree

A. Basic Skills

1) Writing

To learn the skills of effective writing, students will take two courses: Writing 1—the standard introductory writing course, and Writing 2—a course in which students investigate a thematic topic, gather evidence from the library, Internet, or other appropriate sources, and write a research paper using a computer.

2) Speaking

To become effective speakers, students will take an introductory oral communications course. The approved courses are CMST 1545 and 1545H, Communication Theory and Practice.

3) Critical Thinking

The critical-thinking learning outcome will be met through your major’s curriculum.

4) Mathematics

Students must take at least one approved course that teaches mathematical and statistical skills. A student may satisfy this requirement by passing an approved course, or by passing a higher-level mathematics course. The current approved courses are MATH 2623 and MATH 2625, Survey of Mathematics; however, several higher-level courses are approved substitutes: MATH 1549, College Business Mathematics 2; MATH 1552: Applied Mathematics for Management; 1570, Applied Calculus 1; 1571, Calculus 1; 1572, Calculus 2; 1581H, Biomathematics 2; 1585H, Calculus Honors; 2652, Mathematics for Early Childhood Teachers 2; 2665, Foundations of Middle School Mathematics 2; MATH 2670; MATH 2686H.

B. Knowledge Domains

Students must take two or three courses from each of the knowledge domains. The approved courses are so noted with each area. The total number of courses taken in natural science, artistic and literary perspectives, and societies and institutions must total eight; hence, the pattern of number of courses taken in these three domains may be 2-3-3, 3-2-3, or 3-3-2.

1. Natural Science (NS)

Students must take a minimum of two, and no more than three, courses, at least one of which must have a laboratory component.

2. Artistic and Literary Perspectives (AL)

Students must take a minimum of two, and no more than three, courses.

3. Societies and Institutions (SI)

Students must take a minimum of two, and no more than three, courses.

4. Personal and Social Responsibility (PS)

Students must take two courses.

5. Selected Topics and Electives (ST)

Students must take one course in this area from a list of approved interdisciplinary courses. Alternatively, a student may select one additional general-education approved course from mathematics, natural science, artistic and literary perspectives, and societies and institutions.

6. Capstone

Students must take one upper-division capstone course in the major or from another area that satisfies general education criteria.
Summary of General Education Model

I. Baccalaureate Degree

Basic Skills
- Writing I & II ........................................ 2 courses
- Speech .....................................................1 course
- Mathematics ...........................................1 course

Knowledge Domains
- Natural Science ...............................2–3 courses*
- Artistic & Literary Perspective ....2 –3 courses*
- Societies and Institutions...............2 –3 courses*
- Personal & Social Responsibility ....... 2 courses
- Selected Topics and Electives...............1 course
- 15 courses total

*A total of eight courses must be taken in natural science, artistic & literary perspectives, and societies & institutions; hence, the pattern may be 2-3-3, 3-2-3, or 3-3-2.

An upper-division capstone course is required, preferably in the major.

II. Associate Degree .................................... 6 courses

Includes Writing I & II and four additional courses from at least three of the following areas: mathematics, speech, natural science, artistic and literary perspectives, societies and institutions, and personal & social responsibility. No more than one course counted toward the requirement may be in mathematics. Students should consult with their department to see if any general education courses are mandated by their program.

Associate Degree Requirements

Requirements for each associate degree are listed in the appropriate college section. All associate degrees require completion of at least 64 semester hours of credit including 15 hours of general education. All students in associate degree programs who, based on the Math Placement Test, are placed in the developmental math course (MATH 1501) will be required to complete that course in order to graduate.

COMMENCEMENT

There are three graduation ceremonies each year: Fall Commencement is held in December, at the end of the first semester of the academic year; Spring Commencement is held in May, at the end of the second semester of the academic year; and Summer Commencement is held in August, at the end of the summer sessions.

STUDENT SERVICES

Marion G. Resch
Center for Student Progress

The Center for Student Progress, located below the Youngstown State University Bookstore, is available to assist students in successfully completing their University experience. The Center is designed to intervene actively in the lives of students to help them achieve academic and social success in college. In an effort to cultivate the skills of new students, expand the skills of developing students, and enhance the skills of exceptional students, the CSP (which can be found on the web at www.ysu.edu/csp) offers the following services and programs:

Adult Learner Services

The CSP/Adult Learner Services assists adult students in making the transition to and graduating from college. Adult students are defined as those who are 25 years of age or older, or who have been out of school four years or more. The CSP/Adult Learner Services provides academic and personal support both individually and through programming with services such as:

- Math classes for adult students
- Study and learning skills workshops
- Adult peer mentoring
- Early warning progress reports
- Time management and goal setting for adults
- Connections with adult learner groups on campus

More CSP/Adult Learner Services information is available by following the Adult Learner link at www.ysu.edu/csp/adultlearner.shtml, or by phone at 330-941-3538.

Disability Services

CSP/Disability Services provides students, faculty, and staff with assistance and information regarding accommodations for people with disabilities, either permanent or temporary. Compliance with the Rehabilitation Act of 1973 and the Americans with Disabilities Act of 1990 involves providing reasonable accommodations to qualified individuals with disabilities. These accommodations are provided in order to ensure equal access to people with disabilities regarding educational opportunities, programs, and activities.

The CSP/Disability Services addresses the needs of students with disabilities. Support for academic success includes:

- Serving as the gateway for accommodations for YSU students with disabilities
- Providing accommodation information
- Collaborating with faculty/staff regarding issues involving students with disabilities
- Arranging for classroom modifications for students with disabilities to allow equal educational access
- Making campus referrals/connections

To inquire about receiving disability services, please contact the office at 330-941-1372 (voice), 866-757-1353 (video), or 330-941-7470 (fax). A confidential appointment will be set up to discuss accommodation needs. The CSP/Disability Services is located at 36 W. Wood St.
Additional information about the CSP/Disability Services may be found by following the CSP/Disability Services link at: www.ysu.edu/csp/disabilityservices/, or by phone at 330-941-1372.

First-Year Student Services
The CSP/First-Year Student Services helps students become familiar with YSU, build confidence, develop direction, and identify opportunities that assist in achieving personal goals. CSP/First-Year Student Services provides all first-year and transfer students with the opportunity for an orientation program throughout the entire first year of college. Peer Assistants, upper-class students who are specially trained, serve as guides and friends to assist new students with time management, goal setting, navigating on campus, social adjustment, academic development, registration, and obtaining a faculty/staff mentor. First-year students receive individualized assistance through the development of a personalized plan to guide them through their first year of college. Services include:

- Peer assistance
- Early warning progress reports
- Various social and academic activities
- Connections and information for parents

The CSP/First-Year Student Services also provides a continuous opportunity for parents and family to stay connected with information about YSU and their students' first year through the Penguin Parent E-mail and Penguin Parent website which can be found at: http://www.ysu.edu/csp/fyss/penguinparent.shtml.

More information about CSP/First-Year Student Services may be found at: http://www.ysu.edu/csp/fyss/, or by phone at 330-941-3538.

Individual Intervention Services
The CSP/Individual Intervention Services offers professional coordinators to assist students on a one-on-one basis with strategies for college success. Coordinators provide on-site assistance, make campus referrals, and follow-up to ensure students receive all the University support available. More CSP/Individual Intervention information is available through links provided at http://www.ysu.edu/csp/individual_interven, or by phone at 330-941-3538.

Multicultural Student Services
The CSP/Multicultural Student Services provides the following services and programs to African American, Hispanic, Asian American, and Native American students:

- Academic support
- Workshops
- Faculty/staff mentoring
- Campus referrals and connections
- Early warning progress reports
- Co-sponsoring of cultural events
- Advocating for minority students
- Summer Bridge and Bridge and Beyond Learning Community

Information on Multicultural Student Services is available http://www.ysu.edu/csp/multicultural.shtml at, or by phone at 330-941-3538.

Orientation Services
The CSP/Orientation Services realizes that the first year of college is a time of rapid change and new experiences. The CSP/Orientation Services helps students become familiar with Youngstown State University and gives them an edge in achieving their education and social goals. Services include:

- Building confidence, developing direction and identifying opportunities
- Supporting students in their transition to YSU
- Promoting knowledge of campus activities and services that encourage academic achievement and personal growth
- Interacting with faculty, staff, and student representatives
- Receiving academic advisement, selection, and registration of courses
- Providing official information on students' undergraduate programs, rights and responsibilities
- Parent and family member programming

These services are explained at http://www.ysu.edu/csp/studentorientation/. For additional information, call 330-941-2103.

Student Tutorial Services
The CSP/Student Tutorial Services provides support for academic success by offering:

- Regularly scheduled individual and group tutoring sessions
- Independent study materials
- Computer-assisted instruction
- Review sessions for exams
- Academic support through tutoring in a variety of courses

Additional information on CSP/Student Tutorial Services as well as a tutorial schedule are available at: http://www.ysu.edu/csp/studenttutorial, or by phone at 330-941-7253.

Supplemental Instruction Services
The CSP/Supplemental Instruction Services (SI) offers a series of weekly review sessions for students taking selected courses. Availability of SI is announced in the classroom at the beginning of each semester. SI is provided for all students in these classes.
who want to improve their understanding of course material and improve their grades. SI attendance is voluntary. For students, it’s a chance to get together with classmates to compare notes, discuss important concepts, develop strategies for studying the subject, and take part in practice tests. At each session, the student SI leader, who attends the class and facilitates the session, will guide students through this material. The SI leader has previously taken the class and has received preparation to share information about both course content and learning strategies. There is a link for CSP/Supplemental Instruction at http://www.ysu.edu/csp/supplementalstudent. For additional information, call 330-941-7253.

Career and Counseling Services

Career Services

Your connection to careers and employment opportunities begins with the Office of Career and Counseling Services. This office provides comprehensive career planning/exploration and job search services to students and alumni in all areas of career decision-making and the professional job search. Students are encouraged to become familiar with Career and Counseling Services early in their course of study in order to fully utilize and benefit from available services and resources.

Services and resources available to students include: individual career and job search consultation; computerized interactive career planning software for assistance with individual academic/career planning; job postings from hundreds of local, regional, and national employers; a comprehensive career resource information center; employment search skill development programs and workshops offered each semester; an on-campus recruiting program which annually brings employer organizations to the YSU campus to interview graduating students for employment after graduation; and annual career/job fairs and consortium job fairs. Our staff also assists students in finding employment while enrolled in the University, either on-campus or with local area employers.

Central to the operation of the Office of Career and Counseling Services is PenguinLink (software by Symplicity), a totally web-based software system that makes it possible for currently enrolled students, YSU alumni, and employers to have 24-hour-a-day/7-day-a-week access to recruiting information and services at Youngstown State University. Through PenguinLink, students and alumni registered with Career and Counseling Services can upload their resumes to the database and publish their resumes to one or more online resume books, search job listings and email resumes directly to employers, quickly view the latest announcements from our office, and review the recruiting schedule and sign up for interviews with employers recruiting on campus.

Counseling Services

Juggling life’s responsibilities is a challenge that causes many individuals to feel anxious, confused, or overwhelmed at times. Youngstown State University Counseling Services provides a comfortable environment in which to discuss and address problems and possible solutions. Short-term counseling, consultation, and referral services are provided to currently enrolled students, and there is no fee for services. Issues commonly addressed during individual counseling sessions include: depression, anxiety, relationship problems, low self-esteem, school and work problems, eating disorders, and loss and grief issues.

The Office of Career and Counseling Services is located in 1034 Jones Hall. The office hours are 8:00 am – 5:00 p.m. on Mondays though Fridays. Our phone number is 330-941-3515, and our web site address is www.ysu.edu/career-services.

Office of Veterans Affairs

Located in Tod Hall, the Office of Veterans Affairs (OVA) serves as a central location to discuss issues, questions, or concerns current and prospective students may have regarding their enrollment. The university recognizes the sacrifice of military service and waives the undergraduate application and orientation fees for all veterans and current military. To have the application fee waived, the applicant must apply through the OVA with a printed-out undergraduate application form and verification of service in the armed forces of the United States.

After their initial registration, all former and current military personnel will receive priority registration notification for their second term.

The Office of Veterans Affairs administers the Army ConApp program and actively recruits all current and former military personnel.

The OVA also works with the Office of Veterans Affairs Advisory Council, an independent body that guides and supports the university’s efforts to serve those who have or are serving in the armed forces. The Council is a nine-member body with representation from faculty, students, staff, the community and the YSU Board of Trustees.

Students and all interested parties can contact the Council and the OVA by visiting our web site at www.ysu.edu/veterans and clicking on the Advisory Link, emailing us at veterans@ysu.edu, or calling the office at 330-941-2503 or 2523. Individual person-to-person meetings are encouraged.

Kilcawley Center

Kilcawley Center is often referred to as the heart of campus. This not only refers to its central location on campus, but to the services, conveniences, programs, and amenities it provides to the University community. The Center’s casual atmosphere, comfortable lounges, and attractive dining areas are
aimed at making free-time activity an integral part of a YSU education. Active with cultural, social, and recreational programming, Kilcawley Center provides for rich and diverse experiences outside the classroom. Visit Kilcawley’s web site at www.kc.ysu.edu for details on Kilcawley’s services, staff directory, the daily calendar of events, and student job postings.

The Center’s services include the Candy Counter and the Bagel Stop for quick between-class snacks, a bank and ATM machines, copy service, a travel agency, fax service, a U.S. Mail drop, as well as offices for Student Government and student organizations.

Kilcawley Center’s several study lounges are renowned for their comfortable overstuffed chairs and couches, good sites for doing classwork, studying, or catching a nap. The lounges and restaurant dining areas offer high-speed wireless Internet access for laptops. Kilcawley Center also houses sixteen seminar rooms, two computer-training classrooms, and a large multi-purpose room. On a daily basis these rooms host luncheons, workshops, seminars, lectures, organization meetings, and programs.

Graphic Services, located on the lower level of the Center, designs flyers, banners, posters, brochures, and graphics to fit whatever the need may be. Graphic Services is open Monday-Friday and offers a lamination service and a variety of helium balloons for every occasion. Also on the lower level of the Center is ComDoc Copy Services, two ATMs, and the YSU branch of Home Savings & Loan which is open 7:30 a.m. to 3 p.m. [M-F].

On the upper level of Kilcawley is the YSU Info & PC Lab, where students can find popular software programs and access the Internet. The only fee charged is for printouts. The YSU Info & PC Lab serves as the information center and lost & found for the University, registers students for campus locker rentals, provides estimates for the Kilcawley Resume and Typing Service, and is a YSU retail outlet for Microsoft software for current students, faculty, and staff who qualify.

Kilcawley Center offers a relaxing atmosphere with diverse choices in dining. Located on the lower level of Kilcawley are YSU Arby’s, Peaberry’s Café, KC Food Court, the Candy Counter, and the Bagel Stop. On the upper level of Kilcawley is Pete’s Place Restaurant.

YSU Arby’s serves breakfast and offers a large menu for lunch and dinner. In addition to roast beef sandwiches, YSU Arby’s offers curly fries, salads, milkshakes, chicken and turkey sandwiches and breakfast wraps. There is always something new on the menu at YSU Arby’s. Their large dining area is a popular meeting place on campus for students and staff. YSU Arby’s is also open Saturdays during the academic year for breakfast and lunch, and is closed Sundays.

Peaberry’s Café offers students a great place to relax and sip a latte or mocha while watching the big screen TV, enjoying entertainment on stage, playing billiards, or surfing the web on the Café’s computers. Peaberry’s specialty menu includes freshly brewed coffees and espresso-based drinks, as well as fresh-baked goods, sandwiches, and snacks. Peaberry’s is open for breakfast and lunch daily (M-F), and evenings for dinner Monday through Thursday during the academic year.

The KC Food Court offers a variety of food choices. Daily menu offerings include fresh fruit smoothies, homemade soups, custom-made subs, wraps, sandwiches, home-style fries, and a variety of ready-to-go items. Popular are the large slices of pizza, pasta dishes, and giant homemade cookies and desserts. KC Food Court features Freshens Smoothie Company, SubConnection, Grill 155, Pennyguins, and KFC Express. The Food Court is open for lunch Monday through Friday throughout the academic year, with several areas offering extended evening hours on designated days.

The Bagel Stop is a New York-style bagel shop open for both breakfast and lunch Monday through Friday. The menu features fresh bagels with flavored cream cheeses, just-baked muffins, and Starbucks coffee. For lunch, the Bagel Stop offers ready-to-go bagel sandwiches, PBJ’s, made-to-order salads, wraps, yogurts, fresh fruit, smoothies, and cookies.

The Kilcawley Candy Counter is a popular spot. Choose your favorite chocolates, gummy candy, dried fruit, and nuts from the old fashioned candy jars, and the Candy Counter student staff will weigh out your order. Energy drinks, ice teas, juices, and cold Coke beverages, as well as a variety of granola bars, cookies, crackers, chips, and crunchy snacks are sold at the Candy Counter, along with U.S. postage stamps.

Kilcawley’s Pete’s Place Restaurant offers comfortable booths and buffet dining for breakfast and lunch. Pete’s Place features whole-wheat gourmet pizzas, specialty salads with organic dressings, homemade soups, just-baked breads, and Coke beverages for one low price. For a small additional charge, diners can add a sandwich or pasta-of-the-day. The restaurant is open Monday through Friday till 2 p.m., with extended dinner hours on Wednesdays and Saturdays. Pete’s Place is located on the upper level of Kilcawley with entrances located at University Plaza and the east wing breezeway between Kilcawley Center and Kilcawley House.

Don’t want to bother with cash? If you add Pete’s Points to your YSU ID card, you can swipe-and-go at any Kilcawley dining location, including the Kilcawley Candy Counter and the YSU Bookstore. A variety of meal-plan options is also available for purchase. If you have meal plan questions and would like a brochure, or wish to purchase Pete’s Points or a meal plan, visit the Card Office located in the Kilcawley Center Staff Office.
University Dining’s Office is located on the upper level of Kilcawley in the main lobby entrance. The office provides a full catering menu for small group functions to large dinner buffets for up to 450 persons.

The YSU Bookstore is located on the upper level of the Center, as are the campus convenience store, Pan Atlas Travel Agency, the Kilcawley Staff Offices, and the offices of Student Life, Student Government, Student Diversity Programs, and Student Programming/Greek Life/Homecoming. The Andrew’s Student Recreation and Wellness Center can also be accessed from the upper level of Kilcawley Center.

Kilcawley Center’s lower level west wing, located under the YSU Bookstore, houses the Center for Student Progress. The east wing of Kilcawley Center is Kilcawley House, where the Office of Housing and Residence Life and the Student Health Clinic are located on the first floor.

Ombudsperson
Youngstown State University’s ombudsperson provides students with an experienced staff member who can answer questions, help mediate disputes, solve problems, explain policies, and recommend changes in University policies and procedures that may be outdated or ineffective. Available during regular office hours in the staff offices of Kilcawley Center, the ombudsperson serves as an advocate, a confidant, a mediator, a helper, and a listener. Visit http://ombuds.ysu.edu/ for more details.

Student Health Clinic
The Student Health Clinic is located on the first floor of Kilcawley House, which is adjacent to Kilcawley Center. The entrance to the Clinic is located off University Plaza.

The Clinic provides health care to all currently enrolled YSU students—both resident and commuter students. Licensed physicians staff the Health Clinic twelve (12) hours per week during the semester. Appointments are required. Students must call 330-941-3489 to schedule an appointment. During break weeks and summer term, physicians have limited hours; however, registered nurses are available daily, year round.

Health care is available for illness, injury, first aid, and routine health checks. Health screening tests, physical exams for sports and academic programs, gynecological exams, as well as consultations and referrals, are provided. Flu and other immunizations are also given; however, there are charges for these injections.

Office visits are free. Students do not need to have student health insurance to use the Clinic’s services. Blood tests, x-rays, lab tests, etc., ordered by a YSU Health Clinic physician are done off campus at the student’s choice of provider and at the student’s expense.

Student records are kept strictly confidential. Information cannot be released to anyone without the written consent of the student. Certain public health diseases, however, must be reported to the Department of Health as required by law.

The Student Health Clinic also provides information and registration forms for Student Health Insurance. Details concerning the policy are available by stopping in or calling the Health Clinic office.

Student Health Insurance
The University makes a health insurance policy available to students who qualify. Details are available from the YSU Student Health Clinic webpage at http://healthclinic.ysu.edu/. Click on insurance.

Day Care
Students who have younger children may wish to place them in on-campus childcare centers.

Wee Care Day Care and Learning Centre is the official provider of childcare services to Youngstown State University students, faculty, staff, and alumni. It has a professionally trained staff that takes care of children ages six weeks to 10 years. The Centre is located in Fedor Hall and is open from 5 a.m. to 11:30 p.m. The phone number is 330-941-2936.

Wee Care is equipped with 24-hour-a-day video monitoring and a very strict sign-in and sign-out policy. Besides the convenience of its location and the quality of its program, students especially like the flexible scheduling options.

Students may also be eligible for child care through the Mahoning County Educational Service Center, which has day care facilities throughout Mahoning County, including one on the YSU campus. Please call 330-965-7828 for more information.

Partial reimbursement is also available to University students for licensed off-campus day care facilities. Contact the Office of Financial Aid and Scholarships at 330-941-3501 for more information.

ACADEMIC RESOURCES
The Writing Center
The YSU Writing Center is operated by the Department of English to provide individualized instruction in writing for all students. The goal of the Center is to help clients become more independent, confident, and successful writers. The Writing Center staff includes faculty, graduate assistants or interns, undergraduates, and a full-time coordinator.

Services include one-to-one feedback on any writing task, at any stage, for any course, as well as peer-group reviews, workshops, and access to instructional handouts. The services offered by the YSU Writing Center are free of charge to all registered YSU students.
The Writing Center is located on the lower level of Maag Library, Room 171. Writing Center hours are Monday through Thursday 9 a.m.–5 p.m., and Friday 10 a.m.–1 p.m. Students can schedule appointments through WCOnline at http://www.rich36.com/ysu. Consultants are also available for walk-in sessions on a first-come, first-served basis. Evening, weekend, and satellite hours at Stambaugh Stadium and the YSU Metro College at Southwoods vary by semester.

For more information about the Writing Center, please call 330-941-3055 or e-mail wcenter@ysu.edu. Appointments outside regular hours, online advice for distance-learning students, and extended sessions for papers longer than 10 pages (i.e. capstone projects) can also be arranged.

Mathematics Assistance Center

The Mathematics Assistance Center (MAC) is an academic support service integrated with the Department of Mathematics and Statistics. Its mission is to offer YSU students assistance in the strengthening of their fundamental mathematics skills necessary for success in the study of mathematics. This mission is accomplished through services provided such as one-on-one or group tutoring and the provision of resource materials for independent study.

The MAC has many services available to currently enrolled YSU students. The main service, tutoring, is provided to students currently enrolled in mathematics courses ranging from Elementary Algebraic Modeling through Calculus. In addition, other services such as computer-assisted instruction, video-based instruction, mathematics course solutions manuals, some mathematics “hand-outs” for selected topics, and specific workshops (offered as needed and as resources permit) are available to any currently enrolled YSU student.

The Mathematics Assistance Center (MAC) operates on a walk-in basis during business hours (listed below) at its location in Room 3090, Cushwa Hall. The staff of the MAC consists of a coordinator, assistant to the coordinator, graduate and undergraduate tutors, and student office assistants.

For any additional information, call the Mathematics Assistance Center (MAC) at 330-941-3274. Business hours for fall and spring semesters are Monday through Thursday 9:00 a.m. to 5:00 p.m., Friday 9:00 a.m. to 3:00 p.m. For summer hours call the MAC.

Reading and Study Skills Center

The Reading and Study Skills Center provides individualized and course instruction in improving reading rate and comprehension as well as enhancing strategies for studying at the college level. Staffed by instructors, graduate students, undergraduate peer tutors, an administrative assistant, and a coordinator, the Reading and Study Skills Center primarily maintains classes and tutoring sessions for RSS 1510A, 1510B and 1510C—courses students may be mandated to take based on the COMPASS® Reading Test (CRT). Additional services include individual tutoring, college success workshops, and assistance with preparation for standardized tests such as PRAXIS, MCAT and GRE. Students may call or visit our website to schedule an appointment for individual tutoring or to view the semester calendar of free workshops.

The services offered by the Reading and Study Skills Center are free of charge to all registered YSU students. The Center is located in the lower level of Maag Library and is open from 8:00 a.m. to 6:00 p.m., Monday and Wednesday, and 8:00 am to 5:00 p.m., Tuesday, Thursday and Friday. For more information contact the Reading and Study Skills Center, telephone 330-941-3099 or the website: www.ysu.edu/rdg-studyskills.

Maag Library

The six-story William F. Maag Library is an attractive, comfortable, yet technically advanced, environment for study and research at the center of the YSU campus. Maag Library provides comprehensive information services as well as access to information in print, analog, micro and digital formats. A professional staff provides in-depth assistance in a wide variety of disciplines. Maag Library is open for on-site use more than 85 hours per week during the term. Virtual access to library services, the on-line catalog, and direct digital information resources is available via MaagNet, www.maag.ysu.edu, providing constant access from home or office.

Maag Library is a member of OhioLINK, a statewide library and information network linking the libraries of all of Ohio’s public and private colleges and universities. OhioLINK provides straightforward, easy access to a combined collection of over 39 million items. The vast majority of this state-wide collection is open to patron-initiated borrowing with rapid delivery to any member site. The network also provides access to over 100 indexing and abstracting databases in a wide variety of disciplines and direct access to the full text of over 5700 scholarly journals. OhioLINK is currently working to provide direct Internet access to a wide variety of audio, visual, and primary-source materials.

Maag Library itself offers instructional and research materials in books, periodicals, microforms, CD/DVD, and sound recordings to a combined catalog of over 1.5 million records. These holdings number close to 100,000 government documents (with access to millions on-line), 700,000 bound volumes, and 800,000 microforms. Periodicals, microforms, and micro-readers are housed on the first floor. A copy-management center allows self-service. User service points such as reference and circulation, as well as most staff offices, are conveniently located on the Library’s entrance floor. The book collection is in open stacks, with split-level design between stack and reading areas. Study rooms and carrels are located on five of the floors.
Maag Library houses over 150 contemporary computer workstations, connected to a high-speed network, located throughout the building. The fourth floor of Maag houses a general-purpose productivity computer lab that is open to faculty and students as many hours as the library is open. Moreover, laptop computers with wireless network connections can be checked out for use anywhere in the library. In addition, any YSU faculty, staff or student with a wireless device is able to connect to the Maag wireless hubs.

In 2004 Maag Library initiated the development of the Archives and Special Collections unit. Located on the fifth floor of Maag, this unit not only collects and preserves documents detailing the history of YSU and its environs but also is developing the capacity to provide searchable Internet access to its entire collection. The Maag Multi-Media Center on the third floor contains over 20,000 phonograph recordings, audio and video tapes as well as audio and data disks. The collection is strong in recordings of opera, jazz, and the collected works of J.S. Bach. A significant effort is currently underway to digitize most of the collection’s analog recordings.

The Curriculum Resource Center (CRC) located in the Beeghly Hall College of Education is also a vibrant part of Maag Library, offering curriculum materials and support for students in education.

The lower level of Maag Library houses the Writing Center, The Reading and Study Skills Center, and the English Language Institute.

The Computer Center

YSU’s centralized computational facility houses the Computer, Network, and Telephone Services departments. The Computer Center, which provides decentralized access to faculty, staff, and students, occupies the fourth floor of Meshel Hall. The Tech Desk, housed on the fourth floor of Maag Library, provides customer support services.

Personal computers are available on campus for instruction and research. Currently, more than 60 labs are available within the 14 campus buildings and the suburban Metropolitan College site. Networked personal computers allow access to local software, as well as to other facilities on campus, such as Maag Library, and to Internet sites worldwide. The Electronic Campus provides faculty, staff, and students the opportunity to use global and local computer networks and current-generation computer hardware and software via a high-speed network infrastructure.

Supporting both academic and administrative needs is the SunGard Banner ERP software suite. For those students, faculty, and staff needing UNIX shell services, a Sun server running Solaris 2.8 is available on the network. More than 4,000 online devices, including terminals, personal computers, printers, and projection systems are located on campus. A Virtual Private Network (VPN) is provided for remote access off campus.

An Ethernet backbone that runs through campus connects workstations, personal computers, and Maag Library’s computer system. All campus buildings are linked to a gigabit Ethernet optical fiber network backbone consisting of fully meshed high-speed core switches; 100Mb Ethernet is available to the desktop using Category 5 copper cabling.

Over 10,000 network locations have been wired with electronics to activate 5,000 concurrent connections. Campus Intranet and Internet access is available at each of these locations, including all residence hall rooms. Selected classrooms are equipped with fiber optic access to facilitate broadcast quality, full-motion video distribution, and distance-learning opportunities. Over 200 locations on campus have wireless network services, including Maag Library, Kilcawley Center and on-campus housing. Plans to extend wireless access to areas throughout the campus are also underway. The MyYSU portal extends e-mail services to all students, faculty, staff, and University guests.

Laboratories

In addition to the Computer Center, Youngstown State University offers students a wide range of up-to-date laboratories and equipment across campus.

Located in DeBartolo Hall, the Language Learning Resource Center is a state-of-the-art foreign language lab facility designed for both classroom use and individual study in second-language acquisition and the study of foreign languages, literatures, and cultures.

The LLRC audio lab was completely renovated and remodeled in 2009. The new audio lab carrels are equipped with the most current digital Sanako hardware for language learning and the Sanako Duo software, a digital two-track interactive audio recorder. The audio lab, which is reserved for foreign language study, has 30 student stations each equipped with Dell personal computers with CD-RW/DVD-ROM combo drives, Windows Office 2007, and Tandberg Educational headphones. With Sanako, a digital audio or video file may be played back from a program track while students simultaneously record their response on the student track. The LLRC computer lab has an additional 50 student Dell personal computers and is an open lab when not in use for a class. Student assistants are hired to assist with the various types of equipment and to tutor the languages taught at YSU.

In the psychology laboratories, located in the basement of DeBartolo Hall, students can learn basic techniques of experimental psychology, child psychology, social psychology, and survey research. Equipment includes an electromagnetically isolated room for recording neural activity, animal housing areas, a child observation room, and equipment for the control of animal behavior.
The anthropology and archaeology laboratory has a wide range of specialized equipment including standards for the parameters of a biological profile (age, sex, ancestry and stature), statistical analysis packages for biological anthropology research, anthropometry instruments, and archaeology research tools.

The Department of English has eight computer labs in DeBartolo Hall primarily for the use of students enrolled in English composition and professional writing and editing classes, one lab for journalism classes in Fedor Hall, and one Writing Center lab in Maag Library.

Computer facilities in the new Williamson Hall include three networked computer labs with direct internet access and laser printers. A Financial Service Lab and Professional Sales Lab are also available. Specialized software used in business courses is also available.

In Cushwa Hall, laboratories are provided for radio broadcasting, physical therapy, dental hygiene, microbiology, nursing, criminal justice, medical technology, respiratory care, human ecology, clothing and textiles, medical assisting, paramedical science, and mathematics.

Laboratories in Moser Hall are described in the College of Science, Technology, Engineering, and Mathematics section of the catalog.

The Bookstore

The YSU Bookstore, located between Kilcawley Center and the Andrews Student Recreation and Wellness Center, stocks textbooks for all YSU classes. The YSU Bookstore offers ways to save students money by offering used textbooks that save 25% off new prices; the Get Booked Early promotion that offers savings for online purchases (http://www.ysubookstore.com/) and textbook buyback, held the last two weeks of the fall and spring semesters and selected other dates, when students can receive cash (up to 67% of the original price) for their resalable textbooks. Students will also find YSU logo apparel and gifts, supplies, fiction and nonfiction books. Rounding out the exceptional shopping experience at the Bookstore is a convenience store with your favorite snacks, coffee, and last-minute supplies. Visit us on the web at http://www.ysubookstore.com/or call 330-941-3589.

Comprehensive Testing Center

The Comprehensive Testing Center is a part of the Division of Student Affairs. Among the testing services provided are administrations of national admission and certification examination. These include the American College Test (ACT), the Graduate Record Exam (GRE) Subject Test, the Miller Analogies Test (MAT), the Law School Admissions Test (LSAT), and the PRAXIS exam.

Additionally, YSU’s computer-based placement testing is administered through this office. Placement tests are administered year-round in both group and individual sessions.

General and vocational-interest examinations for guidance purposes are available on campus. Current YSU students wishing to take such tests may make arrangements with the University’s Counseling Center.

Center for International Studies and Programs (CISP)

The Center for International Studies and Programs (CISP) is an integral part of the Division of Academic Affairs and is responsible for coordinating the international dimensions of the university, including international student and faculty services, study abroad and exchange programs, and the English Language Institute. The CISP is guided by the university’s International Advisory Council. For more information on studying abroad and about the English Language Institute, visit http://www.ysu.edu/EngIns.

International Undergraduate Admission

Applicants who are not U.S. citizens or legal permanent residents should apply for undergraduate admission through the Center for International Studies and Programs (CISP). For an application form and more information about international undergraduate admission, please visit the CISP website at http://www.ysu.edu/cisp/. Those wishing to enroll in the English Language Institute (ELI) also apply directly to the CISP. For more information about admission, see International Undergraduate Applicants on p. 20-22; for more information about the ELI, see p. 75.

International Student and Faculty Services

CISP coordinates international student recruitment and admission, the international student health insurance program, and the Stephen and Brigitta Hanzeley International Student Scholarship. The CISP also provides immigration-related services for international students, faculty, and staff. For more information about requirements for enrolled international students, see Requirements for Nonimmigrant Students on p. 37.

International Student Association (ISA)

Originally founded in 1958 as the International Student Federation, the purpose of ISA is:

- To promote positive interactions among U.S. American and International students;
- To increase awareness of international cultures at Youngstown State University and in the Youngstown community;
- To be a place where international students can find common ground;
• To support international students at Youngstown State University.

HOUSING & RESIDENCE LIFE

University Housing

YSU owns and operates five housing facilities for students: Kilcawley House, located on University Plaza; Lyden House and Cafaro House on Madison Avenue; and Wick House and Weller House on Wick Avenue. On-campus options for students range from traditional residence hall facilities to apartment-style housing.

On-campus living provides students many advantages and opportunities. University housing facilities are structured environments. Each is a small community, and as such, has procedures and regulations addressing such things as noise, safety, guests and security. University residence halls have full-time professional and part-time student staff that oversee the operation of the halls and assist students with the challenges of daily college life. Each facility has state-of-the-art building security systems. On-campus living is a good place to get to know many students in a short period of time. Sharing bathrooms, lounge space, and corridors with a group means you can't help but make friends quickly. Being on campus also means that classes, the library, the student center and the wellness center are never very far away.

Kilcawley House

Kilcawley House was constructed in 1965. All areas of this facility have been refurbished recently. Public areas, bathrooms and student rooms are attractive and modern. This seven-story building can accommodate 224 students. Kilcawley residents live in double-occupancy rooms, complete with bunk beds, wall-to-wall carpeting, built-in desks, cable TV, Internet access, and plenty of closet and drawer space. Rooms feature separate room-controlled heating and air conditioning. Lounges and study areas are available on each floor. A computer lab with Internet access is located in the basement. The basement also contains a TV lounge, a game room equipped with ping-pong and pool tables, a kitchen with vending machines, fitness equipment, a 24-hour study area and two music practice rooms. Its residents have the advantage of being located in the heart of the YSU campus, and can use all of Kilcawley Center's facilities, including Home Savings & Loan Bank, computer center, and copying service, without going outdoors.

Lyden House

When Lyden House opened in the fall of 1990, a new era began for on-campus housing at Youngstown State. The impressive five-story structure reflects a traditional collegiate gothic style with clean, contemporary lines.

Lyden House, located just north of campus along Madison Avenue, houses 300 students. A typical student room is approximately 12' x 17' and houses two students. In addition to a bunk bed, which can be stacked or separated, each student has a desk and chair, a dresser, a shelving unit and an armoire wardrobe unit. The furniture is uniquely designed to interchange to suit the individual student's tastes in personal decor.

Rooms also feature separate room-controlled heating and air conditioning units, cable TV, decorator vertical window blinds, overhead lighting and tiled floors. Each room has high-speed Internet access. All rooms in Lyden are designed to be handicapped accessible.

Each wing of this beautifully designed residence hall includes convenient shower and restrooms, quiet study rooms, and comfortable conversation lounges. Students have full access to a kitchenette/vending area, fitness room, computer lab with Internet access and laundry facilities in the lower level of Lyden. A convenient parking area is also available adjacent to Lyden House.

Cafaro House Honors Residence

Cafaro House, our newest residential honors facility, is coed, housing 274 students. The facility, which opened fall 1995, houses participants in the University Scholars Program, B.S.M.D. program, Honors Program, and the Emerging Leader Community.

Enclosed suites rather than traditional rooms accommodate 6-18 residents, with individual rooms branching off each suite area to house 2-3 residents. Each room has cable TV, and high-speed Internet access.

In addition to providing a variety of lounge and recreational spaces similar to Kilcawley and Lyden, this facility also has academic spaces such as a seminar room, computer lab with Internet access, and music practice rooms.

Weller House

Weller House is located along Wick Avenue next to the Arms Family Museum of Local History and near the Butler Institute of American Art. Weller House accommodates 19 upperclass, junior, senior and graduate residents. Furnishings provided for each student are similar to those previously listed for Lyden House residents.

Weller House opened in fall 1991, offering apartment-style on-campus living, each unit having a full bathroom with tub and/or shower, and a kitchen furnished with modern cabinets, high-speed Internet access, cable TV, an electric range, refrigerator/freezer, garbage disposal and a dining table. Apartments vary in size and are designed to accommodate one to three students.
Weller also offers students a comfortable, group lounge with convenient laundry facilities on the lower level.

**Wick House**

Located on Wick Avenue adjacent to Weller House, Wick House is a restored mansion that was at one time the home of the Wick family. This residence hall offers unique living spaces for 36 upperclass residents. Rooms vary in size and design, accommodating one to four residents, and several rooms offer private bathrooms. Rooms are furnished with beds, desks, and wardrobes similar to those found in Lyden House.

Wick House provides a kitchenette and large lounge on the first floor and laundry facilities in the basement. Ample parking is available adjacent to the building.

**Christman Dining Commons**

The Christman Dining Commons opened for fall 1991, and serves students with an on-campus resident meal card or on a per-meal cash basis. The Commons is located adjacent to both Lyden House and Cafaro House and is easily accessible from Elm Street, Madison Avenue, and Custer Street.

This gracious single-floor dining facility architecturally complements Lyden and Cafaro Houses, seats 300 and will serve over 600 per meal.

The Commons offers a wide variety of menu options to campus residents, from self-serve cold foods, beverages, and snack selections to staff-served grille specialties and hot entrees.

Various meal plans are also available to those current students not living in University-owned facilities.

**Application for Housing**

Applications are available online at [http://housing.ysu.edu/application](http://housing.ysu.edu/application). If you indicate an interest in housing on your application for admission, an information packet will be sent to you.

In order to be accepted for University Housing a student must first be admitted to the University. Space is allocated on a first-come first-served basis. If you have not yet applied to the University, contact the Office of Undergraduate Admissions at 330-941-2000.

**University Housing Partners**

**University Courtyard Apartments**

New for the fall of 2003 were the University Courtyard Apartments. Independently owned and operated, these are an ideal option for students wishing to live close to campus but not in a University residence hall. The University Courtyard Apartments are located in the Wick Oval, just minutes away from the center of campus and adjacent to Bliss Hall, home of the College of Fine and Performing Arts. There are 1, 2 or 4 bedroom apartments available, and each apartment comes equipped with ceiling fans, wall-to-wall carpet, appliances—including dishwasher and microwave—garbage disposal, and mini-blinds. In addition, every apartment comes fully furnished. In the apartment complex, there are planned resident activities, a study center—including a computer lab—and a choice of fitness and recreation opportunities. The rent for the apartments is all-inclusive, which means the residents pay one amount for everything—central heat and air, electricity, water and sewer, local telephone, high-speed Internet access, and basic cable TV. Complete with a comprehensive safety and security plan, the University Courtyard Apartments provide an ideal way to “study hard and to live easy.”

**Buechner Hall**

Buechner Hall, a privately owned and operated women’s residence hall, is located near the center of campus. Although this facility is not operated by Housing Services, cooperation and regular communication ensure that the women residents are integrated into campus life.

Designed and built expressly for women, Buechner Hall is operated by the Buechner Foundation, a private, not-for-profit corporation, and is maintained by funds from the original bequest. The Foundation partially underwrites every resident’s cost. Located on the YSU campus, Buechner Hall houses 72 women in single and double rooms. The air-conditioned rooms are completely furnished, including linens and telephones, and are cleaned weekly by the housekeeping staff. The dining room provides 15 home-cooked meals a week, and weekend cooking facilities are also available. The building has an elevator and sprinkler system, and laundry facilities on each floor.

Staff and security guards provide maximum 24-hour security service. A beautiful and immaculately maintained building, Buechner Hall is conducive to a quiet study environment. It is located at 620 Bryson Street, Youngstown, OH 44502 330-744-5361.

**Independent Living**

Off-campus housing is an attractive option for many students. In the greater Youngstown area, there is a wide variety of apartments, houses, and rooms for rent at surprisingly reasonable rates. Much of this housing is within walking distance to campus, so students without their own automobile are able to take advantage of it. Many students with transportation opt to live further from campus.

Whatever kind of housing you are interested in, please contact the Office of Housing & Residence Life at 330-941-3547 for more information.

**Lockers**

Current students may rent a locker on campus for $20. All items stored must be removed at the end of each academic year. The University assumes no
responsibility for property stored in a locker. Information about campus lockers is available at the YSU Info & PC Lab, upper level, Kilcawley Center.

CAMPUS SAFETY

University Police Department

A well-trained and well-equipped campus police force is maintained by Youngstown State University. The department is located in Clingan Waddell Hall at the corner of Fifth Avenue and Wood Street.

The staff consists of 23 sworn police officers, 6 support employees, and an intermittent staff of 150 sworn officers. The department is a personal-service, technology-efficient law enforcement unit. The staff is supported by a sophisticated communication system, closed circuit television, well-equipped cruiser/patrol vehicles, and computer-based record keeping.

The training of departmental personnel is ongoing, and crime prevention is a departmental priority. Some officers are members of the Mahoning Valley Law Enforcement Task Force. This participation results in the availability of additional police resources for the University community.

The University Police Department is open 24 hours a day. The general business telephone number is 330-941-3527. The emergency service number is extension 911. Campus emergency telephones are located throughout campus that will connect you directly to the YSU Police Department in the event of an emergency.

All students are encouraged to program the YSU Police Department phone number (330-941-3527) into their cell phones for immediate contact with a YSU Police Dispatcher when a campus phone is not available or convenient.

Campus Safety Statistics

Youngstown State University has an outstanding record of safety on campus. For a detailed description of campus safety measures and FBI Uniform Crime Report statistics, see the publication Your Right To Know, available from YSU Police, the Vice President for Student Affairs, or from the campus crime-prevention boards located in all campus buildings.

Campus Crime Alerts can be viewed at the department website: http://www.ysu.edu/police.

Emergency Notification System

The University has in place an emergency notification system that instantly reaches cell phones and other mobile devices when an urgent campus situation needs to be communicated. In the event of an emergency, a text message is sent to the mobile number and/or email registered with the system.

Students must register at http://alert.ysu.edu to receive emergency notifications. Parents and family of students may also sign up at the same website to receive alerts.

Student Security Service (SSS)

SSS is a free service provided by specially trained YSU student employees who will accompany students, faculty, and staff safely anywhere on campus. During the hours of operation, you can be escorted to the near North Side if an officer is also available to assist with the escort. Escorts are available Monday through Thursday from 7:00 a.m. to 11:00 p.m., on Friday from 7:00 a.m. to 7:00 p.m., Saturday from 8 a.m. to 2 p.m., every day school is in session. The exception is summer semester and during breaks, when escorts are available from 7:00 am to 7:00 p.m. Monday through Friday. Those with disabilities who need assistance are encouraged to make special arrangements to be safely escorted to any location on campus, day or night. Call 330-941-1515 for more information or to schedule an escort. After hours, on holidays and weekends, call the YSU Police Department at 330-941-3527 if you need an escort.

PARKING

Parking for students, faculty, and staff is available close to all major campus buildings. You must secure a parking permit on either a semester or a daily basis to be able to park in these lots. You may order your parking permit online through the MyYSU Portal and it will be mailed to you the next business day.

Some short-term metered parking is available on the streets surrounding campus and beside Meshel Hall.

Parking areas are designated as follows:
M — Mixed Parking (faculty, staff, and students)
R — Resident Parking
F — Faculty/Staff Parking

Parking facilities for students include two parking decks and specified surface lots. Although some lots are designated for faculty/staff parking during the day, after 4:30 p.m. daily, all F-lots become mixed (except the F-1 lot on University Plaza)

Street parking is under the jurisdiction of the city of Youngstown. Tickets received for street parking violations must be appealed to the city. For more information call the Parking Office at 330-941-3546.

The current parking regulations brochure contains additional information about University-controlled parking. The brochure is available from Parking Services in Room 2000, 318 Fifth Avenue or on the YSU web page, www.ysu.edu/parking.

For information on registration of vehicles and applicable fees, see the Fees and Expenses section of this catalog.
Motorists’ Assistance Program

Parking Services offers on-campus help with jump starts and lockouts to anyone with a valid YSU parking permit. The MAP will also lend out lug wrenches, jack stands, and gas cans. To contact the MAP program and shuttle service call 330-941-3051 or stop at any staffed parking booth.

STUDENT ACTIVITIES

Youngstown State University offers a broad range of campus activities geared to enriching and expanding the student experience beyond the classroom. Participating in student government, intramurals, student publications, art and music groups, and over 165 student organizations give students opportunities to make new friends; meet people from backgrounds, cultures, and perspectives different from their own; develop leadership skills; and balance the demands of university life with the need for relaxation and recreation.

Campus Recreation and Student Programming

The Department of Campus Recreation and Student Programming strives to assess, create, implement, and evaluate campus programming opportunities that foster student engagement while meeting the needs of Youngstown State University’s diverse student population. With state-of-the-art facilities, the Department has promoted a holistic approach to wellness and an increased satisfaction in campus life. The Department seeks to support and complement the University’s academic mission by providing a variety of challenging learning and leadership opportunities that encourage personal and skill development to enrich the YSU experience.

Penguin Productions

Penguin Productions is a student group under the Division of Student Affairs charged with assessing, initiating, implementing, and evaluating major events for almost 15,000 students on the campus of Youngstown State University.

Penguin Productions conducts campus-wide assessments of students’ entertainment interests and identifies possible performers and venues. Performers such as Elton John, Korn, Sugarland, and Dandy Kane have come to campus or the downtown Covelli Centre.

Working with Penguin Productions carries no academic credit or pay, but participants get a behind-the-scenes look at events planning, concert staging, ticket management, and other concert business, including meeting the performers.

For more information about upcoming events or becoming a Penguin Productions board member, please call 330-941-2242.

Student Organizations

There are over 165 student organizations ranging from academic and social awareness to cultural, Greek, and Student Government. You are invited to take the first step and discover something that engages your interests. Student organization mailboxes are located in the Campus Recreation and Student Programming Office, Room 2100, Kilcawley Center.

The following is a partial list of the organizations available at YSU. For a complete searchable listing of registered student organizations at YSU, go to http://cfweb.cc.ysu.edu/stu_org/search/index.cfm.

- Alpha Delta Sigma (ADS)
- Alpha Kappa Alpha
- Alpha Phi Delta Fraternity
- Alpha Kappa Mu (AKM) (Honor Society)
- Alpha Omega Pi
- Alpha Phi Sigma (AFS)
- Alpha Psi Omega (Honorary Dramatics Society)
- Alpha Xi Delta Sorority (AXD)
- Amateur Radio Club
- American Institute of Chemical Engineers
- American Marketing Association
- American Society of Civil Engineers
- American Society of Mechanical Engineers
- Amnesty International
- Beta Alpha Psi (Honor Society)
- Campus Crusade for Christ
- Catholic Student Association
- Cheese Club
- Chi Sigma Iota (CSI) (Counseling Honor Society)
- Dance Club
- Dance Ensemble
- Delta Sigma Theta Sorority (DSQ)
- Delta Zeta Sorority
- Early Childhood Association (YSU ECA)
- Economics Club
- Engineering Student Societies Council
- Engineering Tech Club
- Environmental and Animal Rights Coalition
- Environmental Studies Society
- Exercise Science Club
- Flute Society
- Golden Key National Honor Society
- Greek Campus Life
- Guitar Association
Habitat for Humanity
Historic Preservation Club
Ice Hockey Club
Institute of Industrial Engineers
Interfraternity Council
International Spanish and Latin-American Association
Jazz Society
Kappa Alpha Psi
Kappa Delta Pi (KDP)
Lacrosse Club Team (Club Sports)
National Pan Hellenic Council (NPHC)
New Music Society
Ohio Collegiate Music Educators Association
Omicron Delta Kappa (ODK)
Omega Psi Phi Fraternity
Pan-African Student Union
Panhellenic Council
Phi Alpha Theta (National Honor Society)
Phi Kappa Phi (National Honor Society)
Phi Kappa Tau Fraternity (OKT)
Pre-Medical Society
Protestant Campus Ministry
Roller Derby Club
Rugby Club
Sigma Alpha Epsilon Fraternity (SAE)
Sigma Chi Fraternity (SC)
Sigma Tau Gamma Fraternity (STG)
Society of Success and Leadership (SAL)
Society of Women Engineers
Spanish Club (Los Buenos Vecíños)
Speech Team
Student American Dental Hygienists Association (SADHA)
Student Athlete Advisory Committee (SAAC)
Student Organization for Respiratory Care
Student Physical Therapy Association
Student Social Work Association
Students for Quality of Life
Students In Fashion
Students In Free Enterprise (SIFE)
Theta Chi Fraternity
Triathlon Club
YSUnity: A Gay-Straight Alliance

Zeta Tau Alpha Sorority
Zeta Phi Beta Sorority

Greek Life

Greek Life at YSU affords students the opportunity to gain leadership experience and develop a positive social outlet. There are 16 Interfraternity, NPHC, and Panhellenic groups from which to choose.

Andrews Student Recreation and Wellness Center

The Department of Campus Recreation and Student Programming is located in the Andrews Student Recreation and Wellness Center. This state-of-the-art facility contains more than 140 pieces of strength and conditioning equipment. Located near the free-weight and cardio area is the Center’s impressive rock wall, at 53 feet Ohio’s tallest. Volleyball, basketball, and other activities are situated within the multi-purpose sports forum, which contains four courts. The spacious aerobic studios are home to many group exercise classes and are adjacent to the 1/8-mile indoor track, both on the top floor of the facility.

The Andrews Center also includes a tranquil meditation studio, full-functioning locker rooms, and the Wellness Resource Center. In addition to the Andrews Student Recreation and Wellness Center, the Department supervises programs in Beeghly Physical Education Center, Stambaugh Stadium, and the outdoor complex.

Participants must have a valid YSU ID card to use the facilities, equipment, services, and programs offered by the Department of Campus Recreation.

The CRSP department is one of the most popular places on campus to be employed. If you are interested in applying for a position, complete the department application found online at www.ysu.edu/reccenter. Submit a cover letter and resume to the Department of Campus Recreation and Student Programming administration office, located in the Andrews Student Recreation and Wellness Center.

For additional information about the Department of Campus Recreation and Student Programming, please contact 330-941-3488 or visit: www.ysu.edu/reccenter.

Student Government

The student body of Youngstown State University is represented by Student Government, which operates under constitutional powers granted by the University. The legislative branch of Student Government is composed of representatives from the six undergraduate colleges—the College of Arts and Sciences, the College of Business Administration, the College of Education, the College of Engineering and Technology, the College of Fine and Performing Arts, the College of Health and Human Services—
and the School of Graduate Studies and Research, in proportion to the enrollment of each. All meetings of student government representatives are open to the student body.

Student Government exercises the power to conduct student elections, to recommend students to serve as members of joint faculty-student committees, and to supervise programs financed from its operating budget.

Student Government selects nominees for the two student positions of the University Board of Trustees.

**Student Publications**

*The University supports two student publications that provide an avenue for students to express their literary and artistic talents. Policies and procedures concerning student publications are prepared, reviewed, and applied by the Student Publications Committee.*

*The Jambar*, a newspaper published twice a week, and *The Penguin Review*, a literary annual, are recognized student publications on campus.

**Theater**

*All students in the University are invited to participate in theater production. As a cultural offering of the Department of Theater and Dance in the College of Fine and Performing Arts, the University Theater presents four major productions and two second-stage productions during each academic year, plus a dance recital and numerous student-directed one-act plays.*

The co-curricular production program is designed to support the theater training mission of the Department. As such, its staged performances reflect a wide range of dramatic expression, from historical masterpieces to representative works from the contemporary theater. Major productions are so selected that during a four-year span at YSU, a theater student will have the opportunity to work on a balanced blend of modern and classical plays and musicals.

Membership in the Eta Phi chapter of Alpha Psi Omega, the country’s largest and most active honorary dramatics society, is open to YSU students who distinguish themselves in theater and scholarship.

Major University Theater productions are presented in Bliss Hall, the performing arts complex which contains Ford Theater, a 400-seat standard proscenium theater, and the Spotlight Arena Theater. Besides accommodating major productions, the Spotlight Theater also serves as a laboratory for student-directed plays, acting and oral interpretation recitals, and various workshop activities.

With an emphasis on “learning by doing,” YSU theater students apply classroom theories and techniques in numerous campus productions. An active guest-artist program has also brought them into working contact with noted practitioners from the professional world. In the past we have hosted nationally known artists such as playwrights Edward Albee, Robert E. Lee, Karen Sunde, and Barry Stavis; makeup designer Irene Corey; Broadway set and lighting designers Fred Voelpel and David Segal; stage and screen dialect coaches David Stern and Paul Meier; Broadway director Christopher Martin; stage combat masters David Boushey and David Doersch; commedia dell’arte and Lecoq clown teacher Gale McNeeley; choreographer Billy Siegenfeld; and actors Earl Hyman, Neil Vipond, Kate Mulgrew, and Aiden Quinn.

**Musical Organizations**

*Many campus musical organizations are open to all students of the University. For these, see the Dana School of Music in the College of Fine and Performing Arts section of this Bulletin.*

**Art Exhibitions**

*Student and faculty art exhibitions, including two annual graduating BFA exhibitions, are held in the John J. McDonough Museum of Art on the YSU campus. The McDonough Museum also exhibits work of nationally and internationally known artists. The Butler Institute of American Art, a private institution located in the midst of the YSU campus, sponsors two annual competitive exhibitions, the area annual and the national mid-year, to which students are encouraged to submit work. The Bliss Hall Gallery, located on the 2nd floor of the College of Fine and Performing Arts’ Bliss Hall, is used throughout the year for various student and faculty exhibitions, in addition to exhibitions of visiting artists.*

The Student Art Association has for many years sponsored an annual exhibition of the work of Youngstown State University students. The work is displayed at the McDonough Museum of Art during the month of April, with awards given from various donors. Other area venues also exhibit student work, such as The Oakland Center for the Arts, Trumbull Art Gallery, and the Art Outreach Gallery at the Eastwood Mall.

**Intercollegiate Athletics**

*Intercollegiate athletics are conducted at Youngstown State University to meet the needs and interests of the entire student body as spectators or participants in healthful amateur sports. Tryouts are open to any student who qualifies under the Youngstown State University, NCAA, and conference eligibility regulations. Men’s teams compete in intercollegiate baseball, basketball, cross country, football, golf, tennis and track and field. Women’s intercollegiate teams compete in basketball, cross country, golf, soccer, softball, swimming and diving, tennis, track and field and volleyball.*
The University’s intercollegiate athletic programs are governed by the National Collegiate Athletic Association (NCAA).

Students are encouraged to participate as athletes, cheerleaders, trainers, managers or scorekeepers in any of the varsity sports. Students who want to try out should contact the head coach of the sport of interest in either Beeghly Center or Stambaugh Stadium.

Honorary Organizations

Honorary organizations related to academic fields and departments recognize outstanding achievement by University students. Many of these organizations are local chapters of national honor societies, which provide national recognition and local scholarships.

For more information on honorary organizations in your area of academic concentration, contact the faculty department chairperson of that area, or the Student Activities Office, second floor, Kilcawley Center.

Alpha Delta Sigma—Advertising
Alpha Epsilon Delta—Honorary Premedical Society
Alpha Kappa Mu—Historically African-American Honor Society
Alpha Lambda Delta—Freshman Honor Society
Alpha Phi Sigma—Criminal Justice Honor Society
Alpha Psi Omega—Drama Honorary
Beta Alpha Psi—Accounting and Finance
Chi Sigma Iota—Counseling Honorary
Eta Sigma Gamma—Health Education Honorary
Golden Key—National Honor Society for achievement in all undergraduate fields of study
Kappa Delta Pi—Education Honor Society
Kappa Omicron Nu—Human Ecology
Lambda Pi Eta—Communications Studies
Order of Omega—Greek Letter Honor Society
Phi Alpha Theta—History Honorary
Phi Epsilon Kappa—Physical Education
Phi Kappa Phi—National Honor Society for achievement in all fields
Pi Mu Epsilon—Mathematics Honorary
Psi Chi—Honorary Psychology
Sigma Alpha Lambda—National Leadership and Honors Organization
Sigma Pi Alpha—Human Resource Management
Tau Beta Pi—Engineering Honor Society
Zeta Phi Alpha—Social Work Honor Society

YSU Annual Awards

The University has established a series of awards to recognize excellence and to encourage participation in campus life. The awards are presented annually at the Student Activities Awards Banquet in the spring. Each year students, faculty, and staff are invited to nominate outstanding individuals and organizations for these prestigious awards. Selections will be made by a committee composed of students, faculty, and staff. Details regarding this program and the different awards listed below may be obtained from the Student Activities Office.

Dr. Cynthia Anderson Lifetime Achievement Award
Awarded to a full-time student who has exhibited an extended commitment and dedication to serving the student body through various positions on Student Government.

Arby’s Leadership Scholarship—Outstanding Undergraduate Leaders
The Arby’s Leadership Scholarship, established in 1985, recognizes outstanding students for their contribution to and leadership in campus activities. Each year, up to seven students are awarded $600 each for the following fall semester tuition and fees.

Constellation Award—Outstanding University-wide Programs
This award recognizes an outstanding University-wide event sponsored by a registered YSU student organization. The program must be distinguished by its inclusion of the University community and the program’s contribution to the quality of student life.

DeCrane-Houser Award
Scholarship for a student who has been active at the Newman Center. It is in honor of Arthur DeCrane, who was the first Catholic campus minister for Youngstown College and also for the late Judge William Houser, who was active in the Newman Center while going to school here. Judge Houser’s family donated a large sum of money to make this scholarship available upon his death.

Emerging Leaders Program
The Emerging Leader Program provides students with an opportunity to develop and refine the knowledge and skills essential to leadership. Students who complete the program receive designation on their official University transcript, cords for their academic regalia, and a YSU Leadership pin.
Gillespie-Painter Award
To recognize outstanding achievement in support of the Division of Student Affairs at YSU beyond the scope of assigned duties. All members of the Division of Student Affairs are eligible for this award.

Libra Award—Outstanding Advisor
The Libra Award is presented to the outstanding faculty/staff advisor of a registered student organization. The award is designed to recognize the contributions and commitment to furthering student leadership development made by advisors.

Dr. Charles A. McBriarty Award
This award was established by Student Government during the 1992-93 school year to recognize and remember the commitment and contributions to students and student services by Dr. Charles McBriarty during his tenure as Vice President for Student Affairs. Its intent is to recognize individuals within the university community who have a reputation for being exceptionally student-oriented and who possess the traits, ethics, and friendly style exhibited by Dr. McBriarty.

Edna K. McDonald Cultural Awareness Award
Award to recognize an outstanding individual who has made a lasting contribution to encourage and increase awareness of cultural diversity at Youngstown State University. All faculty, staff, students, and members of the extended YSU community are eligible for the award.

Mentor of the Year
This award honors the faculty or staff mentor, working through the Center for Student Progress, who has contributed the most during the past year to the development of a YSU student.

Multicultural Student Services Leadership Award
The Multicultural Student Services Leadership Award recognizes up to two minority students served through the Center for Student Progress who have achieved academic success and demonstrated effective leadership in promoting cultural awareness to the campus and community.

Orion Award—Outstanding Student Organization
The Orion Award recognizes an exceptional student organization for its outstanding leadership and service to the University community during the current academic year.

Smith-Murphy Award
The award shall be given to one full-time faculty member each year. The recipient shall possess the qualities of Lester Smith and Gratia Murphy and display a genuine concern for the well-being and success of the students he or she teaches.

Student Government Spirit Award
Given by Student Government to a member of the campus or Youngstown metropolitan community who has displayed enthusiasm for the work of YSU Student Government over the past academic year.

Student Service Award
To recognize an outstanding individual who has demonstrated exceptional commitment to the students of YSU. All faculty, staff (excluding the Division of Student Affairs), and members of the University community are eligible for this award.

Gina Tenney Memorial Scholarship
Gina Tenney was one of YSU’s best and most dedicated students. Before her tragic death in 1985, Gina had been actively involved in campus life and had achieved excellent academic standing. She served in Student Government and was a student assistant in the Student Services Office. She was also active in the University Theater Department. In honor of Gina’s memory, the Gina Tenney Memorial Scholarship Fund was established in January of 1986 by the YSU Student Government.

YSU Pin
Begun more than fifty years ago, in 1948, the YSU pin recognizes up to five graduating seniors who have achieved academic success and demonstrated outstanding leadership, motivation, and creativity in University and community activities.

The Luke N. Zaccaro Award
The Luke Zaccaro Award is given to a YSU student who may be a member of Student Government. The individual should have done something exceptional for the university, Student Government, or fellow students during the course of the current year.

Other Awards and Prizes

The Vindicator Award for Most Well-Rounded Student
The Vindicator Award for Most Well-Rounded Student is one of several awards supported by The Vindicator. This award recognizes a single outstanding student whose demonstrated leadership is supported by academic excellence.

The Greek Campus Life Awards for Scholarship
Given annually to the fraternity and sorority chapter with the highest aggregate point index and to the member of a fraternity with the highest individual point index, based on the academic work of the previous two semesters. The awards are presented during the spring semester at the annual Greek Sing competition.
Who's Who Among Students in American Universities and Colleges

A list of upperclass students and graduate students achieving outstanding academic and curricular records.

ALUMNI AND EVENTS MANAGEMENT

Serving a constituency of over 88,000 alumni, the YSU Office of Alumni and Events Management continues the tradition of excellence and pride among YSU graduates and serves as a lifelong connection to the University. Alumni and Events Management provides services to graduates of YSU and members of the Alumni Society. The office sponsors a variety of special events both locally and regionally.

The Office of Alumni and Events Management is housed in the oldest building on campus, originally the home of the Myron Israel Arms Family. It is located on the corner of Wick Avenue and University Plaza.

CAMPUS FACILITIES

Campus Development

During its earlier years the institution had a number of homes. Starting in the old Central YMCA building, it occupied various sites on Wick Avenue until the completion of Jones Hall in 1931. Additional buildings have been constructed and nearby properties converted to University use, so that today the campus extends through most of an area five blocks long and four blocks wide, covering almost 150 acres. The University also owns 118.4 acres in Hartford Township.

All-Sports Complex, Stambaugh Stadium

Located on an 18-acre site adjacent to Beeghly Physical Education Center, the All-Sports Complex includes Arnold D. Stambaugh Stadium and Beede Field, an artificial-turf sports field for football and soccer, with seating for more than 20,630 spectators; officials’ dressing rooms; varsity athletic offices; classrooms, racquetball courts, gymnasiums, weight rooms and facilities for various other health and physical education activities.

Atop the stadium and overlooking the city of Youngstown is the DeBartolo Stadium Club. The club provides meeting and dinner/party seating for 220 people and is available to campus and community organizations or individuals. For reservation information, please call the Office of Alumni and Events Management at 330-941-3497.

The complex also includes an all-weather 400-meter track with 1500 bleacher seats; facilities for all other track and field events; outdoor courts for basketball; and 10 hard-surfaced and lighted tennis courts.

Other Sports Facilities

Currently, in addition to Beeghly Center and the All-Sports Complex, the physical education, athletic and intramural programs use the athletic fields and well-equipped sports centers in Mill Creek Park; Evans Field, Pemberton Park, and Cafaro Field for baseball; Harrison Field in Smoky Hollow for softball; and for other activities, the Holiday Bowl in Struthers, and the Henry Stambaugh Golf Course on Youngstown's North Side, and the par 3 golf course in Mill Creek Park.

Andrews Student Recreation and Wellness Center

The new Andrews Student Recreation and Wellness Center is described in detail on p. 63.

Beeghly Hall

The four-story, 96,600 square foot Beeghly Hall opened in the fall of 1998 to serve as the College of Education building.

On the main floor are the main north/south entrance and access, dean's suite, Wilcox Curriculum Resource Center, Child Study Center and the 400-seat multi-purpose and multi-media McKay Auditorium.

The new Beeghly College of Education building includes:

- an interactive distance-learning classroom
- a classroom of the future
- the Center for Teaching and Learning Technology
- Macintosh- and Windows-based computer labs
- the Curriculum Resource Center
- a counseling clinic
- a child-study center
- Testing Office

Beeghly Physical Education Center

In this building, first occupied in 1972, are the Department of Human Performance and Exercise Science and the Olympic sports offices and facilities. In addition to a gymnasium with seating for over 6,900 spectators and an olympic-size swimming pool, it contains faculty offices; 10 classrooms including 2 laboratories for research and kinesiology; physical education for handicapped; dance studio, a rifle range, and a fitness center.

Bliss Hall

Housing the College of Fine and Performing Arts, Bliss Hall, completed in 1977, was named in memory of William E. Bliss, a prominent area industrialist. Its facilities include the 390-fixed seat Ford Theater, named for the Ford family; the 248-seat Bliss Recital Hall; an experimental theatre with flexible seating for up to 250; 80 music practice rooms, all equipped with Steinway studio or grand pianos; a Schlicker performance organ and two Flentrop practice organs; 30 faculty office-studios which can be used for music
instruction; a band/orchestra room with a library; a photography studio with 32 enlargers; a metals studio; fully equipped drawing, printmaking, sculpture, and painting studios; a MIDI/graphics computer lab; a video editing suite; a Mac-based graphic design laboratory with dye-sublimation printer; ceramics studios with gas, electric, raku, and salt kilns; a complete shop with heavy equipment for working in three-dimensional design; art faculty office-studios; a student lounge/art gallery; and conference and seminar rooms.

Bliss Hall has recently seen major renovations to administrative offices. A new jazz rehearsal room, video production studios, and upgrades to art and sculpture areas were part of same renovation project. Opened in Fall 2005, a painting and sculpture addition included a foundry and metal fabrication, wood shop, sculpture and painting labs, offices, a 3D visualization lab and an exterior work court.

Cushwa Hall

Opened in 1976, this structure houses the Bitonte College of Health and Human Services, as well as Media and Academic Computing, WYSU-FM, the Peace Officer Training Academy, and the Department of Mathematics and Statistics. One of the largest buildings on campus, it contains 23 classrooms, 43 laboratories, 177 offices, and two lecture halls.

DeBartolo Hall

First occupied in 1978, DeBartolo Hall houses the departments of Economics, Philosophy and Religious Studies, Political and Social Science, Psychology, Sociology and Anthropology, and the Africana studies and women’s studies programs. Also housed in DeBartolo Hall is the Center for Peace and Conflict Studies. In this six-story structure are over 165 offices for faculty and staff, 5 student lounges and study areas, 15 classrooms, 15 laboratories, a computer terminal room, a 200-seat lecture hall with stage, and special varied laboratories for the Department of Psychology.

Fedor Hall

Fedor Hall is located on the west side of Elm Street. It was constructed in 1949 and purchased from the Youngstown Board of Education in September 1965. A $1,100,000 renovation project was completed in 1992. It houses the student newspaper, the Wee Care Day Care Center, the Rich Autism Center, Youngstown Early College, and general purpose classrooms.

Historic Buildings

Listed in the National Register of Historic Places in recognition of their representing important eras in Youngstown's development, these two buildings are in the Wick Avenue Historical District. Renovation efforts were dedicated to maintaining the visual, architectural and physical character of these structures while recognizing, identifying and preserving their heritage.

Alumni House

The Office of Alumni and Events Management is housed in the oldest building on campus, built in 1893 and originally the home of the Myron Israel Arms Family. It is located on the corner of Wick Avenue and University Plaza. The YSU Foundation occupies the second floor.

Coffelt Hall

This two-story brick building, located on the north side of University Plaza, was constructed in 1933, and renovated in 2010 to house the School of Graduate Studies and Research.

Jones Hall

One of the oldest buildings on the present campus is Howard W. Jones Hall, a limestone structure of conventional tudor style on the northwest corner of Wick and Lincoln avenues. Built in 1931 and long the institution’s “main building,” it was renamed in 1967 to honor the man whose energy and acumen, during his 36 years as president, brought an embryonic college to membership in the state university system.

The structure was enlarged in 1949 by the addition of the C.J. Strouss Memorial Auditorium, named for the then president of the Strouss-Hirshberg Company, a friend and trustee of the University. In 1978 the interior was completely remodeled to accommodate administrative offices. Jones Hall currently houses the Offices of Career and Counseling Services, Payroll, Accounting, Human Resources, Budget, Enrollment Management, and Records.

Kilcawley Center

Kilcawley Center is the community center of the University. The Center’s facilities and services include numerous dining rooms with a variety of diversified food service programs, lounges, 19 conference and multi-purpose rooms, bank, ATM machine, graphic services, candy counter, copy services, stage and entertainment areas, and a billiards recreation area, as well as a travel agency, FAX service, campus locker rentals, the University’s lost and found, and the Center’s reservations and conference services office. Kilcawley Center also includes the YSU Bookstore, a computer/word processing access center, U.S. mail drop, stamp machines, campus information center, catering offices, and the Center’s staff offices. Student organization mailboxes, and offices for Student Life, Student Government, and student organizations are located in Kilcawley, as are the Center for Student Progress and the Center for International Studies and Programs.

Maag Library

The University’s six-story William F. Maag, Jr., Library, completed in 1976, provides an attractive and comfortable environment for study and research. A member of the Online Computer Library Center (OCLC), Maag Library provides reference and interlibrary loan services, CD-ROM as well as online database searching, access to government documents, and other services necessary to the needs of the University community. The University Archives are housed on the 5th floor, and the Tech Desk is located on the 4th
floor. The lower level of Maag houses the Writing Center, the Reading and Study Skills Center, and the English Language Institute.

**Meshel Hall**

Meshel Hall, dedicated January 1986, houses expanded facilities for academic and administrative computer use that broaden Youngstown State University's educational programs. The state-of-the-art center is for instruction, research and application in advanced computer technology that serves the entire University community.

The four-story steel, concrete, stone and glass structure contains 90,100 square feet of space and is located to the west of the Wick Avenue Parking Deck with its main access and entry by the pedestrian walkway over Wick Avenue. The building contains 5 classrooms, 10 specialized computerized laboratories, and 23 faculty offices. The Office of Student Accounts and University Receivables, the Office of Financial Aid and Scholarships, and the Enrollment Center are located on the second floor. The Department of Computer and Information Systems is located on the third floor. The fourth floor houses the University's main computer facilities and Computer Center staff.

**John J. McDonough Museum of Art**

The John J. McDonough Museum of Art, located on Wick Avenue between Bliss Hall and Meshel Hall, opened for the fall quarter of 1991. The 14,000 sq. ft. multi-level building exhibits faculty and student art work, which in the past has been displayed in the Bliss Art Gallery and the Kilcawley Center Art Gallery. It also exhibits works by artists from other universities as well as local and regional artists, and serves the academic program of the Art Department with shows and competitive exhibits. The museum has the following spaces and functions: installation gallery, traditional galleries, art lecture hall, work/preparation area, storage (vault area), public lobby and restrooms, offices, loading dock and receiving area, and the necessary mechanical and electrical equipment spaces.

**Moser Hall**

Moser Hall, a five-level structure completed in 1967, houses the College of Science, Technology, Engineering, and Mathematics. In addition to 49 laboratories, 11 classrooms, 2 research and development rooms, 7 conference rooms, and 76 offices, it contains the 200-seat state-of-the-art Schwebel Auditorium. A $6,873,000 renovation project was completed in fall 1996. Moser Hall also houses the Clarence R. Smith Mineral Museum.

**Phelps Building**

The Phelps Building, located on the corner of Lincoln Avenue and Phelps Street on campus, houses the Department of Geography, and the Public Service Institute, including the Center for Urban and Regional Studies and the Center for Human Resources Development.

**Service Buildings**

The buildings at various locations on campus that house specific services include:

**Salata Complex**, located on Rayen and Wood Streets, houses University planning and construction, maintenance, administration staff, Grounds Department staff and equipment, Central Receiving, Key Control, Motor Pool, various repair shops, and Printing Services.

**Central Utility Plant** is located south of a 400 meter track on the north side of campus. The plant has the capability of producing steam and chilled water for University needs and is distributed through a system of underground tunnels and direct-burial utility lines.

**Smith Hall**

A medical building purchased in 1992 at 318 Fifth Avenue currently houses the Center for Working Class Studies, American Studies program, and Parking, Janitorial Services, and Recycling.

**Sweeney Hall**

Sweeney Hall—formerly Dana Hall—a classic one-story building located at the corner of Bryson Street and University Plaza, was constructed in 1908. The building houses the Sweeney Welcome Center and the Office of Undergraduate Admissions.

**Tod Hall**

The University's main administrative offices are in Tod Hall, a former library building built in 1952 and thoroughly renovated in 1978. These offices include those of the President, Provost, Vice President for Administration, Vice President for Student Affairs, Development and Public Relations, Graduate School, Grants and Contracts, Associate Degree and Tech Prep Programs, Institutional Research, Assessment, University Marketing and Communications, the YSU Credit Union; Office of Equal Opportunity and Diversity; and the Board of Trustees' meeting room.

**Ward Beecher Hall**

This building houses the departments of Biology, Chemistry, and Physics and Astronomy. The five-story original unit was constructed in 1958, a major addition was built in 1967, and a small addition comprising chemical storerooms was completed in 1997. It was built with funds contributed by Mahoning Valley Industries and area industrialist Ward Beecher. Presently the building contains 31 laboratories, including a planetarium and a greenhouse, 9 classrooms, 66 academic offices, 53 faculty-research rooms, and a conference-seminar room.
Williamson Hall

Opened in fall, 2010, Williamson Hall houses the Williamson College of Business Administration offices, including the Office of the Dean, Center for Student Services and the Professional Practice Program, the MBA program, and the Lariccia School of Accounting and Finance, the Department of Management, and the Department of Marketing.

In addition, the building houses 14 classrooms, a Financial Services Lab, a Professional Sales and Business Communication Lab, interview rooms, a 200-seat auditorium and a conference center. WCBA student organizations share office space in the building, and students have access to eight student team rooms, three networked computer labs, a quiet study lounge, and collaborative areas. Williamson Hall is also home to the Center for Nonprofit Leadership, the Williamson Center for International Business, the Nathan and Frances Monus Entrepreneurship Center, the Ohio Small Business Development Center at YSU, and an Executive on Campus Office. The Gallery of Industry, Business, and Entrepreneurship, a spacious sky-lit atrium, and café with outdoor seating are also part of the 110,000 square feet facility.

LEED certified by the US Green Building Council, Williamson Hall is the first “green” building on the Youngstown State University campus.

UNIVERSITY/COMMUNITY OUTREACH

The Public Service Institute

The Public Service Institute was created by the University Board of Trustees in 1985 to coordinate, promote, and stimulate public service programs and activities offered by the University to the community.

At present, the Institute consists of the Center for Urban and Regional Studies and the Center for Human Services Development.

The Institute works with community organizations, as well as with University departments, to facilitate the extension of University resources into the community where they might be needed. In order to accomplish this, the Institute’s executive director is responsible for identifying public service needs in the community not now being met by University programs; assisting in developing public service programs to meet community needs; helping coordinate public services delivered to the community when two or more University departments are involved; promoting the Institute as a clearinghouse for disseminating information about University public service programs; and serving as a point of contact for the community when seeking University services.

Center for Urban and Regional Studies

The Center for Urban and Regional Studies is a research and technical assistance unit established by the Youngstown State University Board of Trustees in 1967 in recognition of the University’s obligation to contribute to the economy, the social well-being, and the environmental quality of the region.

The Center’s primary mission is to integrate professional staff, faculty, students, and other University resources to focus on issues and challenges of urban and regional development through an ongoing program of applied research, technical assistance and training for local government, social service organizations, and business.

Organizational development and staff capabilities are directed toward the seven programmatic areas: reduction in poverty, local government assistance, economic development, urban and environmental planning, urban data services, human services development, and crime reduction.

The Center for Urban and Regional Studies is a federal depository for U.S. Census data. The Urban Data Services Office provides population, economic, and social data to academic users, government, business, and the public. In addition, the Data Services Office conducts spatial market research and public opinion surveys.

The Center for Urban and Regional Studies has developed an extensive geographic information system (GIS) capability, which provides statistically generated maps that can be produced from independent data files. Such products have been developed for demographic analysis, urban planning, market research and other uses which, in addition to being employed in traditional academic research, have served the banking industry, business, and local government.

YSU, through the Center for Urban and Regional Studies, is one of eight universities that participates in the Urban University Program (UUP). The UUP supports individual research projects for the Center, and has served as the impetus for establishing research networks that address various urban challenges in the state of Ohio. The YSU Center for Urban and Regional Studies participates in five such networks: Ohio Economic Development Information Network, Ohio Geographic Information Systems Network, Ohio Housing Research Network, Neighborhood Initiative Network, and the Urban Schools Research Network. The output from these research networks has resulted in local, statewide, and national policy recommendations, and national presentations and publications.

The Center is located in the Phelps Building and can be reached by phone at 330-941-3355.

Center for Human Services Development

In 1985, the University Board of Trustees established the Center for Human Services Development to serve as a community resource for health and human service organizations, and community leaders. Staff at the Center work with a community-wide spectrum of people to identify community problems and needs, develop solutions, and evaluate activities in the health and human services field.
The Center offers a variety of services, including: 1) establishing and maintaining networks or linkages among service providers and the broader community; 2) offering technical assistance for social service program evaluation; 3) providing training for agency directors, boards and staff members; 4) conducting community-wide needs assessments and sharing information; 5) helping organizations to develop strategic plans; 6) identifying and obtaining grants for community organizations who are working collaboratively to address community needs.

The Center is housed in the Phelps Building; the phone number is 330-941-3469.

**Metropolitan Workforce Development**

—coordinates the on- and off-campus delivery of non-credit classes throughout the service area at institutional settings including business, agency or community locations.

—provides a gateway to the educational resources of the University for students and works to form partnerships with regional workplaces. The Metropolitan College creates and delivers programs and services that meet when and where students need them—days, evenings, weekends, on and off campus, in a traditional classroom or out—and that use distance learning technologies to supplement other learning experiences.

The offices, classrooms and computer labs of the Metropolitan College are located at Southwoods Commons, just south of the Southern Park Mall at 100 DeBartolo Place, Boardman. For information about Metro College or any of the programs listed, please call 330-941-2465.

**Workforce Development and Continuing Education**

Metropolitan Workforce Development develops and administers courses and programs outside the traditional degree programs through continuing education, contract training, and the Center for Creative Retirement programs. Through non-credit course offerings at a variety of convenient times and locations, it makes academic programs, along with administrative and support services, available to both traditional and non-traditional students.

Through Metro Workforce Development, YSU seeks to make the lifelong process of education possible for the adult with family and work obligations.

In accordance with the Board of Trustees and Senate policy, Metro Workforce Development awards the Continuing Education Unit (CEU) for programs that meet the policy requirements. The CEU is a standard unit of measure (10 hours of participation in a Continuing Education course or seminar) that has been increasingly used by employers and professional certifying agencies to evidence educational attainment in non-credit post-secondary courses.

**Workforce Development**

The University’s educational resources are connected to the community through a workforce-based education initiative. Non-credit classes are offered to businesses for on-site training of employees. YSU’s Metro Workforce Development can deliver any training needed by area businesses and health care organizations. A professional consultant works with the companies to design and deliver training.

**Continuing Education**

Continuing education non-credit programs offer area residents a wide variety of adult study or lifelong-learning courses and seminars to meet the needs of a changing society for updating and upgrading professional skills, for mid-career adjustments, and for lifestyle changes.

Area residents participate annually in more than 200 non-credit programs, many of which are in the academic disciplines and professional areas, varying from half-day seminars to multi-week courses conducted in local business and government settings and other off-campus locations.

Both workforce development and continuing education functions are manifested in the offerings described below.

**Community Education Programs**

—provide non-credit courses, seminars, and conferences to meet the personal development and leisure, general interest and recreation needs of the greater Youngstown area.

**Health and Human Services Programs**

—provide non-credit courses, seminars, and conferences developed to meet the needs of local, county, state and federal government, public and community agencies in areas such as allied health, criminal justice, family and consumer science, nursing home administration, day care centers, social work, education, mental health, medical transcription, food service and related topics.

**Business and Management Programs**

—serve this sector of the community, including courses, seminars and conferences in management, supervision, accounting, purchasing, marketing, advertising, public relations, small business, construction, production and inventory control, real estate, secretarial and office management, banking and finance, insurance, labor relations, traffic and transportation and related areas.

**Engineering, Technical, and Computer Programs**

—serve this sector of the community with courses, seminars, and conferences in engineering, engineering technology, computer and data processing, information technology, and related areas.
Teleconferences

—link the educational resources of the world through satellite-delivered educational teleconferences in a variety of professional and academic fields to personnel in the Mahoning and Shenango valleys.

Center for Creative Retirement

The College for the Over Sixty

—a state-mandated program providing for the enrollment of Ohioans 60 years of age or older (who have been residents of the State for the preceding 12 months) in undergraduate credit classes on a space-available basis. Residents who meet eligibility requirements based on income level may earn credit toward a degree through the Over Sixty program.

The YSU-ILR (Institute for Learning in Retirement)

—an affiliate of the Elderhostel Institute Network, providing seniors with the opportunity to develop and conduct educational and social opportunities for the members of YSU-ILR.

The YSU Elderhostel

—an approved program site through regional and national Elderhostel. Week long residential educational and social experiences are provided for registered participants.

Edutravel

—provides adults with the opportunity to explore cultural learning by visiting foreign countries to experience another land and culture. Travel-study programs in this series provide on-site lectures, seminars and field experiences and also provide visits to sites and facilities often not available to the average tourist.

Community Counseling Clinic

The Community Counseling Clinic (CCC) is a training clinic for master’s degree level counseling students. The clinic’s counselors and counselor trainees provide individual, family, couples, and group counseling services to YSU students and their families, as well as all children, adolescents, and adults living in Youngstown and its surrounding communities. All counseling services provided to YSU students are free of charge. Services are provided to non-YSU students and their families for a greatly reduced fee; usually $1 a session, depending on income level.

The CCC offers a relaxed and confidential environment to discuss personal, relationship, academic, or work-related problems. Examples of several commonly presented issues include: academic success-related concerns, relationship problems, family conflicts, adjustment-related problems, depression, anxiety, career indecision, and loss and grief issues. Talking with a counselor can be an important first step in making desired life changes.

In addition to clinical services, CCC staff members offer presentations and workshops on a variety of mental health issues. A small sampling of these topics includes enhancing self-esteem, dealing with stress, coping with loss, health and wellness issues, and drug and alcohol issues.

Day and evening appointments are available. Appointments can be made in person, or by calling 330-941-3056. The CCC is located in Room 3101 in the Beeghly College of Education, which is at the corner of Fifth and Rayen avenues. Additional information is available at http://www.ysu.edu/cse/counseling_clinic.shtml.

The Ohio Small Business Development Center

The Ohio Small Business Development Center at Youngstown State University (SBDC) program is part of the most comprehensive and effective business assistance network in the nation. Its purpose is to help existing businesses develop and retain a competitive advantage in the ever-changing global economy, and to help entrepreneurs realize their dream of business ownership. SBDC’s enhance economic development throughout the region, the state of Ohio, and the country.

In Ohio, the SBDC program is a partnership of the Ohio Department of Development and the U.S. Small Business Administration. Locally the SBDC is hosted by Youngstown State University and the Williamson College of Business Administration, and serves Ashtabula, Mahoning and Trumbull Counties.

The Ohio SBDC at Youngstown State University is one of the foremost business-assistance agencies in the region. Its mission is to provide professional, in-depth consulting and training to existing and new business ventures and to foster a strong and successful business community.

A professional staff, knowledgeable of the needs of small to mid-sized businesses is available for consulting. There is no fee for consulting services, and all project and company information is held in strict confidence.

The Center is housed in the Williamson College of Business Administration. The telephone number is 330-941-2140.

Telecommunication Services

WYSU-FM, 88.5 MHz

Youngstown State University owns and operates WYSU-FM, a 50,000 watt radio station that serves the Mahoning and Shenango Valley region with fine arts and news and information programming from
its studios in Cushwa Hall. The station broadcasts a mix of news and classical music programs on its main analog channel, on its HD1 (digital) channel, and as an Internet stream; as well as all-classical music on its HD2 channel and second Internet stream. The station broadcasts at 88.5 MHz in Youngstown, at 90.1 MHz in Ashtabula, and 97.5 MHz in New Wilmington, Pennsylvania.

WYSU-FM is non-commercial, listener-supported public radio, committed to being the community’s leading source for trusted, in-depth news, engaging conversation, and music that stimulates the mind and spirit.

As one of Youngstown State University’s most visible daily representatives to the community, WYSU also strives to be a valuable ambassador to that community, providing a forum to promote the artistic and intellectual activities of the university. The core of the radio operation is a full-time professional staff. Youngstown State University students whose qualifications meet professional broadcasting standards are also employed to support various aspects of the station’s operations.

FM-SCA Programs

The University transmits special educational programs for the sight-disabled on a multiplex basis using a sub-carrier frequency of 67 kilohertz.

Channels 45 and 49, Northeastern Educational Television of Ohio

The University is a member of NETO (Northeastern Educational Television of Ohio), a public television consortium of the state universities at Akron, Kent and Youngstown, which operates UHF Channels 45 and 49.

Common transmitters at Salem and Akron broadcast programs acquired from the Public Broadcasting Service and the Ohio Educational Television Network as well as local programs produced at Kent, Akron, and by contract at Youngstown.

SPECIAL ACADEMIC PROGRAMS

Leslie H. Cochran University Scholars

The terms and criteria for these scholarships may have changed. Please check with the Office of Financial Aid and Scholarships for current information.

Leslie H. Cochran University Scholars are those students who have achieved an ACT score of at least 28 or SAT of at least 1280 (1240 old test) and have been selected to receive a full tuition, room-and-board scholarship for one year. All University Scholars may retain full support for the next year by earning a GPA of 3.5 for the current year.

All University Scholars are honors students and will follow the requirements of the Honors Program (see p. 76). In addition, Scholars are required to donate sixty hours of community service per academic year and to participate in the co-curricular aspects of the program. For more information, contact the Honors Office at 330-941-2772.

University Honors Programs

Two types of honors programs are available:

(1) The honors program permits any baccalaureate program to be taken, with additional requirements, for an honors diploma.

(2) Departmental honors programs are available in selected departments.

See p. 76 for more information about the Honors Program.

Individualized Curriculum Program

The student whose needs are not met by existing conventional programs may wish to investigate and apply for the Individualized Curriculum Program (ICP). This requires a student to design the curriculum suited to his or her particular background and needs, allowing alternative paths for reaching the currently offered undergraduate degrees.

A student admitted to the program will have the help of a committee of faculty advisors selected by the student. This committee will help to develop a program that will serve a valid educational goal not attainable within the regular curricular structure of the University. To receive approval, the overall program needs to be of a scope and intensity comparable to conventional programs leading to the degree being sought.

Students wishing to develop an individualized curriculum must meet the following requirements:

1. Sophomore standing 32 s.h. completed (for baccalaureate degree)
2. GPA of at least 2.50
3. Students pursuing a baccalaureate degree must have at least 30 s.h.’s to complete once the program has been approved. Students pursuing an associate degree must have at least 20 s.h.’s remaining upon approval.

The ICP does not provide for new or modified courses or degrees, or for changes in course prerequisites. Credit by examination may be sought, subject to approval through normal channels.

Detailed information is available from the director of the program, Room 104, DeBartolo Hall or on the web at http://www.ysu.edu/class/icp.shtml
The Northeastern Ohio Universities Colleges of Medicine and Pharmacy

The Northeastern Ohio Universities Colleges of Medicine and Pharmacy (NEOUCOM) was established under the sponsorship of a consortium formed in 1972 by Youngstown State University, Kent State University and the University of Akron. Students admitted into the NEOUCOM BS/MD program are able to complete both their BS and MD degrees in as few as six years. Students spend two to three years of full-time study at one of the three consortium universities, complete the basic medical science coursework at the NEOUCOM Rootstown campus, and complete two years of clinical clerkships at the consortium teaching hospitals.

The BS phase of the BS/MD program of study integrates a liberal arts education with an accelerated and enhanced science curriculum. The program is designed to foster the development of intellectual curiosity, appreciation of diverse cultures, an historical framework for interpreting the present and creating the future, written and oral communication skills, the desire for lifelong learning, and other perspectives and skills characteristic of a liberal education. Secondly, it is designed to prepare students for success within a premier medical school curriculum, and to enhance the foundation necessary for an effective career as a physician in the 21st century.

Prospective YSU students interested in the NEOUCOM program can refer to the catalog under Admissions and under Combined B.S./M.D. Program in the College of Science, Technology, Engineering, and Mathematics section. A detailed description of the curriculum is available from the office of the dean of the College of Science, Technology, Engineering, and Mathematics or from the Office of Undergraduate Admissions or on the web at http://neoucom.edu/audience/about.

Interdisciplinary Programs

The University offers a number of interdisciplinary programs. More information on these programs may be found in the College of Liberal Arts and Social Sciences section of this Bulletin.

- Africana Studies
- American Studies
- Global Education
- Judaic and Holocaust Studies
- Islamic Studies
- Peace and Conflict Studies
- Women’s Studies
- Working-Class Studies

Center for International Studies and Programs (CISP)

The CISP is an integral part of the Division of Academic Affairs and is responsible for coordinating the international dimensions of the university, including international student and faculty services, study abroad and exchange programs, and the English Language Institute (ELI).

For more information on International Student Services, see “Center for International Studies and Programs” under Student Services; for more information about international student admission, see International Applicants on p. 20.

Study Abroad

Youngstown State University encourages students to engage in international study as part of their YSU education. Credits earned through study abroad at postsecondary institutions overseas must be approved in advance through the CISP in consultation with academic colleges and departments. Students studying abroad through YSU-affiliated programs and institutions maintain full-time status at YSU and remain eligible for state, federal, and institutional financial aid. Credits earned by foreign study through a YSU-approved study-abroad program are treated as transfer credit and therefore are not computed into the student’s grade point average. Students must be in good academic standing and meet the GPA requirements of the host program in order to submit an application to study abroad.

- Scholarships for Study Abroad
  Most YSU tuition scholarships apply to study-abroad programs. In addition, YSU scholarships, including YSU international study incentive scholarships (up to $1,500 per semester), and the Resch Foundation Leadership Awards, are available specifically to support international study. The CISP also coordinates advising for the Fulbright, National Security Education Program (NSEP), and Rhodes Scholarships.

Study-Abroad Programs

- International Exchange Programs
  YSU maintains reciprocal exchange agreements with Lunghwa University of Science and Technology in Taiwan (for intensive Chinese language study) and with Yeditepe University in Istanbul, Turkey, where most courses are taught in English. YSU students pay tuition and fees at YSU and exchange places with students from the overseas institution for one or two semesters.

- Affiliated Programs
  Youngstown State University is a member of the Ohio International Consortium (see blow), the Institute of International Education (IIE) and the College Consortium for International Studies (CCIS). These memberships provide YSU students with the opportunity to study in many
countries throughout the study abroad programs administered by other member institutions. YSU maintains direct affiliate agreements with other high-quality study-abroad organizations, including the American Institute for Foreign Study (AIFS), Cultural Experiences Abroad (CEA), International Studies Abroad (ISA) and the Semester at Sea program.

- The Ohio International Consortium (OIC). OIC facilitates study abroad opportunities for students of the University System of Ohio by allowing matriculated students from any of Ohio’s thirteen state assisted public universities to participate in overseas programs irrespective of which campus maintains the program. Youngstown State University students may participate in study abroad programs through Bowling Green, Central, Cleveland, Kent, Ohio Shawnee, and Wright State Universities, Miami and Ohio universities, and the Universities of Akron, Cincinnati, and Toledo. OIC also supports and administers the Donald Nelson study-abroad scholarship.

- International Field Study Courses CISP works with YSU faculty who teach YSU international field study courses, which are YSU courses that incorporate an international component, usually one to four weeks in length. Recent YSU international field study courses have been conducted in the Bahamas, Brazil, China, England, Ireland, Guatemala, Mexico, India, Italy, and Turkey.

The English Language Institute

The English Language Institute (ELI) at YSU was established through the CISP and the Department of English to provide intensive study of English to speakers of other languages. It offers pre-college, non-credit courses designed to teach English to students who already have some knowledge of English. In addition, the ELI provides an orientation to college life and culture in the U.S. Courses are available both to international students and to immigrants. The ELI also offers specially tailored courses to groups by contract.

The ELI welcomes all students, as well as professionals, who wish to increase their English language proficiency. The ELI prepares students for academic study in American universities, using the following curriculum: Five Levels (introductory, beginning, low-intermediate, intermediate, and advanced). There are (8) listening/speaking, (8) reading/writing, (4) grammar, and (3) TOEFL/vocabulary development preparation or pronunciation hours, for a total of 23 hours weekly. There are two 15-week terms per year (fall, spring); summer term is 10 weeks. ELI admission is through the CISP. Students must be at least 17 years old or have completed high school. For an application and more information about the ELI, visit the ELI website at http://www.ysu.edu/EngIns/.

College Tech Prep

College Tech Prep is a national education program that combines college prep academics with advanced technological training that is career focused. The seamless career programs begin in the 11th grade and continue through an associate and/or bachelor degree. Students successfully completing the secondary portion of College Tech Prep and continuing in their career pathway at the post-secondary level may earn up to 16 free articulated college credits at YSU depending on their college major. For more information contact the Office of Associate Degree and Tech Prep Programs.

Youngstown Early College

Youngstown Early College, the first school of its kind at a public university in Ohio, helps Youngstown City School District students succeed in high school and make a successful transition to higher education. From YEC’s home base in Fedor Hall on the YSU campus, students take a combination of high school and university classes, graduating from high school with up to 60 hours of college credit. The YEC program operates in partnership with Eastern Gateway Community College and YSU. Youngstown Early College was developed with the assistance of the KnowledgeWorks Foundation and the Bill and Melinda Gates Foundation.

Off-site Degree Programs

Allied Health and Community Health

The University offers baccalaureate degree-completion programs in allied health and in public health on the campus of Lorain County Community College (LCCC). Allied health is also offered at Cuyahoga Community College (CCC). Students in these programs are registered at Youngstown State University and attend classes online or at the LCCC and CCC campuses. Courses are taught by YSU faculty members, using interactive video conferencing systems and are also offered online (web-based). LCCC and CCC provide support services and access to facilities, such as computer labs and the library, including Ohio LINK online research services. Students are advised by YSU faculty members, or a YSU academic advisor. Faculty members may hold office hours at the off-site campus, online, or through video conferencing systems. Students communicate with faculty members using a variety of methods including online discussions, e-mail, video conferencing, phone, and face-to-face meetings.

Criminal Justice

Youngstown State University offers a baccalaureate degree-completion program in criminal justice on the campuses of Lorain County Community College (LCCC) and North Central State College (NCSC). Students in this program are registered at YSU and
attend classes at the LCCC and NCSC campuses. Courses are taught by YSU faculty members, using interactive video conferencing systems. LCCC and NCSC provide support services and access to facilities, such as computer labs and the library, including Ohio LINK online research services. Students are advised by a YSU academic advisor. Faculty members may hold office hours online, by phone, or through video conferencing systems. The Department designs systems to deliver college education for a variety of under-served populations to obtain college credit and degrees.

Specific programs include:

YSU College in High School (YSU-CHS)—Since 2006, the College in High School program has offered college courses to high school students in their school as a regular part of their school day. High school students earn college credit that is fully transferable to any USO campus. Partnerships with high schools in the tri-county area make this opportunity possible.

The Learning Community—This program is designed by and for first-generation college students. The Learning Community provides a supportive first-semester experience that helps students achieve college-level performance and build the resources needed to complete their goals.

Advanced Job Training (AJT)—Metro Credit delivers core undergraduate courses at local correctional facilities offering course completion certificates via in-person teaching and interactive distance learning.

Off-Campus Cohorts—Master’s degrees are offered at various locations throughout northeast Ohio. Concentrations include curriculum and instruction, literacy, and educational administration.

University Honors Program

Ronald V. Shaklee, Director

Mission of the Honors Program

The Honors Program is designed to create a continuing community of intellectual excellence. Exceptional students brought together from diverse disciplines and challenged with extraordinary courses and learning experiences outside the classroom can find in the program opportunities to develop their full cultural and intellectual potential, their unique academic achievements being recognized with an Honors diploma. Intended to foster interdisciplinary interaction, self expression, experimentation, leadership, and academic excellence, the Honors Program serves as a tangible emblem of Youngstown State University’s commitment to education, teaching innovation, and cultural enrichment.

Course Credit Generation

Honors credit generation includes:

- special sections of traditional courses,
- seminars on special topics,
Outcomes

*Enrichment:* Eligible students who desire an enriched education may take honors courses and thus participate in the “honors experience” without having formally applied to the Honors Program.

*Honors Diploma:* Students may apply to the Honors Program, pursuing excellence in a broad range of subjects. Successful completion of this guided course of study will be acknowledged with a special designation on the commencement program, diploma, and final transcript.

**Baccalaureate Honors Program**

I. To enter the baccalaureate Honors Program:

   A. All Leslie H. Cochran University Scholars are enrolled in the Honors Program.

   B. The following students qualify for the Honors Program upon application:
      - Presidential and Dean’s Scholars
      - Students in the top 15% of their graduating class and with at least a Composite ACT score of 26 (or combined SAT of 1760 new 1160 old)
      - Current YSU students having completed at least nine semester hours of college-level study (not to include remedial courses) with a cumulative GPA of at least 3.4
      - Students having completed at least 18 semester hours of college-level study accepted for credit at YSU (not to include remedial courses) with a cumulative GPA of at least 3.4.

   C. First-year students either in the top 15% of their graduating class or with a Composite ACT score of at least 26 (or combined SAT of 1160), as well as other interested students, are encouraged to apply to the Honors Program.

II. To take honors courses, students enrolled in or eligible to enter the Honors Program and others approved by the instructor and director of Honors may take honors courses. All students are encouraged to enroll in honors courses.

III. To remain in good standing in the Honors Program, students must maintain a GPA of at least 3.4. Students falling below this level for two consecutive semesters will be dropped from the program. Reapplication to the Honors Program may be made once the GPA is restored to at least a 3.4.

IV. Students who complete no honors work for two consecutive semesters will be suspended from the program unless they can demonstrate, to the satisfaction of the director of the Honors Program, continuing progress toward the completion of honors graduation requirements.

V. Completing the Honors Program requires an average of three semester hours of honors work per term. In order to complete the program in a timely manner, honors students are expected to take:

   1. a minimum of six semester hours of honors work within their first 30 undergraduate hours;
   2. at least 12 total hours of honors work within their first 60 hours;
   3. at least 18 accumulated hours of honors work within their first 90 hours;

Any student unable to complete work in the Honors Program within this schedule must obtain written permission for delay from the Honors director in order to remain enrolled in the program.

**Baccalaureate Honors Curriculum**

(for students who enroll in the program after March 1, 2000)

Students who enter the Honors Program after Spring 2000 are required to complete at least 24 semester hours of honors work, including a senior thesis/project.

Further requirements include the following:

1. Of the 24 hours, at least twelve hours of honors general education courses distributed as follows:
   
   a. At least one honors course from three of the five general education requirements (GER) knowledge domains or basic skills (see pages 47-48).

2. At least six hours of honors work must be upper-division courses.

3. At least six hours of honors course work shall be taken from actual honors classes (opposed to contract honors credit).

4. At least one full credit hour of Honors Seminars or University Honors Seminars.

5. Senior Year Honors Thesis.

During the senior year, a capstone thesis/project in the major department is required. This is generally worth 1-3 semester hours depending upon the department. A faculty advisor, selected by the student and approved by the Director of Honors, will oversee this project and be assigned an appropriate workload adjustment.

The thesis should be bound and archived by the Library and stored in the Honors Office, Cafaro House. Certain projects other than theses could...
Further Considerations

• Students may join the honors degree program in their second or third year. However, the same requirements outlined above stand.

• Students with multiple majors have to complete only one thesis and 24 semester hours of honors course work. However, the requirement (1b) above still needs to be satisfied as follows:

• A student dual majoring in the same general education area, for example Sociology and Political Science, would have to complete 6 hours of honors credit in general education knowledge domains outside the major.

• A student dual majoring in different general education areas for example—chemistry and English—would meet requirement (1b) by completing 6 hours of honors credit in any of the general education knowledge domains.

Honors Associate Program

The pre-college requirements for the Honors Associate Program are identical to those of the four-year Honors Program.

Students who have not completed the college preparatory subjects are admitted to the Honors Associate Program on the condition that their course of study includes at least one course prescribed for correcting a deficiency each semester until the deficiencies have been erased. Courses taken at the college level and used to make up a deficiency will not be applied toward the Honors Associate Program.

The following students qualify, upon application, for the Honors Associate Program:

• Presidential and Dean's Scholars.

• Students in the top 15% of the graduating class and with an ACT score of 26 or a combined SAT of 1760 (new) 1160 (old).

• Current YSU students having completed at least 9 semester hours of college-level study (not to include remedial courses) with a cumulative GPA of at least 3.4.

• Students having completed at least 15 semester hours of college-level study accepted for credit at YSU (not to include remedial courses) with a cumulative GPA of at least 3.4.

First semester students who have met the criteria delineated above are encouraged to apply to the Honors Associate Program. To remain in good standing, students must maintain a GPA of at least 3.4.

Honors Associate Curriculum

Completion of the Honors Associate Program requires a minimum of 12 semester hours of honors work, as well as the completion of a capstone thesis/project. Further requirements include:

1. At least one honors course from two of the five general education knowledge domains (see page 48).

2. At least three hours of coursework from an actual honors class (opposed to contract honors credit).

3. At least one honors seminar.

4. Capstone project in the major.

Individualized Honors Curriculum (IHC)

An individualized honors curriculum (IHC) is available for high-achieving students who wish to alter any of the requirements listed above for either the associate or baccalaureate Honors Programs. However, the student should prepare a full proposal that includes: application for IHC (available from the Honors Office), reasons for choosing not to follow the prescribed honors program, goals of the IHC, exact courses and the course format (i.e. honors class, contract honors, independent study, etc.), outcomes of the IHC, and estimated time to completion. The proposal must be signed by the department chair of the student's major, the thesis advisor, and the director of honors prior to being submitted to the Honors Committee. Final approval must be given by the Honors Committee before the IHC is recognized as an alternative to the requirements of the Honors Program.

Transfer of Honors Credit

1. Honors credit from other institutions will be accepted as honors credit and can be used to partially fulfill the requirements for the Honors Program at Youngstown State University provided that the honors credit was earned in a college-level course with a grade of B or higher.

2. Upon application, all students from other honors programs who were in good standing relative to their previous program will be admitted into the YSU Honors Program. Honors credit earned at other institutions will be accepted as honors credit and can be used to partially fulfill the requirements for honors at YSU subject to review by the honors director.

3. To graduate with an Honors diploma, a student must complete at least 12 of the total 24 semester hours of honors course work from YSU, fulfill the depth and breadth requirements of the Honors program, and complete a senior thesis in the major discipline. (For more details, consult with the Honors director.)

4. Students who transfer into the YSU Honors Program have all the rights and privileges granted to its members, e.g., honors housing, priority registration, use of honors facilities, etc.
Documentary Recognition of Success in the Honors Program:

1. Grade records. A student’s permanent record will be the sole official record of his or her honors courses and seminars, each of which will be designated with an “H” after the catalog number, or in some cases, with a note detailing that honors credit was earned for that particular course.

2. Completion of the Honors Program. When a student’s record satisfies the director of the Honors Program that the student has successfully completed the requirements of the Honors program, the following notation will be entered on the student’s record: “Has successfully completed the Honors Program,” and upon graduation the student will be awarded the Honors Medal, special recognition in the commencement program, and an Honors diploma.

Benefits of Joining

- Students enjoy the benefits of early registration each semester they are actively participating;
- Honors students are eligible to live in the Honors Program’s living and learning center, Cafaro House;
- Course material is covered in much greater depth than in a traditional class. Therefore, honors students receive a “value-added” education;
- Members may use the computer facilities in Cafaro House. The facility is open 7 days a week, 24 hours a day; nonresidents must follow residence hall visitation policy;
- As reflected by the transcript and diploma, an Honors student has shown the desire and ability to go above and beyond what is traditionally required by the University. This is particularly impressive to graduate and professional schools and potential employers;
- High-achieving students benefit from the experience of taking classes and learning with some of the most intelligent students in the nation;
- It is a gift that a person who loves learning gives to oneself and to others.

Courses of Instruction

The Nature of an Honors Course

When compared to a non-honors course, an honors course should:

- cover material in greater depth
- encompass more complex concepts, stressing analysis
- place greater emphasis on communication skills
- include discussion of applicable theories in the field
- require of the students more preparation and class participation, including more ambitious papers or projects, as well as a greater share of responsibility for learning
- involve more state-of-the-art technology whenever possible and appropriate

Honors Program Courses

1500. Introduction to Honors. Prepares students for the expectations and requirements of the Honors Program. Students develop skills that aid in their overall academic endeavors and explore topics pertinent to their development within the Honors Program and as citizens of the university, local, national and global communities. Prereq.: Admission to the University Honors Program or eligibility for admission to the University Honors Program. 1 s.h.

1599. Special Topics. An introductory-level examination of some topic appropriate for honors study. Typically team-designed. In certain cases, students may arrange to have the course counted toward their major by negotiation with the major department. With approval of the director of Honors, may be repeated for credit with different topics. Prereq.: Admission to the Honors Program or permission of instructor and director of Honors. 1-2 s.h. each

2601, 2602. Honors Seminar. An interdisciplinary seminar series dealing with topics appropriate to students in the honors program. The subjects include, but are not limited to, creativity, the organization and function of society, the total human being, critical thinking, current events, etc. Prereq.: Admission to the Honors Program or permission of instructor and director of Honors. 3 s.h.

2699. Special Topics. A close examination of some topic appropriate for lower-division honors study. Typically team-designed. In certain cases, students may arrange to have the course counted toward their major by negotiation with the major department. With approval of the director of Honors, may be repeated for credit with different topics. Prereq.: Admission to the Honors Program or permission of instructor and director of Honors. 1-2 s.h. each

3701, 3702 University Honors Seminar. A critical investigation of selected ideas underlying civilization, embracing and integrating the particular studies of science, society and the humanities. Prereq.: Admission to the Honors Program or permission of instructor and director of Honors. 3 s.h.

3799. Special Topics. A close examination of some topic appropriate for upper-division honors study. Typically team-designed. In certain cases, students may arrange to have the course counted toward their major by negotiation with the major department. With approval of the director of Honors, may be repeated for credit with different topics. Prereq.: Admission to the Honors Program or permission of instructor and director of Honors. 3 s.h.
4890. Senior Honors Thesis. Directed research for students pursuing senior honors thesis research. Prereq.: Junior status; completion of 18 s.h. of Honors coursework; submission of an approved Honors thesis proposal; and permission of the honors director. May be repeated for up to 3 s.h. 1-3 s.h.

4899. Special Topics. An advanced examination of some topic appropriate for honors study. Typically team-designed. In certain cases, students may arrange to have the course counted toward their major by negotiation with the major department. With approval of the director of Honors, may be repeated for credit with different topics. Prereq.: Admission to the Honors Program or permission of instructor and director of Honors. 3 s.h.

Contract Honors Courses

Any course other than remedial or high school remedial courses may be taken for honors credit with the concurrence of the faculty teaching the class and the approval of the honors subcommittee.

This option does not involve more credit hours for a course, but rather credit of a different kind. Proposals should involve not simply more work on the part of the student, but rather work in greater depth. Proposals are initiated by the student and instructor, then carefully reviewed by the department chair. Chairs certify that by the standards of the discipline, proposals meet the criteria listed on the contract form. The further approval process is outlined on the form “Request for Contract Honors Credit” available in the Honors Office and on the Honors homepage.

Remedial courses are not suitable for contract honors. Contracts are not normally approved when an honors section exists for the same course (e.g. English 1551). Projects in the historiography of any discipline are acceptable.

Contract proposals must be submitted with proper signatures by the due date listed on the contract honors form (and preferably before registration).

Grades are reported to the Honors director, using the form “Grade Report for Contract Honors.” This form, along with the document “Contract Honors Approval,” will be mailed to the sponsoring faculty member after the project has been accepted by all appropriate individuals.

Administration of the Honors Program

The program is operated by the director of Honors under the jurisdiction of the Honors Committee of the University Senate.

</table>
The mission of the WCBA is to prepare undergraduate and MBA students for productive and fulfilling careers as leaders in business, government, nonprofit organizations, and society. Our programs emphasize a student-centered, teaching/learning process with a focus on the application of theory to practice and the intellectual and professional development of our students. We engage in faculty scholarship that contributes to management practice, advances the discipline, and enhances the teaching/learning process.

Our students, faculty, and staff contribute to the university, profession, and the economic development of the region. Internships, business projects, guest speakers, and community service projects are a few of the important ways in which our students enhance their learning experiences.
The undergraduate majors in the Williamson College of Business Administration (WCBA) are housed in one of three departments. These are:

- The Lariccia School of Accounting and Finance
  Majors: Accounting, Finance, International Accounting and Finance
- The Department of Management
  Majors: General Administration, Human Resource Management, International Management, and Management Information Systems
- The Department of Marketing
  Majors: Advertising/Public Relations, International Marketing, Marketing Management

The Department of Economics is housed in the College of Liberal Arts and Social Sciences.

The WCBA also houses the WCBA Center for Undergraduate Student Services, which includes the director, two professional academic advisors, and the professional practice program/internship coordinator. Other college-based centers include the Center for Nonprofit Leadership, the Williamson Center for International Business, the Monus Entrepreneurship Center, and the Ohio Small Business Development Center at YSU.

Degrees

The Williamson College of Business Administration offers courses leading to the Bachelor of Science in Business Administration (BSBA) degree, with a major in

- Accounting
- Advertising and Public Relations
- Business Economics
- Finance
- General Administration
- Human Resource Management
- International Business
- Management Information Systems
- Marketing

The WCBA also offers an Associate in Labor Studies, Associate in Arts in Business Administration, and Associate in Technology Study. At the graduate level, the WCBA offers the Master of Business Administration (MBA) degree.

Accreditation

The Williamson College of Business Administration’s bachelor’s and master’s programs are fully accredited by the AACSB International—The Association to Advance Collegiate Schools of Business, the premier accrediting agency for programs in business administration. Fewer than 25% of business programs in the U.S. have AACSB accreditation.

BSBA Goals

The business curriculum is designed to provide all majors with a strong foundation in the general areas of business, as well as an opportunity for specialized study. In addition to the business core courses and the major courses, students must complete the University’s general education requirements. Students working toward the Bachelor of Science in Business Administration will develop the following competencies in order to become successful leaders in their fields:

BUSINESS PROFESSIONAL SKILLS

Analytical Skills

The ability to organize and manipulate quantitative and qualitative data for business problem solving.

Information Management

An ability to seek, interpret, validate, and apply both current and innovative information sources and technology.

Communications

The ability to communicate effectively in a professional context.

Leadership and Interpersonal Skills

The ability to lead and work effectively in teams.

BUSINESS PROFESSIONAL BEHAVIORS

Ethics & Social Responsibility

An understanding and appreciation of the importance of ethical conduct in business and responsibility to multiple stakeholders in society.

Business Professionalism

An understanding and appreciation of the behaviors, traits and characteristics of successful business professionals.

Entrepreneurship

An understanding and appreciation for the attitudes and skills required for the creation of new ventures

BUSINESS PROFESSIONAL KNOWLEDGE

Accounting

An understanding of financial statements and their use in decision-making.

Finance

An understanding of the relationship between risk and return, time value of money, and pro forma analysis to enable decision-making.
Marketing

An understanding of customer needs and the process of developing, pricing, distributing and promoting products and services that provide customer value.

Management

An understanding of the management function and the skills required of managers.

Operations

An understanding of the process of creating value through the production of goods or services.

Global Business Environment

An understanding of the multiple and pervasive environmental factors affecting the international operations of firms.

Strategic Management

A fundamental understanding of how and why some firms achieve and sustain superior performance while others fail.

Honor Societies

The Williamson College of Business Administration recognizes students’ outstanding academic performance through initiation into Beta Gamma Sigma, the national honor society for AACSB International-accredited business schools. Students who qualify for Beta Gamma Sigma are inducted in the spring of each year. To be eligible, students must be in the upper 10 percent of the junior class, the upper 10 percent of the senior class, or the upper 20 percent of the graduating master’s class.

Qualified business students are also eligible for membership in Phi Kappa Phi, a national honor society that recognizes superior scholarship in all academic fields, and Beta Alpha Psi, the national honors fraternity for accounting, finance, and information systems majors who have completed one upper level course, have a 3.0 accounting, finance or information systems GPA, and have a 3.0 overall GPA.

Center of Excellence in International Business

The Williamson College of Business Administration (WCBA) Center of Excellence in International Business integrates the strong and varied international business activities of the Williamson College of Business Administration, the Williamson Center for International Business (WCIB), the Emerging Markets Initiative (EMI), and the Ohio Small Business Development Center at YSU to accelerate the attainment of goals related to international business education, research in international business, and both local and regional economic development.

The goals of the WCBA Center of Excellence in International Business are designed to not only advance our work in teaching, scholarship, and outreach services, but also to bring increased impact through the integration of global business issues across the curriculum and in the business community. Specifically, the goals of the Center of Excellence in the International Business (CEIB) are to:

1. Create a global learning environment that enhances the development of students’ global competencies through curricular, professional, and co-curricular initiatives and innovations.

2. Generate and expand research that advances knowledge and practice in international business (IB) and supports the economic development of northeast Ohio.

3. Accelerate the development of academic and business partnerships that support our educational and economic development goals.

4. Expand the Emerging Markets Initiative (EMI) and solidify our unique niche of expertise in emerging markets.

5. Expand the IB training, research, and consulting services that strengthen the ability of businesses to compete in a global marketplace.

Monus Entrepreneurship Center

The goal of the Nathan H. and Frances T. Monus Entrepreneurship Center is to spur economic development in the Mahoning Valley. To achieve this goal, the center concentrates its efforts in three major areas. The primary focus of the center is the development of entrepreneurship initiatives and programs, both undergraduate and graduate, within the Williamson College of Business Administration. The center has developed a “Certificate in Entrepreneurship” that assists students with transforming marketable ideas into start-up businesses and emerging entrepreneurial ventures.

A secondary focus is to communicate the entrepreneurship theme throughout the community. This is accomplished by hosting entrepreneurship programs for adults interested in entrepreneurship and for students in grades 6-12. Lastly, the Center acts as an entrepreneurship resource center for the University community.

Center for Nonprofit Leadership

The Center for Nonprofit Leadership, housed in the Williamon College of Business Administration, provides academic programming and professional development experiences for students interested in pursuing a career in nonprofit management and/or serving the community. The Center offers the nationally recognized American Humancis Certification in Nonprofit Management and Leadership as well as the Nonprofit Leadership Minor. Both the minor and certificate can be combined with any major on
The nonprofit sector is the fastest growing employment sector in our country, and offers a wide-range of employment opportunities.

Also available through the Center for Nonprofit Leadership is the Student Nonprofit Leadership Organization (SNLO) and the Service Learning Citizen Scholar Program. SNLO is an organization for currently enrolled students receiving a baccalaureate degree. The organization provides professional nonprofit management experiences through site visits, guest lecturers, and the planning of fundraising events. The Service Learning Citizen Scholar Program recognizes students who have completed multiple service-learning opportunities through academic coursework.

The Ohio Small Business Development Center at Youngstown State University

The Ohio Small Business Development Center (SBDC) at YSU is an important part of the Williamson College of Business Administration. The SBDC helps entrepreneurs realize their goals of business ownership and expansion. The SBDC assists existing businesses in developing and retaining their competitive advantages. Counseling, training, research, technology transfer, and export assistance are offered in the start-up, operation, and expansion of small to mid-size businesses. Emphasis is placed on the use of strategic business planning and basic principles of enterprise development. The SBDC serves clients in Ashtabula, Mahoning, and Trumbull counties, with offices in Youngstown, Warren, Jefferson, and Ashtabula.

The SBDC is partially funded by the Ohio Department of Development and the U.S. Small Business Administration and is one of over 950 such centers in the United States.

WCBA students are involved with the SBDC through class projects, independent studies, and internships. Collaboration between the SBDC and the WCBA provides a great benefit for students, faculty, and small businesses.

Beyond the Classroom

An important dimension of a student’s preparation is the learning that takes place beyond the classroom. In the WCBA, opportunities for leadership development, networking, and professional enhancement are extensive.

Student chapters of national professional organizations provide an excellent means for students to develop leadership skills, network with professionals in their chosen career fields, and increase their exposure to the business world. WCBA organizations are actively involved in public service such as the Voluntary Income Tax Assistance (VITA) program, and Dare to Care Day; national competitions; and fund raising activities.

Students are also involved in the WCBA through the Student Leadership Council which is composed of 25 WCBA students. These students, who meet monthly with the dean, serve as representatives of the WCBA student body and as ambassadors for the College.

Through the Williamson Symposium Series, and the Executive in Residence Program, students are able to interact with business people who are leaders in their fields. These programs provide a forum for the exchange of ideas and give an added dimension to the education of our students.

Rigorous academic preparation, career-related work experience, and involvement in activities beyond the classroom create a valuable combination that positions business majors for success in the business world.

Professional Practice Program

In addition to broad academic training through the WCBA degree programs, students can acquire professional experience through the Professional Practice Program. Internships and cooperative education programs are designed to benefit both students and sponsoring organizations. Participating students have the opportunity to supplement their classroom learning with actual hands-on business experience.

Through internships and cooperative education, students can earn academic credit toward their degrees and, in most cases, be paid for their work. Students work for public accounting firms, state and local government, public relations firms, Fortune 500 corporations, marketing agencies, brokerage firms, banks, investments groups, nonprofit agencies, and retail establishments.

To be eligible for internship positions, students must have a minimum 2.50 grade point average, completed prerequisites in their major beyond the core, and meet the requirements of the sponsoring organization. Internships are typically fifteen weeks in length or a minimum of 225 hours. Cooperative education (co-op) students work for one employer a minimum of two semesters before graduation.

To prepare students for their internships, the Professional Practice Program offers workshops, such as internship orientation/debrief sessions, resume writing, interviewing techniques, networking, targeted career search, business and dining etiquette, and a professional development course.

The program also offers an Interview Day during the fall and spring semesters for students to interview with employers for employment opportunities. Both students and employers register online with our resume retrieval/job search database to schedule interviews. Additional information concerning programs and sponsoring organizations is available from the WCBA Office of Professional Practice located in the WCBA Undergraduate Advisement Center.
Career Services

YSU maintains an Office of Career Services to help students plan and explore careers, aid them in resume and letter-writing and help them prepare for job interviews and placement. Job openings are posted on their PenguinLink online system for current students and alumni. These include full- and part-time, seasonal and summer employment opportunities. Several hundred corporations, businesses, schools, agencies and government units visit Career Services each year to interview students and alumni. The Office of Career Services also sponsors job expos during the spring and fall semesters. A Career Services placement coordinator focuses on assisting business majors with their professional job search plans and has an office in Undergraduate Student Services in the WCBA.

Facilities

The Williamson College of Business Administration moved into a new 110,000 square-foot, $34.3 million building in fall 2010. The College's new home is a LEED-certified state-of-the-art facility that provides enhanced classrooms and learning spaces for students and provides a variety of places for students to study and meet with team members, friends, and the business community. The building will include 14 classrooms, faculty offices, the Center for Undergraduate Student Services, a financial services lab, professional sales lab, computer labs, team rooms, student organizations office, a café, student entrepreneurship lab, auditorium, conference center, and outreach centers. Designed to link the campus with the downtown community, the new building will be a valuable resource not only for WCBA students but also for the regional community.

Courses of Instruction and Curricula

Course descriptions can be found in a separate section in the back of this Bulletin.

Each student is charged with the responsibility of checking the catalog for prerequisites for each course he or she wishes to take. This will ensure minimum changes of registration on the student's behalf and will alleviate many problems associated with scheduling.

Requirements for the Major

The courses required for the various majors are listed by each department. The combined major, advertising and public relations, is described in the Department of Marketing listings. The combined major in general administration is described in the Department of Management listings.

Bachelor's Degree Program—BSBA

New Applicants (Pre-Business)

First-semester freshmen who are admitted to Youngstown State University will be accepted into the Williamson College of Business Administration as pre-business majors.

Transfer students both within and outside of Youngstown State University must have a minimum grade point average of 2.00 to transfer into the WCBA as a pre-business major.

Satisfactory progress toward the completion of the pre-business course requirements must be made before the completion of 33 semester hours of course work in order to retain pre-business status in the WCBA. Students who have not made satisfactory progress within this period of time must consider transferring to another college within the University. An advisor is available for consultation regarding other majors within the University.

Upper-Division Requirements/Declared Business Major

Upon the completion of 63 semester hours of course work (inclusive of Writing 1551, Mathematics 1552, Economics 2610, 2630, 3790, and Accounting 2602, 2603 with grades of “C” or better), students who wish to be considered for upper-division standing in the WCBA must apply with an academic advisor in Room 408 of Williamson Hall. Students must have a 2.5 cumulative grade point average to be admitted to upper-division standing.

Students are restricted from registering for most upper-division business courses until a major has been declared.

BSBA Degree Requirements

The student has the responsibility for seeing that all graduation requirements for the degree are satisfied. For the Bachelor of Science Degree in Business Administration, these are:

Courses and other requirements of the University. These are explained in the Academic Policies and Procedures section, and are listed below.

The curricula leading to a degree in business require a minimum of 124 semester hours. This degree may be earned in eight semesters if students average 16 hours per semester.

Admission to Pre-Business does not guarantee admission to upper-division status with a major in business.

The student whose needs are not completely met by existing programs may wish to investigate and apply for the Individualized Curriculum Program. See the Academic Policies and Procedures section.
ROTC students are permitted specific modifications of the requirement as explained in the Academic Policies and Procedures section.

A grade of “C” or better must be earned in all core, major, and business elective courses. CR/NC options may not be used in tool, core, and major courses.

*Information systems requirement is met with ACCT 3709 for accounting majors.

**Other Degree Requirements**

- Completion of the appropriate number of semester hours.
- Upper-division status (completion of 63 semester hours of credit; completion of all tool courses with a grade of “C” or better; application must be made in the advisors’ office).
- Minimum cumulative GPA of 2.5.
- Major requirements (a grade of “C” or better must be earned in all courses taken in the major and business electives).
- Course-level requirements (completion of sixty (60) semester hours of courses must be completed at the 2000 level or higher, of which forty-eight (48) semester hours must be at the 3000 level or higher).
- At least 50 percent (62 hours) of the total degree requirements must be taken in nonbusiness courses. Up to nine hours of economics courses can be counted as nonbusiness.
- Residence requirement.
- Application for graduation.

**BSBA (International Business)**

Students interested in careers in international business may pursue the BSBA degree with a major in international accounting and finance, international management, or international marketing. All business majors are encouraged to pursue one or more global learning experiences including study abroad, international business study tours, and international internships.

Students in the IB majors must complete:
1. The general education courses including Intro to World Religions (REL 2601)
2. The BSBA tool and core courses described above
3. A foreign language sequence 2600 and 2605
4. The International Business core: International Business (MGT 4890), International Marketing (MKT 4845), and International Trade (ECON 5811) or International Finance (ECON 5812)
5. And completion of one of the following concentrations:

**International Accounting & Finance Concentration**

(126 Hours for the Degree)

Select 21 hours from the following:

ACCT 3701, 3702, 3711, 4813, FIN 3721, 3730, 4835, 4836, 4839
International Management Concentration
Select 9 hours from the following:
MGT 4880Q, 4880M, 4880E, 4880I, 5860
Select 6 hours from the following:
MKTG 4845, FIN 4839, ECON 5811, MGT 4880I
Management Requirements: MGT 3750, 4890
Management Upper Division Electives

International Marketing Concentration
(126 Hours for the Degree)
Select 21 hours from the following:
MKTG 3709, 3720, 3726, 3740, 3757, 4815, 4825, 4846, 4848

LARICCIA SCHOOL OF ACCOUNTING AND FINANCE
330-941-3084
Professors Antenucci, Claypool, Law, Shaffer (Chair), Stout, Tackett, Volpe, Wolf, Woodlock; Associate Professors Chen, Huber; Assistant Professors Counts, Petruska, Yang.

ACCOUNTING
Accounting can be described as a service activity, a descriptive/analytical discipline, and an information system. As a service activity, it provides users with quantitative financial information to aid in making business-related decisions. As a descriptive, analytical discipline, it identifies those economic transactions affecting an economic entity and describes—through measurement, classification summarization, and reporting—the impact of the transactions on the entity. As an information system, accounting communicates financial information to interested parties. Accountants are involved in one or more of these areas.

Career Opportunities
The demand for accounting graduates continues to grow as corporations develop, tax laws change, and new government regulations are introduced.

All types of organizations, public and private, require accounting services in their operations. Private accounting includes such areas of specialization as financial accounting, cost accounting, systems, managerial accounting, internal auditing, tax accounting, budgeting, and financial analysis. In public accounting, the major specializations include external auditing, management advisory services, tax accounting, and planning.

Employers of accountants include banks, retail and wholesale businesses, manufacturers, labor unions, tax firms, pension funds, foundations, hospitals, universi-
the Master of Business Administration (MBA) degree with a specialization in accounting is strongly recommended in conjunction with the bachelor’s degree. With proper planning and coordination, a student can complete both a B.S. and MBA in five years (for example, students may take MBA courses in their senior year which would be counted towards the graduate degree).

In order to complete both undergraduate and graduate degrees in a timely manner, undergraduate students should apply to the MBA program (which includes successful completion of the GMAT exam) upon completion of 90 semester hours (approximately 135 quarter hours) including intermediate accounting courses. Please consult any of the following: Undergraduate Advisement office, MBA office, or the Department of Accounting and Finance.

Curricula

For University requirements, lower-division tool requirements, and upper-division core requirements, see pre-business course requirements at the beginning of the WCBA section.

Accounting Major
(124 Hours for the Degree)
ACCT 3701, 3702, 3709, 3711, 4801, 4808, 4813
MGT 3714
Business upper-division electives

Accounting Minor
Courses include: ACCT 2602, 2603, 3701, 3702, 3711, plus 1 to 3 s.h. of accounting electives.

FINANCE

Due to rapid technological change, finance is one of the most exciting areas of business as well as an expanding career choice. A career in finance offers flexibility, security, and a wide choice of specializations. Corporations, governments, nonprofit institutions, and individuals all require the expertise that a financial professional can offer. During this era of restructuring, the unique analytical skills that a financial specialist provides can translate into job security as well as additional opportunity.

The role of finance professionals is to provide information and analyses to organizations and individuals that will result in superior decision making. A career in finance requires careful preparation, an aptitude for practical analytical skills, and the ability to recognize and communicate potential remedies and solutions to a wide variety of problems.

Career Opportunities

Areas of specialization in finance include investment analysis, insurance, financial planning and analysis, banking, credit analysis, cash management, and corporate finance. The rapid expansion of international business and investments has led to a short-age of finance professionals to work in this area both domestically and abroad. The aging of the “Baby Boom” generation together with changing pension regulations increases the demand for professionals specializing in retirement planning and investments. A course allowing students to make real investments is now offered.

Finance Major
(124 Hours for the Degree)
FIN 3721, 3730, 4835, 4836, 4853
Business upper-division electives

Finance Minor
Suggested courses include:
FIN 3720, 3721, 3730, 4835, 4836, or 4853

DEPARTMENT OF MANAGEMENT
330-941-3071

Professors Guzell, Karpak, Kasuganti (Chair), Katz, McMahon, Psenicka, Russo; Associate Professors Eunni, Kos, Rakestraw, Vendemia. Assistant Professors Bateman, Breland, Han, Pandian, Peng.

Management is the study of the process of working with and through others to solve practical problems and reach organizational goals. Programs offered by the Department of Management are designed to develop and enhance the skills and knowledge base necessary for successful managers. Effective managers must be able to meet the challenges of rapid change, intense and global competition, and increased sensitivity to social concerns that characterize today’s business environment.

As leaders, managers are responsible for the successful performance of their unit and its function. They must have a thorough understanding of strategic planning, human resource management, product planning and design, capacity management, materials management, global operations, organizational design, and information systems. Supervisory, middle, and upper-level managers practice in a variety of profit and non-profit settings, and they must be adept in their interpersonal, informational and decisional roles.

The Department of Management offers programs leading to the Bachelor of Science in Business Administration degree in the following majors: management information systems, human resource management, and general administration. An Individualized Curriculum Program in international management is also offered.

The programs in the department are designed to prepare individuals for careers as managers/supervisors in business/industrial/transportation and public organizations. For those not majoring in one of these fields, the courses offered provide a knowledgeable background in management/supervision/administration of organizations.
The department also offers two-year associate degree programs in Management and Labor Studies.

Career Opportunities
Managers work in every field. Some opportunities that are available for managers include the following:

**General Management** — Executive, Chief Executive Officer (CEO), Chief Operating Officer (COO), president, city manager, health services manager, hotel general manager, strategic planner, hospital administrator, entrepreneur.

The curriculum emphasizes knowledge of all areas of business as well as good analytical, organizational, and strategic management skills.

**Human Resource Management** — Human resource manager, vice president of human resources, employee relations, salary and wage administrator, labor relations, organizational design and development specialist.

Students will gain the knowledge, skills, and competencies to develop and deploy a capable and motivated workforce that spells the difference between success and failure in a complete and competitive global environment.

**Management Information Systems** — Management Information Systems (MIS) manager, vice president of information systems, systems analyst, data base administrator, network manager, and programmer. Courses in this area will focus on the personal, organizational, and technical aspects of the MIS function. Students will gain the knowledge, skills, and competencies to use information systems for gaining strategic, tactical, and operational advantage.

**International Management** — Careers in any of the areas listed above, when the employing organization has significant international involvement in the form of export/import, joint ventures, foreign direct investment, and multinational/global operations.

Learning Outcomes
The student learning outcomes for majors within the Management Department are as follows:

- **Operations Management**—Demonstrate knowledge in role of operations management in business strategy of the firm; interdependence with other key functional areas; designing and improving processes; designing and operating value chains
- **International Business**—Demonstrate knowledge in cross-country variations in business environments that present both opportunities and challenges in operating globally; strategies and management systems to seize the opportunities and face the challenges in operating globally
- **Information Systems**—Demonstrate knowledge in role of information systems in the modern enterprise; emerging technologies (such as ERP, CRM etc.) and their potential impact on your business; managing IT resources effectively and efficiently to achieve business goals
- **Business Policy and Strategy**—Demonstrate knowledge in applying basic strategy frameworks, concepts, and definitions; cross-functional analysis, decision-making, and strategic integration; analysis of complex business/industry scenarios and development of action plans
- **Management/Organizational Behavior**—Demonstrate knowledge in management as a social process; managerial functions (planning, organizing, leading, motivating etc.) and skills (technical, communications, etc.)

Student Organizations
Association of Information Technology Professionals (AITP) offers opportunities for information technology leadership and education through partnerships with industry, government and academia.

Sigma Pi Alpha is the YSU student affiliate of the Society for Human Resource Management (SHRM) and is open to students who have an ongoing interest in human resource management.

Curricula
All students in management must take the department core requirements and the courses listed in their respective major. For University requirements, lower-division tool requirements, and upper-division core requirements, see Pre-Business Course Requirements on p. 86.

Management Department Core Requirements
MGT 3750

Management Information Systems Major
MGT 3761, 3771, 4881, 5835, 5865, and MIS elective, CSIS 1560, 1590, MGT elective, business upper-division electives

Human Resource Management Major
MGT 3761, 3734, 3715, 4810
Management upper-division electives*
Business upper-division electives
*One of these may be an economics course

General Administration (Combined) Major
(124 Semester Hours for the Degree)
MGT 3761
Accounting/Finance electives
Marketing upper-division electives
Management upper-division electives
Business upper-division electives
Logistics Minors
Courses include: MGT 3725, 3789, or ISEN 4815, GEOG 3741 or GEOG 2640, MGT 4882, 4896

Human Resource Minor
Courses include: MGT 3725, 3750, and 3734; Three upper-division management electives from MGT 3705, 3715, 3761, 4810, 4819 (9-12 hours)

Management Information Systems Minor
Courses include: MGT 3725, 3761 and 5835; Three upper-division management electives from MGT 3737, 3771, 3789, and 5865

Enterprise Resource Planning Certificate
Mgt 3761 Management Information Systems ..........3 s.h.
Mgt 3789 Operations Management ......................3 s.h.
Mgt 4880G Business Process Integration ..........3 s.h.
Mgt 4820 Supply Chain Management .............3 s.h.
with SAP

DEPARTMENT OF MARKETING
330-941-3080

Professors Anderson, Keillor, Toncar; Associate Professors Kohut (Chair), Warren; Assistant Professors Reday, Wang-Ying.

MARKETING
Marketing deals with processes that provide products and services to buyers with the goal of satisfying their needs and wants. Buyers can be consumers or businesses. Determining buyers’ needs and wants and developing ways to meet them is the fundamental role of business – both for-profit and not-for-profit. Indeed, it was recently stated in the Harvard Business Review that, within the context of business, “Marketing is everything” — the success of an organization’s marketing determines the success of the organization. It is no wonder then, that marketing is the central activity of business organizations in market economies.

Marketing addresses a number of business issues, including deciding what products to offer, to whom, at what price, and at what location. Marketing majors in the Williamson College of Business Administration (WCBA) enroll in a wide variety of courses that examine these areas in great detail to provide them with the tools and knowledge to succeed in the world of business. For those not majoring in marketing, the course offerings provide a knowledge of how businesses function and how other business operations, such as finance and management, provide the inputs necessary for successful decision making and strategy implementation.

Although the Department of Marketing offers only one major in marketing, the curriculum is flexible enough to allow students to focus their attention in areas of interest. For instance, in addition to marketing management, the curriculum allows study in such areas as retail marketing (management of retail businesses who sell directly to consumers), shopping center and property management (management of shopping and mixed-use developments), industrial marketing (business-to-business marketing programs and practices), and others. The marketing major leads to a Bachelor of Science degree in Business Administration.

Career Opportunities
Marketing courses at YSU are designed to prepare students for careers in marketing, including those related to the development distribution, pricing, promotion, and selling of goods and services. It is estimated that about 50 percent of all jobs in the United States are associated with these marketing functions. Department stores, retailers, and franchise service operations seek college-trained marketing experts. The marketing divisions of industrial corporations and advertising agencies have also traditionally held career opportunities for marketing graduates. Today, however, they are joined by banks and other financial institutions, health-related and charitable organizations, government agencies, and other service and not-for-profit organizations.

Marketing positions are among the highest-paid positions in business today. A shortage of college-trained marketing experts, excellent advancement opportunities, and easily transferable skills make marketing an extremely attractive and a very rewarding career option.

Learning Outcomes
The Department of Marketing provides quality professional business education that prepares students for productive careers in the marketing and advertising industry.

Our students will have a strong understanding of customer needs and the process of developing, pricing, distributing, and promoting products and services that provide customer value.

Students will have a knowledge and understanding of:
• The marketing concept
• Global marketing
• Ethical marketing practices
• The marketing mix
• Buyer behavior
• Basic marketing research
• Marketing communications
• Advertising and public relations management practices
Student Organizations

The Collegiate Chapter of the American Marketing Association is open to students enrolled in the business curriculum.

Curricula

Marketing majors must take the department core requirements. Students then have the flexibility to focus on areas of their interest. For University requirements, lower-division tool requirements, and upper-division core requirements, see Pre-Business Course Requirements on p. 86.

Marketing Major Requirements
(124 Semester Hours for the Degree)

MKTG 3726, 3740, 4815, 4825 and five marketing or advertising and public relations electives and business upper-division electives

Marketing Minors

Courses include: MKTG 3709, 3726, 3740, 4825, plus choose two MKTG electives from the following: MKTG 3709, 3720, 4815, 4825

ADVERTISING AND PUBLIC RELATIONS

Advertising and public relations are mainly concerned with communications by organizations to their various audiences. Organizations have public images that must be maintained and refined. Advertising and public relations practitioners create and place messages designed to inform or persuade audiences about an organization or its products and services. Many of these messages have selling as a major goal.

These messages are the ones the average person sees each day. How did you first learn about the car you drive or your favorite soft drink? It was probably through advertising messages. Similarly, public relations messages provide us with information about new developments in cancer research or charitable activities and services. Public relations activities also include planning events, writing newsletters, developing good relationships with media personnel, and providing information services to customers.

YSU’s advertising and public relations major is unique because it is offered by the Department of Marketing in the Williamson College of Business Administration (WCBA). YSU’s program has a distinct advantage because it is focused on integrated marketing communications similar to employers’ organizations, thus enhancing the marketability of our graduates. The advertising and public relations program leads to a Bachelor of Science degree in Business Administration.

Career Opportunities

Advertising and public relations courses are designed for those students who plan careers in advertising and public relations and for those who desire to have a knowledge of advertising that would benefit them as they pursue a career in business, public, or nonprofit organizations.

Student Organizations

Alpha Delta Sigma (ADS) is a national professional advertising society affiliated with the American Advertising Federation.

Curricula

Advertising/PR majors must take the department core requirements and several courses in integrated marketing communications. Students then have the flexibility to focus on areas of their interest. For University requirements, lower-division tool requirements, and upper-division core requirements, see pre-business course requirements at the beginning of the WCBA section.

Advertising and Public Relations
Major Requirements
(124 Semester Hours for the Degree)

MKTG 3726, 3740, 4825 or ADV 4855
ADV 3711, 3712, 3717 and three Advertising and Public Relations or Marketing electives and
Business upper-division electives

Advertising and Public Relations
Minor

Courses include: ADV 3711, 3712, 4855, PREL 3710 plus choose two electives from the following: ADV 3717, 4811 or MKTG 3740

An advertising and public relations minor can be a valuable addition to any degree. See the Marketing Department chair for more information and course requirements.

Business Economics

The BSBA in business economics is offered jointly by the Williamson College of Business and the Department of Economics, College of Liberal Arts and Social Sciences.

Economics provides critical decision-making tools in all areas of business. To the manager of a firm, microeconomic theory provides strategies on how to maximize profit, techniques for measuring how customers will respond to changes in price, and how the potential profitability of the firm will vary with the level of competition. Macroeconomic theory discusses why inflation, unemployment, and interest
rates change. For a manager, an important issue is how the federal government may try to change the state of the economy, and how that will alter business opportunities. The field also offers courses that cover forecasting and other statistical techniques which may be used in business decision-making.

**Career Opportunities**

A career in economics is a good choice for people who like to analyze how systems work. A degree in business economics can open high-paying opportunities in a wide variety of fields. Consulting firms, research firms, financial institutions and corporate planning departments all seek applicants trained in economics.

According to the Occupational Outlook Handbook published by the U.S. Bureau of Labor Statistics: “Competition, the growing complexity of the global economy, and increased reliance on quantitative methods for analyzing the current value of future funds, business trends, sales, and purchasing should spur demand for economists. The growing need for economic analysis in virtually every industry should result in additional jobs for economists.”

To be competitive in the field, graduates must be able to analyze business problems using economic theory and statistical techniques, and then communicate those results clearly in written reports to non-economists.

**Upper-Division Status**

Students pursuing a business economics major must meet all course requirements and maintain a 2.5 grade point average to be admitted to upper-division standing.

**Business Economics Major Requirements**

(124 Semester Hours for the Degree)

ECON 3710, 3712, 4880, 12 semester hours of economics electives, and 12 semester hours of business upper-division electives.

**Learning Outcomes**

To be competitive in the job market, economics majors must have knowledge of microeconomics, macroeconomics, and statistical techniques. They must also be able to apply the theory and statistical techniques they have learned to public policy issues and business problems and be able to present their conclusions. The learning objectives of the economics major are as follows:

- **Microeconomics** – The student will be able to discuss the characteristics of different market structures and how the structure of a market affects consumers. The student will also be able to explain the conditions that must be met for an economy to use its resources in the most efficient manner possible.

- **Macroeconomics** – The student will be able to explain the major macroeconomic goals: rapid economic growth, high employment, and stable prices and how the tools of monetary and fiscal policy can be used to achieve macroeconomic goals.

- **Statistical Analysis** – The student will be able to interpret descriptive statistics, the results of hypothesis tests, and regression estimates.

- **Communication Skills** – The student will be able to give a well-prepared presentation on an economic problem. By well-prepared, it is meant that the presentation clearly frames the topic of the presentation, discusses the relevant theory and evidence, correctly document references, and proposes a conclusion consistent with the theory and evidence.

**Economics Minor**

An economics minor complements many different majors. Students taking a minor in economics must meet the requirements of one of the two tracks listed below. Courses at the 1500 level cannot be counted toward the minor.

**Economics with Statistics**

ECON 2610 (Principles 1, Microeconomics), ECON 2630 (Principles 2, Macroeconomics), ECON 3790 (Business and Economics Statistics), and 9 semester hours of electives.

**Economics**

ECON 2610 (Principles 1, Microeconomics), ECON 2630 (Principles 2, Macroeconomics), and 12 semester hours of electives. ECON 3790 cannot be counted as an elective in this track.

**Student Organizations**

The Economics Club is open to all students. The club sponsors speakers and field trips related to the study of economics. For information about the Economics Club contact the Economics Department.

**Minor and Certificate Programs**

**Business Minor (22 s.h.)**

ACCT 2602, 2603; MKTG 3703, FIN 3720, MGT 3725, 3761, 3737.

**Certificate in Non-Profit Leadership**

The Certificate in Non-profit Leadership is geared to any YSU student seeking a four-year degree who is interested in an entry-level position in a nonprofit
organization or who wants to learn more about non-profit organizations and give back to the community.

Students in the program are required to participate in curricular and co-curricular activities that improve their understanding of the operations of nonprofit organizations as well as provide community service to area agencies.

The Student Nonprofit Leadership Organization (SNLO), which is associated with the certificate program, plans fund-raisers for students’ professional development activities, holds meetings at various nonprofit organizations, and completes specific projects for nonprofit agencies. In January of each year, the members attend the American Humanics Management Institute (AHMI), which is a national professional development and networking experience for students from over 80 colleges across the country. The Institute is held in a different city each year. In spring, SNLO members hold a retreat to plan next year’s activities and to improve camaraderie among members.

Certification in Non-profit Leadership prepares students for entry-level positions in non-profit organizations.

The following courses are required: ENG 1550, 1551, CMST 1545, PSYC 1560, SOC 1500, PHIL 2625, PREL 3710, BUS 3720, BUS 3740 (may be taken up to four times), ACCT 3722, and BUS 4840 and 4841 (both must be taken concurrently).

Students interested in receiving the certificate must contact the campus director of American Humanics.

In addition to the coursework, the student must also attend the American Humanics Management Institute, complete a 300-hour internship with a nonprofit organization, and be an active member in the Student Nonprofit Leadership Organization.

Nonprofit Leadership Minor

Course requirements include: BUS 3720, BUS 3722, BUS 3740, PREL 3710 or ADV 3711, MGT 3734, MKTG 4848, and BUS 4840 and BUS 4841.

Certificate in Entrepreneurship

The certificate in Entrepreneurship is designed to provide a broad based understanding of the entrepreneurial process and the unique problems and challenges faced by new ventures. In recognition of the broad spectrum of start-up concepts, the certificate, while housed in the Williamson College of Business Administration, is open to all disciplines.

While the certificate in entrepreneurship is designed to serve students who intend to start and lead their own company, it also helps students understand how entrepreneurial firms operate. Innovation, creativity, and opportunity recognition are critical skills necessary for anyone entering the marketplace. Learning these entrepreneurial skills will prepare one for the diverse and ever-changing opportunities that exist throughout the world of business.

In order to earn the certificate, students must complete three required courses: New Venture Creation (ENT 3700), New Venture Financing (ENT 3750), and Small Business Enterprise (MKTG/MGT 4871). In addition, they must choose a fourth course, either Business Plan Development (ENT 4800) OR Entrepreneur Internship (ENT 4850).

Certificate in Enterprise Resource Planning (ERP)

Enterprise Integration involves the integration of software, hardware, and networking technology at both the intra-organizational and inter-organization levels. To be successful, management must implement a business process view of the organization. The ERP Certificate enables students to be effective users of integrated ERP software and effective participants in managing the evaluation, installation, and use of ERP software.

Associate Degree Programs

Associate in Arts in Business Administration

The Associate in Arts degree is intended for students not seeking other associate degrees. However, all courses taken in the Associate in Arts degree do apply toward the Bachelor of Science in Business Administration degree. To pursue an Associate in Arts degree, consult the Office of Undergraduate Student Services in the College of Business Administration, Room 408 of Williamson Hall.

Associate of Technical Study—Business Technology

The Associate of Technical Study—Business Technology program is designed to provide an opportunity for individuals who have completed documented vocational or technical training to earn academic credit for the training and combine this with academic coursework at the college level to earn an Associate of Technical Study degree.

Students must be enrolled or have successfully completed a course of technical training that has already been evaluated by YSU. Students may be awarded no more than 30 hours for previous documented technical training.

*Select from the following: ECON 2630, ECON 3790, MGT 3725 or PHIL 2625. Refer to the University catalog for course descriptions and proper prerequisites before registering for electives.

**Business Tool Courses, ENGL 1551 (completed with a grade of "C" or better) and an overall GPA of 2.5 is the prerequisite for MGT 3725.

The programs and courses in the Williamson College of Business Administration will vary in nature depending upon content, level of instruction, and the pedagogical approach of the professor. At all times, discussion and the exchange of ideas between student and faculty is encouraged.
The Beeghly College of Education offers programs and activities for preparing individuals for a variety of educational positions in schools, colleges, industry, business and governmental agencies. It is organized to offer curricula and/or services for the preparation of: (1) teachers in early childhood, middle, special education, and secondary school classrooms; (2) personnel to serve in various levels of school and administrative positions; (3) supervisory personnel for curricular development and instructional improvement; (4) teachers and other personnel in special education; (5) individuals for a wide variety of guidance and student personnel positions; (6) professional educators in colleges; community, technical, and vocational schools; and governmental agencies.

The Beeghly College of Education is essentially an upper-division school comprising three departments: Counseling and Special Education; Educational Foundations, Research, Technology, and Leadership; and Teacher Education. It cooperates with the College of Liberal Arts and Social Sciences, the Bitonte College of Health and Human Services, and the College of Fine and Performing Arts in preparing teachers for both public and private schools.
Youngstown State University teacher education programs are accredited by the Ohio Department of Education and the National Council for Accreditation of Teacher Education (NCATE). These programs are subject to the sections of the Ohio law and regulations governing teacher education and licensure. The College of Education serves as the recommending agent for all Youngstown State University graduates who wish to qualify for state of Ohio licensure as well as for licensure in other states.

In the College of Education, professional courses are offered leading to teacher licensure and to the Bachelor of Science in Education degree.

Prospective teachers may also be licensed upon receiving degrees earned in the College of Liberal Arts and Social Sciences, the College of Fine and Performing Arts, and the Bitonte College of Health and Human Services, providing they meet requirements for admission to upper-division status in the College of Education and complete the proper teacher education programs.

**Program Conceptual Framework: Reflection in Action**

The College's professional education programs, initial and advanced, are defined within a conceptual framework referred to as Reflection in Action. This translates into the following institutional standards and outcome statements:

**R1: Reflective practice is Reasoned.**

Candidates exercise rational judgment and give thoughtful consideration to their professional activities and decisions.

**Outcomes:**
A. Candidates use research, theory, and wisdom of practice to inform their pedagogy.
B. Candidates apply the appropriate knowledge of assessment and evaluation to their practice.
C. Candidates utilize evaluation results for evidence-based decision-making.
D. Candidates employ reflective professional judgment across all facets of their practice.

**R2: Reflective practice is Ethical.**

Candidates act in a moral, legal, and principled manner in professional practice.

**Outcomes:**
A. Candidates apply ethical and legal practices in performing their professional responsibilities.
B. Candidates demonstrate knowledge of education policies at the local, state and national level for instructional decision-making.
C. Candidates value and apply the professional code of conduct particular to their area.

**R3: Reflective practice is Fair.**

Candidates exercise democratic fairness, principled concern, and humane care in their professional activities.

**Outcomes:**
A. Candidates demonstrate professional, collaborative, and inclusive dispositions both in their field placements and within their courses.
B. Candidates foster inclusive environments, and respect the backgrounds of and beliefs held by their students or clients.
C. Candidates strive to meet the educational needs of all students or clients in a caring, non-discriminatory, and equitable manner.
D. Candidates collaborate with colleagues, families and communities to ensure that all students reach their potential.

**R4: Reflective practice is Logical.**

Candidates think analytically in a deliberately consistent and rationally defensible manner.

**Outcomes:**
A. Candidates think systematically and analytically about professional practice and professional decision-making.
B. Candidates appropriately apply knowledge of research to their professional practice.

**R5: Reflective practice is Effective.**

Candidates apply professional knowledge in a consciously purposeful and deliberate manner.

**Outcomes:**
A. Candidates are proficient in the procedures, techniques, and methods of their respective fields.
B. Candidates are proficient in the content of their respective fields.

**R6: Reflective practice is Critical.**

Candidates use professional knowledge, objectively applying it to their own professional actions and the professional actions of others to the benefit of their students and clients.

**Outcomes:**
A. Candidates evaluate their own effectiveness by giving attentive consideration to the positive growth of their students/clients.
B. Candidates assess the needs for professional development and actively engage in professional activities to expand their knowledge, experiences and relationships.
R7: Reflective practice is Technical.

Candidates attend to procedural details and optimize the use of technologies appropriate to professional practice.

Outcomes:
A. Candidates effectively and appropriately integrate various technologies into their work as teachers, counselors and administrators to maximize P-12 student learning.
B. Candidates use technology to enhance their own professional development.

Requirements for the Degrees

Bachelor of Science in Education

It is the student’s responsibility to fulfill graduation requirements for the appropriate degree. These consist of:

1. The pre-college or preparatory courses for each degree. Typically, these are completed at the high school level. Prior to admission to upper-division, the student must remove any deficiencies by a process described in the Academic Policies and Procedures section of this catalog.

2. The general education requirements to be completed in the University are explained in the Academic Policies and Procedures section of this catalog. Knowledge domains are comprised of natural sciences, artistic and literary perspectives, societies and institutions, personal and social responsibility, selected topics and electives and a capstone.

3. Completion of a minimum of 124 semester hours of credit with a grade point average of at least 2.67 overall and a 2.67 grade point average in the teaching field and professional education courses (each computed separately including transfer hours) with no less than a C grade in all major, licensure, and professional education courses.

NOTE: No student will be permitted to take the following professional education courses more than twice: FOUN 1501, FOUN 3708, EDTC 3771, PSYC 3709, SPED 2630, SPED 2631, TERG 3701,TERG 3702, TERG 3703, TEMC 3702, SED 4800 series, ECE 2629, ECE 3760, pre-student teaching courses—ECE TEC, MCE Internship, STEP, SED 3706, MULT 4807, student teaching seminar and student teaching.

4. Students graduating from the Beeghly College of Education earn a Bachelor of Science in Education degree. The degree is awarded to students who qualify for a teaching license. Exceptions to this policy can be made only by the dean of the College of Education.

The curricula leading to the degrees are designed to be completed in four academic years.

Majors in Teacher Education

The following designations indicate student majors.

1. Early Childhood Education — (Pre-kindergarten through grade three). For teaching children who are typically developing, at-risk, gifted, and who have mild/moderate educational needs.

2. Middle Childhood Education — (Grades four through nine). For teaching learners in at least two of four curriculum concentration areas named on the teaching license. Students choose two areas from the following four: a) language arts; b) mathematics; c) science; d) social studies.

Requirements for Admission to Teacher Education Licensure Programs

Neither admission to the University nor declaration of a major related to a teaching field guarantees admission to the Beeghly College of Education (BCOE)’s teacher education programs or candidacy for a teaching license. Formal admission to teacher education is required before students are allowed to enroll in junior and senior level courses in the College.

After candidates have completed a minimum of 60 semester hours and fulfilled all other admission requirements, they should submit an application for admission to the teacher education program (upper
division). The application for upper division must be completed and submitted to BCOE Room 2101 by:
September 15 to register for Upper Division courses for Spring; February 15 to register for Upper Division courses for Summer and Fall. Applications submitted after the deadline are NOT guaranteed acceptance in time to register for Upper Division courses.

Each completed application will be reviewed and approved by the Upper Division Admission and Retention Committee. If all requirements are met, student will be allowed to register for Upper Division courses the following semester.

Admission to the Teacher Education Program (Upper Division) is obtained upon satisfactory completion of the following requirements:

1. Minimum completion of 60 semester hours
2. Minimum 2.67 overall gpa and passage of the Praxis I with the following minimum scores: Writing – 172, Reading – 173, Mathematics – 172. The test is administered through the Education Testing Service and officially reported to YSU.
3. “B” average or better (A-C, B-B) for:
   a. ENGL 1550
   b. ENGL 1551
   Note: ENGL 2601 is required if failure to meet “B” average above. If you receive a “C” or below, you will need to retake this course.
4. “B” average or better (B-B-B, A-B-C) across the following:
   a. FOUN 1501
   b. CMST 1545
c. See curriculum sheet for concentration area course.
   Note: If you do not have a “B” average, you will need to retake courses until the “B” average is achieved.
5. Completion of Good Moral Character Statement.
6. Current Bureau of Criminal Investigation (fingerprinting) and FBI clearances.

Candidates for degrees outside the College of Education are enrolled in the college awarding the particular degree, nonetheless these students must meet the above requirements and be admitted to Teacher Education in order to enter the junior and senior level courses offered in the College of Education leading to teaching licensure. All B.S. in Ed. candidates are enrolled in the College of Education and must meet these requirements for admission. Transfer students who were in good standing in an NCATE approved teacher education program at the previous school and who were admitted to the Teacher Education Program there, may be admitted to the Teacher Education Program at Youngstown State University with appropriate documentation.

Students are encouraged to plan to meet the requirements for admission to teacher education by the end of their sophomore year. Later qualification does not justify waiving any course prerequisites or planned sequences, and usually results in prolonging the period of study beyond the usual four years.

Graduation and/or Licensure Evaluation

A Request for Graduation and/or Licensure Evaluation form should be completed and submitted to BCOE Room 2101 the semester prior to student teaching and/or application for licensure. This generates a program evaluation to assure that candidates are meeting graduation and/or licensure requirements.

Requirements for Student Teaching

Application for a student teaching assignment must be filed with the Student Field Experiences Office during the preceding semester in which student teaching is to be completed. (BCOE Room 2101 for details.) The student must register for the proper number of hours for the respective student teaching courses(s) during the open registration period preceding the student teaching term. Students anticipating more than one teaching license should seek advisement in the College of Education. To qualify for a student teaching assignment, the student must have satisfied the following requirements: 1) BCOE Upper Division Status; 2) a minimum overall G.P.A. of a 2.67; 3) completion of the program prerequisites; 4) an average of 2.67 in the major/teaching area and professional education courses (each computed separately with no grade less than a C); 5) a passing score on the Praxis II content and PLT test(s) and; completion of a criminal background check. No other course may be taken with student teaching except as stipulated in the specific program requirements. The Administrator of Student Field Experiences must be notified in writing prior to a student's attempt to register for course(s) outside of student teaching. Student teaching is a full-time course, which may deviate somewhat from the University calendar depending on the calendar of the assigned school.

Requirements for Licensure

Initial Licensure. The dean of the College of Education has the authority to recommend to the Ohio State Board of Education, and other licensure agencies, those Youngstown State University graduates who qualify for licensure in any teacher education program offered by the University. Students earning degrees in schools other than the College of Education must complete all requirements of the teacher education program in order to be licensed. All candidates for any teaching license must meet the requirements for program admission in the College of Education, but the degree earned may be conferred by any of the University colleges in accordance with the specific requirements for the degree desired. However an
overall undergraduate grade point average of 2.67 and 2.67 in the major field(s) and professional-education courses must have been earned if the student is to be recommended for licensure by Youngstown State University, irrespective of the type of degree received. In addition, each candidate for licensure must pass the State of Ohio prescribed licensing examination(s) (Praxis II) prior to receiving YSU's recommendation for licensure.

For more information regarding additional fields, or endorsements, consult the academic advisors in the College of Education.

**Post-Baccalaureate Licensure.** Post-baccalaureate students desiring Youngstown State University’s recommendation for licensure in Ohio and any other state must be admitted to the University. Post-baccalaureate students are advised in the undergraduate student advisement office (BCOE Room 2101) and are advised in the same manner as undergraduate students. They must meet the standard set of requirements for admission and upper-division status in the College of Education. They must satisfy the teaching field, and professional education requirements comparable to the undergraduate program. Post-baccalaureate students may use approved, documented program equivalency to satisfy appropriate parts of the licensure program.

**Licensure in a Second Teaching Field.** Post-baccalaureate and undergraduate students seeking licensure in a second teaching field will need to satisfy the approved academic program as stated in the catalog under the section “Teaching Fields.” The same quality point requirements apply to second teaching fields as those for initial licensure. A passing score on the specialty exam of the State of Ohio for the second teaching field is required prior to YSU’s recommendation for the second teaching field.

**Advisement**

All prospective teachers are advised by the academic advisors in the College of Education. Secondary students, middle childhood students, and multi-age students are also advised in the department in which their major or areas of concentration are located.

**Title II, Higher Education Act**

For the Institutional Report on the Quality of Teacher Preparation, Title II, Higher Education Act, please see Appendix B of this Bulletin.

**Curricula and Courses of Instruction**

Each curriculum leads to an Ohio provisional license. Minimum requirements for teachers’ licenses are determined by the Ohio Department of Education; if those requirements change, they become effective immediately at Youngstown State University. State department minimal requirements may be, and usually are, exceeded by University requirements.

Courses will be found in the back of this Bulletin in alphabetical order by course prefix.

**DEPARTMENT OF COUNSELING AND SPECIAL EDUCATION**

**330-941-3257**

Professors Dove, Kress, Martin; Associate Professors Inler, Miller; Assistant Professors Briley (Chair), Jackson, Lewis, McGee, Paylo, Protivnak, VanVoorhis.

**Counseling**

The counseling program offers an M.S. in Education degree with program options in clinical mental health counseling, school counseling, student affairs, college counseling, and addiction counseling. Candidates in clinical mental health, school, college, and addiction counseling are prepared to meet the requirements for licensure and national certification as a counselor. A complete listing of program options and course descriptions is presented in the YSU Graduate Bulletin and on the department’s website.

The counseling program offers a limited number of undergraduate elective courses for students who are interested in pursuing a graduate degree in counseling. The undergraduate counseling courses focus on mental health and wellness, leadership, career/life planning, and helping skills.

**Special Education**

The department offers a B.S. and M.S. in Education with specialization in moderate/mild (M/M) or moderate/intense (M/I) disabilities. The undergraduate programs lead to licensure in the Intervention Specialist (M/M) and the Intervention Specialist (M/I) serving grades K-12. An Intervention Specialist (M/M) serves students with mild to moderate cognitive disabilities. Intervention Specialists (M/I) serve students with moderate to severe and multiple disabilities. Both programs emphasize the behavioral needs of students with disabilities.

Majors in this program must complete the general education requirements, professional education requirements, 12 hours of reading, and curriculum content requirements.

**Reading and Study Skills (RSS)**

The Reading and Study Skills Center operated by the Department of Counseling in the Beeghly College of Education provides individualized and group instruction in improving reading rate and comprehension as well as study strategies. The Reading and Study Skills Center is staffed by faculty, graduate assistants, undergraduate tutors, and a full-time coordinator. The Center maintains a laboratory component for RSS 1510A and 1510B—courses mandated for students based on the COMPASS® Reading Test (CRT). Additional services include individual tutor-
ing in study strategies and reading rate, and reading comprehension, college success workshops and assistance with preparation for standardized tests such as PRAXIS, MCAT, and MAT. Peer tutors are available to work with students on an individual basis. Call or visit our website to make an appointment.

The services offered by the Reading and Study Skills Center are free of charge to all registered YSU students. The Reading and Study Skills Center is located in 154 Maag Library and is open from 8:00 a.m. to 6:00 p.m., Monday and Wednesday, 8:00 a.m. to 5:00 p.m., Tuesday, Thursday, and Friday. For further information contact the Reading and Study Skills Center, telephone 330-941-3099 or visit website at www.cc.ysu.edu/rdg-studyskills.

**Intervention Specialist License (K-12)**

Mild/Moderate Disabilities program requires a minimum of 126 s.h.

Moderate/Intensive Disabilities program requires a minimum of 130 s.h.

The B.S. in Ed. degree requires the courses listed below. Licensure also requires passing the Ohio Praxis II Exams, prior to student teaching.

All courses meeting requirements specified on this page require a minimum “C” grade. Exceptions are ENGL 1550 and 1551 which require a “B” average. PLEASE BE AWARE OF THE PREREQUISITE FOR EACH COURSE.

**General education requirements in Special Education (46 s.h.)**

The specific coursework required in general education for both Mild/Moderate and Moderate/Intensive is as follows:

- ENGL 1550 Writing 1....................................................3
- ENGL 1551 Writing 2....................................................3
- ENGL 2651 Intro to Language........................................3

*Please note: SPED 5833 is a prerequisite for SPED 5834. Students will not be permitted into SPED 5834 without SPED 5833.

STEP

All students seeking licensure in an area of special education must complete STEP (Special Teacher Education Program). The program is an intensive field-based experience conducted in cooperation with local elementary and secondary schools. STEP is scheduled during fall and spring semesters. Students are committed to an 8:00 a.m. to 3:00 p.m. schedule. Because STEP is a full-time commitment, students are advised not to plan any outside work during that period, nor will they be permitted to take any concurrent course work.

In STEP, theory and methods instruction takes place at the university and onsite teaching takes place in the public schools. Students learn to observe, diagnose, prescribe for, and teach exceptional children individually and in small and large groups. Field experiences are carefully planned and closely supervised and evaluated daily to insure that students will develop needed competencies. The emphasis is on individualized instruction adapted to the unique needs of each child.

Junior or senior students planning to take STEP must submit an application 1 (one) year in advance to BCOE Room 2101 by September 15 for fall STEP or February 15 for spring STEP. Contact the Beeghly College of Education academic advisors for minimum STEP prerequisites. It is best to take STEP one or two semesters prior to student teaching.

DEPARTMENT OF EDUCATIONAL FOUNDATIONS, RESEARCH, TECHNOLOGY, AND LEADERSHIP
330-941-1436

Professors Beebe, McEwing, McNierney, Vergon; Associate Professors deBlois, Eggers, Pusch; Assistant Professors Baringer (Chair), Carr, Spearman.

The Department of Educational Foundations, Research, Technology and Leadership, through its foundations and technology courses, provides undergraduate education majors with courses that draw from a range of academic disciplines. Foundational studies attend particularly to the diverse contexts within which educational practices occur and examine how interpretation can vary with different historical, philosophical, cultural and technological perspectives. Undergraduate foundations courses, which include tests and measurements, are designed to help develop interpretive, normative, and critical perspectives on education, both inside and outside the schools. The undergraduate technology course introduces candidates for teaching certificates to the issues, pedagogies and skills associated with the use of technology in the educational process.

Graduate courses offered by the Department appear in the Graduate School Bulletin.

DEPARTMENT OF TEACHER EDUCATION
330-941-3251

Professors Bailey (Chair), Hoover, Kim, Williams; Associate Professors Cummins, Feist-Willis, Theall; Assistant Professors Graham, O’Connor, Rees, Saunders-Smith; Instructor Greene.

EARLY CHILDHOOD EDUCATION

IMPORTANT NOTICE: Some teacher education programs, course, and credit information provided below is pending completion of all formal review processes at Youngstown State University and the Ohio Department of Education. Contact the Beeghly College of Education academic advisors to be advised of any changes in information provided here regarding these teacher licensure programs in early childhood education, middle childhood education, secondary education, and special education.

In cooperation with the Department of Human Ecology, the Department of Teacher Education offers a four-year early childhood education program approved by the Ohio Department of Education.
Advisement is provided by the faculty in Child and Family and Early Childhood Education, as well as the academic advisors in the College of Education. Majors in this program must complete general education requirements, professional education requirements, reading course requirements, and curriculum content requirements.

Prior to student teaching, all early childhood majors must complete a Teacher Education Center (TEC) clinical experience. A TEC, conducted in local schools, is defined as University faculty presenting theory and methods, and subsequently observing the students’ teaching of lessons. This field experience requires a substantial time commitment, as students spend the entire day in schools during designated weeks. Early Childhood TEC is scheduled during the fall and spring semesters. Applications for TEC must be submitted (1) one year in advance to BCOE Room 2101 by September 15 for Fall TEC; by February 15 for Spring TEC. Contact the Beeghly College of Education academic advisors for minimum TEC prerequisites.

Early Childhood License (P-3)

The B.S. in Ed. degree requires the courses listed below to total 133 s.h. This teaching field also requires passage of the Praxis II test with a score of 166 on the Specialty Test: Education of Young Children (0021) and a 166 on the PLT (0521) in order to be eligible to student teach.

All courses meeting requirements specified on this page require a minimum “C” grade. Exceptions are ENGL 1550 and 1551 which require a “B” average.

General Education Requirements (49 s.h.)

The specific coursework required in general education for early childhood education majors is as follows:

Writing
ENGL 1550 Writing 1..........................3
ENGL 1551 Writing 2..........................3

Oral Communication
CMST 1545 Comm Theory & Practice....3

Math
MATH 2651 Math for Early Childhood Teachers 1....................3

Learning Outcomes

Content majors need to check with their area of major for other relevant learning outcomes besides those listed in the conceptual framework.

MIDDLE CHILDHOOD EDUCATION

In cooperation with various academic discipline departments in the University, the Department of Teacher Education offers programs leading to licensure in middle childhood education programs approved by the Ohio Department of Education. Advisement is provided by the academic advisors in the Beeghly College of Education, and faculty in the content areas of the concentrations. Majors in this program must complete general education requirements, professional education requirements, reading requirements, and two of four curriculum concentration areas named on the teaching license: a) language arts; b) mathematics; c) science; d) social studies. While total credit hour requirements depend on the student's choice of concentration areas, the middle school program requires approximately 135 s.h.

Prior to student teaching, all middle childhood majors must complete an internship. This internship, conducted in local schools, is defined as University faculty presenting theory and methods, and subsequently observing the students' teaching of lessons. This field experience requires a substantial time commitment, as students are required to spend the entire day at a school site during designated weeks of the semester. The middle childhood internship is scheduled during the fall semester only. Applications for the MCE internship must be submitted 1 (one) year in advance to BCOE Room 2101, by September 15. Contact the Beeghly College of Education academic advisors for minimum prerequisites and to discuss course rotation.

Middle Childhood License (4-9)

The B.S. in Ed. degree requires the courses listed below to total a minimum of 124 s.h. This teaching field also requires the passage of the Praxis II exam with a score of 168 on the PLT 5-9 (0523) test and passing scores on the Specialty Tests designated for the concentration areas.

All courses meeting requirements specified on this page require a minimum "C" grade. Exceptions are ENGL 1550 and 1551 which require a "B" average.

General Education Requirements in Middle Childhood Education
(Subject to change upon GER completion) (46 s.h.) The specific coursework required in general education is as follows:

Writing
ENGL 1550 Writing 1 ..................................................3
ENGL 1551 Writing 2 ..................................................3

Communication
CMST 1545 Comm Theory & Practice .....................3

Math
(If math is one of the concentrations see the concentration area.)
MATH 2623 ..................................................................3

Natural Science
(If science is one of the concentrations see the concentration area.)
STEM 2600 Exploration in the Sciences ...................4
Course from Natural Sciences .................................3
Course from Natural Sciences .................................3

Artistic & Literary
(If language arts is one of the concentrations see the concentration area.)
Course from Artistic & Literary .................................3
Course from Artistic & Literary .................................3

Societies & Institutions
(If social studies is one of the concentrations see the concentration area.)
Course from Societies & Institutions........................3
Course from Societies & Institutions........................3
Course from Societies & Institutions........................3

Personal & Social Responsibility
PSYC 1560 General Psychology .............................3
Elective from Personal & Social Responsibility ........3

Selected Topics
This requirement is met by SPED 2630 listed in the Professional Education Requirements ........................3

Of these, students must have the following GER Intensives
- Writing Intensive (2 courses)
- Oral Communication Intensive (2 courses)
- Critical Thinking Intensive (2 courses)

Professional Education Requirements in Middle Childhood Education (53 s.h.)
The specific coursework required in professional education is as follows:
FOUN 1501 Intro to Education .................................3
*FOUN 3708 Education & Society .............................3
SPED 2630 Individuals w/Except in Society .............3

* Indicates upper-division status
Middle Childhood Internship

Depending on the student's teaching concentrations, the specific coursework required in reading is as follows:

**TERG 3703 Thematic Instruc & Assess Methods in Social Studies** .........................4

**TERG 3704 Tchg Math in the Mid Sch** ..........4

**TERG 3705 Tchg Sci in the Mid Sch** ..........4

**TERG 3706 Teaching of Lang Arts in the Middle School** .........................4

Student Teaching

Student teaching candidates will register for two of the following student teaching courses depending on concentration areas:

**TERG 4800 Student Teaching in Middle Childhood Science Education** .................5

**TERG 4802M Student Teaching in Middle Language Arts Education** .................5

**TERG 4803M Student Teaching in Middle Mathematics Education** .................5

**TERG 4803 Student Teaching Seminar MCE** ........2

Content Areas 48-70 s.h. Must choose two.

Note that the sciences and social studies concentrations include courses which completely fulfill the general education requirements in those areas; reading/language arts includes a literature requirement which fulfills a general education/humanities.) The specific coursework required in the curriculum content areas is as follows:

**A. Language Arts, 24 s.h. required.** (See notes in Artistic & Literary GER) A passing score of 156 on the Middle Childhood Language Arts Test (10049)

Choose one of the following 2 courses (Artistic & Literary)

ENGL 1590 Introduction to Literature ...............3 s.h.

ENGL 2618 American Literature & Diversity. 3 s.h.
D. Social Studies, 33 s.h. required. A passing score of 151 on the Middle Childhood Social Studies Test (10089).
HIST 1511 Introduction to World History 1 ........3 s.h.
HIST 1512 Introduction to World History 2 ..........3 s.h.
HIST 2605 United States History 1 ................3 s.h.
HIST 3748 History of Ohio .............................3 s.h.
LASS 4805 Integrated Social Studies.............3 s.h.

Eighteen semester hours electives: each discipline must be selected once; two discipline areas must be selected twice:

**Geography**
GEOG 2650 GEOG 3715 GEOG 3717 GEOG 3719
GEOG 3721 GEOG 3722 GEOG 3741 GEOG 3745

**Political Science**
POL 1560 American Government ..................3 s.h.
One course from the following:
POL 2640 POL 2660 POL 3700
POL 3704 POL 3706 POL 3722

**Economics**
ECON 2610 Principles 1: Microeconomic Theory & Policy ........................................3 s.h.
ECON 2630 Principles 2: Microeconomic Theory & Policy ........................................3 s.h.

**Sociology/Anthropology**
ANTH 1500 Introduction to Anthropology ..........3 s.h.
SOC 1500 Introduction to Sociology ................3 s.h.

**SECONDARY, MULTI-AGE, AND CAREER/TECHNICAL EDUCATION**

In cooperation with various academic discipline departments in the University, the Department of Teacher Education offers programs leading to licensure in many adolescent, multi-age, and career/technical teaching fields approved by the Ohio Department of Education. Advisement in these areas is provided by faculty in the academic disciplines of the teaching fields, the professional secondary education faculty in the Department of Teacher Education, and the academic advisors in the Beeghly College of Education. The College of Education assumes full responsibility for approval of matters dealing with licensure requirements (regardless of teaching field or degree involved) and for graduation requirements for the Bachelor of Science in Education degree.

Majors in these programs must complete general education requirements, professional education requirements, and teaching field requirements. The total credit hours required depend on choice of teaching field(s); students in programs with less than 124 s.h. must add electives to reach 124 s.h. for the B.S. in Ed. degree. Prior to student teaching, the majors listed below complete a SED cluster. The cluster is partially conducted in local schools, and is defined as University faculty presenting theory and methods, and subsequently observing the students’ teaching of lessons. This field experience requires a substantial time commitment. Applications for SED cluster must be submitted 1 (one) year in advance to BCOE Room 2101, by September 15 for fall and February 15 for spring.

The cluster for earth science, integrated mathematics, integrated science, life science, and physical science consists of TERG 3711, FOUN 3710, SED 3706, and SED 4800. For integrated language arts, the cluster contains FOUN 3710, SED 3706 and SED 4800E. Health and family and consumer science candidates take TERG 3711, FOUN 3710, and SED 3706 for the cluster. Lastly, French, Italian, and Spanish majors take TERG 3711, FOUN 3710, and SED 3706. Teacher education candidates have the option of taking one content course with the cluster. Note: Some of the SED 4800 courses are only offered during a specific term. Contact the Beeghly College of Education academic advisors for minimum SED cluster prerequisites and to discuss the course rotation.

**Adolescence, Multi-Age And Career/Technical License**

The B.S. in Ed. degree requires the courses listed below in addition to the courses required for the major/licensure field with a minimum to total 124 s.h. Licensure also requires passing the Ohio Praxis II Exams.

All courses meeting requirements specified on this page require a minimum "C" grade. Exceptions are ENGL 1550 and 1551 which require a “B” average.

**General education requirements in Adolescent Education (45 s.h.)**

The specific course work required in general education is as follows:

**Writing**
ENGL 1550 Writing 1 ........................................3
ENGL 1551 Writing 2 ........................................3

**Oral Communication**
CMST 1545 Comm Theory & Practice ................3

**Math**
See appropriate concentration sheet for math requirement.

**Natural Science**
Natural Science Course with a lab ..................4
Natural Science Course .................................3

**Artistic & Literary**
Artistic & Literary Course ............................3
Artistic & Literary Course ............................3

**Societies & Institutions**
Societies & Institutions ...............................3
Societies & Institutions ...............................3
Personal & Social Responsibility
PSYC 1560 General Psychology ..........................3
Personal & Social Responsibility Course ...........3

Selected Topics
This requirement is met by SPED 2630 listed in Professional Education Requirements.

Two choices from GER courses either from Natural Sciences, Societies & Institutions and/or Artistic & Literary Perspectives—no more than 3 courses from one domain.

Of these, students must have the following GER Intensives
— Writing Intensive (2 courses)
— Oral Communication Intensive (1 course)
— Critical Thinking Intensive (2 courses)

GER distribution varies with the teaching discipline. Please check with your academic advisor in your major teaching field. Students are encouraged to check with their advisors, because 1) in some licensure areas, teaching field requirements may be used to meet some general education requirements, and 2) some licensure areas recommend alternatives within these general education requirements that are particularly relevant to the teaching field.

Professional Education Requirements in Secondary, Multi-Age, and Career/Technical Education

The specific course work required in professional education is as follows:
FOUN 1501 Introduction to Education.................3
†FOUN 3708 Education and Society.....................3
†FOUN 3710 Educational Assessment....................3
PSYC 3709 Psychology of Education....................3
*EDTC 3771 Technologies for Teaching................3
†TERG 3710 Rdg Appl Content Area, Middle Years 3
†TERG 3711 Rdg Appl Content Area, Secondary Years 3
†SED 3706 Principles of Teaching
Adolecents....................................................5
*MULT 4807 Teaching Across Curriculum............2
*TEMC 3707 Science/Technology/Society............3
*SED 4800 Reflective Teaching Methods...............3
SED 4842 Student Teaching.............................10
SED 4842A Student Teaching Seminar...............2

Note #1: Several professional education courses have field components which require the student to spend various amounts of time in local elementary, middle, and secondary schools, as well as in meetings on campus. FOUN 1501, 3708, SED 3706, and student teaching with the student teaching seminar have such requirements. Check with individual course descriptions regarding important sequence and prerequisite information.

Note #2: Professional education exception courses above listed with an asterisk (*) may have alternative or specialized courses approved by the Department of Teacher Education for particular teaching fields.

See the curriculum advisement sheets in the College of Education academic advising office and in the offices of the academic discipline and/or professional education faculty advisors.

* Indicates upper-division status

Adolescent, Multi-age, and Career/Technical Teaching Fields in Secondary Education

These teaching fields are built around a secondary education major. All prospective students majoring in these teaching areas are advised to read carefully the sections relative to requirements for admission to upper-division status, for student teaching, and for licensure which appear at the beginning of this College of Education section. In addition to the subject area teaching field requirements, all majors must complete the secondary education professional-education course sequence as specified by the Department of Teacher Education.

YSU recommends that students complete courses of study which lead to qualification in more than one teaching field and/or in teaching fields projected to be available in the job market at the time of licensure. Students should see the coordinator in Career Services for current job market information which may promote ultimate employment.

The State of Ohio adopted new teacher licensure standards effective September 1, 1998 and YSU’s programs below reflect these changes.

VISUAL ARTS (P-12)
Multi-Age License

All of the following:
ART 1521 Foundation Drawing .........................4 s.h.
ART 1522 Intermediate Drawing ......................4 s.h.
ART 1501 Fund. of 2-D Design ........................3 s.h.
ART 1502 Fund of 3-D Design..........................4 s.h.
†ART 1503 Foundation Portfolio Review
ART 3721 Expressive Drawing ........................3 s.h.
ART 2691 Intro to Digital Imaging ....................3 s.h.
ART 2661 Intro to Graphic Design ....................3 s.h.
ART 2631 Intro to Ceramic ..............................3 s.h.
ART 2611 Intro to Sculpture ..............................3 s.h.
ART 2671 Intro to B&W Photography .................3 s.h.
ART 2650 Intro to Painting .............................3 s.h.
ART 2653 Watercolor ....................................3 s.h.
ART 2615 Intro to Metals ................................3 s.h.
ART 1541 Sur of Art History ............................4 s.h.
ART 1542 Sur of Art History ............................3 s.h.
ART 3788 Theory of Art ................................3 s.h.
ART 5882, 20th Cent. Art from 1960 .................3 s.h.
ART 37xx, Art History elective ........................3 s.h.

One of the following:
ART 2625 Woodblock ..................................3 s.h.
ART 2626 Silkscreen ....................................3 s.h.
ART 3724 Lithography .................................3 s.h.
**EARTH SCIENCE (7-12)**

**Adolescent License**

All of the following:
- GEOL 1505 Physical Geology .......................... 4 s.h.
- GEOL 3713 Physical Evolution in North America .......................................................... 4 s.h.
- GEOL 1514 Life of Geological Past ..................... 3 s.h.
- GEOL 2602 Introduction to Oceanography .......... 3 s.h.
- GEOL 2615 Geology & Environment 1 ................. 3 s.h.
- GEOL 5815 Geology & Environment 2 ................. 3 s.h.
- GEOG 2630 Weather ........................................ 3 s.h.
- ASTR 1504 Descriptive Astronomy .................... 3 s.h.
- ASTR 2609 Moons & Planets ............................ 3 s.h.

EARTH SCIENCE Electives selected from the following: 6 s.h.
- GEOG 3730 Global Climate ................................ 3 s.h.
- ENST 2600 Found of Environment Study ............ 3 s.h.
- GEOL (any upper-division course) ..................... 3 s.h.

Choose from the following:
- MATH 1548 College Business Math 1 .................. 3 s.h.
  AND
- MATH 1549 College Business Math 2 ................. 4 s.h.
  OR
- MATH 1570 Applied Calculus 1 .......................... 4 s.h.
  OR
- MATH 1571 Calculus 1 ..................................... 4 s.h.

Select 15 s.h. from the following three areas with at least 1 course in each area:
- BIOL
- CHEM
- PHYS

**Professional education exception:** Candidates in this major are required to take TEMC 3707 (Science/Technology/Society).

**FRENCH (P-12)**

**Multi-Age License**

See your advisor in the Foreign Language Department for advisement on the courses for this major.

FRNC 1550 Elementary ..................................... 4 s.h.

FRNC 1500 Elementary is waived if student starts with FRNC 2600 Intermediate - a FRNC 3700 or 4800 level course must be substituted

FRNC 2600 Intermediate ................................... 4 s.h.

FRNC 2600 Intermediate is waived if student starts with FRNC 2605 Advanced Intermediate - a FRNC 3700 or 4800 level course must be substituted

All eleven (11) courses listed below are required:

- FRNC 2605 Advanced Intermediate (required for Admission to Teacher Education Program) ........................................ 3 s.h.
- FRNC 2606 Intensive French Review .................. 3 s.h.
- FRNC 3710 Applied Phonetics .......................... 3 s.h.
- FRNC 3715 Conversation & Comp ..................... 3 s.h.
- FRNC 3740 Business French ............................ 3 s.h.
- FRNC 4801 Method of Foreign Lang Teaching .......................................................... 3 s.h.
- FRNC 4850 Sociolinguistics ............................... 3 s.h.
- FRNC 4851 Language Acquisition ........................ 3 s.h.

Select one (3) of the following courses:

- FRNC 3750 Civilization and Culture .................. 3 s.h.
- FRNC 3771 French Fiction ................................ 3 s.h.
- FRNC 3772 French Drama ................................ 3 s.h.
- FRNC 3773 French Poetry .................................. 3 s.h.

Select one (1) of the following courses:

- FRNC 4874 Advanced Writing .......................... 3 s.h.
- FRNC 4885 Special Topics ................................. 3 s.h.

**HEALTH (P-12)**

**Multi-Age License**

All of the following:
- PHLT 2692 Human Sexuality ............................ 3 s.h.
- PHLT 3702 Found of Health Ed Theory & Methods (O) ................................................. 3 s.h.
- PHLT 3703 Health Ed for Grades Pre-K – 4 ........ 3 s.h.
- PHLT 3704 Health Ed for Grades 4 – 6 .............. 3 s.h.
- PHLT 3705 Health Ed for Grades 7 – 12 .............. 3 s.h.
- PHLT 3731 Drug Use and Abuse .......................... 3 s.h.
- PHLT 3757 Health and Disease ........................... 4 s.h.
- PHLT 3791 Community Health or ..................... 3 s.h.
- AHLT 3708 Preventative Public Health Care ............ 3 s.h.
- AHLT 3740 Pathology of Infectious Disease ............ 3 s.h.
- AHLT 4808 Environmental Health Concerns ............ 3 s.h.
- FNUT 1551 Normal Nutrition ............................ 3 s.h.
- AHLT 5807 Epidemiology .................................. 3 s.h.
- MATC 1501 Medical Terminology ........................ 3 s.h.

Current CPR and First Aid certification required at time of graduation.

This licensure area has specific GER requirements. Please refer to the curriculum advisement sheet in the College of Education academic advising office.

**Professional education exception:** Candidates in this major do not take SED 4800 (Reflective Teaching Methods).
FAMILY AND CONSUMER SCIENCE (4-Adult) 
Career/Technical License

HMEC 1550 Human Ecology Professions 1 s.h.
FNUT 1512 Food Safety and Sanitation 1 s.h.
MRCH 1506 Clothing Selection and Image Development 3 s.h.
PHLT 2692 Human Sexuality 3 s.h.
FNUT 1551 Normal Nutrition 3 s.h.
FNUT 1553 Food Science & Management Principles 3 s.h.
FNUT 1553L Food Science & Management Principles Lab 1 s.h.
CHFM 3731 Individual & Family Development 3 s.h.
CHFM 3750 Parent & Professional Relationships 3 s.h.
PSYC 3755 Child Development 3 s.h.
PSYC 3756 Adolescent Development 3 s.h.

*Professional education exception: Candidates in this major do not take SED 4800 (Reflective Teaching Methods).

INTEGRATED LANGUAGE ARTS (7-12) 
Adolescent License

The following five required:
ENGL 3701 British and American Literature 3 s.h.
ENGL 3702 British and American Literature 3 s.h.
ENGL 3705 Young Adult Literature 3 s.h.
ENGL 4881 Shakespeare and His World 3 s.h.
ENGL 4890 Senior Seminar 3 s.h.

Two of the following (American Literature):
ENGL 3770 American Lit in Historical Perspective 3 s.h.
ENGL 3780 American Genres 3 s.h.
ENGL 4862 Themes American Literature 3 s.h.
ENGL 4864 Selected Topics in American Literature 3 s.h.
ENGL 4871 The Black Exp in American Literature 3 s.h.

One of the following (Early British Literature):
ENGL 4860 The Medieval World 3 s.h.
ENGL 4882 The English Renaissance 3 s.h.
ENGL 4886 Restoration/18th Century Brit Lit 3 s.h.
ENGL 4830 Major Figures in Brit Lit 3 s.h.
ENGL 4831 Genres, Circles & Movements in Brit Lit 3 s.h.

One of the following (Later British Literature):
ENGL 4887 The Romantic Period 3 s.h.
ENGL 4892 19th Century British Studies 3 s.h.
ENGL 4895 Early 20th Century British Studies 3 s.h.

ENGL 4896 British Literature from WWII to Present 3 s.h.
ENGL 4830 Major Figures in British Literature 3 s.h.
ENGL 4831 Genres, Circles & Movements in Brit Lit 3 s.h.

One of the following (World/Multicultural Literature):
ENGL 2610* Introduction to World Literature 3 s.h.
ENGL 2617* Woman in Literature 3 s.h.
ENGL 2620 Introduction to African Literature 3 s.h.
ENGL 2631* Mythology in Literature 3 s.h.
ENGL 3732* Images of Women 3 s.h.
ENGL 3738* Selected Topics World Literature 3 s.h.
ENGL 3790 Selected Topics in Multicultural Studies 3 s.h.

Linguistics—(required)
ENGL 2651 Intro to Language 3 s.h.

One of the following:
ENGL 3750 Language & Culture 3 s.h.
ENGL 3757 Development of the English Language 3 s.h.
ENGL 4850 Sociolinguistics 3 s.h.
ENGL 4851 Language Acquisition 3 s.h.
ENGL 4855 Advanced Linguistics 3 s.h.
ENGL 4856 TESOL Methods 3 s.h.
ENGL 4858 English Grammar 3 s.h.

Writing
ENGL 3741 Advanced Writing for Teachers 3 s.h.

*(SPECIAL NOTE: TERG 3711 and ENGL 3741 are taken together the semester before taking the SED cluster.)

Oral Communication
CMST 2653 Group Communication 3 s.h.
CMST 2656 Interpersonal Communication 3 s.h.
THTR 2670 Oral Interpretation 3 s.h.

Journalism
ENGL/JOUR 2622 News Reporting 3 s.h.
ENGL/JOUR 4821 Advising Student Publications 3 s.h.

One of the following:
ENGL 2665* Intro to Film Study 3 s.h.
ENGL 3743 Professional and Technical Communication 3 s.h.
ENGL 3765 Film Genres 3 s.h.
ENGL 4865 Selected Topics in Film 3 s.h.
TCOM 1595 Survey of Mass American Communication 3 s.h.
THTR 1590* History of Motion Pictures 3 s.h.
JOUR 3723 Edit/Design Newspapers 3 s.h.

Note: This licensure area has specific GER requirements. Please refer to the curriculum advisement sheet in the College of Education academic advising office.

*These courses satisfy the Artistic & Literary Perspectives General Requirements (GER).
INTEGRATED MATHEMATICS (7-12)
Adolescent License

All of the following:
- MATH 1571 Calculus 1 ................................. 4 s.h.
- MATH 1572 Calculus 2 ................................ 4 s.h.
- MATH 2673 Calculus 3 ................................ 4 s.h.
- MATH 3715 Discrete Math ............................. 3 s.h.
- MATH 3720 Linear Algebra Matrix Theory ... 3 s.h.
- MATH 3721 Abstract Algebra .......................... 3 s.h.
- STAT 3743 Probability & Statistics ............... 4 s.h.
- MATH 3750 History of Math ........................... 3 s.h.
- MATH 3751 Real Analysis .............................. 3 s.h.
- MATH 4830 Foundations of Geometry .......... 3 s.h.
- MATH 4896 Senior Research Project ............ 2 s.h.

Elective from: MATH 3705, 5822, 5828,
- CSIS 2610 Program/Problem Solving ............... 4 s.h.

MATH 3751 Real Analysis .............................. 3 s.h.
- MATH 3751 Real Analysis .............................. 3 s.h.
- MATH 4830 Foundations of Geometry .......... 3 s.h.
- MATH 4886 Senior Research Project ............ 2 s.h.
- MATH 5832 Euclidian Transformations ........ 3 s.h.
- CSIS 2610 Program/Problem Solving ............... 4 s.h.

Elective from: MATH 3705, 5822, 5828,
- 5835, 5845 or 5895 ............................................ 3 s.h.

INTEGRATED SCIENCES (7-12)
Adolescent License

All of the following:
- MATH 1571 Calculus 1 ................................. 4 s.h.
- MATH 1572 Calculus 2 ................................ 4 s.h.

A course in computer science is recommended, but not required.

Choose one of the following course sequences as a primary science concentration:

1. BIOLOGY
   BIOL 2601/L Principles of Biology & Lab ...... 4 s.h.
   BIOL 2602/L Principles of Biology 2 & Lab ...... 4 s.h.

Select 14 s.h. from the following:
- BIOL 3741 Animal Diversity ......................... 4 s.h.
- BIOL 3702 Microbiology .............................. 4 s.h.
- BIOL 3721 Genetics .................................... 3 s.h.
- BIOL 3762 Field Botany ................................ 4 s.h.
- BIOL 3780 Evolutionary Ecology ................. 5 s.h.
- BIOL 4890 Molecular Genetics .................... 3 s.h.
- BIOL 4890L Molecular Genetics Lab ............. 1 s.h.
- BIOL 3730 Human Physiology ...................... 5 s.h.

2. CHEMISTRY
   All of the following:
   CHEM 1515 General Chemistry .................... 4 s.h.
   CHEM 1516 General Chemistry 2 .................. 4 s.h.
   CHEM 2604 Quantitative Analysis ............... 5 s.h.
   CHEM 3719 Organic Chemistry 1 ................ 4 s.h.
   CHEM 3720 Organic Chemistry 2 ................. 4 s.h.
   Any 3000 or 4000 level chemistry course .... 3 s.h.

3. PHYSICS
   All of the following:
   PHYS 2608 Sound ......................... 3 s.h.
   PHYS 2610 General Physics 1 .................... 4 s.h.
   PHYS 2610L General Physics Lab 1 .............. 1 s.h.
   PHYS 2611 General Physics 2 .................... 4 s.h.
   PHYS 2611L General Physics Lab 2 ............. 1 s.h.

Select a minimum of 11 s.h. in Physics from the following:
- PHYS 3701 Intermed Class Mech 1 .......... 3 s.h.
- PHYS 3702 Intermed Class Mech 2 .......... 3 s.h.
- PHYS 3704/3704L Modern Physics .......... 4 s.h.
- PHYS 3705 Thermo/Class Stat Mech ........... 3 s.h.
- PHYS 3705L Thermo/Class Stat Mech Lab .... 1 s.h.
- PHYS 3722/3722L Advanced Optics Light .... 4 s.h.
- PHYS 4805 Undergrad Research ................. 3 s.h.
- PHYS 5890 Physics & Astronomy for Educators ........................................... 1-3 s.h.

4. EARTH/SPACE SCIENCE
   All of the following:
   - GEOL 1505 Physical Geology ..................... 4 s.h.
   - GEOL 1514 Life of Geological Past ............ 3 s.h.
   - GEOL 2602 Introduction to Oceanography .... 3 s.h.
   - GEOS 2620 Weather .................................. 3 s.h.
   - ASTR 1504 Descriptive Astronomy ............ 3 s.h.
   - ASTR 2609 Moon & Planets ....................... 3 s.h.

Select one from the following:
- GEOL 3713 Physical Evolution in North America ........................................ 4 s.h.
- GEOL 2615 Geol in the Environment ........... 3 s.h.
- ENST 2600 Foundation of Environmental Studies ........................................ 3 s.h.

Select one from the following:
- GEOL 3703 Human Impacts on the Environment ........................................ 3 s.h.
- GEOL 3730 Global Climate ......................... 3 s.h.
- GEOL 3737 Soils and Land Use .................... 3 s.h.

Then take three (3) remaining science fields of the following course sequences as secondary concentrations:

a. BIOLOGY
   BIOL 2601/L Principles of Biology & Lab ...... 4 s.h.
   BIOL 2602/L Principles of Biology 2 & Lab ...... 4 s.h.

Select 5 s.h. from the following:
- BIOL 3741 Animal Diversity ......................... 4 s.h.
- BIOL 3702 Microbiology ................................ 4 s.h.
- BIOL 3721 Genetics .................................... 3 s.h.
- BIOL 3762 Field Botany ................................ 4 s.h.
- BIOL 3780 Evolutionary Ecology .................. 5 s.h.
- BIOL 4890 Molecular Genetics .................... 3 s.h.
- BIOL 4890L Molecular Genetics Lab ............. 1 s.h.
- BIOL 3730 Human Physiology ...................... 5 s.h.

b. CHEMISTRY
   CHEM 1515 General Chemistry .................... 4 s.h.
   CHEM 1516 General Chemistry 2 .................. 4 s.h.
   CHEM 3719 Organic Chemistry 1 ................. 4 s.h.

Select one course from the following:
- CHEM 2604 Quantitative Analysis ............... 5 s.h.
- CHEM 3720 Organic Chemistry 2 ................. 4 s.h.
- CHEM 3785 Biochemistry 1 ........................ 3 s.h.

c. PHYSICS
   All of the following:
   PHYS 2608 Sound ..................................... 3 s.h.
   PHYS 2610 General Physics 1 .................... 4 s.h.
PHYS 2610L General Physics Lab 1 .................. 1 s.h.
PHYS 2611 General Physics 2 ............................. 4 s.h.
PHYS 2611L General Physics Lab 2 .....................1 s.h.

Select a minimum of 3 s.h. in Physics from the following:
PHYS 3701 Intermed Class Mech 1 .......................... 3 s.h.
PHYS 3702 Intermed Class Mech 2 .......................... 3 s.h.
PHYS 3704/L Thermo/Class Stat Mech .................... 4 s.h.
PHYS 3705/L Modern Physics ............................. 4 s.h.
PHYS 3722/L Advanced Optics Light .................... 4 s.h.
PHYS 4805 Undergrad Research .......................... 3 s.h.
PHYS 5890 Physics & Astronomy for Educators ................. 1-3 s.h.

**d. EARTH/SPACE SCIENCE**
GEOL 1505 Physical Geology ............................ 4 s.h.
GEOL 2602 Introduction to Oceanography ............ 3 s.h.
GEOG 2630 Weather ....................................... 3 s.h.
ASTR 1504 Descriptive Astronomy ............................. 3 s.h.

Select one of the following:
ENST 2600 Foundations of Environmental Study .......................................................... 3 s.h.
GEOL 2615 Geol in the Environment 1 ............... 3 s.h.
GEOG 3703 Human Impact on the Environment .............. 3 s.h.
GEOG 3730 Global Climate ........................................ 3 s.h.

**Professional education exception:** Candidates in this major are required to take TEMC 3707 (Science/Technology/Society).

**INTEGRATED SOCIAL STUDIES (7-12)**

Adolescent License

All of the following:
HIST 1511 World Civilization to 1500 ............... 3 s.h.
HIST 1512 World Civilization since 1500 ............. 3 s.h.
HIST 2605 Turning Points in US 1 ....................... 3 s.h.
HIST 2606 Turning Points in US 2 ....................... 3 s.h.
HIST 3748 History of Ohio ..................................... 3 s.h.
History Upper Division Elective ............................. 3 s.h.
History Upper Division Elective ............................. 3 s.h.
GEOG 2640 Human Geography ............................. 3 s.h.
POL 1560 American Government ............................ 3 s.h.
LASS 4805 Intr Social Science Seminar ............... 3 s.h.
ECON 2610 Principles 1 ....................................... 3 s.h.

Select one of the following:
SOC 1500 Introduction to Sociology ....................... 3 s.h.
ANTH 1500 Intro to Anthropology ......................... 3 s.h.

**Political Science**
ECON 2630
Sociology/Anthropology
Geography

**Four courses (12 s.h.) in two of the following disciplines total (24 s.h.):**

Political Science
ECON 2630
Sociology/Anthropology
Geography

**One course (3 s.h.) in two remaining (not taken in the above) disciplines: (6 s.h.):**

Political Science
ECON 2630
Sociology/Anthropology
Geography

**must include 12 s.h. of courses at upper division level. In Geography, a physical geography course may be selected.**

**ITALIAN (P-12)**

Multi-Age License

ITAL 1550 Elementary ........................................... 4 s.h.
ITAL 1550 Elementary is waived if student starts with 2600 Intermediate. An ITAL 3700 or 4800 level course must be substituted
ITAL 2600 Intermediate ........................................... 4 s.h.
ITAL 2600 Intermediate is waived if student starts with 2605 Advanced Intermediate. An ITAL 3700 or 4800 level course must be substituted

All twelve (12) courses listed below are required:
ITAL 2605 Advanced Intermediate (required for Admission to Teacher Education Program) ........................................... 3 s.h.
ITAL 3735 Civilization ........................................... 3 s.h.
ITAL 3720 Advanced Grammar and Composition (W) ........................................... 3 s.h.
ITAL 3725 Phonetics ........................................... 3 s.h.
ITAL 3730 Conversation (O) .................................... 3 s.h.
ITAL 3750 Literature of the 20th Century .............. 3 s.h.
ITAL 4800 “Risorgimento,” Romanticism, and Roma (1800-1860) ........................................... 3 s.h.

Professional education exception: Candidates in this major take MULT 4824 (Methods of Teaching P-12). In addition, they do not take SED 4800 (Reflective Teaching Methods).

Studying abroad in a Spanish-speaking country is highly recommended.

Note: Courses marked with * are taken only once when acquiring license in multiple languages.

Endorsement Programs

The Department of Teacher Education offers endorsement programs in some areas. These endorsements may be added to an existing teacher license, valid for teaching the subjects or learners named. Thus, endorsements are not majors and do not stand by themselves as areas of study. Individuals who complete an endorsement area are limited to the age and grade levels listed on the teacher license. Youngstown State University offers the following undergraduate endorsement areas:

  Early Childhood Generalist
  Middle Childhood Generalist

Advisement is provided by the academic advisors in the College of Education. See the curriculum advisement sheets for these endorsements in the College of Education academic advising office for additional information.
The College of Fine and Performing Arts

Bryan DePoy, Dean

The College of Fine and Performing Arts consists of the Department of Art, the Department of Communication, the Dana School of Music, and the Department of Theater and Dance.

The Art Department is accredited by the National Association of Schools of Art and Design and the Dana School of Music is a member of the National Association of Schools of Music. The National Association of Schools of Theatre accredits the Department of Theater and Dance.

The degrees granted are the Bachelor of Arts (B.A.), Bachelor of Fine Arts (B.F.A.), Bachelor of Music (B.M.). Majors are offered in applied music (performance), music education, art history, music history and literature, communication studies, studio art, telecommunication studies, theater, musical theater, music theory, or composition; and art education (in conjunction with the Beeghly College of Education).

The activities of the college are conducted primarily in the fine and performing arts center, Bliss Hall. This structure houses the administrative offices of the College as well as classrooms, studios, laboratories and performance areas serving most of the curricular and co-curricular programs in art, communication, theater, and music. Additional activities are held in

The College holds as its major objective the highest quality of instruction, including pre-professional training in areas such as studio art, applied music, communication studies, telecommunication studies, and theater; the training of teachers*; and the offering of a wide variety of courses to non-majors from all areas of the University.

Another important objective of the College is to provide the University community maximum opportunity for experiencing the fine arts.

*For the Institutional Report on the Quality of Teacher Preparation, Title II, Higher Education Act, please see Appendix B of this Bulletin.

Degree Requirements

High School Preparation

Please refer to the “High School Preparation” section in the front section of this Bulletin under Admissions.

Music majors will need to have sufficient musical performance ability to undertake college-level music courses. Voice majors will benefit from taking French, German, and/or Italian in high school.

Professional Courses

These are listed under the appropriate department or school curricula.

Fine and Performing Arts students pursuing the B.S. in Ed. degree should consult the Beeghly College of Education section of this catalog.

---

*This requirement is for voice majors only. Each student must take the equivalent of an introductory course (1550) in French, German, and Italian. Consult the Department of Foreign Languages and Literatures for information about the Foreign Language Placement Test.

**Students must complete the equivalent of intermediate study (2600) in one language. Consult the Department of Foreign Languages and Literatures for information about the Foreign Language Placement Test.
Additional Degree Requirements

- Upper-division status (including completion of any specified preparatory units lacking at entrance)
- Major and minor requirements
- Course-level requirements
- Point index requirement
- Residency requirement
- Completion of semester hours required for the degree
- Application for graduation

Courses of Instruction

Course descriptions can be found in a separate section in the back of this Bulletin.

DEPARTMENT OF ART
330-941-3627

Professors Chan, Moring, Moseley, Sarro, Zona; Associate Professors Adu-Poku, McCullough, Smith; Assistant Professors Christiansen, Crnjak, D’Uva, Gill, Nelson, Sperry.

The Department of Art offers courses which satisfy major requirements in art for the degrees of Bachelor of Fine Arts, Bachelor of Arts and Bachelor of Science in Education. These degrees may be earned in eight semesters if students average 16 hours per semester, with the exception of art education which requires nine semesters. The Department also offers a Museum Studies Certificate requiring 18 semester hours. The requirements for curricula and for graduation are in accordance with the published regulations of the National Association of Schools of Art and Design.

For the Bachelor of Fine Arts degree, the programs in studio art are designed to familiarize the student with the basic concepts in art and the language of visual form. Concentration is on the development and involvement of the student with the processes and practices of art. A minimum of 127 semester hours is required for the B.F.A. degree. Most B.F.A. students require four and a half years to complete the degree. Passing Art 1503, Foundation Portfolio Review, is required at the completion of the foundation sequence to continue in the program. In addition, B.F.A. students are required to exhibit in a senior show at the John J. McDonough Museum of Art. The curricula for studio art are listed below.

For the Bachelor of Arts degree, the curriculum in art history is listed below. The Art History major is required to complete a minimum of 127 semester hours in art history beyond the freshman level, plus 6 hours of studio art electives. In addition, Art History majors must complete 11 semester hours in a foreign language to include upper division.

A minimum GPA of 2.5 is required to transfer into a Department of Art degree program.

Students majoring in art who wish to qualify for licensure in Pre-K–12 art are required to complete a minimum of 66 semester hours, at least 15 of them in art history. These students, after completing two years of study with a point average of 3.0, may apply for admission to the Beeghly College of Education. (Other requirements for admission are listed under the College of Education section.) No minor is required for the special certificate.

Studio art credit for transfer students is awarded based on a combination of portfolio work and prior college credit. Transfer credit is not awarded solely on a listing of courses on a transcript except for state mandated transfer courses. Transfer students should make an appointment to show their portfolios.

Bachelor of Fine Arts Curricula

The areas of studio art emphasis for the B.F.A. degree are: general fine art, art and technology, graphic design, painting, photography, printmaking and spatial arts.

The general requirements for this degree are listed at the beginning of the College of Fine and Performing Arts section.

Please note that lab fees are charged for all studio classes which help pay for some supplies, lab assistants, software, and small equipment.

Learning Outcomes

The student learning outcomes for studio art are as follows:

- Students will demonstrate thorough knowledge of arts vocabulary.
- Students will demonstrate skills in communicating verbally and visually in their knowledge about the arts.
- Students will achieve the highest possible level of technical skills in the appropriate medium.
- Students will achieve the highest possible level of content expression in the appropriate medium.
- Students will demonstrate working knowledge of trends in general art history and theory with an emphasis in 20th century art.

English Literature, Music Literature, or Intro to Theater Arts ..................3 s.h.

Bachelor of Science in Education Visual Arts Pre-K–12*

Learning Outcomes

The student learning outcomes for visual arts Pre-K-12 are as follows:

• Students will demonstrate thorough knowledge of arts vocabulary.
• Students will demonstrate skills in communicating verbally and visually in their knowledge about the arts.
• Students will achieve the highest possible level of technical skills in the appropriate medium.

• Students will achieve the highest possible level of content expression in the appropriate medium.

• Students will demonstrate working knowledge of trends in general art history and theory with an emphasis in 20th century art.

• Students will demonstrate pedagogical skills and insights as they pertain to specific classroom needs.

• Students will demonstrate awareness and growth in confidence in teaching contemporary strategies while teaching the visual arts.

• Students will demonstrate skill in discriminating between creative (divergent) experiences and those that do not promote the artistic growth of the child (convergent).

DEPARTMENT OF COMMUNICATION
330-941-3631

Professors O’Neill, Owens; Associate Professor Crawford, Horvath (Chair), Mathews; Assistant Professors Curnalia, Earnheardt, Tyus; Instructors Jackson, Mermer.

The Department of Communication offers coursework which satisfies major requirements for the degree of Bachelor of Arts.

Bachelor of Arts

The Bachelor of Arts degree for communication studies, and telecommunication studies requires 38–40 credit hours within the department. For further information about the department, including meeting with a faculty member who will discuss the requirements with you, contact the department office, located in Bliss Hall, Room 2000. These degrees may be earned in eight semesters if students average 16 hours per semester.

COMMUNICATION STUDIES

Courses in this major provide students with the necessary communication skills for today’s job market and future career demands. Communication Studies courses address the universal emphasis placed on effective communication skills by employers and recruiters. The core curriculum of 17 credit hours includes courses covering these communication skills.

The curriculum is then divided into three unique tracks to better prepare students for a particular career. Each of the tracks is described below. Students interested in:

• human resources or management careers in profit or nonprofit organizations should consider the interpersonal / organizational track.

• a career path in media management, public relations, advertising, or computer-applications choose the media track.

• career goals of pharmaceutical, industrial, retail, or corporate sales, politics, or law school should choose the persuasion track.

The overriding goal of each track is to challenge each student to discover and study the many forms of communication.
Learning Outcomes

Regardless of track, students graduating with a Bachelor of Arts degree in communication studies will:

• Demonstrate an understanding of communication theories.
• Demonstrate basic competence in public speaking.
• Gain competence in group communication.
• Gain competence in interpersonal communication.

Students completing their degree in communication studies are uniquely qualified to enter the job market and compete effectively throughout their careers for advancement and promotion.

Through course offerings and applied learning experiences, the communication studies program combines a rich liberal arts emphasis with a much needed specialized professional and career focus for undergraduate students.

Admission Policy for Communication Studies

Students seeking to major in communication studies must enter the program through the pre-communication studies major. Requirements to enter the pre-communication studies major vary. (1) Entering freshmen may simply declare a pre-communication studies major. (2) Transfer students from outside the university must have a GPA of 2.00 and be in “good academic standing.” (3) Transfer students from another within the university must have a minimum GPA of 2.50.

The pre-communication studies major is designed to prepare students to succeed in the communication studies major by providing the necessary academic foundation. It provides students with the opportunity to evaluate their commitment to studying communication and demonstrate their ability to do so.

When pre-communication studies majors successfully complete all three of the following requirements, they may transfer to the communications studies major.

1. Complete CMST 1530, CMST 1545, and ENGL 1550 with a “B” average (GPA in these courses of 3.00).
2. Successfully complete a total of 25 semester hours of university level course work. (The three courses listed in #1 above plus 16 hours outside the Department of Communication.)
3. Have an overall GPA of 2.50 at Youngstown State University.

Students are expected to meet with their communication studies faculty advisor prior to registration and are encouraged to meet with them whenever they have questions or concerns, and to monitor progress. The faculty advisor will certify the completion of the pre-communication studies requirements by signing the completion form. The student should then take the signed form to the Department of Communication, Bliss Hall 2000, and complete an Intra-University Transfer form to change her or his major to communications studies.

Bachelor of Arts Degree in Communication Studies

Students majoring in communication studies must successfully complete all core courses and one of the specified tracks for a total of 38-40 semester hours.

TOTAL.................................................................. 21 s.h.
Students must complete 18 s.h. of 3000- and 4000-level courses in the CMST major. Students must also complete all requirements for a Bachelor of Arts degree, including the completion of an approved academic minor.

Students seeking a degree in communication studies through an evening program should consult with the department chair to determine if it is possible.

Minor in Communication

Students interested in improving their communication skills beyond CMST 1545 should consider the communication studies minor. The core of the minor focuses on developing competent communication skills desired by today’s employers and recruiters – interpersonal communication, working in groups, listening, and public speaking.

To complete the minor in communication studies, a student must successfully complete 18 s.h.. The combination of hours is described below.

Both of these courses:

- CMST 1530 Communication Theory ............3 s.h.
- CMST 3756 Interviewing ................................3 s.h.

TOTAL .................................................................. 6 s.h.

Three of the following courses:

- CMST 2645 Presentational Speaking .............3 s.h.
- CMST 2653 Group Communication ..............3 s.h.
- CMST 2656 Interpersonal Communication ..3 s.h.
- CMST 2657 Organizational Communication .. 3 s.h.

9 s.h.

One of these courses:

- CMST 4855 Interpersonal Communication Relationships ................3 s.h.
- CMST 4859 Organizational Cultures .............3 s.h.
- CMST 5852 Conflict Management ...............3 s.h.

3 s.h.

GRAND TOTAL ............................................... 18 s.h.

TELECOMMUNICATION STUDIES

A major in the telecommunication studies curriculum provides in-depth knowledge and intellectual challenge in electronic communication. Students receive practical orientation to the skills and techniques of broadcasting. Further, they explore contemporary theories and problems which are central to telecommunications media, as well as examine new communication media.

From a liberal arts perspective, the telecommunication studies curriculum is designed to aid the student in pursuit of careers not only in broadcasting but also in recently expanding avenues of communication such as non-commercial broadcasting, corporate communications, industrial communications, cablecasting, and independent production. Internships are available in media organizations to students of superior academic achievement.

Learning Outcomes

The student learning outcomes for the major in telecommunication studies are as follows:

- The student will construct well reasoned arguments, avoiding fallacies.
- The student will demonstrate the ability to use technology to communicate messages.
- The student will design and create competent written, visual, and oral messages.
- The student will collaborate effectively as part of a group or team.
- The student will assess the values, attitudes, and goals of a potential audience and plan messages designed to appeal to these demographic and psychographic variables.
- The student will analyze and evaluate the prevailing theories of electronic media and appraise the relative value of each.

Admission Policy for Telecommunication Studies

When students declare an intent to major in telecommunication studies, they will be assigned to the “Pre-Telecommunication” (Pre-TCom) category. Upon completion of 30 semester hours with a GPA of 3.0 or higher (4.0 scale) for courses taken while in the Pre-TCom category, students will be reassigned to “Telecommunication Studies” (TCom). These 30 hours must include satisfactory completion of the course TCom 1500 (Orientation).

Students may transfer to the Pre-TCom, but not TCom, category from another program at YSU or from another institution. Upon completion of 30 semester hours with a GPA of 3.0 or higher for courses taken while in the Pre-TCom category, students will be reassigned to TCom.

Students who have interrupted their attendance at YSU for three consecutive semesters or more will be assigned to the Pre-TCom category upon their return. After completing 30 semester hours with a GPA of 3.0 or higher for courses taken while in the Pre-TCom category, they will be reassigned to TCom.

THE DANA SCHOOL OF MUSIC

Professors Ausmann, Crist (Director), Funk, Gage, Gelfand, Krummel, Mosher, Oltmanns, Perkins, Rollin, Slocum, J. Umble, Wilcox; Associate Professors Engelhardt, Lee, Morgan, Rudnytsky, Schaft, Yun; Assistant Professors Boczkowska, Fowler, Kiser, Reale, Root, K. Umble, Wang; Instructor Goldberg, Wolfgang.

The Dana School of Music began in 1869 as Dana's Musical Institute in Warren, Ohio. It was merged with Youngstown College in 1941.

The School complements the general objectives of the University by providing intensive professional training in music based on a thorough understanding of the fundamental skills and theory upon which all music rests and also providing an opportunity for the non-music major to develop a background of musical knowledge.

The requirements for entrance and for graduation are in accordance with the published regulations of the National Association of Schools of Music, of which the Dana School of Music is a member.

Learning Outcomes

The student learning outcomes for the major in music are as follows:

- Students will demonstrate proficiency on a voice or instrument.
- Students will demonstrate an understanding of music theory including, but not limited to: harmony, form, sight singing, and dictation.
- Students will demonstrate an understanding of the various historical periods including styles, composers, performance media, and performance practice.
- Students will demonstrate basic keyboard proficiency including scales, chords, transpositions, and modulations.

Programs

The curriculum may be divided into six components: music education, music theory, music history, performance, music recording, and liberal arts. Courses are available leading to the degree of Bachelor of Music with the major in piano, organ, voice, standard string or wind instruments, percussion, composition, and music education. In addition, it is possible to obtain the degree of Bachelor of Arts with majors in music history, music theory, or applied music and a Bachelor of Music degree with emphasis in Music Recording.

In cooperation with the College of Education, the music education program prepares students for licensure as music teachers in the public schools and also provides other courses necessary for general elementary teaching certificates. Music education students have a variety of opportunities for observation and practice teaching through excellent cooperation between the University and area schools.

Facilities

The Dana School is one of four departmental units in the College of Fine and Performing Arts. The School is housed in Bliss Hall, which provides practice rooms, faculty studios, classrooms, rehearsal rooms and a recital hall with a seating capacity of 237. Additional use is made of Stambaugh and Powers auditoriums.

Equipment

Equipment includes 92 Steinway pianos, 30 MIDI pianos, harpsichords by Dowd, two Schlicker pipe organs, three Flentrop pipe organs, Consorts of Renaissance wind and brass instruments, and a comprehensive collection of standard band and orchestral instruments.

Many University-owned instruments are available for use by students enrolled in related courses. There is no charge for use of these instruments, although failure to comply with check-in deadlines will result in a $5.00-a-day fine or replacement for each instrument.

MIDI Lab

Bliss Hall offers students the opportunity to work with state-of-the-art music computer software and hardware, including advanced music notation, music sequencing (composition/arranging) and automatic accompaniment applications. The Center features Macintosh workstations, each fully MIDI-equipped.

Electronic Music Laboratory

The Dana Electronic Music Laboratory is equipped with sophisticated hardware and software offering the advanced student of music technology the oppor-
tunity to experience such applications as hard-disk recording, sampling, digital editing, and advanced sequencing.

**Music Recording Studio**

The Dana Recording Studio is equipped with state-of-the-art analog to digital equipment. The 32-track studio features a G5 Mac computer running Digital Performer.

**Libraries**

The school's extensive libraries of band, orchestral, and choral music represent musical periods from the Renaissance to the present. Maag Library contains books, printed music, records, CDs, videos, and CD ROMs.

**Scholarships and Loans**

The Dana School of Music offers a wide range of scholarships, which are awarded, after competitive auditions, on the basis of talent and academic achievement. Applications should be submitted to the Director of the Dana School of Music. For other scholarships, see Loans and Scholarships in the Scholarships and Financial Aid section.

**Musical Activities**

The Dana School of Music supplements the concerts offered by community ensembles with the Dana Concert Series. This series brings to the University and to the public artistic solo and ensemble programs featuring faculty members and guest artists, composers, and musicologists.

The School has numerous performing ensembles: the Dana Chorale, the University Chorus, the Wind Ensemble, the Concert Band, the Marching Band, Dana Symphony Orchestra, Opera Workshop; the Jazz Ensemble; Woodwind, Brass, String and Percussion Ensembles; the Chamber Orchestra; and the Early Music and Composer's Ensembles.

**Student Activities**

Music students may participate in all Youngstown State University student activities. Of special interest to music students are the student chapters of the Ohio Collegiate Music Educators Association, Early Music Society, New Music Society, Dana Opera Society, the Jazz Society, Phi Mu Alpha and Sigma Alpha Iota.

**Fees**

See the Fees and Expenses section of this Bulletin.

**Application and Admission Examinations**

An applicant for admission to the Dana School of Music must satisfy the general requirements for admission to the University (see the Admission section).

Applicants are required to pass entrance auditions in their performance area and to take placement examinations in music theory and piano. These auditions and examinations are on announced dates preceding the commencement of classes in the fall.

**Admission to Courses for the Degree of Bachelor of Music**

The applicant's high school courses should include the preparatory courses specified under High School Preparation on p. 12 of this Bulletin.

**Musical Proficiency**

It is expected that the applicant will have developed a certain proficiency in one or more branches of applied music before entering the University, as certain standards in technique and repertory must be met. Qualifications are determined by the placement tests mentioned above; the student not qualifying for the first regular course in a major branch of applied music must take preparatory work until ready to undertake the regular courses.

The Dana School of Music theory placement examination is used to determine theory proficiency. Those scoring less than the 80th percentile will be assigned to Music 1520, while those scoring above the 80th percentile will be assigned to Music 1531.

Prospective composition majors must present evidence of ability to handle the materials of music by placing at or above the 80th percentile of the Dana School of Music theory entrance examination. Proficiency on a musical instrument sufficient for admission to the freshman level of applied music must be demonstrated before the appropriate applied faculty.

**Admission from Other Institutions**

The general policy is stated in the Academic Policies and Procedures section. Advanced standing in musical performance and in music theory is granted tentatively and must be validated by examinations.

**Requirements for the Degree Bachelor of Music**

It is the student's responsibility to see that all the graduation requirements for the degree sought are satisfied. These degrees may be earned in eight semesters if students average 16-18 hours per semester. For the Bachelor of Music degree, these consist of:

1. **Pre-college or preparatory study, of two kinds:**
   
   A. Academic. The specific courses are listed on p. 12 of this Bulletin. These courses are normally taken in high school. Deficiencies must be overcome prior to completing 60 semester hours at YSU.
   
   B. Musical. An entrant lacking suitable proficiency must develop it before undertaking the required college-level music courses.
2. University requirements. Non-music courses and other requirements to be completed in the University are listed in the Degree Requirements chart at the beginning of the College of Fine and Performing Arts section.

3. Degree requirements. Curricula leading to music degrees require from 126 to 136 semester hours of credit and are designed to be completed in four academic years.

Double Major: Music Performance and Music Education

Students who wish to complete a major (Bachelor of Music degree) in an instrument or in voice, theory, or composition, and also a major in music education, should consult the director of the Dana School of Music.

While the Dana School of Music offers a variety of degrees and majors in music, it is our desire that all music students have significant musical experiences as a foundation for more specialized training.

CURRICULA

For All Music Majors

Acceptance into a performance area is contingent upon an audition. The student not qualifying for Music 1501 may take the relevant course 1500 until the deficiency is corrected.

Advanced standing in performance may be granted tentatively after an examination given by members of the faculty. The final classification is made at the end of the first semester of resident study.

Enrollments in applied music are contingent upon the approval of the director of the Dana School of Music, with priority given to full-time music majors and music minors participating in major ensembles.

Teacher Assignment. Assignment of students to teachers is made by the area coordinator. Requests for change of teacher should be addressed to the coordinator in writing. A student's choice of teacher will be respected as far as possible, but final assignment rests with the director of the School of Music.

Lessons. Students registered for 4 s.h. courses receive individual instruction and one 50-minute seminar weekly. They are required to practice three hours daily. Students registered for 2 and 3 s.h. courses receive individual instruction and one 50-minute seminar weekly; they are required to practice two hours daily. Students registered for A and B applied courses receive individual instruction for 30 minutes each week and are required to practice one hour daily.

No credit will be given in a performance course if the student misses more than three lessons in any semester. Lessons missed due to legal holidays or school closings will not be made up. In case of prolonged illness the lessons may be made up at the discretion of the teacher.

Recitals. Recognizing that performing before an audience plays a vital role in musical development, the Dana School offers its students many opportunities to appear in public as a way to foster that development. Attendance at 30 recitals is mandatory in the first two years.

Convocation. The assistant director of the School arranges weekly programs of lectures, student and faculty performances. Attendance at 36 convocations is mandatory in the first two years.

Young Artist Competition. An annual concert by the Dana Symphony Orchestra features student soloists chosen by competition.

Degree and Non-degree Recitals. Each candidate for the degree Bachelor of Music must present a senior recital in partial fulfillment of the graduation requirements. Performance majors must present a half-hour recital their junior year and a one-hour recital their senior year. Composition majors must present 75 minutes of music, and music education majors a half-hour recital of music. Outstanding students may present non-degree recitals, subject to certain conditions (for particulars, consult the coordinator of the Dana Concert Series). Planning for all these recitals should include selection of varied and balanced repertory, preparation of properly detailed copy for the printed program and program notes, and consideration of performance aspects such as attire, stage deportment, and ways to attract an audience. A recital hearing will be held no later than 21 days prior to the projected recital date. During that time a student who plans to present a degree recital must be prepared to perform the recital program for faculty approval.

All students registered for major-level applied lessons must attend weekly seminars as posted in the schedule of classes.

Examinations. During examination week of each term, performance faculty members convene to determine whether or not students may proceed to the next higher proficiency level (performance course number). Frequency of required examinations differs among the various performance areas (for specifics consult the syllabus of the performance area concerned). Transfer students are examined at the end of their first or second term of study, as established by the individual performance area. Students presenting an approved degree recital may be granted a waiver of examination for the term of the recital. Students may be retained in the same proficiency level with a grade of C or lower or with a grade of PR. Students who fail to meet the standards of the examining faculty may be required to reduce the number of credits for which they register in subsequent terms; or they may be required to withdraw completely from the course sequence.

Each applied area (keyboard, brass, etc.) may vary the above to meet certain needs. Consult with area coordinator for details.
Jazz or Applied/BA Major

The following courses differ only in degree from those listed under Performance Major according to the credit hours earned. (See courses Applied Studio Instruction for specific requirements.) A high standard of proficiency is expected. For the jazz major, junior and senior recitals are required.

1501, 1502. See Performance Major 2+2 s.h.
2603, 2604. See Performance Major 3+3 s.h.
3703, 3704. See Major/Performance 3+3 s.h.
4803, 4804. See Major/Performance 3+3 s.h.

Music Education Major

The following courses differ only in degree from those listed under Performance Major according to the credit hours earned. (See courses Applied Studio Instruction for specific requirements.) Concentration in the development of basic technics relative to teaching in the elementary and secondary school systems is an integral component of study. A high standard of proficiency is expected. Senior recital required. This degree may be earned in eight semesters if students average 17 hours per semester.

1501, 1502. See Performance Major 2+2 s.h.
2601, 2602. See Performance Major 2+2 s.h.
3701, 3702. See Performance Major 2+2 s.h.
4801. See Performance Major 2 s.h.

Music Minor

The following courses are for the student who has a requirement of study on a secondary instrument or voice or who does not meet the standards required in the major courses. No seminar is required. Initial enrollment is contingent upon successful completion of an audition.

1500 A,B 1+1 s.h.
2600 A,B 1+1 s.h.
3700 A,B 1+1 s.h.
5800 A,B 1+1 s.h.

ENSEMBLES

There are two types of ensembles in the Dana School of Music—large ensembles and chamber ensembles. Large ensembles rehearse a total of three or four hours per week, and chamber ensembles for two hours per week.

All music majors (except guitar, organ, and piano performance majors) are required to participate in a large ensemble each semester in which they are enrolled in applied music.†

Large Ensembles
Course Number Cr. Hrs.
0002 Dana Chorale ............................................. 0-1 s.h.

Chamber Ensembles

0009 Percussion Ensemble ..................................... 0-1 s.h.
0010 String Ensemble ..................................... 0-1 s.h.
0012 Opera Workshop ...................................... 0-3 s.h.
0013 Studio Ensemble ...................................... 0-1 s.h.
0014 Women’s Chorus ...................................... 0-1 s.h.
0015 Early Music Ensemble ................................ 0-1 s.h.
0016 Flute Ensemble ..................................... 0-1 s.h.
0017 Brass Ensemble ..................................... 0-1 s.h.
0018 Horn Choir ........................................... 0-1 s.h.
0019 Trombone Ensemble ................................ 0-1 s.h.
0020 Tuba Ensemble ..................................... 0-1 s.h.
0021 Brass Chamber Ensemble ............................. 0-1 s.h.
0022 Trumpet Ensemble ................................... 0-1 s.h.
0024 Composer’s Ensemble ................................ 0-1 s.h.
0026 Chamber Orchestra ................................ 0-1 s.h.
0028 Chamber Winds ...................................... 0-1 s.h.
0029 Guitar Ensemble ..................................... 0-1 s.h.
0030 Jazz Combo .......................................... 0-1 s.h.
0035 Saxophone Quartet ................................... 0-1 s.h.
0036 Clarinet Choir ......................................... 0-1 s.h.
0041 Basketball Pep Band (spring only) ............... 0-1 s.h.
0051 Piano Chamber Ensemble ........................... 0-1 s.h.

Ensemble courses are open to all students in the University who are qualified for them and any ensemble course may be repeated any number of semesters.

Requirements in addition to the above but unique to each ensemble:

• Opera workshop 0012 culminates in the production of one or more operas. Credit is given in accordance with the amount of work chosen by the student, ranging from one to three semester hours.

• Woodwind and brass ensembles may include quartets, quintets, and various other combinations of instruments. 1 s.h. each.

### DEPARTMENT OF THEATER AND DANCE

330-941-3810

*Professors Castronovo (Chair), Henneman, Murphy; Associate Professors Cobb, Shanabarger; Instructor Wolfgang.*

The Department of Theater and Dance offers coursework leading to the Bachelor of Arts degree in theater studies, or the Bachelor of Fine Arts degree in theater or musical theater. Minors in dance and theater are also available.

All theater programs are fully accredited by the National Association of Schools of Theatre.

### Learning Outcomes

The student learning outcomes for the major in theater are as follows:

- **Public Performances.** Students effectively participate in the creation and presentation of public performances in the theater.

- **Visual and Aural Perceptions.** Students develop visual and aural perceptions related to theater performances and students develop a structured approach to the uses of language in playwriting and the resulting script.

- **Basic Production Process.** Students demonstrate competence in basic production processes such as acting, directing, stage, costume and lighting design, and basic technical operations related to productions.

- **Theater Techniques.** Students demonstrate competence in a number of theater techniques.

- **Understanding of History and Cultural Dimensions.** Students demonstrate understanding and familiarity with the historical and cultural dimensions of theater, including the works of leading playwrights, actors, directors, and designers, both past and present.

- **Evaluating Contemporary Thinking About Theater.** Students demonstrate competence in understanding and evaluating contemporary thinking about theater.

- **Making Informed Assessments of Quality.** Students demonstrate skill in making informed assessments of the quality of works of theater.

### B. A. in THEATER STUDIES

The Bachelor of Arts in theater studies combines an array of liberal arts coursework with extensive practical training in the techniques of theater production. Students work closely with their instructors in the classroom as well as in laboratory settings. As with any liberal arts degree, the B.A. is primarily designed to provide students with a broad general education, but its location in a department of theater also provides special opportunities to develop production/performance skills, as well. This degree program is fully accredited by NAST, The National Association of Schools of Theatre.

One of the following:

- THTR 3763 Scene Design .......................................3
- THTR 3765 Lighting Design .....................................3

Plus 9 credits of theater or dance electives, a minor, and a foreign language.

Bachelor of Fine Arts in Theater

The Bachelor of Fine Arts in Theater is designed to provide intensive training, preparing students for careers in the professional or academic theater. It is fully accredited by NAST, the National Association of Schools of Theatre, and admission to this program is available by audition/interview only. Students admitted to this B.F.A. program will combine a basic foundation of general studies with an extensive selection of performance-oriented coursework (acting, directing, design and dance) and participation in the co-curricular production activities of the Department. This degree may be earned in eight semesters if students average 16 hours per semester. Retention in the program is contingent upon an annual progress review presented by each student.

Requirements for a B.F.A. in Theater:

- THTR 2690 Oral Interpretation.............................3
- THTR 3762 Directing 1..............................3
- THTR 3768 Script Analysis.................................3
- THTR 4891 Theater History to 1700........................3
- THTR 4860 Theater History after 1700....................3
- THTR 4899 Topics in Theater ................................3
- THTR 4898 Senior Project ..................................3

Two of the following three:

- THTR 3763 Scene Design .....................................3
- THTR 3765 Stage Lighting ....................................3
- THTR 3769 Costume Design ................................3

Plus either

- THTR 3791 Rehearsal & Performance (taken twice).....6

Plus

- THTR 4891 Theater History to 1700.......................3
- THTR 4860 Theater History after 1700....................3
- THTR 4899 Topics in Theater ................................3
- THTR 3764 History of Stage Costume .....................3
- THTR 3768 Script Analysis ....................................3
- THTR 4898 Senior Project ..................................3

Plus 12 credits from:

- THTR 1563 Costume Construction ........................3
- THTR 2670 Oral Interpretation ............................3
- THTR 4863 Acting 3: Styles ..................................3
- THTR 4870 Acting 4: Acting on Camera ....................3
- THTR 4899 Topics in Theater ..............................3
- THTR 5864 Directing 2 .......................................3

Bachelor of Fine Arts in Musical Theater

The Bachelor of Fine Arts in Musical Theater is designed to provide intensive training, preparing students for professional careers as actor/singers. It is fully accredited by NAST, the National Association of Schools of Theatre, and admission to this program is available by audition/interview only. This degree may be completed in eight semesters if students average 16 hours per semester. Retention in the program is contingent upon an annual progress review presented by each student.

Requirements for a B.F.A. in Musical Theater:

- THTR 1500 Auditions and Portfolios .....................1
- THTR 1512 Survey of Musical Theater ....................3
- THTR 1559 Play Production ................................3
- THTR 1561 Stagecraft .......................................3
- THTR 2668 Acting 1: Fundamentals .......................3
- THTR 2662 Practicum in Theater ..........................3
- THTR 2664 Musical Theater Lab (taken twice) 1+1
- THTR 3761 Makeup .............................................3
- THTR 3762 Directing 1 .......................................3
- THTR 3767 Voice for the Actor .............................3
- THTR 3766 Stage Combat ....................................3
- THTR 3791 Rehearsal & Performance ......................3
- THTR 4891 Theater History to 1700 .......................3
- THTR 4860 Theater History after 1700 ....................3
- THTR 3764 History of Stage Costume .....................3
- THTR 4898 Senior Project ..................................3

Plus 6 credits from:

- THTR 1563 Costume Construction .........................3
- THTR 4870 Acting 4: Acting on Camera ....................3
- THTR 4863 Acting 3: Styles ..................................3
- THTR 4893 Independent Study ..............................1-3
- THTR 2670 Oral Interpretation ............................3
- THTR 4899 Topics in Theater ..............................3
- THTR 5864 Directing 2 .......................................3

Plus 16 credits of Applied Voice

Plus 2 credits of Applied Keyboard

Plus 6 credits of Music Theory

Plus 2 credits of Vocal Ensemble

Plus 5 credits in movement taken from:

- DNCE 1570 Tap and Jazz ....................................1
- DNCE 1572 Ballet 1 ..........................................1
- DNCE 1540 Modern Dance 1 ...............................1
- DNCE 1541 Modern Dance 2 ................................2

- DNCE 3767 Choreography for Musical Theater .......2
- HPES 1557 Weight Training .................................1

Undergraduate Bulletin

Plus 16 credits of Applied Voice

Plus 2 credits of Applied Keyboard

Plus 6 credits of Music Theory

Plus 2 credits of Vocal Ensemble

Plus 5 credits in movement taken from:

- DNCE 1571 Tap and Jazz 2 .................................2
- DNCE 3767 Choreography for Musical Theater .......2
- HPES 1514 Fencing 1 ........................................1
MINOR IN THEATER

To complete a minor in Theater, a student must take a minimum of 18 hours as described below:

All of these (9 hrs.):
THTR 1559 – Play Production (3)
THTR 1561 – Stagecraft (3)
THTR 2668 – Acting 1: Fundamentals (3) (Certified GENED Oral Intensive)

Two Theater Production Courses (6 hrs.), taken from:
THTR 3761 – Makeup (3)
  Prereq: THTR 1559 or Permission of Instructor
THTR 3762 – Directing 1 (3)
  Prereq: THTR 1559 or Permission of Instructor
THTR 3769 – Costume Design (3)
  Prereq: THTR 1559 or Permission of Instructor
THTR 3763 – Scene Design (3)
  Prereq: THTR 1559 and 1561, or Permission of Instructor
THTR 3765 – Lighting Design (3)
  Prereq: THTR 1559 and 1561, or Permission of Instructor

One Theater Support Course (3 hrs.) taken from:
Theater 4891 – Theater History to 1700 (3) (Certified GENED Substitute, A&E)
  Prereq: 9 hrs. of THTR course work and Junior Standing
Theater 4860 -Theater History from 1700 (3) (Certified GENED Substitute, A&L)
  Prereq: 9 hrs. of THTR course work and Junior Standing

MINOR IN DANCE

To complete a minor in dance a student must complete a minimum of 23 hours of coursework as described below:

Required Courses
One-third of the dance minor (7 credit hours) must be 3000 level or above.

DNCE1540 Modern Dance 1*.................................1
DNCE1541 Modern Dance 2..................................2
DNCE1542 Dance Composition.................................1
DNCE1550 Wellness for Actors and Dancers .............1
DNCE1570 Tap and Jazz 1* ...................................1
DNCE1571 Tap and Jazz 2......................................2
DNCE1572 Ballet 1* ...........................................1
DNCE1573 Ballet 2...............................................2
DNCE2698 Survey of Dance ..................................3
THTR 3791 Rehearsal and Performance ..................3
DNCE4892 Pedagogy of Dance Technique...............3
  or
DNCE3767 Choreography for Musical Theater ...2

Plus a minimum of 3 or 4 additional credit hours selected from the following, depending on whether one takes DNCE 4892 or DNCE 3767:

DNCE2606 Creative Dance for the Child...............1
DNCE2680 Tap Dance 3.................................1
DNCE3751 Modern Dance 3.................................2
DNCE3770 Jazz Dance 3.................................2
DNCE3781 Ballet 3...........................................2
DNCE4871 Jazz 4............................................2
DNCE4881 Ballet 4...........................................2

*All dance minors are required to demonstrate proficiency at level 2 in modern, tap and jazz, and ballet technique. Level-one technique classes may be waived for students with more advanced technical proficiency.

Professional Societies

Alpha Psi Omega

The Department of Theater and Dance is a member of Alpha Psi Omega, the National Honorary Dramatics Fraternity. Students may become members of the local chapter by (1) achieving the prescribed cumulative grade average, and (2) earning a prescribed number of points through participation in dramatic activities. Membership requires sophomore standing.
In support of the University mission to provide a wide range of educational opportunities in higher education, The Dr. Dominic A. and Helen M. Bitonte College of Health and Human Services assumes a broad focus. That focus entails preparing students for competent practice in positions in both the health and human service professions. The College is committed to excellence in education through the quality programs it provides. To assure continuity and opportunity for health and human service majors, the College has encouraged the development of two-plus-two curricula in several majors that allow students to efficiently progress from associate to baccalaureate degree program completion. Master’s degree programs further expand and advance the competencies of graduates in the delivery and administration of health care and human services.
Accreditation

— The emergency medical technology (EMT), medical assisting technology, and respiratory care programs are accredited by the Commission on Accreditation of Allied Health Education Programs. The EMT program is also accredited by the Ohio Department of Public Safety-Division of EMS.

— The dental hygiene program is accredited by the American Dental Association Commission on Dental Accreditation.

— The clinical laboratory technology, clinical laboratory science, and histotechnician programs are accredited by the National Accrediting Agency for Clinical Laboratory Sciences.

— The Bachelor of Science in respiratory care and polysomnography certificate programs are accredited by the Commission on Accreditation for Respiratory Care.

— The dietetic technology program, the coordinated program in dietetics, and the didactic program in dietetics are approved by the Commission on Accreditation for Dietetics Education.

— The Department of Human Ecology is accredited by the American Association of Family and Consumer Sciences.

— The health education, physical education, and family and consumer sciences education programs are accredited by the National Council for Accreditation of Teachers Education.

— The Bachelor of Science in Nursing program is accredited by the National League for Nursing Accrediting Commission and approved by the Ohio Board of Nursing Education and Nurse Registration.

— The nursing home administration program is approved by the State of Ohio Board of Examiners of Nursing Home Administrators.

— The physical therapy program is accredited by the Commission on Accreditation in Physical Therapy Education.

— The social work program is accredited by the Council on Social Work Education.

Organization/Majors

The Bitonte College of Health and Human Services consists of eight departments: Criminal Justice and Forensic Sciences, Health Professions, Human Ecology, Human Performance and Exercise Science, Military Science, Nursing, Physical Therapy, and Social Work. In cooperation with the College of Education, Community and School Health provides a health education major, Human Performance and Exercise Science provides a physical education major, and Human Ecology provides a family and consumer sciences major. The College offers Air Force Reserve Officer Training Corps (AFROTC) through an agreement with Kent State University. Graduate courses are offered by the Departments of Human Ecology and Social Work. The Department of Criminal Justice and Forensic Sciences offers a master’s degree, the Department of Nursing offers a master’s degree in nursing, and the Department of Health Professions offers a Master in Health and Human Services degree. The Northeastern Ohio Universities Master of Public Health program operates through a partnership of YSU, The University of Akron, Cleveland State University, Kent State University, and Northeastern Ohio Universities College of Medicine (NEOUCOM).

The eight departments are listed below with their associate (A) and baccalaureate (B) offerings and (M) master’s offerings. Students whose needs are not completely met by existing conventional programs may wish to investigate and apply for the Individualized Curriculum Program (see the Academic Policies and Procedures section).

Department of Criminal Justice and Forensic Sciences
  - Basic Peace Officer Training Academy (Certificate)
  - Criminal Justice and Forensic Sciences (AAS, BSAS, MS)
  - Forensic Science (BSAS)
  - Master of Public Administration (MPA)

Department of Health Professions
  - Allied Health (BSAS)
  - Clinical Laboratory Technology (AAS)
  - Clinical Laboratory Science (BSAS)
  - Dental Hygiene (AAS)
  - Emergency Medical Technician—Basic (Certificate)
  - Emergency Medical Technician—Paramedic (Certificate)
  - Emergency Medical Technology (AAS)
  - Health and Human Services (MHHS)
  - Healthcare Management (Graduate Certificate)
  - Histotechnician (AAS)
  - Medical Assisting Technology (AAS)
  - Medical Coding (Certificate)
  - Polysomnography (Certificate)
  - Public Health (MPH)
  - Respiratory Care (BSRC)
  - School Health Education (BSEd)

Department of Human Ecology
  - Dietetic Technician (A)
  - Family and Consumer Sciences Education (BSEd)
  - Family and Consumer Studies (BSAS)
  - Food and Nutrition (BSAS)
  - Hospitality Management Technology (AAS, BSAS)
  - Merchandising: Fashion and Interiors (BSAS)
  - Pre-Kindergarten Associate (AAS)

Department of Human Performance and Exercise Science
  - Exercise Science (BSAS)
  - Physical Education (BSEd)
  - Physical Education - non-teaching (BA)
Department of Military Science
Military Science (minor only)
††† Army ROTC program

Department of Nursing
† Nursing (BSN, MSN)
† School Nurse Licensure

Department of Physical Therapy
† Physical Therapy (DPT)

Department of Social Work
Social Services Technology (AAS)
† Social Work (BSW, MSW)
Nursing Home Administration (BSAS)

Aerospace Studies Program
††† Air Force ROTC program

*This degree is made available at Cuyahoga Community College and Lorain County Community College in addition to the YSU campus offerings.

**For the Institutional Report on the Quality of Teacher Preparation, Title II, Higher Education Act, please see Appendix C of this Bulletin.

†Restricted admission; see department for further information.

††In collaboration with the Beeghly College of Education, for the B.S. in Ed. degree.

†††ROTC students are allowed certain modifications of the requirements, as explained in the Military Science section. ROTC programs are offered in agreement with Kent State University.

•In collaboration with the College of Liberal Arts and Social Sciences and the College of Science, Technology, Engineering, and Mathematics.

••Through Cleveland State University.

It is the student's responsibility to satisfy all the graduation requirements for the degree sought. These consist of:

1. The pre-college or preparatory courses for each degree as covered in the Academic Policies and Procedures section.

2. The courses and other requirements to be completed in the University as explained in the Academic Policies and Procedures section.

3. The specific curriculum requirements of a given program.

Course descriptions can be found in a separate section in the back of this Bulletin.

DEPARTMENT OF CRIMINAL JUSTICE AND FORENSIC SCIENCES
330-941-3279

Professor Pierce; Associate Professor Hazy; Assistant Professors Frissora, Onwudieze, Wagner (Chair); Instructors Bellas, Wardle.

Youngstown State University offers two undergraduate programs in Criminal Justice and Forensic Sciences: a two-year program in Criminal Justice and Forensic Sciences leading to the degree Associate in Applied Science and a four-year program leading to the degree Bachelor of Science in Applied Science with a major in Criminal Justice and Forensic Sciences. The four-year degree is built upon a core-track concept with emphasis (track) areas in law enforcement, corrections, legal processes, and loss prevention/assets protection.

The department also offers eight (8) minors in several emphasis areas.

In each undergraduate area and certificate program, a grade of C or better must be received in each required Criminal Justice and Forensic Sciences course.

A graduate program is also available leading to the Master of Science degree in Criminal Justice and Forensic Sciences. Refer to the Graduate Bulletin for details.

For life experience credit in Criminal Justice and Forensic Sciences, please see department for information.

Learning Outcomes
The student learning outcomes for majors within the Criminal Justice and Forensic Sciences Department are as follows:

- Students will identify the key aspects to the elements of law (Certificate in Basic Police Training and job preparation).
- Students will develop knowledge about criminological theories and public policy practices (legal, economic, and social) that influence the American Criminal Justice and Forensic Sciences system (Associate in Applied Science degree in Criminal Justice and Forensic Sciences).
- Students will communicate their knowledge about criminological theories and public policy practices (legal, economic, and social) that influence the institutions of the American Criminal Justice and Forensic Sciences system through details of its subsystems—policing, courts, and corrections (Bachelor of Science in Applied Science in Criminal Justice and Forensic Sciences).
- Students will understand the basic principles of the scientific disciplines (i.e. chemistry and biology) included in their curriculum. (Bachelor of Science in Applied Science in forensic science).

Admission Policy
Students wishing to transfer into the Department of Criminal Justice and Forensic Sciences must have a cumulative GPA of at least 2.0. Note: individuals with a felony, drug, and/or domestic violence conviction will experience difficulty gaining employment in the criminal justice and forensic sciences or forensic science field. Students with misdemeanor convictions should seek advice from an advisor in the Criminal Justice and Forensic Sciences program. Students with juvenile sex offense convictions should also seek advice.
Retention Policy

The Department of Criminal Justice and Forensic Sciences expects its majors and students enrolled in its courses to engage in legal, ethical, professional, and civil behavior which respects the rights of all persons. Disruptive and inappropriate behavior (as defined in department, college, or University policy) may lead to removal from, or non-acceptance into, the department as a major or as an enrolled student in one of its courses. YSU requires a 2.0 overall GPA in order to graduate.

Certificate Program

Basic Police Officer Training

The certificate program in basic police officer training is considered appropriate for persons who are beginning a career in law enforcement. This certificate is considered a starting point in the new officer’s education. The certificate serves as an incentive to continue towards an associate or baccalaureate degree. All of the courses needed for the certificate are applicable for advanced degrees. A placement test is required for all English courses. Students must complete police academy training (OPOT), introduction to Criminal Justice and Forensic Sciences, policing, and writing I. Students then must complete one of the following courses: introduction to sociology, introduction to philosophy, applied pathophysiology, or criminal courts.

Associate in Applied Science Degree

The Associate in Applied Science (AAS) degree in Criminal Justice and Forensic Sciences is considered appropriate for persons preparing for employment in many municipal, state and private police agencies as well as persons considering employment in local, state, federal, and private correctional facilities. The associate degree also is a stepping stone for those students who plan to go on for a bachelor’s degree. The associate degree in Criminal Justice and Forensic Sciences has three tracks: a law enforcement track, a corrections track, and a loss prevention/assets protection track. The program requires 64 semester hours, with 34 hours in general degree requirements, 18 hours in Criminal Justice and Forensic Sciences core courses, 12 hours in the selected track. The Associate in Applied Science degree can be completed in four semesters if students average 16 hours per semester. There are 15 hours of course work in GERs: ENGL 1550, ENGL 1551, CMST 1545, PSYC 1560, and an ART/Lit. course. There are also 15 hours of required basic related studies: SOC 1500, CJFS 1500, AHLT 1502, PHIL 2625, and STEM 2600. Transfer students must take at least 20 hours of YSU courses. Sixteen semester hours of Criminal Justice and Forensic Sciences course work must be taken at Youngstown State University.

The associate degree is built upon core/track concept with emphasis (track) areas in law enforcement, corrections, and loss prevention/assets protection. Core courses for an associate degree are: CJFS 2601, 2602, 2603, 3735, and 3719. Students choose an additional 12 credit hours from one of the emphasis areas. See department for course options.

Police Academy and Internships

YSU’s Criminal Justice and Forensic Sciences department now offers a full-service police academy, Basic Peace Officer Training Academy. Admission to the academy is open to all qualified applicants who meet admission standards of YSU and the Ohio Peace Officer Training Commission. All instructors in the Academy are certified by the Ohio Peace Officer Training Commission and meet all of the requirements to teach in the Basic Police Academy. YSU students who successfully complete the Academy will receive 12 semester hours of credit and a letter from the Ohio Peace Officers Training Commission that will qualify them for certification upon being commissioned. The new curriculum consists of a minimum 558 hours of training. Application packets can be picked up at the Academy Office, Cushwa Hall Room 2033.

YSU’s Criminal Justice and Forensic Sciences and Forensic Studies Department has an internship experience that provides students with an opportunity to integrate academic studies with the daily operation of a Criminal Justice and Forensic Sciences agency. Internships also foster the development of networking relationships with practitioners who can assist in procuring future employment. Certain criminal convictions may prohibit students from being eligible for an internship experience. Student interns register for 3 to 12 semester credit hours. Each credit hour requires approximately 45 on-site hours. This program is for seniors. Students can enroll in the Police Academy or an internship—not both.

Bachelor of Science in Applied Science Degree

A Bachelor of Science in Applied Science (BSAS) degree in Criminal Justice and Forensic Sciences requires a minimum of 124 semester hours. All Bachelor of Science in Applied Science students must complete a minimum of 45 semester hours of Criminal Justice and Forensic Sciences courses of which 36 semester hours or more must be taken from upper-division courses. This degree can be earned in eight semesters if students average 16 hours per semester.

Transfer students must complete a minimum of 18 hours in Criminal Justice and Forensic Sciences courses at YSU. All majors must complete the core requirements: CJFS 2601, 2602, 2603, 3710, 3712, 3715, 3719, and 3735; the courses required in the student’s chosen emphasis area; and 12 hours of CJFS electives not in the emphasis area (as designated on the department’s curriculum sheet).

The purpose of each emphasis area is as follows:

• The law enforcement track is designed for persons preparing for employment in municipal, state, and private agencies; federal law enforcement agen-
A grade of C or better must be received in each
course in order to satisfy the departmental require-
ments for the degree.

The corrections track is offered for students pre-
paring for a career in probation, parole, or insti-
tutional services with either adults or juveniles.
Courses required: CJFS 3702, 3702L, 5802, and
4803.

The legal processes track is designed for students
preparing for law school, court administration,
paralegal work or legal research positions. Courses
required: CJFS 3700, 3740, 3751, and 4848.

A generalist track is available for transfer students
and students seeking a nontraditional area of
study such as victim’s rights and juvenile justice.
This track is available to students at institutions
participating in the interactive distance learning
(IDL) agreements with the University. Department
approval and 15 hours of course work are required.

A grade of C or better must be received in each
required Criminal Justice and Forensic Sciences
course in order to satisfy the departmental require-
ments for the degree.

FORENSIC SCIENCE PROGRAM

Multidisciplinary program between the departments of Criminal Justice and Forensic Sciences, Biological Sciences, Chemistry, Health Professions, and Sociology and Anthropology.

Youngstown State University offers an undergraduate degree, Bachelor of Science in Applied Science, in forensic science. The program is housed in the Criminal Justice and Forensic Sciences Department. Forensic Science is a very unique and challenging application of science to the law. This program is designed to give students a broad theoretical and practical background in the scientific, legal, and investigative aspects of forensic science. Graduates of the program are uniquely prepared to continue their education in forensic science graduate programs or immediately begin careers in major crime labs. Students need to be aware of the fact that they will probably have to pursue a master’s degree and possibly a Ph.D. to obtain promotion to senior management positions in crime labs.

Admission Policy

Students wishing to transfer into the forensic science program must have and maintain a cumulative GPA of at least 2.5. Note: individuals with a felony, drug, and/or domestic violence conviction will experience difficulty gaining employment in the Criminal Justice and Forensic Sciences or forensic science field. Students with misdemeanor convictions should seek advice from an advisor in the Criminal Justice and Forensic Sciences program. Students with juvenile sex offense convictions should also seek advice.

Internships

YSU’s forensic science program requires an internship experience which will provide students with the opportunity to integrate academic studies with the daily operations of a crime lab. Internships also foster the development of networking relationships with practitioners who can assist in procuring future employment. Certain criminal convictions may prohibit students from being eligible for an internship experience. Each credit hour requires approximately 45 on-site hours.

Bachelor of Science in Applied Science Degree—Forensic Science

A Bachelor of Science in Applied Science degree in forensic science requires a minimum of 124 semester hours. The program is very detailed and specific in the courses that are required. Students have very few elective hours.

A minor is intended to contrast with or deepen the major or General Education. Forensic Science is an interdisciplinary major. Courses that are required for, or counted towards, the Forensic Science major cannot be counted towards a minor.

Allied Health Program

The department offers certificate programs and associate, baccalaureate, and master’s degree programs for future members of the health care delivery, public health, and health education team. Certificate programs are offered in medical coding, EMT, paramedic, and polysomnography. Associate degree programs are offered in dental hygiene, emergency medical technology, medical assisting technology, clinical laboratory technician, and histotechnology. Baccalaureate programs are offered in allied health, public health, school health, clinical laboratory science (medical technology), and respiratory care. The allied health major courses can also be completed in a web-based format. A master’s degree program in health and human services offers two tracks: health promotion and administration for health and human service professionals. Details on program requirements appear under the specific program heading.

Admission to all programs except medical assisting technology, public health, and school health is on a restricted basis, since only a limited number of students can be accommodated. Detailed information on admission criteria and closing dates for application is available in the Department of Health Professions, the Bitonte College of Health and Human Services Dean’s Office, or the Admissions Office.

For the graduate program leading to a Master of Health and Human Services degree refer to the Graduate School catalog for program details.

Learning Outcomes

The student learning outcomes for the major in allied health are as follows:

- The student will apply critical thinking/problem solving skills to health care related issues.
• The student will demonstrate the ability to analyze current health care issues and to provide supporting arguments for their positions.
• The student will conceptualize, develop, and conduct research including data collection and analysis.
• The student will utilize current technologies such as, interactive video systems, computer and Web-based systems, to access information and communicate with others.

**Allied Health Baccalaureate-Completion Program**

Graduates with an associate degree in dental hygiene, emergency medical technology, respiratory care, medical assisting technology, clinical laboratory technology, or in a medical/health related discipline (for example, radiological technology, physical therapy assistant, or dietetics) will be admitted to the BSAS in allied health program as juniors.

Graduates of non-accredited programs will be provisionally admitted and placed at a level determined by an evaluation of their academic transcripts.

**CLINICAL LABORATORY PROGRAMS**

Professor Delost (Program Director) and Professor Boyd.

Laboratory tests play an important role in the detection, diagnosis, and treatment of many diseases. Laboratory professionals perform a myriad of such tests to aid the physician in the management of disease.

**Learning Outcomes**

The student learning outcomes for the clinical laboratory programs (CLS-BSAS and CLT-AAS) are as follows:

• Graduates will be prepared to function as entry-level health care professionals in the clinical laboratory as clinical laboratory technicians and clinical laboratory scientists. At entry level, the clinical laboratory graduate with be able to demonstrate the ability to comprehend, apply and evaluate information relative to the clinical laboratory professional.

• For the CLT and CLS programs, this includes comprehension of the theory and the ability to apply and evaluate the didactics of hematology,
Clinical Laboratory Technician (Medical Laboratory Technician)

The clinical laboratory technician (medical laboratory technician) program is a two-year program leading to the Associate in Applied Science degree. The curriculum focuses on the knowledge and basic skills necessary to understand and master the procedures performed in the medical laboratory. Included are the principles, methods, calculations, and interpretation of laboratory procedures, computer technology, and communication and interpersonal skills. Technical instruction includes procedures in hematology, microbiology, immunohematology, clinical chemistry, and body fluids. This program requires five semesters of study including one summer semester.

Clinical laboratory technicians (CLT) work in a supportive role in a hospital laboratory, private laboratory, clinic, public health facility, or pharmaceutical laboratory. The CLT performs laboratory tests under the supervision or direction of pathologists and other physicians, and clinical laboratory scientists (medical technologists). Physicians use these tests to determine the presence and extent of disease, the etiologic implications about the cause of disease, and to monitor the treatment of the disease.

The CLT collects samples from patients and develops data on the blood, tissues and body fluids by using a variety of precise methodologies and technologies. Clinical laboratory technicians use modern instruments, with the ability to discriminate between similar items and correct errors using preset strategies. The CLT has knowledge of specific techniques and instrumentation and is able to recognize factors that affect laboratory procedures. The CLT also monitors quality assurance procedures.

The CLT program is accredited through the National Accrediting Agency for Clinical Laboratory Sciences (5600 N. River Rd., Suite 720, Chicago, IL 60018-5119; phone 773-714-8886; www.nacls.org) and meets the standards developed by the American Society of Clinical Pathologists (ASCP) and the American Society of Clinical Laboratory Science (ASCLS). Graduates are eligible to take the certification examinations for MLT/CLT offered through ASCP and ASCLS and become certified as an MLT (ASCP) or as a CLT (NCA).

Students in the program must have a physical examination and provide records of their immunizations. The hepatitis B vaccine series is strongly recommended for each new student.

Completion of the program requires a semester of clinical internship. Students receiving a total of 6 semester hours of D or F grades in CLT, biology, or chemistry courses will not be placed in a clinical internship. Only those students who have completed the first four semesters of the program with a minimum GPA of 2.5 will be considered for placement in a clinical internship. CLT’s are expected to function with a maximum degree of effectiveness in professional attitude, patient relations, and integrity. The capacity for competent performance at all levels must be assured before the student will be assigned to a clinical internship. The student must be competent in the didactic (knowledge), psychomotor (laboratory skills), and affective realm (attitude and responsibility) prior to clinical placement.

or as a CLS(NCA).

ASCLS (NC) and become certified as a MT(ASCP) upon successful completion of the certification examinations offered through ASCP and ASCLS (NC). Upon successful program completion, graduates are qualified to take the certification examinations offered through ASCP and ASCLS (NC) and become certified as a MT(ASCP) or as a CLS(NCA).

The program follows the “3+1” format with the student completing a pre-professional phase of courses in clinical laboratory technology, general chemistry, biological sciences, organic and biochemistry, microbiology, immunology, and mathematics during the first three years of the program. The final year of the program is completed at an accredited CLS/MT hospital program. The program meets the requirements of NAACLS. Upon successful program completion, graduates are qualified to take the certification examinations offered through ASCP and ASCLS (NC) and become certified as a MT(ASCP) or as a CLS(NCA).

Clinical laboratory scientists (medical technologists) perform hundreds of scientific procedures that have been devised to detect subtle changes that occur in disease. The CLS/MT performs a full range of laboratory tests, ranging from simple blood cell counts to more complex tests to uncover diseases such as leukemia and diabetes. Studying blood cells under the microscope, the analysis of the chemical composition of blood, the isolation and identification of disease causing bacteria, and blood typing and cross matching for transfusions are examples of the complicated procedures performed by clinical laboratory scientists. Positions are available as bench-level technologists, supervisors, and laboratory managers.

In addition to traditional laboratory careers, there are opportunities in education and research, and in industry as technical and sales representatives. In their quest to aid the physician, laboratory professionals do much more than look through a microscope. They operate complex electronic equipment, compute, and precision instruments, acting as an integral part of the health care team. Because of their academic and diverse clinical experience, graduates are well qualified for post-graduate programs in medicine, clinical chemistry, and biology.

Clinical Laboratory Science (Medical Technology)

Professor Delost (Program Director) and Professor Boyd.

The clinical laboratory science (medical technology) program is a four-year program leading to a Bachelor of Science in Applied Science degree with a major in clinical laboratory science. Students in the program must have a physical examination and provide records of their immunizations. The Hepatitis B vaccine series is strongly recommended.

All course work in the CLS program must be completed with a minimum grade of “C”. Students must maintain an overall GPA of 2.5 and a GPA of 2.5 in all CLTC courses. Students receiving a total of 6 semester hours of D or F grades in CLTC, biology, or chemistry courses will be dismissed from the program. Readmission to the program is based on GPA and on the availability of space in the class.

The program follows the “3+1” format with the student completing a pre-professional phase of courses in clinical laboratory technology, general chemistry, biological sciences, organic and biochemistry, microbiology, immunology, and mathematics during the first three years of the program. The final year of the program is completed at an accredited CLS/MT hospital program. The program meets the requirements of NAACLS. Upon successful program completion, graduates are qualified to take the certification examinations offered through ASCP and ASCLS (NC) and become certified as a MT(ASCP) or as a CLS(NCA).
The two-year histotechnician program is a two year program that leads to an Associate in Applied Science degree. Students in the program are required to have a physical examination and provide records of their immunizations. The Hepatitis B vaccine series is strongly recommended. The program requires five semesters of study including one summer semester.

Pathologists and other scientists specializing in biological sciences work in partnership with medical laboratory workers to analyze blood, tissues, and fluids from humans using a variety of precision instruments. The results of these tests are used to detect and diagnose disease and other abnormalities. The main responsibility of the histotechnician in the clinical laboratory is preparing sections of body tissues for examination by the pathologist. This includes the preparation of tissue specimens of human and animal origin for diagnostic, research, and teaching purposes. Tissue sections prepared by the histologic technician for a variety of disease entities enable the pathologist to diagnose body dysfunction and malignancy.

The curriculum includes both didactic instruction and practical demonstration in the areas of biology, chemistry, laboratory mathematics, computer technology, histology, instrumentation, microscopy, anatomy, quality control. The first three semesters of the program consist of laboratory and didactic courses taught on the YSU campus. The final two semesters consist of the clinical practicums that are held at affiliated laboratories and in the university setting.

The program is accredited through the National Accrediting Agency for Clinical Laboratory Sciences National Accrediting Agency for Clinical Laboratory Sciences (5600 N. River Rd., Suite 720, Chicago, IL 60018-5119; phone 773-714-8886; www.naacls.org). To ensure that graduates are competent and able to perform high-quality laboratory tests, the Board of Registry of the American Society of Clinical Pathology (ASCP) gives a national certification examination. Upon successful completion of their academic and laboratory education requirements, graduates are eligible to take the certification examination and become certified as HT(ASCP).
Histologic technicians play important roles in the detection of cancer cells. Once a sample tissue is taken from a patient, the histotechnician prepares very thin sections of body tissue for microscopic examination. With the information learned from the section of tissue biopsy, the physician can determine if disease is present, if it has spread, and recommend the best course of treatment for the patient.

The histologic technician works with fragile, delicate instruments as well as knives, chemicals, and glass slides. He or she must value precision and have good hand-eye coordination and manual dexterity.

Histologic technicians have an unlimited choice of practice settings. Hospitals, for-profit laboratories, clinics, public health facilities, business and industrial settings currently have positions for qualified histotechnicians. Other opportunities may be found in industrial research, veterinary pathology, marine biology, and in forensic pathology.

Learning Outcomes

The student learning outcomes for the histotechnician program are as follows:

- Graduates will be prepared to function as entry-level health care professionals in the clinical laboratory as histotechnicians. At entry level, the graduate will be able to demonstrate the ability to comprehend, apply and evaluate information relative to the clinical laboratory professional.

- For the HT-AD, this includes comprehension of the theory and the ability to apply and evaluate the didactics of specimen processing, accessioning, microscopy, instrumentation, staining, immunodiagnostics and microtomy.

- Graduates will be prepared to function as entry-level health care professionals in the clinical laboratory as histotechnicians. Upon completion of the program, graduates will demonstrate technical proficiency in laboratory applications.

- For the HT-AD, this includes the laboratory processes of receiving and accessioning tissue specimens; processing and preparing tissue specimens for microscopic examination, microtomy, embedding, staining, and assisting with frozen sections; identifying tissue structures and their staining characteristics.

- Graduates will demonstrate professional conduct and interpersonal communication skills consistent with the clinical laboratory profession.

- Graduates will interact with and communicate with members of the healthcare team, external relations, customer service, and patient education recognizing the responsibilities of other healthcare personnel and interacting with them with respect for their jobs and patient care.
DENTAL HYGIENE

Professors Guerra, Vendemia; Associate Professors Haggerty (Program Director), Jurua, Kandray.

The two-year program in dental hygiene leads to the Associate of Applied Science degree. This program requires five semesters of study including one summer semester. The program is designed to prepare dental hygienists for work in private practice, in school systems, dental health programs, health agencies, hospitals, research programs, or public health settings.

At the end of the second year in the program, students are eligible to take state and national board examinations. Upon successful completion of these comprehensive written and clinical examinations, the student may apply for a license to practice dental hygiene in the state as a registered dental hygienist.

The registered dental hygienist is a licensed professional who provides dental hygiene treatment and related preventive services. Clinical skills of the hygienist include the administration of local anesthesia, recording medical and dental histories; exposing radiographs; making study models; performing extra-oral and intra-oral examinations which include cancer screenings; dietary management; dental charting; preliminary periodontal evaluations; scaling and root planing; polishing; patient education; placing sealants and administering fluoride therapy. Many states permit the hygienist to perform additional duties such as placing restorative materials.

The dental hygienist also functions as a dental health educator and is responsible for the preventive dental health program in private dental practices as well as in other settings. The hygienist teaches patients proper oral health care in order to reduce dental diseases and disorders.

The hygienist's role in service to the community may include increasing public awareness of dental health by participating in Give Kids a Smile Day in the community, serving as a resource person to school systems, providing screenings to various children or the community, serving as a resource person to school health by participating in Give Kids a Smile Day in other health settings.

At the end of the second year in the program, students are eligible to take state and national board examinations. Upon successful completion of these comprehensive written and clinical examinations, the student may apply for a license to practice dental hygiene in the state as a registered dental hygienist.

The registered dental hygienist is a licensed professional who provides dental hygiene treatment and related preventive services. Clinical skills of the hygienist include the administration of local anesthesia, recording medical and dental histories; exposing radiographs; making study models; performing extra-oral and intra-oral examinations which include cancer screenings; dietary management; dental charting; preliminary periodontal evaluations; scaling and root planing; polishing; patient education; placing sealants and administering fluoride therapy. Many states permit the hygienist to perform additional duties such as placing restorative materials.

The dental hygienist also functions as a dental health educator and is responsible for the preventive dental health program in private dental practices as well as in other settings. The hygienist teaches patients proper oral health care in order to reduce dental diseases and disorders.

The hygienist's role in service to the community may include increasing public awareness of dental health by participating in Give Kids a Smile Day in the community, serving as a resource person to school systems, providing screenings to various children or local groups, and making visits to nursing homes, hospitals and schools.

Learning Outcomes

The student learning outcomes for the dental hygiene program are as follows:

- The students will be competent in resolving professional and ethical issues utilizing effective communication and critical thinking skills.
- The students will be competent in providing patient education programs and community service to diverse populations.
- The students will be competent in performing clinical skills necessary to achieve and maintain the oral health of their patients.

Admission to the Program

Students are admitted to the dental hygiene program only once a year. The admission policy is available in the Department of Health Professions and the Dental Hygiene office.

Current students applying to the dental hygiene program must submit a completed application form to the College of Health and Human Services dean's office by December 31 to be considered for direct entry to the program for the following fall.

High school, transfer, and former students must apply for admission to YSU by December 31. The University must receive all admission credentials (official transcripts, etc.) directly from the issuing institution by January 31.

In addition to history, U.S. government and social sciences, freshman applicants must have high school credit in the following subjects with grades of “C” or higher and a GPA of 3.2 (on a 4.0 system): algebra I, algebra II or geometry, chemistry and biology. The overall high school GPA must be 3.0 or higher.

Freshman applicants who have not graduated from high school but have passed the General Education Development (GED) test must also have completed algebra I, algebra II or geometry, biology, and chemistry with a grade of “C” or higher and a GPA of 3.2 (on a 4.0 system) in these subjects.

Students accepted to the program must have completed Human Anatomy and Physiology for Allied Health majors prior to fall semester of their first year. Current, former, and transfer students must meet all the requirements for freshman admission, and have a minimum 2.5 overall college average and a program grade point average of 2.7 (on a 4.0 system). In addition, one laboratory science course is required in the program, either biology (BIOL 1545/1545L Allied Health Anatomy & Physiology) or chemistry (CHEM 1505/1505L Allied Health Chemistry I) must be completed by the end of the fall semester of the year of application. Meeting minimum requirements does not assure acceptance into the dental hygiene program.

Prospective students must complete a minimum of 12 hours of observation of a registered dental hygienist in two separate dental offices or clinics. Observation forms are available on the Dental Hygiene website. Each prospective student must print the form and fill it out and return by December 31 of the year of application. Mail with appropriate signatures to: Youngstown State University, Dental Hygiene Program, One University Plaza, Youngstown, OH 44555.

EMERGENCY MEDICAL TECHNOLOGY

Associate Professor Mistovich; Instructor Benner (Program Director).

Emergency medical technology programs are designed to educate persons to provide emergency pre-hospital care to people experiencing health crises. The goals of these programs are on three different levels: Emergency Medical Technician Basic; Paramedic Certification; and the Associate in Applied Science degree.

The Emergency Medical Technician Basic certificate is the entry level EMS provider, and is also a prerequisite for admission to the paramedic program in addition to other University and department admission requirements.

The Emergency Medical Technician Paramedic Certificate can be attained after successfully completing three semesters of study. The course of study provides the student with knowledge about the recognition, assessment, and practice of emergency medical care in the pre-hospital setting on an advanced life-support unit. It meets and exceeds all United States Department of Transportation national standard paramedic curriculum objectives and is accredited by the Committee on Accreditation of Educational Programs for the EMS Professions (CoAEMSP #600045), and the Ohio Department of Public Safety-Division of EMS (#333).

The Associate in Applied Science degree is awarded following the completion of the advanced training program with clinical paramedical experiences. This program includes coursework for critical care paramedicine and multi-skilled EMS practitioner. Thirty percent of all teaching and clinical rotations are physician-instructed and/or precepted. To obtain the Associate in Applied Science degree (including the Emergency Medical Technician Basic Certificate and the Emergency Medical Technician Paramedic Certificate), will require five semesters of study including one summer semester.

For the certificate, admission requirements and procedures are the same as those applicable to the University and the Department of Health Professions with the addition of a minimum age of 18 years, a current driver’s license or state-issued I.D., and an interview by a selection committee. The student must be EMT-B certified prior to being awarded paramedic certification. A physical examination to attest good health is required. Admission into the Associate in Applied Science degree program is restricted. Please refer to the admission policies available from the Department of Health Professions.

Learning Outcomes

Graduates in the EMT-paramedic program will
- Demonstrate the ability to comprehend, apply, and evaluate clinical information relevant to their role as an EMT-paramedic (cognitive).
• Demonstrate technical proficiency in all skills necessary to fulfill the role as an EMT-paramedic (psychomotor).

• Demonstrate personal behavior consistent with professional and employer expectations for the EMT-paramedic (affective).

Total Program Hours: 70 semester hours

### MEDICAL ASSISTING TECHNOLOGY

**Professor Feld (Program Director).**

The medical assisting technology program is a two-year program leading to the Associate in Applied Science degree. The program requires five semesters of study averaging 15 hours per semester to complete.

The two-year Associate in Applied Science degree program in medical assisting technology at Youngstown State University is accredited by the commission on Accreditation of Allied Health Education Programs (www.caahep.org) upon the recommendation of the Medical Assisting Education Review Board (MAERB).

The Commission on Accreditation and Allied Health Education Programs.
1361 Park Street
Clearwater, FL. 33756
727-210-2350

Upon graduation, the student is eligible to apply for the certification exam given by the American Association of Medical Assistants (AAMA). Successful completion of the exam confers the designation Certified Medical Assistant, or CMA (AAMA).

The curriculum provides graduates with the skills necessary to perform dual roles as administrative and/or clinical assistants in private physician offices, clinics, or hospital outpatient departments. The administrative skills include: public relations, receptionist activities, record management, secretarial skills, bookkeeping, insurance and coding, banking, payroll and managerial responsibilities. Clinical skills include: preparing the patient for examination and procedures, taking medical histories and patient assessment, operating and maintaining
medical equipment, collecting specimens, performing laboratory tests, and teaching and counseling patients. Admission to the program is not restricted, but high school prerequisites include a science, math, and computer or typing course.

A grade of C or better is required in all MATC courses and a 2.0 over-all grade point average (GPA) is required to register for MATC 2692, Medical Assisting Externship (Practicum). The student is not allowed to receive any type of compensation, monetary or otherwise, from the externship site. Prior to scheduling the practicum, the student’s records will be reviewed by the program director to determine if all MATC courses have been satisfactorily completed and all deficiencies have been made up.

The student must have a physical examination report with a negative tuberculin-screening test and hepatitis B vaccination prior to MATC 2620, MATC 2680 and the practicum.

The student must have current certification in Red Cross First Aid and CPR to participate in the externship experience.

Learning Outcomes

Graduates of the medical assisting technology program will

- Demonstrate the ability to comprehend, apply, and evaluate relevant information presented in medical assisting and related courses to the role of the entry-level medical assistant in a variety of medical settings.
- Demonstrate technical proficiency in the performance of the administrative and clinical competencies as outlined in the essentials for the Commission on Accreditation of Allied Health Education Programs and the American Association of Medical Assistants Endowment accreditation process.
- Demonstrate interpersonal skills and participate in professional activities including continuing educational opportunities consistent with the professional expectations of a (certified) medical assistant.
- Be able to function as an entry-level medical assistant by demonstration of proficiency in administrative and clinical competencies in a variety of medical settings.

Total Semester Hours ................................70

Medical Coding Specialist

Professor Feld (Program Director).

The one-year medical coding specialist program leads to a certificate. The program can be completed in two semesters with an average of 13 hours per semester.

Students will be instructed in ICD-10-CM, CPT/HCPCS coding, Prospective Payment System (PPS) to confirm DRG assignment and other reimbursement methodologies. An understanding of anatomy and physiology and disease processes is required in order to understand procedural and diagnostic coding. The medical coding specialist must also have an thorough understanding of the content of the medical record, legal issues and administrative medical office procedures.

Opportunities for employment include all types of health care environments, such as hospitals, outpatient facilities, physician offices, medical billing services, and insurance companies. As a member of the health information team, the medical coding specialist is responsible for translating diagnostic and procedural phrases into coded form. The coded information is then utilized for reimbursement purposes, analysis of patient outcomes and research.

Total Semester Hours ........................................ 24-26

PUBLIC HEALTH

Assistant Professor Robinson.

The public health program offers the Bachelor of Science in Applied Science (B.S.A.S.) degree and can be completed in eight semesters if students average 16 hours per semester. The program offers a minor in public health and community health planning and evaluation. It contributes to the University's general education requirements by offering PHLT 1531 Fundamentals of Public Health and PHLT 1568 Healthy Lifestyles, which meet the general education requirement for personal and social responsibility. To be admitted to the public health program, a student must have a minimum GPA of 2.0. To continue enrollment in the major, students must maintain a 2.0. If a student falls below a 2.0 GPA, he or she can only re-apply to the major after a minimum GPA of 2.0 has been achieved.

There are five standard areas in public health training that enable students to perform the essentials services of public health. These are epidemiology, biostatistics, health services administration, environmental health, and behavioral science/health education. The curriculum for the YSU bachelor’s degree in public health addresses each of the five core areas through multiple courses. This curriculum enables mastery at the bachelor’s level of the nationally recognized Public Health Core Competencies, and requires an internship tailored to the area of public health interests of each student. This contemporary major also includes two 3-semester-hour courses in bioterrorism, mass casualty and crisis management in public health. All of the professional courses for the degree can be completed through online distance learning options.

The B.S.A.S. in public health can also prepare the student to become a Certified Health Education Specialist (CHES). CHES assess individual and community health needs; plan and implement effective health education and health promotion programs; coordinate and manage the provision of health education and promotion services; effectively communicate health and health education needs, concerns and resources; and conduct program evaluation.

The public health program integrates classroom and experiential learning in many of its courses. Public health graduates are employed in public health agencies, non-profit health organizations, hospitals and other health and care settings, and governmental agencies.

Learning Outcomes

The student learning outcomes for public health are as follows:

- The public health student will demonstrate skill in program planning and evaluation, program implementation and coordination and effective use of resources by achieving a score of at least 85% on comprehensive competency exam taken as part of the PHLT 4899 Senior Seminar course. Data is collected on all students.

- The public health student will demonstrate competence in core public health subject content (public health concepts, epidemiology, statistics, administration, environmental health and health education) by achieving a score of at least 85% on a comprehensive content exam taken as part of the PHLT 4899 Senior Seminar course. Data is collected on all students.

- The public health student will demonstrate mastery of entry level public health competency by receiving an internship score of at least 85% as assessed by her/his community-based internship supervisor. Data is collected on all students.

- The public health student will demonstrate ability to seek employment by creating a resume that meets the acceptability standards of the YSU Career Services Health Advisor, as demonstrated by an indication of acceptability signed by the Health program advisor in the Career Center. Data is collected on all students.

During the freshman and sophomore years, students are expected to take the courses that meet the requirements for general education. In addition to the English and communications requirements, specific general education courses for the BSAS public health degree program include PHLT 1531, PHLT 1568, BIOL 1545 and Lab, FNUT 1551, and SOC 1500. Additional required courses during the first two years of study include: a 3 semester-hour approved philosophy course, an approved quantitative course, a 3-semester-hour social/cultural issues course, required prerequisites for selected courses. Core requirements of the major: HSC 3701L, 3702,
3757, 3791, 4826, 4828, 4891, 4899, 5893W, 5893M, AHLT 3708, ALHT 3740, 4808, 4810, 5807, MATC 1501, GEOG 2610 and 5810; and 12 semester hours of additional approved public health coursework. A total of 124 semester hours are required for the B.S.A.S. in public health. No minor is required for this professional BSAS degree.

**RESPIRATORY CARE**

Assistant Professor Volsko (Program Director), Assistant Professor Yacovone.

Respiratory care is an allied health profession concerned with the diagnostic evaluation, treatment, and management of patients with cardiopulmonary disorders. The respiratory care practitioner (RCP) is proficient in the therapeutic administration of medical gases and aerosols, intermittent and continuous mechanical ventilation, broncho-pulmonary hygiene, basic and advanced cardiac life support techniques, non-invasive patient monitoring, pulmonary function evaluation, arterial blood gas analysis, airway management procedures and pulmonary rehabilitation techniques. A licensed RCP must also be knowledgeable regarding various assessment techniques and patient education models. These skills are used with neonatal, pediatric, and adult patients in acute, subacute, and home care settings.

To function effectively as a member of the multidisciplinary health care team, the RCP must have a sound understanding of the physiological, psychological, and cultural needs of the patient, the role of the various therapeutic interventions in the patient care plan, and development of broad-based skills to more effectively contribute to the overall care of the patient. Theory and laboratory experiences are provided prior to the student’s entry into the clinical education phase of the program. This program can be completed in four calendar years. It includes three summer sessions. A sleep diagnostics option is also available.

**Accreditation**

The YSU respiratory care and polysomnography programs are accredited by the Commission on Accreditation for Respiratory Care (www.coarc.com)

Students with questions regarding accreditation of the YSU respiratory care or polysomnography programs can contact CoARC by mail at 1248 Harwood Road; Bedford TX 76021-4244 or by phone at 817-283-2835.

**Learning Outcomes**

The student learning outcomes for the major in respiratory care are as follows:

- Upon completion of the program, graduates will demonstrate technical proficiency in all the skills necessary to fulfill their role as advanced-level respiratory therapists (psychomotor domain).

- Upon completion of the program, graduates will demonstrate professional behavior consistent with employer expectations as advanced-level respiratory therapists (affective domain).

The school health program offers the Bachelor of Science in Education (B.S. in Ed.) in health education. This program can be completed in eight semesters if students average 16 hours per semester. To be admitted to either the school health program, a student must have a minimum GPA of 2.0. To continue enrollment in the first two years of the school health major, students must maintain a 2.0. If a student falls below a 2.0 GPA prior to achieving 62 hours, the student can only re-apply to the major after a minimum GPA of 2.0 has been achieved. Students seeking this licensure must apply for upper-division status in the Beeghly College of Education upon completion of 62 semester hours, and must maintain the grade point requirements of the College of Education.

The B.S. in Education enables graduates to receive licensure for multi-age school health teaching for pre-kindergarten through grade 12. The curriculum will enable majors to teach according to the National Health Education Standards and meet the standards of the American Association of Health Education. Coursework includes health content courses, including chronic diseases, infectious diseases, alcohol and other drug prevention, stress management, nutrition, healthy lifestyles, environmental health, human sexuality, community health, medical terminology, and epidemiology. The curriculum also includes four health-education methods classes. The curriculum concludes with a semester of student teaching.

The program is accredited by National Council for Accreditation of Teacher Education and is approved by the Ohio Department of Education.

**Learning Outcomes**

The student learning outcomes for school health are as follows:

- The health education teacher candidate will demonstrate proficiency in health education content by passing the national PRAXIS II 20550 exam above the required state score of 480. Data is collected on all students as they take the exam as juniors or seniors.
- The health education teacher candidate will demonstrate competence in developing valid pre and posttests, and analyzing them for use in instructional planning and implementation by receiving a score of 14 or higher on the HSC 3705 Analysis Assessment. Data is collected on all students in PHLT 3705.
- The health education teacher candidate will demonstrate competence in teaching health by receiving a score at least 2.0 in all domains during final student teacher evaluation. Data is collected on all students during student teaching.
- The health education teacher candidate will demonstrate competence of their ability to facilitate learning by achieving a rating of satisfactory or above for a comprehensive Teacher Work Sample (TWS) which measures the following seven educational process standards: Contextual Factors, Learning Goals, Assessment Plan, Design for Instruction, Instructional Decision-Making, Analysis of Student Learning, and Reflection and Self-Evaluation. Data is collected on all students during Student Teaching Seminar.

**SCHOOL HEALTH**

*Assistant Professor Robinson.*

The school health program offers the Bachelor of Science in Education (B.S. in Ed.) in health education. This program can be completed in eight semesters if students average 16 hours per semester. To be admitted to either the school health program, a student must have a minimum GPA of 2.0. To continue enrollment in the first two years of the school health major, students must maintain a 2.0. If a student falls below a 2.0 GPA prior to achieving 62 hours, the student can only re-apply to the major after a minimum GPA of 2.0 has been achieved. Students seeking this licensure must apply for upper-division status in the Beeghly College of Education upon completion of 62 semester hours, and must maintain the grade point requirements of the College of Education.

The B.S. in Education enables graduates to receive licensure for multi-age school health teaching for pre-kindergarten through grade 12. The curriculum will enable majors to teach according to the National Health Education Standards and meet the standards of the American Association of Health Education. Coursework includes health content courses, including chronic diseases, infectious diseases, alcohol and other drug prevention, stress management, nutrition, healthy lifestyles, environmental health, human sexuality, community health, medical terminology, and epidemiology. The curriculum also includes four health-education methods classes. The curriculum concludes with a semester of student teaching.

The program is accredited by National Council for Accreditation of Teacher Education and is approved by the Ohio Department of Education.
Co-curricular Opportunities

Majors with a GPA of 2.5 and above are eligible for membership in Eta Sigma Gamma, the National Health Education Honorary. The YSU chapter of Eta Sigma Gamma conducts several service learning projects each year which provide opportunities to gain experience in health education practice.

B.S. in Education

General education requirements, including PHLT 1568, 1551 and CHEM 1500. Core requirements of the major include: PHLT 2962, 3702, 3703, 3704, 3705, 3731, 3757, 3791, and ALHT 3740, 4804, 4808, 5807 and MATC 1501. Other requirements include: either ALHT 1550 and 1551, or BIOL 1545. Students must also complete all education courses required for multi-age licensure.

DEPARTMENT OF HUMAN ECOLOGY

330-941-3344

Professor Elias (Chair); Associate Professors Hawkins, Pavia; Assistant Professors Draa, Gitimu, Kim, Leson, Mincher, Pohle-Krauza, Shah-Rowlands, Turel; Instructor Zetts.

The Department of Human Ecology offers nine degree programs. The pre-kindergarten, dietetic technician and hospitality management programs lead to the Associate of Applied Science degree and can be completed in two years. Baccalaureate programs in food and nutrition, (didactic program in dietetics and the coordinated program in dietetics), family and consumer studies, merchandising: fashion & interiors, hospitality management, each lead to the Bachelor of Science in Applied Science degree and (in conjunction with the Beeghly College of Education) a bachelor’s program in family and consumer sciences education leads to the Bachelor of Science in Education degree with the teaching field licensure in family and consumer sciences.

Curriculum sheets for all programs are available at the department office Room 3044, Cushwa Hall.

FAMILY AND CONSUMER SCIENCES EDUCATION

The family and consumer sciences education program prepares students to teach in educational programs grade four through adult levels and meets the course requirements for the Family and Consumer Sciences Career/Technical Teaching License required to teach in Ohio’s schools. The four-year program includes a specified curriculum including one semester of supervised student teaching in a secondary school. Graduates will receive a Bachelor of Science in Education degree and will be required to pass the Praxis II examination for teachers in order to receive a teaching license. This program is jointly administered by the Beeghly College of Education and the Department of Human Ecology. Academic advisors in the Beeghly College of Education as well as the teacher educator in the Department of Human Ecology should be consulted regularly.

Family and Consumer Sciences teaching field courses include:

- HMEC 1550 Human Ecology Professions 1 s.h.
- FNUT 1512 Food Safety and Sanitation......1 s.h.
- MRCH 1506 Clothing Selection & Image Development.............3 s.h.
- PHLT 2692 Human Sexuality ......................3 s.h.
- FNUT 1551 Normal Nutrition ......................3 s.h.

- HMEC 4852 Family Resource Management (P).........................3 s.h.
- HMEC 5893 Work and Family (P).........................3 s.h.

42 s.h.

FAMILY AND CONSUMER STUDIES

The family and consumer studies program is designed to provide an in-depth understanding of individuals and families across the life span and to prepare students to work in agencies serving children and families or a variety of businesses serving the needs and interests of individuals (of all ages), families, and consumers. Students can create a unique program that reflects their career interests or graduate school goals. Students find employment in a variety of community agencies and businesses related to their areas of study. This program prepares the student to attain CFCS (Certified in Family and Consumer Sciences) certification.

Learning Outcomes

Graduates in the family and consumer studies major will be able to

- Use family science research and human systems theory to describe the internal dynamics of families and the interrelationships of individuals and families with their environments.
• Identify factors that influence human development across the life span.
• Apply appropriate technologies, critical-thinking, research methods, and communication skills to address significant family and consumer issues.
• Use concepts of resource development, management, and sustainability to evaluate individual, family, and community resource allocation practices.
• Analyze ethical questions that affect families and consumers.
• Relate to others with concern and respect for diversity of family forms, cultural variations among families, and individual differences.
• Follow professional and ethical standards in professional practice settings.
• Evaluate public policies that impact the well-being of individuals, families, consumers, and communities.
• Plan, implement, and evaluate educational programs serving children, families, and consumers.

FOOD AND NUTRITION/ DIETETICS

Dietetic Technician (DT)

Assistant Professor Mincher (Program Coordinator).

Dietetic Technicians, Registered (DTRs), are trained in food and nutrition and are an integral part of health care and foodservice management teams. The associate degree course work for dietetic technicians includes a variety of classes in food and nutrition sciences, foodservice systems management and a range of general science courses. Dietetic Technicians, Registered work independently or in teams with registered dietitians in a variety of employment settings, including health care, business and industry, public health, foodservice and research.

Upon satisfactory completion of the DT program, graduates are issued a verification statement that confirms their eligibility to sit for the Commission on Dietetic Registration (CDR) examination for dietetic technicians. Successful completion of the exam allows the graduate to use “DTR” as the practice credential.

Most of the required courses can be applied to the B.S. in A.S. degree with a major in food and nutrition. The associate degree program is accredited by the Commission on Accreditation for Dietetics Education (CADE) of the American Dietetic Association (120 South Riverside Plaza, Suite 2000, Chicago, Illinois, 1-800-877-1600, www.eatright.org).

Learning Outcomes

At the completion of the dietetic technician program, graduates will

• Be able to practice as competent dietetic technicians.
• Meet the workforce needs for DTRs in the Mahoning Valley.
• Practice a high degree of professionalism.

Didactic Program in Dietetics (DPD) Dietitian

Assistant Professor Rowlands (Program Coordinator).

This baccalaureate program is accredited by the Commission on Accreditation for Dietetics Education (CADE) of the American Dietetic Association (See “Dietetic Technician” for contact information).

Upon satisfactory completion of the DPD, students are issued a verification statement confirming eligibility to apply for a CADE accredited Dietetic Internship (DI) or pre-professional practice program.

Completion of the DI or an approved pre-professional practice program, establishes eligibility to sit for the Commission on Dietetic Registration (CDR) examination for dietitians. Successful completion of the examination brings the designation as a registered dietitian (R.D.).

Didactic Program in Dietetics (DPD) graduates may also take the registration examination for dietetic technicians and become Dietetic Technicians, Registered (DTR).

Learning Outcomes

- Achieve comprehension/competence in nutrition care process with specific emphasis on standardized nutrition diagnoses, i.e., use the nutrition care process to make decisions, identify nutrition-related problems, and determine and evaluate nutrition interventions, including medical nutrition therapy, disease prevention, and health promotion.

- Demonstrate understanding of dietetics evidence-based practice principles; locate, interpret, evaluate and use professional literature to make ethical evidence-based practice decisions.

- Demonstrate competence in food preparation and the modification and evaluation of recipes, menus, and food products for diverse groups.

- Be able to identify different health care delivery systems and current reimbursement issues, policies, and regulations on food and nutrition services.

Didactic Program in Dietetics, Bachelor of Science in Applied Science (Food and Nutrition)

Coordinated Program in Dietetics
(CPD) Dietitian (Registration Eligible)

Assistant Professor Leson (Coordinator).

This program, which prepares students for general dietetic practice with a concentration in community wellness, includes supervised practice as well as didactic study, and is accredited by the Commission on Accreditation for Dietetics Education (CADE) of the American Dietetic Association (See “Dietetic Technician” for contact information).

Admission to the CPD is restricted since only 12 students can be accommodated. Satisfactory completion of a minimum of 63 semester hours (to qualify for junior status) is required before the student begins the program. Detailed information regarding criteria and procedures is available from the Department of Human Ecology. Students are accepted to the CPD in spring, and start the program during fall semester. The current closing date for applications is February 15 for the following fall semester.

Each student spends a minimum of 1200 hours in approved clinical sites during the junior and senior years of the CPD. Upon satisfactory completion of the CPD, graduates are issued a verification statement that confirms their eligibility to sit for the Commission on Dietetic Registration (CDR) registration examination for dietitians. CPD graduates who successfully write the registration examination are entitled to use the R.D. credential to signify professional competence.

Learning Outcomes

At the completion of the coordinated program in dietetics, graduates will be able to

- Communicate effectively.
- Effectively integrate biochemical concepts into dietetics practice.
- Effectively integrate physiological concepts into dietetics practice.
- Effectively apply theory from the social sciences to dietetics practice.
- Effectively present results of research study.
- Effectively apply concepts from food, nutrition, management, and health care systems to dietetics practice.
- Practice effectively as members of an interdisciplinary team.
- Demonstrate competency in clinical dietetics practice.
- Demonstrate competency in foodservice management practice.
- Demonstrate competency in community nutrition practice.

HOSPITALITY MANAGEMENT

The Hospitality Management Program provides students with the knowledge and skills needed to be successful and competent in this fast-growing field not only in the United States, but throughout the world.

Students may earn an associate degree and/or a bachelor's degree with a major in hospitality management. The Associate of Applied Science degree (AAS) program provides experiences in all phases of hospitality management. The Bachelor of Science in Applied Science Degree (BS in AS) program encompasses all course work in the AAS program and exposes students to advanced management concepts in lodging, food and beverage, travel and tourism, or marketing and sales management.

Learning Outcomes

At the completion of the hospitality management program, graduates will be able to

- Demonstrate health, safety, sanitation, and environmental protection procedures used in food, lodging, and hospitality industries.
- Use current technologies of the food, lodging, and hospitality industries.
- Demonstrate quality food preparation, presentation, and service skills.
- Demonstrate appropriate customer and guest service practices.
- Explain key factors in the design, development, and maintenance of industry facilities.
- Apply principles of organizational theory and interpersonal communications in the management of human resources.
- Use critical thinking, including quantitative reasoning, to make management decisions.
- Market hospitality goods and services effectively and responsibly.
- Apply principles of sound financial management, including accepted accounting practices.
- Analyze legal, ethical, and social-political considerations affecting organizations.

MERCHANDISING: FASHION AND INTERIORS

The merchandising: fashion and interiors program prepares students for a broad range of careers related to the fashion and interiors industries. Merchandising is a specialized management function within these industries. Graduates find employment in manufacturing, marketing, and distribution of apparel, accessories, personal care products, home furnishings, home interiors goods, and other housing related products. In both fashion and interiors merchandising positions, planning, development and presentation of product lines for identified target markets with regard to price, assortment, style, and timing are the main activities. Some of the possible work activities merchandising graduates may find themselves engaged in are: attending market functions where styles and trends in the industry are showcased; making seasonal visits to wholesale markets, e.g., New York, Chicago, Los Angeles, High Point and Atlanta; managing the major functions of merchandising, i.e., analyzing influences on market trends, managing the movement of merchandise from concept to production to distribution; researching and developing new products; planning and designing visual displays of merchandise; maintaining a showroom in a market center; or selling to clientele at trade shows or at their own location.

Merchandising students complete an interdisciplinary program of major courses in merchandising, human ecology and business as well as supporting academic courses in economics, communication, computers, and the sciences. Students may choose a concentrated study in either fashion or interiors. Students may also earn a minor, take additional courses in marketing or another academic area related to their career choice, or they may take additional courses in merchandising and human ecology. Students may
study abroad or in New York City. New York City study options include the Fashion Institute of Technology, the Marist College internship program or the Kent State University Studio Experience.

Fashion Institute of Technology
Visiting-Student Option

Students may attend The Fashion Institute of Technology in New York City (one of the State Universities of New York) for one year as a visiting student. They may take courses to complement their studies at YSU or complete a program that leads to an associate degree in: accessories design, advertising and marketing communications, advertising design, fashion design, fashion merchandising management, manufacturing management: apparel products and related industries, textile development and marketing or textile/surface design. Students must complete 60 semester hours and the general education requirements, have at least a 3.0 GPA, and follow a specified program of study at YSU before entering the FIT program. Upon completion of the baccalaureate degree in Applied Sciences (B.S.A.S.) requirements at YSU, those students who pursued the degree option will be awarded an Associate of Applied Sciences (A.A.S.) from the Fashion Institute of Technology. Students who plan to participate in the FIT visiting-student program should notify their advisor as soon as possible so that the appropriate courses are completed to qualify for admission as a visiting student. For more information on FIT programs, visit the FIT web site: http://www.fitnyc.edu.

Learning Outcomes

At the completion of the merchandising: fashion and interiors program, graduates will be able to

- Analyze and appropriately apply principles of merchandising and product development to solve manufacturing and marketing problems.
- Interpret needs and wants of target customers.
- Develop a financially sound product line.
- Integrate and apply merchandising, principles in workplace settings.
- Evaluate product quality and serviceability.

**PREKINDERGARTEN**

This associate degree leads to Associate Licensure in Pre-Kindergarten Education. Graduates are qualified to teach in, or manage, licensed daycare and preschool programs, and are eligible for associate pre-kindergarten teacher licensure. Most of the coursework can be applied toward a bachelor's degree in family and consumer science or early childhood education. Within the framework of their required courses, students complete 300 hours of clinical/field work. This program normally requires five semesters of study averaging 15 hours per semester.

**Learning Outcomes**

At the completion of the prekindergarten program, graduates will be able to

- Design and implement developmentally appropriate lessons.
- Involve families in learning
- Assess a child's development in five developmental domains.
- Recognize and use ethical guidelines and professional standards related to early childhood practice.

*This program requires clinical/field work.*
DEPARTMENT OF HUMAN PERFORMANCE AND EXERCISE SCIENCE
330-941-3654

Professors Bosso, Matanin; Associate Professors Mullins, Pintar, Walker (Chair); Assistant Professors Lateiss, Tessmer.

The goals of the Department of Human Performance and Exercise Science are to improve motor performance, develop health related lifetime fitness for the university community, and prepare students for related professions. These goals are achieved by promoting and integrating scientific research related to human performance and exercise science as presented through focused programs of study and outreach services.

Students interested in majoring in physical education or exercise science should consult with an advisor in the Department of Human Performance and Exercise Science.

General Education Courses

The Department offers one course that satisfies general education requirements. HPES 1500—Physical Activity Core Concepts may be applied in the Personal and Social Responsibility domain. Please note that in order for HPES 1500 to count in the PS domain students must take two HPES activity courses in addition to HPES 1500. These courses do not have to be taken concurrently.

Elective/Required Courses

Students who entered the University for the first time beginning fall semester 2000 or thereafter are not required to take any activity classes; however, activity classes may count for general education credit and may count as elective credit. Please refer to the paragraph above for general education information.

Students beginning coursework under the quarter system but finishing under the semester system are required to have completed 2 activity classes, or 2 quarter or semester hours of activity credit, prior to graduation. Some activity classes are offered for more than 1 semester hour of credit. The form of activity is chosen by the student; however, it is strongly recommended that students select courses which promote lifetime wellness and/or the improvement of motor performance. Activity courses are listed in each semester’s Schedule of Classes. For a complete listing of activity courses that satisfy this requirement see the activity course listings in this Bulletin.

It is suggested that all students confer with their physician prior to enrolling in activity classes. Students with physical disabilities are urged to see their physician, or the nurse in the Student Health Services office, to review activities which might be appropriate. Most activity classes can be adapted to one’s personal abilities and students are encouraged to discuss this with the instructor. Students with disabilities are encouraged to focus on their physical abilities and consider the social and physical benefits that accrue from physical activity. If a disabled student finds only one appropriate activity class, permission may be requested from the department chair (Beeghly Center 307) to take the same class twice for credit.

Veterans who have served at least one full year can receive physical education credit for service. This is detailed under the heading “Veterans” in the Undergraduate Bulletin.

Members of the men’s or women’s varsity teams may receive physical activity credit through enrollment in HPES 1549, varsity competition. This class may be repeated one time per year for each sport in which an athlete is participating.

Students must provide their own clothing for activity classes, and this attire must be appropriate to the activity. In addition, students who wish to use the locker facilities, must bring their own lock and towel for use during activity classes. Most of the other equipment for physical education classes is supplied by the department (an asterisk beside the catalog number indicates a lab fee will be charged).

EXERCISE SCIENCE—B.S. IN APPLIED SCIENCE

The Department of Human Performance and Exercise Science offers a Bachelor of Science in Applied Science degree with a major in exercise science. This program prepares students for certification through the American College of Sports Medicine (ACSM) as health/fitness instructors. As such, graduates will be able to design safe and effective exercise prescriptions, and conduct individual exercise programs, fitness testing, and health education for low-to moderate-risk individuals, individuals with controlled diseases, and individuals in special populations (e.g. pregnancy, hypertension, diabetes mellitus). Graduates are employed in a wide variety of settings that include: public and private fitness clubs, hospital based wellness programs, corporate wellness programs, strength and conditioning, and clinical rehabilitation programs such as cardiac rehabilitation. In addition, the program serves as a strong foundation for students wishing to pursue advanced degrees in the field of exercise science or enter professional schools such as physical or occupational therapy.
Learning Outcomes

The student learning outcomes for the B.S.A.S. in exercise science are as follows:

• Students will accurately perform exercise and fitness evaluations for both healthy and special/clinical populations, and use the results to develop safe and effective exercise prescriptions.
• Students will demonstrate the ability to design and lead training programs that maximize physiological functioning and performance using various methods and modes of exercise.
• Students will plan and implement a variety of appropriate exercise activities for large and small groups, as well as individuals.
• Students will develop a competent understanding and acceptance of the health care team approach to working with clients.

Admission

Application forms and other information for formal admittance to the Department of Human Performance and Exercise Science may be obtained in the department office, Room 307, Beeghly Center. This program can be completed in eight semesters if students average 16 hours per semester.

For individual semester advisement, including general education, minor, and additional requirements, see assigned departmental advisor.

The following are HPES courses required in the major for this degree:

HPES: 1559, 1560, 1595, 2605, 2625, 3700, 3710, 3710L, 3720, 3720L, 3730, 3740, 3760, 4810, 4820, and 4880.

PHYSICAL EDUCATION—B.S. IN EDUCATION

Professional Teacher Education Program

Youngstown State University is fully approved by the Ohio State Department of Education for the preparation of physical education teachers for public schools. The degree of Bachelor of Science in Education with a major in physical education leads to a license in multi-age education.

Those students seeking upper-division admission in physical education must have achieved Beeghly College of Education upper-division status and must supply the Department with written verification of this status. For more information concerning this requirement and for formal admission to the Department of Human Performance and Exercise Science please contact the main office in Room 307, Beeghly Center.

Learning Outcomes

The student learning outcomes for the B.S. in Education in physical education are as follows:

• Students will demonstrate an understanding of physical education content and disciplinary concepts related to the development of a physically educated person.
• Students will demonstrate an understanding of how individuals learn and develop, and how to provide opportunities that support physical, cognitive, social, and emotional development.
• Students will demonstrate an understanding of individual and group motivation and behavior to create a safe learning environment that encourages positive social interaction, active engagement in learning, and self-motivation.
• Students will plan and implement a variety of developmentally appropriate instructional strategies to develop physically educated individuals.

Curriculum Guide

For individual semester advisement, including general education requirements, see assigned departmental advisor. It is also recommended that, once students have applied for and been accepted to upper division in the Beeghly College of Education, they see an advisor in the BCOE for individual advisement related to education courses. This program can be completed in nine semesters if students average 15 hours per semester.

The following are HPES and Beeghly College of Education (BCOE) courses required in the major for this degree:

HPES: 1506, 1567, 1574, 1575, 1577, 1579, 1589, 1595, 2605, 2610, 2628, 2661, 2670, 3720, 3767, 3780, 4808, 4851, 4876, 4878, 4895, 4899, and 4899L.
BCOE: FOUN 1501, TERG 3710, FOUN 3708, PSYC 3709, EDTC 3771, MULT 4807, SED 4842A., SED 4846, and SPED 2630, PSYC 3758.

PHYSICAL EDUCATION—BACHELOR OF ARTS

This program is intended for students seeking careers in recreation or sport related commercial fields. The Bachelor of Arts degree does not offer teacher licensure. For teacher licensure information please see the B.S. in Education section above.

Learning Outcomes

The student learning outcomes for the A.B. in physical education are as follows:

• Students will demonstrate an understanding of physical education content and disciplinary concepts related to the development of a physically educated person.
• Students will demonstrate an ability to facilitate competent motor skill performance.
• Students will demonstrate the ability to successfully intern with an organization, other than a public or private school, associated in some way with the field of physical education.
Admission
Application forms and other information for formal admittance to the Department of Human Performance and Exercise Science may be obtained in the department office, Room 307, Beeghly Center. This program can be completed in eight semesters if students average 16 hours per semester.

For individual semester advisement, including general education and minor requirements, see assigned departmental advisor.

The following are HPES courses required in the major for this degree:

HPES: 1554 or 1555, 1557, 1577, 1589, 2610, 2618 (2 classes), 2761, 3720, 3765, 4808, 4851, 4855, 4899, 4899 Lab.

DEPARTMENT OF MILITARY SCIENCE
330-941-3205

Assistant Professors Sleva (Chair), and Mueller; Instructors Erickson, and Billett.

Army ROTC has served the University and the nation since 1949 by preparing students for service as professional officers in the United States Army. The military science program at YSU offers a four-year course of study that adds practical management training and leadership experience to students’ chosen degrees.

ROTC expands a student’s education by providing leadership and management experience. This training helps students develop self-discipline, physical stamina, and poise—qualities basic to success in any worthwhile career. Students genuinely interested in military service can earn commission as second lieutenants in the U.S. Army (which includes the Active Army, Army National Guard, and Army Reserve) while earning their college degrees. Through ROTC, the Army gains officers with diverse educational backgrounds and contemporary ideas. At the same time, ROTC graduates have the chance to use their training in positions of leadership, and they enable the Army to relate to the thoughts and feelings of our ever-changing society. At present, over 80 percent of all second lieutenants in the U.S. Army come from ROTC programs nationwide. Students who have career goals outside the Army that require leadership or managerial skills, with interests in national defense structure, and who wish to explore the benefits of the Army are encouraged to enroll in the introductory lower-division military science courses. These courses can be applied as elective credit toward graduation. Participation in these classes is voluntary and carries no military obligation.

Army ROTC is one of the programs at YSU that provides leadership training. In Army ROTC, students quickly gain the confidence and self-discipline necessary to succeed in college. As they progress, students acquire skills and experience in taking charge of activities, setting goals, managing people and resources, and making decisions in demanding circumstances. When they complete the Army ROTC program and graduate from YSU, students will have gained both leadership and academic credentials necessary to take on responsibility as Army officers and/or step into corporate America. A minor in Military Science is available in consultation with the academic major advisor and the Military Science Department.

Four-year Program

The four-year Army ROTC program is divided into two parts: the Basic Course and the Advanced Course.

The Basic Course is usually taken during the freshman and sophomore years: MSCI 1510, MSCI 1520, MSCI 2610, and MSCI 2620. No military commitment is incurred during this time. After completing the Basic Course, students who have demonstrated officer potential and meet physical and scholastic standards are eligible to enroll in the Advanced Course. The Advanced Course is normally taken during the junior and senior years of college: MSCI 3710, MSCI 3720, MSCI 4810, and MSCI 4820.

Advanced Course cadets attend a four-week ROTC Leader Development and Assessment Course (LDAC) (MSCI 3740) during the summer between their MS III and MS VI (junior and senior) years. In this course students put into practice the leadership and tactical skills they have acquired in the classroom.

All students in the Advanced Course receive uniforms, pay for the Leader Development and Assessment Course (LDAC), and a living allowance each school year.

Before entering the Advanced Course, an individual signs a contract that certifies an understanding of the service obligation. This obligation may be fulfilled in a variety of ways depending on the individual’s personal preference and the needs of the Army at the time of commissioning.

Scholarship graduates incur an eight-year obligation and are required to serve one of the following obligations: two years on active duty and four years in an Army Reserve or National Guard unit then two years in the Individual Ready Reserve (IRR); or three years on active duty and five years in the IRR; or four years on active duty and four years in the IRR; or eight years in Army Reserve or National Guard unit.

Nonscholarship graduates are required to serve one of the following obligations: two years on active duty and six years in the IRR; or three years on active duty and five years in the IRR; or four years on active duty and four years in the IRR; or six years in an Army Reserve or National Guard unit and two years in the IRR; or eight years in the IRR.

All commissionees incur a service obligation of eight years with service being either full time active duty or part time in the reserves. The mix of active and reserve duty is determined by the needs of the Army, the cadets performance and the type of con-
Two-year Program

The two-year program permits students who attended a junior college, transfer students, or those who did not take Military Science Basic Courses during their first two years of school, and students entering a two-year post graduate course of study to enter the ROTC Advance Course. Students can take advantage of this opportunity by successfully completing a paid four-week ROTC Leaders Training Course (MSCI 2640), usually after their sophomore year, and enrolling in the ROTC Advanced Course, normally in their junior year. Except for this camp, the requirements for and obligations incurred in the two- and four-year programs are the same.

All students in the Advanced Course receive uniforms, pay for the Leader Development and Assessment Course (LDAC), and a living allowance each school year.

Before entering the Advanced Course, an individual signs a contract that certifies an understanding of the service obligation. This obligation may be fulfilled in a variety of ways depending on the individual's personal preference and the needs of the Army at the time of commissioning.

Scholarship graduates incur an eight-year obligation and are required to serve one of the following obligations: two years on active duty and four years in an Army Reserve or National Guard unit then two years in the Individual Ready Reserve (IRR); or three years on active duty and five years in the IRR; or four years on active duty and four years in the IRR; or eight years in Army Reserve or National Guard unit.

Nonscholarship graduates are required to serve one of the following obligations: two years on active duty and six years in the IRR; or three years on active duty and five years in the IRR; or four years on active duty and four years in the IRR; or six years in an Army Reserve or National Guard unit and two years in the IRR; or eight years in the IRR.

All commissionees incur a service obligation of eight years with service being either full time active duty or part time in the reserves. The mix of active and reserve duty is determined by the needs of the Army, the cadets performance and the type of contract the cadet signed (scholarship or nonscholarship, guaranteed Reserve Forces Duty or participation in the Simultaneous Membership Program of the Army Reserve/National Guard).

Two-year Program

The two-year program permits students who attended a junior college, transfer students, or those who did not take Military Science Basic Courses during their first two years of school, and students entering a two-year post graduate course of study to enter the ROTC Advance Course. Students can take advantage of this opportunity by successfully completing a paid four-week ROTC Leaders Training Course (MSCI 2640), usually after their sophomore year, and enrolling in the ROTC Advanced Course, normally in their junior year. Except for this camp, the requirements for and obligations incurred in the two- and four-year programs are the same.

Opportunities for Veterans/Junior Rotc Graduates

Because military experience may serve as total credit for the ROTC Basic Course, most veterans and students with three years of Junior ROTC (high school) are eligible for the ROTC Advanced Course without further instruction.

Army ROTC/Army Reserve/Army National Guard

Students can further broaden their college experience and earn extra income by combining ROTC with service in the Army Reserve or Army National Guard through the two-year Simultaneous Membership Program (SMP). If students qualify, and SMP vacancies are available, they may join the Army Reserve or Army National Guard unit as officer trainees and simultaneously enroll in the Army ROTC Advanced Course. In addition to an annual subsistence allowance received for Advanced ROTC, SMP participants are paid for their Reserve or Guard drills and summer training sessions.

Army Nurse Corps

To qualify for appointment in the Army Nurse Corps, the student must complete the ROTC program and obtain a baccalaureate degree in nursing. Students who meet all professional requirements will serve as Army nurses on Active Duty, in the Army National Guard, or in the Army Reserve.

Scholarship Programs

See ROTC Military Science (Gold Bar) Scholarship and Army ROTC Scholarships in Appendix B of this Bulletin.

Leadership Laboratory

A practical exercise period for both Basic and Advanced courses. Provides hands-on experience in practical military skills and the development of essential characteristics of leadership through progressive evaluation and counseling. MSCI 1530L, MSCI 2630L, MSCI 3730L and MSCI 4830L.

Extra-Curricular Activities

Cadets are given the opportunity to participate in numerous extra-curricular activities during the school year. During fall semester, cadets can try out for the Ranger Challenge Team, which competes each October against 40 other universities in Ohio, Kentucky, Indiana, Michigan, and Tennessee. The weekend competition takes place at Fort Knox.
Kentucky. A Ranger Challenge Team consists of 9 primary members and one alternate and is coached by a cadre member. The competition consists of several events to include basic rifle marksmanship, one rope bridge, land navigation, 10K forced march, Army Physical Fitness Test, obstacle course, and typically an event or two that are not known until the teams arrive.

Additionally, cadets will take part in a field training exercise at Camp Ravenna Joint Training Center, in Ravenna, Ohio and attend a military dining-in on the YSU campus.

During spring semester, cadets will fire on a rifle range, attend a military ball, and take part in a joint field training exercise with Kent State, John Carroll, and Akron training universities as well as Mount Union College. Seniors only (MSIV-level cadets) participate in a battle analysis briefing and a two-day tour of Gettysburg National Battlefield.

Other optional activities that cadets can participate in include the ROTC Cannon Crew which is a group of cadets that support YSU football games by firing a miniature cannon and performing push-ups after each Penguin touchdown at home football games. The Military Science Department also sponsors several tailgates during the football season that require cadet involvement. Numerous cadets also take part in performing color guards for various on- and off-campus events in support of the University and local community.

Optional Summer or Winter Break Training

An order of merit list is maintained between the three partner ROTC schools (Kent State, Youngstown State, and Mount Union College) to determine the top cadets who are eligible for limited slots in various US Army training schools during the summer and winter break. These schools can include and are not limited to the US Army Airborne School, Air Assault School, Scuba School, Robin Sage, Northern Warfare, Engineer SAPPER school, Helicopter Training Program, Summer Nurse Training Program, and others (see Military Science Department for a complete listing).

DEPARTMENT OF NURSING
330-941-3293

Professors Fitzgerald, McCarthy, McDougal, Mosca, Schuster; Associate Professors Aurilio, Bosley, Hoyson (Chair), Serroka, Wood; Assistant Professors Lisko, O’Dell, Wagner; Instructors Daniels, Janosik, McManus, Shields, Shortreed, Thompson, Rendano, and Roche.

The Department of Nursing offers two programs leading to the Bachelor of Science in Nursing degree. The BSN program is approved by the Ohio Board of Nursing (17 S. High Street Suite 400 Columbus, Ohio 43125; phone: 614-466-3947) and is accredited by the National League for Nursing Accrediting Commission (3343 Peachtree Road NE, Suite 500, Atlanta, GA 30326; phone: 404-975-5000).

Graduates of the BSN program will have achieved a satisfactory level in the following areas:
- Critical thinking
- Nursing practice
- Communication
- Personal and professional growth

Admission Requirements for the Bachelor of Science in Nursing Program.

Two programs a generic (pre-licensure) and RN-completion program are offered. The generic program leads to a four-year baccalaureate degree. The RN/BSN-completion program is offered for students who are currently licensed as registered nurses and are returning to YSU to complete requirements for a baccalaureate degree. The RN/BSN-completion program takes two or more academic years on a part-time basis, depending on the student's academic background.

The generic students complete admission requirements as pre-nursing majors before formal admission to the BSN program. The RN students are admitted directly to the BSN program on an individual basis. Admission into the BSN degree program is restricted. Admissions for the generic program students are held only once a year. Students who will have completed all admission requirements by the end of spring semester are eligible to apply for fall semester admission. Students who are currently registered nurses and seeking BSN-completion requirements are admitted any semester depending on their transferable prerequisites.

Applicants for the BSN degree program must meet the following minimum requirements:

1. General University pre-college requirements for the Bachelor of Science degree.
2. Completion of required pre-nursing courses with a grade of “C” or better and a cumulative GPA in these courses of 2.80.
3. A cumulative GPA of 2.5 in all college course work.
4. Evidence of current CPR for Health Care Provider Certification.
5. Completed physical examination and immunization requirements.
6. Fingerprinting by the YSU Police Department for BCI&I and FBI criminal records check.
7. Photocopy of valid YSU ID.
8. YSU Student Conduct Review.

Registered nurses in the RN/BSN-completion track must meet all of the above requirements in addition to being a registered nurse with a current license to practice in Ohio.

Required pre-nursing courses for generic BSN students include:
- BIOL 1551/L, 1552/L
- CHEM 1505/L and 1506/L
- PSYC 1560 and 3758
- ENGL 1550 and 1551
Admission to the University, meeting minimal program admission requirements, and completion of pre-nursing courses does not guarantee admission into the nursing program. Pre-nursing students are encouraged to seek advisement on a regular basis from the pre-nursing advisor in the Dr. Dominic A. and Helen M. Bitonte College of Health and Human Services.

Course Enrollment/Scheduling

All nursing courses except NURSG 2610 are available only to students formally admitted into the BSN program. Courses identified in the Schedule of Classes for RNs only are limited to registered nurses enrolled in the RN/BSN-completion program.

Many nursing courses include an off-campus clinical component. These courses are designated on the curriculum list with semester hours in parentheses. Example: NURS 3743...5(3+2). This course has three semester hours of lecture and two semester hours of clinical. Generally, one semester hour of credit is earned for each three clock hours of on-campus laboratory skills instruction and for each three off-campus clock hours of clinical instruction. The exceptions are NURS 3741 clinical, where it is 2.7 clock hours per semester hour and NURS 4853 clinical, where it is 4 clock hours per semester hour. Personal responsibility for transportation is required for travel to off-campus clinical sites.

Malpractice insurance is required for all clinical nursing experiences and is provided by the University when the student registers for the specified courses. Some risk is inherent to nursing students during their clinical education, but precautions are taken to minimize this risk.

Academic Requirements for the Bachelor of Science in Nursing Degree

The generic BSN program consists of 127 total semester hours; 71 semester hours are nursing courses and include 90 on-campus lab hours and 960 clinical contact hours.

Students are responsible for adhering to the prescribed BSN curriculum sequence including, but not limited to, course prerequisites and mandated sequencing of nursing courses. It is also the students’ responsibility to see that all graduation requirements for the BSN degree are satisfied. It is recommended that students frequently seek guidance from their nursing advisor. A copy of the BSN curriculum is available from the Department of Nursing. This program can be completed in eight semesters if students adhere to a curriculum schedule of 14-17 credit hours per semester.

After admission to the program, a grade of “C” or better is mandatory for all nursing courses, required non-nursing support courses, and required elective/general education hours. Only one nursing or one non-nursing support course may be repeated (excluding required elective general education course). A repeated course must be successfully completed with a grade of “A,” “B,” or “C” and all incompletes must be removed before progressing in the nursing curriculum. A grade of less than “C” in a second nursing or required non-nursing support course will result in permanent removal from the nursing program.

A Bachelor of Science in Nursing degree will be granted to the student who has completed the required baccalaureate nursing curriculum with a minimum grade point average of 2.00.

The Department of Nursing reserves the right to remove a student from the program when that student’s performance in any nursing course is deemed to be unsafe as characterized by dangerous, inappropriate, irresponsible or unethical behavior. The Department reserves the right to dismiss a student who, for legal, ethical, academic, emotional, or physical reasons, cannot be advised to continue in the program.

Current immunizations, CPR for Health Care Professionals certification, and annual fingerprinting for BCI&I and FBI checks are required of all nursing students. If the criminal record check reveals an egregious felony, the Ohio Board of Nursing will not consider the applicant for licensure. Please refer to the Ohio Board of Nursing website, http://www.nursing.ohio.gov/ for additional information. Certain felony or misdemeanor criminal records may prevent the student from attending clinicals, which will result in the student’s inability to progress in the nursing program. Students must adhere to a dress code which includes the wearing of specific nurse’s uniform for nursing clinical courses. All policies/requirements stated in this Bulletin and the BSN Undergraduate Handbook must be adhered to by students throughout the program.

Learning Outcomes

The student learning outcomes for the major in nursing are as follows:

- Apply the nursing process when formulating a plan of care for individuals, families, groups, and communities across the lifespan.
- Demonstrate critical thinking, ethical decision-making, and the use of therapeutic interpersonal skills in the practice of professional nursing.
- Demonstrate the ability to use effective communication when collaborating with members of the health care team.
- Apply theories and research from nursing and other disciplines in the practice of professional nursing.
- Integrate the professional standards of conduct, legal, ethical, and financial accountability and responsibility into their nursing practice.
- Demonstrate flexibility and self-directed behavior in diverse practice settings.
• Integrate health education into plans of care for individuals, families, groups, and communities.

• Demonstrate leadership and management skills in diverse practice settings.

*Will be taken either spring or fall semester.

### Curriculum leading to the Bachelor of Science in Nursing Degree for RN Students (RN/BSN-completion)

1. Nursing credit hours awarded after completion of NURS 2643, NURS 2650, and NURS 2646 with a cumulative GPA of 2.00.............44 hrs.

Equate to the following courses:
NURS 2645, NURS 3731, NURS 3741, NURS 3743, NURS 4832, NURS 4840, NURS 4842

2. Required Support Courses .............Total 19 hrs.
MATH 2625.............................................4 hrs.
ART/LIT GER..........................................6 hrs.
CMST 1545.............................................3 hrs.
SOC/INST GER........................................6 hrs.

3. Required Nursing Courses .............Total 30 hrs.
NURS 2643.............................................4 hrs.
NURS 2646.............................................4 hrs.
NURS 2650.............................................3 hrs.
NURS 3720.............................................4 hrs.
NURS 3749.............................................3 hrs.
NURS 4846.............................................5 hrs.
NURS 4854.............................................6 hrs.
NURS 4852 Senior Capstone Seminar ........1 hr.

4. Additional Academic Courses to meet the following minimum requirements:
127 minimum program hours for graduation with at least 48 hours in upper division.

*The eight required nursing courses are offered in late afternoon and early evening, two per semester, to accommodate working RNs.

### School Nurse Licensure Program

This program is designed to build on an undergraduate education and to prepare registered nurses for school nurse licensure. Courses are taught by both the Nursing Department and the Beeghly Coll-
College of Education. The required curriculum consists of 6 courses plus a practicum. The practicum is a 150-hour (5 s.h. credit) learning experience under the supervision of a licensed school nurse preceptor and a nursing faculty member. This practicum may be taken in increments to accommodate the working student. Opportunities for practicum hours to be waived (up to 2 s.h.) are considered on an individual basis for nurses with school nurse experience.

Students seeking admission into the school nurse licensure program must have an undergraduate degree with coursework in growth and development, psychology, sociology, and community health. Students must be licensed to practice nursing in Ohio or eligible to be licensed (graduate of an approved school of nursing). An Ohio Registered Nurse license is required for practicum placement. Contact Dr. Nancy Mosca, Nursing, for further information.

**NURSING HOME ADMINISTRATION**

The Department of Nursing offers a Bachelor of Science in Applied Science degree in nursing home administration. The program prepares students to become specialized, self-critical, accountable, licensed administrators in nursing and convalescent homes, retirement communities and related health care industries.

The program has been approved by the State of Ohio Board of Examiners of Nursing Home Administrators. Graduates are eligible to sit for the national and state licensure examinations.

Students must complete all required coursework for the university and major and have an overall GPA of 2.25, a “C” or better in all courses in the major, 1000 hours in an approved internship, 48 hours of upper-division courses, and 124 hours of coursework overall.

**Required Courses:**

- MATC 1501/ Medical Terminology
- FNUT 1551/Normal Nutrition I
  or FNUTR 5873/Nutrition and Aging
- FNUT 2612/Food Systems I: Operations
- NURS 2610/Contemporary Nursing
- SOC 3703/Aging and Society
- SCWK 3730/Social Services and the Aged
- CSIS 1514/Business Computer Systems
- ACCT 2602/Financial Accounting
- ACCT 2603/Managerial Accounting
- FIN 3720/Business Finance
- MGT 3725/Fundamentals of Management
- MGT 3735/Communication for Management and Business
  or PSYC 3712/Survey of Industrial/Organizational Psychology
- or SCWK 4860/Health Issues for Social Work Practice
- CMST 3756/Interviewing
- SOC 3701/Social Statistics I
  or SCWK 3750/Analysis of Social Work Practice Data
- SOC 4850/Research Methods
  or SCWK 3760/Research Methods for Social Work
  or AHLT 4806/Research Methods
  or NURS 3749/Nursing Research
- AHLT 5840/Comparative Health Systems
  or AHLT 5816/Environmental Regulations for Health Care
- HSC 5893/Workshop in Health
- SOC 4821/Internship in Sociology
- SCWK 4827 / Integrated Capstone Seminar

**Required Support Courses:**

- PSYC 1560/General Psychology
- SOC 1500/Introduction to Sociology
- BIOL 1505/Biology and the Modern World
- ECON 1501/Economics in Action
  or ECON 2610/Principles 1: Microeconomics

**DEPARTMENT OF PHYSICAL THERAPY**

330-941-2558

Professor Iannucci, Associate Professors Landgraff, (Chair), Learman, Wetzel; Assistant Professors Ge, Giuffre (Academic Coordinator of Clinical Education), BieberParrott, Instructor Benedict.

The Department of Physical Therapy offers an entry-level postbaccalaureate professional curriculum, granting a Doctor of Physical Therapy (D.P.T.) degree. An entry-level doctorate requires undergraduate preparation in a field of study other than physical therapy followed by postbaccalaureate professional study in physical therapy. Only graduates from accredited postbaccalaureate programs may sit for the national physical therapy board examination; passage of this exam is required for licensure to practice. Only licensed physical therapists may legally engage in evaluation and treatment activities defined in state practice acts as “physical therapy.”

Because the professional graduate program requires undergraduate preparation and prerequisites, the program is summarized here. Further detail is provided in the Graduate Bulletin and by the Department of Physical Therapy.

The professional program is a three-calendar year curriculum which begins each summer. Students admitted, through selective admissions, complete all courses together as a cohort group. The didactic curriculum is based on a contextualized professional decision-making model, progressing from basic to
complex cases of client management in established physical therapy practice patterns. The clinical education component includes 32 weeks of supervised practice with licensed physical therapists in area facilities as well as those located in various states across the country. Students attending out-of-state clinical affiliations will be responsible for travel and housing expenses. All students must fulfill clinical facility requirements (including such items as immunizations and insurance coverage).

Undergraduate preparation may be sought through any major and must include satisfactory completion of general education requirements and university graduation requirements. However, to be eligible to apply to physical therapy, the following prerequisites must be completed. Some majors, such as biological sciences, exercise science, and psychology include many of these courses.

*with labs

All prerequisite courses must be completed (with a C– or better) prior to admission into the program. Undergraduate degree requirements may be completed prior to admissions, but must be completed no later than the end of the fall semester of the first professional year. YSU undergraduate students who have carefully planned coursework and degree requirements may be eligible to apply in their third (junior) year. Application in fall semester allows juniors who qualify to be notified in spring and begin the professional program in summer.

Admission eligibility and requirements are more fully described in the graduate catalog but are summarized as follows:

Consideration for admission includes:
1. Receipt of complete application by specified deadline.
2. Overall GPA of at least 3.0 on a 4.0 scale.
3. Prerequisite GPA of at least 3.0 (with C– or better in each course).
4. Degree completion no later than the end of Fall semester of the first professional year.
5. Submission of GRE scores
6. 40 hours of observation of a physical therapist

The selection/admissions process is competitive; meeting eligibility criteria to apply does not assure admission into the program. The admission criteria currently include GPA and GRE scores, interview, and references. The admissions process is subject to change based on Admissions Committee decisions; applicants should carefully review the application materials.

Upon completion of the physical therapy program graduates will:
- Be prepared to sit for and pass the National Licensure Examination
- Demonstrate professional, contextualized, decision making related to patient management.
- Formulate a plan of personal goals to continue professional development.
- Demonstrate a commitment to the physical therapy profession.
- Display the characteristics and abilities of an autonomous practitioner of physical therapy.

DEPARTMENT OF SOCIAL WORK
330-941-1598

Associate Professor Morawski (Chair); Professor Slivinske; Associate Professors Keller; Silver; Assistant Professors Causey, Laing, Spiegel.

The baccalaureate degree with a major in social work prepares students for entry into beginning, generalist, professional social work practice. Social workers are employed in a variety of settings such as public and private welfare agencies, mental health centers, health care settings, educational systems, correctional institutions, and business and industry. The Social Work Program is accredited by the Council on Social Work Education. A baccalaureate degree in social work qualifies a person to apply for state licensing in social work.

Learning Outcomes

The student learning outcomes for the major in social work are as follows:

- Prepare students for beginning, generalist social work practice
- Provide students with the ability to integrate the knowledge, values, and skills of the social work profession into competent practice with individuals, families, groups, organizations and communities.
- Develop the ability of students to work with a diversity of clients, presenting problems, and social service delivery systems.
- Facilitate the development of core values and ethics of the social work profession.
- Prepare students to address issues affecting social and economic justice to include poverty, oppression, racism and discrimination.
- Prepare students to sustain their effectiveness by instilling the value of continuing professional growth.
Admission Policy

Neither admission to the University nor enrollment in social work courses as a pre-social work major guarantees full admission to the social work program. Full admission to the program is required to become a social work major and to gain access to upper-division social work classes. Pre-social work majors who are not formally admitted to the social work program will be unable to obtain a permit to register for Social Work 3736 and subsequent social work courses for which Social Work 3736 is a prerequisite.

PRE-SOCIAL WORK MAJOR

Students enter the BSW program by declaring themselves as pre-social work majors and begin progress toward a degree by enrolling in General Education Requirements, support, and pre-social work courses. These courses are typically completed in the freshman and sophomore years.

Neither admission to the University nor enrollment in social work courses as a pre-social work major guarantees full admission to the social work program.

Pre-social work courses include the following:

<table>
<thead>
<tr>

SOCIAL WORK MAJOR

To gain entry into upper division social work courses beginning with SCWK 3736, students must be formally admitted to the social work major. To be admitted to the social work major, students must be declared pre-social work majors and meet the following requirements:

1. Complete all pre-social work courses with a C or better;
2. Possess an overall GPA of 2.5 or better;
3. Submit a completed Social Work Program Admission Application (available online or from the Department of Social Work) before the 4th week of the semester preceding the semester for which admission is sought.
4. Participate in an admission interview and be approved for admission by the BSW Program Admission Committee.

The following courses may be taken concurrent with the field work in social services:

<table>
<thead>
<tr>

</tr>
</tbody>
</table>

*Must be concurrently taken with SCWK 4825.

A Bachelor of Social Work (BSW) degree is awarded after completion of 124 semester hours of credit which includes all required support courses and social work courses of the major.

SOCIAL SERVICES TECHNOLOGY

The Department of Social Work offers a two-year program in social services technology leading to the degree Associate in Applied Science.

The primary purpose of this program is to provide a formal two-year degree for those currently employed social worker aides who wish to increase their professional qualifications, and for those who are entering the field of social work in the less complex positions.
The student must meet the general degree requirements and department course requirements as follows:

**General University Requirements**

**AEROSPACE STUDIES PROGRAM (Air Force ROTC)**

The Air Force ROTC program, offered through an agreement with Kent State University, provides professional preparation and leadership training for students considering service as officers in the U.S. Air Force. The program also offers information on Air Force career opportunities and the role of the military in the American society. Scholarships are available to help students complete their bachelor’s and/or master’s degrees.

**Overview.** There are two primary AFROTC programs under which officer candidates may earn their commissions. The first is a four-year AFROTC program. It includes membership in (and completion of) the General Military Course (GMC), a four-week field training course, and the Professional Officer Course (POC). The second is a two-year program designed for students who have two years of academic work remaining. In the two-year program, students are selected to participate in the POC program and attend a five-week field training course, which includes coursework covered during the freshman and sophomore years. Both programs result in a commission as a Second Lieutenant in the United States Air Force. A minor in aerospace studies is available in consultation with the academic major advisor and the Aerospace Studies Department.

**Registering.** Courses are normally taken for academic credit as part of the students’ electives. Entering freshmen and sophomores may register for aerospace studies courses at the same time, and in the same manner, as they enroll in their other YSU courses. Juniors and seniors wishing to enroll in AFROTC should call the AFROTC Unit Admissions Officer prior to enrollment to discuss the particular requirements. Students enrolled in the program must travel to Kent State University once a week to attend the courses. Arrangements can be made for carpools or pick-up if the students do not have transportation.

**Curriculum.** The curriculum in aerospace studies is divided into two parts: the General Military Course—usually taken during the freshman and sophomore years—and the Professional Officer Course, normally taken during the junior and senior years (see Overview, above). Air Force officers are assigned as full-time faculty members and teach all aerospace studies courses. **Freshmen** may register for AF 1501 and 1503 for the fall term and AF 1502 and 1504 for the spring term. **Sophomores** may register for AF 2601 and 2603 for the fall term and AF 2602 and 2604 for the spring term. The courses include one hour of academic instruction and a ½-hour leadership laboratory each week. All courses are taught at the Kent State University main campus in Kent, Ohio. Non-scholarship students incur no military obligation when enrolled in freshman- and sophomore-level courses. **Juniors** will register for AF 3701 and 3703 for the fall term and AF 3702 and 3704 for the spring term. **Seniors** in the AFROTC program will register for AF 4801 and 4803 for the fall term and AF 4802 and 4804 for the spring term.

The General Military Course. The General Military Course (GMC) is offered in four-sequenced lower-division aerospace studies courses. Each course consists of one hour of academic instruction per week and 15 leadership laboratory contact hours per semester. Non-scholarship membership in the GMC does not confer any military status or commitment upon the students, but affords them the opportunity to learn about the Air Force and its role in the American society. Students who do not want commissions may take the aerospace studies courses for academic credit only. There is no military obligation incurred by enrolling in the GMC.
The Professional Officer Course. The Professional Officer Course (POC) is a four-part upper division aerospace studies course. Each course consists of three hours of academic instruction per week and 15 leadership laboratory contact hours per semester. Entrance into POC is limited to qualified students desiring to compete for Air Force commissions. Enrollment in this program is based upon a cumulative grade point average, physical qualifications, and leadership.

Veterans. Veterans with previous honorable, active U.S. military service who wish to enroll in the POC may be eligible for a waiver of either the GMC or its equivalent as an entrance requirement. Veterans who meet all other requirements will be enrolled at the beginning of their junior year.

Uniforms and Textbooks. AFROTC uniforms and textbooks are provided at no charge. Textbooks are returned upon completion of each academic year or upon withdrawal from the course. Uniforms are returned upon completion of the program or withdrawal from the course.

Financial Assistance. Students who demonstrate academic and leadership potential may be selected by the professor of aerospace studies to compete for scholarships. These scholarships are for three or two years, and are awarded in all majors. The scholarship award includes tuition, textbook allowance, some course fees, and a monthly tax-free stipend.

Scholarship Statement of Understanding. Air Force ROTC scholarship recipients must meet and maintain certain academic and military retention standards and serve in the active-duty Air Force after graduation.

Contact Information. For further information, contact the Department of Aerospace Studies, AFROTC DET 630, 104 Terrace Hall, Kent State University, Kent, Ohio 44242 at (330) 672-2182, or e-mail us at: afrotc@kent.edu.
The College of Liberal Arts and Social Sciences
Shearle Furnish, Dean
Jane E. Kestner, Associate Dean

The College grants two bachelor’s degrees: Bachelor of Arts (B.A.) and Bachelor of General Studies (B.G.S.). Additionally an Associate in Arts (A.A.) degree is offered.

Included in the College are:

**Academic Departments**
- Department of Economics
- Department of English
- Department of Foreign Languages and Literatures
- Department of Geography
- Department of History
- Department of Philosophy and Religious Studies
- Department of Political Science and Rigelhaupt Pre-Law Center
- Department of Psychology
- Department of Sociology, Anthropology, and Gerontology
Academic Programs
Africana Studies
American Studies
Global Education
Islamic Studies
Judaic and Holocaust Studies
Peace and Conflict Studies
Women's Studies
Working Class Studies

College of Liberal Arts and Social Sciences Mission

The mission of Youngstown State University’s College of Liberal Arts and Social Sciences (CLASS) embraces interdependent aspects of teaching, scholarship, and service. The College seeks to meet the educational needs of students enrolled in its associate, bachelor’s, and master’s degree programs and to provide a core of liberal arts coursework for all YSU students.

Youngstown State University’s College of Liberal Arts and Social Sciences, through its general education and major requirements, seeks to prepare students for productive and rewarding lives by developing critical and creative thinking, sound judgment, and effective communication skills. The College strives to impart knowledge of the liberal arts and social sciences and to produce educated citizens who value learning. It helps students develop regional, national and global perspectives and a better understanding of the individual and society in the past and present. The College prepares students for careers, or for further graduate or professional study, by immersing them in liberal arts and social science disciplines. College faculty members use their expertise in service to the University, their professions, and the community to serve as advisors, mentors, and career counselors to students. In addition, they contribute to knowledge within their disciplines by presenting conference papers and publishing books and articles.

Finally, the College values diversity, exposing students to experiences and coursework that affirm the richness of ethnic, cultural, gender, and racial differences.

Programs

For the B.A. degree
Africana Studies
American Studies
Anthropology
Economics
English
French
Geography
Gerontology
History
Italian
Journalism

For the BGS degree
General Studies

ICP Program

Students whose needs are not met by existing conventional programs may wish to investigate and apply for the Individualized Curriculum Program (see Academic Policies and Procedures).

Minors

Minors are available in all program areas with many programs offering multiple and/or interdisciplinary minors. A minimum of eighteen (18) semester hours are required for the minor and 1/3 of the hours must be upper division.

Certificates

Certificate programs are offered in historic preservation and applied gerontology.

Prospective Teachers

Prospective elementary or secondary teachers may work toward a B.A. or B.S. in Ed. degree. Prospective high school teachers major in the College of Liberal Arts and Social Sciences department of their principal field and are advised by that department, except for the requirements for teacher certification, for which advisement is by the College of Education.

For the Institutional Report on the Quality of Teacher Preparation, Title II, Higher Education Act, please see Appendix B of this Bulletin.

Degree Requirements

Requirements for completion of a baccalaureate degree (B.A., B.G.S.) within the College of Liberal Arts and Social Sciences include all University requirements detailed in the Academic Policies and Procedures section of the Bulletin (i.e., requirements regarding total General Education Requirements, university credits, course levels, majors, and minors, grade point average, residency and degree applications). Specific requirements for each major in the College of Liberal Arts and Social Sciences are listed by department.

College Foreign Language Requirement for Bachelor's Degree

All candidates for the B.A. degree are required to complete the elementary (1550) and the intermediate level (2600) of any foreign language offered. Students
with a foreign language background may desire to take the foreign language placement test in order to place into the intermediate level (2600) to satisfy the requirement. It may be possible to satisfy the foreign language requirement through appropriate college transfer coursework and credit by exam.

College Requirements for the Bachelor of General Studies Degree

The Bachelor of General Studies degree (BGS) is a degree-completion option for students who have completed significant coursework but not the requirements for a specific major. Through careful evaluation of coursework already completed at YSU or other colleges and universities, a degree completion plan is constructed for each student. The BGS may also be appropriate for students for whom a general bachelor’s degree may lead to career advancement or for those students who seek the personal satisfaction of having completed a bachelor’s degree.

Individuals who have a bachelor’s degree are not eligible for the BGS degree, and the BGS degree may not be earned concurrently with another bachelor’s degree.

All BGS students complete the requirements of the General Education curriculum (old or new). As such, the goals of the general education curriculum are met by BGS students. They are as follows:

- Write and speak effectively
- Acquire, process, and present quantitative and qualitative information using the most appropriate technologies, including computers
- Reason critically, both individually and collaboratively; draw sound conclusions from information, ideas, and interpretations gathered from various sources and disciplines; and apply those conclusions to one’s life and society

The specific requirements for the completion of the Bachelor of General Studies (B.G.S.) degree are as follows:

A 48-semester-hour concentration with at least 24 s.h. of upper-division credit comprised of:

- Two focus areas consisting of
  - 18-24 s.h. each .............................................. 36-48 s.h.
  - Support courses outside the focus areas ...0-12 s.h.
  - An approved capstone course ......................... 1-3 s.h.
  (Focus-area requirements are submitted by the departments offering the course work in the focus area and are approved by the director of General Studies in coordination with the General Studies Committee.)

Completion of a Cultural/Diversity Requirement..............................................6 s.h.
(Students are required to complete two classes from an approved list.)

Degree Requirements for Associate Degrees

Requirements for the completion of the Associate of Arts (A.A.) degree include those applicable to all associate degrees as detailed in the Academic Policies and Procedures section of the Bulletin: at least 64 semester hours of credit including 18-22 hours of general education. All associate degrees awarded in the College of Liberal Arts and Social Sciences require the following:

General Education Requirements

A.A. Concentration Area.............................................. 21
Electives............................................................. 25-24
Total Degree Hours 64**

*All students in A.A. degree programs who, based on the Math Placement Test, are placed in the developmental math courses (MATH 1500/1501) are required to complete these prior to taking MATH 2623. Math 1500/1501 are not included in the graduation total hours.

**The last 20 semester hours must be completed at Youngstown State University.

Associate of Arts Concentration Areas include:

- **Humanities:** Applicable courses include: literature courses in English or Foreign Language Departments; courses in philosophy and religious studies; survey and/or appreciation courses in the Department of Art, the Department of Communication, the Department of Theater and Dance, or the Dana School of Music; Africana Studies 2601 or HPES 2698.

- **Social Studies:** courses must be selected from the following disciplines: Africana Studies (AFST 2600 only), anthropology, economics, human and regional geography, history, political science, psychology, and sociology.
Courses of Instruction and Curricula

In the following department sections, the course requirements for the various majors are given, but other requirements are not repeated from the list above.

Course descriptions can be found in a separate section in the back of this Bulletin.

AFRICANA STUDIES

330-941-3097

Professor Victor Wan-Tatah, Director.

The Africana Studies program was established in the fall of 1970, and a program for an interdisciplinary major in black studies was approved by the University Senate in the winter of 1972. The purpose of this major is to facilitate the academic investigation and analysis of the historical, literary, social, and aesthetic impact of people of African descent on American society and the world. It also provides for the systematic study of problems confronting the modern multi-racial world. The Africana Studies major can serve as a valuable complement to teacher education, humanistic study, and preparation for various fields of employment such as business, law or social work. An Africana Studies minor complements majors in related areas, especially in economics, education, English, health and human services, history, philosophy, political science, religious studies and sociology. Both the major and minor programs can provide diverse opportunities for employment and for graduate and postgraduate experiences.

Africana Studies Advisory Committee

Dr. Samuel Adu-Poku  Art
Dr. Isam Amin  Geology
Dr. Daniel Ayana  History
Dr. Linda Causey  Social Work
Dr. Rosemary D’Apolito  Sociology
Dr. Priscilla Gitimu  Human Ecology
Dr. Beverly Gray  Psychology
Dr. Cryshanna Jackson  Political Science
Dr. Bonnie Laing  Social Work
Dr. Sherri Lovelace-Cameron  Chemistry
Dr. Ndinzi Masagara  Foreign Languages
Dr. Walter Mathews  Communications
Dr. Denise Narcisse  Anthropology & Sociology
Dr. Tom Oder  Physics & Astronomy
Dr. Christian Onwudie  Criminal Justice
Dr. Dolores Sisco  English
Dr. Victor Wan-Tatah  Phil./Religious Studies

Learning Outcomes

The student learning outcomes for the major in Africana studies are as follows:

- Students will demonstrate their knowledge of history, culture, politics, religion and philosophy of people of African descent and their contributions to world civilization.
- Students will demonstrate their ability to relate to issues of multiculturalism and diversity in national and global contexts.
- Students will effectively demonstrate writing skills and articulate critical ideas and concepts in research relating to the African American experience.
- Majors will effectively conduct independent research and demonstrate verbally and in writing, their understanding of the intellectual development of Africana Studies, including the theoretical underpinnings and its impact on their self understanding.
- Students will be able to critically analyze social, political, and cultural issues relevant to African Americans and the African Diaspora from a cross-cultural perspective.

Major in Africana Studies

The major in Africana Studies is part of a program leading to the Bachelor of Arts degree, and students electing the major must satisfy all other requirements for that degree. The major must include a minimum of 32 hours in Africana Studies courses and other courses approved for Africana Studies. At least 48 hours must be in upper-division courses. A grade of C or better is required in every course counted toward either the major or a minor in Africana Studies.

All Africana Studies majors must complete the following courses:

**Core Courses**

Africana Studies 2600 ...............................3 s.h.
Introduction to Africana Studies I
(GER–Societies and Institutions)
Africana Studies 2601 ...............................3 s.h.
Introduction to Africana Studies II
(GER–Artistic Literary Perspectives)
Africana Studies 3700
Colloquium 1 .........................................3 s.h.
Africana Studies 3701
Colloquium 2 .........................................3 s.h.
Chemistry 2602
African and African American
Contributions to Science .........................3 s.h.
History 2663 African Civilization .............3 s.h.
African Civilization
Social Studies Courses (choose 2-3 courses)
American Studies 4801, 4802, 4803...........9 s.h.
    Perspectives on America (total)
History 2630........................................3 s.h.
    The Black Experience in American History
History 4801........................................3 s.h.
    Select Problems in American History
History 3750........................................3 s.h.
    History of Modern South Africa in the Sahara
History 4860........................................3 s.h.
    Select Problems in Third World History
Political Science 3706............................3 s.h.
    Minority Group Politics
Psychology 3745....................................3 s.h.
    The Minority Individual
Social Work 3726....................................3 s.h.
    The African-American Family
Social Work 3727....................................3 s.h.
    The African-American Community
Sociology 3700.......................................3 s.h.
    Minority Groups
Religious Studies 3751............................3 s.h.
    Liberation Theologies and Revolutionary Change

Humanities (choose 2-3 courses)
Art 3742..............................................3 s.h.
    African Art
Art 3744..............................................3 s.h.
    African-American Art
English 2620.........................................3 s.h.
    Introduction to African Literature
English 4871.........................................3 s.h.
    The Black Experience in American Literature
Music 2616...........................................3 s.h.
    Survey of Jazz
Religious Studies 3708............................3 s.h.
    African American Religion
Religious Studies 3710............................3 s.h.
    African and Neo-American Religion

Core Courses—18 s.h.
Social Studies.....................................6-9 s.h.
Humanities........................................6-9 s.h.

Total in Major.....................................32 s.h.

In addition to the minimum of 32 hours in Africana Studies and courses directly relevant to Africana Studies, the major may include as many as 16 hours in any other courses approved by the director of Africana Studies program.

Suggested Minor
A minimum of 18 hours in courses listed above including the five Core courses.

AMERICAN STUDIES
330-941-2978

Professor Stephanie Tingley, Coordinator
Core faculty:
Frank Castronovo, Theater and Dance
Gordon Frissora, Criminal Justice
Qi Jiang, Sociology and Anthropology
Sherry Linkon, English
Martha Pallante, History
John Russo, Management

American Studies offers students the opportunity to examine the central themes and issues in American life using material and approaches from a variety of disciplines. Through interdisciplinary core and a set of courses in associated fields representing key areas of knowledge and primary methodologies in American Studies, students gain awareness of the broad outlines of American history and culture as well as an understanding of important theories of culture and ways of studying American life. Students also complete courses in a focus area and an independent senior project designed to deepen their understanding of one aspect of American culture. Each student develops an individual plan for completion of the major, selecting from a list of approved courses from Liberal Arts and Social Sciences, Business, Education, Fine and Performing Arts, and Health and Human Services. This degree may be earned in eight semesters if students average 16 hours per semester.

Learning Outcomes
- Students will develop complex analyses of the influence of cultural diversity on major developments and cases in American history and life, integrating cultural materials with concepts of social formation and process.
- Students will compare and connect historical trends, social issues, and/or cultural texts in the US with related examples from specific other countries and/or the global situation of the period under question.
- Students will design and implement significant individual research projects that explore complex questions using appropriate materials, concepts, and methods from multiple disciplines.
- Students will present their own research to multiple audiences, making appropriate choices about the format, content, organization, and the use of evidence that are appropriate for different purposes, audiences, and situations.

Degree Planning Guidelines
1. The American Studies major consists of 48 hours of coursework including 12 hours of American Studies core courses, 15 hours of courses to fulfill the Literacy goals, 6 hours to fulfill the competency
goals, and 15 hours in a focus area (see below for descriptions of these goals and areas). Because the major is interdisciplinary, students do not need a minor.

2. At least 39 hours of coursework must be taken in courses numbered 3700 and above.

3. Students must take a different course to fulfill each literacy or competency goal; no single course may count in more than one category for an individual student.

4. Courses must be selected from at least 3 programs or departments other than American Studies, and these courses must reflect a range of historical periods.

5. Before registering for AMER 4801, American Studies Research Seminar, a student must submit a Major Proposal, listing individual goals, courses chosen, and possible topics for the senior project. The proposal must be approved by the Coordinator and the American Studies Advisory Committee.

CURRICULUM

Required Core Courses–12 hours

2601. American Identity
3701. Approaches to American Studies
4801. American Studies Research Seminar
4810. Independent Project on American Culture

Literacy and Competency–21 hrs.

Choose one 3-hour course for each of seven learning goals listed on the following pages.

Literacies

Textual: Be able to analyze cultural texts such as visual materials, literary texts, artifacts, maps, historical documents, and others.

American Studies 4815 American Material Culture
Anthropology 3761 Cultures of the New World
Art 3744 Seventeenth and Eighteenth Century American Art
Art 3746 (W) Nineteenth Century American Art
Art 3747 African American Art
Art 3781 Native North American Art
English 3732 Images of Women
English 3765 Film Genres
English 3780 American Genres
English 4862 Themes in American Literature
English 4864 Selected Topics in American Literature
English 4865 Selected Topics in Film

Geography 3750 Topics in Regional Geography
History 4815 American Material Culture
History 5808 American Architectural History
Music 2616 Survey of Jazz

Social: Understand theories of culture and social processes, difference, and interactions between Americans as individuals and as members of groups.

American Studies 5845 Work in America
American Studies 5850 Class and Culture
Anthropology 3705 (T/W) Cultural Anthropology
Criminal Justice 5831 Violence in America
Education 3708 Education and Society
Geography 3723 Urban Geography
History 3723 History of American Sports
History 3736 History of American Cities
Management 3750 Human Behavior in Organization
Management 5845 Work in America
Political Science 3712 Political Behavior
Psychology 3707 Psychology of Intimate Relationships
Sociology 2601 Social Problems
Sociology 2640 Women in Society
Sociology 3705 The Family
Sociology 3707 Urban Sociology
Sociology 3741 Social Movements
Sociology 3743 Social Stratification and Inequality
Social Work 2641 American Social Welfare

Historical: Understand historical narratives of the U.S.

American Studies 2605 Turning Points in U.S. History 1
American Studies 2606 Turning Points in U.S. History 2
American Studies 3770 American Literature in Historical Perspective
Anthropology 4825 New World Archaeology
English 2626 (O) American Journalism
English 3770 American Literature in Historical Perspective
Geography 3722 Historical Geography of the United States
History 2605 (T) Turning Points in U.S. History 1
History 2606 (T) Turning Points in U.S. History 2
History 3700 The Atlantic World
History 3702 Early America
History 3704  The Age of Jefferson and Jackson
History 3706  The Age of Sectionalism
History 3710  Incorporation of America: 1877-1919
History 3712  United States in Crises: 1920-1945
History 3713  Cold War America: 1945-1990
History 3732  The West in American History 1
History 3733  The West in American History 2
History 3734  History of Organized Crime in the United States
History 4801  Selected Problems in American History

Global and Cross-Cultural Perspectives: Through study of other cultures or cross-cultural analysis, gain awareness of the complicated relationship between United States and other countries and cultures.

Global and Cross-Cultural Perspectives: Through study of other cultures or cross-cultural analysis, gain awareness of the complicated relationship between United States and other countries and cultures.

American Studies 3705  Cultural Anthropology
Anthropology 3705  Cultural Anthropology
Anthropology 3790  Cross-Cultural Perspectives of Aging
Foreign Language 2660 (W)  Women in the Ancient World
History 1511 (T)  World Civilization to 1500
History 1512 (T)  World Civilization since 1500
History 2663  African Civilizations
History 3727  Mexico and the Caribbean
Philosophy 3702 (O)  History of Modern Philosophy
Philosophy 3760  Ethics of War and Peace
Political Science 2640  Comparative Government
Political Science 2660 (T)  International Relations
Political Science 2695  Model United Nations
Political Science 3744  European Politics: National, Regional, International
Political Science 3751  Latin American Politics
Political Science 3763  International Law
Political Science 3764  International Organizations
Political Science 3768  International Conflict & Conflict Management
Political Science 5820  Select Problems of Global Affairs
Religion 2605 (O)  Myth, Symbol, and Ritual
Religion 3710  African and Neo-African Religions
Religion 3726  Buddhism
Religion 3751  Liberation Theologies and Revolutionary Change
Theater 4860 (W)  Dramatic Texts

Cultural Pluralism: Explore the diversity of American culture, especially issues such as ethnicity, gender, race, class, language, and region.

Africana Studies 2600  Introduction to Africana Studies 1
Africana Studies 2601  Introduction to Africana Studies 2
Africana Studies 3700  Africana Studies Colloquium 1
Africana Studies 3701  Africana Studies Colloquium 2
American Studies 3700  Minority Groups
Art 3744  African American Art
English 2617  Women in Literature
English 2618  American Literature and Diversity
English 3790  Selected Topics in Multicultural Studies
English 4871  The Black Experience in American Literature
Foreign Languages 2630  German-Americans
History 3726 (W)  History of Women in the United States
History 3730  The Black Experience in American History
History 3743  Labor in United States History
Management 3755  Managing Diversity
Political Science 3706  African-American Politics
Psychology 3730 (W)  Psychology of Women
Psychology 3745  The Minority Individual
Religion 3708  African-American Religion
Religion 3710  African and Neo-African Religion
Religion 3720  Islam
Religion 3722  Christianity
Religion 3724  Judaism
Religion 3736  Buddhism
Sociology 2640  Women in Society
Sociology 3700  Minority Groups
Sociology 3743  Social Stratification and Inequality
Sociology 3703  Aging and Society
Spanish 3758  Culture and Literature of Spanish-Speaking Groups in the U.S.
Spanish 4885  Topics in Hispanic Literature and Film
Competencies

Quantitative: Be able to analyze quantitative data such as statistics, opinion polls, or content analysis, and use such information in cultural analysis.

American Studies 3720 Applied Sociology
Anthropology 4850 Research Methods
Criminal Justice 3712 Criminal Justice Research
Political Science 3712 (T) Political Behavior
Political Science 3714 American Public Opinion
Sociology 3720 Applied Sociology
Sociology 4851 Social Research

Qualitative: Be able to gather and analyze qualitative data through techniques such as interviewing, close reading, aesthetic interpretations, and making links among various kinds of sources.

American Studies 3770 American Literature in Historical Perspective
American Studies 4815 American Material Culture
Anthropology 3702 Archaeology
Anthropology 3778 Archaeological Techniques
Anthropology 4877 Method and Theory in Archaeology
English 3770 American Literature in Historical Perspective
History 4811 Practicum in Historic Preservation
History 4815 American Material Culture
History 5809 Documentation and Interpretation of Historical Sites
History 5810 Conservation of the Historic Built Environment

Focus Area–15 hours chosen from the courses listed above

Students may propose other courses to be included in the focus area, with the approval of the coordinator.

ANCIENT LANGUAGES AND LITERATURE

See Greek; Latin; Philosophy and Religious Studies.

ANTHROPOLOGY

See Sociology and Anthropology.

DEPARTMENT OF ECONOMICS

330-941-3428

Professors Petruska, Porter (Chair), Riley, Usip; Associate Professors Hu, Palaridy, Wang; Assistant Professors Ovaska, Sumell, Uppal.

A student can earn either a Bachelor of Arts (B.A.) in economics through the College of Liberal Arts and Social Sciences or a Bachelor of Science in Business Administration (B.S. in B.A.) in business economics through the Williamson College of Business Administration. Either degree may be earned in eight semesters if students average 16 hours per semester.

The economics major is designed to prepare students for careers both in the public and private sectors and for additional study in the field of economics. Economics graduates are qualified for a wide variety of positions in the financial sector, and jobs in business and government research. Students frequently use a major in economics as preparation for law school. Graduates choosing to pursue additional study in economics have been very successful in gaining admission to masters and doctoral programs.

To earn the B.A. degree the student must satisfy all the degree requirements in the College of Liberal Arts and Social Sciences and take 32 hours of courses from the Department of Economics. Required courses are: 2610, 2630, 3710, 3712, 3790, and 4880. Courses at the 1500 level cannot be counted towards the major. Students must take a course in calculus (MATH 1552, 1570, or 1571) prior to taking ECON 3710 and 3712. Students intending to apply for Ph.D. programs in economics should consider taking MATH 1571, 1572, 2673, and 3720.

For information on the B.S. in B.A. in Business Economics see the Williamson College of Business Administration.

Learning Outcomes

To be competitive in the job market, economics majors must have knowledge of microeconomics, macroeconomics, and statistical techniques. They must also be able to apply the theory and statistical techniques they have learned to public policy issues and business problems and be able to present their conclusions. The learning objectives of the economics major are as follows:

- Microeconomics – The student will be able to discuss the characteristics of different market structures and how the structure of a market affects consumers. The student will also be able to explain the conditions that must be met for an economy to use its resources in the most efficient manner possible.
- Macroeconomics – The student will be able to explain the major macroeconomic goals: rapid economic growth, high employment, and stable prices and how the tools of monetary and fiscal policy can be used to achieve macroeconomic goals.
- Statistical Analysis – The student will be able to interpret descriptive statistics, the results of hypothesis tests, and regression estimates.
- Communication Skills – The student will be able to give a well-prepared presentation on an economic problem. By well-prepared, it is meant that the presentation clearly frames the topic of the presentation, discusses the relevant theory and evidence, correctly document references, and proposes a conclusion consistent with the theory and evidence.

Specializations

The following are suggested curricula for students wishing to concentrate their studies in a specific area of economics.

Specialization in International Economics

Recommended economics electives: ECON 3701, 3720, 5809, 5811, and 5812. Students should also consider taking electives outside the major in accounting, marketing, and international relations.

Specialization in Money and Banking

Recommended economics electives: ECON 3701, 3702, 5809, and 4810. Students should also consider taking electives in accounting and finance.

Specialization in Quantitative Economic Methods

Recommended economics electives: ECON 5824, 5853, and 5856. Suggested non-economics electives are MATH 1571, 1572, 2673, and 3720, as well as introductory courses in computer programming.

Minors

Economics with Statistics

ECON 2610 (Principles 1, Microeconomics), ECON 2630 (Principles 2, Macroeconomics), ECON 3790 (Statistics for Business and Economics), and 9 semester hours of electives.

Economics

ECON 2610 (Principles 1, Microeconomics), ECON 2630 (Principles 2, Macroeconomics) and 12 semester hours of electives. ECON 3790 cannot be counted as electives in this track.

Courses at the 1500 level cannot be counted toward either of the two minors.

Courses Relevant to Other Majors

Below are several different majors and the economics courses most relevant to those majors:

- Political Science: Econ 3702, Econ 4843, and Econ 4855.
- Accounting and Finance: Econ 3701, 3710, 3712, 5809, 5811, and 5812.
- Marketing: Econ 3710, 3712, and 5801.
- Management: Econ 3710, 3712, 4810, 5801, and 5831.
- Pre-Law: Econ 3702, 3710, and 3712.
- Environmental Studies: Econ 3710, 3712, and 3705.

DEPARTMENT OF ENGLISH
330-941-3414

Professors Barnhouse, Brady, Brown, Finney, Gergits, W. Greenway, Leonard, Linkon, Nelson, Okawa, Reese, Saluner (Chair), Schramer, Shale, Tingley; Associate Professors Ball, Buchanan, Diamond, Francisco, Gordon, Hauschildt, Strom; Assistant Professors Andrews, Caccia, Earnheardt, Nykiel-Herbert, Sisco; Instructors Barzak, Benton, Lenhoff, Pittman, Shebat, Vigliotti.

Learning Outcomes

The English Department has established the following learning outcomes for students completing the English major:

- English majors will deploy varied strategies for engaging with literature on the levels of words, appropriate parts of texts, whole texts, contexts, and criticism.
- English majors will be able to situate texts in the appropriate literary, historical, and cultural contexts.
- English majors will be able to analyze how the production and reception of language and literature are influenced by differences of form, culture, and identity.
- English majors will effectively present and discuss ideas about literature and language in a manner that is appropriate for the situation.

Curriculum

Beyond the freshman sequence, the English major comprises at least 40 hours. Students may elect either a broad-based English Studies strand in the major, or a more focused Literature Studies strand, either of which may be completed in eight semesters if students average 15-16 hours per semester.
Core Courses (19 s.h. required of all majors)

ENGL 3700—Introduction to Literary Studies 3 s.h.
ENGL 3710—Survey of British Literature 1 .... 3 s.h.
ENGL 3711—Survey of British Literature 2 .... 3 s.h.
ENGL 3712—Survey of American Literature 1 ............ 3 s.h.
ENGL 3713—Survey of American Literature 2 .......... 3 s.h.
ENGL 4880—Oral Communication for English Majors ...................... 1 s.h.
ENGL 4890—Senior Seminar ......................... 3 s.h.

ENGLISH STUDIES STRAND (21 s.h. beyond core)

Language Studies 3 s.h.
ENGL 3755—Principles of Linguistics

British Literature Studies (choose one from list below) 3 s.h.
ENGL 4830—Major Figures in British Lit.
ENGL 4831—Genres, Circles & Movements in British Lit.
ENGL 4860—The Medieval World
ENGL 4881—Shakespeare and His World
ENGL 4882—The English Renaissance
ENGL 4886—Restoration & 18th Century British Lit.
ENGL 4887—The Romantic Period
ENGL 4892—19th Century British Lit.
ENGL 4895—Early 20th Century British Studies
ENGL 4896—British Lit. WWII – present

American Literature Studies (choose one from list below) 3 s.h.
ENGL 3770—American Literature in Historical Perspective
ENGL 3780—American Genres
ENGL 4862—Themes in American Literature
ENGL 4864—American Literary Conversation
ENGL 4871—The Black Experience in American Lit.

Multicultural Studies 3 s.h.
ENGL 2617—Women in Literature
ENGL 2618—American Literature & Diversity
ENGL 2620—African Literature
ENGL 3732—Images of Women
ENGL 3790—Selected Topics in Multicultural Studies
ENGL 4850—Sociolinguistics
ENGL 4871—The Black Experience in American Literature

NOTE: Courses that fulfill this requirement may NOT also be counted toward electives or American literary studies.

Advanced Writing (choose one from list below) 3 s.h.
ENGL 3716—Feature Writing
ENGL 3717—Editorial & Opinion Writing
ENGL 3721L—Journalism Workshop
ENGL 3740—Advanced Writing
ENGL 3741—Advanced Writing for Teachers
ENGL 3743—Professional and Technical Communication
ENGL 3744—Proposal and Report Writing

ENGL 3746—Fiction Writing Workshop
ENGL 3747—Poetry Writing Workshop
ENGL 3748—Screenwriting

NOTE: Courses that fulfill this requirement may NOT also be counted toward electives.

ENGL 3705 and ENGL 3741 are required of all English majors planning to apply for teacher licensure. ENGL 3741 is offered each fall as part of the English education block (TERG 3711 and ENGL 3741). Check with an English education advisor. English majors preparing to teach should take the SED 4800E methods course.

Because the discipline of English involves study of the controlled use of the language, students are expected to demonstrate their writing skills in all English courses.

The Department of English maintains the Writing Center for supplemental, noncredit instruction in writing. English majors may apply for student employment as peer tutors in the Center. (See the Student Services section for details.)

PROFESSIONAL WRITING AND EDITING

Professors Gergits, Nelson, Salvner (Chair), Schramer; Associate Professor Gordon; Assistant Professors Andrews, Caccia; Instructor Shebat.

Learning Outcomes
The English Department has established the following learning outcomes for students completing the professional writing and editing major:

- PWE majors will create and implement appropriate formats and designs for specific audiences and purposes.
- PWE majors will use a problem-solving approach and a variety of resources to investigate a problem, acquire and assess information, and organize it effectively.
- PWE majors will design documents professionally, using appropriate technological resources, software and hardware, as well as appropriate elements of design.
- PWE majors will evaluate others' writing, accept and implement the recommendations of others in revision and editing. They will edit appropriately, using conventional grammar, spelling, and diction, and they will apply the appropriate style guide.

Curriculum
A major in professional writing and editing requires 61-63 semester hours, distributed as follows:

PWE CORE COURSES (24 s.h.)
2622—Basic Journalism ................................. 3 s.h.
3723—Editing and Design for Newspapers ..........3 s.h.
3743—Professional & Tech Comm .....................3 s.h.
3744—Proposal and Report Writing .................3 s.h.
3745—Online Text Workshop ............................3 s.h.
4843—Advanced Professional & Tech Writing 3 s.h.
4849—Professional & Tech Editing ...................3 s.h.
4899—Prof. Writing Senior Project* .................3 s.h.

REQUIRED (6 s.h.)
3701 or 3702-Brit. and Amer. Lit. I or II ..........3 s.h.
(prerequisite to all upper-division literature courses)
3755—Principles of Linguistics ........................3 s.h.

OTHER LITERARY STUDIES (3 s.h.)
Choose 1:
1590—Introduction to Literature
2610—World Literature
2617—Women in Literature
2618—American Literature and Diversity
2620—African Literature
2631—Mythology in Literature
2632—Images of Women
2665—Introduction to Film Study
3738—Topics in World Literature
3765—Film Genres
3790—Selected Topics in Multiculturalism
4871—Black Experience in American Literature

LITERARY STUDIES (3 s.h.)
Choose 1:
3770—Am. Literature in Historical Perspective
3780—American Genres
4862—Themes in American Literature
4864—Selected Topics in American Literature
4871 — The Black Experience in Am. Literature
4830 — Major Figures in British Literature
4831 — Genres, Circles, and Movements in Brit. Lit.
4860 — The Medieval World
4881 — Shakespeare & His World
4882 — The English Renaissance
4886 — Restoration and 18th-Century Brit. Lit.
4887 — The Romantic Period
4892 — 19th-Century British Studies
4895 — Early 20th-Century British Studies
4896 — British Literature from WWII to the Present

SUPPORT COURSES (13-15 s.h.)
4-6 hours from within the department:
3716 — Feature Writing .........................................3 s.h.
3717 — Ed. and Opinion Writing .........................3 s.h.
3721L — Journalism Workshop ...........................3 s.h.
3740 — Advanced Writing ....................................3 s.h.
3746 — Fiction Writing Workshop or
3747 — Poetry Writing Workshop .......................3 s.h.
4898 — Prof. Writing Internship ...................... 1-3 s.h.

9 hours from:
Approved Courses in Communications
Approved Courses in Art
Approved Courses in Office Information
Systems/Desktop Publishing
Approved Courses in Computer Science
Approved Engineering Courses
Approved Marketing Courses
Approved Public Relations Courses
Approved Advertising Courses

You must meet any prereqs. for these courses. Specific course numbers/titles will be added after other departments complete semester conversion.

PROFESSIONAL AREA (15 s.h.)
Take 15 approved semester hours in journalism, desktop publishing, graphics, advertising/public relations, computer science, chemistry, or engineering. Courses and degrees from the Bitonte College of Health and Human Services may also meet the requirement. Ask your advisor for approved-curriculum sheet(s). See the PWE coordinator to propose any other area.

Credit Hours Needed for Major:

Required Courses .......................................................6
Literary Studies .........................................................9
Support Courses ..................................................... 13-15
PWE Core Courses ..................................................18
Professional Area ......................................................15

TOTAL: 64-67 s.h.

(See CLASS advisement sheet for graduation requirements)

Required for Graduation: 124 total hours (48 semester hours must be 3000 or 4000 level).

---

JOURNALISM
Professor Salvner (Chair); Assistant Professors Earnheardt, Francisco; Instructors Lenhoff, Pittman.

The journalism program seeks to train students for entry-level positions in reporting, editing and newspaper design. The curriculum is a blend of courses that support this goal, such as News Reporting, Editorial and Opinion Writing, Feature Writing, Editing and Design for Newspapers, a journalism practicum (Journalism Workshop) in which students write for the student newspaper, and a battery of professional writing and editing courses designed to enhance editing, writing and publishing skills. There are no separate tracks, and journalism majors are encouraged to declare minors that support their specific career objectives, such as public relations, photography, political science, telecommunications, or art/design.

Learning Outcomes
The English Department has established the following learning outcomes for students completing the journalism major:

- Journalism students will demonstrate an understanding of what constitutes news.
- Journalism students will demonstrate an understanding of the First Amendment.
- Journalism students will demonstrate an understanding of how to find and extract news.
- Journalism students will demonstrate an understanding of how to write news, feature, and opinion stories.
- Journalism students will demonstrate an understanding of how to evaluate others’ work.
- Journalism students will demonstrate an understanding of how to recognize bias in the media.

LINGUISTICS

Barnhouse, Brown (Program Director), Okawa, Nykiel-Herbert, Vigliotti, English; Becerra, Corbé, Masagara, Foreign Languages.

The University offers an interdisciplinary minor in linguistics with the advice and approval of the chair of the department the student is majoring in and of an advisor from the linguistics faculty.

The minor requires completion of a minimum of 18 semester hours including ENGL 3755. See the Program Director for further details.

DEPARTMENT OF FOREIGN LANGUAGES AND LITERATURES

330-941-3461

Professors Becerra, del Pozo, Sarkissian (Chair), Smith; Associate Professor Masagara; Assistant Professors Burkhart, Corbé, Simonini.

See Degree Requirements at the beginning of the College of Liberal Arts and Social Sciences section for information about foreign language requirements. Degrees in foreign languages may be earned in eight semesters if students average 16 hours per semester.

Learning Outcomes

The department’s learning outcomes for foreign language majors are as follows:

- **Cultural Understanding**—The student will develop an understanding and appreciation of the history and culture of those areas in which the target language is spoken.
- **Reading Comprehension**—The student will be able to read and understand a variety of materials written in the target language. These materials may include but are not limited to: novels, plays, poetry, newspaper and magazine articles, and private correspondence (e.g., business communications).

- **Listening Comprehension**—The student will be able to understand the target language when spoken in a variety of contexts. These contexts may include but are not limited to: conversation with another individual or individuals, formal lectures, song, and film.
- **Oral Expression**—The student will be able to carry on a conversation and deliver a speech in the target language.
- **Written Expression**—The student will be able to compose in the target language a variety of written documents. These documents may include but are not limited to: formal and casual correspondence, essays, and creative works.

Bachelor’s Degree Programs

FRENCH

Assistant Professor Corbé, Associate Professor Masagara.

A major in French requires 30 semester hours beginning with FRNC 2600. The following French courses are required: FRNC 2600, 2605, 2606, 3710, 3715, 3740 plus 3 of the following: 3750, 3771, 3772, 3773; and 1 of the following: 4774, 4885.

ITALIAN

Assistant Professor Simonini.

A major in Italian requires 31 semester hours beginning with ITAL 2600, 2605, 3720, 3730, 3735, 3750, 4800, 4825, 4880. A major in Interdisciplinary Italian Culture requires the following coursework: ITAL 2600, 2605, 3720, 3730, 3735, 3750, 4880; and three of the following: ART 3742, 3743, MUHL 3772, HIST 3758, 3785, for a total of 31 s.h.

SPANISH

Professor del Pozo, Professor Becerra, Assistant Professor Burkhart.

A major in Spanish requires 30 semester hours beginning with Spanish 2605. The following Spanish courses are required: 2605, 2655, 3735, 3755; plus 1 of the following: 3724, 3736, plus 1 of the following: 3752, 3753; plus 1 of the following: 3756, 3757 plus 1 of the following: 3737, 3740, 3758; plus 2 of the following: 5855, 5870, 5885, 5890.

Foreign Language Minors

Minors are available in French, Greek studies (Ancient Greek), Italian, Italian studies, Latin studies, Russian studies, Spanish and Spanish language and cultures. Each minor requires 18 or 19 semester hours beginning with 2600 or 2605. Contact department for details or the Minors section of this Bulletin.
Foreign Language Education

For curricula leading to a multi-age license for teaching French or Italian or Spanish, see the Beeghly College of Education section of this Bulletin.

DEPARTMENT OF GEOGRAPHY
330-941-3317

Professors Campbell (Chair), Shaklee; Associate Professors Buckler, Shellito; Assistant Professors Cerney, Pugh.

Students majoring in geography earn the Bachelor of Arts degree. In addition to the usual University requirements, a student must complete a minimum of 33 semester hours in geography following the distribution listed below. At least 21 semester hours must be earned in upper-division geography courses. This degree may be earned in eight semesters if students average 16 hours per semester.

Required of all geography majors: GEOG 1503, GEOG 2610, GEOG 2640, GEOG 4890 and One course from: GEOG 3713, GEOG 3715, GEOG 3717, GEOG 3719, GEOG 3721 or GEOG 3750.

Two courses from: GEOG 4813, GEOG 5805, GEOG 5806, GEOG 5810 or GEOG 5811

The department also advises a spatial information systems Individualized Curriculum Program (ICP) administered through the College of Liberal Arts and Social Sciences. Also offered is an 18-credit-hour certificate in geographic information science. Specialized areas of study provide background and skills needed by students planning to enter the fields of geographic information systems (GIS), remote sensing, global positioning systems, cartography, regional planning, climatology, meteorology, elementary and secondary education, earth sciences, environmental studies, and retail location. Undergraduate preparation can also lead to graduate study in geography or to a variety of professional fields such as law, business, and public administration.

Learning Outcomes

The department’s learning outcomes geography majors are as follows:

- Geography majors will come away from their YSU experience able to identify and define the basic elements of geography (location, distance, distribution, pattern, space and place).
- The majors will understand the themes of geography needed for fundamental geography instruction (region, movement, ecology, landscape, space and place).
- Our graduates will effectively use, analyze and interpret maps and other graphic portrayal of information.

GREEK

See Foreign Languages.

DEPARTMENT OF HISTORY
330-941-3452

Professor Pallante (Chair); Associate Professors Ayana, Barnes, Bonhomme, Congdon, DeBlasio, Leary, Simonelli, Sinnreich, Viehe, York; Assistant Professor Gerardo.

The student majoring in history must complete, in addition to the general University requirements (see Degree Requirements, at the beginning of the College of Liberal Arts and Social Sciences Section), the group requirements listed below. It is recommended that the student select courses with assistance from an advisor, since certain courses are preferable to others according to whether one contemplates graduate study, secondary school teaching, or some other career.

The Bachelor of Arts in history can be completed in eight semesters if students average 16 hours per semester.

Learning Outcomes

The student learning outcomes for the major in history are as follows:

- Students will develop writing skills and apply them to assignments such as examinations, book reviews, analytical essays, and research papers.
- Students will learn to conduct research using primary and secondary sources and write research papers with appropriate notes and bibliography.
- Students will learn to draw major conclusion or interpretations from a variety of textual sources.
- Students learn that history is written from the perspective of the author.
Students will learn to obtain historical data from a variety of sources.

Students will learn to identify significant historical developments and explain their importance.

Students will learn to identify, analyze and synthesize historians’ arguments, explanations and interpretations of historical events.

Students will learn to evaluate major debates among historians concerning alternative interpretations of the past and project the consequences of broad acceptance of a particular position.

Students will learn to compare economic, political, and ideological connections in at least three different world cultures.

Students will learn to describe the changing economic, political and social situation of multiple cultures worldwide and within the United States.

Students will learn to ascertain whether the lessons of the past pertain to similar situations in modern times.

Students will learn to draw connections between ideas, interests, beliefs, and ideologies and their influence on individual and group historical actions.

Curriculum

Group A: History 1511, 1512, 2605, 2606 or 1511H, 1512H, 2605H, 2606H.

Select eight courses from the following with no more than three from each group:

Group B: 2601, 3700, 3702, 3704, 3706, 3710, 3712, 3713, 3715, 3717, 3723, 3726, 3730, 3731, 3732, 3733, 3734, 3736, 3740, 3741, 3742, 3743, 3744, 3748, 3762, 4801, 4811, 4812, 4815, 5806, 5807, 5810.

Group C: 3745, 3752, 3753, 3755, 3756, 3757, 3758, 3759, 3760, 3761, 3762, 3763, 3765, 3766, 3767, 3769, 3774, 3778, 3779, 3780, 3782, 3783, 3784, 3785, 3787, 3788, 3790, 3791, 3792, 3794, 4850, 4851.

Group D: 3700, 3727, 3728, 3740, 3749, 3750, 3751, 3770, 3772, 3774, 3776, 3779, 3781, 3789, 3795, 3796, 3797, 3798, 4850, 4860.

CAPSTONE: 4870.

Oral Intensive–4808.

NOTE: No course can count in more than one group. Six courses in Groups B, C, and D must be at 3700 level or higher.

History courses are part of the writing-intensive sequence that permits history majors and minors to meet their requirement in writing programmatically. Students will write at least one paper of 1,000 words or more and will undertake a draft-edit-redraft sequence. In each survey, they will write at least one paper of 500 words or more and will undertake a draft-edit-redraft sequence. The submissions will be evaluated according to criteria used by historians and will consider content, organization, and stylistic concerns.

A history major must provide an essay examination, a book review, a research paper, and one additional paper for a portfolio (all produced in history classes) that will be maintained in the History Department. The essay examination should be from an upper-division course. The book review should include a title page, bibliographic entry at the beginning, content analysis and evaluation with a minimum of 1,000 words, typed in a 10-12 font, double-spaced, and one-inch margins. The research paper will be based on primary or secondary sources with a minimum of 3,500 words, typed in a 10-12 font, double-spaced with endnotes or footnotes, bibliographic entries based on Chicago Manual of Style, a title page, and one-inch margins. A second paper from an upper-division class is also to be included.

Students transferring 20 or more semester hours in history to Youngstown State University from another institution must meet the group requirements listed above to obtain a major in History for graduation. At least five of the courses in Groups B, C, and D must be taken at Youngstown State University.

It is recommended that the student in choosing electives should acquire as broad a background as possible in the social sciences and the humanities. Particular attention is called to courses offered by the Departments of English, Economics, Political Science, Philosophy, Art, Music, Geography, and Sociology, and to the humanities courses. Students contemplating graduate work in history should consider taking more foreign language courses than the minimum necessary to meet the general degree requirement. Finally, the student is reminded that the Department of History takes seriously the University’s emphasis on the importance of adequate competence in the English language (See Proficiency in English, in the Academic Policies and Procedures section of the Undergraduate Bulletin); when there is need, students majoring in history should include in their programs advanced composition courses and courses in speech.

Certificate in Historic Preservation

Historic preservation specialists encourage the renovation and re-use of America’s built environment—buildings and bridges, farms and factories, battlefields and business districts, even entire neighborhoods. Professionals in this fast-growing field find employment with consulting firms, or with local, state, or national preservation groups, museums, or government agencies.

Youngstown State University offers a Certificate in Historic Preservation for students at either the undergraduate or graduate level. Six courses from the undergraduate Preservation Course, beginning
with Introduction to Historic Preservation (HIST 3715) and American Architectural History I and II (HIST 5806 and HIST 5807) and Conservation of the Historic Built Environment (HIST 5810). The Core concludes with a group project in the community, Practicum in Historic Preservation (HIST 4811), and Historic Preservation Internship (HIST 4812). Classes give students training in historic research skills plus direct experience in real-world preservation tasks.

Along with the Preservation Core, undergraduates must take two electives from the following list: HIST 3736, 3748, 4815; GEOG 3726, 3765, ANTH 4890, 4825; ART 2671, 4883; MRCH 4879.

In addition, hands-on instruction in preservation technology is available through arrangement with nationally renowned Belmont Technical College.

Undergraduates may earn the certificate as part of a history major, or as a minor supplementing work in a related field such as art history, anthropology, geography, or engineering.

PEACE AND CONFLICT
STUDIES PROGRAM
330-941-3437

Associate Professor Keith John Lepak, Political Science (Coordinator and Co-Director) with Associate Professor David Porter, Political Science (Co-Director).

The University offers a minor in Peace and Conflict Studies with the advice and approval of the chair of the department the student is majoring in. The multidisciplinary minor focuses on the historical, geographical, political, cultural, psychological, and philosophical dimensions of human conflict and conflict resolution, emphasizing the cross-cultural and global context of contemporary conflict situations and approaches to conflict management and resolution.

The following is a list of approved recommended courses for the minor; the minor consists of a minimum of 18 semester hours, of which at least 9 must be accumulated from approved upper-division courses (number 3000 and above):

History 1512. World Civilization From 1500. 3 s.h.

History 4860. Select Problems in Third World History. 3 s.h.

Religious Studies 2601. Introduction to World Religions. 3 s.h.

Religious Studies 2617. Introduction to Eastern Religions. 3 s.h.

Geography 2626. World Geography. 3 s.h.

Political Science 2660. International Relations. 3 s.h.

Political Science 3768. International Conflict. 3 s.h.

Psychology 4804. Conflict and Group Dynamics. 3 s.h.

Sociology 3708. Political Sociology. 3 s.h.

Students should consult with the program coordinator in determining the particular composition of the minor.

Students interested in further study in the program may design and pursue an Individualized Curriculum Program (ICP) in consultation with program directors. Currently, peace and conflict studies has an approved ICP that allows interested students to pursue coursework in areas of global and regional studies, communications and dispute resolution, and peace strategies. The ICP offers the possibility of a comprehensive and focused major and is especially useful to students considering graduate studies or employment with non-profit organizations that need individuals with appropriate background in conflict resolution and cross-cultural knowledge and skills.

DEPARTMENT OF PHILOSOPHY AND RELIGIOUS STUDIES
330-941-3448

Professors Bache, Mir, Palmer-Fernandez, Tessier, Waller (Chair), Wan-Tatah; Assistant Professors Mower, Tomhave, Vopat.

The YSU Department of Philosophy and Religious Studies offers a wealth of productive studies for life and technical knowledge for career opportunities. Selected subjects can make an excellent minor complementing any career, and the major in philosophy or religious studies can be a sound preparation for a wide range of graduate programs.

PHILOSOPHY

A major in philosophy is available for students who plan to enter the field of philosophy, law, professional or medical ethics, the ministry, or other fields requiring a liberal arts background.
The major consists of 30 semester hours, including PHIL 2600; 2619; 3700 or 3705; 3702; 3711 or 3780; 4820; and 4861. This program can be completed in eight semesters if students enroll in 16 hours per semester and enroll in a combination of day and evening classes. The hours for the degree could increase depending upon the student's foreign language placement upon entering YSU.

**RELIGIOUS STUDIES**

A major in religious studies is available for students who desire to prepare for a career in the ministry, counseling, religious education, social work or any field requiring a liberal arts background. The major consists of 30 semester hours, no more than 9 of which can be taken at the 2600-level. Majors must take REL 2601 and at least one upper-level course in each of the following areas: (1) History of Religion: 3708, 3710, 3720, 3722, 3724, 3726, 3741, 3743; (2) Methodologies in the Study of Religion: 3751, 3754, 3756, 3758, PHIL 3712, ANTH 4815; (3) Scriptural Studies: 3731, 3732, 3733; and REL 4850 and 4871. It is assumed that the remaining hours will be selected in religious studies. In some cases, courses outside religious studies may be accepted as part of the religious studies major if they deepen the student's understanding of religion. All such courses must have the approval of the chair. This program can be completed in eight semesters if students enroll in 16 hours per semester and enroll in a combination of day and evening classes. The hours for the degree could increase depending upon the student's foreign language placement upon entering YSU.

**PRE-COUNSELING TRACKS**

The pre-counseling tracks in philosophy and in religious studies are designed to provide core knowledge and basic skills to philosophy and religious studies majors who are considering graduate work in counseling, mental health and other service-based professions. Courses are designed to promote self-awareness, effective decision-making skills, development of positive character traits, core knowledge of historical philosophical ideas and religious and cultural practices, and a deep understanding of rights and responsibilities in relationships across a wide range of contexts and settings.

**Philosophy Pre-Counseling Track**

The major consists of 30 required semester hours of credit in philosophy; 9 semester hours of designated philosophy electives to include PHIL 2608; in addition to: COUN 1587 and PSYC 1560 as GER prerequisites; and PSYC 3702, 3775 and 5807, and COUN 2650 as required university electives.

**Religious Studies Pre-Counseling Track**

The major consists of 30 required semester hours of credit in religious studies; 18 semester hours of credit in designated religious studies electives to include REL 2608; in addition to: COUN 1587 and PSYC 1560 as GER prerequisites; and PSYC 3702, 3775 and 5807, and COUN 2650 as required university electives.

**Learning Outcomes**

The student learning outcomes for the major in philosophy & religious studies are as follows:

- The student will accurately define relevant terms in the discipline of philosophy or religious studies, including terms relating to sub-disciplines, theoretical positions, and historical developments.
- The student will competently utilize principles of critical thinking, including assessment of definitions, recognition of fallacies, and application of the principles of good inductive and deductive reasoning.
- The student will demonstrate a detailed understanding of various philosophical or religious viewpoints and traditions.
- The student will exhibit knowledge of the principles of ethical and/or epistemological reasoning, will competently evaluate ethical and/or epistemological dilemmas utilizing these principles, and will investigate contemporary problems in light of these principles.
- The student will master the basics of theoretical writing, including the development of precise definitions, effective analysis of theoretical positions, and effective development, defense, and critique of arguments.
- The student will construct a rationally sound worldview.

**Minors**

The department offers minors in religious studies, philosophy, and professional ethics. Contact the department for details.

**Graduate Certificate in Bioethics**

This two-course sequence (8 semester hours) is designed to meet the needs of working professionals in health care and related fields and others who wish to pursue postgraduate study in bioethics. The sequence will be of particular value to those serving or preparing to serve on institutional ethics committees in hospitals, home health care services, nursing homes, and elsewhere, as well as others—those in local government, insurance, and the media, for example—who wish to explore major questions and recent developments in bioethics. Refer to the Graduate Bulletin for details.

**Specialized Centers**

The Department of Philosophy and Religious Studies houses The Dr. James Dale Ethics Center and the Center for Islamic Studies.
The Dr. James Dale Ethics Center was founded in 1993 to support the study and teaching of ethics and to promote moral reflection and conduct in personal and professional life. Its activities are guided by the conviction that institutions of higher education play a crucially important role in creating and sustaining a democratic people, concerned not only with private but also common purposes. To accomplish its mission, the Center:

- Sponsors ethics seminars, workshops, and conferences for regional professionals;
- Offers lectures to the University and general community;
- Provides ethics consultation for regional organizations;
- Promotes the scholarship of teaching and learning of ethics.

The director of the Ethics Center is Dr. Gabriel Palmer-Fernandez, Professor of Philosophy and Religious Studies.

The Center for Islamic Studies is devoted to the scholarly study of Islam and to educating the community about Islamic religion, history, and culture. It was created through an agreement between the Youngstown Muslim community and Youngstown State University. To accomplish its mission, the Center:

- Offers lectures to the University and general community;
- Co-publishes (with the Iqbal Academy Pakistan) the Iqbal Quarterly, which aims to introduce the works of the South Asian poet-thinker Muhammad Iqbal to general readers in the English-speaking world;
- Participates in The Pluralism Project of the Department of Philosophy and Religious Studies, which publishes E Pluribus, a newsletter devoted to interfaith activities in the Mahoning Valley and to events of general interest in the field of religious pluralism.

The director of the Center for Islamic Studies is Dr. Mustansir Mir, University Professor of Islamic Studies in the Department of Philosophy and Religious Studies.

The Philosophy Circle

The Philosophy Circle is a group of more than 140 faculty, alumni, and friends whose donations support special departmental activities, including awards for outstanding student papers and funding for the Dr. Thomas and Albert Shipka Speakers Series. The Shipka Speakers Series has sponsored over 30 lectures by outstanding scholars, on topics related to philosophy and religious studies that are of wide interest to both the university and the larger community.

DEPARTMENT OF POLITICAL SCIENCE AND RIGELHAUPT PRE-LAW CENTER

330-941-3436

Professors Sracic (Chair), Porter; Associate Professors Ahuja, Lepak; Assistant Professor Jackson.

POLITICAL SCIENCE

A major in political science comprises 33 semester hours with the requirement that the student complete at least two courses in American Government, two courses from Comparative Government and International Relations, one Political Thought course and a capstone course. This degree may be earned in eight semesters if students enroll in 16 hours per semester and take both day and evening classes.

Learning Outcomes

The department’s learning outcomes for political science majors are as follows:

- Students will be able to summarize fundamental components of knowledge that have developed in relation to areas of political theory, American government, comparative politics, and international relations.
- Students will recognize and explain the fundamental ideas and constitutional principles that have shaped the American Republic, as well as the institutions and behaviors that provide the setting and substance of American politics.
- Students will recognize and explain the basic ideas, problems and processes of comparative politics and international relations relative to issues of Western and non-Western political development, different forms of national government, and foreign policy behaviors relative to a global economy.
- Students will use and apply the Style Manual of the American Political Science Association (APS) in conjunction with their research and writing skills associated with the creation of credible political science projects.

Related Studies

Related minors in history, economics, geography, and sociology are valuable to the political science major preparing for graduate study in political science, or for a career in journalism, law, public administration or the Foreign Service. The student who plans
to do graduate study in political science or who expects to apply to the Foreign Service should achieve proficiency in at least one modern foreign language.

FOREIGN AFFAIRS

The Foreign Affairs Program provides students with a broad background and understanding of international relations and comparative politics. Students study patterns of conflict and cooperation among nations, international organizations, and other international actors, while developing a broader understanding of the problems of governance, justice, economic development and political stability.

The program is designed to accommodate students seeking careers in such fields as diplomacy, international security, humanitarian and technical assistance, international education, international trade and public affairs.

REQUIRED COURSES: s.h.

Economics:
ECON 1501, Economics in Motion ...................... 3

Geography:
GEOG 2626, World Geography, or one of the following: GEOG 3713—South America Geography, GEOG 3715—Middle America Geography or GEOG 3717—Europe Geog ................................. 3

History:
HIST 1512 - World Civilizations from 1500 ............ 3

Total Credits for Required Courses ..................... 9

Major Courses s.h.

POL 1550 Introduction to Political Science ............ 3
POL 1560 American Government ............................ 3
POL 2640 Contemporary World Government ............ 3
POL 2660 International Relations .......................... 3
POL One additional Upper-level course in American Government .................. 3
POL 5865 Capstone in Global Affairs—Sr. Status .................. 3

Plus Five upper-division courses:

Two or three courses from field of international relations:
POL 3760 International Political Economy ............ 3
POL 3761 U.S. Foreign Policy .............................. 3
POL 3763 International Law ................................. 3
POL 3764 International Organizations .................... 3
POL 3768 International Conflict ........................... 3

One to three courses from field of comparative politics:
POL 3741 Russia & China: From Revolution to Reform .............................................. 3
POL 3742 Political Development & Political Regimes ... 3
POL 3744 European Politics ................................. 3
POL 3751 Latin American Politics .......................... 3
POL 3767 Asian Politics ..................................... 3

Total Credit Hours ........................................... 18 s.h.

PUBLIC MANAGEMENT PROGRAM

The public management program is designed to provide a broad background in government and economics for students who plan a career in national, state or local government. The program also gives students exposure to specific skills. The minor offers sufficient flexibility to permit the student to develop a specialization.

This major is designed to prepare students to directly enter the workforce in the public sector, pursue a master of public administration, and pursue careers in the non-profit sector.

Professional training of public servants contributes to the fulfillment of the Mission of Youngstown State University, which states that the “University and public service are seen, not only as interrelated, but also as fundamental to endeavors both within and outside the University.”

Public Management Requirements:

THE MAJOR Courses s.h.

POL 1560 American National Government .......... 3
ECON 2610 Principles of Microeconomics ............. 3
ECON 2630 Principles of Macroeconomics ............. 3
ECON 3702 Public Finance ................................. 3
POL 3718 Public Policy ..................................... 3
POL 3720 Public Management ............................. 3
POL 3722 State & Local Government .................... 3
POL 3724 Public Budgeting ................................. 3
POL 4801 Internship/Capstone ........................... 3-4
Courses  
ACCT 2602 Financial Accounting .................. 3  
MGMT 3725 Fundamentals of Management OR ... 3  
MGMT 3750 Human Behavior in Organization ... 3  
ECON 3780-3781 Economic Statistics OR .......... 5  
SOC 3701 Social Statistics I ............................ 3  

Student is to select twelve (12) additional credits to define an area specialty.

The following are examples: Accounting, Finance, Urban Planning, Health Administration, Historic Preservation, Environmental Studies, or other relevant field.

See advisor in the Department of Political Science for details.

COMBINED MAJOR IN SOCIAL STUDIES

The program for the combined major in social studies provides appropriate foundation for the study of law, for graduate work in the disciplines which it includes, and for entry into the civil service field. It can also partially fulfill requirements for teacher licensure in the social sciences.

History 2605 and 2606 are required for the social studies major in addition to courses in economics, geography, history, political science, sociology and anthropology to be distributed as follows:

A. A statistics course from a social science discipline.
B. A minimum of 12 semester hours from 3 of the following disciplines: economics, geography, history, political science and combined sociology/anthropology.
C. A capstone course offered by one of the 3 selected disciplines.
D. A minimum of 48 semester hours, 27 of which must be upper division.

Any course offered by the participating departments may count toward the social studies major.

PRE-LAW

Political Science Faculty, Advisors.

Pre-law advisement is available in the Rigelhaupt Pre-Law Center at the beginning of the student's college study to acquaint the student with the various fields of legal practice which require specialized undergraduate study, and in the junior year to arrange for law school entrance examinations and interviews.

Law school admission standards generally require an undergraduate point average of at least 3.00 and placement above the 50th percentile in the Law School Admissions Test, which is designed to measure capacity for analytic thought and for precision in the use of language. Regional and national law schools may have more rigorous requirements. Students are advised to consult The Official Guide to U.S. Law Schools, a publication of the Law School Admissions Council and the Association of American Law Schools, copies of which are available for use in the Rigelhaupt Pre-Law Center.

DEPARTMENT OF PSYCHOLOGY

330-941-3401

Professors Coldren, Ellyson, Flora, Fry, Gittis, Gray, Haynes (Chair), Kestner, Small, Stringer, White; Associate Professors Clayton, Thomas; Assistant Professors Boron, Giorgetti, Jameson-Cox, Ragozzine, Rosales.

Psychology offers a major leading to the Bachelor of Arts degree as well as a master's degree program in applied behavior analysis. The Bachelor of Arts degree may be appropriate for students seeking: (1) a general liberal arts degree; (2) paraprofessional employment; (3) certification with a B.A. degree to teach psychology in the secondary schools; (4) preparation for graduate study in psychology. The Bachelor of Arts in psychology can be earned in eight semesters if students average 16 hours per semester.

Learning Outcomes

The department's learning outcomes for psychology majors are as follows:

- Students will describe basic concepts and other information in sub-disciplines within the field. (Representative sub-disciplines include: research methods, statistics, clinical, developmental, social, learning, cognitive, and physiological psychology)
- Students will conduct and provide a written and oral report of a research project using APA style.
- Given typical real-life problems in a sub-discipline within the field, students propose solutions that involve applying psychological concepts.
- Given a psychological concept from a sub-discipline of psychology, students will describe how it could be applied to their daily lives.
- Students will describe changes in thought or attitude or action resulting from information acquired in class readings and discussions relating to diversity.

Bachelor of Arts—Psychology

38 Hours

A. PSYC 1560 (General); 2617 & 2618 (Research Methods and Statistics 1 & 2).

B. At least one course must be taken from each of the following areas: (1) Clinical: PSYC 3702 or 3775. (2) Social/Developmental: PSYC 3700 or 3755 or 3756 or 3757 or 3758 (only two developmental courses may count towards the
major). (3) Learning/Perception/Cognition: PSYC 3705 and 3705L, or 3760 and 3760L, or 3761 and 3761L. (4) Physiological: PSYC 3710 and 3710L or 3728.

C. Two laboratories attached to any psychology course.

D. Capstone course PSYC 4890, 4891H, or 4895.

E. An additional 9 hours in courses applicable to the psychology major, excluding 3770, 3790, 3785H.

F. The remaining 3 hours in coursework may be taken in any course applicable to the major –38 s.h.

Psychology Minor

A minor consists of at least 18 semester hours with grades of “C” or better. Courses taken Credit/No Credit may not be counted toward the minor. At least 1/3 of these hours must be upper division. See the required minor curricula under Developmental Psychology, General Psychology, or Applied Behavior Analysis in the minors section of this bulletin.

RELIGIOUS STUDIES

See Philosophy and Religious Studies.

RUSSIAN

See Foreign Languages.

DEPARTMENT OF SOCIOLOGY, ANTHROPOLOGY, AND GERONTOLOGY

330-941-3442

Professors Gilmartin, Jiang (Chair); Associate Professors D’Apolito, Gordiejew; Assistant Professors Lease, Narcisse, Van Dussen, O’Mansky, Li.

The Department of Sociology and Anthropology offers majors and minors in both of its areas including a minor in forensic anthropology and gerontology. The department also offers a certificate in applied gerontology as well.

SOCIOLOGY

The concentrations in sociology are useful to the professional study of law, teaching, research, and other fields requiring work beyond the bachelor’s level.

Sociology majors are employed in a variety of settings, such as schools, institutions, urban affairs, social security and personnel.

A major in sociology comprises of 30 semester hours. Majors must take SOC 1500, 3701, 3749, 4850, and 4851, in addition to at least 15 semester hours of sociology courses. The program can be completed in eight semesters if students enroll in 16 hours per semester and take both day and evening classes.

Students wishing to minor in sociology must complete 18 s.h. in an approved designated minor. Students are responsible for satisfying all prerequisites and maintaining a “C” or better in all minor requirements and cannot take courses on a "CR/NC" basis. Minors in sociology offered from the department are as follows:

- General Sociology
- Social Institutions
- Gerontology
- Social Stratification
- Applied Sociology

See department for course requirements.

Internships in Sociology

Internships are available to all sociology majors. Internships may be either paid or unpaid. Sociology majors have the opportunity to apply the application of sociological knowledge during an internship and work in a variety of settings such as the Mahoning County Planning Commission, Mahoning County Sheriff’s Office, and Park Vista Retirement Community.

Learning Outcomes

The department’s learning outcomes for sociology majors are as follows:

- Students can demonstrate understanding of the discipline of sociology and its role in contributing to our understanding of social reality.
- Students can demonstrate the role of theory in sociology.
- Students can demonstrate understanding of the role of research in sociology, including critical thinking, computer, and written and oral communication skills.
- Students can demonstrate knowledge and comprehension of core sociological concepts such as culture, social change, globalization, socialization, stratification, social structure, institutions, and differences by race/ethnicity, gender, age, and class.
- Students can articulate at least one substantive area within sociology in depth, e.g., medical sociology, urban sociology, applied sociology, stratification, complex organizations, or race, gender and class.

Total Hours For Graduation..........................124

*Placement exam in English, math, and foreign languages required before registration for classes.

ANTHROPOLOGY

A major in anthropology can take several directions. A background in anthropology can be immediately useful in many professional fields such as law, elementary and secondary education, urban affairs, administration, business and industry. Others can use the bachelor’s degree as a first step in acquiring an advanced degree and ultimately teaching and doing research at the college or university level. Recent evidence indicates that a large number of corporate managers have degrees in anthropology.

A major in anthropology comprises 40 semester hours. Majors must take Anthropology 1500, 3701, 3702, 3703, 3705, 4801, 4850, 4851, one area course from each of the three subfields, and two upper-division anthropology electives. This program can be completed in eight semesters if students enroll in 16 hours per semester and take both day and evening classes.

Students wishing to minor in anthropology must complete 18 s.h. in an approved designated minor. Students are responsible for satisfying all prerequisites and maintaining “C” or better in all minor requirements and cannot take courses on a “CR/NC” basis. Minors in anthropology offered from the department are as follows:

- General Anthropology
- Archaeology
- Cultural Anthropology
- Forensic Anthropology

See department for course requirements.
Internships in Anthropology

Internships are available to all Anthropology majors. Internships may be either paid or unpaid. Anthropology majors have the opportunity to apply the application of anthropological knowledge during an internship at the Mahoning County Coroner's Office.

Learning Outcomes

The department’s learning outcomes for anthropology majors are as follows:

- Students can demonstrate knowledge and comprehension of the fundamental principles and concepts of anthropology.
- Students can demonstrate knowledge of the anthropological discipline, including the holistic four-field approach.
- Students can demonstrate understanding of the scientific process, anthropological theories, research methods, and ethics.
- Students can describe and demonstrate the importance of culture, cultural variation, and culture change in global context.
- Students can demonstrate knowledge and understanding of evolutionary biology, including the mechanisms of evolutionary change.
- Students can articulate in depth at least one of the following subfields within anthropology: archaeology, biological anthropology, cultural anthropology.

Total Hours For Graduation 124

*Placement exam in English, math and foreign language required before registration of classes.
a) Student may test in ENGL 1540T/1540 or just 1540. These need to be taken before entry in 1550. ENGL 1550 & 1551 must be completed by 62 SH.

b) FNLG through level 2600 required unless satisfied through placement exam.

A grade of C or better is required in the major and minor.

Courses in the major cannot be used in the GER Domains. Must use two departments to satisfy each domain. AL, SI, NS must equal a minimum of eight classes. Domains may be taken in any order.

All non B science majors must take A&S 2600 unless they fulfill the laboratory requirement through substitute courses.

Classes taken and/or repeated out of sequence will not count toward graduation. Check prerequisites.

**GERONTOLOGY**

Gerontology is the interdisciplinary study of aging and is a rapidly growing field. The gerontology major prepares the students for a career in the field of aging. Since aging is a multifaceted, complex phenomenon, an interdisciplinary training in gerontology will give students an edge in working with the aging population. The field of aging provides diverse occupational opportunities in health professions, non-profit organizations, recreation and leisure, for profit businesses, education, research, government, and service providers. Settings include community, human service and religious organizations, government agencies, health and long-term care facilities, retirement communities, academic and research settings, business, industry, legal, and professional organizations.

A major in Gerontology comprises of 49 semester hours. Majors must take GERO 1501, 3701, 3703, 3755, 4801, 4821, 4850, 4851, SOC/GERO/POL 3757 or POL 3717 or SCWK 3730, FNUTR 3720, PSYC 3757 and 4857. In addition to at least 12 semester hours from a list of gerontology related electives. The program can be completed in eight semesters if students enroll in 16 hours per semester and take both day and evening classes.

**Learning Outcomes**

The department's learning outcomes for gerontology majors are as follows:

- Students can demonstrate knowledge of theories, fundamental principles, and core concepts of gerontology.
- Students can demonstrate understanding of the scientific process, research methods, critical thinking, and ethics.
- Students can demonstrate their ability of organizing and communicating thoughts and ideas clearly in both oral and written forms.

**Total Hours For Graduation**                                        **124**

**SPANISH**

See Foreign Languages.

**WOMEN’S STUDIES**

The University offers a minor in women's studies with the advice and approval of the chair of the department in which the student is majoring. The minor requires completion of 18 hours. For information about the Women's Studies minor, contact the director.

**Lower-Division Courses**

- Women's Studies 2601. Introduction to Women’s Studies. 3 s.h.
- English 2617. Women in Literature. 3 s.h.
- Foreign Languages 2660. Women in the Ancient World. 3 s.h.

**Upper-Division Courses**

- Sociology 2640. Women in Society. Prereq.: SOC 1500. 3 s.h.

**SPRING SEMESTER**

- Biology 3718. Women, Science, and Technology. Prereq.: ENGL 1550; one Societies and Institutions General Education course, one Natural Sciences General Education course, or substitutes. 3 s.h.
- Child and Family 3731: Individual & Family Development. Prereq.: ENGL 1551 and PSYC 1560. 3 s.h.
- English 3732. Images of Women. Prereq.: ENGL 1551. 3 s.h.
- History 3726. History of Women in the United States. Prereq.: HIST 2605 or 2606. 3 s.h.
- Women's Studies 3750. Special Topics in Women’s Studies. Prereq.: WMST 2601. 3 s.h.
- History 3787. History of Women in Europe. Prereq.: HIST 1512. 3 s.h.
- Management 3755. Managing Diversity. Prereq.: Junior standing and a declared major. 3 s.h.
- Philosophy 3709. Feminist Philosophy. Prereq.: PHIL 2600 or WMST 2601. 3 s.h.
- Psychology 3730. Psychology of Women. Prereq.: PSYC 1560. 3 s.h.
- Psychology 3730L. Psychology of Women Laboratory. Concurrent: PSYC 3730. 1 s.h.
- Religious Studies 3754. Feminism, Ecology and Religion. Prereq.: REL 2601 or 2631 or WMST 2601. 3 s.h.
- Human Ecology 5893: Work and Family. Prereq.: CHFM 3731 or SOC 3705 or PSYC 3707. 3 s.h.
- Women's Studies 4850. Senior Research Project. Prereq.: Senior standing and completion of a minimum of 10 s.h. in Women's Studies. 1-3 s.h.

The student may select one of the following courses when offered with the appropriate focus to complete the 14 hours for a minor.

- Africana Studies 3700. Black Studies Colloquium I. Prereq.: AFST 2600. 3 s.h.
- Africana Studies 3701. Black Studies Colloquium II. Prereq.: AFST 2601. 3 s.h.
- American Studies 3701. Approaches to American Studies. 3 s.h.
- Art History 4880. Special Topics in Art History. Prereq.: ART 1541, 1542, or consent of instructor. 3 s.h.
- English 3790. Selected Topics in Multicultural Studies. Prereq.: ENGL 1551. 3 s.h.
- Foundations of Education 5880. Special Topics in Foundations of Education. Prereq.: Permission of chairperson. 2 s.h.
History 4801. \textit{Select Problems in American History}. Prereq.: Consent of instructor. 3 s.h.

Music History 5878. \textit{Selected Topics in Music History}. May be repeated once with different topic. Prereq.: MUTC 2632 and MUHL 3774. 3 s.h.

4820. \textit{Seminar in Philosophy}. Prereq.: One 2600-level PHIL course. 3 s.h.

Psychology 4850. \textit{Seminar in Psychology}. Prereq.: Senior standing in psychology. 2 s.h.

Religious Studies 4850. \textit{Seminar in Religious Studies}. Prereq.: One 3700-level REL course. 3 s.h.

Sociology 4851. \textit{Social Research}. Prereq.: SOCIO 4850. Listed also as ANTH 4851. 3 s.h.
The College of Science, Technology, Engineering, and Mathematics (STEM)

Martin A. Abraham, Dean

The College of Science, Technology, Engineering, and Mathematics (STEM) is the academic unit of the University comprising the following departments: Biological Sciences, Chemistry, Civil/Environmental and Chemical Engineering, Computer Science and Information Systems, Electrical and Computer Engineering, Engineering Technology, Geological and Environmental Sciences, Mechanical and Industrial Engineering, Mathematics and Statistics, and Physics and Astronomy.

Formed in 2007 through an administrative reorganization, the STEM College is committed to strengthening core areas of its departments as well as facilitating collaborations between its faculties and students at all levels in their disciplines. Its formation is a bold initiative in coupling higher education to economic development by enhancing research activities and collaboration with industry.

College of STEM Mission

The College of STEM is committed to furthering the mission of Youngstown State University by delivering integrated programs of excellence to an engaged learning community. The College uses state-of-the-art
technology in teaching and research to meet the educational objectives of students, both undergraduate and graduate, enrolled in all its programs. The College fosters intellectual growth through integration of teaching, scholarship, and service that expands the talents of its constituencies—including students, faculty, business, industry, and government—with synergistic activities in and beyond the classroom; prepares our graduates for a multidisciplinary world through a flexible and diverse curriculum; and meets the need for a well-educated, skilled workforce for economic growth with industrial partnerships, research, and scholarship.

Core Values

The College of STEM fully subscribes to the core values of the University—the centrality of students; excellence and innovation; integrity/human dignity; and collegiality and public engagement.

- We are a learning-centered College committed to the intellectual, ethical, and career growth of all learners, both inside and outside the classroom.
- We foster intellectual inquiry, exploration, and discovery that transcends traditional boundaries and facilitates interdisciplinary scholarship. We expand and apply knowledge and encourage creativity through research and scholarship.
- We are committed to the social development of students, by promoting ethical behavior and collegiality in all endeavors, and to enrichment of the University through diversity of the faculty and student body.
- We enhance the quality of life and economic health of the region, the state, and beyond by providing students with the knowledge and skills to meet the challenges of modern society, and by providing business, industry, government, K–12 schools, and the public with technical expertise and leadership to support innovation and growth.

Degrees/Programs

The College offers four bachelor’s degrees: Bachelor of Arts (B.A.), Bachelor of Engineering (B.E.), Bachelor of Science (B.S.), and the Bachelor of Science in Applied Science (B.S.A.S.). It offers three associate degrees: Associate in Arts (A.A.), Associate in Applied Science (A.A.S.), and the Associate in Technical Studies (A.T.S.). Also, in conjunction with FirstEnergy Corporation, two options are available for lineworker and power plant technology.

Please visit our website at www.ysu.edu/powersystems for more information regarding the lineworker and power plant technology programs, or see p. 232 of this Bulletin.

A certificate program is offered in construction management technology.

Students whose needs are not met by existing conventional programs may wish to investigate and apply for the Individualized Curriculum Program (see Academic Policies and Procedures).

Degree Requirements

Requirements for completion of a baccalaureate degree and an associate degree within the College of STEM include all University requirements detailed in the Academic Policies and Procedures section of the Bulletin (i.e., graduation and general education requirements, course levels requirements including majors and minors, where applicable, grade point average, residency, and degree applications). Specific requirements for each major in the College of STEM are listed by department or school. Consult the Rayen School of Engineering and Engineering Technology section in the Bulletin for additional graduation requirements for the B.E. degree (see p. 214).

Minors are not required for every program/major in the STEM College. Consult the curricula listed the department sections of the bulletin for specific requirements for each major. For programs/majors requiring minors, at least eighteen (18) semester hours are required for the minor, and one-third of the hours must be upper-division.

Prospective Teachers. Prospective elementary or secondary teachers may work toward a B.A., B.S., or B.S. in Ed. degree. Prospective high school teachers with major concentration areas offered in the College of STEM are advised by those departments except for the requirements for teacher certification, for which academic advisement is provided in the Beeghly College of Education.

Foreign Language Requirement for the Bachelor’s Degree

All candidates for the B.A. and B.S. degree in the College are required to complete the elementary (1550) and the intermediate level (2600) of any foreign language offered. Students with a foreign language background may desire to take the foreign language placement test in order to place into the intermediate level (2600) to satisfy the requirement. It may be possible to satisfy the foreign language requirement through appropriate college transfer coursework and credit by exam.

Candidates for the B.E. degree and candidates for the B.S.A.S. degree do not have a foreign language requirement.

Associate of Arts Concentration in the College of STEM

Science Concentration. Courses must be taken from among the following disciplines: astronomy, biology, chemistry, physical geography, geology, and physics.
DEPARTMENT OF BIOLOGICAL SCIENCES
330-941-3601

Professors Chuey, Cooper, Leipheimer (Chair), Krontiris-Litowitz, Toepfer, Usis, Walker; Associate Professors Asch, Diggins, Fagan, Johnston, Lorimer, Womble; Assistant Professors Butcher, Caguiat, Min, Renne, Tall.

Courses in the Department of Biological Sciences may be applied toward a Bachelor of Science or a Bachelor of Arts degree. The department offers specialized courses in three major divisions: molecular biology and microbiology, physiology and anatomy, and evolution, ecology and environmental biology. The department offers courses to prepare a student for a wide variety of fields and future careers including dentistry, botany, health-related careers, physical therapy, nursing, medicine, veterinary medicine, medical technology, microbiology, molecular biology, biomedical research and biotechnology. Advisement is available concerning course selection appropriate for a specific field in biology and in the choice of a minor or minors. These degrees may be earned in eight semesters if students average 16 hours per semester.

BACHELOR OF SCIENCE IN BIOLOGICAL SCIENCES

The Bachelor of Science degree is recommended for those who wish to pursue careers in the biological sciences, medicine, dentistry or other related health fields.

Learning Outcomes
The student learning outcomes for the major in biological sciences are as follows:

B.S. degree option

• Students will be prepared for entry into professional health or research related schools, post-graduate (M.S.) programs, or the work place.

• Students will master the subjects found on standardized tests (molecular biology, physiology, immunology) required for entrance into professional schools (MCAT, GRE, etc.).

• Students will demonstrate an understanding of basic biological principles.

• Students should be able to reason critically, both individually and in collaboration with other students.

Curriculum
The B.S. degree in biological sciences requires a minimum of 37 semester hours from within the Department of Biological Sciences. (Courses at the 1000 level are not applicable to a Bachelor of Science degree.) The program satisfies the GER oral, writing, critical thinking intensives requirement.

All biological sciences majors must take the following courses for the B.S. degree:

1) BIOL 2601 General Biology: Molecules and Cells, 4 s.h.; and BIOL 2602 General Biology: Organisms and Ecology, 4 s.h. The general biology courses are prerequisites for genetics and all core and upper-division courses.

2) BIOL 3721 Genetics 3 s.h.

3) Core Courses: One course must be taken from two of the following groups for a total of two courses: (7-9 s.h.)

Group A: Cell Biology: Fine Structure (BIOL 3711, 3 s.h.), Microbiology (BIOL 3702, 4 s.h.)

Group B: Human Physiology (BIOL 3730, 5 s.h.)

Group C: either Plant Diversity (BIOL 3740, 4 s.h.) or Animal Diversity (BIOL 3741, 4 s.h.)

4) 15-17 semester hours of courses in the Department of Biological Sciences at the 3000-5000 level. A minimum of two of these courses must have a laboratory component, with at least one lab course at the 4000-5000 level.

5) Capstone course (BIOL 4861) 2 s.h.

Additional required course work in the sciences.

Chemistry—Chem. 1515 & 1515L and 1516 & 1516L, General Chemistry I and II; 3719 & 3719L and 3720 & 3720L, Organic Chemistry I and II. (Chem. 3785, Biochemistry, strongly recommended)

Physics—Physics 1501, 1501L, 1502, and 1502L (Fundamentals of Physics I and II and Fundamentals of Physics I and II Labs)

Math—Math 1570, Applied Calculus I, or Math 1571 (Calculus I) and Math 3717 (Statistics)

BACHELOR OF ARTS IN BIOLOGICAL SCIENCES

The Bachelor of Arts is recommended only for those who plan careers in business or secondary education careers related to the Biological Sciences.

Learning Outcomes
The department’s learning outcomes for the B.A. in biology are as follows:

• Students will be fluent in the terminology of the biological sciences.

• Students will be competitive for entry into the workplace.

• Students will be familiar with the scientific process and the process of hypothesis testing.
• Students should be able to reason critically, both individually and in collaboration with other students. All Biological Sciences majors must take the following courses for the B.A. degree:

Curriculum

The B.A. degree in biological sciences requires a minimum of 32 semester hours from within the Department of Biological Sciences. (Courses at the 1000 level are not applicable to a Bachelor of Arts degree.)

All biological sciences majors must take the following courses for the B.A. degree:

1) BIOL 2601 General Biology: Molecules and Cells, 4 s.h. and BIOL 2602 General Biology: Organisms and Ecology 4 s.h. The General Biology courses are prerequisites for all core and upper division Biology courses.

2) Core courses: One course must be taken from two of the following groups: (7-9 s.h)

Group A—either Cell Biology: Fine Structure (BIOL 3711) or Genetics (BIOL 3721)

Group B—Human Physiology (BIOL 3730)

Group C—either Plant Diversity (BIOL 3740) or Animal Diversity (BIOL 3741)

3) 13-15 semester hours of courses in the Department of Biological Sciences at the 3000-5000 level. At least two of these courses must have a laboratory component.

4) Capstone course (BIOL 4861) 2 s.h.

5) Additional required course work: Chemistry: CHEM 1515/1515L and CHEM 1516/1516L are required.

Organic Chemistry (CHEM 3719, 3719L, 3720, and 3720L) and Fundamentals of Physics (PHYS 1501, 1501L, 1502, and 1502L) are strongly recommended.

Students seeking admission to medically related professional schools should complete the B.S. program. Elective courses under either degree may be in any discipline; however, advanced chemistry, mathematics and psychology are particularly recommended.

The mathematics, physics and chemistry courses may not be taken under the credit/no credit option. (For general University requirements, see the Academic Policies and Procedures section of this Bulletin).

Recommended core curriculum meeting science requirements of medically related and other professional schools.

Biology

2601 General Biology: Molecules and Cells
2602 General Biology: Organisms and Ecology

Core courses

3711 Cell Biology: Fine Structure
3721 Genetics
3730 Human Physiology

Additional courses

3702 Microbiology
3703 Clinical Immunology
3705 Introduction to Human Gross Anatomy
4813 Vertebrate Histology
4890 Molecular Genetics
5832 Principles of Neurobiology
5834 Advanced Systems Physiology
5836 Cell Biology: Molecular Mechanisms

Chemistry

1515 General Chemistry I
1516 General Chemistry II
3719 Organic Chemistry I
3720 Organic Chemistry II
(Biochemistry Chem 3785, is strongly recommended)

Physics

1501 Fundamentals of Physics I
1502 Fundamentals of Physics II

Mathematics

1570 Applied Calculus I or 1571 Calculus I
3717 Statistical Methods

BOTANY

See Biological Sciences.

DEPARTMENT OF CHEMISTRY

330-941-3663

Professors Hunter, Linkous, Mettee, Mincey (Chair), Norris, Wagner; Associate Professors Balendiraran, Curtin, Jackson, Lovelace-Cameron, Serra, Simeonsson; Assistant Professors Leskitu, Stourman.

The Bachelor of Science degree is recommended for those who plan to make a career in chemistry; a recommended program which meets the standards of the American Chemical Society is provided below. The Bachelor of Arts degree is recommended for those who plan to go into a medical, pre-pharmacy, or dental field and for those who plan to enter business or secondary education careers related to chemistry. The required courses for a B.S. degree with a major in chemistry are listed in the B.S. curriculum. The courses required for a B.A. degree are those listed in the B.A. curriculum below. Chemistry majors may not count Chemistry 1500 toward the major. These degrees may be earned in eight semesters if students average 16 hours per semester.
Learning Outcomes

The undergraduate student learning outcomes for the major in chemistry are as follows:

- Students will demonstrate independent and critical thinking.
- Students will understand the fundamentals of modern chemical instrumentation.
- Students will understand the basic principles of the chemical disciplines included in their curriculum.
- Students will effectively communicate their ideas both orally and in writing.

Students in pre-professional programs such as pre-optometry may obtain appropriate curricula and advisement in the Department of Chemistry.

The segments of chemistry courses extending through two semesters must be taken in sequence unless otherwise indicated.

Eye protection and lab coats must be worn in chemistry laboratories at all times.

Each student majoring in chemistry will be assigned a faculty advisor by the department. The advisor will discuss the overall curriculum necessary for a degree in chemistry and will assist the student in the preparation of a suitable course sequence and choice of a minor or minors.

All chemistry majors are urged to consult their advisors regularly to avoid curricular problems.

In both of the following curricula, the electives must satisfy the general requirements for the degree sought (see Degree Requirements). German is strongly recommended for meeting the foreign language requirement in the B.S. curriculum.

Recommended Curriculum Leading to a B.S. Degree with a Major in Chemistry

Core Courses

### YEAR ONE

#### FALL I

Courses s.h.
CHEM 1515 + 1515R ....................................................5
MATH 1571 ..................................................................4

#### SPRING I

Courses s.h.
CHEM 1516 + 1516R ....................................................5
MATH 1572  .................................................................4

#### YEAR TWO

#### FALL II

Courses s.h.
CHEM 3719 + 3719R ....................................................5
CHEM 2604 ..................................................................5
PHYS 2610 + 2610L.......................................................5
MATH 2673 ..................................................................4

#### SPRING II

Courses s.h.
CHEM 3720 + 3720R.......................................................5
PHYS 2611 + 2611L.......................................................5

### YEAR THREE

#### FALL III

Courses s.h.
CHEM 3739 ..................................................................4
CHEM 3785 ..................................................................3

#### SPRING III

Courses s.h.
CHEM 3740 ..................................................................4
CHEM 3729 ..................................................................3

In addition to BS core, BS majors must complete twelve (12) hours of upper-division chemistry electives (from the list below), four (4) hours of which must be in upper-division laboratory. Majors must also complete the capstone sequence CHEM 4850 + 4850L.

Credit Hour Summary

Chemistry Hours in BS-Core: .........................39
Chemistry Elective Hours:...............................12
Capstone Course Hours:.................................+3
Total Hours in Chemistry:..............................54

Other major-required hours:.........................+22
(Math/Physics)
Total Hours in Major:.................................76

B.S. CHEM Electives

3764 Chemical Toxicology.............................3
3786 Biochemistry 2 .........................................3
3790 Undergraduate Seminar .......................1
4860 Regulatory Aspects of Industrial Chemistry ......................................................1
5804 Chemical Instrumentation .....................4
5821 Intermediate Organic Chemistry ..........3
5822 Advanced Organic Lab ..........................3
5830 Intermediate Inorganic Chemistry .......2
5831 Inorganic Lab ...............................................2
5832 Solid State Structural Methods .............3
5836 Chemical Bonding and Structure ..........3
5861, 5862 Polymer Science 1, 2 ....................3 + 3
5876 Enzyme Analysis ......................................2

Recommended Curriculum Leading to a B.A. Degree with a Major in Chemistry

Core Courses

### YEAR ONE

#### FALL I

Courses s.h.
CHEM 1515 + 1515R ....................................................5
MATH 1571 ..................................................................4

#### SPRING I

Courses s.h.
CHEM 1516 + 1516R ....................................................5
MATH 1572  .................................................................4

Recommended Curriculum Leading to a B.A. Degree with a Major in Chemistry
YEAR TWO

5876 Enzyme Analysis ......................................2

COMBINED B.S./M.D. PROGRAM

This is a six- or seven-year program open to graduating high school seniors; however, if a student has already graduated from high school and has taken no coursework for college-level credit, she or he is still eligible to apply to the program. After two to three years of college-level credit, students in the program are then eligible for admission to the second, or medical school, phase. Each student successfully completing the program will be awarded the B.S. degree in combined science from Youngstown State University and the M.D. degree from the Northeastern Ohio Universities College of Medicine (NEOUCOM). (See Northeastern Ohio Universities College of Medicine, on p. 74.)

DEPARTMENT OF COMPUTER SCIENCE AND INFORMATION SYSTEMS
330-941-3134

Professor Schueller; Associate Professors Bodnovich (Chair), Hogue, Kramer, Lazar, Sullins; Assistant Professors Arslanyilmaz, Gaydos, Harper, Perera, Zhang; Instructor Ickert.

The Department of Computer Science and Information Systems offers a wide range of education programs. The Computer Science program is offered as the Bachelor of Science degree and is a traditional, analytical program which involves extensive computer programming and support courses in mathematics. The Computer Information Systems program is offered as the Associate in Applied Science and the Bachelor of Science in Applied Science. Coursework involves extensive programming with an emphasis on applied business programming. The Information Technology program is also offered as the Associate in Applied Science and the Bachelor of Science in Applied Science. Coursework emphasizes applying high-end computer applications and system management.

COMBINED B.S./M.S. PROGRAM IN CHEMISTRY

This is a five-year program. Prospective students seeking admission to the program may submit an application to the Department of Chemistry during their senior year in high school. Students in the program start graduate studies after three years. They will normally receive the B.S. degree in chemistry after 3 years and the M.S. degree after 5 years.

COMPUTER SCIENCE

The Computer Science program leads to the degree of Bachelor of Science. The flexibility of the program allows the student many choices upon graduation. Three major possibilities are: first, graduates will be qualified to pursue graduate work in computer science; second, all graduates will be qualified to work as systems analysts, systems programmers, or...
software engineers. The student may study another discipline as a minor field to become an application programmer in that discipline. This degree may be earned in eight semesters if students average 16 hours per semester.

Learning Outcomes

Computer science students in the BS degree program will:

- experience at least one large computer-based system.
- communicate effectively with written reports.
- be able to analyze, design, implement and test computer programs by using the appropriate data structures and algorithms.
- obtain full-time employment as programmers, systems analysts, computer specialists and in other closely related fields or acceptance to graduate programs.

In addition to completing all general University requirements, students wishing to receive the Bachelor of Science in computer science must complete the following:

1. CSIS 2610, 3700, 3701, and 3740.
2. CSCI 3710, 5806, 5814, 5870, and at least 2 s.h. of 4890.
3. At least 12 additional semester hours of upper-division CSCI or CSIS courses not including CSCI 4885 or 4886. CIS or IT courses numbered 4800 and above may also be used as electives with advisor approval.
4. A minor in mathematics comprising at least 18 semester hours to include MATH 1571, 1572, 3720, and either STAT 3743 or MATH 3760.
5. ENGL 3743, PHIL 2619, and PHIL 2625.
6. University general education requirements in essential skills, knowledge domains, and skill-intensive courses.
7. College requirements of study in a foreign language equivalent to 2600.

COMPUTER INFORMATION SYSTEMS

The computer information systems program offers students the flexibility of earning either a two-year AAS degree or continuing for an additional two years to obtain a four-year BSAS degree through the two-plus-two program.

This discipline covers both the technical and end-user aspects of computing, using PCs through mainframe computers with hands-on experience. Student skills are developed in computation that includes application programming, networking and telecommunications, database design, cyber security, and analysis of complex business and technical environments.

Learning Outcomes

Computer information systems students in the AAS and BSAS degree programs will:

- write computer programs in two or more programming languages.
- solve computer networking problems.
- communicate effectively with written reports.

CIS graduates of the AAS degree program will continue their studies towards a bachelor’s degree in a computer or information technology area or obtain employment as programmers, computer specialists and in other closely related fields.

CIS graduates of the BSAS degree program will obtain full-time employment as programmers, network administrators, systems analysts, computer specialists and in other closely related fields.

Associate Degree Program

The computer information systems associate degree program emphasizes the use of computers to solve business or science problems. The graduate may be employed in positions involving direct use of microcomputers and mainframe computers for business or science administration and decision support applications. This degree may be earned in four semesters if students average 16 hours per semester.

Students wishing to receive the Associate in Applied Science in computer information systems must complete the following:

1. CSIS 1590, 2610, 3722, and 3723.
2. CIS 3741.
3. At least 9 additional semester hours of upper-division CIS elective courses.
4. ACCT 2602 and 2603.
5. ENGL 3743.
6. PHIL 2619.
7. MATH 1552.
8. University general education requirements in basic skills and one general education course in each of the areas of artistic and literary perspectives, societies and institutions, and speech.

Bachelor’s Degree Program

The computer information systems professional will develop his or her ability to conceptualize, design, and implement high quality information systems based upon computer systems ranging from a single-user system to complex, interactive, and multi-user distributed systems. This degree may be earned in eight semesters if students average 16 hours per semester.
Students wishing to receive the Bachelor of Applied Science in computer information systems must complete the following:

1. CSIS 1590, 2610, 3722, and 3723.
2. CIS 3741 and CIS 4840.
3. At least 21 additional semester hours of upper-division CIS or CSIS courses. CSCI or IT courses numbered 4800 and above may also be used as electives with advisor approval.
4. A minor of at least 18 semester hours.
5. ACCT 2602 and 2603.
6. MATH 1552.
7. ENGL 3743, PHIL 2619, and PHIL 2625.
8. University general education requirements in basic skills, knowledge domains, and skill intensive courses.

INFORMATION TECHNOLOGY

Information Technology provides systematic foundations that include methodologies and models for conceptualizing the complex dynamics of the Information Technology environment as it applies to information systems design and implementation.

The program supports work processes and employee performance enhancements; is designed to improve overall workflow and individual productivity; and addresses the creation, distribution, storage, and use of information in all its states. Business process are incorporated as an integral part of all course content. Information Technology encompasses end-user computing, information centers, computer-supported work, performance support, project management, multimedia, networks, database systems, system analysis, and information security.

Learning Outcomes

Information technology students in the AAS and BSAS degree programs will:

- write and produce interactive programs.
- be able to design a 3NF database and extract information using QBE and SQL.
- communicate effectively with written reports.

IT graduates of the AAS degree program will continue their studies towards a bachelor’s degree in a computer or information technology area or will obtain full-time employment as web technicians, help desk support, network technicians and in other closely related fields.

IT graduates of the BSAS degree program will obtain full-time employment as web designers, network administrators, multimedia specialists and in other closely related fields.

Associate Degree Program

Graduates of the associate degree program can pursue careers in service and support of information systems, as well as continuing on to a bachelor’s degree in information technology. This degree may be earned in four semesters if students average 16 hours per semester.

Students wishing to receive the Associate in Applied Science in information technology must complete the following:

1. CSIS 1525, 1590, and either 1560 or 2610.
2. INFO 1575, 2663, 3774, 3704, 3714 and 3775.
3. CSIS 2699 or 4893, 3720 or 3782, 3722, and 3723 or 3783.
4. MATH 2623, 1552 or 1571.
5. An advisor-approved specialization area of at least 8 or 9 semester hours.
6. University general education requirements in basic skills and one general education course in each of the areas of artistic and literary perspectives, societies and institutions, and speech.

Bachelor’s Degree Program

The information technology professional will develop his or her ability to conceptualize, design, and implement high-quality information systems based upon computer systems ranging from single-user systems to complex, interactive, and multi-user distributed systems. (Students who wish to teach in public schools follow the content and add the professional education coursework to earn a teaching license.) This degree may be earned in eight semesters if students average 16 hours per semester.

IT majors may follow the generic curriculum or may choose to follow one of several options: database, e-commerce programming, multimedia/web design, networking, security, or technical support. See the CSIS department secretary for curriculum sheets for the options.

Students wishing to receive the Bachelor of Applied Science in information technology must complete the following:

1. CSIS 1525, 1590 and either 1560 or 2610, and either 2699 or 4893.
2. INFO 1575, 2663, 3704, 3774, 3714 and 3775.
3. CSIS 3720 or 3782, 3722, 3723 or 3783, and 3726.
4. At least 15 additional semester hours of upper-division Information Technology or CSIS courses. CSCI or CIS courses numbered 3000 and above may also be used as electives with advisor approval.
5. An unspecified minor of 18 or more semester hours.
6. University general education requirements in essential skills, knowledge domains, and skill-intensive courses.
DEPARTMENT OF
GEOLOGICAL AND
ENVIRONMENTAL
SCIENCES
330-941-3612

Professors Beiersdorfer, Jacobs, Norris; Associate Professors Amin, Dick; Assistant Professors Armstrong, (Interim Chair), Smith.

GEOLOGY PROGRAMS

Geology may be the major for the degree of Bachelor of Science or Bachelor of Arts.

The major in geology provides the student with a background for professional work, teaching, and graduate study in geology, environmental science, and related fields. This degree may be earned in eight semesters if students average 16 hours per semester.

Learning Outcomes

The student learning outcomes for the B.S. in geology are as follows:

• Communicate effectively using the language, concepts, and models of geology in written, visual, and numerical formats.
• Properly apply the scientific method to research a geologic problem and formulate conclusions.
• Demonstrate ability to apply appropriate field- and laboratory-based methods (of acquiring, quantitatively and qualitatively analyzing and interpreting geologic data and information).
• Demonstrate understanding of plate tectonics regarding the petrologic, stratigraphic, and structural evolution of continents and oceans.

Curriculum for the Bachelor of Science—Geology

For the Bachelor of Science degree, the student majoring in Geology must complete a minimum of 37 s.h. in Geology (28 Specified, 9 Elective), including a course in Field Geology, an additional 24-26 s.h. in science support courses.

I. Required Courses (28 s.h.)

Curriculum for the Bachelor of Arts—Geology

GEOSCIENCE OPTION

Learning Outcomes

The student learning outcomes for the B.A. in geology are as follows:

• Communicate effectively using the language, concepts, and models of geology in written, visual, and numerical formats.
• Properly apply the scientific method to research a geologic problem and formulate conclusions.
• Demonstrate ability to apply appropriate field- and laboratory-based methods (of acquiring, quantitatively and qualitatively analyzing and interpreting geologic data and information).
• Demonstrate understanding of human impacts from geologic hazards (e.g.,
earthquakes, geologic global warming, landslides, and subsidence) and human
impact on the environment (e.g., global warming from industry emissions, mining,
and water and air pollution).

For the Bachelor of Arts degree, the student majoring in geology must complete a minimum 40
s.h. of required courses and a minimum of 8 s.h. in
geoscience electives for a total of 48 s.h. A minor is
not required.

EARTH SCIENCE
Earth science may be the major for the Bachelor
of Arts degree or the Bachelor of Science in Educa-
tion degree.

The earth science major is designed to meet the
needs of students desiring a broad background in
the field. The major also provides the necessary
background for graduate students and for a teach-
ing field in earth science. Interested students should
consult the chair of the Department of Geological and
Environmental Sciences.
Learning Outcomes

The student learning outcomes for the B.A. in earth science are as follows:

- Communicate effectively using the language, concepts, and models of geology in written, visual, and numerical formats.
- Properly apply the scientific method to research a geologic problem and formulate conclusions.
- Demonstrate ability to apply appropriate field- and laboratory-based methods (of acquiring, quantitatively and qualitatively analyzing and interpreting geologic data and information).
- Demonstrate understanding of the interrelationships between geology and astronomy, oceanography, meteorology, and environmental science.

Curriculum for the Bachelor of Arts—Earth Science

An Earth Science major consists of 47 semester hours of science courses distributed as follows: 26 hours of specified courses, and 21 hours of elective courses. Elective courses must be taken from at least three (3) disciplines. A minor is not required

I. Specified: (26)

ENVIRONMENTAL STUDIES PROGRAM

Professor Jacobs, Associate Professor Amin, Assistant Professor Armstrong.

The environmental studies program leading to a Bachelor of Science (B.S.) degree will prepare students to enter the job market as environmental specialists or to continue in their education in a graduate program. Students in environmental studies will complete 34 s.h. of environmental studies courses, 26-27 s.h. of support courses in science and mathematics, and a prescribed minor of 18 s.h.

The minor may be in chemistry, biological sciences, environmental geology, environmental geography, economics, or political science, and must include 9 s.h. of upper division courses (3000 level and above). Credits may include those required for support science and mathematics, as applicable. The courses for the minor must be offered in one department. The student is welcome to take additional courses in other departments as electives. Students are encouraged to develop teamwork, communication, computer and problem-solving skills. This degree may be earned in eight semesters if students average 15.5 hours per semester.

Learning Outcomes

The student learning outcomes for the B.S. in environmental studies are as follows:

- Communicate effectively using the language, concepts, and models of environmental science in written, visual, and numerical formats.
- Properly apply the scientific method to research an environmental problem and formulate conclusions.
- Demonstrate ability to apply appropriate field- and laboratory-based methods (of acquiring, quantitatively and qualitatively analyzing and interpreting environmental data and information).
- Demonstrate understanding of pollution sources, pollution prevention strategies, and waste management.

* Majors transferring in from other programs at YSU or from other universities may use up free electives and/or require additional semesters or summers of study. College and university requirements apply (total hours, upper division hours, general education goals, etc.). One writing intensive, oral intensive, critical thinking intensive, and capstone course can be satisfied within this program.

### DEPARTMENT OF MATHEMATICS AND STATISTICS

330-941-3302

Professors Chang, Fabrykowski, Kent, O’Mellan, Piotrowski, Ritchey (Chair), Rodabaugh, Smotzer, Stanek, Wingler; Associate Professors Burden, Kerns, Pollack, Spalsbury, Tartir, Yates; Assistant Professors Flowers, Goldthwait, Jalics, Taylor, Wakefield; Instructor Carlson.

Mathematics may be the major subject for the following degree programs: Bachelor of Science (B.S.), Bachelor of Arts (B.A.), and Bachelor of Science in Education (B.S. in Ed.). The B.A. and B.S. degrees may be earned in eight semesters if students average 16 hours per semester.

In addition to satisfying general University requirements, all students majoring in mathematics must complete the following core courses: MATH 1571, 1572, 2673, 3715, 3720, 3721, 3751, and 4896 or 4897H or 4893; also STAT 3743 and CSIS 2610.

### B.S. DEGREE

#### Learning Outcomes

The student learning outcomes for a B.S. in mathematics are as follows:

- Students will develop and demonstrate the ability to reason mathematically by constructing mathematical proofs and recognizing and analyzing accurate numerical
data in all core courses. Students will learn that truth in mathematics is verified by careful argument, and will demonstrate the ability to make conjectures and form hypotheses, test the accuracy of their work, and effectively solve problems.

- Students will learn to identify fundamental concepts of mathematics as applied to science and other areas of mathematics, and to interconnect the roles of pure and applied mathematics.

- Students will demonstrate that they can communicate mathematical ideas effectively by completing a senior capstone project involving an investigative mathematical project and presenting their findings and results in both a written format and as an oral presentation to faculty and other students.

Tracks

Students may select one of the following four tracks:

**Traditional Mathematics Track.** In addition to the core, MATH 5852, 5822, and 5880, together with at least one of 3760, 3705, or 5845 and one additional 5800-level course in mathematics. The minor course of study must be a recognized minor selected from one of the following disciplines: biology, chemistry, computer science, economics, geology, physics, psychology, one engineering specialty (from chemical, civil, electrical, industrial, mechanical), or statistics. The total number of required semester hours of credit in mathematics (excluding statistics courses) for this track is 32.

**Statistics Track.** In addition to the core, MATH 3760, 5845, and a minor in statistics that would consist of STAT courses 3743, 5817, 5843, 5844, and two elective courses which can be chosen from the STAT courses 5840, 5846, 5847, 5849 and 5895. One of the elective courses may be chosen from outside the Department of Mathematics and Statistics with the permission of the chairperson. Such a course can be ECON 5824 or ISEN 3720 or another statistics-related course. The total number of required semester hours of credit in mathematics for this track is 32.

**Applied Mathematics Track.** In addition to the core, MATH 3705, 3760, and two electives from 5825, 5835, 5845, 5853, 5861, and 6942, and a recognized minor in one of the following areas: statistics, computer science, engineering, physics, geology, chemistry, biology, logistics, economics, geoscience, or another area with approval of the chair. The total number of required semester hours of credit in mathematics for this track is 38.

**Quantitative Business Track.** In addition to the core, MATH 5845 and 3760; STAT 5817 and a minor course of study in business or finance. The total number of required semester hours of credit in mathematics for this track is 32.

**B.A. DEGREE**

**Learning Outcomes**

The student learning outcomes for a B.A. in mathematics are as follows:

- Students will develop and demonstrate the ability to reason mathematically by constructing mathematical proofs and recognizing and analyzing accurate numerical data in all core courses. Students will learn that truth in mathematics is verified by careful argument, and will demonstrate the ability to make conjectures and form hypotheses, test the accuracy of their work, and effectively solve problems.

- Students will learn to identify fundamental concepts of mathematics as applied to science and other areas of mathematics, and to interconnect the roles of pure and applied mathematics.

- Students will demonstrate that they can communicate mathematical ideas effectively by completing a senior capstone project involving an investigative mathematical project and presenting their findings and results in both a written format and as an oral presentation to faculty and other students.

**Requirements**

In addition to the core, B.A. candidates must take 12 additional semester hours of mathematics at the upper-division level, with at least two at the 4800 level. The minor field of study may be any discipline. The total number of required semester hours of credit in mathematics for this program is 38.

**Tracks**

In selecting the appropriate track, the student should consult a department advisor, since certain tracks are to be preferred according to whether the student contemplates graduate study in mathematics or statistics, secondary school teaching, or a career in business, industry or government.

The **Traditional Mathematics Track** enrolls students seeking classical training in mathematics. Students will study the nature of mathematics in fields such as algebra, real analysis, complex analysis, and topology. Connections to, and generalizations of, earlier formulations of mathematical concepts will frequently be made. Generally, new results in mathematics are developed and proven by those with a Ph.D. in mathematics. Students planning to pursue a Ph.D. will be well prepared for graduate school with this track and should also study at least one of the languages French, Russian, or German.

The **Applied Mathematics Track** emphasizes areas of mathematics used in government and industry. Students learn mathematical models for the study of physical and computational processes. Mathematical techniques are also used to study uncertainty,
scheduling, and decision theory. Many graduates find employment in consulting firms and large corporations where computing and mathematical problem solving skills are valued. Students are also prepared to pursue a master’s degree in applied mathematics.

The Statistics Track is for students interested in the analysis of data. Statistical techniques are utilized in many fields of research such as medicine, biology, business, and sociology. Statisticians learn proper methodology for collecting, summarizing, and interpreting data subject to sampling variability. The increase in affordable computing and the use of statistical software have placed statistical expertise in demand. Generally, students interested in statistics pursue further study at the graduate level, but positions are available for students upon completion of a bachelor’s degree.

Students enrolled in the Quantitative Business Track will be well prepared to bring quantitative problem solving skills to various fields of business. Students interested in using mathematics and statistics to study logistics or financial and business situations should enroll in this track. By enrolling in this track and carefully planning electives, students will be well prepared to pursue an MBA degree from many programs across the country. Students can also pursue a career in actuarial science, which is concerned with such things as assessing pension plans, mortality rates, and accident rates. Students from this program can find employment in banks, insurance firms, public accounting firms, investment firms, labor unions, government, and large corporations.

The Bachelor of Arts Track is available for students interested in a liberal arts education. This degree is also recommended for students who wish to pursue another discipline, possibly a double major.

Transfer Credit

Students receiving transfer credit from another institution for courses in mathematics should consult the department chair to determine how this credit will apply toward the major requirements.

Mathematics Minors

Interested students should consult the Department of Mathematics and Statistics for more information.

DEPARTMENT OF PHYSICS AND ASTRONOMY
330-941-3616

Professors Andrews, Carroll, Crescimanno, Sturrus (Chair), Tabak; Associate Professors Durrell, Oder; Assistant Professor Feldmeier.

Courses are organized with the following aims: (1) To provide well-rounded training in physics and astronomy for those needing it for graduate study, industry, or for secondary school teaching; (2) To provide basic training for engineering and pre-professional students; (3) To acquaint the non-specializing student with scientific methods and with the place of physics and astronomy in the modern world.

Following the course descriptions below are the curricula and minimum requirements for the degrees of Bachelor of Arts and Bachelor of Science with a major in physics and a Bachelor of Science degree with a combined major in physics and astronomy. These degrees may be earned in eight semesters if students average 15.5 hours per semester.

Learning Outcomes

The Department of Physics & Astronomy has established the following learning outcomes for the B.S. and B.A. programs:

- Students will learn to reason critically about physical systems as individuals and in groups.
- Students will learn to apply the concepts of physical laws to solve numeric problems in physical systems.
- Students will learn to measure the properties of physical systems using modern test equipment and report the results of the measurements with their associated accuracy and precision.
- Students of the B.S. program in physics will be prepared for entry into physics graduate programs or scientific and technical positions in industry and government.
- Students of the B.S. program in physics/astronomy will be prepared for entry into astronomy graduate programs or scientific and technical positions in industry and government.

Degree Options

The B.A. degree program in physics is designed for students who are interested in fields that benefit from a strong background in physics or for students planning to terminate their education at the bachelor’s degree level. The B.S. degree program in physics is designed for students who plan to pursue graduate studies in physics. The B.S. degree program with a combined physics-astronomy major is designed for students who plan to pursue graduate studies in astronomy or space science.

A student desiring to teach physics or astronomy in secondary schools should consult the dean of the College of Education.

Shown below are suggested curricula for complete four-year programs. Students are urged to come to the department office early in their first year to select, and consult with, an advisor from the teaching staff.
## Suggested Curriculum for a B.S. in Physics with a Minor in Mathematics

### FIRST YEAR

<table>
<thead>
<tr>
<th>Courses</th>
<th>s.h.</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHYS- 2610, 2610L, 2611, 2611L</td>
<td>10</td>
</tr>
<tr>
<td>MATH- 1571, 1572</td>
<td>8</td>
</tr>
<tr>
<td>CHEM- 1515, 1516</td>
<td>8</td>
</tr>
<tr>
<td>ENGL- 1550, 1551</td>
<td>6</td>
</tr>
</tbody>
</table>

32

### SECOND YEAR

<table>
<thead>
<tr>
<th>Courses</th>
<th>s.h.</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHYS- 3704, 3704L, 3705, 3705L</td>
<td>8</td>
</tr>
<tr>
<td>MATH- 2673, 3705</td>
<td>7</td>
</tr>
<tr>
<td>Electives (See note)</td>
<td>15</td>
</tr>
</tbody>

<td>22</td>
</tr>
</tbody>
</table>

31

Note: The electives must satisfy the general University and/or STEM College requirements.

Minimum requirements for the B.A. degree in physics with a minor in mathematics—physics courses, 30 s.h.: 2610, 2610L, 2611, 2611L, 3701, 3702, 3704, 3704L, 3705, 3705L, 3741, 4805; mathematics courses, 18 s.h.: 1571, 1572, 2673, 3705, plus upper-division math elective.

Minimum requirements for the B.S. degree in physics with a minor in mathematics—physics courses, 42 s.h.: same as the B.A. above plus 3742, 3750, 5810, 5811; mathematics courses, 18 s.h.: same as B.A. degree.

Minimum requirements for the B.S. with a combined major in physics and astronomy and a minor in mathematics—physics courses, 37 s.h: 2610, 2610L, 2611, 2611L, 3701, 3702, 3704, 3704L, 3705, 3705L, 3741; 10 s.h. of upper-division physics courses and 21 s.h. of astronomy courses: 1504, 2609, 3711, 4805, 4811, 4812; mathematics courses, 18 s.h., same as for B.A. degree above.

## RAYEN SCHOOL OF ENGINEERING AND ENGINEERING TECHNOLOGY

### Accreditation

The baccalaureate degree programs in the Rayen School of Engineering and Engineering Technology accredited by the Engineering Accreditation Commission of the Accreditation Board for Engineering and Technology (ABET) are chemical engineering (jointly accredited by the American Institute of Chemical Engineers), civil engineering, electrical engineering, industrial and systems engineering, and mechanical engineering; those accredited by the Technology Accreditation Commission of ABET are civil and construction engineering technology, electrical engineering technology, and mechanical engineering technology.

### Admission

For those seeking a Bachelor of Engineering (B.E.) degree, first-time-college students from high school are admitted to one of the following entry-level majors based on academic preparation.

#### First-Year Engineering

- Minimum ACT Math score of 23
- OR Minimum SAT Math score of 530
- OR YSU Math Placement of MATH 1571 (Calculus I)

Note: Students deficient in high school trigonometry are required to enroll in MATH 1513 prior to MATH 1571.

International students must also present a minimum TOEFL score of 525.

#### Pre-Engineering & Technology

For those who do not meet the above criteria

To transfer into the first-year engineering major from another college major, a student must:

- Be qualified to enroll in MATH 1571 and ENGL 1550
- Have a GPA of at least 2.30
- Not be disqualified (See Disqualification Policy below)
To transfer into a degree-granting engineering major, a student must:

- Have earned a minimum 12 semester hours or equivalent
- Have earned “C” or better grades in MATH 1571, CHEM 1515/1515L and ENGL 1550
- Have a GPA of at least 2.30
- Not be disqualified (See Disqualification Policy below)

## Associate in Applied Science Degree

Associate in Applied Science majors include: civil and construction engineering technology, computer information systems and information technology, electrical engineering technology, and mechanical engineering technology. These majors offer a 2+2 degree program design leading to the Bachelor of Science in Applied Science degree. Consult the department sections of the bulletin for specific course information.

## School of Engineering Disqualification

A student who earns two grades of D, F, or NC in the same course(s) listed below will be disqualified from transferring into a degree-granting engineering major. These courses are: MATH 1513, MATH 1571, ENGL 1540, ENGL 1550, CHEM 1515/1515L, and PHYS 2610.

## Enrollment in Restricted Engineering Courses

Enrollment in most engineering and engineering technology courses is restricted to those admitted to a degree-granting engineering major. A few engineering courses are not restricted. They are: ENGR 1550, 1555, 1560; CEEN 2610 and 2610L; ECEN 1521, 1521L and 1555. All others require admission to a professional engineering major unless approved by the chair of the engineering department and coordinator of the engineering program offering the course and by the STEM College dean. Students will be administratively withdrawn from restricted courses in which they are improperly enrolled.

## Bachelor of Engineering degree (B.E.) Graduation Policies

All engineering programs have pre-college course requirements listed in the chart at the end of this section that should be completed in high school or in equivalent course work at the college level. YSU offers the equivalent high school courses for those not meeting these pre-college requirements. These high school deficiencies do not count toward graduation requirements and should be completed during the first two years of enrollment.
The table below shows the minimum pre-college requirements:

<table>
<thead>
<tr>
<th>PRE-COLLEGE Subject</th>
<th>High School Units</th>
</tr>
</thead>
<tbody>
<tr>

DEPARTMENT OF CIVIL/ENVIRONMENTAL AND CHEMICAL ENGINEERING
330-941-3027

Professors Alam, Garr, Husain, Lim, Martin (Chair); Associate Professors Islam, Price; Assistant Professor Tritico.

CHEMICAL ENGINEERING PROGRAM

Associate Professor Douglas M. Price, Program Coordinator.

The chemical engineering program — supplemented with courses in chemistry, physics, mathematics, and general engineering — provides a broad preparation for design, operation, and management in the chemical, biomedical, biological, nuclear, pharmaceutical, and energy-conversion industries, as well as graduate study leading to research positions in industry and government and to academic careers.

Educational Objectives

Graduates of the chemical engineering program at YSU

- Pursue careers as practicing chemical engineers in chemical and energy-related industries as well as in areas of materials, environmental, and biomedical engineering and biotechnology.
- Demonstrate strong, functional command of chemical engineering fundamentals and communication skills.
- Are aware of the scope of the chemical engineering profession and its global opportunities and requirements.
- Exhibit professional responsibility and a sensitivity to a broad range of societal concerns including ethical, environmental, political, regulatory, and global issues in making decisions.

Learning Outcomes

The curriculum is structured to achieve several program outcomes. Students will

- Understand how to apply the basic principles of chemical engineering in problem solving and design
- Understand how to apply math and basic sciences in solving chemical engineering problems
- Apply chemical engineering principles both in upper division classes and in the professional work arena, and know how to approach open-ended and design problems
- Use traditional chemical engineering software and general engineering software in addition to standard packages for graphing, tables, and word processing; basic programming skills
- Understand the societal, global, and ethical impact of their designs and processes
- Communicate and work effectively on a one-on-one basis, in groups of chemical engineers, and on multidisciplinary teams
- Participate in student chapter activities, now and after they enter professional work, with an emphasis on lifelong learning and attending clinics and conference sessions
- Effectively access and assess information (data from literature)

Facilities

The chemical engineering laboratories are well equipped for undergraduate instruction and student and faculty research. The equipment includes fluid flow apparatus, concentric tube and plate and frame heat exchangers, thermal conductivity apparatus, boiling heat transfer apparatus, tray dryer, double effect evaporator, computer-controlled distillation tower, gas absorption and liquid-liquid extraction columns, chemical reactors, electrostatic particle separator, centrifuges, filter presses, and other miscellaneous equipment.

Note: Transfer students from any two- or four-year academic program at other institutions or at this University who wish to pursue studies in chemical engineering should consult with the program coordinator for individual counseling to develop a program of study that fully uses their educational background and requires a minimum of time to satisfy the requirements for the degree of Bachelor of Engineering in Chemical Engineering.

1 – Ethics Elective – Choose One:
- PHIL 2609 Technology and Human Values; or
- PHIL 2625 Introduction To Professional Ethics; or
- PHIL 2626 Engineering Ethics

2 – Advanced Chemistry Elective – Choose One:
- CHEM 3740 and 3740L Physical Chemistry 2; or
- CHEM 3785 and 3785L Biochemistry 1

3 – Fundamentals of Engineering Elective – Choose One:
- MECH 2606 Engineering Materials; or

**CIVIL ENGINEERING PROGRAM**

*Professor Scott C. Martin (Program Coordinator).*

Civil engineers are responsible for planning, designing, and supervising construction of the nation's infrastructure, including buildings, bridges, highways, dams, drinking water and wastewater treatment facilities, airports, etc. The civil engineering program provides an academic environment rich in opportunities for students to develop the knowledge and skills necessary for productive and rewarding careers and lives. The educational objectives of the program are to prepare graduates to:

- excel in any sector(s) of civil engineering practice, including consulting, government, construction, and industry;
- complete graduate study in civil engineering or a related field;
- communicate effectively with a variety of audiences through writing and speaking;
- apply creativity and a strong understanding of math, science, computers, and engineering to develop innovative solutions to engineering problems;
- understand and effectively incorporate the role of social, ethical, political, economic, and environmental considerations in their professional careers;
- work effectively as a member of a team or organization, and excel in a leadership role where appropriate;
- serve their profession and society through involvement in professional and service organizations;
- achieve registration as a Professional Engineer; and
- continue their intellectual and professional growth through lifelong learning.
Learning Outcomes

The undergraduate curriculum is structured to achieve the following specific program outcomes:

- Students will obtain a broad education necessary to understand the impact of civil engineering solutions in a global, societal, and environmental context.
- Students will be able to solve civil engineering problems in practice by applying fundamental knowledge of mathematics, science, and engineering, and using modern engineering techniques, tools, equipment, and computer applications.
- Students will be able to design systems, components, or processes to meet specific needs within the following realistic constraints: economic; social; political; environmental; sustainability; ethical; health and safety; and constructability.
- Students will be able to design and conduct experiments, and to analyze and interpret data within the various civil engineering specialty disciplines.
- Students will understand the fundamentals of business, management, and leadership, including organization, planning, bidding, report preparation, construction, and functioning effectively as a member of a multidisciplinary team.
- Students will be able to communicate effectively, via speaking and writing, with both technical and non-technical audiences.
- Students will have a solid understanding of professional and ethical responsibility, the importance of professional licensure, and the need for continued professional development.

Program Description

In the first two years of the program, students take coursework in the fundamentals of engineering, mathematics, and basic science in order to strengthen their technical background and develop intellectual maturity. The student then continues in a broad-based civil engineering program that develops competence in a variety of areas within the discipline. Engineering topics include environmental engineering, fluid mechanics, soil mechanics, strength of materials, surveying, and concrete testing. In the last two years, students choose elective courses in the various areas of civil engineering based on their academic and career interests.

Instruction on the design process is fully integrated throughout the curriculum to foster the depth of understanding and self-confidence that students will need to think creatively and become productive engineers. The curriculum is based on the belief that students can best develop their creative skills through a series of progressively more demanding design experiences leading up to a major, comprehensive senior-level project.

Students majoring in civil engineering earn the Bachelor of Engineering (B.E.) degree. Graduates are prepared for advanced study at the master's and doctoral level in engineering or for employment in the engineering profession.

The program offers the atmosphere of a small school in maintaining close contact between students and faculty. Senior professors serve as academic advisors and are used in all phases of instruction from freshman to graduate courses. All of the program's facilities are located within the modern Moser Hall. The program maintains laboratories for environmental engineering, fluid mechanics, soil mechanics, strength of materials, surveying, and concrete testing. A wide variety of equipment is available to support both teaching and research activities.

Students who have successfully completed the sophomore year and meet the additional requirements of the program may select the cooperative education option. Students selecting this option must register for, and successfully complete at least two co-op work periods beginning after the end of the sophomore year. These work periods may be either concurrent or alternating with academic semesters. Selecting the co-op option typically adds one or two semesters to the degree program. Further information on the cooperative education option is available in the department office.

1 – May substitute CHEM 1516/1516L or PHYS 2611
2 – May substitute out of Dept. course with approval of CE Program Coordinator
3 – Fundamentals of Engineering Elective – Choose One: MECH 2606 Engineering Materials; or MECH 2603 Thermodynamics 1; or EREN 2632 Basic Circuit Theory 1

**Cooperative Education Option in Civil Engineering**

Students who have successfully completed the sophomore year and meet the additional requirements of the program may select the cooperative education option. Students selecting this option must register for, and successfully complete at least two co-op work periods beginning after the end of the sophomore year. These work periods may be either concurrent or alternating with academic semesters. Selecting the co-op option typically adds one or two semesters to the degree program. Further information on the cooperative education option is available in the department office.

**DEPARTMENT OF ELECTRICAL AND COMPUTER ENGINEERING**

**330-941-3287**

Professors Jalali (Chair), Munro, Pansino; Associate Professor Mossayebi; Assistant Professor Li.

The department offers coursework leading to the Bachelor of Engineering with a major in electrical engineering. Traditional, computer/ digital, and biomedical options are available. The first courses in the department major are electrical and computer engineering (ECEN 1521 and 1521L, and are available to all University students. Visit the department office or web site for details.

**Mission**

The Department of Electrical and Computer Engineering is committed to academic excellence, and it provides educational opportunities in electrical and computer engineering. We provide students at baccalaureate and master levels with diverse and comprehensive educational experiences to meet the highly demanding standards required by industry and for further education.

We utilize the resources of the university and interact with industry to evaluate, optimize, maintain, and upgrade our teaching, research, scholarship, service and facilities to continue maintaining a high-standard educational environment. We promote students' intellectual growth to become fully developed, informed, and productive in order to serve themselves and their local and global communities effectively.

**Program Educational Objectives**

The Department of Electrical and Computer Engineering at Youngstown State is committed to offering its student a high standard of engineering education. In fulfillment of its mission, as well as the missions of the College of Science, Technology, Engineering, and Mathematics and the University, the following program educational objectives are established. Graduates of our program should be able to:

- Apply the latest technology, using engineering hardware and software, and scientific and mathematical knowledge to solve technical problems individually or in teams.
- Function professionally, socially, and ethically in the practice of electrical engineering or in post-graduate education.
- Understand global issues and the impact of engineering and technology on society and the environment.
- Engage in life-long learning to broaden themselves and their profession.
- Communicate effectively both individually and in teams.
Program Outcomes

To achieve the program educational objectives, our students must attain the following program outcomes by the time of their graduation:

- an ability to apply knowledge of mathematics, science, and engineering;
- an ability to design and conduct experiments, as well as to analyze and interpret data;
- an ability to design a system, component, or process to meet desired needs within realistic constraints such as economic, environmental, social, political, ethical, health and safety, manufacturability, and sustainability;
- an ability to function on multi-disciplinary teams;
- an ability to identify, formulate, and solve engineering problems;
- an understanding of professional and ethical responsibility;
- an ability to communicate effectively;
- the broad education necessary to understand the impact of engineering solutions in a global, economic, environmental, and societal context;
- a recognition of the need for, and an ability to engage in life-long learning;
- a knowledge of contemporary issues; and
- an ability to use the techniques, skills, and modern engineering tools necessary for engineering practice.

Laboratory Facilities

The Department of Electrical and Computer Engineering maintains modern, well-equipped laboratory facilities for circuits, electronics, communications, electromagnetics, energy conversion, control systems, and digital systems. PC computing and wireless networking are available, as well as various licensed software packages.

Cooperative Education

The Electrical and Computer Engineering Department participates in the College’s Cooperative Education Program. Students who have completed the sophomore year and meet requirements approved by the department may enroll in an optional co-op program. Co-op students are required to complete the same program requirements for graduation as non co-op students.

Students who enroll in two co-op courses and complete the co-op requirements may receive up to two semester credits as co-op credit to be applied toward ECEN elective courses. Students interested in receiving co-op credit must enroll in ENGR 3798 or 4898 and follow the policies written in the course syllabus. The course requirements include the submission of a work report pertaining to their co-op experience as well as a presentation. The department faculty reviews the student report to ensure the student’s co-op experience qualifies him or her for credit, and then a grade is assigned. Interested students may contact the department for details.

Options

Traditional, computer/digital, and biomedical options, the co-op program, design projects, computer simulation, and hands-on laboratory sessions are the pillars of the Bachelor of Engineering with a major in electrical engineering. These features provide students with the opportunity to prepare for a vast array of entry-level positions or advanced studies.

With faculty assistance, students tailor their programs to meet their educational objectives. This includes choices of options and elective courses, and participation in co-op, as well as semester-by-semester scheduling of courses.

The traditional option has 52 hours of electrical engineering, 15 hours of other engineering, 18 hours math, 16 hours science, 9 hours of writing and speech, and 21 hours general education courses for a total of 131 semester hours.

The computer/digital option has 40 hours of core electrical engineering courses, 15 hours of other engineering, 19 hours computer engineering/science courses, 18 hours math, 13 hours science, 9 hours of writing and speech, and 21 hours general education courses for a total of 135 semester hours.

The biomedical option has 40 hours of core electrical engineering courses, 15 hours of other engineering, 18 hours mathematics, 33 hours science, 9 hours of writing and speech, and 21 hours general education courses for a total of 136 semesters hours.

Students in any of these options can participate in the co-op program. Scheduling is reasonably flexible, but there are some restrictions.

Course Scheduling

Scheduling of courses will depend upon your particular situation. Are you working part time? Will you be co-opping, either alternate or parallel? Do you wish a full- or part-time academic pursuit of the degree? Answers to these questions will affect your scheduling of courses. The Department of Electrical and Computer Engineering attempts to schedule junior and senior courses to accommodate these situations.

Advising is mandatory, and students are required to meet with their department advisors to choose their semester-by-semester courses. Also, up-to-date recommended schedule and curriculum lists are available on-line and at the department.

### DEPARTMENT OF MECHANICAL AND INDUSTRIAL ENGINEERING

**330-941-3016**

**Professors Cala, Kim, Kudav, Mehri, Shields, Suchora (Chair); Assistant Professors Marie, Panta, Solomon, Wallace.**

The Department of Mechanical and Industrial Engineering is dedicated to further the missions and objectives of the University and the College of Engineering and Technology by providing an opportunity for quality education in mechanical engineering and industrial and systems engineering and professional service to local and regional industry and to the public. The department is committed to providing its students with a broad, general education and an up-to-date technological curriculum in a four-year undergraduate program. It also offers an application-oriented evening Master of Science in Engineering program to practicing engineers and recent engineering graduates.

### INDUSTRIAL AND SYSTEMS ENGINEERING PROGRAM

**Professors Cala (Coordinator), Mehri; Assistant Professor Wallace.**

The industrial and systems engineer functions as a problem-solver, innovator, coordinator, and agent of change in a wide variety of positions in manufacturing industries, service industries, and government. The industrial and systems engineer’s unique background combines a study of science, mathematics, and management principles with the principles of engineering analysis and design to provide access to a wide variety of flexible technical and managerial careers.
The aim of the industrial and systems engineering program is to produce graduates who secure professional engineering positions, who practice the profession ethically and effectively, who maintain their professional competency through lifelong learning, and who advance in one of the many technical and managerial career paths available to industrial and systems engineers. The program prepares its students for these accomplishments by providing them with a broad scientific and engineering base via courses in mathematics, physics, chemistry, and the engineering sciences. In addition, courses in the social sciences and the humanities develop sensitivity to the social context within which the profession must be ethically practiced. Finally, industrial and systems engineering courses in the areas of manufacturing systems, human-machine systems, management systems, and management science develop the technical expertise required by professional practice.

Program Educational Objectives

The industrial and systems engineering program at Youngstown State University is committed to offering its students a high standard of educational training. In fulfillment of its mission, as well as the missions of the College of STEM and the University, the program has established the following educational objectives to ensure that its graduating engineers have the educational knowledge and skills that enable them to practice industrial engineering effectively.

- Graduates shall have sufficient breadth to develop expertise within many of the specialty areas of industrial engineering.
- Graduates shall have the ability to both innovate at the detailed component level and to integrate engineered solutions into large-scale systems.
- Graduates shall have the ability to determine the optimal use of people, materials, equipment, and energy.
- Graduates shall have the ability to make the appropriate use of analytical, computational, and experimental practices to champion quality, safety, efficiency, and financial objectives.
- Graduates of the program are prepared to manage and lead people in aspects of production and service enterprise performance.

Program Outcomes

To achieve the program educational objectives, our students are expected to have attained the required professional, technical, and social experience in the program with the ability to:

1-1. Apply knowledge of mathematics, science, and engineering science to solve engineering problems.
1-2. Utilize their design knowledge, skills, and technical experience to practice engineering.

1-3. Incorporate design of experiments with engineering analysis and design.
1-4. Use design techniques to design systems, components, and processes that satisfy predetermined economic, environmental, manufacturability, ethical, social, health, and safety constraints.
1-5. Recognize technical problems, develop ideas and formulate methods to determine acceptable solutions.

1-2. Work as a member of an engineering team in industrial engineering practice.
1-3. Understand their professional roles and ethical responsibilities in the engineering profession and society.

3-1. Communicate their ideas and the application of engineering skills orally and/or in writing.
3-2. Understand the global impact of engineering solutions on societies needs.
3-3. Understand that the technology is constantly changing and industrial engineers must upgrade their knowledge in conjunction with the technological changes.

4-1. Recognize the importance of professional development through involvement and leadership in technical societies such as the IIE.
4-2. Have the broad knowledge to understand contemporary issues pertaining to the interaction between technology and society.

Industrial and Systems Engineering Laboratories

The industrial and systems engineering laboratory spaces are located in Moser Hall and are equipped with hardware, software and networks to serve experiences within the curriculum that are hands-on, team-based, and communications or computational intensive. Laboratory experiences develop capabilities to design detailed components and to integrate solutions into large scale systems. Successively more challenging assignments are taken on throughout the curriculum and culminate in comprehensive experiences in the capstone facilities design sequence.

The industrial and systems engineering program makes optimum use of the Engineering Computing Complex, which is equipped with state-of-the-art computation, design, and communication hardware and software of a multi-disciplinary nature.

The ISE Project Laboratory is focused on team-based activities throughout the curriculum and particularly serves the methods engineering, human factors engineering and facilities design areas. At its core is a network of computing stations equipped with modern industrial & systems engineering
software. Data collection and processing software supports video analysis of human performance, workspace and manufacturing cell design, facility layout, flow analysis and line balancing. The goal of this laboratory is to be able to cover any topic from the planning of initial resources for a start-up enterprise to the distribution of goods and services in global networks.

The Automation Laboratory Suite is a collection of spaces where students at all levels can learn and achieve together with an opportunity to make sustainable contributions to an initial or on-going project experience. It encompasses programmable robots, programmable logic controllers, vibratory bowl feeders, reciprocating feeders, power conveyors and numerous actuator and sensing devices.

The Manufacturing Laboratory Suite consists of several spaces containing equipment for rapid prototyping, casting processes, plastic injection molding and blow molding processes, CNC machining processes, sheet metal processing and instrumentation for inspection, measurement, and testing.

**Total** ................................................................... 128 s.h.

*Capstone series consisting of two 3 s.h. courses
All electives must be selected with the consent of the student's departmental advisor.

### Cooperative Education

The industrial and systems engineering program strongly encourages its students to actively participate in the optional cooperative education program. The parallel co-op arrangement which combines work and study each semester is recommended. However, full time employment in the summer can also be included. Students must register for a co-op course and submit a documented work report and the co-op evaluations completed by the students and their supervisor for a final letter grade. Currently a substitution of one elective course with three co-op experiences is allowed.
Advisement

The industrial and systems engineering program specifies mandatory advisement. Every student in the program is advised every semester before his or her registration. Students cannot finalize their registration without approval of the faculty advisor or program coordinator.

MECHANICAL ENGINEERING PROGRAM

Professors Kim, Kudav, McCoy, Shields, Suchora (Coordinator); Assistant Professors Marie, Panta, Solomon; Professor Emeritus McCoy.

Mechanical engineering is the branch of the engineering profession that deals with the conversion and use of energy; the design of machines and engines of all types; and the instrumentation and control of physical processes, systems and environments. The challenge of mechanical engineering is to use the principles of mathematics and the physical and thermal sciences to design and construct what people need and want. Mechanical engineers are concerned with the practical purpose and function of a machine or system, as well as its design for strength, reliability, safety, economy, and appearance.

Program Mission

The mission of the mechanical engineering program is to further the missions and objectives of the University and the College of Science, Technology, Engineering and Mathematics by providing an opportunity for a quality education in Mechanical Engineering to the people it serves, particularly those in the northeast Ohio and western Pennsylvania, and professional service to the local and regional industry and to the public. The program is committed to meeting regional and state-wide priorities in higher education by providing its students with a broad, general education and an up-to-date technological curriculum in a four-year undergraduate program, and an application-oriented evening graduate program which offers a Master of Science in Engineering degree to practicing engineers and recent engineering graduates. The program also strives to enhance quality research and scholarly activities to be integrated with teaching and to meet the needs of the region by providing the area schools, businesses, industries, and government agencies with technical expertise.

Program Educational Objectives

• The program will provide an educational environment rich in opportunities for students to obtain the knowledge and skills that will prepare its graduates for successful careers as a mechanical engineer or for advanced studies.
• The program will provide a comprehensive education for students to be able to identify, formulate, and solve engineering problems by applying fundamental knowledge of mathematics, basic and engineering sciences, and by utilizing modern techniques, methods, skills, and tools.
• The program will provide a strong technical education for students to be able to design a system, components, or process to meet the desired needs, as well as to design and conduct experiments, and to analyze the acquired data and interpret the results.
• Through the University’s General Education Program, the program will provide a general education, complementary to its technical education, for students to be able to function on multidisciplinary teams, communicate effectively, understand the impact of engineering in a global and societal context, professional ethics, contemporary issues in engineering practice, and the necessity of life-long learning.

Program Outcomes

• Our students will be able to perform well as mechanical engineers and understand the impact of engineering in a global, societal, and environmental context.
• Our students will be able to identify, formulate, and solve engineering problems by applying fundamental knowledge of mathematics, basic sciences, and engineering sciences.
• Our students will be able to utilize modern engineering techniques, skills, and tools with an emphasis on the role that computers play in the process of solving engineering problems.
• Our students will be able to design and conduct experiments and to analyze and interpret data.
• Our students will be able to design mechanical engineering systems, components, or processes to meet the desired needs.
• Our students will be able to function and communicate effectively both individually and within multidisciplinary teams.
• Our students will be able to understand contemporary issues, professional and ethical responsibility, and the necessity of engaging in life long learning.

Vision Statement

Mechanical engineering and mechanical engineering education, in particular, face dramatic challenges in the future due to rapidly changing technologies and a new pattern of societal and industrial demands. The vision of the program is to meet these challenges and exceed the expectations of its constituents by focusing on the following primary strategies of the program:
Continuous improvement of an educational environment for outstanding teaching and learning
Development of a productive research program through a strategic focus on technology development in emerging areas such as controls, computing, and nanotechnology
Successful co-op program that provides students with on-the-job training opportunity
An assessment program and procedures in order to insure a high quality program in tune to the needs of the program's constituents; the students, alumni, employers, faculty, administrations, community and the general public
Healthy enrollment that facilitates diversification of curriculum and faculty research and professional development

In order to achieve its educational objectives and to further the missions and objectives of the University and the College, the program provides an educational environment teeming with opportunities for students to learn and acquire essential knowledge and skills that are defined in the ABET Criteria 2000, through its curriculum and extra-curricular activities. The program maintains undergraduate and graduate curricula that are well balanced in engineering fundamentals, state-of-the-art technology, real-world engineering applications, and in both areas of fluid thermal and solid deformable bodies. The undergraduate curriculum also contains courses that foster critical and independent thinking; decision making; development of interpersonal communication and a life-long learning attitude; working within a team; and integration of knowledge, skills, ethics, and personal responsibility.

While the program intends to cultivate the capabilities of its students' problem solving, fundamental and advanced engineering analyses, design, research, and development, it also intends to provide the students with maximum exposure to hands-on, experimental skills to insure the high quality of its graduates. Through courses like stress analysis, control, and finite element analysis, students will acquire strong tools for design and pertinent knowledge to solve real-world engineering problems. Our emphasis on engineering applications, computer simulation, and hands-on experience are complementary to each other and encourage students to apply analytical methods to engineering problems. This approach enhances the effectiveness of teaching and also facilitates the students' understanding of abstract and difficult subjects. The ultimate goal of the program is to provide the society and industry with "whole person" mechanical engineers with superior technical capability.

## Mechanical Engineering Laboratories

The mechanical engineering program maintains six physical experimental laboratories in Moser Hall. A wide array of modern equipment, instrumentation devices, and department-owned computers are housed in spacious rooms and support academic instruction and research activities in applied thermodynamics, heating and air conditioning, fluid mechanics, heat transfer, stress analysis, vibrations, and acoustics. Other mechanical engineering laboratories are simulation and computing-related laboratories that include computer-aided design and drafting, machine design, kinematic and dynamic systems, and finite-element analysis. The College and the mechanical engineering program maintain modern computing facilities in Moser Hall and constantly upgrade hardware and software. The students and faculty also use the university computing facilities in Meshel Hall and Kilcawley Center.

Cooperative Education

The mechanical engineering program strongly encourages its students to actively participate in the optional cooperative education program. The program includes an alternating and a parallel co-op arrangement. Co-op students are required to complete the same academic program for graduation as non-co-op students and will be considered full-time by the University in the semester which the students are off campus to do the co-op work. Students must register for a co-op course and submit a documented work report and the co-op evaluations completed by the students and their supervisor for a final letter grade.

Advisement

The mechanical engineering program specifies mandatory advisement. Every student in the program is advised every semester before his or her registration. Students cannot finalize their registration without approval of the faculty advisor or chair.

DEPARTMENT OF ENGINEERING TECHNOLOGY

The Department of Engineering Technology offers “two-plus-two” programs in engineering technology. Students in these programs may work toward a two-year associate degree and then continue to earn a four-year bachelor’s degree. The programs include both classroom and laboratory experiences which stress the application of established engineering and computer knowledge and methods to the solution of problems. They include study of the sciences and mathematics necessary to support a technology, as well as study of the methods, processes, skills, and materials used in that technology. The programs are designed to prepare graduates for job opportunities in industry and the public sector. Demands developed by an expanding technology place graduates of these programs in one of the fastest-growing occupational groups in the country.

Associate of Technical Study Degree

The Department of Engineering Technology offers Associate of Technical Study (A.T.S.) degrees in:

- Electrical Utility Technology
- Power Plant Technology

Students in these programs are awarded academic credit for skills-related experience and training to compliment the academic coursework at YSU.

Associate in Applied Science Degree

The department offers two-year programs in:

- Civil and Construction Engineering Technology
- Drafting and Design Technology
- Electrical Engineering Technology
- Mechanical Engineering Technology

Graduates of these programs are awarded the Associate in Applied Science degree and may serve as engineering technicians.

Graduates of the associate degree programs are prepared to support scientists and engineers. Their work is in the design, drafting (CAD), development, testing, and production phases of engineering projects. Their tasks include laboratory testing, data gath-
ering, evaluation, and instrument calibration. They may perform quality-control tests, serve as technical sales representatives, or serve as technical writers in the formulation of specifications or trade manuals.

Drafting and design graduates work with engineers, architects, and technicians in converting ideas, designs, and sketches into workable plans and specifications using 2D and 3D solid modeling CAD techniques.

Degrees in these programs may be earned in four semesters if students average 17-18 hours per semester.

**Bachelor of Science in Applied Science Degree**

The civil and construction engineering technology, electrical engineering technology, and mechanical engineering technology programs are based on the “two-plus-two” educational system which provides the student with the flexibility of earning an associate degree and a bachelor's degree according to his or her needs. After completing the requirements of the associate degree, the student may elect to either enter industry or, through an added two years of full-time study (averaging 17 hours per semester) or equivalent part-time study, earn the Bachelor of Science in Applied Science (B.S.A.S.).

Graduates of the B.S.A.S. degree program obtain employment as engineering technicians or engineering designers for government agencies, consulting engineers and architects, industry and manufacturing, and contractors. Because their education is more extensive, they are prepared for more responsibility and more-rapid advancement. B.S.A.S. engineering technologists and designers plan, design, inspect, and direct construction, production, and maintenance activities.

Based on an evaluation of their work, transfer students who have a related associate degree from a regionally accredited institution may be admitted to the bachelor’s degree program at the junior level.

**Accreditation and Registration**

The civil and construction engineering technology, electrical, and mechanical engineering technology associate and bachelor programs are accredited by the Technology Accreditation Commission of the Accreditation Board for Engineering and Technology (TAC-ABET). Graduates are qualified to apply to the National Institute for Certification in Engineering Technologies (NICET) for certification procedures in various specialty areas, depending on academic major and employment area. In many states, including Ohio, West Virginia and Pennsylvania, bachelor’s degree graduates are qualified to take the Fundamentals of Engineering (FE) exam, and, with sufficient work experience, the Professional Engineers (PE) exam.

**Cooperative Education**

The School of Engineering Technology offers an optional cooperative education program for qualified students enrolled in the civil & construction engineering technology, electrical engineering technology, and mechanical engineering technology bachelor’s degree programs. Engineering technology students typically participate in a parallel co-op which includes full-time employment and part-time academic study. Details about the Engineering Technology co-op program may be obtained from the director of the School of Engineering Technology.

**Admission Requirements**

Admission to all School of Engineering Technology programs requires at least one year of high school algebra and one year of high school geometry with grades of C or better. Transfer students must be in good standing at their previous institution. All freshmen must take the Mathematics Placement Test prior to admission into the School of Engineering Technology.

Students not meeting the admission requirements are enrolled as pre-majors in the College of Science, Technology, Engineering, and Mathematics. While advising is provided by professional advisors within the college, these students are also encouraged to see the coordinator of the program in which they are interested for further orientation.

Qualified engineering technology students must enroll in the ENTC 1505/L courses. It is designed to acquaint students with the nature of this career area, and therefore assist prospective students in determining the level of their interest. ENTC 1505/L is required for all engineering technology majors.

**CIVIL AND CONSTRUCTION ENGINEERING TECHNOLOGY**

**Assistant Professor Lamb, Program Coordinator**

Students in the civil and construction engineering technology (CCET) program may choose to complete two years of study and earn an Associate in Applied Science (A.A.S.) degree. The A.A.S. degree provides early access to employment in engineering support positions. Upon completion of the A.A.S. degree, the student may continue on for the Bachelor of Science in Applied Science (B.S.A.S.) degree. This program provides additional coursework, continuing the student’s growth to that of an engineering technologist or designer. Exceptional students may be eligible for enrollment in a Master of Engineering or Master of Business Administration program. Students interested in construction may choose a certificate program in construction management or the Associate of Technical Study degree in construction technology.
Program Educational Objectives

Educational objectives for the civil and construction engineering technology programs have been developed by faculty and the program industrial advisory committee to support the university, college, and School of Engineering Technology missions. Graduates of the CCET associate degree program are prepared to support civil engineers in structural design, public works, construction, inspection, transportation, and environmental engineering. Bachelor’s degree graduates are prepared to assist with planning, design, inspection, and direction of the construction of projects involving buildings, roads, dams, bridges, airports, and wastewater treatment facilities.

During their first few years after earning of the civil and construction engineering technology degree at YSU, graduates will have demonstrated the ability to:

• Secure employment in a technical career related to their civil and construction engineering technology degree.
• Communicate effectively in a professional environment.
• Continue growth in professional knowledge and skills.
• Achieve recognition consistent with their educational achievements.

Program Outcomes

CCET students will demonstrate by the time of graduation:

• mastery of knowledge, skills, and tools of the discipline
• ability to apply knowledge to solve problems
• ability to conduct, analyze, and interpret experiments
• ability to be creative in design
• ability to work effectively in teams
• ability to identify, analyze, and solve technical problems
• ability to communicate effectively
• recognition of the need to engage in lifelong learning
• ability to understand professional, ethical, and social responsibilities
• respect for diversity, professional, societal, and global issues
• commitment to quality, timeliness, and continuous improvement

Associate Degree Program

The associate degree program prepares technicians to support civil engineers in structural design, public works, construction, transportation, and environmental engineering. Most graduates are hired by government agencies, consulting engineers, architects, and contractors.

Bachelor’s Degree Program

The bachelor’s program in civil and construction engineering technology prepares students for employment as engineering technologists or engineering designers. The student can concentrate in structures, construction, or transportation as interests dictate. A co-op program with the Ohio Department of Transportation or with other technical firms enables CCET students to gain experience and income during their junior and senior years. Many students work full or part time while completing the B.S.A.S. degree by taking evening classes. Students are encouraged to take the Fundamentals of Engineering (FE) exam as the first step toward professional registration.

Certificate Program—Construction Management Technology

The certificate program in construction management technology provides an in-depth, focused study of the fundamental concepts of construction materials, specifications, and construction management. It also provides technical fundamentals for more advanced study in the field. The certificate program consists of the equivalent of one year of full time study. Contact the CCET program coordinator for more information.

Individualized Curriculum Program (ICP)

Drawing heavily from the civil and construction engineering technology program, students may develop an ICP in construction management that includes coursework from the Williamson College of Business Administration.

DRAFTING AND DESIGN TECHNOLOGY

Assistant Professor Lamb, Program Coordinator
YSU’s drafting and design technology (DDT) program prepares students to function as design drafters in either the mechanical or civil field. They study various design aspects, such as determination of size, form, and clearance and CAD drafting where they convert ideas, sketches, and specifications into working drawings and plans. Graduates earn the associate degree and are employable in industries relating to manufacturing, quality control, materials, and the fabrication and production of building structures and metal products. Graduates interested in further technical education should consider the “two-plus-two” bachelor’s degree program in civil and construction engineering technology or mechanical engineering technology.

During their first few years after earning of the drafting and design technology degree at YSU, graduates will have demonstrated the ability to:

• Secure employment in a technical career related to their drafting and design technology degree.
• Communicate effectively in a professional environment.
• Continue growth in professional knowledge and skills.
• Achieve recognition consistent with their educational achievements.

Program Outcomes

Drafting and design technology students will demonstrate by the time of graduation:

• mastery of knowledge, skills, and tools of the discipline
• ability to apply knowledge to solve problems
• ability to conduct, analyze and interpret experiments
• ability to be creative in design
• ability to work effectively in teams
• ability to identify, analyze, and solve technical problems
• ability to communicate effectively
• recognition of the need to engage in lifelong learning
• ability to understand professional, ethical, and social responsibilities
• respect for diversity, professional, societal, and global issues
• commitment to quality, timeliness, and continuous improvement

ELECTRICAL ENGINEERING TECHNOLOGY

Professor Messuri, Program Coordinator

Students in the electrical engineering technology (EET) program may choose to complete two years of study and earn an Associate in Applied Science (A.A.S.) degree. The A.A.S. provides early access to employment in engineering support positions. Upon completion of the A.A.S. degree, the student may continue on for the Bachelor of Science in Applied Science (B.S.A.S.) degree. This program provides additional coursework, continuing the student’s growth to that of an engineering technologist or designer. Exceptional students may be eligible for enrollment in a Master of Engineering or Master of Business Administration program.

Educational Objectives

Educational objectives for the electrical engineering technology programs have been developed by faculty and the program industrial advisory committee to support the University, College, and Rayen School of Engineering and Engineering Technology missions. Graduates of the EET associate degree program generally function as assistants to electrical engineers in the design, analysis, and laboratory testing of electrical and electronic systems and of rotating machinery. Bachelor degree graduates are prepared to assist in the design and testing of electrical systems and may function independently in some areas.

During their first few years after earning of the electrical engineering technology degree at YSU, graduates will have demonstrated the ability to:

• Secure employment in a technical career related to their Electrical Engineering Technology degree.
• Communicate effectively in a professional environment.
• Continue growth in professional knowledge and skills.
• Achieve recognition consistent with their educational achievements.
Program Outcomes:

EET students will demonstrate by the time of graduation:

- mastery of knowledge, skills & tools of the discipline
- ability to apply knowledge to solve problems
- ability to conduct, analyze & interpret experiments
- ability to be creative in design
- ability to work effectively in teams
- ability to identify, analyze & solve technical problems
- ability to communicate effectively
- recognition of the need to engage in lifelong learning
- ability to understand professional, ethical & social responsibilities
- respect for diversity, professional, societal & global issues
- commitment to quality, timeliness & continuous improvement

Associate Degree Program

Graduates of the two-year electrical engineering technology program generally function as assistants to electrical engineers in the design, analysis, and laboratory testing of electrical and electronic systems and of rotating machinery. Most graduates are employed by electrical and electronic equipment manufacturers, utility companies, the aerospace industry, and manufacturing companies in general.

Several options are available for the associate degree in EET. Most students opt for the traditional or the computer option.

Bachelor's Degree Program

The bachelor's degree program in electrical engineering technology prepares students for employment as engineering technologists or engineering designers. The students focus on analog and digital electronics communication systems, and computer networking systems. Co-op programs with various local companies enable EET students to gain experience and income during their junior and senior years. Many students work full or part-time while completing the B.S.A.S. degree taking evening classes. Students are encouraged to take the Fundamentals of Engineering (FE) exam as the first step toward professional registration.

MECHANICAL ENGINEERING TECHNOLOGY

Assistant Professor Costarell, Program Coordinator

The mechanical engineering technology (MET) program is designed as a “two-plus-two” program. Students may earn an Associate in Applied Science degree after two years of full-time study. With this degree, they may begin a career in industry. The associate degree graduate can continue for two more years of full-time study to earn the bachelor's degree.

Educational Objectives

Educational objectives for the MET programs have been developed by faculty and the program industrial advisory committee to support the University, the College, and the Rayen School of Engineering and Engineering Technology missions. Graduates of the MET associate degree program function as assistants in the design, drafting and testing of mechanical products, equipment and processes. Bachelor’s degree graduates assume greater responsibility in the design and testing of mechanical products, processes, and equipment.

During their first few years after completion of the mechanical engineering technology program at YSU, graduates will have demonstrated the ability to:

• Work competently in technical and professional careers related to the field of mechanical engineering technology.
• Communicate effectively in a professional environment.
• Continue growth in professional knowledge and skills.
• Achieve recognition and/or compensation consistent with their educational achievements.

Program Outcomes

MET students will demonstrate by the time of graduation:

• mastery of knowledge, skills, and tools of the discipline
• ability to apply knowledge to solve problems
• ability to conduct, analyze, and interpret experiments
• ability to be creative in design
• ability to work effectively in teams
• ability to identify, analyze, and solve technical problems
• ability to communicate effectively
- recognition of the need to engage in lifelong learning
- ability to understand professional, ethical, and social responsibilities
- respect for diversity, professional, societal, and global issues
- commitment to quality, timeliness, and continuous improvement

Associate Degree Program

The associate degree program introduces the student to the principles and practices of machine design, manufacturing processes, testing, and energy conversion. Students are also given a firm foundation in communications, mathematics and science. Upon completion of the associate degree, graduates may find employment as engineering technicians in a wide variety of industries. They assist engineers in the design, drafting, testing, and support of mechanical products, or of the industrial equipment and processes used to manufacture consumer products.

Bachelor's Degree Program

Students who have earned the associate degree may elect to complete the bachelor's degree on either a full- or part-time basis. Courses in the bachelor’s degree program further develop technical, communication, and managerial skills. Upon successful completion of the coursework, graduates are awarded the Bachelor of Science in Applied Science degree, and are prepared for greater levels of responsibility and greater career advancement.

**ELECTRIC UTILITY TECHNOLOGY**

*Professor Bosela, Program Coordinator*

Please note that admission into the electric utility technology (lineworker) program has been suspended. Students currently enrolled in the program are expected to complete the program requirements by August 2011. Admission into the power plant technology program will continue. Please contact FirstEnergy at 1-800-829-6801 for information about the lineworker program.

**POWER PLANT TECHNOLOGY**

*Mr. Daniel Coyne, Program Coordinator*

This program prepares graduates to perform basic operating functions required in electric utility power plants and other related industries. Students gain knowledge in electrical theory, electrical machinery and controls, power plant operations, boiler, turbine, and generator operations, power plant instrumentation, and pollution control equipment. In addition, college writing, oral communications, and general education form an integral part of the program. Upon successful completion of the program, students are prepared for entry-level employment in the utility industry as power plant operators.

Select three (3) courses from any fine-art discipline (drawing, painting, printmaking, ceramics, sculpture) 26xx or higher; 2 must be upper-division

**Total Semester Hours ....................................18**

### Art History for Studio Art Majors

**Six of the following courses:**
- **ART 3740** Topics in Ancient Art ....................3
- **ART 3741** Topics in Medieval Art ..................3
- **ART 3742** Topics in Renaissance Art ...............3
- **ART 3743** Baroque Art ................................3
- **ART 3744** 17th & 18th C American Art ...............3
- **ART 3745** 19th C European Art .....................3
- **ART 3746** 19th C American Art .....................3
- **ART 3747** African American Art ....................3
- **ART 3780** African Art ................................3
- **ART 3781** Native N. American Art ..................3
- **ART 3782** Topics in Precolumbian Art ...............3
- **ART 3785** History of Still Photography .............3
- **ART 4880** Special Topics in Art History ..........3
- **ART 4889** Seminar in Art History ..................3
- **ART 5881** 20th C. Art to 1960 ......................3
- **ART 5882** 20th C. Art from 1960 ....................3

**Total Number of Semester Hours .....................18**

### Art History for Non-Art Majors

**Total Number of Semester Hours .....................18**
Biological Anthropology
ANTH 1500 Introduction to Anthropology ...............3
ANTH 2600 Human Osteology ..................................3
ANTH 3703 Biological Anthropology .......................3
ANTH 3704 Primate Evolution, Ecology and Behavior ....3
ANTH 4882 Paleanthropology .................................3
ANTH 4891 Advanced Topics in Biological Anthropology ...3

Total Number of Semester Hours .................. 18-28

Biological Sciences
Both of the following courses:
BIOL 2601 General Biology: Molecules and Cells ..........4
BIOL 2602 General Biology: Organisms and Ecology ..........4

One of the following core courses:
BIOL 3711 Cell Biology: Fine Structure .....................3
BIOL 3721 Genetics ..............................................3
BIOL 3730/L Human Physiology and Lab ....................5
BIOL 3740/L Plant Diversity and Lab .......................4
BIOL 3741/L Animal Diversity and Lab ....................4

One 4800-5800-level course with lab
One 3700-5800-level course

Total Number of Semester Hours ............... 18-21

Biomathematics
One of the following:
BIOL 2601/2601L General Biology: Molecules and Cells ....4
BIOL 2602/2602L General Biology: Organisms and Ecology ....4

One of the following:
BIOL 3711 Cell Biology: Fine Structure .....................3
BIOL 3780/3780L Evolutionary Ecology .....................5

At least 3 s.h. of upper-division biology courses
Both of the following courses:
MATH 1571 Calculus 1 ...........................................4
MATH 1572 Calculus 2 ...........................................4

One of the following:
STAT 3717 Statistical Methods ................................4
STAT 3743 Probability and Statistics ......................4

One of the following:
MATH 2673 Calculus 3 ...........................................4
MATH 3705 Differential Equations ............................3
MATH 3715 Discrete Mathematics .............................3
MATH 3720 Linear Algebra and Matrix Theory ................
MATH 3760 Numerical Analysis I ................................
MATH 3785 Numerical Methods ................................4
STAT 5817 Applied Statistics ..................................3
STAT 5848 Regression Analysis and Time Series ..........3

Both of the following:
MATH/BIOL 3701 Biomathematics Seminar ................1-2
MATH/BIOL 4882 Biomathematics Research ...............1-4

Total Semester Hours ........................................ 18-28

British and American Literature
Both of the following courses:
ENGL 3701 British and American Literature 1 ................3
ENGL 3702 British and American Literature 2 ................3

One upper-division American Literature course:
ENGL 3770 American Literature in Historical Perspective ....3
ENGL 3780 American Genres .......................................3
ENGL 4862 Themes in American Literature ..................3
ENGL 4864 Selected Topics in American Literature ........3
ENGL 4871 The Black Experience in American Literature ....3

One upper-division British Literature course:
ENGL 4830 Major Figures in British Literature ................3
ENGL 4831 Genres, Circles, and Movements in British Lit. ....3
ENGL 4860 The Medieval World ..................................3
ENGL 4881 Shakespeare and His World ........................3
ENGL 4882 The English Renaissance .........................3
ENGL 4886 Restoration and Eighteenth Century British Lit ....3
ENGL 4887 The Romantic Period ..................................3
ENGL 4892 Nineteenth Century British Literature Studies ......3
ENGL 4895 Early Twentieth Century British Studies ..........3
ENGL 4896 British Literature from WW II to the Present ....3
A second upper-division course in either American or British Literature ................3
ENGL 4890 Senior Seminar ........................................3

Total Number of Semester Hours ................. 18

Business
All of the following courses*:
ACCT 2602 Financial Accounting .............................3
ACCT 2603 Managerial Accounting ............................3
MKTG 3703 Marketing Concepts and Practice ................4
FIN 3720 Business Finance .....................................3
MGT 3725 Fundamentals of Management .....................3
MGT 3761 Information Systems for Management ...........3
MKTG 3771 Electronic Commerce .............................3
or
MGT 3789 Operations Management ............................3

*If any of the above courses are part of the student’s major, the student must substitute an alternate from the following list:
ACCT 3711 Cost Accounting .................................3
MGT 3750 Human Behavior in Organization ................3
MKTG 3740 Professional Selling ............................3

Total Number of Semester Hours .................... 22

Undergraduate Bulletin
Chemistry
CHEM 1515 General Chemistry 1..........................4
CHEM 1516 General Chemistry 2..........................4
CHEM 3719 Organic Chemistry ...........................4
CHEM 3719R Organic Chemistry 1 Recitation ...........1
CHEM 3720 Organic Chemistry 2..........................4
CHEM 3720R Organic Chemistry 2 Recitation ..........1
Total Number of Semester Hours .........................20

Communication Studies
Both of the following courses:
CMST 1530 Communication Theory ......................3
CMST 3756 Interviewing ...................................3

Three 2600-level courses:
CMST 2645 Presentational Speaking .....................3
CMST 2653 Group Communication ........................3
CMST 2656 Interpersonal Communication ..............3
CMST 2657 Organizational Communication .............3

One Communication Theory & Practice Series course:
CMST 4855 Interpersonal Communication ..............3
CMST 4859 Organizational Communication .............3
CMST 5852 Small Group Communication ...............3

Total Number of Semester Hours .........................18

Community Health Planning and Evaluation
PHLT 1568 Healthy Lifestyles .............................3
PHLT 1531 Fundamentals of Public Health ..........3
PHLT 3701L Pre-Professional Field Experience ...1
PHLT 3702 Foundations of Health Education Theory and Practice......3
PHLT 3791 Community Health .............................3
PHLT 4801 Field Experience ................................1
PHLT 4826 Community Health Planning and Promotion ...........4
PHLT 4827 Program Evaluation ............................3
PHLT 4828 Grant Writing ...................................3

Total Number of Semester Hours .........................21

Computer Databases
CSIS 1590 Survey of Computer Science and Information Systems ..................3
CSIS 2610 Programming and Problem Solving ..................4
CSIS 3722 Development of Databases .................3
CSIS 3726 Visual/Object-oriented Programming ..................4
CSIS 3732 Intranet Database Implementation ....3
CSIS 4822 Database Applications ..........................3

Total Number of Semester Hours .........................20

Computer Networking
CSIS 1590 Survey of Computing and Information Systems ..................3
At least 15 s.h. from the following courses:
CSIS 3723 Networking Concepts and Administration ............3
CSIS 3782 Cisco Networking Academy I ..........4
CSIS 3783 Cisco Networking Academy II ........4
CSIS 4823 Data Communications Networking ..........4
CSIS 5883 Remote Access and Multilayer Switched Networks ..........4
CSIS 5884 Building Scalable Networks and Advanced Internetwork Troubleshooting ..........4
CSCI 5823 Communication Networks .................3

Total Semester Hours ......................................18-19

Computer Science
CSIS 2610 Programming & Problem Solving ..............4
CSIS 2617 Data Structures & Objects ..................4
CSIS 3701 Advanced Object-Oriented Programming ...............3

Plus three of the following:
CSIS 3730 Computer Graphics ................................3
CSIS 3740 Computer Organization ..........................4
CSIS 3760 E-commerce Programming ....................3
CSIS 4819 Parallel and Distributed Computing .................3
CSIS 5824 Applied Artificial Intelligence .................3
CSIS 5860 Operating Systems ..............................3
CSIS 5814 Computer Architecture ........................3
CSIS 5870 Data Structures & Algorithms .................3

Total Semester Hours ......................................20-21

Corrections
CJFS 1500 Introduction to Criminal Justice ..........3
CJFS 2603 Corrections .........................................3
CJFS 3702 Correctional Strategies .......................4
CJFS 3702L Correctional Strategies Lab ..............2
CJFS 4803 Correctional Case Management and Treatment ................3
CJFS 5802 Corrections Law and Liability .............3

Total Number of Semester Hours .........................18

Creative Writing
ENGL 2546 Introduction to Fiction Writing .............3
ENGL 2647 Introduction to Poetry Writing ...........3
ENGL 3748 Screenwriting ..................................3
ENGL 3749 Advanced Writing .............................3
ENGL 3746 Fiction Writing Workshop .................3
ENGL 3747 Poetry Writing Workshop ....................3

Total Semester Hours ......................................18

Criminal Behavior
CJFS 1500 Introduction to Criminal Justice ..........3
CJFS 2603 Corrections .........................................3
CJFS 3735 Crime and Delinquency .......................3
CJFS 3736 Criminal Victimization .......................3
CJFS 5831 Violence in America ............................3
CJFS 4850 Special Topics in Criminal Justice ..........3

Total Number of Semester Hours .........................18

*Same as SOC 2630 and 3735.
ThTR 4881 Ballet 4 ..................................................2
THTR 4871 Jazz 4 .....................................................2
THTR 3751 Modern Dance 3 ..................................2
THTR 3781 Ballet 3 ..................................................2
THTR 3770 Jazz Dance 3 .........................................2
THTR 2680 Tap Dance 3..........................................1
Total Number of Semester Hours .................18
ANTH 4815 Anthropology of Religion ..................3
and / or
THTR 2606 Creative Dance for Children .............1
selected from the following:
ANTH 4801 Anthropological Thought ...........3
ANTH 3761 Cultures of the New World ............3
ANTH 3760 Cultures of the Old World ............3 or 6
ANTH 4801 Anthropological Thought ...........3
Total Number of Semester Hours .................18
THTR 1570 Tap and Jazz 1......................................1
THTR 1541 Modern Dance 2 ..................................2
THTR 1572 Ballet 1 ..................................................1
THTR 1573 Ballet 2 ..................................................2
THTR 1571 Tap and Jazz 2 ..................................2
THTR 1570 Tap and Jazz 1 ..................................1
THTR 2698 Survey of Dance ..................................3
THTR 3791 Rehearsal and Performance ..........3
THTR 3791 Rehearsal and Performance ..........3
THTR 3792 Pedagogy of Dance Technique ..........3
THTR 3767 Choreography for Musical Theater ...2
Plus a minimum of 4 additional hours of coursework
selected from the following:
THTR 2606 Creative Dance for Children ........1
THTR 2680 Tap Dance 3 ...................................1
THTR 3751 Modern Dance 3 ..............................2
THTR 3770 Jazz Dance 3 ...................................2
THTR 3781 Ballet 3 ............................................2
THTR 4871 Jazz 4 .............................................2
THTR 4881 Ballet 4 ............................................2
Total Semester Hours .................23 minimum
ECON 2610 Principles 1: Microeconomics ........3
ECON 2630 Principles 2: Macroeconomics ..........3
And either:
ECON 3780 Business & Economic Statistics ......4
ECON 3781 Business & Economic Statistics ......4
Workshop ......................................................1
Total Semester Hours .................20

Economics and Statistics
ECON 2610 Principles 1: Microeconomics ..........3
ECON 2630 Principles 2: Macroeconomics ..........3
ECON 3790 Business Statistics .........................5
9 additional semester hours of electives* in econo-
ECON 2630 Principles 2: Macroeconomics ..........3
ECON 3790 Business Statistics .........................5
mics, at the 3700 level or higher. Courses at the 1500
level do not count toward the minor.
Total Number of Semester Hours .................20

* Recommended Economics electives for different
majors:
Political Science: ECON 3702, 4843, and 4855
Accounting and Finance: ECON 3701, 3710,
3712, 5809, 5811, and 5812
Marketing: ECON 3710, 3712, and 5801
Management: ECON 3710, 3712, 4810, 5801,
and 5831
Pre-Law: ECON 3702, 3710, and 3712
Environmental Studies: ECON 3710, 3712,
and 4813

Electrical and Computer Engineering
For students with little or no background:
ECEN 1521 Basic Digital & Computer
Circuits .........................................................3
ECEN 1521L Basic Digital & Comp. Circuits
Lab .......................................................1
ECEN 2632 Basic Circuit Theory 1 ....................3
ECEN 2611 Instrumentation & Computation
Lab 1 ....................................................1
ECEN 2633 Basic Circuit Theory 2 .................3
ECEN 2612 Instrumentation & Computation
Lab 2 ....................................................1
ECEN 3731 Digital Systems 1 .........................3
ECEN 3771 Digital and Analog Circuits 1 ..........3
ECEN 3711 Intermediate Laboratory 1 .............1
Total Number of Semester Hours .................19

For students with background in math or computer
science:
ECEN 1521L Basic Digital & Computer
Circuits Lab ..................................................1
ECEN 2632 Basic Circuit Theory .......................3
ECEN 2611 Instrumentation & Computation
Lab 1 ....................................................1
ECEN 2633 Basic Circuit Theory 2 .................3
ECEN 2612 Instrumentation & Computation
Lab 2 ....................................................1
ECEN 3731 Digital Systems 1 .........................3
ECEN 3732 Digital Systems 2 .........................3
ECEN 3771 Digital and Analog Circuits 1 ..........3
ECEN 3711 Intermediate Laboratory 1 .............1
Total Number of Semester Hours .................19
For students with background in physics:

ECEN 1521 Basic Digital & Computer Circuits .................................................. 3
ECEN 1521L Basic Digital & Comp. Circuits Lab ................................................ 1
ECEN 3709 Communication Systems ................................................................. 3
ECEN 3731 Digital Systems 1 .............................................................................. 3
ECEN 3771 Digital and Analog Circuits 1 .......................................................... 3
ECEN 3772 Digital and Analog Circuits 2 .......................................................... 3
ECEN 4803 Linear Control Systems .................................................................. 3
Total Number of Semester Hours ................................................................. 19

Electrical Engineering Technology

EET 1501/L Circuit Theory 1 + Lab ......................................................... 3 + 1
EET 1502/L Circuit Theory 2 + Lab ......................................................... 3 + 1
EET 2620/L Digital Electronics + Lab .......................................................... 2 + 1
EET 3712/L Programmable Logic Controllers + Lab .................................... 3 + 1
EET 3735/L Microprocessor Architecture + Lab .......................................... 3 + 0
EET 3745/L Microprocessor Systems 2 + Lab .......................................... 3 + 0
Total Semester Hours .................................................................................... 21

Electronic Commerce Technologies

CSIS 1590 Survey of Computer Science and Information Systems ............ 3
CSIS 2610 Programming and Problem Solving ........................................... 4
CSIS 2660 Foundations of Electronic Commerce ........................................ 3
CSIS 3732 Intranet Database Implementation ............................................. 3
CSIS 3760 Electronic Commerce Programming ........................................ 4
CSIS 3761 Electronic Commerce Strategies .............................................. 3
Total Number of Semester Hours ............................................................... 20

Engineering Geology

GEOL 1505 and
GEOL 1505L Physical Geology ................................................................. 4
GEOL 2605 Historical Geology ................................................................... 4
GEOL 3704 Structural Geology .................................................................... 2
GEOL 3704L Structural Geology Laboratory ........................................... 1
GEOL 3709 Subsurface Investigations ....................................................... 3
GEOL 4804 Ground Water ........................................................................... 3
Total Number of Semester Hours ............................................................... 17

English Studies

One of the following:

ENGL 3701 American and British Literature .............................................. 3
or
ENGL 3702 American and British Literature .............................................. 3
One upper-division American Literature course:

ENGL 3770 Historical Periods in American Literature ................................ 3
ENGL 3780 American Genres ....................................................................... 3
ENGL 4862 Themes in American Literature .............................................. 3

One upper-division British Literature course:

ENGL 4830 Major Figures in British Literature ........................................ 3
ENGL 4831 Genres, Circles, and Movements in British Literature ............ 3
ENGL 4860 The Medieval World ............................................................... 3
ENGL 4881 Shakespeare and His World ................................................... 3
ENGL 4882 The English Renaissance ....................................................... 3
ENGL 4886 Restoration and Eighteenth Century British Literature .......... 3
ENGL 4887 The Romantic Period .............................................................. 3
ENGL 4892 Nineteenth Century British Literature Studies ....................... 3
ENGL 4895 Early Twentieth Century British Studies ................................ 3
ENGL 4896 British Literature from WW II to the Present ....................... 3

One course in other literary studies (including world literature and film):

ENGL 2610 World Literature ....................................................................... 3
ENGL 2617 Women in Literature ............................................................... 3
ENGL 2618 American Literature and Diversity ......................................... 3
ENGL 2620 African Literature ..................................................................... 3
ENGL 2631 Mythology in Literature ......................................................... 3
ENGL 2665 Introduction to Film Study ..................................................... 3
ENGL 3703 Literature for Young Children ................................................. 3
ENGL 3704 Literature for Middle School Readers .................................... 3
ENGL 3705 Young Adult Literature ........................................................... 3
ENGL 3738 Selected Topics in World Literature ........................................ 3
ENGL 3765 Film Genres ............................................................................. 3
ENGL 4865 Selected Topics in Film ........................................................... 3

One course each from any two of the following groups:

Group 1: Language, Writing, and Culture

ENGL 2651 Introduction to Language ....................................................... 3
ENGL 3752 Principles of Linguistics Study ................................................. 3
ENGL 3740 Advanced Writing .................................................................... 3
ENGL 3790 Selected Topics in Multicultural Studies ............................... 3

Group 2: Journalism

ENGL 2622 Basic Journalism ....................................................................... 3
ENGL 2626 American Journalism ............................................................... 3
ENGL 3716 Feature Writing ........................................................................ 3
ENGL 3717 Editorial and Opinion Writing ............................................... 3
ENGL 3723 Editing and Design for Newspapers ....................................... 3
JOURN 4824 Press Law and Ethics ............................................................ 3

Group 3: Creative Writing

ENGL 2646 Introduction to Fiction Writing ............................................... 3
ENGL 2647 Introduction to Poetry Writing ................................................ 3
ENGL 2648 Introduction to Script Writing .................................................. 3
ENGL 3746 Fiction Writing Workshop ...................................................... 3
ENGL 3747 Poetry Writing Workshop ..................................................... 3
Environmental Geography
Both of the following courses:
GEOG 1503 Introduction to Physical Geography ..................3
GEOG 2610 Map Use and Interpretation ..................3

Plus at least 12 s.h. from the following courses, at least 9 s.h. of which are at the 3000 or 4000 level:
GEOG 3703 Human Impacts on the Environment ..............3
GEOG 2630 Weather ........................................3
GEOG 3710 Remote Sensing ..................3
GEOG 3730 Global Climates ..................3
GEOG 3732 GIS 1 ........................................3
GEOG 3737 Soils and Land Use ..................3
GEOG 4825 Geography Internship ..................3

Total Number of Semester Hours ...............18

Environmental Geology
All of the following courses:
GEOL 1505 Physical Geology
and
GEOL 1505L Physical Geology lab ..................4
GEOL 2605 Historical Geology ..................4
GEOL 2615 Geology and the Environment 1 ..................3

A minimum of 9 s.h. from the following courses:
GEOL 3701 Geomorphology ..................4
GEOL 3702 Glacial Geology ..................3
GEOL 3709 Subsurface Investigations ..................3
GEOL 3720 Field Investigations in Geology 1-4
GEOL 4804 Ground Water ..................3
GEOL 5815 Geology and the Environment 2 ..................2
GEOL 5817 Environmental Geochemistry ..................3

Total Number of Semester Hours ...............20

Environmental Studies
All of the following courses:
ENST 2600 Foundations of Environmental Studies ..................3
ENST 2600L Foundations of Environmental Studies Lab 1

One of the following core courses:
ENST 5800 Environmental Impact Assessment 3
ENST 5830 Risk Assessment ..................3
ENST 5860 Environmental Regulations ..................3

Total Number of Semester Hours ...............19-21

Finance
All of the following courses:
FIN 3720 Business Finance ..................3
FIN 3721 Personal Financial Management ..................4
FIN 3730 Investment Analysis ..................4
FIN 4835 Advanced Business Finance ..................4

Plus 4 s.h. from the following courses:
FIN 4836 Financial Markets ..................4
FIN 4853 Financial Analysis ..................4

Total Number of Semester Hours ...............19

Food and Nutrition
FNUT 1551 Normal Nutrition ..................3
FNUT 1551L Nutrition Lab ..................1
FNUT 1553 Food Science & Mgmt. ..................3
FNUT 1553L Food Science & Mgmt. Lab ..................1
FNUT 2603 Diet Therapy ..................3
FNUT 2603L Diet Therapy Lab ..................1
FNUT 3761 Nutrition & the Athlete ..................3
HMEC 4875 Directed Individual Study ..................3

Total Number of Semester Hours ...............18

Foreign Affairs
One course is required:
POL 1550 Intro to Political Science ..................3

One of the following two courses is required:
POL 2640 Contemporary World Governments ..................3
POL 2660 International Relations ..................3

One to three courses from field of international relations:
POL 3760 International Polit Economy ..................3
POL 3761 U.S. Foreign Policy ..................3
POL 3764 International Organization ..................3
POL 3763 International Law ..................3

One to three courses from field of comparative politics:
POL 3741 Russia and China Revolution Reform ..................3
POL 3742 Political Development & Political Regimes ..................3
POL 3744 European Politics ..................3
POL 3751 Latin American Politics ..................3

Total Number of Semester Hours ...............18

Forensic Anthropology
ANTH 1500 Introduction to Anthropology ..................3
ANTH 2600 Human Osteology ..................3
ANTH 3703 Biological Anthropology ..................3
ANTH 3702 Archaeology ..................3
ANTH 3780 Forensic Anthropology 1 ..................3
ANTH 4881 Forensic Anthropology 2 ..................3
ANTH 4883 Case studies in Forensic Anthropology ..................3

Total Number of Semester Hours ...............21
Forensic Science

CJFS 1500 Introduction to Criminal Justice ..........3
CJFS 2601 Policing ...........................................3
CJFS 2602 Courts .............................................3
CJFS 3714 Forensic Science Investigation ..........2
CJFS 374L Forensic Science Investigation Laboratory ..............................................1
CJFS 3721 Evidence .............................................3
CJFS 5814 Forensic Science and the Criminal Justice System ..........3

Total Number of Semester Hours ..................18

Geographic Information Systems

GEOG 1503 Introduction to Physical Geography .............................................3
or
GEOG 2640 Human Geography .............................................3
CSIS 1590 Survey of Computer Science and Information Systems .............................................3
GEOG 2610 Map Use and Interpretation .............................................3
GEOG 3710 Remote Sensing .............................................3
GEOG 3732 GIS 1 .............................................3
GEOG 3765 GIS 2 .............................................3

At least one of the following courses:

GEOG 3726 Urban Geography .............................................3
GEOG 3737 Soils and Land Use .............................................3
GEOG 3740 Business Geographics .............................................3
GEOG 3741 Transportation Geography .............................................3
GEOG 4825 Geography Internship .............................................3
GEOG 4890 Senior Research .............................................3

Total Number of Semester Hours ..................21

General Geography

The following course is required:

GEOG 1503 Physical Geography .............................................3

Select 3 s.h. from the following cultural geography courses:

GEOG 2626 World Geography .............................................3
GEOG 2604 Human Geography .............................................3

Select 3 s.h. from the following physical/environmental geography courses:

GEOG 2630 Weather .............................................3
GEOG 3703 Human Impacts on the Environment .............................................3
GEOG 3705 Mountain Geography .............................................3
GEOG 3730 Global Climates .............................................3
GEOG 3733 Severe and Hazardous Weather .............................................3
GEOG 3735 Water in the Earth System .............................................3
GEOG 3737 Soils and Land Use .............................................3
GEOG 5802 Biogeography .............................................3

Select 3 s.h. from the following geospatial techniques courses:

GEOG 2610 Map Use and Interpretation .............................................3
GEOG 2611 Geospatial Foundations .............................................3
GEOG 3712 Thematic Map Design and Symbolization .............................................3

Select 3 s.h. from the following human and regional geography courses:

GEOG 3713 Geography of South America .............................................3
GEOG 3715 Geography of Middle America .............................................3
GEOG 3717 Geography of Europe .............................................3
GEOG 3719 Geography of the United States .............................................3
GEOG 3721 Geography of Ohio .............................................3
GEOG 3722 Historical Geography of the United States .............................................3
GEOG 3724 Themes in Cultural Geography .............................................3
GEOG 3726 Urban Geography .............................................3
GEOG 3740 Business Geographics .............................................3
GEOG 3745 The Automobile in American Culture .............................................3
GEOG 3750 Topics in Regional Geography .............................................3
GEOG 3755 Tourism Geography .............................................3
GEOG 3775 Field Methods in Geography .............................................3
GEOG 3780 Medical Geography .............................................3
GEOG 4825 Geography Internship .............................................1-3
GEOG 4840 Seminar in Geography .............................................3
GEOG 5850 International Area Study .............................................3

Select 3 s.h. from any upper-division course listed above or any course listed below:

GEOG 5805 Remote Sensing I .............................................3
GEOG 5810 Geographic Information Science I .............................................3
GEOG 5812 Global Positioning Systems and GIScience .............................................3

6 s.h. of the minor must be upper-division.

Total Number of Semester Hours ..................18

Geoscience

Both of the following courses:

GEOL 1505 and GEOL 1505L Physical Geology .............................................4
GEOL 2605 Historical Geology .............................................4

Plus a minimum of 10 s.h. of upper-division geology courses.

Total Number of Semester Hours ..................18

Gerontology

SOC 1500 Introduction to Sociology .............................................3

15 s.h. from the following courses:

SOC 3703 Aging and Society .............................................3
SOC 3755 Theories of Gerontology .............................................3
SOC 3756 Aging and Ethnicity .............................................3
SOC 3757 Aging and Social Policy .............................................3
SOC 3759 Sociology of Dementia .............................................3
SOC 4803 Aging and Society .............................................3
SOC 4801 Later Life Issues .............................................3
SOC 4821 Internship .............................................3
ANTH 3790 Aging in Cross-Cultural Perspectives .............................................3

Total Number of Semester Hours ..................18
### Graphic Design for Non-Art Majors

</table>

One of the following courses:
- FNLG 2660 Women in the Ancient World
- HIST 3752 Ancient History I (Greece)
- LATN 1550 Elementary

Total Number of Semester Hours: 18

### History

#### One of the following courses:
- HIST 1511 World Civilization to 1500
- HIST 1512 Civilization from 1500

#### One of the following courses:
- HIST 2605 Turning Points in U.S. History I
- HIST 2606 Turning Points in U.S. History II

Four courses chosen from Groups B, C, & D, below. One course must be selected from each group. The fourth course may be from Group B, C, or D. Three courses must be at the 3700 level or higher.

Group C (European): 3752, 3753, 3755, 3757, 3758, 3759, 3760, 3761, 3762, 3763, 3765, 3766, 3767, 3769, 3778, 3779, 3780, 3782, 3785, 3787, 3788, 3790, 3791, 3792, 3794, 4850, 4851.

Total Number of Semester Hours: 18

### History/Historic Preservation

<table>
<thead>
<tr>
<th>Course</th>

<tr>
<td>HIST 3712</td>
<td>Historic Preservation Internship</td>
<td>3</td>
</tr>
</tbody>
</table>

Total Semester Hours: 24

### Human Geography

#### Both of the following courses:
- GEOG 2610 Map Use and Interpretation
- GEOG 2640 Human Geography

At least 12 s.h. from the following courses:
- GEOG 3722 Historical Geography of the US
- GEOG 3726 Urban Geography
- GEOG 3732 GIS I
- GEOG 3740 Business Geographics
- GEOG 3741 Geography of Transportation
- GEOG 3745 Automobile in American Culture
- GEOG 4825 Geography Internship

Total Number of Semester Hours: 24

### Human Resources

#### All of the following courses:
- MGT 3725 Fundamentals of Management
- MGT 3734 Human Resources Management
- MGT 3750 Human Behavior in Organization

Plus 9-12 s.h. from the following courses:
- MGT 3705 Fundamentals of Occupational Safety

Total Number of Semester Hours: 18
<table>
<thead>
<tr>

Juvenile Justice System

CJFS 1500 Intro to Criminal Justice 3
CJFS 2601 Policing 3
CJFS 3714 Forensic Science Investigation 2
CJFS 3714L Forensic Science Investigation Laboratory 1
CJFS 3715 Criminal Justice Management Concepts 3
CJFS 3765 Human Relations 3
CJFS 5825 Criminal Procedures and Constitutional Issues 3

Total Number of Semester Hours 21

Law Enforcement

CJFS 1500 Intro to Criminal Justice 3
CJFS 2601 Policing 3
CJFS 3714 Forensic Science Investigation 2
CJFS 3714L Forensic Science Investigation Laboratory 1
CJFS 3715 Criminal Justice Management Concepts 3
CJFS 3765 Human Relations 3
CJFS 5825 Criminal Procedures and Constitutional Issues 3

Total Number of Semester Hours 18

Linguistics

Required Course:
ENGL 3755 Prin. of Linguistic Study 3

At least two courses from Group I:
ENGL 3750 Language and Culture 3
ENGL 3757 Dev. of the English Language 3
ENGL/FNLG 4850 Sociolinguistics 3
ENGL 4855 Advanced Linguistics 3
ENGL 4858 English Grammar 3
FRNC 3710 Applied Phonetics 3
FRNC 3715 Conversation & Composition 3
FRNC 4885 Special Topics 3
ITAL 3720 Adv. Grammar & Composition 3
ITAL 3725 Phonetics 3
SPAN 3724 Spanish Pronunciation 3
SPAN 3735 Adv. Spanish Grammar & Comp. 3
SPAN 3736 Intro. to Spanish Linguistics 3
SPAN 5855 Topics in Spanish Lang. & Ling. 3

Additional coursework from Groups I and II (following):
ENGL/FNLG 4851 Language Acquisition 3
ENGL 4856 TESOL Methods 3
ENGL 4857 TESOL Practicum 3
ENGL 4858 English Grammar 3
ENGL 4859 Sel. Topics in Discourse 3
PHIL 2619 Intro. to Logic 3
PHIL 3714 Language and Mind 3
PHIL 3719 Symbolic Logic 3
CSCI 5835 Artificial Intelligence 3
PSYC 3761/3761L Cognition/Lab 4
PSYC 3764/3764L Psycholinguistics/Lab 4

ART 4852 Advanced Painting 2 .....................3
ART 4853 Advanced Painting 3 .....................3
ART 4800 Studio Problems: Painting ................3

Total Number of Semester Hours ..................18

Philosophy
PHIL 2600 Introduction to Philosophy .............3

At least 6 s.h. from the following courses:
PHIL 2609 Technology and Human Values ............3
PHIL 2619 Introduction to Logic ....................3
PHIL 2625 Introduction to Professional Ethics .........3
PHIL 2630 Critical Thinking ........................3

At least 3 s.h. from the following courses:
PHIL 3700 Ancient and Medieval Philosophy ..........3
PHIL 3702 History of Modern Philosophy ............3
PHIL 3705 20th Century Philosophy ................3

At least 3 s.h. from the following courses:
PHIL 3711 General Ethics ............................3
PHIL 3719 Symbolic Logic ............................3
PHIL 3780 Theories of Knowledge ..................3

Any 3700- or 4800-level course in philosophy: 3

Total Number of Semester Hours ..................18

Photography for Studio Art Majors
ART 2672 Digital Photography ......................3
ART 2673 Digital Photography ........................3

Select four of the following courses:
ART 3776 Topics in Intermediate Photography ........3
ART 3748 Special Topics in Studio Art/Photo ..........3
ART 3785 History of Still Photography ..............3
ART 3775 Photography: Issues & Practice ............3
ART 4800 Studio Problems ...........................3
ART 4873 Topics in Advanced Photography ..........3

Total Number of Semester Hours ..................18

Photography for Non-Art Majors
ART 1501 Fundamentals of 2-D Design ............3
ART 2671 Intro to B & W Photo ....................3
ART 2672 Color Photography .......................3
ART 2673 Digital Photography 1 ....................3

Select two of the following courses:
ART 3776 Topics in Intermediate Photography ........3
ART 3748 Special Topics in Studio Art/Photo ..........3
ART 3785 History of Still Photography ..............3
ART 3775 Photography: Issues & Practice ............3
ART 4873 Topics in Advanced Photography ..........3
ART 4800 Studio Problems ...........................3

Total Number of Semester Hours ..................18

Physics
All of the following courses:
PHYS 2610 General Physics 1 .......................4
PHYS 2610L General Physics Lab 1 ..................1
PHYS 2611 General Physics 2 .......................4
PHYS 2611L General Physics Lab 2 ..................1

Plus upper-division electives ........................8

Total Number of Semester Hours ..................18

Political Science
Both of the following courses:
POL 1550 Introduction to Political Science ........3
POL 1560 American Government ....................3

One of the following courses:
POL 2640 Contemporary World Governments ..........3
POL 2660 International Relations ...................3

Plus three upper-division Political Science courses.

Total Number of Semester Hours ..................18

Professional Ethics
All of the following courses:
PHIL 2600 Introduction to Philosophy .............3
PHIL 2625 Introduction to Professional Ethics ..........3
PHIL 3711 General Ethics ............................3

Plus at least 9 s.h. from the following courses:
PHIL 2609 Technology and Human Values ............3
PHIL 3723 Law and Criminal Justice Ethics .............3
PHIL 3725 Biomedical Ethics ........................3
PHIL 3727 Environmental Ethics ....................3
PHIL 3728 Engineering Ethics ........................3
PHIL 3735 Ethics and Scientific Research ..........3
PHIL 3760 Ethics of War and Peace ..................3

Total Number of Semester Hours ..................18

Professional Writing and Editing
All of the following courses:
ENGL 3743 Professional and Technical Communication ..........3
ENGL 3744 Proposal and Report Writing ............3
Youngstown State University

**Psychology**

**Psychology, Developmental**

- PSYC 1560 General Psychology ............................................. 3
- PSYC 2617 Research Meth & Stat 1* ........................................... 4
- PSYC 3755 Child Development ............................................... 3
- PSYC 3756 Adolescent Development ........................................ 3

*If not taken above
COURSES OF INSTRUCTION
Course Numbering System and Abbreviations

Students should be familiar with the University’s course numbering system and its significance, and with the abbreviations used to indicate the amount of credit.

Upper- and Lower-Division Courses

Courses numbered from 1500 to 1599 are designed for freshman level; from 2600 to 2699, the sophomore level; from 3700 to 3799, the junior level; and from 4800 to 4899, the senior level. Courses numbered from 5800 to 5899 are swing courses, i.e. senior-level courses that have also been approved for graduate credit. The freshman and sophomore levels constitute the lower division, and the junior and senior levels the upper division.

Sequences

Ordinarily, a comma between numbers (e.g., 1501, 1502) indicates that the course sequence extends throughout the year, but that credit is given for each course individually.

Abbreviations

The abbreviation “s.h.” at the end of a course description stands for “semester hours of credit.” Thus, credit for a three-hour, two-semester course is indicated by the notation “3+3 s.h.,” meaning “three semester hours of credit each semester.”

The abbreviation “NC” means “No Credit.”

“Prereq.” stands for “Prerequisite.” The prerequisite for a course is usually listed in the course description.

Honors courses are designated by the suffix “H.” Laboratory courses are designated by the suffix “L.”

The key for course area abbreviations can be found on page 402.

Courses are listed in alphabetical order by subject area and followed by the course abbreviation. Exceptions to this are Foreign Languages, where each language is included alphabetically under the heading FNLG; and Applied Music classes, which are listed under MUAC–Music, Applied Classes.

The department or college offering the courses is noted in smaller type in the heading. Courses in interdisciplinary programs are indicated as such.

NEOUCOM stands for Northeastern Ohio Universities Colleges of Medicine and Pharmacy.

Technology/Laboratory Materials Fees will be applied to some courses. Check the Banner Self-Service Class Schedule to determine the fee for any particular course.

ACCOUNTING—ACCT

Lariccia School of Accounting and Finance

Lower-Division Courses

1503. Elementary Accounting. Principles, concepts, and terminology related to the accounting cycle. Examination of procedures related to control of cash and payroll activities. Does not fulfill WCBA requirements. 3 s.h.

2600. Accounting Field Experience. Internship and/or cooperative education experiences in accounting. Students may be assigned to corporate, non-profit, or government entities on a semester basis. Can repeat this course once for a different field experience. Prereq.: 2.5 GPA, department approval and sophomore standing. 1 s.h.

2602. Financial Accounting. Study of the accounting cycle and generally accepted accounting principles including preparation of financial statements. Prereq.: Sophomore standing. 3 s.h.

2603. Managerial Accounting. Study of the accounting informational needs of management. Emphasis on techniques of planning and control. Prereq.: C or better in ACCT 2602. 3 s.h.

2603L. Managerial Accounting Spreadsheet Lab. The purpose of this course is to provide spreadsheet skills to business majors. The course will be taught using current software and will cover areas like spreadsheet design, formula development, pivot tables, charting basics and importing and exporting of data. This course is required for accounting and finance majors and may be taken concurrently with Accounting 2603. 1 s.h.

Upper-Division Courses

3701, 3702. Intermediate Accounting 1, 2. Comprehensive study of the theories and concepts underlying financial accounting. Emphasis on income determination, asset valuation, measurement of liabilities and changes in financial position. Prereq.: C or better in ACCT 2603 for ACCT 3701; C or better in ACCT 3701 for 3702. 4+4 s.h.

3709. Accounting Information Systems. Study of systems analysis, design, and implementation within the context of an accounting information system. Topics include a treatment of the business computing environment, security and control of information, the accounting information system as a component of the management information system, and decision support and expert systems. Prereq.: C or better in ACCT 3701. 3 s.h.

3710. Analysis and Design of Accounting Databases. An introduction to the analysis of accounting databases. Specific emphasis is placed on the structure and use of accounting databases, particularly XBRL. Prereq.: ACCT 3709. 3 s.h.
3711. Cost Accounting. Study of cost accumulation for products manufactured under job order or continuous manufacturing processes; cost behavior and profit-volume relationships; cost structures for control and motivation; relevant costs for non-routine decision making. Prereq.: C or better in ACCT 2603.

3712. Advanced Cost. In-depth study of standard and differential costing. Compilation and preparation of budget data for managerial and administrative purposes. Prereq.: C or better in ACCT 3711. 3 s.h.

3721. State and Local Taxes. Theory applicable to state and local taxation. Primary emphasis on tax principles in current use by state and local government units located throughout the United States. Case law is studied, some representative tax returns prepared. Prereq.: C or better in ACCT 2603. 3 s.h.

3750. Fraud Examination. Study of occupational fraud and abuse. Topics include asset misappropriation schemes, corruption, and fraudulent statements, including fraudulent financial statements. Coverage of these topics includes implications for the fraud examiner and corporate management. Prereq.: C or better in ACCT 3702. 3 s.h.

4801. Advanced Accounting. Financial accounting and reporting related to complex and highly sophisticated business transactions. Topics include the equity method, business combinations, variable interest entities, segment and interim reporting, worldwide diversity of accounting standards, foreign currency transactions and translation, SEC reporting, legal reorganizations and liquidations, partnership accounting, and estates and trusts. Prereq.: C or better in ACCT 3702. 3 s.h.

4808. Auditing and Fraud Investigation. The theory and practice of financial auditing with emphasis on fraud investigation. Topics include professional standards, audit reports, evidence, occupational fraud, data interrogation, and computer-assisted audit techniques. Students analyze actual business fraud cases. Prereq.: C or better in ACCT 3702, 3709, and 3711. 4 s.h.

4809. Security and Privacy in Electronic Commerce. This course focuses on the technology and communication infrastructure supporting electronic commerce and its impact on auditing. Encryption, public key infrastructure, digital signatures, payment schemes, and web commerce are discussed. Prereq.: ACCT 4808. 3 s.h.

4813. Federal Taxation 1. Introduction to the Federal taxation of individuals and business entities. Emphasis on tax research and tax form preparation. Prereq.: C or better in ACCT 3701, or FIN 4835. 4 s.h.

4817. Income Tax Preparation 1. Preparation of actual federal, state and local income tax returns of people from the community. Completion of an IRS training program in federal income taxation of individuals, including international students and scholars and military personnel. Training using professional income tax preparation software is also provided. Prereq.: ACCT 3701 or permission of instructor. 3 s.h.

4818. Income Tax Preparation 2. A continuation of ACCT 4817, Income Tax Preparation 1. Completion of an updated/current IRS training program in federal income taxation of individuals, including international student and scholar and military income tax preparation. Students also receive updated training in current income tax preparation software. Students prepare federal, state and local income tax returns for individuals using current law. Because of previous experience in ACCT 4817, students prepare more-complex tax returns and provide guidance and leadership to first-year students. May be repeated once. Prereq.: ACCT 4817. 3 s.h.

4840. Accounting Internship Program. Participatory accounting and professional business experience under the direction of YSU faculty members and employees of firms participating in the program. Candidates are employed for the entire semester in the offices of the participating firms. A written evaluation of the job experience is required by students and firms. Prereq.: Accounting major, junior standing, 2.75 Accounting GPA, 2.5 overall GPA, and approval of committee. 3 s.h.

4851. Professional Practice in Accounting. Provides students with cooperative education experiences in accounting. Students may be assigned to public, corporate, or government entities on a semester to semester basis. May be repeated. Prereq: Accounting major, junior standing. 1 s.h.

4860. Special Topics in Accounting. Subject matter, credit hours, and prerequisites will be announced in advance of each topic. Prereq.: Permission of department chairperson. 1-4 s.h.

5814. Federal Taxation 2. Study of current Federal income tax law applying to proprietorships, corporations, S corporations, and partnerships. Includes fundamentals of researching tax law and preparing business tax returns. Prereq.: C or better in ACCT 4813. 3 s.h.

5820. Government and Funds Accounting. Generally accepted accounting principles for not-for-profit and governmental organizations as established by the appropriately recognized, standard-setting bodies. Includes state and local governments, school districts, colleges and universities, hospitals, voluntary health and welfare organizations, and others. Prereq.: C or better in ACCT 2603. 3 s.h.

ADVERTISING — ADV

Department of Marketing

Upper-Division Courses

3711. Marketing Communications. Examines the integration of promotional activities within a marketing context. Presents the marketing communication role of the four elements in the promotional mix then
takes a holistic perspective that focuses on the interrelationships among advertising, public relations, sales promotion, and personal selling. Prereq.: BUS 1500 and sophomore standing. 4 s.h.

3712. Creative Strategies in IMC. The creative process is related to the different message and graphic needs required in advertising, public relations, and sales promotion. Examines the synergistic possibilities of the separate efforts focused on the same creative strategy within an integrated marketing communications (IMC) campaign. Prereq.: ADV 3711. 3 s.h.

3717. Media Planning and Buying. Planning, executing, and controlling of media buys. Techniques of allocation of budget among print and electronic media explored on national, regional, and local levels familiarizing the student with syndicated media resources. Prereq.: ADV 3711. 3 s.h.

4811. Direct Marketing. In-depth investigation of direct marketing including mail order and direct response advertising. Measurability, accountability, lists, and the integration of direct marketing into the total marketing efforts. Prereq.: ADV 3711. 3 s.h.

4855. IMC Campaigns. Capstone course in the integrated marketing communications curriculum. By employing the fundamental theories and practices garnered from previous integrated marketing communications courses for a specific IMC problem, the focus is the development of an integrated marketing communications campaign. Prereq.: ADV 3711 and 3717. 3 s.h.

AEROSPACE STUDIES—AERO

College of Health and Human Services

1501. Foundation of U.S. Air Force I. Survey course providing an introduction to the U.S. Air Force and ROTC. Officership and military customs and courtesies are discussed. Foundations of Air Force communications are covered. Prereq.: None. 1 s.h.

1502. Foundation of U.S. Air Force II. Survey course looking at the origin and organization of the Air Force. Selected topics contributing to an understanding of the Air Force. Prereq.: None. 1 s.h.

1503. Leadership Laboratory. An instruction program that prepares an individual to undertake the broad range of technical tasks associated with military leadership and defense management. Grading is Credit/No Credit. 1 s.h.

1504. Leadership Laboratory. An instruction program that prepares an individual to undertake the broad range of technical tasks associated with military leadership and defense management. Grading is Credit/No Credit. 1 s.h.

2601. Evolution of U.S. Air Force and Space Power I. Survey course to examine air and space power from a historical perspective. Course covers early flight World War I to the Korean War and ICBM’s. Prereq.: None. 1 s.h.

2602. Evolution of U.S. Air Force Air and Space Power II. Survey course to examine air and space power from a historical perspective. Course covers the period from the Vietnam War to the Gulf War plus a look at the Air Force of the future. Prereq.: None. 1 s.h.

2603. Leadership Laboratory. An instruction program that prepares an individual to undertake the broad range of technical tasks associated with military leadership and defense management. Grading is Credit/No Credit. 1 s.h.

2604. Leadership Laboratory. An instruction program that prepares an individual to undertake the broad range of technical tasks associated with military leadership and defense management. Grading is Credit/No Credit. 1 s.h.

3701. Leadership Studies I. Study of leadership, professional knowledge, and communication skills required for an Air Force officer. The role of a leader as supervisor and counselor is discussed along with military ethics. Prereq.: Permission. 3 s.h.

3702. Leadership Studies II. Study of quality management fundamentals and communication skills for the Air Force officer. The Air Force personnel evaluation system is discussed along with military ethics. Prereq.: Permission. 3 s.h.

3703. Leadership Laboratory. An instruction program that prepares an individual to undertake the broad range of technical tasks associated with military leadership and defense management. Grading is Credit/No Credit. 1 s.h.

3704. Leadership Laboratory. An instruction program that prepares an individual to undertake the broad range of technical tasks associated with military leadership and defense management. Grading is Credit/No Credit. 1 s.h.

4801. Defense Studies/Preparation for Active Duty I. A look at political, economic, and social constraints upon national security and defense structure. The role of the military including joint operations is discussed. Prereq.: Permission. 3 s.h.

4802. Defense Studies/Preparation for Active Duty II. The role of the military and regional defense issues are studied. Current Air Force issues and other topics relevant to preparing an Air Force officer for active duty are covered. Prereq.: Permission. 3 s.h.

4803. Leadership Laboratory. An instruction program that prepares an individual to undertake the broad range of technical tasks associated with military leadership and defense management. Grading is Credit/No Credit. 1 s.h.
4804. Leadership Laboratory. An instruction program that prepares an individual to undertake the broad range of technical tasks associated with military leadership and defense management. Grading is Credit/No Credit. 1 s.h.

**AFRICANA STUDIES—AFST Interdisciplinary**

The following have been approved as General Education courses: in the domain of Societies and Institutions, 2600, Africana Studies 1; in the domain of Artistic and Literary Perspectives, 2601, Africana Studies 2.

2600. Introduction to Africana Studies 1. The social-historical and intellectual heritage of black people in Africa and the Americas. 3 s.h.

2601. Introduction to Africana Studies 2. The cultural and intellectual heritage of black people in Africa and the Americas as reflected in literature, philosophy, and art. 3 s.h.

3700. Africana Studies Colloquium 1. A social studies seminar focusing on the historic, economic, political, or social aspects of the experiences of people of African descent. May be repeated once with different content. Prereq.: AFST 2600. 3 s.h.

3701. Africana Studies Colloquium 2. A humanities seminar focusing on the art, music, literature and/ or philosophy of people of African descent. May be repeated once with different content. Prereq.: AFST 2601. 3 s.h.

**ALLIED HEALTH—AHLT Department of Health Professions**

1502. Applied Pathophysiology. Introduction to clinical anatomy, physiology, and pathophysiology with application to acute and chronic illness. 4 s.h.

3705. Pharmacotherapeutics. Advanced concepts and integration of various drug interactions as applied to modern drug therapy. Analysis of drug regimens related to a broad spectrum of pathologic conditions. Prereq.: BIOL 1545 or 1551 and 1552, MATC 2605, or permission of instructor. 3 s.h.

3706. Practice Management for Dental Hygiene. Management of dental hygiene care including appointment control, developing and maintaining recall systems, and insurance management. Dental marketing problem solving and the business relationship between dental patients and dental hygiene professionals. Prereq.: DHYG 2628. 3 s.h.

3708. Preventive Public Health Care. Application of current health care philosophies in disease prevention. In-depth case study of a specific public health problem and its prevention. Prereq.: BIOL 1545 or 1551 and 1552, or permission of instructor. 3 s.h.

3709. Elements of Urban Environmental Health Practices. Focus on development and implementation issues of environmental and public health programs necessary for urban and rural communities to meet acceptable public health standards at the local health department level with emphasis on resources and staffing. AHLT 3708, or permission of instructor. Also listed as PHLT 3709. 3 s.h.

3710. Gerodontology. In-depth study of geriatrics as it relates to dental hygiene care and specific concerns of the elderly. An extramural experience with a geriatric patient. Prereq.: DHYG 1513. 3 s.h.

3720. EMS Management. A review of EMS system design, staffing, chain of command, medical education, policies and procedures, record keeping, inter-agency relationships, community resources and involvement, and legal aspects relevant to private and public emergency medical services. Prereq.: EMTC 2640. 3 s.h.

3721. Pediatric Emergency Care. A study of the pathophysiology, symptomatology, advanced diagnostic and therapeutic techniques of medical and traumatic emergencies unique to the pediatric patient. Prereq.: EMTC 2640. 3 s.h.

3740. Pathology of Infectious Diseases. Pathology, prevention, transmission, and treatment of infectious disease; emphasis on nosocomial, opportunistic, and emerging bacterial, fungal, parasitic, and viral organisms. Prereq.: BIOL 1545 or 1551 and 1552, or permission of instructor. 3 s.h.

3755. Principles of Occupational Health and Safety. Contemporary concepts of occupational health and safety as they apply to health-related environments. Includes development of elements needed to implement comprehensive health and safety plans. Prereq.: AHLT 3708. 3 s.h.

4801. Special Topics. The directed study and research of a special problem or issue related to the health field. The topic of interest allows the student to participate in the investigation of aspects of administration, education, business, or research as these pertain to the particular health specialty. May be repeated for a total of 6 s.h. Prereq.: AHLT 5840 or permission of instructor. 1-3 s.h.

4804. Stress and the Health Care Practitioner. Personal reactions of those involved in health education or the delivery of health care to patients, families, and their health environment. Indicators of stress and coping strategies, organizational systems, communication theory, conflict resolution, problem solving, and burnout. Prereq.: AHLT 5840 or permission of instructor. 3 s.h.

4805. Health Education for Allied Health. University as well as hospital-based programs reviewed in regard to accreditation, clinical vs didactic instruction, use of simulations, and evaluation techniques. Public health education and the role of the Allied Health professional. A major learning unit and/or research project required. Prereq.: AHLT 5840 or HSC 3701 or permission of instructor. 3 s.h.
4806. Research Methods. Measurement and interpretation of health data and their application in the research process. Research design considerations, data collection methods, and data analysis of health care research projects. Prereq.: AHLT 5840, or permission of instructor. 3 s.h.

4808. Environmental Health Concerns. Industrial hygiene, hazardous and infections waste, air and quality, and sanitation policies in health care facilities. Pertinent federal, state, and local legislation. Prereq.: AHLT 3708 or permission of instructor. 3 s.h.

4810. Management Skills for Health Professionals. A study of the conceptual framework of supervision in Health Care Organizations with emphasis on managerial skills, formulation of policies, principles of budgeting, performance appraisals, and community relations. Prereq.: AHLT 5840, 4805, or permission of instructor. 3 s.h.

4812. Advanced Cardiac Life Support. ECG interpretation, cardiovascular drug pharmacology, airway management and resuscitation techniques used in the management of cardiac emergencies. The course exceeds the objectives of the American Heart Association’s Advanced Cardiac Life Support program for initial certification or recertification. Two hours lecture, three hours laboratory. Prereq.: AHLT 3705 or permission of instructor. 3 s.h.

4820. Directed Research. Individual study of an issue related to the health care field. Students must present research at a faculty and student forum. Prereq.: Senior standing and AHLT 4806 or a research methods course approved by the course instructor. 2 s.h.

4831. Industrial Hygiene. Basic concepts of industrial hygiene including anticipation, recognition, and evaluation of environmental and safety hazards as they pertain to the workplace. Prereq.: AHLT 3708, 4808, or permission of instructor. 3 s.h.

4831L. Industrial Hygiene Laboratory. Application of basic concepts of industrial hygiene including anticipation, recognition, and evaluation of environmental and safety hazards as they pertain to the workplace. 1 s.h.

4835. Health Care Diversity. Strategies of communication that enable the student to understand socioeconomic, political, ethnic, and religious diversity in health care. Prereq.: AHLT 5840 or permission of instructor. 3 s.h.

5807. Epidemiology. A study of the interrelationships of the host, agent, and environment in determining the causation, frequency, and distribution of disease. Prereq.: AHLT 3708, 5840, 4806, or permission of instructor. 1 s.h.

5816. Environmental Regulations. Structure and function of federal, state, and local agencies responsible for implementing environmental legislation. Emphasis on the duties and authority of different health and environmental agencies and specific legislation dealing with environmental impacts. Prereq.: AHLT 3708, 5807 or permission of instructor. 3 s.h.

5840. Comparative Health Systems. Problems and issues facing global health care systems including access to care, financing and rationing of services. A major project is included. Prereq.: AHLT 3708 or permission of instructor. 4 s.h.

AMERICAN STUDIES—AMER Interdisciplinary

The following has been approved as a General Education course in the domain of Societies and Institutions: 2601, American Identity.

2601. American Identity. Study of American Identity through historical, literary, artistic, material, media and other sources. Emphasis on American pluralism and cultural debates over the meaning of American identity. 3 s.h.

2605. Turning Points in U.S. History 1. Key episodes in the social, economic, political, and cultural developments of the United States to 1877, exploring how diverse peoples shaped the growing nation. Cross-listed with HIST 2605. 3 s.h.

2606. Turning Points in U.S. History 2. Key episodes in the social, economic, political, and cultural developments of the United States since 1877, exploring how diverse peoples shaped the growing nation. Cross-listed with HIST 2606. 3 s.h.

2610. Work and Class in American Culture. Interdisciplinary thematic exploration of work and class in American culture with emphasis on the Mahoning Valley. Includes the impact of social movements, technological developments, and new ideas and knowledge. Examines the relationship of class to such social categories as race, gender, sexuality, ethnicity, and place. Prereq.: Placement in ENGL 1550. 3 s.h.

3700. Minority Groups. Survey of the origins and characteristics of ethnic and racial minority groups, with emphasis on the significance of membership in such a group for in-group, out-group, and community solidarity. Cross-listed with SOC 3700. Prereq.: SOC 1500. 3 s.h.

3701. Approaches to American Studies. Survey of central issues and themes in American cultural studies, with emphasis on interdisciplinary approaches and cultural diversity. May focus on a theme chosen by the instructor, such as nature and culture, work, or class in America. May be repeated once with a different topic. 3 s.h.

3705. Cultural Anthropology. A cross-cultural comparison of the cultural norms that regulate society, emphasizing the functional prerequisites for the existence of society and individual demands on society. Cross-listed with ANTH 3705. Prereq.: ANTH 2602. 3 s.h.

3720. Applied Sociology. Uses of sociology in practical affairs, providing theory and data for public policy, institutional reform, social action programs, and social inventions. Contributions to architectural
design, industrial engineering, community planning, and innovative legislation. Cross-listed with SOC 3720. Prereq.: SOC 1500. 3 s.h.

3770. American Literature in Historical Perspective. Poetry, prose, drama, and other forms of literary expression examined within the context of a specific aspect of American social, intellectual, and cultural history. May be repeated once with different topic. Cross-listed with ENGL 3770. Prereq.: ENGL 3701 or 3702. 3 s.h.

4801. American Studies Research Seminar. Capstone seminar. Focuses on development and implementation of research proposal and current American studies research related to topics chosen by students for their senior projects. Prereq.: AMER 3701 and approval of Program Coordinator. 3 s.h.

4810. Independent Project in American Culture. Work with faculty advisor on senior projects. A total of 3 s.h. is required for completion of the major. May be repeated with permission of coordinator. Prereq.: AMER 4801 and approval of Program Coordinator. 1-3 s.h.

4815. American Material Culture. A discussion and analysis of the use and importance of material artifacts as texts for the recovery of the American past. Emphasis on sources not traditionally utilized by historians. Examples include the contextual analysis of children's books, foodways, and sacred spaces. Prereq.: HIST 2605 and 2606, or AMER 2601 and AMER 3701. Cross-listed with HIST 4815. 3 s.h.

5845. Work in America. Examines the changing characteristics, expectations, and representations of work in America. Includes the exploration of demographic, historic, economic, technological, sociological, religious, ethical, popular, and poetic perspectives on work. Prereq.: junior standing. Cross-listed with MGT 5845. 3 s.h.

5850. Class and Culture. Theories of social class structure and formation, relationships between class and culture, representations of class and work, intersections of class with other aspects of cultural identity (race, gender, sexuality, place), and theories and methods of working-class studies. Prereq.: graduate standing or AMER 3701. 3 s.h.

ANTHROPOLOGY—ANTH
Department of Sociology, Anthropology, and Gerontology

The following has been approved as a General Education course in the domain of Societies and Institutions: 2602, Introduction to Anthropology.

Lower-Division Course

1500. Introduction to Anthropology. An exploration of what it means to be human from a biological and cultural perspective using archaeology, bioanthropology, and ethnography to trace over four million years of human development. 3 s.h.

1503. The Rise and Fall of Civilizations. Comparative survey of the archaeological evidence on the origins, development, and collapse of the great early civilizations of the world. The transformation of societies from settled villages to urban states in Mesopotamia, Egypt, China, Mexico, and Peru. Analysis of the archaeological discoveries, alternative interpretations, and general theories of cultural evolution. 3 s.h.

2600. Human Osteology. An examination of the anatomy of the skeleton in a defleshed state to gain an understanding of the characteristics and personal biology of individuals and to explore the range of human variation within and between populations. 3 s.h.

Upper-Division Courses

3701. Social Statistics. Measurement and interpretation of social data by the use of descriptive techniques. Examines methods of probability theory as a basis for statistical inference, hypothesis testing, correlation, chi-square, and variance analysis. Prereq.: SOC 1500 or ANTH 1500, successful completion of ENGL 1551 and MATH 1501 or a level 3 or higher on the math placement exam. Listed also as SOC 3701. 4 s.h.

3702. Archaeology. An introduction to the methods and subject matter of archaeology in its reconstruction of Paleolithic and prehistoric cultures as inferred from artifacts. Prereq.: ANTH 1500. 3 s.h.

3703. Biological Anthropology. The physical origins and development of the human species as a member of the primate order and the biological bases of human differences disclosed by human paleontology and archaeology. Prereq.: ANTH 1500. 3 s.h.

3704. Primates. Primate evolution throughout the Cenozoic Era, from primate origins to the advent of hominids. Examines research into the natural behavior of a wide range of primates, focusing on the social organization of terrestrial monkeys and apes. Prereq.: ANTH 3703. 3 s.h.

3705. Cultural Anthropology. A cross-cultural comparison of the cultural norms that regulate society, emphasizing the functional prerequisites for the existence of society and individual demands on society. Cross-listed with AMER 3705. Prereq.: ANTH 1500. 3 s.h.

3760. Cultures of the Old World. An examination of the ethnography, cultural contributions, and achievements of Old World peoples, which may include the cultures of Europe, Africa, the Middle East, Asia or Australia and Oceania. May be taken up to three times for credit if the topic is different. Prereq.: ANTH 3705 or 6 s.h. in AFST, including AFST 2601. 3 s.h.

3761. Cultures of the New World. An examination of various topics in New World cultures. Topics vary by semester and may include native South Americans, native North Americans, Native Americans' civil rights, the reservation system, and others. May be taken up to three times for credit if the topic is different. Prereq.: ANTH 1500. 3 s.h.
3762. **The Power and Meaning of Food.** Explores the relationship between culture and food in its material and symbolic forms. Examines the patterns of production, distribution, exchange, and consumption of food across time and within particular cultural and global contexts. Topics include the place of food in ritual, gift-giving, maintaining identities, and culture change. Prereq.: ANTH 3705. 3 s.h.

3775. **Native North Americans.** Detailed discussion of the culture and achievements of the tribal peoples native to North America. Prereq.: ANTH 1500. 3 s.h.

3778. **Archaeological Techniques.** Practice in archaeological field methods, including surveying, mapping, excavation, and artifact analysis. Amount of field work and lab analysis can vary from four weeks to one semester. Credit hours may vary accordingly from 1 to 9 hours with approval of the instructor and department chair. Prereq.: ANTH 3702. 1-9 s.h.

3779. **Fieldwork in Historical and Industrial Sites**. Excavation of New World sites after 1492, culminating in the physical examination of the remains of historical, industrial, and post-industrial sites. Techniques for literature search and fieldwork. May be repeated once with different site or theoretical focus. Prereq.: ANTH 3702 or permission of chair. 3 s.h.

3780. **Forensic Anthropology 1.** Forensics from the perspective of anthropology, especially through hands-on study of human remains. Detailed study of methods of determining the sex, age, ancestry, and stature of an individual, field methods for forensic anthropology and trauma analysis. Prereq.: ANTH 2600 or BIOL 3705. 3 s.h.

3790. **Aging in Cross-Cultural Perspective.** Examines the phenomenon of aging from cross-cultural perspectives with an emphasis on cultural evolution and its impact upon the status, roles and cultural values associated with aging and the aged. Listed also as SOC 3790 and GERO 3790. Prereq.: ANTH 1500 or SOC 1500, or GERO 1501. 3 s.h.

4800. **Undergraduate Research.** Research participation under the direction and guidance of a full-time faculty member. Designed to acquaint the advanced student with special research problems associated with various aspects of the discipline. May be repeated to a maximum of 4 s.h. Prereq.: Permission of chairperson and junior standing. 1-2 s.h.

4801. **Anthropological Thought.** Analysis of the theories and methodology of the major contributors to contemporary anthropological thought, such as the evolutionist, diffusionist, functional, and multilinear schools. Prereq.: ANTH 3705. 3 s.h.

4815. **Anthropology of Religion.** A survey of anthropological approaches to the study of religion, illustrated by a critical consideration of past and present contributions to the field. Study of selected religious systems, areally and topically. Prereq.: ANTH 3705 or 6 s.h. in REL including REL 2601. 3 s.h.

4824. **Old World Prehistory: Topics.** Examination of the prehistoric development of Old World (Africa, Europe, Far East, Middle East, and Oceanic cultures). May be taken twice for credit if topic is different. Prereq.: ANTH 3702. 3 s.h.

4825. **New World Archaeology: Topics.** Examination of the archaeological evidence of the development of New World cultures from early prehistoric to late post-industrial times. Topics vary by semester and may include historical archaeology, North American prehistory, Ohio prehistory, Maya, Aztec and Inca, South American prehistory, and others. May be taken up to three times for credit if the topic is different. Some topics may include field work. Prereq.: ANTH 3702. 3 s.h.

4850. **Research Methods.** An introduction to methods employed in social research. Attention is given to (1) the logic of sociological inquiry and the relationship between theory and methods; (2) the various qualitative and quantitative methods; (3) research design, data collection, organization, analysis, interpretation and application; (4) the social, cultural, political, and ethical context of social research; and (5) computer skills employed in data analysis. Prereq.: SOC 3701 or ANTH 4850 or GERO 3701 or GERO 4850. Listed also as SOC 4850 or GERO 4850. 3 s.h.

4851. **Social Research.** A seminar in social research wherein participants apply research methods in the theoretical and/or empirical investigation of a social issue and/or problem. Participants are involved in all phases of the research process. Prereq.: ANTH 4850 or SOC 4850. Listed also as SOC 4851. 3 s.h.

4877. **Method and Theory in Archaeology.** Past and contemporary theory and methodology in archaeology, with emphasis on recent innovations in the U.S. and Europe. Prereq.: ANTH 3702. 3 s.h.

4881. **Forensic Anthropology II.** A continuation of Forensic Anthropology I. An in-depth examination of the human skeletal system and its differentiation from other commonly found animal remains and the ways in which skeletal remains help determine the cause of death, trauma to skeleton, antemortem skeletal conditions, postmortem interval, postmortem changes to bone, additional aspects of individualization, etc. Prereq. ANTH 4880 with “C” or better. 3 s.h.

4882. **Paleoanthropology.** The origin and evolution of the human species in biological terms from studies of human evolution and emergence of certain critical biocultural essentials. Emphasis on fundamentals of paleoanthropological research, evidence of human evolution, important fossil finds and sites, and phylogenetic relationships. Prereq.: ANTH 3703 with “C” or better. 3 s.h.

4883. **Case Studies in Forensic Anthropology.** Introduction to advanced methods of forensic anthropology. The course consists of discussions and analysis of articles and case studies pertaining to forensic anthropology and the role of the forensic anthropologist. Prereq.: ANTH 4881. 3 s.h.
ART–ART

Department of Art

The following have been approved as General Education courses in the domain of Artistic and Literary Perspectives: 1541, Survey of Art History 1; 1542, Survey of Art History 2.

Lower-Division Courses

1501. Fundamentals of 2D Design. The fundamental ideas and principles of 2-dimensional form. Emphasis on basic design concepts, pictorial composition, color theory, vocabulary, media and processes. Slide lectures, directed readings and studio problems. 3 s.h.

1502. Fundamentals of 3D Design. Investigation of the interactions between line, plane, mass, and space. Emphasis on basic 3D concepts, color theory, vocabulary, media and techniques. Slide lectures, directed readings, writings and studio problems. Prereq.: ART 1501. 3 s.h.

1503. Foundation Portfolio Review. A mandatory review of work within each studio concentration. Students must pass to continue in the program. Prereq.: ART 1502 and enrollment in ART 1502. 0 s.h.

1505. Creative Art Appreciation. This course will introduce to the non-art major creative techniques including drawing, painting, monoprinting, xerography, paper casting, and the artist books. Students will acquire the vocabulary necessary to talk, write and communicate intelligently about their own creative art as well as the creative art of others and gain technical visual skills as well as aesthetic training and appreciation of art through exposure to the diversity of the world’s creative development of the pictorial narrative record and books. 3 s.h.

1521. Foundation Drawing. An introduction to basic drawing concepts, materials and methods. Emphasis on observational drawing. Concepts including the effective use of line, mass, volume, composition, space, and the formal principles of design. 3 s.h.

1522. Intermediate Drawing. A continuation of ART 1521 with greater emphasis on process, technique, spatial organization, and the development of pictorial content. Various topics are explored including figure drawing and the use of color. Prereq.: ART 1501 and 1521. 3 s.h.

1540. Masterpieces of World Art. An introduction to the ways that art communicates and how art interacts with our environment, our society, and our lives. Rather than a chronological study of the development of art, the course emphasizes the in-depth study of a number of works and issues, drawn from art the world, both past and present. Intended for non-art majors. 3 s.h.

1541. Survey of Art History 1. A study of world art, focusing on the western European tradition. Covers the period from prehistoric times through 1500. Introduces key concepts, methods, and vocabulary for the study of art. 3 s.h.

1542. Survey of Art History 2. A study of world art, focusing on the western European tradition. Covers the period from 1500 to the present. Introduces key concepts, methods, and vocabulary for the study of art. 3 s.h.

2611. Introduction to Sculpture. An introductory course for those who have little or no experience with sculpture. Students explore basic sculptural concepts and theories using a variety of materials and methods. Directed readings, writings, technical workshops, and participation in course work exhibitions required. Prereq.: ART 1503 and 1522. 3 s.h.

2615. Introduction to Metals. Basic metals fabrication in the creation of jewelry and small metal objects. Design as applied to hand processes. Prereq.: ART 1502, 1522. 3 s.h.

2621. Life Drawing. Students develop sound composition based upon accuracy of observation of the human figure. Understanding of proportion and the detailed study of skeletal and muscular systems will be addressed. Prereq.: ART 1502, 1522. 3 s.h.

2625. Introduction to Printmaking: Intaglio and Relief. An introduction to basic intaglio and relief printmaking processes, including etching, collagraph, lino-cut, woodcut, and multiple-block printing. Emphasis on technical, formal, and conceptual issues related to each technique. Prereq.: ART 1503. 3 s.h.

2626. Introduction to Printmaking: Lithography and Screen-printing. An introduction to basic lithography and screen-printing processes, including stone and plate lithography and photo-mechanical screen-printing. Emphasis on technical, formal, and conceptual issues related to each technique. Prereq.: ART 1503. 3 s.h.

2631. Introduction to Ceramics. Introduction to handbuilding methods, low-fire glaze application, pit firing, and firing procedures. Prereq.: ART 1503 and passing the foundation portfolio review, or permission of instructor. 3 s.h.
2650. Introduction to Painting. Exploration of new and traditional painting techniques and media. The student is encouraged to see significantly rather than imitatively in the process of developing form and content. Prereq.: ART 1502, 1522, and passing the foundation portfolio review. 3 s.h.

2653. Watercolor Painting. Opaque, transparent, and inventive procedures with watercolor. Emphasis is on expressive use of the medium and development of personal style. Prereq.: ART 1502, 1522, and passing the foundation portfolio review. 3 s.h.

2661. Introduction to Graphic Design. The basic concepts of graphic design theory including layout and organization of space, the elements of visual communication and the process of presentation from thumbnails through comprehensives. Prereq.: ART 1503 and passing the foundation portfolio review. 3 s.h.

2662. Introduction to Typography. Introduction to the basic technical understanding of type, including classification, anatomy, legibility, readability, and specification as well as an understanding of typography as an art form with an emphasis on typographic space in the page layout. Prereq.: ART 2661. 3 s.h.

2669. Introduction to Interface Design. An investigation of the aesthetic and practical processes, philosophies, and history behind the field of interface design for the internet. Students employ various hardware/software tools available to artists/designers for visual interface design. Prereq.: ART 2691 and 2661 or permission of instructor. 3 s.h.

2671. Introduction to B & W Photography. Photographic fundamentals of the camera, B & W film, developing, enlarging, printing. Basic technical and visual skills - photography as expressive art form. Students provide camera and supplies. Prereq.: ART 1503 and passing the foundation portfolio review, or permission of instructor. 3 s.h.

2672. Introduction to Color Photography. An introduction to the study of color photography emphasizing creative possibilities and critical awareness of the medium as an art form. Course content focuses on color printing utilizing traditional darkroom procedures as well as digital printing methods. Prereq.: ART 1503 and 2671. 3 s.h.

2673. Introduction to Digital Photography. An introduction to digital still photography utilizing the computer as a fine art tool concentrating on photographic image capture, retouching, manipulation, color management and fine art image output using industry-standard computer hardware and software. Prereq.: ART 2671 and 2691. 3 s.h.

2691. Introduction to Digital Imaging. An introduction to the theory of computer-based imaging and explores a variety of “hands-on” techniques pertaining to image creation, manipulation, and construction. Students acquire a fundamental knowledge of vector-based and pixel-based software. Prereq.: ART 1503 and passing the foundation portfolio review. 3 s.h.

2692. Conceptual Ideation. Conceptual ideation and storyboarding skill development for digitally created narrative environments and computer mediated art forms. A focus on the aesthetics of the emerging art form of electronic narrative through critical readings and examples. Prereq.: ART 1503. 3 s.h.

Upper-Division Courses

3703. Junior Portfolio Review. A mandatory review of work within each studio concentration. Students must pass to continue in the program. Prereq.: Junior standing. 1 s.h.

3712. Intermediate Sculpture. Examination of sculptural concepts through individual projects. Emphasis is on contemporary sculptural issues, techniques, and media. Directed readings, technical workshops and critiques required. Prereq.: ART 2611. 3 s.h.

3713. Advanced Sculpture Studio. This course continues the examination of contemporary sculptural issues, techniques and media. Students explore alternative sculptural approaches. Individual student projects determined by faculty consultation and critiques. Directed readings, writings, group discussions. Prereq.: ART 3712 or permission of instructor. 3 s.h.

3715. Intermediate Metals. This course examines the casting process used in creating jewelry and small metal objects. Emphasis will be on sound craftsmanship and successfully meeting the design challenges of the metals medium. Slide lecture, demonstrations, assigned readings and studio problems. Prereq.: ART 2615. 3 s.h.

3721. Expressive Drawing. Course work intended to provide a wider and more unusual format in the drawing process within the context of drawing philosophy and concepts. Use of color dynamics and different experimental materials, as well as increased scale and gestural action. Prereq.: ART 1522. 3 s.h.

3725. Intermediate Printmaking: Intaglio and Relief. Further exploration of intaglio and relief printmaking processes, including digital and photo-mechanical processes, and color inking techniques. Emphasis on refining technique, experimentation, and further development of concept through the study of historical and contemporary printmaking artists. Prereq.: ART 2625. 3 s.h.

3726. Intermediate Printmaking: Lithography and Screen-printing. Further exploration of lithography and screen-printing processes, including digital and photo-mechanical processes, multiple-plate color printing, and alternative screen-printing methods. Emphasis on refining technique, experimentation, and further development of concept through the study of historical and contemporary printmaking artists. Prereq.: ART 2626. 3 s.h.

3727. Topics in Advanced Printmaking. Variable topics including silkscreen, intaglio, monoprinting, woodblock, bookmaking, and lithography. Students will develop their individual aesthetic through one
of the processes. May be repeated up to four times with different topics. Prereq.: Art 2624 3 s.h.

3732. Intermediate Ceramics. Continuation of hand-building methods; introduction to wheel-thrown ceramics. Prereq.: ART 2631. 3 s.h.

3733. Advanced Ceramics. Emphasis on clay as a means of personal expression through handbuilt and wheel-thrown ceramics. Prereq.: ART 3732. 3 s.h.

3737. Pre-K – 4, Visual Arts Education. Cognitive and interdisciplinary arts activities for multiple age levels to meet the developmental needs of learners at diverse ages. Curriculum development, long- and short-range planning, motivational procedures, assessment processes, field-based activities. Prereq.: Junior standing (63 s.h.). 3 s.h.

3741. Topics in Medieval Art. Topics in European Art from the beginnings of Christianity through the Gothic period (500 and 1500 A.D.). Specific content varies by semester and may include a general survey of Medieval art, or in-depth topics such as Early Christian and Byzantine art or Medieval sculpture. May be taken twice for credit if content differs. Prereq.: ART 1541 or consent of instructor. 3 s.h.

3742. Topics in Renaissance Art. The art and architecture of Europe during the 15th and 16th centuries. Examines the work of Michelangelo, Leonardo da Vinci, Durer, and others. Topics vary by semester and include the Renaissance in Italy and the Renaissance in Northern Europe. May be repeated if the content is different. Prereq.: ART 1542 or consent of instructor. 3 s.h.

3743. Baroque and Rococo Art. Art and architecture of the 17th and early 18th centuries, an era of world exploration and scientific investigation. The works of such artists as Bernini, Velazquez, and Rembrandt are included. Prereq.: ART 1542 or consent of instructor. 3 s.h.

3744. Seventeenth and Eighteenth Century American Art. Covering all aspects and media of painting, sculpture, architecture, and the decorative arts of 17th and 18th centuries. Prereq.: ART 1542 or consent of instructor. 3 s.h.

3745. Nineteenth Century European Art. European painting and sculpture of Neo-classicism, Romanticism, and Realism. Include Impressionism and related movements. Art as part of social and political developments, and the foundations of modern formalism. Prereq.: ART 1542 or consent of instructor. 3 s.h.

3746. Nineteenth Century American Art. Covering all aspects and media of painting, sculpture, architecture and the decorative arts of the 19th century. Prereq.: ART 1542 or consent of instructor. 3 s.h.

3747. African-American Art. A survey of Black American art history from the 17th century through the 20th century. Prereq.: AFST 2601 or ART 1541 or 1542, or consent of instructor. 3 s.h.

3748. Special Topics in Studio Art. Study in one of the many areas of the visual process that focuses on specific content or technical methods. Prereq.: ART 1503 or consent of instructor. 3 s.h.

3751. Intermediate Painting 1. Coursework is extended to expand the format for the painting process. Students will be introduced to concepts that will provide avenues for diverse investigation and a foundation for personal expression. Prereq.: ART 2650. 3 s.h.

3752. Intermediate Painting 2. An understanding of painting processes in relation to both historical and contemporary painting practices. Concentration on individual content, direction, style, and technique. Prereq.: ART 3751. 3 s.h.

3761. Intermediate Graphic Design. The interaction of type and images in visual communication. Students will be introduced to typographic grid as an organizing principle as well as the relationship of form to content. Prereq.: ART 2662. 3 s.h.

3762. Advanced Typography. The development of sensitivity for specific typefaces and their effective use in communications. Emphasis will be directed toward the expressive use of type in interpretive, symbolic, and metaphoric solutions. Prereq.: ART 2662. 3 s.h.

3763. Illustration. Visual expression through various media, both electronic and traditional. Emphasis is on problem-solving through the exploration of technique, creative process and the development of personal styles. Prereq.: ART 1503. 3 s.h.

3764. Typeface Design. An investigation of typeface design. Students will engage in developing one or more unique typefaces, and the promotional materials used to market them. Students will engage in research related to the history of type design, and current type trends and cultural inspirations. Prereq.: ART 2662 or permission of instructor. 3 s.h.

3765. Motion for Interface Design. An investigation of motion for interface/web design. Students will engage current technologies to create dynamic motion for screen-based design. Prereq.: ART 2669 and 2662 or permission of instructor. 3 s.h.

3768. Pre-Press Production. Introduction to the technical requirements of preparing a design for production including the importance of understanding pre-press software, printing technology and printing specifications. Prereq.: ART 2662. 3 s.h.

3769. Intermediate Interface Design. A further investigation of interface/web design. Students will encounter projects ranging from web design to interactive screen-based publications. Prereq.: ART 2669 and 2662 or permission of instructor. 3 s.h.

3774. Intermediate Digital. An exploration of concepts and techniques in photography and related media using industry standard computer hardware and software. Course content focuses on using the computer as the primary means of production, em-
phasisening creative possibilities and critical awareness of the medium as a fine art. Prereq.: ART 2672 and 2673.

3775. Photography: Issues and Practice. An examination of the critical theories of contemporary photographic practice. Trends within photography and related art forms are examined, from aesthetic, cultural, social and political points of view. Lectures are supplemented by directed readings, essays, and hands-on studio projects. Prereq.: ART 3703. 3 s.h.

3776. Intermediate Darkroom. An exploration of concepts and techniques in traditional analog photography and alternative processes. Selected topics include medium and large format films, advanced black and white printing, and non-silver processes. Course explores the creative possibilities of photography as a fine art form. Prereq.: ART 2672 and 2673. 3 s.h.

3777. Alternative Intermediate Photography. Selected technical and conceptual topics developing alternative imaging strategies that may include mural printing, mixed media, transfer imagery, digital negatives, non-silver processes, image toning and liquid emulsions. Readings and discussions. Prereq.: ART 2671. 3 s.h.

3780. African Art. Study of African tribal art forms and their relationship to the historical period in which they were created. The impact and influence of African art on the development of contemporary Western art trends. Prereq.: AFST 2601 or ART 1541 or 1542, or consent of instructor. 3 s.h.

3781. Native North American Art. The art and architecture of the native peoples of North America. Includes archeological sites and living artistic traditions, stressing the relationship between art and society. Prereq: ART 1542, a course in cultural anthropology, or consent of instructor. 3 s.h.

3782. Topics in Pre-Columbian Art. The art and architecture of the ancient peoples of Mexico, Central and South America. Topics vary by semester, and include Mesoamerica (Mexico and northern Central America) and the Andes (Peru and Bolivia). May be taken twice if the content is different. Prereq.: ART 1541, a course in cultural anthropology, or consent of instructor. 3 s.h.

3783. History of Graphic Design. A chronological survey of graphic design from ancient to modern times. An emphasis on specific designers who influenced the field as well as the relationship between visual communication and historical/cultural events. Prereq.: ART 1542. 3 s.h.

3785. The History of Still Photography. The history of still photography as a fine art from its beginnings to the present. Prereq.: ART 1542 or consent of instructor. 3 s.h.

3786. History of Art and Technology. The historical overview of the role of technology in the art-making process as well as the identification of current and future uses of technology in the art world. Prereq.: ART 1542. 3 s.h.

3787. History and Appreciation of Art and Music. Illustrated lectures on art and music to develop the cultural growth of the non-art and non-music student. Art and music forms, comparisons of compositional styles, and discussion of the developments, influences, and experiments of the important periods to date. No prior training in art or music required. (Not intended for art majors). Listed also as MUSIC 3787. Prereq.: Junior standing. 3 s.h.

3788. Theory of Art. The theories and philosophical implications of form in the visual arts, with emphasis on contemporary thought. Prereq.: ART 1541, 1542, and junior standing. 3 s.h.

3791. 3D Computer Animation I, Modeling. An introductory study of three-dimensional (3D) computer animation introducing principles and techniques of creating 3D computer models and environments through practical hands-on experiences. Prereq.: ART 2691. 3 s.h.

3792. Digital Audio Video Production. This course provides an overview of methods, procedures, and results attainable with digital audio/video editing tools. Topics include digital recording, editing and compositing for 2D and 3D effects, lighting, transition, and rendering optimization. Prereq.: ART 2691. 3 s.h.

3793. 3D Computer Animation II, Animation and Rendering. Following Art 3791, 3D Computer Animation I, focuses on the animating and rendering aspect of three-dimensional (3D) computer animation. Topics include character setup, animating, lighting, rendering, and editing of 3D animation. Prereq.: ART 3791, 3794. 3 s.h.

3794. Introduction to Motion Studies. An introductory study of time-based motion graphics including traditional and two-dimensional (2D) computer animation. Principles and techniques of motion graphics from storyboarding to digital composition. Discussion of exemplary works, historical background, and technological trends in motion graphics. Prereq.: ART 2691. 3 s.h.

3795. Advanced Digital Audio/Video Production. A project-oriented advanced study in digital audio/video production. A forum for further study of methods, procedures, and results attainable with video editing software, advanced editing techniques, digital compositing, and tilting software. Prereq.: ART 3792 or permission of instructor. 3 s.h.

4800. Studio Problems. Advanced, independent study in any two- or three-dimensional studio discipline. Prereq.: Senior standing and/or permission of instructor. May be repeated for a maximum of 9 s.h. 1-3 s.h.

4801. Interdisciplinary Studies in the Visual Arts. Interdisciplinary courses developing areas of self-interest using the most suitable range of visual strategies, media and methods of artistic production. Students select faculty from different visual disciplines to form team of two mentors. Directed readings, structured
4802. Senior Project. A studio concentration intended as preparation and production of work for the Senior Show graduation requirement. Prereq.: Senior status and permission of instructor. 3 s.h.

4803. Senior Seminar. Capstone course for studio majors integrating writing, oral, and critical reasoning skills specific to the student's discipline within the larger framework of the visual arts. Prereq.: Senior standing in Art. 3 s.h.

4805. Urban Internship in Art. This internship opportunity is open to any qualified studio art, art history or art education students. Interns work in galleries, art centers or an approved community art entity. Competitive and based on GPA, interview and portfolio. May be repeated in different locations up to three times. Prereq.: Senior standing. 3 s.h.

4814. Senior Project: Spatial Arts. Students prepare for their senior exhibition. Development, selection and installation of work determined through critiques by faculty. Career options for the professional artist explored. Portfolio and resume preparation, artist statements, gallery representation graduate study and other professional issues are considered. Prereq.: ART 4834. 3 s.h.

4824. Advanced Printmaking. Advanced study to include individual technical and conceptual research, refinement of technique utilizing a variety of printmaking processes, development of personal imagery through a portfolio of work. Emphasis on invention and concept development. Prereq.: ART 3725 or ART 3726. Repeatable to 9 credit hours. 3 s.h.

4829. Senior Project: Printmaking. The preparation, selection and development of a body of work in the printmaking discipline. Career options for the professional artist explored. Portfolio and resume preparation, artist's statement, gallery representation, graduate study and other professional issues are considered. Prereq.: ART 4834. 3 s.h.

4834. Advanced Spatial Arts Studio. Advanced students work on individual projects determined through discussions with and critiques by faculty. Emphasis is on personal aesthetic development, mainstream art issues, interdisciplinary approaches, and refinement of technical skills. Directed readings, writings, group discussions. Prereq.: ART 3713, 3733, or permission of instructor. 3 s.h.

4837. Professional Practices in Middle School. An exploration of middle school multiarts teaching strategies including observation, presentation, assessment and lesson planning. Direct observation included. Prereq.: ART 3737. 3 s.h.

4839. Seminar in Art Education. Discussions of problems of the prospective teacher which involve plant facilities, tools, and supplies. Planning individual exhibits on site and on campus. Assembly of comprehensive portfolio and portfolio review. Required of all art education students and must be taken concurrently with student teaching. Prereq.: ART 4838. 1 s.h.

4851. Advanced Painting 1. Concentration on individualized content, direction, style, and technique. Prereq.: ART 3751. 3 s.h.

4852. Advanced Painting 2. An extension of individualized content, direction, style, and technique. Prereq.: ART 4851. 3 s.h.

4853. Advanced Painting 3. A further extension of individualized content, direction, style, and technique. Prereq.: ART 4852. 3 s.h.

4854. Senior Project: Painting. Advanced self-directed study in painting leading to the creation of a specific body of work supported by written documentation. Work from this project must relate to the Senior Show. Prereq.: ART 4853. 3 s.h.

4861. Publication Design. The use of type and visual elements in publication formats including newspaper design, newsletters, magazines, annual reports, book design and specialty publications. Prereq.: ART 3761. 3 s.h.

4863. Corporate Identity Systems. The development of logos and their applications within an identity system. How corporate signatures are the fulcrum of an identity program and how its systemic usage impacts on the corporate image. Prereq.: ART 3762. 3 s.h.

4864. Three-Dimensional Graphics. The application of graphic design concepts to three-dimensional problems in packaging, environmental graphics, signage and exhibition design. Prereq.: ART 3761 3 s.h.

4865. Advertising Graphics. The use of graphic elements in conjunction with type to produce advertisements for many different venues. Prereq.: ART 3761 or permission of instructor. 3 s.h.

4867. Graphic Design Internship. An application of graphic design theory and practices within a professional work experience. Students are selected on the basis of preparation, portfolio, GPA, and competitive interview. Enrollment is contingent upon the availability of internship positions. Prereq.: ART 3768. 3 s.h.

4869. Advanced Interface Design. Continued investigation of interface/web design. Students will engage in developing a more specific and individualized body of work in the area of web design or interactive screen-based publications. Prereq.: ART 3675 and ART 3769 or permission of instructor. 3 s.h.

4874. Photography Internship. Application of photographic knowledge and skills in the professional work environment. Admission based on preparation, portfolio, GPA, competitive interview, and the availability of internship locations. Prereq.: ART 3776. 3 s.h.
4880. Special Topics in Art History. Study in one of the many areas of art history. May be taken for up to three times for credit if the topic is not repeated. Prereq.: ART 1541, 1542, or consent of instructor. 3 s.h.

4883. Introduction to Museum Practices. An introduction to the field of museology. Lecture topics include museum history, architecture, the building and care of art collections, exhibitions, security and current trends. The facilities, collection and staff of The Butler Institute of American Art are a resource for the class as are other area museums. Prereq.: 9 s.h. of art history and junior standing. 3 s.h.

4884. Museum Internship. Practical experience in the museum working with the professional staff of The Butler Institute of American Art and/or other museums of the region. Students observe and assist in virtually every phase of museum operations from care of the collections through exhibition design and implementation. May be repeated up to three times. Prereq.: ART 4883. 3 s.h.

4885. Museum Registration Methods/Collection Management. This course will provide a practical basis for understanding registration procedure as it applies to all phases of a museum's collection-management policy. Course topics include documentation, collections management, processes, administration, risk management, ethical and legal issues. Prereq.: ART 4883. 3 s.h.

4889. Seminar in Art History. A seminar on problems in art history. Topics will be drawn from all periods and media. Prereq.: Senior standing, 6 s.h. of art history, or consent of instructor. May be repeated with different topics up to 9 s.h. 3 s.h.

4891. Multimedia Design. Exploration of non-linear digital presentation involving compilation of still and moving images, live video, text, and sound. An overview of multimedia in the fields of web design, interactive programming and onscreen visual communication. Prereq.: ART 2691. 3 s.h.

4893. Advanced Study in New Media. A project-based advanced study in the field of new and emerging technology focusing on the digital contents creation and delivery with the choice of selected new media. (May be repeated up to 6 s.h.) Prereq.: ART 2691. 3 s.h.

4894. Topics in Digital Imaging. This advanced level course provides an opportunity for the student to focus on one of the following areas of digital imaging: 2D imaging, 3D modeling, animation, video, or multimedia design. The student completes an independent project, meeting with the instructor on a weekly basis. Prereq.: ART 2691. 3 s.h.

4896. Art and Technology Internship. An application of theories and practices in the field of art and technology within a professional work environment. Admission is based on preparation, portfolio, GPA, competitive interview, and the availability of internship location. Prereq.: ART 2691. 3 s.h.

5840. Topics in Ancient Art. The art and architecture of the ancient cultures of the Mediterranean region and the Near East. Topics vary by semester, and include Egypt, the Ancient Near East, Greece, and Rome. May be taken twice if content is different. Prereq.: Junior standing. 3 s.h.

5850. Topics in Painting and Drawing. Selected topics in advanced painting and drawing. Specific content varies by semester and includes Landscape and Interiors; Portraiture; and Personal Narrative. May be repeated with a different topic for a total of three times. Prereq.: Art 2650 or portfolio presentation and permission of instructor. 3 s.h.

5860. Topics in Design. Selected topics in graphic design including typography, layout and computer applications. May be repeated for a total of three times with different topics. Prereq.: Permission of instructor and portfolio. 3 s.h.

5873. Topics in Advanced Photography. Selected technical and aesthetic photographic topics using a variety of approaches for advanced fine-art applications. May be repeated with a different topic for a total of three times. Prereq.: ART 3703-Jr. 3 s.h.

5881. Twentieth Century Art to 1960. A survey of the visual arts history of the 20th century beginning with its 19th century roots. The influential artists, movements, and motivating theories will be covered against a backdrop of world events. Primary emphasis is placed upon French Impressionism, German Expressionism, Fauvism, Surrealism, and American Abstract Expressionism. Prereq.: ART 1542 or permission of instructor. 3 s.h.

5882. Twentieth Century Art from 1960. A survey of the visual arts history of the late 20th century beginning with those ideas and trends which followed Abstract Expressionism. Beginning with the late 1950s every principle artistic movement from Pop through post-Modernism will be explored against a backdrop of Post-War world events. Prereq.: ART 1542 or permission of instructor. 3 s.h.

ASTRONOMY—ASTR
Department of Physics and Astronomy

The following has been approved as a General Education course in the domain of Natural Sciences: 1504, Descriptive Astronomy.

Lower-Division Courses

1504. Descriptive Astronomy. Scientific method, introduction to modern understanding of the universe, astronomy and society, humanity’s place in the universe. Astronomical observing methods, the solar system, stars and star systems, galaxies, cosmology. Recent astronomical discoveries. 3 s.h.

1504L. Astronomy Laboratory. Telescope and Planetarium laboratory work designed to supplement...
ASTR 1504. Measurement techniques and deductive methods to determine distance and size of astronomical objects. Three hours per week. Prereq. or concurrent: ASTR 1504. 1 s.h.

2609. Moon and Planets. A detailed discussion of the moon and planets, with particular emphasis on the geology of the moon. Prereq.: ASTR 1504 or GEOL 1505. 3 s.h.

Upper-Division Courses

3711, 3712. Astrophysics 1, 2. The application of physical principles to the study of the stars and planets; stellar distances and dimensions; stellar spectra and chemical composition; nuclear reactions and evolution of stars; the Milky Way and other galaxies; cosmology. Prereq.: PHYS 2611 and MATH 2673. Must be taken in sequence. 3-3 s.h.

4811, 4812. Observational Astronomy 1, 2. Photometric, photographic and CCD imaging techniques, spectroscopy, methods of data reduction. Some night observatory work included. Prereq.: PHYS 2611 and MATH 2673. Must be taken in sequence. 3-3 s.h.

4815. Undergraduate Astronomy Research. Research conducted under the direction of a faculty member. May be repeated to a maximum of 6 s.h. The grading is Traditional/PR. Prereq.: PHYS 3702 and 3704. 3 s.h.

BIOLOGICAL SCIENCES—BIOL

Department of Biological Sciences

The following has been approved as a General Education class in the area of Natural Sciences: 1505, Biology and the Modern World; in the domain of Selected Topics. 3718, Women, Science, and Technology. The following courses have been approved as substitutes in the domain of Natural Science. However, they are higher-level courses than the standard General Education courses; students should consult their advisors about taking them. They are: 1545, Allied Health Anatomy and Physiology; 1551, Anatomy and Physiology 1; 1552, Anatomy and Physiology 2; 2601, Principles of Biology 1; 2602, Principles of Biology 2.

Lower-Division Courses

1504. Human Evolution and Genetics. Mendelian genetics as it applies to humans and evolutionary history, including the genetic problems and evolutionary relationships of humankind. Not applicable to the biology major. 3 s.h.

1505. Biology and the Modern World. Biology applied to critical issues of today's society. Focus on the scientific method as relevant to modern biology issues. Not applicable to the Biology major. 3 s.h.

1505L. Biology and the Modern World Laboratory. Student investigations in biological phenomena using a variety of laboratory approaches focused on a single theme or concept using the scientific method. Satisfies the Natural Science Laboratory requirement. Not applicable to the Biology major. 1 s.h.

1545/1545L. Allied Health Anatomy and Physiology. Explores the structure and function of the human body and its organ systems. Diseases and their relationship to various physiological systems. Four hours lecture, two hours lab. Not applicable to the Biology major. Prereq.: High school biology and chemistry, or equivalent. 5 s.h.+0 s.h.

1551/1551L. Anatomy and Physiology 1. Structure, function, and clinical applications of the integument, musculature, skeletal, and nervous systems. Targeted for students in nursing and associated health professions. Three hours lecture, two hours lab. Must be taken in sequence with BIOL 1552. Not applicable to the Biology major. Prereq.: BIOL 1551. 4 s.h.+0 s.h.

1552/1552L. Anatomy and Physiology 2. Structure, function, and clinical applications of the endocrine, cardiovascular, respiratory, renal, digestive, and reproductive systems. Targeted for students in nursing and associated health professions. Three hours lecture, two hours lab. Not applicable to the Biology major. Prereq.: BIOL 1551. 4 s.h.+0 s.h.

1560. Microbiology for the Health Professions. Characteristics, epidemiology, and pathology of viruses, bacteria, and protozoa of medical significance. Other topics dealing with the control of microorganisms and food microbiology will be covered. Not applicable to a biology major. Two hours of lecture. Must be taken concurrent with BIOL 1560L or substitute. 2 s.h.

1560L. Microbiology Laboratory for Health Professions. Microscopy, cultivation, and identification of bacteria. Microbiology of foods. Disinfection techniques. Not applicable to a biology major. Three hours of laboratory per week. Must be taken concurrent with BIOL 1560. 1 s.h.

2601/2601L. General Biology: Molecules and Cells. The chemical and physical foundations of life, structure and function of cells and organelles, metabolism, basic molecular biology and inheritance, and principles of evolution. Three hours of lecture, three hours of lab per week. 4 s.h.+0 s.h.

2602/2602L. General Biology: Organisms and Ecology. The structure and function of plants and animals. Examination of the structure and functioning of organismic communities and ecosystems. Required of all biological sciences majors. Three hours of lecture, three hours of lab per week. Prereq.: BIOL 2601. 4 s.h.+0 s.h.

2699. Medical Applications Case Studies. Applications of biological and chemical concepts in the practice of medicine. May be repeated to a total of 3 s.h. Prereq.: Admission to the NEOUCOM-YSU program or consent of the department chairperson. 1 s.h.
Upper-Division Courses

3701. Biomathematics Seminar. Introduction to interdisciplinary research in Biology and Mathematics. Topics include current research by faculty and students, cross disciplinary communication, report writing, technical presentations, literature reading, laboratory techniques and safety. May be repeated once. Listed also as MATH 3701. Prereq.: MATH 1571 or BIOL 2601 or BIOL 2602. 1 s.h.

3702/3702L. Microbiology. Fundamentals of the biology of microbes. The principles of microbial structure, function, reproduction, metabolism, genetics, phylogeny, host-parasite relationships, and immunity. Fundamental technical skills acquired through laboratory experiences. Three hours lecture, three hours laboratory. Prereq.: BIOL 2601 and concurrent enrollment in BIOL 3702L. 4 s.h.+0 s.h.

3703. Clinical Immunology. Fundamentals of immunology, including both humoral and cellular immunological responses. Applications of immunological methods in medical research and patient treatment. Prereq.: BIOL 2601. Recommended: BIOL 3702. 3 s.h.

3703L. Clinical Immunology Laboratory. Laboratory work includes VDRL, ASO, febrile, latex, pregnancy, and viral tests. Techniques include flocculation, precipitation, complement fixation, and titration procedures used in a clinical laboratory. Three hours per week. Concurrent with BIOL 3703. Also listed as CLTC 3703L. 1 s.h.

3705/3705L. Introduction to Human Gross Anatomy. Overview of human structure, using a regional approach to examine the functional anatomy of the musculoskeletal, nervous, and visceral systems. Three hours lecture, two hours lab. Prereq.: BIOL 2602. 4 s.h.+0 s.h.

3710/3710L. Mammalian Anatomy. Composite study of the anatomical systems of mammals, based on the cat. One hour lecture, four hours lab. Prereq.: BIOL 2602. 3 s.h.+0 s.h.

3711. Cell Biology: Fine Structure. Theoretical and conceptual background necessary for understanding cellular structure-function relationships. Basic architecture of the cell, various organelles. The basic behavior of cells analyzed illustrating the integrative interaction of organelle systems. Prereq.: BIOL 2601. 3 s.h.

3716. Molecular Microbiology I: Nucleic Acids. Isolation and characterization of DNA and RNA from microbes with an emphasis on cloning, sequencing, structural characterization, expression, and phylogenetic analysis. Two hours lecture, six hours laboratory. Prereq.: BIOL 3702 and permission of the instructor. 4 s.h.

3717. Molecular Microbiology II. Protein Biology. Develops the analytical skills necessary to conduct molecular biology research in the area of protein analysis and proteomics. Two hours lecture and four hours laboratory per week. Prereq.: BIOL 3702. 4 s.h.

3718. Women, Science, and Technology. An overview of the role women have played in scientific and technological advances. Problems unique to women entering scientific professions will be addressed, information about scientific and technical careers and job opportunities and contacts with professionals in the community will be provided. This course does not count toward the Biology major. Cross-listed with CHEN 3718. Prereq.: ENGL 1550; one Societies and Institutions General Education course, one Natural Sciences General Education course, or substitutes. 3 s.h.

3721. Genetics. Genetic material, reproductive cycles, sex determination, mitosis, meiosis, mendelism, probability linkage, genes in populations, mutation, evolution. Prereq.: BIOL 2601. 3 s.h.

3730/3730L. Human Physiology. Experimental approach to the study of human physiology that explores regulation of metabolism and homeostasis by the neural, endocrine, cardiovascular, respiratory, renal, and digestive systems. Four hours lecture, three hours lab. Prereq.: BIOL 2602. 5 s.h.

3740/3740L. Plant Diversity. Examination of the diversity of plant species and their interaction with the environment; the morphology, reproduction and ecology of a wide variety of vascular and nonvascular plants. Three hours lecture, two hours lab. Prereq.: BIOL 2602. 4 s.h.+0 s.h.

3741/3741L. Animal Diversity. Examination of the diversity of animal species and their interaction with the environment; the morphology, reproduction and ecology of a wide variety of vascular and nonvascular plants. Three hours lecture, two hours lab. Prereq.: BIOL 2602. 4 s.h.+0 s.h.

3745. Plant Physiology. Examination of the physiology of higher plants with emphasis on the whole plant aspects as well as on biochemical, cellular and molecular aspects of how plants function including transport and translocation of water and solutes, photosynthesis and respiration, growth and development. Prereq.: BIOL 2602. 3 s.h.

3762/3762L. Field Botany. Identification, ecology, and significance of local plants. Two hours lecture, four hours lab. Prereq.: BIOL 2602. 4 s.h.+0 s.h.

3775/3775L. Comparative Vertebrate Anatomy. Comparison of morphology of vertebrates, emphasizing evolutionary development of organ systems. Two hours lecture, three hours lab. Prereq.: BIOL 2602. 3 s.h.+0 s.h.

3780/3780L. Evolutionary Ecology. Examination of ecological principles and underlying biodiversity, dynamics of populations and ecosystems, the origin, maintenance, and loss of genetic variation, and the causes of extinction and speciation. Three hours lecture, four hours lab. Prereq.: BIOL 2602. 5 s.h.+0 s.h.

3789. Technology and Society. A critical exploration of how societal needs affect the creation of technologies and how technology affects society. An
interdisciplinary approach in examining the complex interactions between humans and their tools. Prereq.: BIOL 2601 or ENGR 1550 or SOC 1500, and junior standing. Listed also as SOC 3789 and CEEN 3711. 3 s.h.

4800. Bioinformatics. Fundamentals of the theories and applications of bioinformatics. Topics include the tools and databases used to analyze DNA and protein sequences and the evolutionary relationships between sequences from different organisms. Three hours of lecture, two hours of lab per week. Prereq.: BIOL 3721. 4 s.h.

4801/4801L. Environmental Microbiology. The occurrence, detection, and control of microbes, including bacteria and viruses, in food, water, and the environment. Two hours lecture, four hours lab. Prereq.: BIOL 3702. 4 s.h.+0 s.h.

4805/4805L. Ichthyology. Ecology, evolution, and taxonomy of fishes, especially those of Midwestern United States. Two hours lecture, two hours lab. Prereq.: BIOL 3741. 3 s.h.+0 s.h.

*4811/4811L. Comparative Biomechanics. Overview of biomechanical principles involved with the structure and function of animals. Topics include mechanical properties of biomaterials, comparative muscle architecture and physiology, and locomotor mechanisms of human walking and running. Three hours lecture, two hours lab. Prereq.: BIOL 2602 or BIOL 3705, and PHYS 1501 or 2610. 4 s.h. + 0 s.h.

4813/4813L. Vertebrate Histology. The microscopic study of mammalian tissue. Two hours lecture, three hours lab. Prereq.: BIOL 3711 or 3730. 3 s.h.+0 s.h.

4819/4819L. Taxonomy of Flowering Plants. Phylogenetics, systematics, geographical distribution, and evolutionary development of herbaceous plants; taxonomic systems based on morphology and biochemistry. Laboratory exercises include the writing of a genus revision. Two hours lecture, four hours lab. Prereq.: BIOL 3740 or consent of instructor. 4 s.h.+0 s.h.

4822. Principles of Pharmacology. Overview of drugs used for the diagnosis, prevention, and treatment of disease. Topics include mechanisms of action, therapeutic and adverse drug effects, and clinical uses for each drug category. Prereq.: BIOL 2630. 3 s.h.

4823. Cancer Biology. This course will present the student with the comprehensive body of knowledge concerning cancer biology. It will draw upon all areas of biological sciences; from environmental causal factors to the molecular mechanisms underlying tumor cell formation and development of malignant tumors. The scientific basis of therapies will be explored. Prereq.: Junior standing. 2 s.h.

4829. Microbial Physiology. This course synthesizes material covered in introductory microbiology and cell and molecular biology. Topics include biochemical synthesis, molecular biology, bacterial genetics, gene expression, energy production photosynthesis, bacteriophages and microbial stress response. Prereq.: BIOL 3702 or 3711. 3 s.h.

4830/4830L. Functional Neuroanatomy. An examination of the structure, function, integration, and cellular control of the brain and spinal cord. Three hours lecture, two hours lab. Prereq.: BIOL 3730. 4 s.h. + 0 s.h.

4834/4834L. Advanced Systems Physiology 1. Examination of advanced human physiology through a detailed study of selected body systems. Systems examined may include the neuromuscular, cardiovascular, and renal systems, exchange dynamics among body fluid compartments, and acid-base balance. Three hours lecture, three hours lab. Prereq.: BIOL 3730. 4 s.h.+0 s.h.

4835/4835L. Advanced Systems Physiology 2. Examination of advanced human physiology through a detailed study of selected body systems. Systems examined may include the respiratory and gastrointestinal systems, metabolism and temperature regulation. Three hours lecture, three hours lab. Prereq.: BIOL 3730. 4 s.h.+0 s.h.

4836. Cell Biology: Molecular Mechanisms. The relationship of molecular structure to cellular function. Concepts will be presented integrating the biochemical dynamics of bio-membrane systems including receptors, bioenergetics, and the physiochemical environment. Three hours of lecture. Prereq.: BIOL 3711 or consent of instructor. 3 s.h.

4837. Cell Biology: Protein Biology Laboratory. The relationship of nucleic acid structure and protein structure will be studied in hands on series of laboratory experiments. Concepts presented will integrate the use of modern molecular biology techniques with contemporary approaches to current problems in biology. Three hours of laboratory. Prereq.: BIOL 3711 or consent of instructor. 1 s.h.

4839. Selected Topics in Physiology. Advanced study of topics in physiology not covered in depth in other physiology courses. May be repeated twice up to 2 s.h. Prereq.: BIOL 3730. 1 s.h.

4841/4841L. Animal Parasitology. Biological implications of parasitism. Diagnosis, morphology, and life histories of the parasites of humans and domestic animals. One hour lecture, four hours lab. Prereq.: BIOL 3702. 3 s.h.+0 s.h.

4848. Biology of Fungi. Examination of fungal and fungal-like organisms with emphasis placed upon their taxonomy, phylogenetic relationships, structure, function, physiology, genetics, and ecology. Exploration of their role in agriculture, medicine, and scientific research. Prereq.: BIOL 3702 or graduate standing. 3 s.h.

4849. Medical Mycology. Survey of infectious diseases caused by fungi including their etiology, epidemiology, histopathology, diagnosis, and treatment. Host-parasite interactions and the environmental and molecular factors that contribute to establishment of fungal disease in humans and animals. Prereq.: BIOL 3702. 3 s.h.
4850. Problems in Biology. Special biological problems for which materials and equipment are available and for which the student is qualified. Prereq.: Senior standing or consent of the chairperson. 1-2 s.h.

4861. Senior Biology Capstone Experience. A capstone experience for the major in Biological Sciences (B.A. or B.S. degree). Prereq.: Senior status in Biological Sciences, completion of at least one 3700 and 4800 level laboratory course. 2 s.h.

4866/4866L. Dendrology. Identification, ecology, and significance of local plants. Two hours lecture, four hours lab. Prereq.: BIOL 3740 or 3762. 4 s.h.+0 s.h.

4871/4871L. Entomology. Introduction to the morphology, physiology, development, and control of insects. Survey of insect orders and families. Two hours lecture, four hours lab. Prereq.: BIOL 3741. 4 s.h.+0 s.h.

4882. Biomathematics Research. Interdisciplinary and individualized study of a topic in biology and mathematics. Student project mentored jointly by faculty in biology and mathematics. May be repeated once. Grading is Traditional/PR. Listed also as MATH 4882. Prereq.: MATH/BIOL 3701, senior status and permission of the department chairperson. 1-2 s.h.

4890. Molecular Genetics. Examination of DNA structure, DNA replication, transcription, translation, RNA processing, and gene control in both prokaryotes and eukaryotes. Prereq.: BIOL 3711 or 3721. 3 s.h.

4890L. Molecular Genetics Laboratory. Introduction to basic molecular techniques such as transformation, use of restriction enzymes, agarose gel electrophoresis, and polymerase chain reaction (PCR). Three hours lab. Prereq.: BIOL 4890 or concurrent. 1 s.h.

4898. Research in Physiology. A comprehensive laboratory course under the supervision of a faculty mentor. Course may be repeated once for a total of 6 s.h. Prereq.: BIOL 3730, CHEM 3720, and acceptance into the Certificate in Anatomy and Physiology program. 3 s.h.

4899. Internships in the Biological Sciences. Internships integrate theory and practice through supervised learning experiences. Internships are available in any area of the biological/biomedical sciences, including field research and analytical, clinical, or research laboratories. Students submit a proposal of the internship, maintain a journal of experiences, and submit a final project paper. Prereq.: Junior or senior standing in Biological Sciences and permission of the chairperson. 2 s.h.

5804. Aquatic Biology. Ecological, physical, and chemical aspects of aquatic ecosystems. Study of the interaction between organisms and their environment. Prereq.: BIOL 3780. 3 s.h.

5806. Field Ecology. Field study involving quantitative methods for the collection, analysis, and interpretation of ecological data in populations and communities. Pre-field trip lectures, specified experiences and oral presentation of the independent study project. Required off-campus travel. Field conditions may be rigorous and/or primitive. Prereq.: BIOL 3780. 4 s.h.

5809. Concepts of Developmental Biology. The underlying cellular and molecular mechanisms of embryonic development. Cellular interactions as they relate to developmental processes. Prereq.: BIOL 3711. 3 s.h.

5811/L. Ornithology. Structure, physiology, behavior, ecology, and evolution of birds. Natural history of common bird species and important bird groups, especially those in Ohio. Basic methods and skills for field study of birds. Three hours lecture, three hours lab. Prereq.: BIOL 3741. 4 s.h.

5823. Advanced Eukaryotic Genetics. Mechanisms and control of eukaryotic DNA replication, current advances in understanding the genetics basis of cancer and other genetic diseases, problems and benefits of the various eukaryotic genome projects (human and others), gene therapy and genetic engineering in animals and plants. Prereq.: BIOL 3721 and 4890. 3 s.h.

5824/5824L. Behavioral Neuroscience. Explores the biological basis of human experience and behavior. Topics include basic neuroanatomy and neuropharmacology, emotions, learning and memory, sleep and biological rhythms, reproductive behavior, and communication. Three hours lecture, three hours lab. Prereq.: BIOL 3730. 4 s.h.+0 s.h.

5827. Gene Manipulation. Techniques of modern molecular biology including the use of restriction enzymes, plasmid and plasmid vectors, Southern blots and the polymerase chain reaction (PCR). Introduction and manipulation of foreign DNA in bacterial and eukaryotic systems. Six hours lab. Prereq.: BIOL 4890. 2 s.h.

5832. Principles of Neurobiology. Topics include cell and molecular biology of the neuron, properties of excitable membranes, functional neuroanatomy, integrated motor control, sensory signal transduction, developmental neurobiology, mechanisms of disease processes, and higher cortical function. Prereq.: BIOL 3730. 4 s.h.

5833. Mammalian Endocrinology. Detailed examination of the hormones of the hypothalamus, pituitary, thyroid, adrenal pancreas, gonads, and other organs with putative endocrine function. Focus on the physiological functions of hormones and their mechanisms of action with emphasis on the human. Prereq.: BIOL 3730. 3 s.h.

5840. Advanced Microbiology. Molecular mechanisms for virulence of pathogenic organisms. Prereq.: BIOL 3702 or equivalent. 3 s.h.

5844. Physiology of Reproduction. Current concepts of reproductive processes and their physiological control in mammalian systems. Prereq.: BIOL 3730. 3 s.h.
5853. Biometry. Application of fundamental theory and procedures to the statistical analysis of biological data. Prereq.: 20 s.h. of Biological Sciences. 3 s.h.

5861. Animal Behavior. Detailed examination of a variety of topics necessary for understanding animal behavior. Historical approaches to animal behavior, evolution and behavior genetics, physiology of behavior, behavioral ecology, and social organization and mating systems. Prereq.: BIOL 3741 or permission of instructor. 3 s.h.

5868/5868L. Gross Anatomy 1. Regional study of the human body with emphasis on functional and topographic anatomy and clinical correlations. Two hours lecture-demonstration, four hours lab. Prereq.: Admission to the YSU Physical Therapy program or permission of instructor. 4 s.h.+0 s.h.

5869/5869L. Gross Anatomy 2. Regional study of the human body with emphasis on functional and topographic anatomy and clinical correlations. Two hours lecture-demonstration, four hours lab. Prereq.: BIOL 5868. 4 s.h.+0 s.h.

5888/L. Environmental Biotechnology. Lectures will cover the use of microbes for solving environmental problems. In the laboratory, teams of students will design and implement experiments in bioremediation. This course is intended for students in biology, environmental studies, chemistry, and engineering. Two hours lecture and four hours lab. Prereq.: CHEM 3719 or CEEN 3736. 4 s.h.

BUSINESS ADMINISTRATION—BUS
College of Business Administration

1500. Exploring Business. Introduction to the world of business with a focus on various functional areas and career opportunities. Development of the requirements of the business professional including team work, information gathering and communication skills. Prereq.: Eligible to enroll in English 1550. 3 s.h.

3715. Principles of International Business. Study of international business environment and the factors affecting the international operations of firms. Students will develop an understanding of global business opportunities, responsive strategies, and operations; apply course concepts/theories to current issues in international business, and develop an understanding of the complexities of managing cross-national cultural differences. Prerequisites: BUS 1500; 63 semester hours of course work including WCBA tool courses (ENGL 1551, MATH 1552, ECON 2610, 2630, 3790, ACCT 2602, 2603 with grades of “C” or better); overall GPA of 2.5 or higher; WCBA approved upper-division standing. 3 s.h.

3720. Nonprofit Leadership. The roles of nonprofit organizations in meeting human needs through philanthropy and focus on mission. Understanding of board development, fundraising, management, programming, and careers in nonprofit organizations. Prereq.: ENGL 1551 and junior standing. 3 s.h.

3740. Nonprofit Leadership Community Service. Collaborative community service project with nonprofit professionals to meet specific goals. Taken in each semester of junior/senior years for certificate requirements of American Humanics. Different course theme and project each semester for service-learning experiences. Prereq.: Junior standing. 1 s.h.

3780. Financial Management and Fundraising for Nonprofit Organizations. Fiscal, budgetary, development and fundraising aspects of nonprofit organizations. Discussion, analysis, implementation of financing, budgeting, development, and fundraising theories and techniques applicable to planning, operating, and developing nonprofit organizations. Prereq.: ENGL 1551 and junior standing. 3 s.h.

4840. Nonprofit Leadership Internship. Students work at a nonprofit organization to achieve specific goals agreed upon by the student, the nonprofit organization, and the campus director of the Center for Nonprofit Leadership. The student must work at least 300 hours during the semester. The course must be taken concurrently with BUS 4841. Prereq.: Permission of campus director of the Center for Nonprofit Leadership. 3 s.h.

4841. Nonprofit Leadership Seminar. Review of the competencies associated with the American Humanics certificate to ensure that the students seeking the certificate have fulfilled all of the competencies required. The course must be taken in conjunction with the nonprofit internship required of the certificate. The seminar will meet for two hours each week. Prereq.: Permission of campus director of the Center for Nonprofit Leadership. 1 s.h.

CHEMICAL ENGINEERING—CHEN
Department of Civil/Environmental and Chemical Engineering

Lower-Division Courses

2630. Applied Engineering 1. Physics, chemistry, and calculus applications to problems in general engineering with focus on EIT/FE exam questions, strength and properties of materials. Topics include: mechanics, dynamics, kinematics, conservation equations. Three-hour computational lab. Prereq.: PHYS 2610 or permission of instructor. 1 s.h.

2631. Applied Engineering 2. Physics, chemistry, and calculus applications to problems in general engineering with focus on EIT/FE exam questions, strength and properties of materials. Topics include: wave phenomena (light, sound), electricity (circuits), magnetism, materials, strength of materials. Three-hour computational lab. Prereq.: CHEN 2630 or permission of instructor. 1 s.h.
3750. Computer Methods in Chemical Engineering. Application of computational software packages and spreadsheets to solve chemical engineering problems. Utilization of process simulation packages. Real-time computing applications in laboratory automation. Prereq.: ENGR 1560 or consent of instructor. 2 s.h.

3681. Industrial Stoichiometry. To aid the nonchemical engineer to organize, analyze, and effectively utilize the information inherent in chemically stoichiometric relationships, as they apply to actual plant situations. Prereq.: MATH 1571, CHEM 1516. 3 s.h.

3683. Chemical Engineering Principles 1. Engineering units and dimensions. Methods of analysis and measurement. Perfect gas and real gas relationships. Material and energy balances for both non-flow and flow systems. Prereq.: MATH 1571, CHEM 1515. 3 s.h.

Upper-Division Courses

3718. Women, Science, and Technology. An overview of the role women have played in scientific and technological advances. Problems unique to women entering scientific professions will be addressed, information about scientific and technical careers and job opportunities and contacts with professionals in the community will be provided. Cross-listed with BIOL 3718. Prereq.: ENGL 1550. 3 s.h.

3721. Engineering Plastics. Preparation, characterization, manufacture, properties and applications of commercial polymers. Prereq.: CHEN 2684 and 3719; or consent of instructor. 3 s.h.

3726. Elementary Nuclear Reactor Engineering. Basic engineering science to serve as background material for nuclear reactor design. Nuclear fission as an energy source. Reactor use and classification. Comprehensive discussion of reactor design prob-
tion. Derivation of the design equations for the above processes, and applications of the design equations to equipment design. Prereq.: CHEN 3787. 3 s.h.

4815L. Unit Operations Laboratory 2. Experiments in absorption, cascade operations, reaction kinetics, mixing and other chemical engineering operations employing industrial and pilot plant size equipment and instrumentation. Treatment of experimental data, correlations and comparison with theory. Oral presentations and preparation of technical reports. Three hour laboratory. Prereq.: CHEN 4815. 1 s.h.

4822. Reinforced Polymer Structures. Survey of raw materials, manufacturing methods, and design of products utilizing reinforcing materials combined with an elastomer or polymer binder. Prereq.: CHEN 2684 or consent of instructor. 3 s.h.

4840. Biochemical Engineering Fundamentals. Design of biological reactors, bioremediation schemes, methods for the purification and mass production of chemical species from living organisms or cultures, extraction, and fermentation. Technologies and processing of recombinant DNA, antibiotics, antibodies, vitamins, steroids, and methane are included. Essentials of microbiology, biochemistry, and genetics will precede industrial applications. Prereq.: junior standing. Prereq.: CHEN 2684 or consent of instructor. 3 s.h.

4845. Chemical Engineering Analysis. Modeling of processes from unit operations, transport phenomena, and thermodynamics. Topics include the determination of limiting and generalized operating conditions, estimations of operating variables, and process balance of energy, mass, and momentum transfer. Prereq.: CHEN 2684 or consent of instructor. 3 s.h.

4880, 4881. Chemical Reactor Design 1 and 2. Chemical reaction equilibria. Theoretical developments and methods of interpreting experimental data pertaining to chemical kinetics. General design principles and construction features of reactors with application of these principles to the design of specific reactors. Prereq.: CHEN 3772 for 4880. CHEN 4880 for 4881. 3+3 s.h.

4882L. Process Dynamics Laboratory. Experimental studies in process dynamics and control. Treatment of experimental data with correlation and comparison with theory. Oral presentations and preparation of technical reports. Three hours of laboratory. Prereq.: CHEN 4882. 1 s.h.

4887. Process and Plant Design 1. An examination of engineering economic analysis to include: cost estimation, profitability, optimum design, principles of fixed and operating costs, materials and site selec-
5850. Industrial Processes. A fundamental approach to the design of industrial chemical processes. Emphasis upon flow-charting, chemical reactions, separations involved, thermodynamics, and economic considerations. Food and pharmaceutical processing is a major focus. Prereq.: CHEN 2694 or consent of instructor. 3 s.h.

5886. Nuclear Reactor Design. The steady state reactor core; four-factor equation, resonance escape probability, neutron flux distribution in various geometrics, two-group and multigroup theories. Transient reactor behavior and control; effect of delayed neutrons, fission product poisoning, nuclear fuels, nuclear heat transfer and burnout problems, reactor economy; fuel burnup and power cost. Thermal breeder and fast reactors. Neutron flux distribution measurements. Radiation detection and monitoring. Prereq.: CHEN 3726 or consent of instructor. 3 s.h.

CHEMISTRY—CHEM
Department of Chemistry

The following has been approved as a General Education course in the domain of Natural Sciences: 1500. Chemistry in Modern Living. The following courses have been approved as substitutes in the domain of Natural Science. However, they are higher-level courses than the standard General Education courses; students should consult their advisors about taking them. They are: 1505, Allied Health Chemistry 1, 1506, Allied Health Chemistry 2; 1515, General Chemistry 1; 1516, General Chemistry 2.

Lower-Division Courses

1500. Chemistry in Modern Living. Introduction to basic chemical concepts, the scientific method, and the impact of chemistry on human life and society. Examples may include water treatment, air quality, plastics, drugs, cosmetics, energy resources, food, and the chemical basis of life. Not intended for Chemistry majors. 3 s.h.

1500L. Chemistry in Modern Living Laboratory. Introduction to basic laboratory techniques designed to supplement CHEM 1500. Three hours per week. Concurrent with CHEM 1500. 1 s.h.

1501. An Introduction to Chemistry. Metric units, dimensional analysis, chemical nomenclature, the mole concept, chemical stoichiometry. Emphasis on problem solving and the mathematics required for success in the study of chemistry. For students without high school chemistry and others needing preparation for CHEM 1505 or CHEM 1515. Three hours lecture, no laboratory. Prereq: Math 1504 or concurrent or one unit each of high school algebra and geometry. 3 s.h.

1505/1505L. Allied Health Chemistry 1. Introduction to the principles of chemistry including atomic structure, bonding, nomenclature, chemical calculations, chemical reactions, gas laws, solutions, acids and bases, and equilibrium. Intended for majors in allied health and other applied sciences. Two hours lecture, three hours lab-discussion. Prereq: CHEM 1501 or equivalent, MATH 1504 or equivalent. Concurrent CHEM 1505L. 3 s.h.+0 s.h.

1505R, 1506R. Recitation for Allied Health Chemistry 1, 2. Discussion and problem solving exercises to complement and enhance study in CHEM 1505 and 1506. Concurrent with CHEM 1505 and 1506. 1+1 s.h.

1506/1506L. Allied Health Chemistry 2. Fundamentals of organic and biological chemistry including applications to the human organism. Two hours lecture, three hours lab-discussion. Prereq.: CHEM 1505. Concurrent: CHEM 1506L. 3 s.h.+0 s.h.

1515/1515L. General Chemistry 1. An introduction to the fundamental principles of chemistry, including measurement and calculation; chemical stoichiometry; the properties of gases; atomic and molecular structure; bonding; thermochemistry; and periodic properties. Intended for majors in the natural sciences and engineering. Three hours lecture, three hours lab-discussion. Prereq.: CHEM 1501 or equivalent; MATH 1513 or equivalent. Concurrent: 1515L; 1515R if major or repeating 1515. 4 s.h.+0 s.h.

1516/1516L. General Chemistry 2. A continuation of the study of the principles of chemistry, including solution properties; acids and bases; chemical equilibrium; thermodynamics; reaction kinetics; and electrochemistry. Intended for majors in the natural sciences and engineering. Three hours lecture, three hours lab-discussion. Prereq.: CHEM 1515; Concurrent: 1516L; CHEM 1516R if major or repeating 1516. 4 s.h.+0 s.h.

2602. African and African-American Contributions to Science. Introduction to basic science concepts, the scientific method, and the impact of chemistry as a central science on society. Examples include works of African-American scientists. 3 s.h.

2604/2604L. Quantitative Analysis. Chemical equilibrium, stoichiometry, theory of errors, and volumetric and gravimetric procedures as applied to quantitative determinations. Introduction to electroanalytical, chromatographic and spectrophotometric methods. Emphasis on development of technique. Three hours lecture, six hours lab. Prereq.: CHEM 1516. 5 s.h.+0 s.h.

2650. Introduction to Undergraduate Research. Introduction to the methods of chemical research under the direction of a faculty member. May include literature search and analysis, instructional laboratory development, and/or original basic or applied research. May be repeated to a maximum of 4 s.h. Prereq. or concurrent: CHEM 1516 and approval of department chairperson. 1-2 s.h.
Upper-Division Courses

3706/3706L. Organic and Biochemistry for the Allied Health Sciences. Fundamentals of organic and biochemistry with special emphasis on intermediary metabolism This course is only applicable to degree programs in the College of Health and Human Services Credit cannot be received for both CHEM 1506 and 3706. Three hours lecture, three hours lab/discussion. Prereq.: CHEM 1505/1505L. 4 s.h. + 0 s.h.

3719/3719L. Organic Chemistry 1. Organic compounds, reactions and theories. Typical preparations and procedures of analysis. Three hours lecture, three hours lab-discussion. Prereq.: CHEM 1516. 4 s.h. + 0 s.h.

3720/3720L. Organic Chemistry 2. Organic compounds, reactions and theories. Typical preparations and procedures of analysis. Three hours lecture, three hours lab-discussion. Prereq.: CHEM 3719. 4 s.h. + 0 s.h.

3729. Inorganic Chemistry. Fundamental principles underlying the structure, bonding, and properties of the elements and molecular, solid state, and coordination compounds. Prereq. or concurrent: CHEM 3739. 3 s.h.

3739/379L. Physical Chemistry 1. Principles and applications of thermodynamics and kinetics to chemical systems. Three hours lecture, three hours lab-discussion. Prereq.: CHEM 2604 or CHEN 3771 concurrently; PHYS 2611/2611L; MATH 1572. 4 s.h. + 0 s.h.

3740/3740L. Physical Chemistry 2. Principles and applications of quantum mechanic and statistical thermodynamics to chemical systems. Three hours lecture, three hours lab-discussion. Prereq.: CHEM 3739; MATH 2673. 4 s.h. + 0 s.h.

3764. Chemical Toxicology. Introduction to the clinical, forensic, industrial, and environmental aspects of chemical toxicology. Therapeutic and toxic limits of drugs. Actions, controls and treatment of poisons and environmental agents. Prereq.: CHEM 3720 and either CHEM 2604 or permission of department chair. 3 s.h.

3785L. Biochemistry Laboratory. Analysis and separation techniques of biochemistry. Three hours lab-discussion. Prereq.: CHEM 2604. Prereq. or concurrent: CHEM 3785. 1 s.h.

3786. Biochemistry 2. Intermediary metabolism and biochemical information pathways. Prereq.: CHEM 3785. 3 s.h.

3790. Undergraduate Seminar. Students participate in departmental seminars and present a seminar to the class. May be repeated once. Prereq. or concurrent: CHEM 2604 and 3720. 1 s.h.

4850. Chemistry Research. Research planning, design, and execution including literature survey techniques, proposal writing, and critical scientific analysis. The student gives an oral presentation of a research proposal for CHEM 4850L, or on another topic as approved by the instructor. Prereq.: CHEM 2604 or 3719 and approval of department chairperson. 1 s.h.

4850L. Chemistry Research Laboratory. Research participation under the direction of a faculty member. The student prepares an acceptable written report on the completed project. May be repeated to a maximum of 5 s.h. Prereq. or concurrent: CHEM 4850 and approval of department chairperson. 2 s.h.

4860. Regulatory Aspects of Industrial Chemistry. Roles and responsibilities of industrial chemists. Industrial hygiene and safety. Industrial chemical processes, their waste products, their environmental effects, and the treatment of pollutants. Governmental regulations relating to waste disposal, product safety, occupational safety, resource conservation, environmental protection, and problems of awareness and compliance. Prereq.: CHEM 2604 and 3720. 1 s.h.

4891. Special Topics. Topics selected by the faculty from fields of current research interest or of special emphasis. May be repeated with different topics. 1-3 s.h.

5804/5804L. Chemical Instrumentation. The theoretical foundations of instrumental procedures and the use of instruments in analytical work. Two hours lecture, six hours lab. Prereq.: CHEM 3740. 4 s.h. + 0 s.h.

5821. Intermediate Organic Chemistry. An intermediate treatment of organic chemistry building on the principles introduced at the sophomore level. Emphasis on curved arrow notation in mechanism and the planning of organic syntheses. Structural analysis of organic compounds using NMR, IR and MS and the application of structural knowledge to questions of mechanism. Prereq.: CHEM 3720. 3 s.h.

5822/5822L. Advanced Organic Laboratory. An advanced approach to the applications of organic chemistry in the laboratory. Synthesis and purification of organic molecules using modern techniques, structure elucidation using spectroscopic techniques. Lecture discussion includes use of instrumentation, planning of practical syntheses, use of the primary chemical literature and safety in the laboratory. Two hours lecture, six hours lab. Prereq.: CHEM 3720. 4 s.h. + 0 s.h.
5830. Intermediate Inorganic Chemistry. Reactions and descriptive chemistry of transition metal, organometallic, and main-group compounds. Prereq.: CHEM 3729, 3740 (may be concurrent). 2 s.h.

5831. Inorganic Chemistry Laboratory. Preparation of typical inorganic compounds and their characterization. Six hours lab-discussion. Prereq. or concurrent: CHEM 3729 and 3739. 2 s.h.

5832/5832L. Solid State Structural Methods. The determination of structures of biological, organic, and inorganic materials in the solid state. Introduction to the crystalline state, defects, diffraction of waves, powder and single crystal diffraction methods of neutron and x-ray analysis, electron microscopy, and solid state NMR. Two hours lecture, three hours lab. Prereq.: CHEM 3740 or 3737 or consent of the chairperson. 3 s.h.+0 s.h.

5836. Quantum Chemistry. Basic principles of quantum chemistry, with applications to problems in molecular structure, spectroscopy and thermodynamics. Prereq.: CHEM 3740. 3 s.h.

5861/5861L. Polymer Science 1: Polymer Chemistry and Plastics. Preparation, characterization, structure-property relationships, morphology, and uses of the major commercial polymers. Two hours lecture, three hours lab. Prereq. or concurrent: CHEM 3720 and 3739 or 3737 or consent of the chairperson. 3 s.h.+0 s.h.

5862/5862L. Polymer Science 2: Polymer Rheology, Processing, and Composites. Polymer rheology, processing methods, and materials characterization. The effects of additives and the major classes of thermoplastic, thermoset, elastomeric, and composite materials. Two hours lecture, three hours lab. Prereq.: CHEM 5861 or consent of the chairperson. 3 s.h.+0 s.h.

5876. Enzyme Analysis. Advanced biochemistry laboratory focusing on the methods of enzyme purification and characterization. One hour lecture, two hours lab. Prereq.: CHEM 3785 or equivalent and 3785L or equivalent. 2 s.h.

CHILD AND FAMILY—CHFM

Department of Human Ecology

Lower-Division Courses

1514. Introduction to Early Childhood Education. Historical and theoretical foundations of early childhood education; overview of early childhood environments, relationships with children and families, and curricular issues. Includes 15 hours of field experience. 2 s.h.

1530. Infants and Toddlers: Development and Care. Infant and toddler development and the design of developmentally appropriate curriculum and caregiving environments for children conception to age three. Emphasis on the caregiver-child relationship. 3 s.h.

Learning will occur through observation, reflection, classroom discussions, focused reading, and practice in infant/toddler settings. Two hours lecture and three hours guided practice. 3 s.h.

2632. Child Health and Safety. Health care practices applied to child care in group facilities; home nursing skills for non-health personnel. Students receive certificates in first aid, communicable disease management, and child abuse detection and prevention. Prereq.: CHFM 1514 and HSC 1568. 2 s.h.

2633. Early Childhood: Integrating Development and Education. Knowledge and skills to plan curriculum and organize learning environments that are developmentally appropriate and responsive to the needs of a diverse population of children ages three to eight. Includes 10 hours of field experience. Prereq.: ENGL 1550. 3 s.h.

2650. Introduction to Assessment of Young Children. Principles of conducting developmentally appropriate assessments of behavior and development of young children; assessment purposes, strategies, and appropriate use of assessment information. Includes five hours of field experience. Prereq.: CHFM 2633. 3 s.h.

2664. Managing Classroom Behavior and Staff Relationships in Early Childhood Settings. Principles of effective classroom management in the early childhood classroom; emphasis on positive guidance strategies, the influence of the classroom environment on children's behavior, and establishing a collaborative professional team. Includes 10 hours of field/clinical experience. Prereq.: CHFM 2633. 3 s.h.

2675. Integrated Curriculum for Prekindergarten. Teaching techniques used to implement an integrated early childhood curriculum in the prekindergarten classroom with emphasis on the communication curriculum (language, literacy, and literature) and the inquiry curriculum (math, science, and social studies). Includes 10 hours of field experience. Prereq.: CHFM 1514 and CHFM 2633. 3 s.h.

Upper-Division Courses

3731. Individual and Family Development. The family ecosystems, dynamics, and roles throughout the life span, and the impact of heritage and culture on family systems worldwide. Prereq.: PSYC 1560 and ENGL 1551. 3 s.h.

3733L. Pract. in Preprimary Set. Includes field placement in a preschool or kindergarten setting. Observe, plan, and implement developmentally appropriate activities for children ages three to eight years. Six hours practicum experience per week. One hour seminar per week. Prereq.: CHFM 2633. 3 s.h.

3750. Parent and Professional Relationships. Strategies for building working relationships with parents of young children and other professionals in early childhood education. Ten hours field/clinical experience. Prereq.: CHFM 1514 or CHFM 2633 or permission of the department. 3 s.h.
3760. Language and Literacy Experiences in Early Childhood Settings. Concepts and teaching strategies related to understanding language and literacy development of young children and planning language and literacy experiences for all children three to eight years of age. Prereq.: CHFM 2633. 3 s.h.

3770. Wellness During the Early Childhood Years. Principles of maintaining physically and psychologically safe and healthy learning environments for children; includes nutrition, safety in the classroom, stress and mental health issues, and community resources. Prereq.: CHFM 1514 or ECE 2629. 3 s.h.

3790. Directed Practice in PreK Education. A culminating practicum for the PreK associate degree candidates designed to provide teaching experiences with children in the early childhood years. Students will apply developmental theories and appropriate practices in settings for young children. 300 hours of field work. Prereq.: CHFM 1514, CHFM 3733L. Coreq.: CHFM 3790S. 4 s.h.

3790S. Directed Practice Seminar. Discussion of practicum experiences in assigned preschool classrooms with a focus on developmentally appropriate practices, reflective teaching, and professionalism in early childhood education. 300 hours of field work. Prereq.: CHFM 1514, CHFM 3733L. Coreq.: CHFM 3790. 2 s.h.

4833. School-Age Child Care. Developing and administering extended day and vacation programs for children K-6, in schools and other facilities. Prereq.: CHFM 3731. 2 s.h.

4859. Methods and Materials in Early Childhood Settings. Methods and techniques used to implement an integrated early childhood curriculum with emphasis on social, emotional, and physical development and concept formation of young children ages 3 to 8. Listed also as ECE 3759. Prereq.: CHFM 3790. 3 s.h.

5860. Coordination and Evaluation of Early Childhood Programs. Administration, organization, and operation of early childhood programs, including legal and ethical guidelines, managing resources, program development and evaluation, advocacy, and public policy in early childhood education. Includes ten hours field/clinical experience. Prereq.: CHFM 2664 or ECE 4841 or SED 4842. 3 s.h.

CIVIL AND CONSTRUCTION ENGINEERING TECHNOLOGY—CCET

Engineering Technology

Lower-Division Courses

2604. Properties and Strength of Materials. Introduction to the physical and chemical properties of materials and their behavior under various loads and environments. Concepts of stress and strain developed and evaluated for the application of axial, shear, torsional, and bending loads. Prereq. or concurrent: MET 1515. 3 s.h.

2614L. Materials Laboratory 1. Use and care of testing equipment, data retrieval, data reduction and report preparation. Physical testing of metals, concrete, aggregates, asphalts, soils and woods. Three hours per week. Prereq or concurrent: CCET 2604. 1 s.h.

Upper-Division Courses

3705. Computing for Technologists. Development of computer techniques used in solutions to problems in all fields of engineering technology. Students write computer programs to solve problems with which they are familiar. Use of database management, spreadsheets. May be taken by non-CCET majors. Two hours lecture, three hours lab per week. Prereq.: junior standing or consent of instructor. 3 s.h.

3706. Structural Design. Structural design using AISC, ACI and similar codes. Selection of members and connections in accordance with manuals and code specifications. Design and AutoCAD projects required. Three hours lecture and three hours computational lab per week. Prereq.: DDT 1505, MET 1515, MATH 1513, CCET 2604. 4 s.h.

3709. Structural Analysis 1. Fundamental determination of member forces in trusses, beams, arches, frames and cables. Calculation of member stresses and deflections. Two hours lecture, three hours computational lab per week. Prereq.: ENTC 1505, MATH 1513, CCET 2604. 3 s.h.

3714L. Soil Mechanics Laboratory. Practice in soil identification and determination of soil properties. Use and care of basic soil testing equipment and standard test procedures. Three laboratory hours per week. Concurrent with CCET 3714. 1 s.h.

3719. Environmental Impact of Abandoned Mines. Mining methods, types of mines, information retrieval, mine stabilization, and the effects of abandoned mines on environmental and human activities, especially deep coal mines in the Mahoning Valley and adjacent areas. Two hours lecture and three hours of lab per week. Prereq. GEOL 1505 or equivalent or permission of instructor. 3 s.h.
3724. *Hydraulics and Land Development.* Study of hydraulics and hydrologic principles and their applications to drainage requirements, storm-water management, detention/retention basin design, erosion and sedimentation control plans and land-use planning. Use of computer software for analysis and design. Two hours lecture, three hours of computational lab per week. Prereq.: C or better in both CCET 3706 and CCET 1513, MATH 1513, CCET 2604.

4807. *Project Planning & Scheduling.* Application of planning, scheduling, and control system techniques for an integrated project including theory, options, legal implications, and practices. Students plan and schedule projects using CPM computer software and set up control systems for the project. Three hours lecture, one hour laboratory per week. Prereq.: CCET 3706 and CCET 3709.

4809. *Structural Analysis 2.* Continuation of CCET 3709. Analysis techniques for common structures. Introduction to classical approaches to statically indeterminate structures and calculation of deflections. Use of standard computer programs such as StruCalc, SAP and SABLE. Three hours lecture, one hour computational lab per week. Prereq.: C or better in both CCET 2617 and CCET 3711.

4810. *Construction Surveying.* Theory and applications of advanced land surveying techniques for: route surveying and geometric design; topographic site surveys and mapping; civil engineering, utilities, and construction surveys; global positioning systems; and quantities and final surveys. Two hours lecture and three hours field surveying laboratory. Prereq.: CEEN 2610, CEEN 2610L.

4812. *Concrete Design.* Behavior and design of concrete elements subject to flexure, shear, axial and combined effects. Emphasis on reinforced concrete design in accordance with the ACI Code including beams, T-beams, slabs, walls, and columns. An introduction to prestressed and precast concrete design. Three hours lecture, one hour design lab per week. Prereq.: C or better in both CCET 3706 and CCET 3709.

4813. *Steel Design.* Loading and behavior of steel structures and design of standard rolled shapes in accordance with current LRFD and ASD specifications. Design of welded and bolted connections and an introduction to design of cold-formed steel members. Three hours lecture, one hour design lab per week. Prereq.: C or better in both CCET 3706 and CCET 3709.

4814. *Foundation Design.* Application of soil mechanics to the design of foundations. Topics include spread footings, drilled piers, piles, retaining walls, sheet piles walls and underground structures. Three hours lecture per week. Prereq.: CCET 3714 and CCET 3714L.

4815. *Masonry Design.* Design of beams, columns, shear walls and bearing walls using clay and concrete masonry units. Application of allowable stress design (ASD) and strength design (SD) in accordance with the MSJC Building Code Requirements for Masonry Structures. Additional topics include prestressed and autoclaved aerated concrete (AAC) masonry. Three hours lecture, one hour lab per week. Prereq.: CCET 2617, C or better in both CCET 3706 and CCET 3709.

4816. *Timber Design.* Design of beams, poles, piles, diaphragms, shear walls and fasteners using timber elements. Application of the National Design Specification for Wood Construction that incorporates a dual format using both allowable stress design (ASD) and load and resistance factor design (LRFD). Additional topics include glued-laminated members and design of mechanical connectors. Design, analysis, construction, and testing of scale models is required. Three hours lecture, one hour lab per week. Prereq.: CCET 2617, C or better in both CCET 3706 and CCET 3709.

4824. *Environmental Technology.* Application of environmental principles to land planning and development. Wastewater treatment processes and system design. Application of water and wastewater management to specific sites. Permitting and endangerment assessment. Three hours lecture, one hour computational lab per week. Prereq.: C or better in CCET 3724 and junior standing.

4884. *Civil/Structural Facilities Design.* Interdisciplinary capstone course. An overview of the requirements and design procedures for civil and structural systems. Includes the analysis and design for site development, utilities, foundation, wall systems, framing systems, floor system and the preparation of the plans, specifications and estimate package. Includes a major interdisciplinary group project. Prereq.: Senior standing in CCET or EET permission of instructor. Concurrent: EET 4880. Two hours lecture, three hours design studio.

4890. *Special Topics in Civil and Construction Engineering Technology.* New developments in CCET. Subject matter, special prerequisites, and credit hours to be announced in advance of each offering. May be repeated with different subject matter to a maximum of 8 s.h. Prereq.: Senior standing in CCET or consent of the instructor.

1-4 s.h.
CIVIL/ENVIRONMENTAL ENGINEERING—CEEN
Department of Civil/Environmental and Chemical Engineering

Lower-Division Courses

2601. Statics. Principles of engineering mechanics as applied to statics with vector applications to forces and moments; centroid and center of gravity; equilibrium; friction; moments of inertia: relationship between loads, stress and strain in tension, compression, torsion and bending. Prereq.: MATH 1572 and PHYS 2610 or concurrent. 3 s.h.

2602. Strength of Materials. Relationships between loads, shear and bending moments in beams; combined stresses in beams; indeterminate beam analysis; virtual load; connections; columns. Prereq.: CEEN 2601. 3 s.h.

2602L. Strength of Materials Lab. Experimental verification of strength of materials; testing: tension, torsion, non-destructive tests of steel; concrete compression and Poisson ration, wood tests. Prereq.: Concurrent with CEEN 2602. 1-3 s.h.

2610. Surveying. The theory of surveying and the use of instruments. Problems in leveling, traversing, and topography. Introduction to circular and vertical curves. Prereq.: MATH 1504 or equivalent. 3 s.h.

2610L. Surveying Laboratory. Field surveying principles and techniques. Uses of transit and level are stressed. Three laboratory hours per week. Prereq.: Concurrent with CEEN 2610. 1 s.h.

Upper-Division Courses

3711. Technology and Society. A critical exploration of how societal needs affect the creation of technologies and how technology affects society. The course is interdisciplinary in nature and presents various approaches to examining the complex interaction between humans and their tools. Topics include: (1) technology in human history; (2) society, science, and technology development; (3) technology and social change; (4) technology, knowledge, and power; (5) technology, population, and the environment. Prereq.: Junior standing or consent of instructor. Listed also as SOC 3789, BIOL 3789. 3 s.h.

3716. Fluid Mechanics. Proportions of fluids, fluid statics, kinematics; Bernoulli equation; fluid momentum; laminar and turbulent flow through simple pipes; boundary layers; dimensional analysis and similitude. Prereq.: CEEN 2602. 3 s.h.

3716L. Fluid Mechanics Lab. Experimental verification of the principles of fluid mechanics as applied to incompressible fluid. Three hours laboratory per week. Prereq.: ENGR 1560; Concurrent with CEEN 3716. 1 s.h.

3717. Hydraulic Design. Analysis of flow in complex pipe systems; pumps; open channel flow; culverts; spillways; storm water drainage. Three hours lecture and three hours of computational laboratory per week. Prereq.: CEEN 2610 and 3716. 4 s.h.

3720. Transportation Engineering. Introductory survey of transportation topics including transportation systems, vehicular operation and control, and transportation planning techniques; introduction to design of highways, airports, and railroads; and traffic engineering. Prereq.: CEEN 2610. 3 s.h.

3736. Fundamentals of Environmental Engineering. Causes and effects of water, air and land pollution; measurements of environmental quality; environmental regulations; introduction to methods of pollution control. Prereq.: CHEM 1516, ENGR 1560. 3 s.h.

3749L. Structural Analysis 1 Lab. Introduction to stiffness-based analysis of determinate and indeterminate structures. Computer analysis of various structural systems, including plane and space trusses, continuous beams, plane and space frames, plates. P-delta stability analysis of frames. Three hours computational lab per week. Prereq.: CEEN 2602; concurrent with CEEN 3749. 1 s.h.

3751. Water Quality Analysis. Introduction to physical, chemical, and biological measurements of water quality. Sample collection and laboratory analysis of natural waters, drinking water, and wastewater. Interpretation of environmental data. Two hours lecture and three hours laboratory per week. Identical to ENST 3751. Prereq.: CEEN 3736 or ENST 2600; CHEM 1515. 3 s.h.

3751L. Water Quality Analysis Lab. Laboratory experience in the analysis of natural waters, drinking water and wastewater. Emphasizes procedures for the collection and interpretation of data on current environmental problems. Three hours laboratory per week. Must be taken concurrently with CEEN 3751. 0 s.h.

4800. Special Topics. Special topics and new developments in Civil Engineering. Subject matter, credit hours, and special prerequisites to be announced in advance of each offering. Prereq.: Senior standing or consent of instructor. May be repeated to a maximum of 6 s.h. 3 s.h.

4812. Construction Management. Fundamentals of construction management: contracts, bonding, estimating, organization, finance; cost and productivity of equipment, material, and labor; and project planning and scheduling. Prereq.: CEEN 3717 or CEEN 4881. 3 s.h.
4835. Highway Design. Methods of highway route location; design methods and standards for highways, intersections, freeways, and interchanges. Includes extensive use of computer-aided design. Prereq.: CEEN 3720. 3 s.h.

4863. Integrated Design Project. Students will be required to complete a meaningful design experience that focuses attention on professional practice and is predicated on the accumulated background of curriculum components. Two hours of lecture and three hours of laboratory a week. Prereq.: CEEN 4812 and unrecalculated GPA of 2.0 or better in major courses. 3 s.h.

4879. Civil Engineering Analysis. Application of mathematical and numerical methods to the systematic analysis and development of problems in the field of Civil Engineering. Prereq.: CEEN 3749. 3 s.h.

4881. Geotechnical Engineering. Properties of soil, classification, capillarity, seepage, permeability, stresses, consolidation, shear strength; analysis and design of foundation structures, retaining walls, piles, drilled piers, sheet pile walls, special footings, stability. Prereq.: MATH 2673; CEEN 3749. 3 s.h.

4881L. Geotechnical Lab. Typical soil testing procedures and physical testing of soil samples. Prereq.: Concurrent with CEEN 4881. 1 s.h.

5820. Pavement Material and Design. Design methods for flexible, rigid and other wheel-supporting pavements to include investigation, testing and preparation of subgrade, base course and pavement materials, design of various pavement mixtures, stresses in pavements, pavement design, and strengthening existing pavements. Prereq.: CEEN 3720 and 4881. 3 s.h.

5829. Civil Engineering Materials - Concrete. A course designed to broaden the student’s understanding of Portland Cement Concrete as a construction material. Topics include the study of cement, hydration of cement, aggregates, admixtures for concrete, mix design handling and placing, curing and properties of Portland Cement Concrete. Testing of Concrete, quality control and special concretes are also included. A library research paper on a concrete-related topic of the student’s choice is required. Prereq.: CEEN 3749 or permission of instructor. 3 s.h.

5837. Environmental Engineering Design. Theory and design of unit operations and processes for treatment of drinking water and municipal wastewater. Prereq.: CEEN 3736. 3 s.h.

5849. Structural Analysis 2. Analysis of statically indeterminate beams, trusses, bents and multistory frames, utilizing concepts of strain energy, virtual work, slope-deflection, and moment distribution. Introduction to matrix methods of analysis using force and displacement methods. Prereq.: CEEN 3749. 3 s.h.

5855. Reinforced Concrete Design. An introduction to the behavior, analysis, and design of reinforced concrete members. Included are singly and doubly reinforced beams, tee-beams, slabs, short and long columns. Prereq.: CEEN 3749. 3 s.h.

5856. Steel Design. An introduction to the behavior and design of steel structures. Included is the design of rolled and built-up tension members, beams, columns, beam-columns, welded and bolted connections. Prereq.: CEEN 3749. 3 s.h.

5877. Systems Engineering and Project Management. Systems approach to engineering design; non-linear models; linear programming; dynamic programming; network analysis; project management. Prereq.: MATH 3705. 3 s.h.

5882. Foundation Engineering. Analysis and design of various foundations, including abutments, piers, piles, and footings; slope stability of embankments. Prereq.: CEEN 4881 and CEEN 5855. 3 s.h.

5883. Bridge Engineering. Analysis and design of concrete and steel bridges; specifications and code requirements; design detailing; effects of natural and man-made hazards on bridges; implications of bridge failures. Prereq.: CEEN 5855 and CEEN 5856. 3 s.h.

5884. Solid and Hazardous Waste Management. Sources, characteristics, handling and disposal options for solid waste and hazardous waste; topics include regulations, health effects, waste minimization, collection systems, landfill design, treatment and processing methods, and site assessment. Prereq.: CEEN 3736. 3 s.h.

CLINICAL LABORATORY TECHNOLOGY—CLTC

Department of Health Professions

Lower-Division Courses

1501L. Introduction to Clinical Laboratory Science Laboratory. Phlebotomy, specimen collection and processing; basic clinical laboratory exercises. Three hours lab per week. Concurrent with CLTC 1501. Prereq.: Algebra 2, high school chemistry and biology. 1 s.h.

1502. Urinalysis and Body Fluids. Theory and techniques in the analysis of urine and body fluids. Concurrent with CLTC 1502L. Prereq.: CLTC 1501/L, BIOL 2601. 2 s.h.

1502L. Urinalysis and Body Fluids Laboratory. Chemical and microscopic analysis of urine. Concurrent with CLTC 1502. Three hours lab per week. Prereq.: CLTC 1501/L, BIOL 2601. 1 s.h.
1503. Immunohematology. Fundamental theories and techniques of immunohematology and blood banking; genetic theories, problem solving, and case studies. Concurrent with CLTC 1503L and BIOL 2602. Prereq.: BIOL 2601 and CLTC 1501. 3 s.h.

1503L. Immunohematology Laboratory. Spectrophotometric, semi-automated, and automated analysis of glucose, electrolytes, enzymes, and other chemical constituents of serum. Three hours lab per week. Concurrent with CLTC 1503. Prereq.: CLTC 1501/L, BIOL 2601. 1 s.h.

1505. Phlebotomy. Principles and practice of blood collection by venipuncture and capillary techniques including directed clinical practice; specimen collection and preservation; infection control and universal precautions. Two hours of lecture and three hours of laboratory per week; 16 hours of clinical practice in an affiliated laboratory. Prereq.: Permission of instructor or enrollment in a healthcare major. 3 s.h.

2601. Clinical Chemistry 1. Medical laboratory applications of clinical chemistry. Concurrent with CLTC 2601L. Prereq.: CLTC 1502/L, CHEM 1515. 3 s.h.

2601L. Clinical Chemistry 1 Laboratory. Spectrophotometric, semi-automated, and automated analysis of glucose, electrolytes, enzymes, and other chemical constituents of serum. Three hours lab per week. Concurrent with CLTC 2601. Prereq.: CLTC 1502/L, CHEM 1515. 1 s.h.

2603. Topics in Clinical Laboratory Technology. Critical analysis, assimilation and assessment of CLTC didactic and laboratory information. Regulatory compliance, information processing, education, ethical and professional issues. One hour of lecture and three hours of laboratory per week. Prereq.: Completion of first year CLTC coursework with a minimal grade of C. 2 s.h.

2609. Topics in Histotechnology. Instrumentation, processing, fixation, microtomy, staining, and special staining as relative to the histotechnician. Prereq.: Admission to Histotechnology program, CLTC 1501/L, or permission of instructor. 1 s.h.

2609L. Histotechnology Laboratory. Applications of solution preparation, staining, microtomy, and quality control in the histotechnician laboratory. Concurrent with CLTC 2609. Prereq.: CLTC 1501/L with a minimal grade of C. 1 s.h.

2612. Histotechnician Practicum 1. Histologic procedures of instrumentation, cell structure, fixatives, processing and sectioning of tissues, and general staining methods. Thirty hours of clinical experience at an assigned affiliated laboratory and six hours of laboratory in the on-campus simulated histology laboratory. Concurrent with CLTC 2611. Prereq.: CLTC 2609 and successful completion of first three semesters of histotechnician curriculum with a minimum GPA of 2.5. 11 s.h.

2687L. Microbiology for Health Care Laboratory. Medical microbiology laboratory for health care professionals. Laboratory methods in the transmission, identification, prevention, and treatment of common bacterial, viral, fungal, and parasitic pathogens with a focus on nosocomial infections. Three hours lab per week. Concurrent with BIOL 1560. Prereq.: BIOL 1545, 1551, 2601, or permission of instructor. 1 s.h.

Upper-Division Courses

3700. Clinical Chemistry 2. Instrumentation and clinical relevance of applied chemical techniques including immunoassays, therapeutic drug monitoring, enzymes, trace elements, and point-of-care technology; quality control and assurance, case studies, and problem solving in clinical chemistry. Concurrent with CLTC 3700L. Prereq.: CLTC 2601 or CHEM 1515. 3 s.h.

3700L. Clinical Chemistry 2 Laboratory. Thyroid, digoxin, B12, folic acid, antinuclear antibodies and T and B cell receptor procedures utilized in a clinical laboratory. Three hours lab per week. Concurrent with CLTC 3700. Prereq.: CLTC 2601/L or CHEM 1515. 1 s.h.

3701/L. Clinical Hematology 1. Hematopoiesis; theory and laboratory application of manual procedures in hematology including cell counts, hemoglobin, hematocrit, and differentials; introductory hemostasis and laboratory applications. Prereq.: CLTC 1501/L, BIOL 2601 with a minimal grade of C. Two hours of lecture and 3 hours of laboratory per week. 3 s.h.

3702/L. Clinical Hematology 2. Advanced theory and laboratory procedures in hematology and hemostasis, including leukemia, anemia, hematopathology and coagulation disorders; abnormal differentials and automated methods. Two hours of lecture and 3 hours of laboratory per week. Prereq.: CLTC 3701/L with a minimal grade of C. 3 s.h.
Diagnostic Microbiology. Clinical applications of human pathogenic microorganisms; infections, frequency, isolation, identification, and treatment of bacteria, fungi, viruses, and parasites. Case studies, problem solving, and quality assurance in clinical microbiology. Three hours lecture per week. Prereq.: BIOL 2602. 3 s.h.

Clinical Immunology. Fundamentals of antigen-antibody reactions applied to serological procedures performed in the clinical laboratory. Three hours lecture per week. Concurrent with CLTC 3703L. Identical with BIOL 3703. Prereq.: CLTC 1501/L, BIOL 2602. 3 s.h.

Diagnostic Microbiology Laboratory. A clinical approach to the study of bacteria, fungi, viruses, and parasites. Methods to isolate and identify clinically significant pathogens from clinical specimens; case studies in clinical microbiology. Six hours lab per week. Prereq.: CLTC 3703L. Identical with BIOL 3703L. Prereq.: CLTC 1501/L, BIOL 2602. 1 s.h.

Clinical Laboratory Seminar. Internship evaluation, special topics in the clinical laboratory. Case studies in the clinical laboratory. Concurrent with CLTC 3716. 2 s.h.

Clinical Immunology Laboratory. VDRL, ASO, febrile, latex, pregnancy, and viral tests; flocculation, precipitation, complement fixation, and titration procedures for various diseases. Three hours lab per week. Concurrent with CLTC 3703. Identical with BIOL 3703L. Prereq.: CLTC 1501/L, BIOL 2602. 1 s.h.

Clinical Internship. Thirty-six hours per week of practical application of skills in affiliate hospitals and private laboratories. Prereq.: Completion of previous five semesters of CLTC curriculum with a grade of C or better and a minimum 2.5 GPA. Concurrent with CLTC 3706. 8 s.h.

Clinical Experience 1. Acceptance into a clinical affiliation. Clinical microbiology and laboratory, clinical immunology and laboratory, clinical mycology, clinical parasitology, and virology. Forty hours of clinical experience per week. Prereq.: Permission of program director. 12 s.h.

Clinical Experience 2. Acceptance into a clinical affiliation. Immunohematology and laboratory, clinical hematology and laboratory, coagulations and laboratory. Forty hours of clinical experience per week. Prereq.: Permission of program director. 12 s.h.

Clinical Experience 3. Acceptance into a clinical affiliation. Clinical chemistry and laboratory, urinalysis and laboratory, laboratory management, laboratory education methods, special topics in clinical laboratory science. Capstone course: senior laboratory research project and resumes completed. Forty hours of clinical experience per week. Prereq.: Permission of program director. 12 s.h.

COMMUNICATION STUDIES—CMST

Department of Communication

The following have been approved as General Education courses in the area of Basic Skills: CMST 1545, Communication Foundations.

The following courses have been approved as General Education courses in area writing intensive: 4855 Interpersonal Communication Theory and Practice, 4859 Organizational Communication Theory and Practice, 5852 Group Communication Theory and Practice.

The following courses have been approved as General Education courses in the area of oral communication intensive: 2645 Presentational Speaking, 3756 Interviewing.

The following courses have been approved as General Education courses in the area of critical thinking intensive: 3754 Argumentation, 3799 Designing Communication Research.

Lower-Division Courses

Communication Theory. The study of significant theories of communication that reflect the diversity of communication studies and address different communication contexts: interpersonal, group, public, organizational, and mass. 3 s.h.

Communication Foundations. Theories, strategies, and skills for competent participation in interpersonal, group, and public communication situations. Application exercises in interpersonal, group, and public communication. Prereq.: Qualified to take ENGL 1550. 3 s.h.

Interpersonal Communication. The study of key historical and contemporary theories that affect communication across cultural boundaries. Exercises for improving communication skills in intercultural communication situations are included. 3 s.h.

Presentational Speaking. In-depth examination of the theory and practice of preparing and delivering presentations in today's work environment. Emphasis on using technology aids during presentations. Prereq.: CMST 1545 or equivalent. 3 s.h.

Group Communication. Small-group interaction and participation from a communication systems perspective. Includes an examination of group processes and leadership in group interaction. 3 s.h.

Interpersonal Communication. An examination of the skills necessary to develop, maintain, and evaluate one-to-one relationships. Through practical experiences from everyday life, the class examines what occurs when one person communicates with another. 3 s.h.
2657. Organizational Communication. A general survey of traditional and interpretive approaches to organizational communication as well as career applications. Explores the relationship between communication and organizational effectiveness. 3 s.h.

Upper-Division Courses

3717. Intro to Media Relations Campaigns. An experiential, service-learning course in designing and implementing Media Relations campaigns. Prereq.: CMST 1545.

3745. Individual Studies. Student selects a special problem or issue in communication to research in detail under the direction of a faculty member, pending department committee approval. Repeatable to 6 hrs. Prereq.: Junior standing.

3750. Gender Communication. Principal concepts and issues of gender and communication as they apply to identity, and communication within and between the genders in a variety of contexts. Prereq.: CMST 1545.

3756. Interviewing. Theories of communication applied to interview situations with a special concern for developing student understanding of and skills needed to participate in one-to-one and panel interviews. Prereq.: CMST 1530.

3757. Media Relations Writing. A lecture-lab course in writing pamphlets, advertisements, newsletters, and websites for media relations campaigns. Prereq.: ENGL 1550 and ENGL 1551.

3799. Designing Communication Research. A study of the processes involved in designing both qualitative and quantitative communication research projects. Communication research design and implementation. Prereq.: 15 s.h. of Communication Studies including CMST 1530, ENGL 1551, and MATH 2623.

4851. New Communication Media. New media histories, technologies, and cultures. Considers promising future forms, and includes issues of authorship, community, identity, interactivity, visuality, the nature and power of technology, intelligent systems, and artificial life. Prereq.: CMST 3799 and senior standing.

4855. Interpersonal Communication Relationships. Theories of relationship development, maintenance and termination. The impact of face-to-face and mediated communication on interpersonal relationships. Prereq.: CMST 1530 and 2656 and ENGL 1551.

4896. Internship. An application of communication theories and practice within organizational settings. Weekly meetings with faculty supervisor are required. Weekly field work is 15 hours. May be repeated to a maximum of 6 s.h. Prereq.: CMST 2657, senior standing, major in Communication Studies, and approval of Internship Proposal form.

4898. Media Analysis. Application of methods of analysis to describe and critique the content of various types of media, including new media, news media, and entertainment media. Emphasis on the relationship between media content, uses, and effects. Prereq.: CMST 3756 and CMST 3799.

4899. Senior Project. Synthesis of research, writing, and presentation skills through the completion of a communication research project and professional development activity. Repeatable to a maximum of 6 s.h. Prereq.: Senior standing, major in Communication Studies, 24 s.h. of Communication Studies major complete, including CMST 3799. Grading is Traditional/PR.

5852. Conflict Management and Negotiation. An indepth analysis of the theories and variables influencing conflict management, resolution, and negotiation. Includes strategies and skills for meditation and arbitration. Prereq.: CMST 1530, 2653 and 2657.

5898. Seminar. A cooperative exploration of topics in communication studies. May be repeated up to 6 s.h. Prereq.: Senior standing or permission of instructor and 24 s.h. of Communication Studies, including CMST 3799.

COMPUTER INFORMATION SYSTEMS—CIS

Department of Computer Science and Information Systems

Upper-Division Courses

3705. MVS JCL and Utilities. General purpose programs found in computer installations, including sort/merge routines, report generators, magnetic tape routines, supervisory programs, library generation/maintenance routines, generation data group programs, and random-access utility programs. Modification of system procedures. Examination of the VSAM environment. Prereq.: CSIS 2610.

3708. MVS JCL and Utilities. General purpose programs found in computer installations, including sort/merge routines, report generators, magnetic tape routines, supervisory programs, library generation/maintenance routines, generation data group programs, and random-access utility programs. Modification of system procedures. Examination of the VSAM environment. Prereq.: CSIS 2610.

3756. Interviewing. Theories of communication applied to interview situations with a special concern for developing student understanding of and skills needed to participate in one-to-one and panel interviews. Prereq.: CMST 1530.

3757. Media Relations Writing. A lecture-lab course in writing pamphlets, advertisements, newsletters, and websites for media relations campaigns. Prereq.: ENGL 1550 and ENGL 1551.

3799. Designing Communication Research. A study of the processes involved in designing both qualitative and quantitative communication research projects. Communication research design and implementation. Prereq.: 15 s.h. of Communication Studies including CMST 1530, ENGL 1551, and MATH 2623.

4851. New Communication Media. New media histories, technologies, and cultures. Considers promising future forms, and includes issues of authorship, community, identity, interactivity, visuality, the nature and power of technology, intelligent systems, and artificial life. Prereq.: CMST 3799 and senior standing.

4855. Interpersonal Communication Relationships. Theories of relationship development, maintenance and termination. The impact of face-to-face and mediated communication on interpersonal relationships. Prereq.: CMST 1530 and 2656 and ENGL 1551.

4896. Internship. An application of communication theories and practice within organizational settings. Weekly meetings with faculty supervisor are required. Weekly field work is 15 hours. May be repeated to a maximum of 6 s.h. Prereq.: CMST 2657, senior standing, major in Communication Studies, and approval of Internship Proposal form.

4898. Media Analysis. Application of methods of analysis to describe and critique the content of various types of media, including new media, news media, and entertainment media. Emphasis on the relationship between media content, uses, and effects. Prereq.: CMST 3756 and CMST 3799.

4899. Senior Project. Synthesis of research, writing, and presentation skills through the completion of a communication research project and professional development activity. Repeatable to a maximum of 6 s.h. Prereq.: Senior standing, major in Communication Studies, 24 s.h. of Communication Studies major complete, including CMST 3799. Grading is Traditional/PR.

5852. Conflict Management and Negotiation. An indepth analysis of the theories and variables influencing conflict management, resolution, and negotiation. Includes strategies and skills for meditation and arbitration. Prereq.: CMST 1530, 2653 and 2657.

5898. Seminar. A cooperative exploration of topics in communication studies. May be repeated up to 6 s.h. Prereq.: Senior standing or permission of instructor and 24 s.h. of Communication Studies, including CMST 3799.
3713. RPG and Midrange Computing. An in-depth study of mid-range computing systems such as the iSeries, emphasizing systems software use and applications software development. Three hours lecture and two hours lab. Prereq.: CSCI 2610. 4 s.h.

3718. Operating Systems Concepts. Concepts of computer operating systems, including memory allocation, job scheduling, process communication, and input/output processing. Examinations of operating systems on several platforms. Prereq.: CSCI 2610. 3 s.h.

3735. UNIX Environment. Use of the UNIX operating system or similar systems, including file management utilities, editors, compilers, and communication utilities. A comprehensive examination of programming in various shells such as Bourne, C, and Korn. Prereq.: CSCI 2610. 3 s.h.

3741. Business Programming Project. This course provides an in-depth study of business programming. It includes the mastery of a high-level language suitable for business programming, such as COBOL, and the development of a large multi-step business application project. Three hours lecture, two hours lab. Prereq.: CSCI 2610. 4 s.h.

4808. CICS Programming. A detailed study of CICS (Customer Information Control System), including CICS commands, file definitions, screen definitions, and application programming. Prereq.: CSCI 3741 and 3 s.h. of upper division departmental courses. 3 s.h.

4810. Special Topics. Study of special topics in computer information systems. Subject matter and credit hours will be announced in advance. May be repeated multiple times if topic is different. Prereq.: At least 3 s.h. of upper-division departmental courses, and permission of chair. 2-4 s.h.

4820. Computer Center Operations. The organization of a computer center, with emphasis on features and selection criteria of communication equipment, including mainframe, minicomputer, and microcomputer systems. Prereq.: CISC 3741 or INFO 2663, 3 s.h. of upper-division departmental courses. 3 s.h.

4840. Business System Analysis and Design. Development of communication and written skills for the analysis and design of business systems. Utilization of project management techniques for design, development, and maintenance of a departmental level system. Prereq.: CISC 3741, CISC 3722, CISC 3723, and 3 additional s.h. of upper-division departmental courses. 4 s.h.

3730. Advanced UNIX and C Programming. Use of UNIX programming environment and associated tools and utilities. Command language programming. Systems programming with ANSI C. May include UNIX internals and system administration. Prereq.: CSCI 3730. 3 s.h.

3770. Survey of Programming Languages. Survey of several programming languages. May include Ada, Modula-2, C, Lisp, and SNOBOL. Prereq.: CSCI 3701. 3 s.h.

4805. System Programming. Topics selected from aspects of systems programming, including assemblers, loaders, linkage editors, macro processors, and file management. Prereq.: CSCI 3700 and 3740. 3 s.h.

4830. Advanced Computer Graphics. A thorough investigation of graphics algorithms. Topics include hidden surface removal, parametric curves, lighting, shading, and texturing. Implementation of a graphics project required. Prereq.: CSCI 3730 and MATH 3720. 3 s.h.

4885. Evaluation of Educational Software and Hardware I. A critical analysis of educational software for various academic disciplines and grade levels. The use of evaluative forms and the study of existing review criteria. Analysis and evaluation of hardware alternatives, peripheral devices, networking and
hardware expansions in an educational setting. Not applicable to the CSCI major. Prereq.: upper-division department courses. 3 s.h.

4886. Evaluation of Educational Software and Hardware. Continuation of the analysis and evaluation of educational software and hardware begun in CSCI 4885. Emphasis on grades K-6. Not applicable to the CSCI major. Prereq.: CSCI 4885. 3 s.h.

4890. Computer Projects. Individualized study of a topic in computer science culminating in a written report and an oral presentation. May be repeated up to 8 s.h. Prereq.: 24 s.h. of computer science (including at least 3 s.h. of upper-division CSCI courses) applicable to the minimum requirements of a computer science major, and formal project proposal. 2-4 s.h.

5801. Software Engineering. Developing and maintaining complex software systems. Process and lifecycle models, and tools for software development (such as CASE). Specification methods, prototyping, validation and verification strategies, and version maintenance. Management of the system development process. A group project is required. Prereq.: CSIS 3701. 3 s.h.

5806. Operating Systems. Study of the various components of operating systems including kernels and monitors, currency and parallel processing, processor management, storage management, device management, I/O processing and file management. Prereq.: CSIS 3700 and 3740. 3 s.h.

5807. Compiler Design. Study of compiler design and construction, including context-free languages, lexical analysis, parsing, code generation and optimization. Prereq.: CSIS 3700 and 3740, CSCI 3710. 3 s.h.

5814. Computer Architecture. Study of high-performance sequential computer architecture. Topics include performance evaluation, instruction set design, processor implementation techniques, pipelining, vector processing, memory hierarchy design, and parallel architecture. Prereq.: CSIS 3700 and 3740. 3 s.h.

5820. Simulation. Methods for modeling discrete event systems by algorithmic approaches using simulation languages. Prereq.: CSIS 3700 and STAT 3743. 3 s.h.

5822. Database Design and Information Retrieval. Study of physical database storage, relational and object data modeling, logical database design (normalization process), and structural query languages. Prereq.: CSIS 3700 and CSCI 3710. 3 s.h.

5823. Communication Networks. Study of network structures and topologies, international standards, models, communication media and protocols, hardware and software. Prereq.: CSIS 3700 and either CSIS 3723 or 3740. 3 s.h.

5835. Artificial Intelligence. Study of the theory and applications of intelligent systems. Topics may include general problem-solving techniques, knowledge representation and expert systems, vision and perception, and natural language processing. AI systems and languages. Prereq.: CSIS 3700 and CSCI 3710. 3 s.h.

5840. Theory of Finite Automata. The structural and behavioral aspects of finite automata. Prereq.: CSCI 3710 and MATH 3720. 3 s.h.

5857. Encoding and Encryption. Securing computer and information systems through encoding and/or encryption. Private and public cryptographic methods, digital certificates and signatures, cryptovariable techniques, key management, and database security issues. Prereq.: CSIS 1560 or 2610; MATH 1548 or 1571 or Math Placement of 4 or 40 or higher; and at least 3 s.h. of upper-division departmental courses. 3 s.h.

5860. Programming Language Structures. Systematic approach to the study of the structures of programming languages. Formal descriptions, syntax, semantics and technical characteristics. Prereq.: CSIS 3701 and CSCI 3710. 3 s.h.

5870. Data Structures and Algorithms. Study and application of analysis and design techniques to non-numerical algorithms. Topics selected from algorithms acting on sets, trees, graphs; memory management; notions of complexity and related areas. Prereq.: CSIS 3700 and CSCI 3710. 3 s.h.

5881. Microcomputer System Architecture. State-of-the-art course on microcomputer architecture. Topics include introduction to microcomputer systems, 16 and 32 bit microprocessors, direct memory access and other I/O transfer schemes, architecture of I/O processors, introduction to computer communications. Prereq.: CSIS 3740 and 3780. 3 s.h.

5895. Special Topics. A study of special topics in computer science. Subject matter and credit hours will be announced in advance. May be repeated multiple times if topic is different. Prereq.: At least 3 s.h. of upper-division departmental courses, and permission of chair. 2-4 s.h.

COMPUTER SCIENCE AND INFORMATION SYSTEMS—CSIS

Department of Computer Science and Information Systems

Lower-Division Courses

1500. Computer Literacy. A survey of computer concepts and applications. Network access and electronic mail. Emphasis on software applications packages available for microcomputers, including word processing. Not applicable to the CSCI major. 3 s.h.

1510. Global Electronic Information Resources. A survey of concepts and tools relating to communicating and gathering information on the Internet. Electronic
mail, newsgroups, on-line services, and the World Wide Web. Using Internet and web search tools to locate sites, and to retrieve and evaluate information. Creating home pages on the World Wide Web. Basic telecommunication, hypermedia, and ethical concepts. Prereq.: CSIS 1500. 3 s.h.

1514. Business Computer Systems. Hands-on business software, with emphasis on operating systems, word processing, database and spreadsheet applications. 3 s.h.

1525. Survey of Modern Operating Systems. An introduction to the common operating systems currently used with computers, such as DOS, Microsoft Windows, UNIX, and X-windows. Topics include setting up the user’s work environment, file manipulation, and other commands. Not applicable to the CIS or CSCI major. Prereq.: CSIS 1500. 3 s.h.

1550. Survey of Language Topics. Introductory language course with emphasis on writing structured programs in a particular computer language. The language topic and special prerequisites are announced in advance. Not applicable to the CIS or CSCI major. Prereq.: Permission of chair. 3 s.h.

1560. Basic Programming. An introduction to computer programming using a visual object-oriented programming tool. Topics include control structures, loops, functions, methods, recursion, array processing, and events. Students will learn to design and implement virtual worlds. 3 s.h.

1570. Web Graphics Programming. Computer programming in a graphical/web-based language such as JavaScript. Modular program design, control structures, and data types and objects. Application to dynamic web pages, graphics, and animation. 3 s.h.

1580. Technical Presentation and Communication. Tools and techniques for presentation of information in a computer-based environment. Introduction to slide making, graphics, and multimedia software. Methods for gathering information and determining requirements, and for designing and critiquing presentations. Prereq.: CSIS 1500. 3 s.h.

1590. Survey of Computer Science and Information Systems. Concepts, theory, and contemporary issues underlying the computing sciences. Introduction to computer applications, the YSU computing environment, the use of communication and information networks, and basic problem solving techniques using computers. This course is intended for CSIS majors and minors. Prereq.: MATH 1501 or at least Level 2 on the Mathematics Placement Test. 3 s.h.

2602. Programming in C. Programming concepts and techniques, with emphasis on scientific and engineering applications. An accelerated survey of the C programming language and an introduction to the UNIX programming environment. Not applicable to the CIS or CSCI major. Prereq.: CSIS 1500 and MATH 1513 or Math Placement Level 5 or 50 or higher. 3 s.h.

2610. Programming and Problem-Solving. Problem-solving methods and algorithms using a high-level programming language. Designing, coding, debugging, and documenting programs using techniques of good programming style. Three hours lecture, two hours lab. Prereq.: CSIS 1590. 4 s.h.

2615. Information Structures for Information Technology. Study and application of information structure concepts such as lists, trees, multilevel lists, files, and data-method integration. Practice using these concepts in a 3D animation environment using an object-oriented programming language in the background. Emphasis on algorithm design, object utilization, and storyboarding. Prereq.: CSIS 1590, and either CSIS 2610 or CSIS 1560. 3 s.h.

2655. Personal Cyber Security. PC system security including data assurance, standards and legal issues, and methods and procedures for guarding against potential software attack. Not applicable to the CIS, CSCI, or INFO major. Credit will not be given for 2655 if a student already received credit for CSIS 3755 or its equivalent. 3 s.h.

2660. Foundations of Electronic Commerce. Framework of electronic commerce, including e-commerce architecture, infrastructure, technologies, tools, and strategies. Topics include security, environmental, and implementation issues. Includes web site analysis, hardware/software issues, mini-cases, and introduction to site development. Prereq.: CSIS 1590. 3 s.h.

2699. Computer Science and Information Systems Internship. Classroom theory applied to on-the-job professional experience related to the student’s major. Work for a minimum of 12 hours per week at an approved site, complete a related project, and attend seminars. May be repeated once with the permission of coordinator. Prereq.: Sophomore in good standing and permission of internship coordinator. 1-3 s.h.

Upper-Division Courses

3700. Data Structures and Objects. Program design, style and expression, testing and debugging for larger programs. Introductory concepts of object oriented programming, including classes, methods, encapsulation, and abstract data types. Theory and application of data structures, including linked structures, trees, networks, and graphs. Credit will not be given for both CSIS 2617 and CSIS 3700. Three hours lecture, two hours lab. Prereq.: CSIS 2610. 4 s.h.

3701. Advanced Object-oriented Programming. Object-oriented design and programming, including classes, inheritance, polymorphism, and exception handling. Introductory software engineering techniques for program development, specification, documentation, verification, and user interface design. Prereq.: CSIS 3700. 3 s.h.

3720. System Configuration and Maintenance. Theory and practice of installing and maintaining hardware and software for complex systems. Installation of ap-
application software, with emphasis on Windows and Mac applications. Essential DOS utilities: formatting, data recovery, protecting data. Printing problems, Windows environment problems, and problems with booting the machine. Small laboratory management. Prereq.: CSIS 1590. 3 s.h.

3722. Development of Databases. The basic structure, design, development, implementation, and modification of databases for use in management of information systems. Prereq.: CSIS 1590. 3 s.h.

3723. Networking Concepts and Administration. Overview of electronic communications concepts and technologies, with emphasis on Local Area Networks. Network topologies, design, administration, installed applications, and performance monitoring. Privacy, ethical and legal concerns. Prereq.: CSIS 1590. 3 s.h.

3726. Visual/Object-Oriented Programming. Use of one or more visual programming languages in conjunction with the concepts of object-oriented programming. Development of interactive programs using a graphical user interface. Database and Internet programming. Three hours lecture, two hours lab. Prereq.: CSIS 2610. 4 s.h.

3730. Computer Graphics. Techniques of computer raster graphics, including scan conversion, two- and three-dimensional clipping and windowing, transformations, and viewing in 3D. Algorithms and more advanced topics. Prereq.: CSIS 3700 and MATH 1572. 3 s.h.

3731. User Interface Design. The design, implementation, and evaluation of human-computer interfaces. Emphasis on practical applications of guidelines to modern multimedia and graphical user interfaces. Prereq.: CSIS 3701, or CSIS 3726; or CSIS 1560 and INFO 3775. 3 s.h.

3732. Intranet Database Implementation. Design and implementation of 3NF PC-based databases loaded to intranet Web sites. Remote database design, development, and updating using SQL within an application development software package. Validating database integrity. Includes site development and projects. Prereq.: CSIS 3722 and either CSIS 1560 or CSIS 2610. 3 s.h.

3740. Computer Organization. Basic hardware components, structure, and implementation of computer systems. Assembly language and instruction set architecture. Combinational and sequential digital logic. CPU and control unit design. Prereq.: CSIS 2610. 4 s.h.

3755. Information Assurance. Confidentiality, integrity, and authenticity of information. Methods of controlling access to electronic data, enforcing security policies, protecting against malicious attacks (including web site attacks), intrusion detection, and disaster recovery. Prereq.: CSIS 1590. 3 s.h.

3756. Security Design. Operating system security concepts, techniques and applications including MS Windows and LINUX/UNIX platforms. Includes a hands-on design project. Prereq.: Either CSCI 5806 or CSIS 3755 and either CSIS 1525 or CIS 3718. 3 s.h.

3757. Computer Forensics. Professional computer forensics, including methods and investigative techniques for the discovery and recovery of digital images and information at all levels, from PCs to large information systems. Chain of evidence and investigative techniques for cybercrime detection. Prereq.: CSIS 3755. 3 s.h.

3760. Electronic Commerce Programming. Programming for client/server systems related to electronic commerce, including server-side languages such as Perl and Client-side languages such as JavaScript. Topics include form validation and parsing, database access and manipulation, and design, networking, and security issues. Prereq.: CSIS 2610. 3 s.h.

3761. Electronic Commerce Strategies. Advanced concepts for development and maintenance of electronic commerce web sites. Topics include e-commerce paradigms, software and programming, and infrastructure issues. Site design, evaluation, deployment, and administration issues, including prototyping and SDLC issues. Building web-based training components. Includes IT project. Prereq.: CSIS 2660 and OIS 2663. 3 s.h.

3782. Cisco Networking Academy I. Current and emerging networking concepts and technology. Topics include networking standards, terminology, and protocols; LANs and WANs, the OSI and TCP/IP models, network topology and design, physical and logical addressing, subnet masking, router configuration and programming. Includes structured cabling project. Three hours lecture and three hours lab. Prereq.: CSIS 1590, and either CSIS 2610 or CSIS 1560. By permit only. 4 s.h.

3783. Cisco Networking Academy II. Advanced networking concepts and technology. Topics include LAN switching, VLAN design and implementation, IGMP, Access Control Lists, Novell IPX, Token Ring, Network Management, WAN design, WAN protocols (PPP, Frame Relay, ISDN), CCNA certification review. LAN design project. Three hours lecture and three hours lab. Prereq.: CSIS 1590, and either CSIS 2610 or CSIS 1560. By permit only. 4 s.h.

4804. Programming in Operations Research Applications. Basic operations research techniques and programming. Linear programming, queuing, mathematical modeling, and network analysis. Prereq.: CIS 2640 and 3 s.h. of upper-division departmental courses. 3 s.h.

4819. Parallel and Distributed Computing. Survey of current development of parallel processing with emphasis on parallel programming. Topics include parallel architecture, interconnection networks for inter-processor communication, parallel sorting/searching algorithms, parallel constructs for parallel programming paradigms, and implementation of the algorithms in a parallel programming language. Prereq.: CSIS 3700 and 3740. 3 s.h.
4822. Database Applications. Design and development of applications using database languages. Prereq.: CSIS 3722. 3 s.h.

4823. Data Communications Networking. Study of present methods for design and evaluation of information networks, LAN and WAN. Includes queuing, routing, security, reliability, error detection and correction, and distributed processing. Prereq.: CSIS 3723. 3 s.h.

4831. Virtual Reality Systems. An investigation into the use, design, implementation, and evaluation of virtual reality interfaces. Experiences with VR systems using both 2D projections and stereoscopic display and other systems. Students work in multidisciplinary groups. Prereq.: CSIS 3730. 3 s.h.

4837. Artificial Intelligence in Game Design. Artificial intelligence techniques for designing and programming intelligent non-player characters for a variety of different types of game genres. Finite and fuzzy state machines, terrain analysis and path planning, board games, language understanding, and learning. Prereq.: CSIS 3700, CSIS 3726 or CSCI 6901. 3 s.h.

4838. Graphics and Animation for Gaming. Design and implementation of animated characters in 3D computer games. Surface creation and effects; skeletal and facial rigging; motion and animation; basic game physics. Use of 3D animation software and scripting languages for game engine programming. Prereq.: CSCT 2610 and at least 3 s.h. of upper division CSIS courses, or CSCI 6901. 3 s.h.

4870. Web Communications Capstone. A project course requiring the integration of website development tools and techniques, database development, effective writing for the web, and audience analysis, to produce a website of substantial depth and breadth. Oral and written presentations of final project. Listed also as ENGL 4870. Prereq.: Senior standing and permission of instructor. 3 s.h.

4893. Computer Science and Information Systems Advanced Internship. An industrial/academic experience in information systems/technology. Employment for 15 to 20 hours per week. May be repeated once with the permission of internship supervisor. Prereq.: 16 s.h. of department courses (at least 3 s.h. upper division) and permission of department internship supervisor. 2-4 s.h.

5824. Applied Artificial Intelligence. Study of artificial intelligence software related to decision making. Topics may include robotic control, expert systems, automated knowledge acquisition, or logic programming. Prereq.: CSIS 3700 and 3 s.h. of upper-division departmental courses, or CSIS 6901. 3 s.h.

5828. Computer Network Security. Overview of security issues that arise from computer networks, including the spectrum of security activities, methods, methodologies, and procedures. Intrusion detection, firewalls, threats and vulnerabilities, denial of service attacks, viruses and worms, encryption, and forensics. Prereq.: CSIS 3723 or equivalent. 3 s.h.

5883. Remote Access and Multilayer Switched Networks. Advanced WAN connectivity including Frame Relay, ATM, ISDN, DSL, and modems; IP address scaling techniques; advanced access control; core issues in network design and management, focusing on multilayer switched networks and emerging multi-service networks. Will incorporate CCNP Cisco Academy curriculum. Three hours lecture, three hours lab. Prereq.: CSIS 3783. 4 s.h.

5884. Building Scalable Networks and Advanced Internetwork Troubleshooting. Designing scalable networks; advanced routing protocols; VLSM and route aggregation; management and diagnostic tools; troubleshooting tools and methodology for TCP/IP, Novell, and AppleTalk connectivity, VLANs, routers, and switches; Frame Relay and ISDN connectivity. Will incorporate CCNP Cisco Academy curriculum. Three hours lecture, three hours lab. Prereq.: CSIS 5883. 4 s.h.

COUNSELING—COUN

Department of Counseling

The following have been approved as General Education courses in the domain of Personal and Social Responsibility: 1587, Introduction to Health and Wellness in Contemporary Society; 1588, Exploring Leadership: Theory & Practice.

1587. Introduction to Health and Wellness in Contemporary Society. Provides an introduction to the wellness model integrating physical, mental, and emotional well-being. Using current research, students explore decision-making models examining ethical, theoretical, multicultural, and practical concerns in developing their own wellness strategies. 3 s.h.

1588. Exploring Leadership: Theory and Practice. Introduction to the study of leadership through theoretical and practical applications. Through group interaction, discussions, and change projects, students will develop their leadership knowledge while acquiring skills to solve leadership challenges within diverse organizations. The course will provide students with intellectual and interpersonal opportunities to practice the process of becoming effective leaders. 3 s.h.

1589. Success in Career and Life Planning. The course will facilitate the development of career and life planning skills. This course is designed for, but not restricted to, entering and undeclared students. This course will emphasize identifying strengths, clarifying values, exploring career options, developing effective decision-making skills, and learning life skills related to health, finances, relationships, and community responsibility. 3 s.h.

2650. Foundations of Helping Skills for Allied Health Professionals. Skill development in learning how to foster helping relationships and increase communication skills with individual, family, or group-related patient needs in a health care setting. Emphasis on ethical, cultural, socioeconomic, and special needs in allied health care settings. Includes an experiential skill video training component. 3 s.h.
2651. Foundations of Helping Skills for Human Ecology Professionals. The course will facilitate the development of helping skills with individual, family and/or groups. Emphasis is on ethical, cultural, socioeconomic, and special needs in human service settings. Courses will include overview of counseling skills and theories that will assist students to address client care needs. 2 s.h.

5821, 5822. Seminar in Guidance and Counseling. Study of selected topics chosen by staff, e.g. career guidance, counseling process, and other contemporary issues in school personnel work. Prereq.: Upper-division standing. 1-3 s.h.

5823. Career Education and Career Guidance. Study of public school career education and career guidance programs; the career education continuum, legislation relating to vocational programs, historical development, and principles of vocational education and vocational guidance. Also a survey of economic services: distributive education, human resources, programs, and placement. Prereq.: Upper-division standing. 3 s.h.

5825. Group Processes in the School. An introduction to group activities applicable to the needs of students in the school setting. Includes the study of group processes and group dynamics for social and personal problem solving as well as in the general area of individual and group behavior. Also a study of programs that provide for counselor-teacher cooperation in the development of groups in the classroom. Prereq.: Upper-division standing. 2 s.h.

5879. Talented Students and Their Families. A study of consulting and referral practices related to the developmental, social and personal difficulties often experienced by gifted/talented students and their families. Includes a field study component. Prereq.: Upper-division standing. 2 s.h.

5888. Introduction to Health and Wellness Counseling. Provides an introduction to basic counseling principles with special focus on those factors encountered in the provision of health and wellness-related services. Prereq.: Upper-division standing. 3 s.h.

5895. Counseling Workshop. Selected topics related to prevention and intervention approaches in school and community settings. Designed primarily as continuing professional education, this course is not included in counseling degree programs. Prereq.: Upper-division standing. 1-3 s.h.

5898. Orientation and Ethical Issues in Community Counseling. This course provides students with an introduction to the field of professional counseling and the foundations of community counseling. The course addresses the following topics: history, philosophy, cultural dynamics, advocacy, consultation, technology applications, and trends in professional and community counseling. The counseling profession’s ethical standards are also addressed with an emphasis on the ACA code of ethics and counselor ethical decision making processes. Requirements differ for undergraduate and graduate students. 3 s.h.

CRIMINAL JUSTICE—CJFS
Department of Criminal Justice

The following has been approved as a General Education course in the domain of Societies and Institutions: 1500, Introduction to Criminal Justice.

Lower-Division Courses

1500. Introduction to Criminal Justice. Overview of the American criminal justice process with emphasis on its constituent foundations, its constitutional limits, and the rights of the individual from arrest through sentencing and release. 3 s.h.

2601. Policing. The evolution, structure, and function of modern police organizations; the role of police in a democratic society; the impact of social, political, and economic influences; contemporary practices and controversies. Prereq.: CJFS 1500. 3 s.h.

2602. Criminal Courts. Structure and function of criminal courts in American society, perceptions of national commissions; organization, administration, and caseflow relationships with appropriate social agencies. Prereq.: CJFS 1500 or permission of instructor. 3 s.h.

2603. Corrections. Development and description of the American correctional systems’ history and philosophy; the constitutional foundations of its control, and the rights of those within it. Overview of treatment approaches. Prereq.: CJFS 1500. 3 s.h.

Upper-Division Courses

3700. Fire Investigation and Life Safety Codes. Principles of fire science including fire detection, suppression, investigation and prevention. Special emphasis on industrial and commercial locations and life safety measures, codes, and regulations. Emergency response to industrial and hazardous materials accidents and incidents. Prereq.: CJFS 2601 and must be a criminal justice or forensic science major or have permission of chairperson. 3 s.h.

3702. Correctional Strategies. Contemporary theory, practice, and research findings in the administration of juvenile and adult corrections. Community-based programs, including probation/parole/post-release control; institutional resources examined within the perspectives of prevention, control, and rehabilitation of the criminal offender. Concurrent with 3702L. Must be a Criminal Justice major or have permission of chairperson. Prereq.: CJFS 2603. 4 s.h.

3702L. Correctional Strategies Laboratory. Contact, observation, and on-site examination and comparison of community programs and institutional facilities. On-site 6 hours per week for 7 weeks (students are divided into two groups). Concurrent with CJFS 3702. Must be a Criminal Justice major or have permission of chairperson. Prereq.: CJFS 2603. 2 s.h.

3710. Social Statistics. Measurement and interpretation of social data by use of descriptive techniques. Cross-listed with SOC 3701. Prereq.: CJFS 1500. 3 s.h.
3712. Criminal Justice Research. Analysis of the major components of social research, including research design, sampling, measurement, data collection, analysis, and interpretation of findings. Prereq.: CJFS 3710 or STAT 2601 or equivalent. 3 s.h.

3714. Forensic Science Investigation. Scientific study of the significance of physical materials associated with crime scenes; qualitative and quantitative analytical concepts in the examination of physical evidence. Concurrent with CJFS 3714L. Prereq.: CJFS 2601. 2 s.h.

3714L. Forensic Science in Investigation Laboratory. Techniques and procedures in crime scene processing with special emphasis on legal and scientific aspects of physical evidence. Experiments and demonstrations concerning the examination of the physical and chemical properties of physical evidence. Three hours lab. Concurrent with CJFS 3714. Must be a Criminal Justice major or Forensic Science major. Prereq.: CJFS 2601. 1 s.h.

3715. Criminal Justice Management Concepts. Modern criminal justice management theory; organizational behavior, organizational development, personnel management, executive decision making, supervision problems. Must be a Criminal Justice major or have permission of chairperson. Prereq.: CJFS 2601 or 2602 or 2603. 3 s.h.

3719. Criminal Law. Development, theories, and purposes of criminal law; elements of a crime, parties to a crime. Prereq.: CJFS 2602. 3 s.h.

3720. Legal Research. In-depth study and legal research of case law, statutes, rules and regulations at the federal and state levels. Emphasis on how to find and use primary and secondary authority, how to conduct legal research, in-depth legal writing in areas such as torts, contracts, real estate, and criminal law. Prereq.: CJFS 2602 or permission. 3 s.h.

3721. Evidence. Admissibility of evidence, the hearsay rule and its exceptions, opinion evidence, circumstantial evidence, documentary evidence, presumptions, corpus delicti, and evidentiary privileges. Must be a Criminal Justice or Forensic Science major. Prereq.: CJFS 2602. 3 s.h.

3735. Crime and Delinquency. Study of the social context of crime in society, including a review of historical theories offered in explanation of criminal behavior. Review of social and psychological factors underlying delinquency, touching on treatment and preventive measures. Prereq.: PSYC 1560 and SOC 1500 and MATH 2601. 3 s.h.

3736. Criminal Victimization. Dynamics of the victim-offender relationships within the Criminal Justice System. Review of advocacy programs including information on victim compensation/assistance programs. Examination of society's attitudes towards victims. Review of current laws advocacy for compensation of crime victims. Prereq.: Any approved GER introductory-level course in the domains Societies and Institutions or Personal and Social Responsibility. 3 s.h.

3740. Criminal Justice Information Systems. Information theory and practice applied to criminal justice agencies; automated systems in policing, courts, and corrections at the federal, state, and local levels; problems and constitutional constraints. Microcomputer and Internet assignments. Prereq.: CJFS 3710 or CSIS 1514 or equivalent courses. 3 s.h.

3751. Prevention Strategies. Concepts and strategies of crime prevention, the protection of assets in the public and private sectors. Must be CJFS major, or have permission of chairperson. Prereq.: CJFS 2601. 3 s.h.

3752. Race, Ethnicity and Crime in America. A critical analysis of current research and theories of racial and ethnic discrimination within the American criminal justice system. The discussion will center on issues relating to: patterns of criminal behavior and victimization, police practices, court processing and sentencing, the death penalty, and correctional programs. Prereq.: CJFS 1500, SOC 1500, or PSYC 1560. 3 s.h.

3765. Human Relations. Methods of coping with conflicts arising from law violation intervention; programs for improving interpersonal relations between police and the community. Prereq.: SOC 1500 and PSYC 1560 plus 9 s.h. in CJFS. 3 s.h.

3777. POTA-Law Enforcement. Training academy at YSU consisting of 550 classroom hours. Academy consists of 12 semester hours of credit, which can be taken full-time in one semester or part-time across two consecutive semesters. Full-time is 5 days a week, 8 hours a day for 15 weeks (12 s.h.). Part-time is 5 days a week 4 hours in the evening for 30 weeks (6 s.h. + 6 s.h.). Upon completion, students receive eligibility from the Ohio Peace Officer Training Commission for certification. Prereq.: Senior standing, completion of the appropriate track courses, and permission from the Academy coordinator. 6-12 s.h.

3799. Directed Individual Study. Individual study or field research of a special topic related to the criminal justice field. Application must be made to the department prior to registration. May be repeated once for a maximum of 6 s.h. Prereq.: Senior standing and 15 s.h. of CJFS and approval of instructor. 1-5 s.h.

4800. Senior Seminar. Overview of the criminal justice system in the United States. Review of constitutional issues, discussion of contemporary issues. Serves as the criminal justice generalist track senior capstone course. Portfolios and resumes prepared, assessment exam. Must be a Criminal Justice major or have permission of chairperson. Prereq.: Senior standing. 3 s.h.

4803. Correctional Case Management and Treatment. Theory and techniques of counseling and interviewing the correctional client including case management. Simulated field and clinical situations to provide experience in interviewing and report writing. Serves as the corrections track senior capstone course. Portfolios are resumes prepared, assessment exam. Must be a Criminal Justice major or have permission of chairperson. Prereq.: CJFS 3702. 3 s.h.
4807. Criminal Justice Internship. Field experiences in an appropriate criminal justice agency under the direction of qualified and experienced professionals. Grading is CR/NC. May be repeated once for a maximum of 12 s.h. Prereq.: Senior standing in CJFS and specific emphasis area courses per department guidelines. 3-12 s.h.

4848. Loss Prevention and Assets Protection Administration. Security standards, policy, and regulations at the state and federal levels as they impact on the security operations. Administrative decisions regarding security program. Plant protection, safety and security; credit and insurance investigative procedures. Serves as the loss prevention/assets protection track capstone course. Portfolios and resumes prepared, assessment exam. Prereq.: CJFS 3751 and senior standing in criminal justice or permission of chairperson. 3 s.h.

4850. Special Topics in Criminal Justice. Contemporary issues in criminal justice. Topics are announced prior to enrollment. Prereq.: Senior standing or permission of instructor. 3-5 s.h.

4851. Women and Justice. Examines the historical development and current women's issues as they related to the justice system. Women's roles in the legal system, prisons (as staff and offenders), victims and perpetrators of violence, policing society and organized crime. Female juvenile delinquency and controversial topics such as abortion and capital punishment. Prereq.: Senior standing or permission of the chair. 3 s.h.

4870. Law Enforcement Administration. Detailed examination of the administration of line and staff services of law enforcement agencies and the role of technology in administration. Serves as the law enforcement track senior capstone course. Portfolios and resumes prepared, assessment exam. Must be a Criminal Justice major or have permission of chairperson. Prereq.: CJFS 3715 and senior standing. 3 s.h.

4890. Judicial Administration. Court management examined in light of structure, judicial responsibility, and inherent power of courts. Case flow, case management, automation, and judicial staffing. Serves as the legal processes track senior capstone course. Portfolios and resumes prepared, assessment exam. Prereq.: CJFS 3715 and CJFS 3719 and senior standing in criminal justice or permission of chairperson. 3 s.h.

5802. Corrections Law and Liability. Analysis and examination of legal mandates and restrictions affecting the field of corrections. History of the development of offender rights, current issues surrounding offender rights, and future concerns in this area. Jail and prison standards, accreditation standards, case law, and liability concerns. Prereq.: CJFS 3702 or approval of instructor. 3 s.h.

5814. Forensic Science and the Criminal Justice System. Review of the impact of forensic science on the criminal justice system; discussion of future applications, constitutional considerations, and the significance of physical evidence. Emphasis on management responsibilities with respect to the criminalistics laboratory. Prereq.: CJFS 3714 and CJFS 3714L. 3 s.h.

5820. Advanced Legal Research. Advanced techniques in conducting legal research using standard reference tools as well as automated on-line services and the Internet. Analysis of findings of legal issues related to criminal justice, report and memoranda writing utilizing the Harvard University System of Citations, legal forms and terminology. Prereq.: CJFS 3720 or approval of instructor. 3 s.h.

5825. Criminal Procedures and Constitutional Issues. Constitutional foundations of the American criminal justice process with special emphasis on recent Supreme Court decisions. Legal and practical applications of the laws of arrest, criminal procedure, search and seizure, court structures, and federal civil rights. Prereq.: CJFS 3719 and must be a criminal justice major or have permission of chairperson. 3 s.h.

5831. Violence in America. Analysis of violence in America including official and unofficial statistics, types and levels of violence, research findings, and profiles of offenders. Case analysis of domestic violence, juvenile violence, gangs, and other forms of violence. Prereq.: CJFS 3735. 3 s.h.

5865. Gathering and Using Information in Criminal Justice. Specialized communication skills to prepare criminal justice practitioners in information-gathering techniques, written presentation techniques, verbal and nonverbal communication skills within constitutional guidelines. Prereq.: CJFS 3712 or 3765. 3 s.h.

5875. Juvenile Justice System. In-depth analysis of the specialized agencies and procedures developed to deal with problems of juveniles from a historical and philosophical perspective. Consideration of the juvenile court, community-based programs, institutionalization. Prereq.: Senior standing. 3 s.h.

5892. Comparative and International Criminal Justice Systems. An examination of how countries' criminal justice systems are shaped and molded by elements of culture, religion, and political ideology of the area. Emphasis will be placed on comparing and contrasting the selected countries' criminal justice systems with those found in the United States of America. Prereq.: Senior standing or permission of the chair. 3 s.h.

DANCE—DNCE

Department of Theater and Dance

The following has been approved as a General Education course in the domain of Artistic and Literary Perspectives: 2698 Survey of Dance.

Lower-Division Courses

1540. Modern Dance 1. Elementary techniques of body movement. Rhythmic fundamentals and Improvisation. 1 s.h.
1541. Modern Dance 2. Intermediate modern dance techniques, composition, and improvisation. May be repeated up to six credit hours. Prereq.: DNCE 1540 or permission of instructor. 2 s.h.

1542. Dance Composition. Basic principles related to the form and structure of dance composition. Prereq.: DNCE 1541 or permission of instructor. 1 s.h.

1550. Wellness for Actors and Dancers. Conditioning, relaxation, and injury prevention techniques related to the needs of dancers and actors. Prereq.: 2 hours credit in any jazz, ballet, or modern dance technique classes or permission of instructor. 1 s.h.

1565 Topics in Dance. Selected topics in the practice, theory or scholarship of dance. May be repeated if the topic is different. 1-2 s.h.

1570. Tap and Jazz 1. Principles and practices of the basic techniques of tap dance, soft shoe, jazz, and the fundamental forms of dance movement found in musical theater. 1 s.h.

1571. Tap and Jazz 2. Further refinement and development of jazz and tap skills. This course may be repeated up to six credit hours. Prereq.: DNCE 1570 or permission of instructor. 2 s.h.

1573. Ballet 2. Expands on vocabulary and established patterns of balletic movement. This course may be repeated up to six credit hours. Prereq.: DNCE 1572 or permission of instructor. 2 s.h.

2606. Creative Dance for Children. Skills and methods development, and the learning process as it applies to teaching children’s dance and creative movement. Prereq.: Sophomore standing or permission of the instructor. 1 s.h.

2680. Tap Dance 3. Intermediate/advanced tap skills, with emphasis on speed, clarity of sound, and improvisation. May be repeated for a maximum of 2 credit hours. Prereq.: DNCE or permission of the instructor. 1 s.h.

2698. Survey of Dance. The role of dance in culture and history, tracing the evolution of various folk, social, and concert forms. Structural and stylistic elements important for the appreciation of movement and dance. 3 s.h.

Upper Division Courses

3730. Music for Dance. Designed to provide the dance student with basic musical knowledge and skills necessary for quality dance performance, production, and accompaniment. Prereq.: Minimum of 6 hours coursework in DNCE. 1 s.h.

3751. Modern Dance 3. Intermediate/advanced techniques in modern dance designed to develop professional performance quality. May be repeated up to six credit hours. Prereq: DNCE 1541 or consent of the instructor. 2 s.h.

3767. Choreography for Musical Theater. The study of dance, movement, and staging for the musical theater, culminating in student choreographed/staged works from a variety of musical theater productions. Prereq.: HPES 1540 or THTR 1540 or DNCE 1540 and HPES 1570 or THTR 1570 or DNCE 1570 or HPES 1572 or THTR 1572 or DNCE 1572. 2 s.h.

3770. Jazz Dance 3. Intermediate/advanced level class building upon a strong foundation in jazz dance. Refinement of technical and artistic proficiency. May be repeated for a maximum of 6 credit hours. Prereq.: DNCE 1571 or permission of the instructor. 2 s.h.

3781. Ballet 3. Intermediate/advanced course building upon skills acquired in Ballet 1 and 2. Designed to enhance technique and artistry. May be repeated for a maximum of six credit hours. Prereq.: DNCE 1573 or consent of the instructor. 2 s.h.

4871. Jazz Dance 4. Refinement of skills and artistic qualities essential for the performance of jazz dance repertory at a pre-professional level. May be repeated for a maximum of 6 credit hours. Prereq.: DNCE 3770 or permission of the instructor. 2 s.h.

4881. Ballet 4. Advanced-level movement skills and terminology. Skills increase in speed, complexity, and duration. This course may be repeated for a maximum of 6 credit hours. Prereq.: DNCE 3781 or permission of instructor. 2 s.h.

4885. Dance Kinesiology. Anatomy and kinesiology for the dancer, common injuries in dance and their care and prevention, study of physiological support systems, as well as applied knowledge of one’s body potential and limitations in dance. Prereq.: DNCE 1530, junior/senior standing or consent of instructor. 3 s.h.

4892. Pedagogy of Dance Technique. The theory and practice of sound dance teaching methods. An outside field experience in teaching dance will be required. Prereq.: Completion of minimum of 2 hours of dance technique in each of the following forms: Modern, Ballet and Jazz (satisfied by the completion of course work in those areas or by permission of the instructor), plus DNCE 1550, 2606, 3730 and 4885. Senior standing. 3 s.h.

**DENTAL HYGIENE—DHYG**

**Department of Health Professions**

1511. Dental Hygiene 1. An introduction to dental hygiene and its role as an integral part of the dental health profession. Theories and principles of client assessment, prevention of disease transmission, instrumentation, instrument sharpening, and coronal polishing. Prereq.: Admission to the Dental Hygiene program. 3 s.h.

1511L. Clinical Dental Hygiene I. Preclinical instruction which includes planning comprehensive patient care and implementation techniques. Six hours lab per week. Prereq.: Admission to the Dental Hygiene program. 2 s.h.
1512. Dental Hygiene 2. Discussion of individualized patient education instruction, tobacco cessation, the appropriate preventive dental agents and devices to improve various dental conditions and implementation techniques. Prereq.: DHYG 1511. 2 s.h.

1512L. Clinical Dental Hygiene 2. Clinical application of dental hygiene techniques with emphasis on applied preventive measures. Nine hours clinic per week. Prereq.: DHYG 1511L. 3 s.h.

1513. Dental Hygiene 3. Concepts of nutrition science as they relate to evaluation and education of dental hygiene patients. Prereq.: DHYG 1512. 1 s.h.

1513L. Clinical Dental Hygiene 3. Clinical application of dental hygiene techniques with emphasis on nutrition as it relates to dental caries and periodontal disease. Prereq.: DHYG 1512L. 1 s.h.

1514L. Clinical Dental Hygiene Remediation. This course is designed to improve the dental hygiene student’s clinical skills, and to develop the basic competencies essential for performing invasive dental hygiene procedures. The student’s individual clinic deficiencies will be addressed, along with patient management and time utilization. This course may be repeated one time. Four hours of clinic per week for twelve weeks. Prereq.: Unsatisfactory progress. 1 s.h.

1521. Dental Anatomy. A study of the anatomy of the head and neck, oral structures, tissues of the human body, and embryologic development. Prereq.: Admission to the Dental Hygiene program. 3 s.h.

1521L. Dental Anatomy Lab. Applied study of tooth morphology and the anatomy of the head and neck. Prereq.: Admission to the Dental Hygiene program. 1 s.h.

1529. Management of the Medically Compromised Patient. Discussion of modified dental hygiene procedures as they relate to special needs dental clients and management of medical/dental emergencies. Prereq.: DHYG 1511. 2 s.h.

1530L. Dental Radiology Lab. The techniques necessary to expose, develop, and mount dental films. Three hours lab per week. 1 s.h.

1535. General and Oral Pathology. The cause and nature of disease, together with anatomical and functional changes. Observation and progression of disease in the human as related to diagnosis and treatment planning. Special emphasis is given to oral pathology. Prereq.: DHYG 1521. 2 s.h.

2611. Dental Materials. The sources, physical properties, methods of manufacturing, and uses of various dental materials. One hour lecture per week. Prereq.: Second-year standing in the Dental Hygiene program. 1 s.h.

2611L. Dental Materials Lab. Selected dental materials are manipulated in laboratory procedures so the student can assist the dentist at the chair as well as perform certain laboratory procedures and specified clinical duties. Three hours of lab per week. Prereq.: Second-year standing in the Dental Hygiene program. 1 s.h.

2614. Dental Hygiene 4 Seminar. In-depth seminar on advanced clinical procedures and comprehensive client care. Emphasis on specialties, implementation and evaluation phases, and applications in dental hygiene treatment planning. Concurrent with DHYG 2614L. Prereq.: DHYG 1513. 1 s.h.

2614L. Clinical Dental Hygiene 4. Clinical application of dental hygiene techniques with emphasis on comprehensive care of periodontal patients. Twelve hours of clinic per week. Prereq.: DHYG 2614. 4 s.h.

2615. Dental Hygiene 5 Seminar. In-depth seminar dealing with comprehensive dental hygiene care. Assessment, diagnosis, planning, and implementation phases of treatment discussed for complex medically and dentally compromised clients. Each student presents a capstone case study. Concurrent with DHYG 2615L. Prereq.: DHYG 2614. 1 s.h.

2615L. Clinical Dental Hygiene 5. Advanced clinical application of dental hygiene techniques with emphasis on professionalism and patient and time management. Twelve hours clinic per week. Prereq.: DHYG 2615. 4 s.h.

2623. Pharmacology for the Dental Hygienist. Importance of pharmacological aspects of those drugs and drug groups with which the dentist and hygienist are directly and indirectly concerned. Prereq.: DHYG 1512L. 

2627. Dental Public Health. An introduction to public health dentistry, including study of the epidemiology of dental disease. Particular attention is given to preventing and controlling dental disease and promoting optimal oral health through organized community efforts. Prereq.: Second-year standing in the Dental Hygiene program. 2 s.h.

2627L. Dental Public Health Practicum. Primary preventive dental services provided by students in off-campus locations. A case-study design is used by student teams in solving a community oral health problem. Three hours lab and/or clinical experience per week. Prereq.: DHYG 2614L. 1 s.h.
2628. Practice Concepts. The historical, professional, legal, and ethical aspects of dental hygiene and dentistry. Discussion of responsibilities and changing roles of the dental hygienist, including an overview of dental office management. Prereq.: Second-year standing in the Dental Hygiene program. 1 s.h.

3724. Local Anesthesia and Pain Control for Dental Hygienists. Instruction in the anatomy, physiology, pharmacology and administration of local anesthesia and other pain control methods. Prereq.: DHYG 2623 or permission of the program director. 1 s.h.

3724L. Local Anesthesia and Pain Control Clinic. Application of the techniques of local anesthetic administration and pain control on anatomical models and clinical partners. Three hours of clinic per week. Prereq.: DHYG 2623 or permission of the program director. 1 s.h.

DRAFTING AND DESIGN TECHNOLOGY—DDT

Engineering Technology

1503. AutoCAD 1. Basic instruction in the use of AutoCAD computer-aided drafting system. Includes primary 2D skills including dimensioning, blocks, external reference and plotting. Customization methods and an introduction to application programming. One and one-half hours lecture, one and one-half hours lab per week. Grading is A, B, C, NC. Prereq.: Math 1504 or at least Level 40 on the Mathematics Placement test. Concurrent with DDT 1504. 2 s.h.

1504. Drafting and Plan Reading. Drafting basics including plan, section, and elevation views; orthogonal projections; line types and weights; drafting scales; dimensioning; tolerances; grading and contours, and construction layout for the civil, mechanical, and electrical technology disciplines. Development of skills in the interpretation and preparation of plans used for civil, mechanical, and electrical construction and fabrication. One and one-half hours lecture, one and one-half hours laboratory per week. Grading is A, B, C, NC. Prereq.: Math 1504 or at least Level 40 on the Mathematics Placement test. Concurrent with DDT 1503. 2 s.h.

1505. CAD Technology 1. Basic instruction in the use of AutoCAD computer-aided drafting system. Includes primary 2D skills including dimensioning, blocks, external reference and plotting. Customization methods and an introduction to application programming. Three hours lecture, three hours lab per week. Prereq.: High school drafting or equivalent. 4 s.h.

2606. CAD—Solid Modeling. Parametric solid modeling and other 3D techniques. Customization techniques and use of an application programming language within the CAD software. Three hours lecture, three hours lab per week. Prereq.: DDT 1503 or DDT 1505. 4 s.h.

2607. CAD—Microstation. Introduction and applications of Bentley Microstation CAD program. 2D and complex elements, dimensioning, patterning, plotting and development of basemaps. One hour lecture, three hours lab per week. Prereq.: DDT 1503 or DDT 1505. 2 s.h.

2608. Machine Elements. Design and drafting of machine elements common to mechanical equipment, including bending, torsion, and bearing concepts. Application and interpretation of GD & T. Two hours lecture, three hours lab per week. Prereq.: CCET 2604. 3 s.h.

2609. Industrial Technology. Materials planning and handling, applications of quality assurance, post-production control. Introduction to ergonomics and manufacturing standards. Two hours lecture, three hours lab per week. Prereq.: MET 2630. 3 s.h.

2610. Special Topics in DDT. Special topics/new developments in drafting and design technology. Subject matter, special prerequisites, and credit hours to be announced in advance of each offering. May be repeated with different subject matter to a maximum of 8 s.h. Prereq.: Consent of the instructor. 1-4 s.h.

EARLY AND MIDDLE CHILDHOOD EDUCATION—EMCE

Department of Teacher Education

4815. Seminar in Elementary School Science. Critical study of current developments in objectives, methods, materials, and evaluation in science education as they affect the elementary science program. Includes discussions, field trips, demonstrations and laboratory work. Prereq.: Admission to COE upper-division status. 2 s.h.

5811. Early Childhood Generalist: Math and Science. By exploring math and science teaching practice for grades 4-5, the candidates will review teaching methods of math and science, master the contents stated in the Ohio Academic Standards, find and design math and science programs and lessons and strengthen the assessment methods for the classroom instruction. Prereq.: Upper division status. 3 s.h.

5812. Integrated Language Arts and Social Studies for 4th and 5th Grades. Candidates will learn language arts and social studies teaching methods, design integrated lessons, incorporate state and national standards, and utilize assessment methods for grades 4-5. Prereq.: Upper division status. 3 s.h.
5816. Diagnosis and Remediation of Elementary School Mathematics. In-depth study of diagnosis and remediation as they affect the elementary school mathematics program. Includes discussions, field trips, demonstrations and laboratory work. Prereq.: Admission to COE upper-division status. 2 s.h.

5888. Topical Seminar. Examination of issues related to the teaching of reading not covered in depth in other courses. Prereq.: Admission to upper-division status in COE or admission to the School of Graduate studies. 1-3 s.h.

EARLY CHILDHOOD EDUCATION—ECE
Department of Teacher Education

2629. Teaching Young Children: Best Practices in Early Childhood Education. Gives teacher candidates a research-based inquiry into early childhood education and promotes the acquisition of knowledge, skills, and dispositions that will facilitate best practices within the field. 10 field/clinical hours

3713. Teaching of Mathematics: Early Years. Using NCTM/NAEYC/NCATE and Ohio Model guidelines as the framework, focus on identifying and modeling developmentally appropriate strategies used for problem solving, communicating, and reasoning in early childhood mathematics. Learning to use mathematical connections to stimulate diverse students' development of math concepts and skills and create learning environment combining mathematics pedagogy/methodology in an early grades classroom. Prereq.: BCOE upper-division status and approval of chair. Coreq.: ECE 3715, 3780, and 4814. 3 s.h.

3715. Teaching Science: Early Years. Using NSTA/NCATE and Ohio Model guidelines as the framework, focus on establishing and maintaining learning environments that provide diverse students with a holistic, interdisciplinary understanding of science. Topics include teaching for meaningful science understanding, planning and providing an effective and supportive learning environment, planning and implementing curriculum and lessons appropriate for children in their early years, selection and use of instructional aids and resources, assessment, and professional development. Experiences that promote the use of science processes and problem-solving skills for life-long learning. Field experience combining science pedagogy/methodology in an early childhood setting. Prereq.: BCOE upper-division status and approval of chair. Coreq.: ECE 3713, 3780, and 4814. 3 s.h.

3760. Cross-Curricular Applications and Classroom Management/Guidance. Synthesis and application of developmental theories and appropriate practices and methods in classrooms for young children, including curriculum integration, quality classroom environments, and classroom management/guidance. (10 hours of focused field placement.) Prereq.: BCOE upper-division status. 3 s.h.

3780. Social Studies for Young Children. Methods of teaching social studies to young learners (PreK-3) including exploration of a variety of effective teaching and assessment behaviors related to diverse learner needs. Use of key concepts, application of tools of social studies to foster social development and encourage independent problem solving, investigate the use of technology, create instructional resources; collaboratively plan, teach, and evaluate lessons in inclusive instructional settings; keep a reflective learning log. Prereq.: BCOE upper-division status and approval of chair. Coreq.: ECE 3713, 3715, and 4814. 3 s.h.

4811. Supervised Student Teaching: Pre-Kindergarten. Student teaching consists of a 10-week assignment in a preschool. Grading is CR/NC. Prereq.: CHFM 2664, ECE 2630, SPED 2631. 1-12 s.h.

4814. Language Arts Methods in the Early Years (Ages 3-8). Teaching oral and written communication through consideration of listening, speaking, reading, viewing, and related skill areas in the elementary school. Prereq.: BCOE upper-division status and approval of chair. Coreq.: ECE 3713, 3715, and 3780. 3 s.h.

4841. Supervised Student Teaching: Early Childhood. A 16-week assignment in a kindergarten-grade 3 setting. Grading is CR/NC. Prereq.: BCOE upper-division status, passing scores on PRAXIS II content and PLT tests, criminal background check, and completion of early childhood program excluding student teaching and student teaching seminar. Coreq.: ECE 4842. 1-10 s.h.

4842. Student Teaching Seminar in Early Childhood Education. Development of an effective and developmentally appropriate K-3 classroom environment including: teacher work sample, daily lessons, classroom management, reflective teaching and growing as a professional in the field of early childhood education. Coreq.: ECE 4841. 2 s.h.

4859. Pre-Kindergarten Teaching Methods and Materials. Methods and techniques used to implement the pre-kindergarten curriculum with emphasis on communication and creative arts, social, emotional, and physical development, and concept formation. Required for prekindergarten validation of other teaching certificates. Prereq.: SPED 2631, ECE 3759. 3 s.h.
ECONOMICS—ECON
Department of Economics

The following have been approved as General Education courses in the domain of Societies and Institutions: 1501, Economics in Action; 1502, Panic and Prosperity, US Economic Policy Since the Great Depression; 1503, Rich and Poor, Diversity and Disparity in the U.S. Workplace; 2610, Principles 1; and 2630, Principles 2. General Education credit can only be given for one of the following: 1501, 1502, 1503, or 2610.

Lower-Division Courses

1501. Economics in Action. An introduction to the United States' economic system and institutions through the examination of current economic problems. Not applicable for a major or minor in economics. Credit will not be given for 1501 if a student has already received credit for ECON 2610 or its equivalent. 3 s.h.

1502. Panic and Prosperity, U.S. Economic Policy Since the Great Depression. Examines the crises and successes of the American economy since 1929, and how the economic policies of different presidential administrations affected the lives of U.S. citizens. Not applicable towards a major or minor in economics. 3 s.h.

1503. Rich and Poor: Diversity and Disparity in the U.S. Workplace. Examines how labor markets determine the distribution of income and the dramatic changes in the composition of the American labor force. Explores such issues as the widening gap between low and upper income groups, the characteristics of the poor, affirmative action, the glass ceiling, the mommy track, and family-friendly working environments. Not applicable towards a major or minor in economics. 3 s.h.

1504. Economics of Aging. An introduction to the economic consequences of an aging population and the economic status of the aged. Topics include income adequacy in old age, retirement decisions, retirement income planning, social security income, employer-sponsored pensions, and financing health care. Not applicable toward a major or minor in economics. Prereq.: ECON 1501 or GERO 1501. 3 s.h.

2610. Principles 1: Microeconomics. Introduction to the theory of markets, including the behavior of consumers and the conduct of private and public business enterprise. Effects of monopoly and competition on private and social welfare. The role of government in promoting the economic welfare of consumers, workers, and minorities. Prereq.: MATH 1501, or a level 20 or higher on the math placement exam. 3 s.h.

2630. Principles 2: Macroeconomics. Studies of growth, inflation, and unemployment at the national level and the performance of the U.S. economy in the global setting. The impacts of national economic policies on individual and social welfare. An extensive discussion and evaluation of the U.S. banking system and its effects on individuals and businesses. Prereq.: ECON 2610. 3 s.h.

3701. Money and Banking. Organization and operation of commercial banking in the United States; central banking under the Federal Reserve System; basic theory. Monetary policy as a determinant of national income. Prereq.: ECON 2630. 3 s.h.

3702. Public Finance. The development and present status of public finance; federal, state and local expenditures and taxation; theories of tax incidence, axioms of taxation, theories in justification and government spending; tax reform. Study of the techniques of fiscal policy with emphasis on its role as a determinant of the level of national income. Prereq.: ECON 1501 or 2610. 3 s.h.

3705. Environmental and Resource Economics. Application of economic theory to environmental problems, analysis of policy alternatives for pollution abatement, and the conservation of exhaustible resources. Determination of efficient management of local and national pollution levels, including air, water, and toxic substances. Possible economic consequences associated with global warming. Prereq.: ECON 1501 or 2610. 3 s.h.

3710. Intermediate Microeconomic Theory. A systematic analysis of the theory of demand and the theory of the firm: production input and output choices, and some basic concepts of linear programming. An intensive analysis of the theory of the firm: competitive pricing, monopoly pricing, pricing in imperfect competition; and the theory of rent, profits, interest and wages. Prereq.: ECON 2610, and either MATH 1549, 1552, 1570, or 1571. 3 s.h.

3712. Intermediate Macroeconomic Theory. The construction of national income and production accounts and the basic determinant of income, output, and employment. Determination of the level of employment, interest, and money through the classical versus Keynesian aggregate economics. Prereq.: ECON 2630 and either MATH 1549, 1552, 1570, or 1571. 3 s.h.

3720. Comparative Economic Systems. An examination of the recent world-wide trend toward free market economy, giving particular attention to basic processes such as resource allocation and product distribution. Frequent references are made to the failure of Socialism in the USSR and the new approach in Russia, Eastern Europe and China toward market economies. Prereq.: ECON 1501 or 2630. 3 s.h.

3724. Public Budgeting. Study of the politics, theories, and techniques of public budgeting. Includes the process of budget preparation, adoption and execution. Topics include debt management and capital budgets. (This course is cross-listed with Political Science 3724.) Prereq.: POL 3720. 3 s.h.

3790. Statistics for Business and Economics. Introduction to statistical methods in data analysis and forecasting. Topics include descriptive statistics,
probability, hypothesis testing, regression analysis, ANOVA and time series analysis. Practical application of statistical procedures is incorporated into regularly scheduled computer workshops. Prereq.: MATH 1549, 1552, 1570, or 1571. 5 s.h.

4810. Managerial Economics. An application of economic analysis to business problems. Emphasis upon executive decisions for the allocation of resources. Prereq.: ECON 2610. 3 s.h.

4843. Economics of Poverty, Discrimination and Transfer Programs. Causes of poverty and income inequality and the analysis of the policy options for reducing poverty. Quantification of the dimensions of poverty, the evaluation of the effectiveness of training programs, the effects of antipoverty programs on the behavior of recipients, and the affirmative action debate. Prereq.: ECON 2610. 3 s.h.

4855. Health Economics. Application of basic principles to the study of the health care industry. Topics include the supply and demand of medical care, the effects of private and public insurance on the health care industry, trends in health care costs, public policies to equalize access to medical care and the dilemma caused by the improvement in life-sustaining technology. Prereq.: ECON 2610. 3 s.h.

4860. Selected Topics in Economics. Advanced study of selected topics in economic analysis and issues in economic policy. May be repeated once with different topic. Prereq.: By permit only, minimum GPA 2.5. 1-3 s.h.

4870. Economic Internship. The practical application of economic knowledge and statistical skills in the workplace. Students assist professionals in various kinds of industrial, financial, and public service organizations. Prereq.: By permit only, minimum GPA 2.5. 3 s.h.

4880. Analysis of Economic Problems. The application and extension of the student’s skills in economic analysis and statistical techniques to economic issues. The course covers sources of data, exploratory data techniques, matching of data and statistical tests, interpretation and presentation of the results. Students demonstrate their command of research techniques by the completion of a research paper and its oral presentation. Topics to be determined. Prereq.: ECON 3710, 3712, and either 3790 or the previously offered 3780. 3 s.h.

4899. Individual Study in Economics. Individual study of a topic, area, or problem requiring in-depth reading, and a written project. May be repeated once with a different topic, area, or problem. Prereq.: Junior or senior standing, by permit only. 1-4 s.h.

5801. Economics of Industrial Organization. A systematic analysis of the structure, conduct, and performance of American industry. A quantitative analysis plus a comprehensive review of theoretical models of the market, firm behavior, and performance. Prereq.: ECON 2610. 3 s.h.

5806. History of Economic Thought. Designed to provide students with an understanding of the development of economic ideas to include: Mercantilism, Physiocrats, the English Classical School, Utilitarianism, early Social Thought, Karl Marx, the German Historical School, Institutionals and the Keynesian School. Prereq.: ECON 2630. 3 s.h.

5809. Current Problems in Money, Banking, and Financial Markets. The financial market system, including money and capital markets. Current problems associated with trends in theory and practice. Theories of the interest rate and monetarism. Prereq.: ECON 3701 or consent of instructor. 3 s.h.

5811. International Trade. Theories of international trade and specialization; free trade vs. protectionism; tariff and non-tariff barriers to international trade; international balance of payments and its components; the role of multinational enterprises in contemporary trade pattern; regional economic integrations and world trade; U.S. commercial policies. Prereq.: ECON 2630. 3 s.h.

5812. International Finance. Theories of foreign exchange and capital movements, international payments, analysis of spot and forward foreign exchange markets, foreign exchange market arbitrage, speculation, and risk hedging. The Bretton Woods agreement and the contemporary international monetary system. The rise of international organizations and multinational enterprises in the international economy. Prereq.: ECON 2630. 3 s.h.

5822. Urban and Regional Economics. Economic analysis of the problems of urbanized areas and the causes of the growth or decline in economic activity in small-area economics. Topics include benefit-cost analysis, economic base analysis, input-output applications, and the theory of location and agglomeration. Prereq.: ECON 2610. 3 s.h.

5824. Applied Time Series Analysis of Economic and Business Data. An in-depth analysis of time series models and their applications to problems in economics and business. Emphasis on forecasting. Extensive use of standard computer programs. Prereq.: ECON 2610 and either ECON 3790 or the previously offered 3780 or STAT 5817. 3 s.h.

5831. Labor Markets and the Economics of Unions. Economic theory and analysis of labor as an input in the resource market; principles, labor problems, public policy; theories of the development of the labor movement; economic objectives of trade unions; problems in public control. Prereq.: ECON 2610. 3 s.h.

5853. Applied Econometrics. The practice of econometrics with emphasis on model construction, estimation, and interpretation of results. Applications in the private and public sectors involve the use of computers and economic software. Prereq.: ECON 2630 and either 3790 or the previously offered 3780. 3 s.h.
5856. *Topics in Quantitative Economics.* Application of different tools of mathematical economics, computational economics, and econometrics in conjunction with economic theory to model economic problems of firms, consumers, financial institutions, and public sectors. Specific content of the course will vary with the instructor. May be repeated once with a different topic. Prereq.: ECON 3790 or the previously offered 3780.

**EDUCATIONAL TECHNOLOGY—EDTC**

**Department of Teacher Education**

3771. *Technology for Teaching.* Introduction to the issues, pedagogies, and skills associated with the use of technology in the educational process. Experiences with computers and educational technology include computer productivity software, information retrieval sources, creation of instructional materials, selection/evaluation of hardware and software, telecommunications, Internet, and introductory multimedia. Emphasis on use and assessment of computers and media as educational tools. Required of all candidates for teaching certificates. Two hours lecture, two hours lab. Prereq.: Admission to upper-division status in COE. 3 s.h.

5899. *Integration of Instructional Computing.* Planning for and integrating computing into classroom instruction and the utilization of a variety of hardware, systems, and peripherals in educational environments. Review and use of educational software in, and develop software integration projects for curricular areas, including instructional uses of productivity software, the Internet, telecommunications, desktop publishing, desktop video, multimedia, and record keeping. Prereq.: EDTC 3771. 3 s.h.

**ELECTRICAL AND COMPUTER ENGINEERING—ECEN**

**Department of Electrical and Computer Engineering**

**Lower-Division Courses**

1521. *Basic Digital and Computer Circuits.* Introduction to digital and computer design concepts: number systems, switching algebra, logic gates, and truth tables. Combinatorial and sequential design techniques. Comparators, multiplexers, decoders and encoders, flip-flops, registers, counters, and their practical applications. 3 s.h.

1521L. *Basic Digital and Computer Circuits Laboratory.* Laboratory exercises to accompany ECEN 1521. Design and testing of combinatorial and sequential logic circuits. Experiments with computer hardware. Prereq. or concurrent: ECEN 1521. 1 s.h.

1555. *Computer Engineering.* Introduction to the personal computer, applications software, technologies, microprocessors, microcomputer programming and applications. Basic operations of digital circuits, interfacing using integrated chips, and analog computers. Experiments accompany lectures, providing practical experience for students. 3 s.h.

1555H. *Honors Computer Engineering.* The personal computer, its components, and the role it plays in control applications, instrumentation, and engineering design. Basic experiments using digital circuits, microcomputers, integrated circuits, and design software integrated into a project with the personal computer and instrumentation. Prereq. or concurrent: ENGL 1550H and admission to the Honors Program, or permission of instructor and Director of Honors Program. 3 s.h.

2610. *Computer Tools for Electrical and Computer Engineering.* Introduction to software packages and resources such as MATLAB, PSpice, and Quartus II for analysis and design of circuits and systems. Prereq. or Concurrent: ECEN 2632 and ECEN 2611. 1 s.h.

2611. *Instrumentation and Computation Lab 1.* Laboratory experiments and computer exercises to accompany ECEN 2632. Laboratory experimentation and basic instrumentation. Computer-aided analysis and simulation. Prereq.: ENGR 1560 or CSIS 2610. Prereq. or concurrent: ENGL 1551 and ECEN 2632. 1 s.h.

2612. *Instrumentation and Computation Lab 2.* Laboratory experiments and computer exercises to accompany ECEN 2633. Laboratory experimentation and basic instrumentation. Computer-aided analysis and simulation. Prereq.: ECEN 2611 and ENGL 1551. Prereq. or concurrent: ECEN 2633. 1 s.h.

2689. *Design of Instructional Computing.* The personal computer, applications software, design methods, and instructional resources such as MATLAB, PSpice, and Quartus II for analysis and design of circuits and systems. Prereq.: ENGR 1560 or CSIS 2610. Prereq. or concurrent: ENGL 1550H and admission to the Honors Program, or permission of instructor and Director of Honors Program. 3 s.h.

**Upper-Division Courses**

3710. *Signals and Systems.* Operation and analysis of communication, control, and computer systems at the signal level. Computer aided design tools and methods to analyze signals and systems. Continuous and discrete-time Fourier transforms. Noise analysis, signal detections, line codes, and multiplexing. Prereq.: ECEN 2633, ECEN 1521 and MATH 3705. 3 s.h.
3711 Intermediate Laboratory 1. Laboratory experiments and computer exercises in the areas of digital and analog electronics and logic and computer circuits. Designed to accompany the co-requisite courses. Prereq.: ECEN 2612. Prereq. or concurrent: ECEN 3731 and 3771. 1 s.h.

3712. Intermediate Laboratory 2. Laboratory experiments and computer exercises in the areas of digital and analog electronics, logic and computer circuits, and electromagnetics. Designed to accompany the co-requisite courses. Prereq.: ECEN 3711. Prereq. or concurrent: ECEN 3742; ECEN 3772 or 3732. 1 s.h.

3717. Sensor Fundamentals. Basic principles of sensors such as electro-chemical, -mechanical, -optical, and -thermal transducers. Signal conditioning and smart sensors. Applications to process control and environmental systems. Prereq.: MATH 3705, and either PHYS 2611 or ECEN 2632. 3 s.h.

3730. Microprocessors and Microcontrollers. Organization and structured assembly language programming. Digital controller devices and their relationships to processors and physical environments. Two hours lecture and three hours laboratory per week. Prereq.: ECEN 3731. 3 s.h.

3731, 3732. Digital Systems 1, 2. Analysis, design, and application of logic arrays, basic cells, flip-flops, registers, counters, memories, and controllers. Synchronous and asynchronous finite-state machines. Analysis and design of systems using programmable logic arrays, programmable logic controllers, and microprocessors. Prereq.: ECEN 1521, 1521L, 2632 for 3731; 3731 for 3732. 3+3 s.h.

3734. Computer Design. Systematic methodologies for digital computer hardware and software designs. VLSI circuits. SOPC, CPLD, and FPGA designs. Hardware description languages. Prereq.: ECEN 3733. Prereq. or concurrent ECEN 3712. 3 s.h.

3771. Digital and Analog Circuits 1. Terminal characteristics of electronic devices such as diodes, BJTs (bipolar junction transistors), FETs (field effect transistors), and operational amplifiers. The design of digital circuits with these devices. Basic bias and small-signal models for analog amplifiers. Computer-aided design and analysis. Prereq.: ECEN 2633. 3 s.h.

3772. Digital and Analog Circuits 2. Continuation of ECEN 3771. Bias and signal modeling for amplifier design. Large-signal, small-signal and DC amplifiers. Single-stage, multistage and power amplifiers. Frequency response. Applications with op amps such as amplifiers, comparators, filters, and oscillators. Computer-aided design and analysis. Prereq: ECEN 3771. 3 s.h.

4803/4803L. Linear Control Systems. Laplace transform techniques and system modeling. System responses and performance measures. Root locus analysis and design. Frequency response methods: Bode plots, Nyquist criterion, stability margins. Computer-aided control system design. Control design and implementation. Two hours lecture, three hours laboratory per week. Prereq.: ECEN 2633, 3712, MATH 3705, MECH 2641. 3 s.h.+0 s.h.

4811. Senior Laboratory. Laboratory experiments and computer exercises in the areas of applied electromagnetics, energy conversion. Designed to accompany the co-requisite course. Prereq.: ECEN 3712. Prereq. or concurrent: ECEN 4844. 1 s.h.

4844. Electromagnetic Energy Conversion. An examination of lumped electromagnetic parameters with development of theoretical, experimental, and design parameters for electrical energy conversion devices such as transformers, motors, and generators. Typical and special applications. Prereq.: MECH 2641, ECEN 3741 and 21 s.h. of ECEN courses. 3 s.h.

4851. VLSI System Design. Basic MOSFET models. Layout of inverters, NAND, NOR, PLA, PAL and ROMs. CMOS process and design rules. VLSI system design methodology and computer EDA tools such as PSpice and layout editors. Prereq.: ECEN 3771, ECEN 3731. 3 s.h.

4852. Neural Networks and Robotics. Principles for control applications and robotics, direct inverse control, neural networks, and fuzzy set theory. Applications including adaptive control, neural networks for motion control and path planning in robotics. Prereq.: ECEN 3730. 3 s.h.

4856. **Embedded Systems.** Fundamentals of small-scale and medium-scale embedded systems. Design techniques for processors, timers, input device interfacing, interrupt controllers, and drive circuits. Real-time operating system programming tools. Hardware-software co-designs. Two hours lecture, three hours laboratory. Prereq.: ECEN 3733. 3 s.h.

4881. **Modern Control System Design.** Advanced control system analysis and design. LQR, pole placement, state observer design. Introduction to system identification and adaptive controllers. MATLAB simulation and real-time implementation of controllers. Two hours lecture, three hours laboratory per week. Prereq.: ECEN 4803. 3 s.h.

4899. **Senior Design Project.** An electrical/computer engineering design problem is chosen or assigned; students work in teams. Proposals are presented which describe the design problem and approaches to it. The final design is presented in written and oral forms. This capstone course is intended to mimic a typical industrial or research project and includes ethical and economical considerations with the engineering work. Three hour lecture/discussion, three hours of laboratory per week. Prereq.: ECEN 4811 and 27 s.h. of ECEN courses. 4 s.h.

5800. **Special Topics.** Special topics, new developments in Electrical Engineering. Subject matter, special prerequisites, and credit hours to be announced in advance of each offering. May be repeated with different subject matter to a maximum of 6 s.h. Prereq.: Senior standing in Electrical and Computer Engineering. 1-3 s.h.

5807. **Advanced Digital and Analog Circuits.** Chip circuitry for devices such as BJT, CMOS, and ECL-based digital logic chips. Switching devices such as SCRs, triacs, and timers. Switching power supplies. Power amplifiers. Applications and specifications of off-the-shelf IC devices. Computer-aided design and analysis. Prereq.: ECEN 3772. 3 s.h.

*5808. **Advanced Signals and Systems.** Communication and control system modeling and simulations; signal analysis in continuous-time, discrete-time and frequency domains. Advanced communication system applications. Prereq.: ECEN 3710 or Graduate Standing. 3 s.h.

5816. **Theory and Fabrication of Solid-State Devices.** An introductory study of physical theory, design, and fabrication of discrete devices and integrated circuits. Electronic properties of semiconductors such as carrier concentration, energy gap, mobility, lifetime. Techniques of fabrication such as oxidation, diffusion, alloying ion implantation, metallization, masking. Prereq.: ECEN 2633, PHYS 2610, ECEN 3741. 3 s.h.

5817. **Sensor Design and Application.** Designs and applications for measurement and control; includes electro-chemical, -mechanical, -optical, and -thermal transducers. Signal conditioning and smart sensors. Prereq.: ECEN 3771 or ECEN 3717. 3 s.h.

5830. **Digital Signal Processing.** Discrete time signals and systems; discrete, fast, and inverse Fourier transforms. Digital filter analysis and design, digital signal processing applications. Two hours lecture, three hours laboratory. Prereq.: ECEN 3711 and 3710. 3 s.h.

5835. **Computer Architecture with VHDL.** Use of hardware description languages to design computer components and systems. Arithmetic and logic units, control units, VHDL models for memories and buses, interfacing, transfer design. Survey of modern computer systems. Prereq.: ECEN 3732. 4 s.h.

5840. **Electric Power Systems.** Modeling of power system components. Power flow, faults, protection systems, and stability problems. Special projects and laboratory experiments including CAD applications for analysis, design, and simulation of power system networks. Three hours lecture, three hours laboratory per week. Prereq. or concurrent: ECEN 4844. 4 s.h.

5850. **Communications Applications.** Applicable technologies and “real-world” communication components and systems. Design and analysis tools. Emerging technologies, “killer apps”, networking, data acquisition, and convergence. Prereq.: ECEN 3710 or Graduate Standing. 3 s.h.

5860. **Energy Radiation and Propagation.** Examination of dipole, loop aperture, reflector, lens, surface wave, traveling wave, and other antennas; array theory; radiation resistance, directivity, and input impedance. Investigation of theoretical and practical applications of fiber optics. Prereq.: ECEN 3741 and 21 s.h. of ECEN courses. 3 s.h.

5879. **Computer-Aided Design.** The design, analysis, and modeling of linear and nonlinear networks and systems using a simulation and modeling computer program. Development and use of library models of devices, subcircuits, and subsystems. Prereq.: ECEN 2611 and 21 s.h. of ECEN courses. 3 s.h.

5890. **Power Electronics.** SCRs, rectifier circuits, commutation techniques, AC controllers, converters, and inverters. Special projects and laboratory experiments including computer applications for analysis, design, and simulation of power electronics network. Three hours lecture, three hours laboratory per week. Prereq.: ECEN 3771 and 21 s.h. of ECEN courses. 4 s.h.

**ELECTRICAL ENGINEERING TECHNOLOGY—EET**

**Engineering Technology**

**Lower-Division Courses**

1501. **Circuit Theory 1.** Theoretical analysis of DC electrical circuits including units conversions, current voltage, power, Ohm’s Law, Kirchhoff’s Laws, network theorems, capacitance, magnetic circuits, inductance and transient analysis of RL and RC circuits. Prereq. or concurrent: ENTC 1505. Concurrent with EET 1501L. 3 s.h.
1501L. Circuit Theory 1 Lab. Use of electrical components to construct circuits and use of electrical instrumentation including meters and oscilloscopes to analyze DC resistive series/parallel networks and basic RC & RL transient circuits. Computer circuit analysis with PSPICE. Three hours per week. Concurrent with EET 1501. 3 s.h.

1502. Circuit Theory 2. Study of AC sinusoidal waveforms, phasor representations, phasor algebra and phasor diagrams. Solution of steady state single phase series/parallel networks including network theorems, power and power factor, resonant circuits, filters, mutual inductance, transformers and balanced three-phase systems. Prereq.: C or better in EET 1501 & EET 1501L. Concurrent with EET 1502L. 3 s.h.

1502L. Circuit Theory 2 Lab. Measure effective values of AC currents and voltages, observe waveforms with oscilloscopes, verify impedance concepts and phasor diagrams for AC series/parallel networks and resonant circuits. Computer circuit analysis with PSPICE. Three hours per week. Concurrent with EET 1502. 1 s.h.

2605. Electronics 1. Physical basis of semiconductor materials, diodes, rectifier circuits, Zener diode regulators, clippers, clamps, special purpose diodes. Bipolar junction transistors (BJT) characteristics, bias circuits, equivalent circuit models, amplifiers and field effect transistor (FET) characteristics. Prereq.: EET 1502, 1502L. Concurrent with EET 2605L. 3 s.h.

2605L. Electronics 1 Laboratory. Use of meters, oscilloscope, transistor curve tracer for experiments on diode characteristics, rectifier circuits, clippers, clamps, Zener regulators, BJT and FET characteristics, BJT bias circuits and amplifiers. Computer circuit analysis with PSPICE. Three hours per week. Concurrent with EET 2605. 1 s.h.

2620. Digital Electronics. An introductory study of number systems and conversions, codes, Boolean algebra, and logic gates. Includes Boolean function simplification, truth tables, Karnaugh maps, and combination circuits. Prereq.: C or better in EET 1501 and EET 1501L; or CSIS 1590. Concurrent with EET 2620L. 2 s.h.

2620L. Digital Electronics Lab. Experiments utilizing digital integrated circuits to implement various logic functions discussed in EET 2620. Three hours per week. Concurrent with EET 2620. 1 s.h.

2650. Personal Computer Hardware. Fundamentals of assembly, troubleshooting, and repair of personal computers. Hardware topics include power supplies, motherboard, memory, keyboards, monitors, floppy drives, hard drives, and peripherals. Upgrading of PC hardware. Two hours lecture, three hours lab per week. Prereq. or concurrent: ENTC 1505 or consent of instructor. 3 s.h.

2651. Digital Communication Systems 1. Introduction to telecommunications; noise types and measurements; amplitude, frequency and pulse modulation and encoding techniques; transmission codes; terminals; serial interfaces using RS 232, RS 499, RS 422A and 423A; loop standards; UART and UART interface. Two hours lecture, three hours lab per week. Prereq.: C or better in EET 1501 & EET 1501L. 3 s.h.

2652. Digital Communication Systems 2. Continuation of EET 2651. Includes the telephone set and subscriber loop interface; telephone network. Modems; synchronous protocols; error detection correction; control. Two hours lecture, three hours lab per week. Prereq.: EET 2651. 3 s.h.

2653. Fiber Optics. Light propagation in fiber; connections, attenuation, and signal distortion; splicing and analysis of coupling losses; optical transmitters and receivers for analog and digital signals. Two hours lecture, three hours lab per week. Prereq.: C or better in EET 1501 & EET 1501L. 3 s.h.

2670. Process Instrumentation. Introduction to the principles and practice of measurement and control of temperature, pressure, flow, level, and other process variables commonly encountered in industrial systems. Includes characteristics, installation, and troubleshooting of process transducers, sensors, and detectors. Three hours lecture, three hours lab per week. Prereq. or concurrent: EET 2605/L. 4 s.h.

2671. Computer Instrumentation and Control. Use of personal computers as a data acquisition and control device in industrial processes. Specification, installation, troubleshooting or various I/O cards. Development of PC-based data acquisition and control system using commercially available software. Three hours lecture, three hours lab per week. Prereq.: EET 2670/L. 4 s.h.

2680. Digital Broadcasting 1. Introduction to communication systems; signal modulation techniques; analog, digital, and mixed systems; digital processing principles; filters and transforms; sampling; sound, light, and image portrayal; digital television; FCC rules. Three hours lecture, three hours lab per week. Prereq.: EET 1502, 1502L, PHYS 1501, 1501L, EET 2620, 2602L. Prereq. concurrent with EET 2605, 2605L. 4 s.h.

2681. Digital Broadcasting 2. Transmission media; MPEG data compression; digital coding; storage devices; production-related interfaces; digital television broadcasting; multiplexing; error correction; wiring practices; shielding and grounding techniques; FCC rules. Three hours lecture, three hours lab per week. Prereq.: EET 2680, or concurrent with EET 2606, 2606L. 4 s.h.

3706. Electronics 2. Field effect transistor (FET) bias circuits and amplifiers, thyristor circuits, frequency effects (Bode plots), differential amplifiers, linear and non-linear op amp circuits, active filters, oscillators and regulated power supplies. Prereq.: C or better in EET 2605 & 2605L. Concurrent with EET 3706L. 3 s.h.
3706L. *Electronics 2 Laboratory.* Experiments involving field effect transistors (FETs), integrated circuits (ICs), operational amplifiers, frequency effects on gain, oscillator circuits and regulated power supplies. Computer circuit analysis with PSPICE. Three hours per week. Concurrent with EET 3706. 1 s.h.

3710. *Electrical Machines.* Construction, operating principles and characteristics, efficiency and control of DC motors, generators, and specialized machines. AC single and 3-phase transformers, alternators, induction and synchronous motor principles, characteristics, efficiency and control. Prereq.: EET 1502, EET 1520L. Concurrent with 3710L. 3 s.h.

3710L. *Electrical Machines Lab.* Experiments with DC motors and generators and AC transformers, alternators, induction and synchronous motors to observe operation, efficiency, control and machine characteristics. Three hours per week. Concurrent with EET 3710. 1 s.h.

3712. *Programmable Logic Controllers.* Development of ladder logic programming and application to programmable logic controllers (PLCs). Examination of input/output (I/O) device characteristics and interfacing including both digital and analog I/O. Installation, maintenance and safety practices for PLCs. Prereq.: EET 1502, EET 1520L; C or better in EET 2620 & EET 2620L. Concurrent with EET 3712L. 3 s.h.

3712L. *PLC Laboratory.* Exercises in ladder logic programming for programmable logic controllers (PLCs) using concepts developed in EET 3712. Input/Output (I/O) concepts related to PLCs. Three hours per week. Concurrent with EET 3712. 1 s.h.

Upper-Division Courses

3725. *Electromechanical Systems.* AC/DC circuit analysis techniques including network theorems, PSPICE computer circuit analysis and laboratory experiences with applications to AC/DC machinery, electronics, digital circuits and control systems. Three hours lecture, three hours lab per week. Prereq.: C or better in MATH 1570. 4 s.h.

3730. *Logic Systems Design.* The characteristics and applications of integrated circuit logic families and various memory devices. Emphasis on the design of digital systems with SSI, MSI, and LSI as system components. Prereq.: C or better in EET 2620, EET 2620L; EET 2605, & EET 2605L. Concurrent with EET 3730L. 3 s.h.

3730L. *Logic Systems Design Lab.* Laboratory exercises dealing with applications of concepts developed in EET 3730. Three hours per week. Concurrent with EET 3730. 0 s.h.

3735/3735L. *Microprocessor Architecture and Programming.* An introduction to microprocessor architecture, memory organization, and input/output addressing. Emphasis on machine/assembly language programming to teach concepts of buses, machine cycles, and internal data flow. Two hours lecture and three hours of lab per week. Prereq.: C or better in EET 2620 & EET 2620L; or CSIS 1590. 3 s.h. + 0 s.h.

3745. *Microprocessor Systems 2.* Continuation of EET 2645 with emphasis on advanced programming techniques, memory mapping, I/O ports, and basic I/O interfacing. Prereq.: EET 3735, EET 3735L. Concurrent with EET 3745L. 3 s.h.

3745L. *Microprocessor Systems 2 Lab.* Laboratory exercises utilizing a microcomputer to provide practical applications of concepts developed in EET 3745. Three hours per week. Concurrent with 3745. 0 s.h.

3760L. *Variable Speed Drives Lab.* Exercises in variable speed drive applications, demonstrating the concepts developed in EET 3760. Concurrent with 3760. 0 s.h.

3780. *Communication Systems.* Audio signals, noise, untuned and RF amplifiers, amplitude, frequency, pulse modulation, transmission lines, antennas, and multiplexing of communication channels. Prereq.: EET 1502, EET 1520L. Concurrent with EET 3780L. 3 s.h.

4810. *Electrical System Design.* The design and layout of electrical systems for power, light, heat, signals, and communications in commercial, industrial, and residential buildings. Two hours lecture, three hours of lab per week. Prereq.: EET 3710, EET 3710L. 3 s.h.

4820. *Power Transmission and Distribution.* An introduction to power system analysis, transmission line parameters and calculations, and steady-state power system representation. Prereq.: EET 3710, EET 3710L. 3 s.h.

4845. *Microprocessor Systems 3.* Continuation of EET 3745 with emphasis on real data acquisition, A/D and D/A conversions, and industrial applications. Prereq.: EET 3730, EET 3730L, EET 3745, EET 3745L. Concurrent with EET 4845L. 3 s.h.

4845L. *Microprocessor Systems 3 Lab.* Laboratory exercises utilizing a microcomputer to provide practical applications of concepts developed in EET 4845. Three hours per week. Concurrent with 4845. 0 s.h.

4850. *Integrated Circuit Applications.* Introduction to integrated circuits technology and typical application. Prereq.: EET 3706, EET 3706L. Concurrent with EET 4850L. 3 s.h.

4850L. *Integrated Circuit Applications Lab.* Laboratory exercises dealing with the application of concepts developed in EET 4850. Three hours per week. Concurrent with EET 4850. 0 s.h.

4880. Electrical and Mechanical Facilities Design. Multidisciplinary study of building systems; HVAC, plumbing, electrical power, lighting, and communication systems. Computational labs and group projects for each topic. Prereq.: Senior standing and permission of the CCET or EET student’s program advisor. Concurrent: CCET 4884. Two hours lecture and three hours computational lab. 3 s.h.

4890. Special Topics in EET. Special topics/new developments in electrical engineering technology. Subject matter, special prerequisites, and credit hours to be announced in advance of each offering. May be repeated with different subject matter to a maximum of 8 s.h. Prereq.: Senior standing in EET or consent of the instructor. 1-4 s.h.

ELECTRIC UTILITY TECHNOLOGY—EUT Engineering Technology

1500. Electrical Fundamentals. Introduction to direct and alternating current circuits. Study of resistance, capacitance, inductance, Ohm’s and Kirchoff’s Laws applied to circuits. Three hours lecture per week. Concurrent with EUT 1500L. Prereq.: EUT 1500 or MATH 1501 or at least level 3 on the Mathematics Placement Test. 4 s.h.

1500L. Electrical Fundamentals Lab. Lab component of EUT 1500. Provides hands-on instruction in the use of electrical test equipment including digital multimeters, power supplies, oscilloscopes, etc. Three hours lab per week. Concurrent with EUT 1500. Prereq.: ENTC 1500 and MATH 1501 or at least level 3 on the Mathematics Placement Test. 3 s.h.

1502. Power Plant Fundamentals. Introduction to power plant systems including boiler, turbine, generator, condenser, pumps, and auxiliary equipment. Emphasizes use of schematics and diagrams in discussing plant systems. Includes plant safety training. Four hours lecture per week. Prereq.: MATH 1501 or Level 3 on MPT and eligible to enroll in ENGL 1550. Concurrent: EUT 1502L. Prereq. or concurrent: ENTC 1500. 1 s.h.

1502L. Power Plant Fundamentals Lab. Lab component to accompany EUT 1502. Provides introduction to power generating plant systems and equipment including boiler, turbine, generator, condenser, pumps, and auxiliary equipment. Emphasizes the use of schematics and diagrams in discussing plant systems. Three hours laboratory per week. Concurrent with EUT 1502. 4 s.h.

1503. Power Plant Mechanical Equipment. Introduction to various mechanical equipment found in power plants including pumps, fans, blowers, valves, heat exchangers and power transmission equipment. Mechanical concepts of force and torque. Basic types of bearings, seals, and lubrication. Mechanical assembly drawings and diagrams. Three hours lecture per week. Concurrent with EUT 1503L. Prereq.: ENTC 1500 and EUT 1502L, and MATH 1501. 3 s.h.

1503L. Power Plant Mechanical Equipment Lab. Lab component to accompany EUT 1503. Provides hands-on activities related to pumps, fans, blowers, valves, heat exchangers, bearings, seals, lubrication, and power transmission equipment. Three hours lab per week. Concurrent with EUT 1503. Prereq.: ENTC 1500, EUT 1502L, and MATH 1501. 1 s.h.

1504. Maintenance Fundamentals 1. Introduction to blueprint reading and technical diagrams, use of hand tools and power tools, safety and health, development of troubleshooting skills, chemical hazards, and material safety data sheets. Three hours lecture, and three hours lab per week. Prereq. or concurrent: ENTC 1500. 4 s.h.

1505. Maintenance Fundamentals 2. Introduction to piping systems, basic hydraulics and pneumatics, hydraulic and pneumatic troubleshooting, rigging and equipment installation, welding principals, oxy-acetylene cutting and welding. Three hours lecture, three hours lab per week. Prereq.: EUT 1502 and EUT 1504; Concurrent or Prereq.: EUT 1503. 4 s.h.

2601. Electrical Codes and Standards. National Electrical Code and National Electrical Safety Code as applied to overhead and underground electric utility distribution systems. Pole guying, overhead conductor sag and tension, cable pulling, and clearances. Four hours lecture per week. Prereq.: EUT 2600. 4 s.h.

2604. Power Plant Electrical Equipment. Study of three-phase power systems including motors, generators, transformers, and switchgear. NEC and NESC Code requirements, automatic and manual motor controls, variable speed drives, circuit protection. Three hours lecture per week. Concurrent with EUT 2604L. Prereq.: EUT 1500 and EUT 1500L. 3 s.h.

2604L. Power Plant Electrical Equipment Lab. Lab component to accompany EUT 2604. Provides hands-on activities related to three-phase power systems, motors, generators, transformers, and switchgear. Three hours lab per week. Concurrent with EUT 2604. Prereq.: EUT 1500 and EUT 1500L. 1 s.h.

2605. Intermediate Power Plant Systems. Continuation of EUT 1502. Study of power plant cycles, thermodynamic properties of water and steam, and use of steam tables. Includes thermodynamic analysis of boiler system, feedwater, superheat, and reheating systems, heat transfer in pre-heaters, turbine, con-
2605. Intermediate Power Plant Systems Lab. Lab component to accompany EUT 2605. Provides hands-on and computational methods to dynamic analysis of boiler system, feedwater, superheat, and reheat systems, heat transfer in pre-heaters, turbine, condenser, and pumps. Three hours per week. Concurrent with EUT 2605. Prereq.: EUT 1503, and EUT 1503L.

2606. Power Plant Operator Practice. Discusses the operation of large utility power plants including start-up and shut-down of all major systems, disturbance response, and safe operation of plant systems. Three hours lecture per week. Concurrent and EUT 2605/L. Prereq.: EUT 1503 and EUT 1503/L. 3 s.h.

2607. Power Plant Instrumentation and Control. Introduces basic principles of process instrumentation and control systems. Measurement parameters such as flow, pressure, level, temperature, and pH. Includes coverage of programmable logic controllers, and distributed control systems. Three hours lecture per week. Concurrent with EUT 2607L. Prereq: EUT 2604/L and EUT 2605/L. 3 s.h.

EUT 2607L. Power Plant Instrumentation & Control Lab. Lab component to accompany EUT 2607. Provides hands-on activities related to process instrumentation and control systems. Three hours per week. Concurrent with EUT 2607L. Prereq.: EUT 2604/L, and EUT 2605L. 1 s.h.

2608. Advanced Power Plant Systems. Continuation of EUT 2605. Examines on-line boiler control concepts, including combustion, feedwater, header pressure, oxygen content, power demand, and other processes as applied to utility boilers and process heat supply boilers. Also examines pollution control systems, gas turbines and diesel generators. Three hours lecture per week. Concurrent with EUT 2607L and EUT 2608L. Prereq: EUT 2605/L. 3 s.h.

2608L. Advanced Power Plant Systems Lab. Lab component to accompany EUT 2608. Provides hands-on activities related to on-line boiler control concepts, pollution control systems, gas turbines and diesel generators. Three hours per week. Concurrent with EUT 2607L and EUT 2608L. Prereq: EUT 2605/L. 1 s.h.

2610. Industrial Electronics. Introduction to semiconductors, power supplies, amplifiers, oscillators, and digital logic systems commonly encountered in an industrial setting. Three hours lecture, three hours lab per week. Prereq.: EUT 1500. 4 s.h.

2611. Electrical Systems 1. Introduction to power distribution systems commonly found in electric utility generating plants and large commercial and industrial facilities. Topics include service equipment, medium and low voltage switchgear, conductors, conduit and cable tray, fuse and breaker characteristics, motor control circuits, insulation and ground testing, and lighting fundamentals. Emphasis placed on applicable NEC and NESC Codes. Three hours lecture, three hours lab per week. Prereq.: EUT 1500, EUT 1503. 4 s.h.

2612. Electrical Systems 2. Discussion, demonstration, and practice of manufacturer’s operation and maintenance procedures for a variety of electrical equipment found in electric utility generating plants including soot blowers, coal feeders and pulverizers, precipitators, motors, transformers, and ignitors. Three hours lecture, three hours lab per week. Prereq.: EUT 2611. 4 s.h.

2620. Instrumentation and Control Systems 1. Computers, I/O devices, maintaining and troubleshooting computer systems, and programmable logic controllers. Instruction in pipefitting and tubing required for IC systems. Three hours lecture, three hours lab per week. Prereq.: EUT 1500. 4 s.h.

2621. Instrumentation and Control Systems 2. Discussion, demonstration, and practice of manufacturer’s operation and maintenance procedures for a variety of instrumentation and control equipment found in electric utility generating plants including boiler controls, turbine supervisory controls, emission controls, distributed control systems, and PLCs. Three hours lecture, three hours lab per week. Prereq.: EUT 2620. 4 s.h.

2630. Machine Shop and Welding. Introduction to machine-shop practices including work layout and shop safety, lathes, milling machines, grinding, and machine-shop job analysis. Arc welding operations including SMAW, GMAW, GTAW, pipe welding, hard facing will also be covered. Three hours lecture, three hours lab per week. Prereq.: EUT 1505. 4 s.h.

2631. Mechanical Systems 1. Introduction to mechanical drive maintenance, mechanical and fluid drive systems, bearing and shaft seal maintenance, pump installation and maintenance, maintenance pipelining, tubing and hose system maintenance, valve maintenance and piping system protection, and bulk handling conveyor systems. Three hours lecture, three hours lab per week. Prereq.: EUT 1505, Concurrent or Prereq.: EUT 2630. 4 s.h.

2632. Mechanical Systems 2. Discussion, demonstration, and practice of manufacturer’s operation and maintenance procedures for a variety of mechanical equipment found in electric utility generating plants including soot blowers, coal pulverizers and ball mills, mill exhaust fan, and bearing maintenance. Three hours lecture, three hours lab per week. Prereq.: EUT 2631. 4 s.h.

2633. Vibration, Alignment and NDT. Advanced coverage of alignment, vibration analysis, balancing, and non-destructive testing (NDT) of rotating equipment including pumps, fans, turbines, generators, and motors. Three hours lecture, three hours lab per week. Prereq.: EUT 2631. 4 s.h.

2690. Electric Utility Lab 1. Provides the skill required to work on secondary circuits, transmission
support systems, transformers, and services. OSHA regulations and rigging safety awareness. Twenty contact hours per week. Prereq.: Acceptance into EUT program. 6 s.h.

2691. Electric Utility Lab 2. Provides the skill required to install three-phase primary conductors, transformers, cable components; operate line fuses, reclosers, power banks, capacitors, and voltage regulators. Twenty contact hours per week. Prereq.: EUT 2690. 6 s.h.

2692. Electric Utility Lab 3. Provides the skill required to install primary URD equipment, and subtransmission structures. Live line maintenance techniques. Troubleshooting of URD primary and secondary circuits. Twenty contact hours per week. Prereq.: EUT 2691. 6 s.h.

2693. Electric Utility Lab 4. Provides the skill required to climb transmission structures and perform intermediate tasks. Substation equipment, minimum approach distances, and substation safety. Twenty contact hours per week. Prereq.: EUT 2692. 6 s.h.

2699. Electric Utility Co-op. Compensated and evaluated work experience with local utility company. Forty contact hours per week. Prereq.: EUT 2691, permission of program coordinator. 2 s.h.

**EMERGENCY MEDICAL TECHNOLOGY—EMTC**

**Department of Health Professions**

1500. Emergency Medical Technician - Basic. Provides the basic knowledge and skills required to be an Emergency Medical Technician. Meets all U.S. Department of Transportation training standards for the Basic EMT. Must be taken concurrently with EMTC 1500L. 3 s.h.

1500L. Emergency Medical Technician - Basic Laboratory. Laboratory experience necessary to acquire skills required to be an Emergency Medical Technician - Basic. Meets all U.S. Department of Transportation training standards for the Basic EMT. Six hour lab. Must be taken concurrently with EMTC 1500L. 2 s.h.

1501. Introduction to Prehospital Medicine. Introduction to the roles, responsibilities, EMS systems, and medical and legal considerations of the EMS profession. Prereq.: Admission to EMT program. 1 s.h.

1502. General Pathophysiology for the EMT Paramedic. Study of general lifespan development of the body, how pathophysiologic changes affect it. Provides a foundational basis for viewing the body as a system, understanding its functions, anticipated reaction to injury, illness and intervention. Prereq.: Admission to EMT program or permission of instructor. 2 s.h.

1503. Patient Assessment and Airway Management. Intensive course designed to prepare the student in the methodology of advanced patient assessment, and the relevance of clinical signs and symptoms identified. Airway anatomy, equipment, procedures as they pertain to advanced airway management. Prereq.: Admission to EMT program or permission of instructor. 1 s.h.

1504. Principles of Trauma. Study of traumatic emergencies normally encountered prehospitally with emphasis on pathophysiology, etiology, symptomatology, and management. Prereq.: Admission to EMT program or permission of Program Director. 2 s.h.

1505. Emergency Medical Techniques 1 Lab. Includes simulated emergency traumatic situations and actual patient contact emphasizing physical assessment, patient interviewing, and management techniques. Must be taken concurrently with EMTC 1501, 1502, 1503 and 1504. 1 s.h.

1506. Emergency Department Clinical 1. Clinical experience in the emergency department where the student performs patient interviews, assessment, and intravenous cannulation under the direct supervision of a clinical preceptor. Five hours of clinical time per week during the last ten weeks of the semester. Must be taken concurrently with EMTC 1503 and 1505. Prereq.: Admission to EMT program or permission of instructor. 1 s.h.

1510. Cardiopulmonary Emergencies. Intense study of the etiology, pathophysiology, symptomatology, and management principles for cardiovascular and pulmonary emergencies. Includes electrophysiologic principles of EKG interpretation. Must be taken concurrently with EMTC 1511. Prereq.: Admission to EMT program or permission of instructor. 3 s.h.

1511. Cardiopulmonary Techniques Lab. Performance of fundamental techniques employed in the management of the cardiovascular and/or respiratory emergency. Three hours lab per week. Must be taken concurrently with EMTC 1510. 1 s.h.

1512. Medical Conditions and Management Techniques. Study of pathophysiology, symptomatology, etiology, and management techniques of commonly encountered medical emergencies. Must be taken concurrently with EMTC 1513. Prereq.: EMTC 1502, 1503, and 1504. 2 s.h.

1513. Emergency Medical Techniques 2 Lab. Simulated situations and actual patient contact emphasizing performance of emergency medical techniques utilized to manage common medical emergencies. Must be taken concurrently with EMTC 1512. 2 s.h.

1514. Emergency Medical Service Operations. Introduction to common rescue tools and techniques utilized in basic victim disentanglement and extrication. Prereq.: Admission to EMT program or permission of instructor. 1 s.h.

1515. Clinical Experience 1. Hospital clinical experience to include rotations through the following: adult emergency department, critical and intensive care units, and surgery. At least ten hours of clinicals per week. Must be taken concurrently with EMTC 1511 and 1513. 1 s.h.
1516. **Prehospital Internship Experience 1.** Internship experience with an approved advanced life support unit under the direct supervision of a selected paramedic field preceptor. At least ten hours per week. Prereq.: EMTC 1504, 1510, 1512. 1 s.h.

2600. **Emergency Medicine Special Topics.** Study of etiology, pathophysiology, symptomatology and management of special needs patients. Includes gynecology, obstetrics, neonatology, pediatrics, geriatrics, behavioral, abuse/assault, infectious and communicable diseases, and chronic care. Must be taken concurrently with EMTC 2601. Prereq.: EMTC 1510 and 1512 or permission of instructor. 3 s.h.

2601. **Emergency Medical Techniques 3 Lab.** Techniques necessary to effectively manage conditions in EMTC 2600. Three hour lab. Must be taken concurrently with EMTC 2600. 1 s.h.

2602. **EMS Special Certifications.** Provides the EMT-Paramedic with certifications beneficial to prehospital care. These certifications are nationally recognized and commonly sought after by paramedics, and desired by employers. Include PALS, BTLS, AMLS, Defensive Driving, and Instructor courses in BCLS and ACLS. Prereq.: Admission to EMT program or permission of instructor. 2 s.h.

2603. **Clinical Experience 2.** Hospital clinical experience to include rotations through the following departments: triage, pediatric emergency department, adult emergency department, obstetric/gynecological, neonatal, well-baby clinic, psychiatric, morgue. At least 20 hours per week. Must be taken concurrently with EMTC 2600. 2 s.h.

2604. **Prehospital Internship Experience 2.** Performance of advanced life support procedures under the direct supervision of a selected paramedic field preceptor. At least 20 hours per week. Prereq.: EMTC 1516. 2 s.h.

2610. **Pathophysiology for Critical Care Paramedicine.** In-depth study of the underlying abnormalities and physiologic disturbances resulting from traumatic injuries and medical illnesses as it relates to emergency medical care. Includes analysis of case studies. Must be taken concurrently with EMTC 2611. Prereq.: NREMT-P and permission of instructor. 2 s.h.

2611. **Assessment and Management Techniques for Critical Care Paramedicine.** Designed to prepare the student as competent care provider in the transport of critical patients by ground or air unit. Topics include 12-leads, IABPs, RSI, lab data, EtCO2 monitoring, and advanced pharmacology. Must be taken concurrently with EMTC 2610. Prereq.: NREMT-P and permission of instructor. 4 s.h.

2620. **Research Methodology for EMS.** Introduction to research problems and hypotheses, research design, sampling designs, data collection methods, and data analysis. Critiques of emergency medicine research and development of a research problem and design. Prereq.: EMTC 2610 and 2611. 2 s.h.

2630. **Multiskilled EMS Practitioner.** Principles, concepts, clinical knowledge, and skills necessary to prepare the multiskilled EMS practitioner. Prereq.: EMTC 2610 and 2611. 2 s.h.

2631. **Advanced Clinical and Field Internship Experience.** Clinical experience in hospitals and urgent-care settings. Field internship in a variety of advanced life-support units to expose the student to hospital-based, public third service, private, and fire service EMS. Includes a field component involving wilderness rescue and emergency medicine. Average of ten clinical or field internship hours per week. Must be taken concurrently with EMTC 2630. Prereq.: EMTC 2610 and 2611. 2 s.h.

**ENGINEERING — ENGR**

**College of Engineering and Engineering Technology**

1550. **Engineering Concepts.** Engineering in the global arena. Careers and the different engineering disciplines. Basic engineering computer, laboratory, and design skills. Two hours lecture, three hours lab. Prereq.: Eligibility to take math 1513 or higher level math course. 3 s.h.

1555. **Engineering Drawing & Visualization.** Development of visualization and sketching skills and drafting convention including standard views and dimensioning. Three hours laboratory per week. To be taken prior to or concurrently with ENGR 1560 for those lacking high school drawing proficiency. Grading is A, B, C, NC. Does not count toward a degree. 1 s.h.

1560. **Engineering Computing.** Computing skills required in engineering. Structured programming. Commercial CADD software to create engineering drawings and solid models. Engineering problems solved in teams with results professionally presented. Two hours lecture, three hours lab. Prereq.: ENGR 1550, MATH 1571 or concurrent, demonstration of high school drawing proficiency or ENGR 1555. ENGR 1555 may be taken concurrently. 3 s.h.

3719. **Environmental Impact of Abandoned Mines.** Mining methods, types of mines, information retrieval, mine stabilization, and the effects of abandoned mines on environmental and human activities, especially deep coal mines in the Mahoning Valley and adjacent areas. Two hours lecture and three hours of lab per week. Prereq.: GEOL 1505 or equivalent or permission of instructor. 3 s.h.

3798. **Co-op Assignment 1.** Cooperative educational experiences while enrolled in the College. Students may be assigned to public, corporate or governmental organizations during alternate or parallel work periods for practical learning and training in the major field of study. Consult department for rules and regulations. Prereq.: Junior standing, Engineering major, selection of employer, and approval of student’s program. 1 s.h.
4898. *Co-op Assignment 2.* Cooperative educational experiences while enrolled in the College. Students may be assigned to public, corporate or governmental organizations during alternate or parallel work periods for practical learning and training in the major field of study. Consult department for rules and regulations. Prereq.: Senior standing. Engineering major, selection of employer, and approval of student's program. May be repeated. 1 s.h.

**ENGINEERING TECHNOLOGY—ENTC**

1500. *Technical Skills Development.* A course designed to develop the technical, analytical and problem solving skills of students planning to enter an engineering or technical course of study. Three (3) hours of lecture and three (3) hours lab per week. Grading is A, B, C, NC. Prereq. or concurrent: MATH 1501. 4 s.h.

1505. *Engineering Technology Concepts.* The role of the technician, technician, engineer and scientist in the technology team; a study of basic mathematical, scientific, and communicative techniques as applied to the work of engineering technologists; ethical, global, and societal issues facing the engineering technology professional. Three hours lecture, three hours lab per week. Grading is A, B, C, NC. Prereq.: MATH 1504 or at least Level 40 on the Mathematics Placement Test or grade of B in both ENTC 1500 and MATH 1501. 4 s.h.

2615. *Design Project.* The student undertakes a project designed to utilize principle methods studied in previous courses. The subject of the project is determined jointly by the student and instructor and developed formally by the student. The course is normally taken during the final stages of the student's program. Prereq.: Consent of instructor. 3 s.h.

3799. *Professional Practice in Engineering Technology.* This course provides students with cooperative education experiences in various engineering technology disciplines. To receive credit for the course, the student is expected to work at the assignment a minimum of 400 hours, submit a report of activities, and obtain approval of the department Professional Practice Committee. Course may be repeated up to a maximum of 3 s.h. toward the BSAS. Students are considered full-time even though only 1 s.h. is given for each course. Grading: PR, CR, NC. Prereq.: Consent of department chairperson. 1 s.h.

4895. *Independent Engineering Technology Project.* Individual study under direction of a faculty member. Written and oral report required. May be repeated for a maximum of 4 s.h. Prereq.: Junior standing, consent of instructor, and prior approval of the project by the IETP committee of engineering technology faculty. 1-4 s.h.

**ENGLISH—ENGL**

**Department of English**

The following have been approved as general education courses. In the area of Basic Skills, Writing I and II: 1550 and 1550H, Writing I; 1551 and 1551H, Writing II. In the domain of Artistic and Literary perspectives: 1590, Introduction to Literature; 2610, World Literature; 2617, Women in Literature; 2618, American Literature and Diversity; 2631, Mythology in Literature; 2665, Introduction to Film Study.

**English-as-a-Second-Language**

1509. *Academic English for Non-native Speakers.* Development of writing and reading comprehension skills in English through outlining, summary, and response. Emphasis on vocabulary, main idea, detail, and conclusion in assigned reading and writing. Entrance on basis of Academic English placement test. Must be taken until a grade of C or better is achieved. May be repeated once with a different topic. Does not count toward a degree. Grading is ABC/NC. 3 s.h.

1512. *English Conversation for Non-native Speakers.* Development of conversation skills. Focus on oral-aural fluency, idiomaticity, extracting and organizing information, and situation-oriented communication strategies. Emphasis on meaningful topics relevant to the students' pursuit of their academic goals. Entrance on basis of English-as-a-Second-Language placement test. Does not count toward a degree. Grading is ABC/NC. 1 s.h.

**Lower-Division Courses**

1539. *Fundamentals of College Writing.* Intensive individualized instruction in written communication and college-level reading practices in a computer-assisted environment. Open to students based on their Composition and Reading Placement Test results; does not count toward the graduation requirement in composition. Grading for English 1539 is ABC/NC. Does not count toward a degree. 4 s.h.

1540. *Introduction to College Writing.* Practice in adapting college-level writing conventions, organizational strategies, and revision and editing techniques to a variety of writing tasks. Focus on responding to written texts in ways that demonstrate expressive, analytical, and evaluative thinking. Students divide their time between regular classrooms and computer classrooms, where they have the opportunity to acquire and develop basic word-processing and electronic communication skills. Does not count toward the graduation requirement in composition. Open to students on the basis of Composition and Reading Test results. Grading is ABC/NC. Does not count toward the graduation requirement in composition and does not count toward a degree. 3 s.h.
1550. Writing 1. Strategies for writing as a means of critical inquiry, with focus on writing processes and on the roles of writer, audience, and purpose as they affect writing. Students divide their time between regular classrooms and computer classrooms, where they have the opportunity to acquire and develop basic word-processing and electronic communication skills. Open to students on the basis of Composition and Reading Test results or successful completion of ENGL 1539 or ENGL 1540. 3 s.h.

1550H. Honors Writing 1. Strategies for writing as a means of critical inquiry, with focus on writing processes and on the roles of writer, audience, and purpose as they affect writing. Writing assignments treat a broad range of ideas, especially in response to challenging readings. Stylistic experimentation is encouraged so that each student can develop a distinctive writing style. Students divide their time between regular classrooms and computer classrooms, where they have the opportunity to acquire and develop basic word-processing and electronic communication skills. Prereq.: Eligibility for the Honors program and admission to the honors composition section. Grading is ABC/NC. 3 s.h.

1551. Writing 2. Practice in writing with emphasis on the process of investigation: exploration of topics, formulation of tentative theses, collection of data from suitable primary and secondary sources, and clear and appropriate presentation of the results of these inquiries. Students divide their time between regular classrooms and computer classrooms, where they have the opportunity to perform research on the World Wide Web. Prereq.: ENGL 1550 or Composition and Reading Test results. Grading is ABC/NC. 3 s.h.

1551H. Honors Writing 2. Research on a topic of some depth, conducted independently and focused on a single project that results in a substantial investigatory paper. Students divide their time between regular classrooms and computer classrooms, where they have the opportunity to perform research on the World Wide Web. Prereq.: Eligibility for the Honors Program and either ENGL 1550H or recommendation of ENGL 1550 instructor and approval of the Director of Composition. Grading is ABC/NC. 3 s.h.

1560. Language, Ethnicity, and Gender. Basic understanding of relations between ethnicity, gender, and speech style, distinguishing linguistics, sociolinguistics, and women’s issues. Examination of topics such as language, socialization, oral vs written language, language and class membership and intra-ethnicity variation in Urban Vernacular English. Listed also and FNLG 1560. 3 s.h.

1590. Introduction to Literature. Primarily British or American works in a variety of genres, chosen to illuminate a central topic, are read and discussed critically to promote understanding and enjoyment of reading. Focused on one of four topics: Nature and the Environment, The Good Life, Science and Technology, or Social Justice. 3 s.h.

2601. Intermediate Writing for Teachers. A course to increase proficiency in critical reading and writing. Designed specifically for students entering the College of Education; reading, discussions and writing assignments emphasize current issues in Education. Assignments allow students to practice, collaboratively and individually, the kinds of writing used in teaching. Does not count toward the English major. Prereq.: Completion of ENGL 1551 with grade C or better. 3 s.h.

2602. Media Writing. Introduction to writing for the mass media. Development of writing techniques and examination of styles and approaches used in writing for various mass audiences. Fulfills requirement for Integrated Language Arts Middle Childhood teaching license and may be applied to the Journalism minor and Professional Writing and Editing professional area. Listed also as JOUR 2602. Prereq.: Completion of ENGL 1551 with grade C or better. 3 s.h.

2603. Journalism Ethics and Social Responsibilities. Examination of ethical standards, and moral theories and their practical application in professional journalism through case studies. Students will learn to become active critics of media professionals. 3 s.h.

2610. World Literature. A survey of nonwestern literatures, emphasizing their cultural, historical, literary, and global contexts. 3 s.h.

2617. Women in Literature. Examination of works by and about women, drawn primarily from American and English writers. Prereq.: Completion of ENGL 1551 with grade C or better. 3 s.h.

2618. American Literature and Diversity. Writers and works in relation to the diversity of American culture, politics, lifestyles, and social movements. Prereq.: ENGL 1551. 3 s.h.

2620. African Literature. Survey of pre-colonial, colonial, post-colonial, and modern African literature, with emphasis on experiences, styles, and themes of African writers. The effects of African literature on cultural discourse throughout the world. Prereq.: Completion of ENGL 1551 with grade C or better. 3 s.h.

2622. Basic Journalism. Study of news reporting and writing, with emphasis on journalistic style, development of news judgment, interviewing, and coverage of special story types. Listed also as JOUR 2622. Prereq.: Completion of ENGL 1551 with grade C or better. 3 s.h.

2626. American Journalism. The development of newspaper and magazine journalism in America, the role of the press and its effects on American society, including those led by women, people of color, and journalists of diverse cultural backgrounds, and journalism as a literary tradition. May be applied to the Journalism minor and Professional Writing and Editing professional area. Listed also as JOUR 2626. Prereq.: Completion of ENGL 1551 with grade C or better. 3 s.h.
2631. Mythology in Literature. Introductory study of myths, chiefly classical, with some attention to their origins and cultural significance, and of literary works, both classical and modern, in which myths are used. Prereq.: Completion of ENGL 1551 with grade C or better.  3 s.h.

2632. Introduction to Photojournalism. The basics of photojournalism. Students will learn about composition, lighting, editing, news judgment, and ethics. Listed also as JOUR 2632. 3 s.h.

2646. Introduction to Fiction Writing. Examination and application of narrative techniques and conventions designed to introduce the basic elements of writing fiction. Prereq.: Completion of ENGL 1551 with grade C or better.  3 s.h.

2647. Introduction to Poetry Writing. Examination and application of poetic techniques and conventions designed to introduce the basic elements of writing poetry. Prereq.: Completion of ENGL 1551 with grade C or better.  3 s.h.

2651. Introduction to Language. Introduction to language principally for prospective teachers, with emphasis on the nature and function of language and its history, variations, and acquisition. Prereq.: Completion of ENGL 1551 with grade C or better.  3 s.h.

2665. Introduction to Film Study. Introduction to film as a medium of artistic expression. Technical aspects of film and the relationship of film to other media and to society. Prereq.: Completion of ENGL 1551 with grade C or better.  3 s.h.

Upper-Division Courses

3700. Literary Study. Gateway course for English majors. Content to include key terms, strategies for reading, interpretation, research, and the conventions for assessing and using sources. Prereq.: Completion of ENGL 1551 with grade C or better.  3 s.h.

3701. British and American Literature 1: From the Beginnings to the Enlightenment. Emphasis on learning how to read literature and how to write literary analysis. Students read from a selection of British and American literature from the beginnings to the Enlightenment in the context of literary history. Prereq.: ENGL 1551.  3 s.h.

3702. British and American Literature 2: From the Enlightenment to the Present. Emphasis on learning how to read literature and how to write literary analysis. Students read from a selection of British and American literature from the Enlightenment to the present in the context of literary history. Prereq.: ENGL 1551.  3 s.h.

3703. Literature for Young Children. Study of the development of children’s literature, giving the prospective elementary teacher criteria for evaluating books for children. Required of all elementary education candidates. Prereq.: Completion of ENGL 1551 with grade C or better.  3 s.h.

3704. Literature for Middle School Readers. Study of fiction and nonfiction genres for students in the middle school grades, including characters and authors from various cultures and ethnicities. Required of middle childhood reading and language arts majors. Prereq.: Completion of ENGL 1551 with grade C or better.  3 s.h.

3705. Young Adult Literature. Study of literature for and about adolescents and of related topics, including young adults as readers, critical standards for evaluation, and the use of adolescent literature in secondary schools. Prereq.: Completion of ENGL 1551 with grade C or better.  3 s.h.

3706. Introduction to Literary Theory. Provides an introduction to literary theory and criticism for English majors, emphasizing the history and application of critical approaches to literature. By reading core works in literary theory, students will learn application of theoretical approaches to various texts. Prereq.: ENGL 3710, 3711, 3712 or 3713.  3 s.h.

3710. British Literature 1. Beginnings to the Enlightenment. Students read a selection of British literature, emphasizing literary history and written analysis. Prereq.: ENGL 3700 or concurrent with ENGL 3700.  3 s.h.

3711. British Literature 2. From Romanticism to the Present. Students read a selection of British literature, emphasizing literary history and written analysis. Prereq.: ENGL 3700 or concurrent with ENGL 3700.  3 s.h.

3712. American Literature 1. Colonial period to 1865. Examine works from a range of American authors and genres—drama, fiction, poetry, short stories, novels, and non-fiction essays—within their cultural, historical, and literary contexts. Prereq.: ENGL 3700 or concurrent with ENGL 3700.  3 s.h.

3713. American Literature 2. 1865 to present. Examine works from a range of American authors and genres—drama, fiction, poetry, short stories, and non-fiction essays—within their cultural, historical, and literary contexts. Prereq.: ENGL 3700 or concurrent with ENGL 3700.  3 s.h.

3716. Feature Writing. Development of techniques of writing feature stories, including generating feature ideas, gathering information, and polishing feature style. Practice in writing various types of features. Listed also as JOUR 3716. Prereq.: ENGL 2622.  3 s.h.

3717. Editorial and Opinion Writing. Techniques, approaches, and practice in writing reviews, editorials, and opinion columns. Exercises in criticisms of the arts, editorial research, and editorial style. Listed also as JOUR 3717. Prereq.: ENGL 2622.  3 s.h.

3721L. Journalism Workshop. Application through student publications of the principles of JOUR 2622 and an introduction to creating publications on computers. May be repeated once. Listed also as JOUR 3721L. Prereq. or concurrent: ENGL 2622.  3 s.h.
3723. *Editing and Design for Newspapers.* The practice of copy editing, headline writing, layout and design, photo editing, caption writing, and designing publications on computers. Listed also as JOUR 3723. Prereq.: ENGL 2622. 3 s.h.

3732. *Images of Women.* An examination through language, literature, folklore, film and myth of the ways in which the meanings and representations of women have been constructed and implemented in Western culture. Introduces key concepts and theoretical frameworks drawn from current scholarship about women. Prereq.: Completion of ENGL 1551 with grade C or better. 3 s.h.

3738. *Selected Topics in World Literature.* A comparative examination of a genre, historical period, or literary movement. May be repeated once with different topic. Prereq.: Completion of ENGL 1551 with grade C or better. 3 s.h.

3739. *Writing for Middle School Teachers.* Designed to strengthen proficiency in writing, with emphasis on issues related to the teaching of English in middle school. Limited to students seeking middle childhood licensure with a concentration in Language Arts. Prereq.: Admission to upper division status in the Beeghly College of Education. 3 s.h.

3740. *Advanced Writing.* Designed to strengthen proficiency in essay writing, with emphasis on the development of ideas, analysis of style, clarity of thought and expression, editing, and proofreading. Prereq.: Completion of ENGL 1551 with grade C or better. 3 s.h.

3741. *Advanced Writing for Teachers.* Designed to strengthen proficiency in writing, with emphasis on issues relating to the teaching of English. Limited to students seeking English or Integrated Language Arts certificates. Prereq.: Admission to upper-division status in the College of Education. 3 s.h.

3743. *Professional and Technical Communication.* Intermediate composition course to introduce essential elements of professional and technical communication: audience and task analysis; techniques of gathering, interpreting, and presenting information; appropriate conventions, styles, and formats; elements of collaborative, global, and electronic communication; and application of computer technology to document design and production. Prereq.: Completion of ENGL 1551 with grade C or better. 3 s.h.

3744. *Proposal and Report Writing.* Application of rhetorical strategies and principles of design to the preparation of texts in two specific professional communication genres: the proposal and the report. Prereq.: ENGL 3743. 3 s.h.

3745. *Online Text Workshop.* Practice in student online publications and oral presentations, with a focus on presentation applications. Prereq.: ENGL 2622 or 3743. 3 s.h.

3746. *Fiction Writing Workshop.* Supervised workshop in which students develop their individual narrative skills, styles, and talents. May be repeated once. Prereq.: ENGL 2646. 3 s.h.

3747. *Poetry Writing Workshop.* Supervised workshop in which students develop their individual poetic skills, styles, and talents. May be repeated once. Prereq.: ENGL 2647. 3 s.h.

3748. *Screenwriting.* Examination and application of story concepts, theme and character development, structure, page design, and formatting. Students will develop their own story, treatment, and screenplay. May be repeated once. Prereq.: Completion of ENGL 1551 with grade C or better. 3 s.h.

3750. *Language and Culture.* Language structure as an instrument in human behavior and social institutions with emphasis on cross-cultural and intercultural communication. Prereq.: Completion of ENGL 1551 with grade C or better. 3 s.h.

3755. *Principles of Linguistic Study.* Survey of elements of linguistic structure, methods of analysis and description, theoretical models, and the role of language in human affairs. Prereq.: Completion of ENGL 1551 with grade C or better. 3 s.h.

3757. *Development of the English Language.* Sounds, vocabulary, grammar, and usage, from old to contemporary English. Prereq.: Completion of ENGL 1551 with grade C or better. 3 s.h.

3760. *Advanced News Reporting and Writing.* Designed to strengthen news reporting skills, with emphasis on interviewing and research skills, narrative and investigative writing, and analysis of issue stories. Listed also as JOUR 3760. Prereq.: ENGL 2622. 3 s.h.

3765. *Film Genres.* Study of a particular type of film, such as comedy, western, documentary, or science fiction. May be repeated once with a different topic. Prereq.: ENGL 3710, 3711, 3712, 3713 or 2665. 3 s.h.

3770. *American Literature in Historical Perspective.* Poetry, prose, drama, and other forms of literary expression examined within the context of a specific aspect of American social, intellectual, and cultural history. May be repeated once with different topic. Cross-listed with AMER 3770. Prereq.: ENGL 3712 or 3713. 3 s.h.

3780. *American Genres.* Study of a particular type of literature (e.g., short story, autobiography, or film) as it developed in the United States. May be repeated once with a different topic. Prereq.: ENGL 3712 or 3713. 3 s.h.

3790. *Selected Topics in Multicultural Studies.* Concentrated study of discourse in English, primarily literature, from cultures other than the dominant or majority culture of a given society. Designed to develop awareness and sensitivity to issues of difference, power, and cross-cultural perspectives, and to address and facilitate students’ multicultural literacy. May be repeated once with different topic. Prereq.: Completion of ENGL 1551 with grade C or better. 3 s.h.

4821. *Advising Student Publications.* Study of the role and responsibilities of the publication advisor in high school and college. Topics include the unique
legal and ethical concerns of student publications, the training of writers and editors, the relationship of the student press to the academic administration, and a range of publication-management concerns. Listed also as JOUR 4821. Prereq.: ENGL 2622. 3 s.h.

4824. Press Law and Ethics. Study of First Amendment rights of the press; examination of laws concerning libel, privacy, copyright, obscenity, censorship, open meetings and open records in Ohio; discussion of press responsibilities. Listed also as JOUR 4824. Prereq.: ENGL 2622. 3 s.h.

4825. Selected Topics in Journalism. Study of approaches to and special aspects of journalism not covered in depth in other journalism courses. May be repeated once with change of topic. Listed also as JOUR 4825. Prereq.: ENGL 4825. 3 s.h.

4830. Major Figures in British Literature. Concentrated study of the works of a British writer who has contributed significantly to the literary tradition. May be repeated once with different topic. Prereq.: ENGL 3710 or 3711. 3 s.h.

4831. British Genres, Circles, and Movements. Study of a literary genre, a group of writers who shared a cultural context or who influenced one another’s work, or a trend or development in literature. May be repeated once with different topic. Prereq.: ENGL 3710 or 3711. 3 s.h.

4843. Advanced Professional and Technical Communication. Advanced instruction in professional writing and editing, further expanding skills developed in Professional and Technical Communication (English 3743) through the creation and design of documents such as newsletters, instruction manuals, product documentation, and books. Prereq.: ENGL 3743. 3 s.h.

4849. Professional and Technical Editing. Study of the skills needed to make appropriate decisions about the content, grammar, mechanics, style, organization, and format of scholarly, trade, journalistic, and other professional publications, including newsletters and electronic publications. Topics include stages in the publishing process, proofreading, hard-copy versus online editing, mechanical and substantive editing, and the use of house and press styles. Prereq.: Completion of ENGL 1551 with grade C or better. 3 s.h.

4850. Sociolinguistics. An investigation of the relationship between language and society. Includes discussion of dialects and standard language, language planning, linguistic identity, multi- and bilingualism, class, gender, ethnicity, and social interaction. Listed also as FNLG 4850. Prereq.: Completion of ENGL 1551 with grade C or better. 3 s.h.

4851. Language Acquisition. A study of research on the learning of first and second languages. Topics include developmental sequences, learner variables, critical periods and conditions for learning, and the roles of input and interaction. The course is designed for those planning to teach languages. Listed also as FNLG 4851. Prereq.: Completion of ENGL 1551 with grade C or better. 3 s.h.

4855. Advanced Linguistics. In-depth study of selected issues in contemporary linguistic theory. Especially recommended for students pursuing advanced studies or a minor in linguistics or planning graduate studies. Prereq.: ENGL 2651 or 3755. 3 s.h.

4856. TESOL Methods. Introduction to teaching English as a Second Language (ESL), including reading, writing, listening, and speaking. Focus on using communicative methods with non-native speakers. Prereq.: Completion of ENGL 1551 with grade C or better. 3 s.h.

4857. TESOL Practicum. Supervised teaching in English as a Second Language (ESL) program. Additionally, weekly seminar attendance required. Prereq.: Permission of chair. 3 s.h.

4858. English Grammar. Descriptions and analysis of English language structure. Prereq.: Completion of ENGL 1551 with grade C or better. 3 s.h.

4859. Selected Topics in Discourse. Study in depth of a specific topic such as stylistics, semantics, or rhetoric. May be repeated once with different topic. Prereq.: ENGL 3740, 3741, or 3755 as appropriate to topic. 3 s.h.

4860. The Medieval World. British literature from the Anglo-Saxon period to the age of Chaucer, presented in the context of the period’s history and culture. Prereq.: ENGL 3710. 3 s.h.

4862. Themes in American Literature. In-depth examination of a significant theme in American literature and culture through analysis of prose, poetry, drama, and/or film from different historical periods. Prereq.: ENGL 3712 or 3713. 3 s.h.

4864. American Literary Conversations. Study of two or more American writers whose work is related. Focuses on writers who influenced each other, who wrote during the same period, or who explored similar themes or used similar literary styles. Prereq.: ENGL 3712 or 3713. 3 s.h.

4865. Selected Topics in Film. An important aspect of or approach to film not covered in other courses. May be repeated once with different topic. Prereq.: ENGL 3710, 3711, 3712, 3713, or 2665. 3 s.h.

4870. Web Communications Capstone. A project course requiring the integration of website development tools and techniques, database development, effective writing for the web, and audience analysis, to produce a website of substantial depth and breadth. Oral and written presentations of final project. Listed also as CSIS 4870. Prereq.: Senior standing and permission of instructor. 3 s.h.

4871. The Black Experience in American Literature. Study of African-American literature that explores the intersections between race, gender, and class in America, with emphasis on black minority culture, experience, and perspective. Prereq.: ENGL 3712 or ENGL 3713. 3 s.h.
4880. Oral Communication for English Majors. Emphasis on improving oral communication skills for English majors. Students will receive instruction on effective oral communication and practice both individual and group presentations. Prereq.: Concurrent enrollment in upper-division British or American literature course. 1 s.h.

4881. Shakespeare and His World. Study of Shakespeare's works along with an exploration of the artistic and social forces that shaped his writing. Prereq.: ENGL 3710. 3 s.h.

4882. The English Renaissance. Study of British literature from 1500 to 1660 and the social, cultural, and artistic forces that influenced it. Prereq.: ENGL 3710. 3 s.h.

4886. Restoration and Eighteenth Century British Literature. Study of British literature of the period and the social, cultural, and artistic forces that influenced it. Prereq.: ENGL 3710. 3 s.h.

4887. The Romantic Period. Study of British literature from 1776 to 1832 and the social, cultural, and artistic forces that influenced it. Prereq.: ENGL 3710. 3 s.h.

4890. Senior Seminar. Study of literature, linguistics, or criticism and theory requiring a long, critical, research-based paper. Prereq.: ENGL 3710, 3711, 3712 or 3713 and six additional courses in the major. 3 s.h.

4891. Individual Study. Exploration of a topic in English studies. An academic project or written report produced in consultation with an English instructor is required. May be repeated with different topics for a maximum of 3 s.h. Prereq.: Senior standing in English and department permission. 1-3 s.h.

4892. Nineteenth Century British Literature Studies. Nineteenth-century writers, works, and themes read in the context of the period’s culture and history. Prereq.: ENGL 3711. 3 s.h.

4895. Early Twentieth Century British Studies. Literature read in the context of the period’s literary movements, culture, and history. Prereq.: ENGL 3711. 3 s.h.

4896. British Literature from World War II to the Present. Literature read in the context of the period’s literary movements, culture, and history. Prereq.: ENGL 3711. 3 s.h.

4897. English Internship. Supervised experience directed by an English faculty member and a designated representative of a participating organization. Enrollment is contingent upon the availability of internships. Students are selected on the basis of qualifications including GPA, courses taken, recommendations, and an interview. Prereq.: 12 hours of English, junior or senior standing, and a department permit. 1-3 s.h.

4898. Professional Writing Internship. Supervised work-and-learning experiences in professional communication under the direction of a faculty member and an employee of a participating firm. Ten to 20 hours of student time each week. Enrollment is contingent upon the availability of internships. Students are selected on the basis of relevant qualifications, including GPA, courses taken, recommendations, and an interview. May be repeated with the approval of the department chairperson. Prereq.: 12 s.h. in Journalism and/or Professional Writing and Editing. 1-3 s.h.

4899. Professional Writing Senior Project. Capstone experience for the Professional Writing and Editing major. Individualized research, analysis, development, and oral presentation of a project that incorporates audience-appropriate writing, design, and/or editing in a usable high-quality product. Taken during the student's final undergraduate year. Prereq.: Senior standing and permission of a Professional Writing and Editing advisor. 3 s.h.

ENVIRONMENTAL STUDIES
— ENST
Interdisciplinary

The following has been approved as a General Education course in the domain of Natural Science: 1500, Introduction to Environmental Science.

Lower-Division Courses

1500. Introduction to Environmental Science. Basic environmental science literacy for informed citizens as inhabitants and stewards of Earth. The use of science and the scientific method to understand, assess, and manage the environment to improve human health, conserve energy and resources, preserve nature, and sustain quality of life. 3 s.h.

1500L. Introduction to Environmental Science Lab. The use of the scientific method to explore various fields in environmental science including water quality, risk assessment, biodiversity and mineral uses. This field and laboratory work supplements ENST 1500. Prereq. or concurrent: ENST 1500. 1 s.h.

2600. Foundations of Environmental Studies. A survey of the principles and issues of environmental studies including basic ecology, biodiversity, hazardous and solid waste management, sustainable development, energy production and conservation, environmental ethics, air, water and soil pollution. 3 s.h.

2600L. Foundations of Environmental Studies Laboratory. Laboratory and field investigations identified in ENST 2600. Emphasis on the scientific method, problem solving and critical thinking skills in environmental assessment techniques, active exploration of environmental concerns and their solutions. Three hours per week. Three to five Saturday field trips required in lieu of some laboratory time. 1 s.h.

2650. Independent Study. The introductory study of problems or issues in Environmental Studies or a review of the literature relating to a specific environmental topic. May be repeated for different topics for a total of 6 s.h. Prereq.: Permission of the director. 1-3 s.h.
Upper-Division Courses

3700. Environmenta l Chemistry. Study of the fundamental chemical principles underlying common environmental problems, including water pollution, toxicology, chemical biotransformation and degradation. Chemistry of pesticides, petroleum hydrocarbons and heavy metals are also investigated. Prereq.: ENST 2600 and CHEM 1515; Concurrent with ENST 3700L Environmental Chemistry Lab. 4 s.h.

3700L. Environmental Chemistry Lab. Students will investigate various analytical and instrumental techniques used in the examination of chemicals in environmental media (soil, water, biota). Includes proper handling, storage and precautions in the laboratory and the environment. Concurrent with ENST 3700 Environmental Chemistry. 0.0 s.h.

3730. Air Quality. Sources, dispersions, consequences and abatement of air pollutants emanating from industry and transportation. Topics also include the history, legislation, standards and economics of air pollution. Prereq.: CHEM 1515. 3 s.h.

3750. Seminar. Guest lecturers will examine current topics in environmental issues, including current research, application of technology, management strategies to reduce environmental impact, environmental ethics, policy, etc. Prereq.: ENST 2600. 1 s.h.

3751. Water Quality Analysis. Introduction to physical, chemical, and biological measurements of water quality. Sample collection and laboratory analysis of natural waters, drinking water, and wastewater. Interpretation of environmental data. Two hours lecture and three hours laboratory per week. Identical to CEEN 3751. Prereq.: CEEN 3736 OR ENST 2600; CHEM 1515. 3 s.h.

3751L. Water Quality Analysis Lab. Laboratory experience in the analysis of natural waters, drinking water and wastewater. Emphasizes procedures for the collection and interpretation of data on current environmental problems. Three hours laboratory per week. Must be taken concurrently with ENST 3751. Identical to CEEN 3751. Prereq.: Must be taken concurrently with ENST 3751 (Note: already in course description.) 0 s.h.

3780. Environmental Research. A research project that involves problem identification, hypothesis formation, experimentation, data analysis and interpretation. The research may be either basic or applied. Prereq.: Junior standing in ENST and permission of the director. 1-4 s.h.

3781. Environmental Sampling Methods. Sampling design, including number and types of samples and procedures for taking representative samples of air, water, soil and contents of storage and shipping containers. Two hours of lecture, three hours of laboratory. Prereq.: ENST 2600 and STAT 2601 or equivalent. 3 s.h.

3790. Internship/Cooperative. Students work under the direction of a faculty supervisor in a governmental agency or in the private sector as environmental specialists. An activities log and summary report are required. The course may be repeated. Prereq.: Junior standing in ENST and permission of the director. 1-4 s.h.

4840. Topics. Independent study of special topics not included in available courses. Students do extensive reading in, and write a formal report on, a specific area of Environmental Studies. Prereq.: Junior standing or consent of instructor. 1-3 s.h.

5800. Environmental Impact Assessment. Analysis of the potential environmental effects resulting from the construction of buildings, highways, parking lots, mines, reservoirs, and waste disposal facilities. Standard procedures are taught for evaluating and reporting the environmental impact of these activities. Prereq.: ENST 5860 and senior standing. 3 s.h.

5810. Environmental Safety. The proper use of environmental monitoring instruments and personal protective gear. Participation in a series of realistic, hands-on simulation exercises that address a variety of waste clean-up situations. Class meets three hours per week. Prereq.: ENST 2600 or equivalent experience. 1 s.h.

5830. Risk Assessment. An in-depth study of human health and ecological risk assessment. Includes hazard identification, dose-response evaluation, exposure assessment, and the characterization, limitations, management, communication, and perceptions of risk. Standard procedures to conduct a site-specific baseline risk assessment, to calculate risk-based concentrations that may be used to develop preliminary remediation goals, and to evaluate human health risks during the implementation of remedial alternatives. Prereq.: ENST 3700, ENST 5860, and senior or graduate standing. 3 s.h.

5850. Sustainability, Climate Change, and Society. This course explores environmental, economic, and social aspects of sustainable development, with an emphasis on economy and society. Through topics such as water, food, and climate change, we examine the role of humans and institutions in sustainable development and possibilities for reconfiguring relationships between our institutions and the natural world. Prereq.: junior, senior or graduate level standing. 3 s.h.

5860. Environmental Regulations. An examination of federal and state regulations that relate to cleanup of abandoned waste sites, management of waste from current waste generators, development of new hazardous products and chemicals, safety and health issues, and control of pollution into air and water. Prereq.: ENST 2600 or equivalent. 3 s.h.

5888. Environmental Biotechnology. Lectures will cover the use of microbes for solving environmental problems. In the laboratory, teams of students will design and implement experiments in bioremediation. This course is intended for students in biology, environmental studies, chemistry, and engineering. Two hours lecture and four hours lab. Prereq.: CHEM 3719 or CEEN 3736. 4 s.h.
ENTREPRENEURSHIP—ENT
College of Business Administration

3700. Entrepreneurship-New Venture Creation. An examination of the entrepreneurial process from opportunity recognition and assessment through the launch of the new firm. A business plan will be explored and developed in teams. Prereq.: BUS 1500. 3 s.h.

3750. Entrepreneurship-New Venture Financing. A study of the financing of entrepreneurial ventures, including ways entrepreneurs and managers identify and commit the necessary resources to create and fund ventures. Prereq.: ENT 3700. 3 s.h.

4800. Entrepreneurship-Business Plan Development. The business plan is the roadmap to success for a new enterprise. Each student, working independently, will develop a plan for starting, acquiring, or expanding a business. Prereq.: ENT 3700. 3 s.h.

4850. Entrepreneurship Internship. Through employment in local small businesses, the student receives an in-depth exposure to the entrepreneurship world. The student works under direct supervision of the president of a firm for the semester. A journal and final report are required. Prereq.: ENT 3700. 3 s.h.

FINANCE—FIN
Lariccia School of Accounting and Finance

Lower-Division Course

2600. Finance Field Experience. Internship and/or cooperative education experiences in finance. Students may be assigned to corporate, non-profit, or government entities on a semester basis. Can repeat this course once for a different field experience. Prereq.: 2.5 GPA, department approval, and sophomore standing. 1 s.h.

2615. Planning Your Financial Future. A practical orientation to the world of personal finance planning. Emphasis on establishing financial goals and monitoring progress toward reaching those goals to improve the individual’s quality of life. Topics include budgeting, credit, insurance, selection of investment alternatives, retirement planning. Open to business and non-business majors. Does not count toward the Finance major. 3 s.h.

Upper-Division Courses

3720. Business Finance. Study of the financial problems associated with the life cycle of business. Analysis of problems relating to estimating the financial needs of an enterprise and to evaluating the alternative means of providing temporary and permanent capital. Relationship of current financial decision with financial policy is analyzed from the viewpoint of management and the investor. Prereq.: C or better in ACCT 2603. 3 s.h.

3721. Personal Financial Management. An integration of the comprehensive financial planning process into the individual’s financial life cycle. Includes accumulation, preservation, and distribution of financial assets. Topics include financial planning basics and risk management, investment selection, retirement planning and employee benefits, tax considerations, estate and trust basics. Prereq.: C or better in FIN 3720. 4 s.h.

3725. Real Estate Investment. Topics include real property ownership, real estate markets, valuation methods, financing methods and management of real estate investments. Prereq.: C or better in FIN 3720. 3 s.h.

3726. Risk Management. The fundamental nature of risk and insurance. Property and liability insurance and other loss-bearing techniques. Proper use of life insurance in personal and business planning. Prereq.: C or better in FIN 3720. 3 s.h.

3730. Investment Analysis. Detailed examination of the investment merits of corporate bonds, preferred stocks, common stocks, and investment companies from the point of view of the individual investor. Includes security analysis, option basics, and portfolio management. Prereq.: C or better in FIN 3720. 4 s.h.

4835. Advanced Business Finance. In-depth examination of the techniques and analyses employed in the financial management process. Advanced study of working capital management, capital budgeting, and long- and short-term financing choices. Integrated decision making tools such as the options framework as well as economic value added. Prereq.: C or better in FIN 3720. 4 s.h.

4836. Financial Markets. An examination of global financial markets, institutions, and instruments with emphasis on factors influencing how firms and individuals make financing and investing decisions. Advanced coverage of primary market financing, investment banking, stock and index options, financial futures. Prereq.: C or better in FIN 3720, and 3730. 4 s.h.

4839. International Accounting and Finance. Cross-functional introduction to multinational enterprises and multinational financial management with emphasis on foreign currency risk management; measuring and managing accounting and economic exposure; foreign trade and investment analysis; various topics in international accounting and finance. Prereq.: C or better in FIN 3720. 4 s.h.

4841. Seminar in Investments and Security Markets. An examination of the literature on efficient capital markets with implications for security selection and portfolio management. Prereq.: C or better in FIN 3720. 3 s.h.

4850. Finance Internship. Provides students with the opportunity to combine theoretical concepts with business experience. Available in banking, securities brokerage, insurance, real estate, and corporate finance. Prereq.: GPA 2.75 and 8 s.h. in Finance. 3 s.h.

4860. Special Topics in Finance. Subject matter, credit hours, and prerequisites will be announced in advance of each topic. Prereq.: Permission of department chair. 1-4 s.h.

FOOD AND NUTRITION—FNUT

Department of Human Ecology

The following has been approved as a General Education course in the domain of Personal and Social Responsibility: 1551, Normal Nutrition.

Lower-Division Courses

1512. Food Safety and Sanitation. Safe food handling and sanitation practices for students desiring to be employed in the food service industry. Upon successfully completing the ServSafe® exam, the student will be awarded the ServSafe® Certification and the Ohio Department of Health Food Protection Certification. 1 s.h.

1543. Personal Nutrition. Basic normal nutrition adaptable to individual lifestyles throughout the lifespan. Emphasis on valid nutrition information, wellness, and healthful food choices. Not applicable to the food and nutrition major. 1 s.h.

1551. Normal Nutrition. The fundamentals of normal nutrition as they apply to health; nutritional needs during various stages of the life cycle; dietary guides and their application to the selection of adequate diets; problems of nutritional deficiencies and excesses. Prereq.: CHEM 1500 or high school equivalent. 3 s.h.

*1552L. Nutrition Assessment Laboratory. Procedures and techniques in anthropometric, biochemical, clinical and dietary assessment of nutritional status in healthy and at-risk populations. Three hours lab per week. Prereq.: FNUT 1551 or concurrent. 1 s.h.

1553. Food Science and Management Principles. Scientific principles and methods used in selecting, purchasing, and preparing food. Consideration given to nutritional, aesthetic, and socioeconomic factors in meal planning. 3 s.h.

1553L. Food Science and Management Principles Laboratory. Application of principles from FNUT 1553. Must be taken concurrently with FNUT 1553. Three hours lab per week. 1 s.h.

2603. Medical Nutrition Therapy 1. Principles and methods of diet modifications for common diseases; planning and evaluation of modified diets; application of computers for diet analysis. Must be taken concurrently with 2603L. Prereq.: FNUT 1551L and BIOL 1552L. 3 s.h.

2603L. Medical Nutrition Therapy 1 Lab. Application of basic principles of medical nutrition therapy; nutritional assessment; diet calculations. Three hours lab per week. Concurrent with 2603. 1 s.h.

2609L. Food Systems: Supervised Practice. Observation of food service facility organization and management function; participation in the operations of a clinical food service facility. Six hours clinical experience per week, one hour seminar per week. Prereq.: ACCT 2602 with a grade of C or better, pre-req. or concurrent with FNUT 2612 and 2610. Permit required. 3 s.h.

2610. Organization and Management. Concepts of organization and management related to hospitality/health care; selecting, training, developing, and supervising for the advancement of personnel. Emphasis on labor-management relations and legal aspects of the management-guest relationship with particular attention to personal and property liability. 3 s.h.

2612. Food Systems: Operation, Production, and Service. The fundamentals of food service operations including menu planning, purchasing of foods and equipment, care of foods and equipment, efficient work methods, budget and cost control. Also standard principles, techniques in quantity food production, management, and service. Prereq.: FNUT 1553 and 1553L. 3 s.h.

2612L. Food Systems: Operations, Production, and Service Laboratory. Application of the fundamentals of food systems operations, management, and service. Six hours lab per week. Prereq.: FNUT 1553 and 1553L. Concurrent with FNUT 2612. Permit required. 2 s.h.

2613L. Medical Nutritional Therapy Supervised Practice. Application of the nutrition care process in a medical setting for the dietetic technician. Includes a one hour on-campus seminar, and six hours of supervised clinical experience per week. Prereq.: FNUT 2603 and 2603L. 3 s.h.

2628. Practicum in Dietetic Technology. Experience in supervision of food production; assessment, documentation, and teaching of the individual patient or client groups; community nutrition. Overall GPA of 2.5 required. Fourteen hours of clinical experience per week. Prereq.: FNUT 2609L, 2612, 2612L, 2613L, and CHEM 1505. Permit required. 2 s.h.

2650. Seminar in Dietetic Technology. The role of the dietetic technician in the health care delivery system; overview of current opportunities in the food service field; standards of professional responsibility, practice, and self development. Concurrent with FNUT 2628. Permit required. 1 s.h.
Upper-Division Courses

3720. Nutrition, Health, and Aging. Current knowledge of nutrition as it relates to overall health and human aging. Needs of the elderly in normal and diseased conditions. Nutritional needs/concerns of the elderly in the contexts of their physiological, social, and psychological dilemmas. Prereq.: SOC 1500. 3 s.h.

3759. Advanced Nutrition. Integrated approach to nutrition and health, emphasizing metabolism and functions of nutrients at the cellular level; nutritional needs for optimal health; problems of over nutrition and under nutrition. Prereq.: FNUT 1551; BIOL 1552/L; CHEM 3705/L or concurrent. 3 s.h.

3760. Medical Nutrition Therapy 2. The nature and etiology of diseases and the relationship of diet to good health and to disease processes; the special dietary needs of abnormal conditions. Prereq. or concurrent: FNUT 2603 and 3759 or concurrent with FNUT 3760. 3 s.h.

3760L. Medical Nutrition Therapy 2 Laboratory. Orientation to the dietetic profession. Select clinical experiences providing opportunities for developing an understanding and working knowledge of the nutrition care process and its application to individuals exhibiting special nutritional needs. Six hours lab. Concurrent with FNUT 3760 and FNUT 3760R. Restricted course. 2 s.h.

3760R. Medical Nutrition Therapy 2 Laboratory Recitation. Orientation to the dietetic profession. Lecture to further students’ understanding and working knowledge of the nutrition care process and its application to individuals exhibiting special nutritional needs. Concurrent with FNUT 3760 and FNUT 3760L. Restricted course. 2 s.h.

3761. Science of Nutrition in Exercise. Advanced study of concepts related to the integration of nutrition and physical activity in athletic as well as normal and diseased populations. Emphasis on substrate utilization and modification, and nutrient/ergogenic supplementation and crash diets. Prereq.: FNUT 1551 and CHEM 1516 or 3706 or concurrent or special approval. 3 s.h.

4802. Research Methods in Dietetics. Overview of research methodology, statistics and applications in the field of nutrition and dietetics. Prereq.: MATH 2623. 2 s.h.

4802L. Research Methods in Dietetics Laboratory. Application of basic concepts of research methodology and statistics to dietetic practice. Three hours lab per week. Concurrent with FNUT 4802. Permit required. 1 s.h.

4810. Experimental Foods. Advanced study of food science and technology; methodology of food research including evaluation by sensory and objective methods. Prereq.: FNUT 1553, CHEM 3706. Permit required. 2 s.h.

4810L. Experimental Foods Laboratory. Application of scientific principles and experimental procedures to cooking processes. Three hours lab per week. Concurrent with FNUT 4810. Permit required. 1 s.h.

4858. Food Service Systems Management. Advanced food service systems management principles and processes as they relate to resources and operating subsystems. Focus on subsystem interrelationships. Prereq.: FNUT 2612 and a minimum of 20 s.h. of Human Ecology credit. Permit required. 4 s.h.

4860. Medical Nutrition Therapy 3. The nature and etiology of selected disease conditions with focus on solving dietetic problems accompanying them. Prereq.: FNUT 3760. 3 s.h.

4860L. Medical Nutrition Therapy 3 Lab. Selected clinical experience providing opportunities for application of nutritional care process to individuals exhibiting special nutritional needs. Twelve hours lab, one hour lecture per week. Restricted to Coordinated Program in Dietetics. 3 s.h.

4872L. Maternal and Child Nutrition Laboratory. Selected clinical experiences providing opportunities for application of nutritional care process to maternal and child population. Four hours clinical experience, one hour lecture per week. Concurrent with FNUT 4872. Permit required. 2 s.h.

4873L. Nutrition and Aging Laboratory. Supervised practice experiences providing opportunities for application of the dietetic process in the extended care setting. One hour lecture, eight hours clinical experience per week. Prereq.: Restricted to Coordinated Program in Dietetics. 2 s.h.

4874. Community Nutrition and Wellness. Public health nutrition and wellness programs and their services to the community. Emphasis on program funding, cultural competence and needs of the underserved and elderly. Prereq.: FNUT 2603. 3 s.h.

4874L. Community Nutrition and Wellness Laboratory. Selected clinical experiences providing opportunities for application of the nutrition care process and wellness education to individuals and groups in the community setting. Sixteen hours clinical experiences, one hour per week. Prereq.: Restricted to Coordinated Program in Dietetics. 3 s.h.

4885. Practicum in Dietetics. Supervised practice providing opportunities to integrate application of food systems management and clinical dietetics into professional practice. Twenty-four hours clinical experience and one hour lecture per week. Prereq.: FNUT 4858L and 4860L. Permit required. 5 s.h.
4895. DPD Capstone. Application of dietetics principles learned in the classroom to situations in clinical, food service-management, and community settings. Provides opportunities for communication with diverse groups, critical thinking, and problem solving. Emphasis on case-study presentations of current issues and trends in the field. One (1) hour lecture and six (6) hours of laboratory per week. Prereq.: FNUT 4858, FNUT 4874, HMEC 4890. 3 s.h.

5862. Food and Culture. Food practices of selected world cultures. Evaluation of these practices in meeting dietary needs with consideration of the existing social, economic, and environmental conditions. Prereq.: CHFM 3731. 2 s.h.

5862L. Food and Cultures Laboratory. Concurrent with FNUT 4862. Three hours lab per week. Permit required. 1 s.h.

5872. Maternal and Child Nutrition. Principles of the nutritional care process as it relates to the maternal and pediatric population. Prereq.: CHFM 3731 or special approval. 2 s.h.

5873. Nutrition and Aging. Nutritional needs of the elderly as influenced by the aging process and disease states; factors affecting the food availability, food intake, and nutritional status of the elderly; nutritional services for the elderly. Prereq.: FNUT 3760. 2 s.h.

FOREIGN LANGUAGES—FNLG

Department of Foreign Languages and Literatures

The following have been approved as General Education courses in the domain of Artistic and Literary Perspectives: 2605, Topics in Foreign Drama; 2610, Foreign Film.

Foreign Languages—FNLG

Lower-Division Courses

1500. Introduction to Foreign Language Study. An introductory exploration of human language and foreign language learning. Topics include language and society, language and culture (linguistic and cultural knowledge), strategies for learning a foreign language, practical applications of knowing foreign languages, issues of proficiency and bilingualism, intercultural communication, basic terms and concepts, language use and gender. For students without previous foreign language study. Prereq.: Placement test or permission of department chairperson. 3 s.h.

1550. Elementary Foreign Language. Intensive training in understanding, speaking, reading, and writing a foreign language not regularly offered. Geography and daily life, as well as appreciation of the culture of its speakers, are studied. Students should achieve an intermediate-low level of proficiency. Assignments in the Language Learning and Resource Center (LLRC). Grading is ABC/NC. 4 s.h.

1560. Language, Ethnicity, and Gender. Basic understanding of relations between ethnicity, gender, and speech style, distinguishing linguistics, sociolinguistics, and women’s issues. Examination of topics such as language, socialization, oral vs written language, language and class membership, and intra-ethnicity variation in Urban Vernacular English. Listed also as ENGL 1560. 3 s.h.

1560H. Language, Ethnicity, and Gender. Basic understanding of relations between ethnicity, gender, and speech style, distinguishing linguistics, sociolinguistics, and women’s issues. Examination of topics such as language, socialization, oral vs written language, language and class membership, and intra-ethnicity variation in Urban Vernacular English. Listed also as ENGL 1560. 3 s.h.

2600. Intermediate. Intensive training in understanding, speaking, reading, and writing a foreign language not regularly offered; knowledge of geography and daily life as well as appreciation of the culture. Students should achieve an intermediate level of proficiency. Assignments in the LLRC. Prereq.: FNLG 1550. 3 s.h.

2601. Advanced Intermediate. Intensive training in understanding, speaking, reading, and writing a foreign language not regularly offered; knowledge of geography and daily life as well as appreciation of the cultures of speakers of the language. Assignments in the LLRC as appropriate. Prereq.: FNLG 2600. 3 s.h.

2602. Advanced Intermediate 2. A distance learning class and a continuation of FNLG 2601 with intensive training in understanding, speaking, reading, and writing a foreign language not regularly offered. Prereq.: FNLG 2601 in the same language. 3 s.h.

2605. Topics in Foreign Drama. Study of representative plays written in a language other than English (but read in English translation); examination of relevant critical theories and of historic and institutional factors affecting the development of the genre; special attention to ethical issues raised in the plays. This course may not be repeated for credit. 3 s.h.

2610. Foreign Film. Study of representative films originally produced in a language other than English; examination of relevant critical theories and of historic and institutional factors affecting the development of the genre; special attention to cultural issues raised in the films. 3 s.h.

2615. Introduction to French Literature. A survey of the principal milestones of French literature, illustrated by reading representative works of various periods and parts of the Francophone world in their English translations. French majors must supplement
this course by registering for FRNC 2608 during the same semester. This course is for non-French majors. Prereq.: ENGL 1551. 3 s.h.

2660. Women in the Ancient World. Study of various aspects of the lives of women in Ancient Greece and Rome. Emphasis on examination and evaluation of primary sources. All readings are in English. 3 s.h.

2685. Topics in Russian Literature and Culture. Studies of selected authors, genres, or themes in Russian literature read in English translation. Topic is announced each time course is offered. May be repeated once for credit if topic is different. 3 s.h.

Upper-Division Courses

3701. Advanced Foreign Language 1. A distance learning class and a continuation of FNGL 2602 with intensive training in understanding, speaking, reading, and writing in a foreign language not regularly offered. Prereq.: FNGL 2602 in the same language. 3 s.h.

3702. Advanced Foreign Language 2. A distance learning class and a continuation of FNGL 3701 with intensive training in understanding, speaking, reading, and writing in a foreign language not regularly offered. Prereq.: FNGL 3701 in the same language. 3 s.h.

3799. Study Abroad in Foreign Language. An individually-arranged program of foreign study in a language not regularly offered. Programs can be of two general types: (1) trips or residential programs sponsored by consortial universities, and (2) independent academic coursework through institutions with which YSU does not have a consortial agreement. A written statement detailing the student's academic plan must be approved by the Chair of Foreign Languages and the Dean of CLASS prior to the trip. May be repeated up to a total of 15 s.h., if specific course content changes. Note: study abroad generally requires about one year's advance planning. Prereq.: sophomore status and approval of the Chair of Foreign Languages. 1-15 s.h.

4801. Methods of Foreign Language Teaching. Methods of teaching foreign languages (K-12) with emphasis on the Ohio model and the ACTFL guidelines; curricula planning, teaching technology, the rationale for foreign language study, public and professional relations. Elementary, middle school, or high school field experience. Prereq.: Upperdivision status in BCOE and successful completion of at least one course at the 3700 level in FRNC, ITAL, SPAN, or GRMN. 3 s.h.

4899. Professional Development for Teachers. Students will 1) attend an appropriate professional conference and produce a journal detailing their experiences at the conference, and 2) assemble and present a portfolio of their previous language coursework to the faculty and other interested parties. Prereq.: Permission of the Department Chair. 1 s.h.

5850. Sociolinguistics. An investigation of the relationship between language and society. Includes discussion of dialects and standard language, language planning, linguistic identity, multi- and bilingualism, class, gender, ethnicity, and social interaction. Listed also as ENGL 4850. Prereq.: ENGL 1551. 3 s.h.

5851. Language Acquisition. A study of research on the learning of first and second languages. Topics include developmental sequences, learner variables, critical periods and conditions for learning, and the roles of input and interaction. The course is designed for those planning to teach languages. Listed also as ENGL 4851. Prereq.: ENGL 1551. 3 s.h.

Arabic—ARBC

Lower-Division Courses

1550. Elementary Arabic. Intensive training in understanding, speaking, reading, and writing Arabic. Geography and daily life, as well as appreciation of the culture of Arabic speakers, are studied. Assignments in the Language Learning and Resource Center (LLRC). Grading is ABC/NC. 4 s.h.

2600. Intermediate Arabic. A continuation of ARBC 1550 with intensive training in understanding, speaking, reading, and writing Arabic. Geography and daily life, as well as appreciation of the culture of Arabic speakers, are studied. Assignments in the Language Learning and Resource Center (LLRC). Prereq.: ARBC 1550. 4 s.h.

2605. Advanced Intermediate Arabic. A distance learning class and a continuation of ARBC 2600 with intensive training in understanding, speaking, reading, and writing Arabic. Geography and daily life, as well as appreciation of the culture of Arabic speakers, are studied. Assignments in the Language Learning and Resource Center (LLRC). Prereq.: ARBC 2600. 3 s.h.

2606. Advanced Intermediate Arabic 2. A distance learning class and a continuation of ARBC 2605 with intensive training in understanding, speaking, reading, and writing Arabic. Prereq.: ARBC 2605. 3 s.h.

Upper-Division Courses

3701. Advanced Arabic 1. A distance learning class and a continuation of ARBC 2606 with intensive training in understanding, speaking, reading, and writing Arabic. Prereq.: ARBC 2606. 3 s.h.

3702. Advanced Arabic 2. A distance learning class and a continuation of ARBC 3701 with intensive training in understanding, speaking, reading, and writing Arabic. Prereq.: ARBC 3701. 3 s.h.

3799. Study Abroad in Arabic. An individually-arranged program of foreign study in the Arabic language. Programs can be of two general types: (1) trips or residential programs sponsored by consortial universities, and (2) independent academic coursework through institutions with which YSU does not
have a consortial agreement. A written statement detailing the student's academic plan must be approved by the Chair of Foreign Languages and the Dean of CLASS prior to the trip. May be repeated up to a total of 15 s.h., if specific course content changes. Note: study abroad generally requires about one year's advance planning. Prereq.: Sophomore status and approval of the Chair of Foreign Languages. 1-15 s.h.

**French—FRNC**

**Lower-Division Courses**

1550. *Elementary French.* Intensive training in understanding, speaking, reading, and writing French. Geography and daily life, as well as appreciation of the culture of its speakers, are studied. Successful students will have reached an intermediate-low level of proficiency at the end of the course. Assignments in the Language Learning and Resource Center (LLRC). Grading is ABC/NC. 4 s.h.

2600. *Intermediate French.* Continuation of CHIN 1550 with intensive training in understanding, speaking, reading, and writing French. Geography and daily life, as well as appreciation of the culture of French-speaking countries and Francophone cultures. Successful students will have reached an intermediate-mid level of proficiency. Assignments in the LLRC. Prereq.: Placement test or FRNC 1550. 4 s.h.

2605. *Advanced Intermediate French.* Intensive training in understanding, speaking, reading, and writing French; knowledge of physical aspects of French-speaking countries and Francophone cultures. Successful students will have reached an intermediate-high level of proficiency at the end of the course. Assignments in the LLRC. Prereq.: Placement test or FRNC 2600. 3 s.h.

2606. *Intensive French Review.* Intensive training in understanding, speaking, reading, and writing French. Grammatical structures and vocabulary in context. Successful students will reach an intermediate-high level of proficiency at the end of the sequence. Prereq.: Placement test or FRNC 2600. 3 s.h.

2608. *Directed Reading.* Reading authentic French texts of intermediate difficulty relevant to the content of another course not taught in French. Reading comprehension strategies and vocabulary building. Primarily for students not majoring in French. May be repeated once. Prereq.: FRNC 2605 or Placement test. 1 s.h.

2610. *Translation.* Techniques of translating complex sentence structures into English from general, business, technical, and scientific materials. Prereq.: Placement exam or FRNC 2600. 3 s.h.

**Upper-Division Courses**

3710. *Applied Phonetics.* A systematic study of French phonetics to correct defects in pronunciation and intonation and give students a better understanding of the differences between the French and English sound systems. Prereq.: FRNC 2605. 3 s.h.

3715. *Conversation and Composition.* Skills in written and oral expression developed through directed composition and conversation, discussion of assigned

---

Youngstown State University

Undergraduate Bulletin 321
topics, extemporaneous situational dialogues, and written papers on topics of special interest to the participants. Prereq.: FRNC 2605. 3 s.h.

3720. Literature and Culture: France. A study of major works of French literature through its history, placed in the cultural context which helped produce them. Prereq.: FNLG 2615 and FRNC 3715. 3 s.h.

3750. Civilization and Culture. A study of contemporary French civilization and culture, focusing on what the French consider typical of their character, as exemplified by their traditions, magazines, films, and heroes. Readings and class work in French. Prereq.: 2605.

3771. French Fiction. Selected prose works of fiction in the French language, placed in their cultural and historical context, preparing students to understand, analyze, and interpret French and Francophone novels. Prereq.: FRNC 2605 and 2606.

3772. French Drama. Selected dramatic works in the French language, placed in their cultural and historical context, preparing students to understand, analyze, and interpret French and Francophone theatrical works. Prereq.: FRNC 2605 and 2606.

3773. French Poetry. Selected works of poetry in the French language, placed in their cultural and historical context, preparing students to understand, analyze, and interpret French and Francophone poems. Prereq.: FRNC 2605 and 2606.

3799. Study Abroad in French. An individually-arranged program of foreign study in the French language. Programs can be of two general types: (1) trips or residential programs sponsored by consortial universities, and (2) independent academic coursework through institutions with which YSU does not have a consortial agreement. A written statement detailing the student's academic plan must be approved by a member of the French faculty, the chair of Foreign Languages and the dean of CLASS prior to the trip. Credit toward fulfillment of requirements for the French major will be determined by the chair of Foreign Languages and not the French faculty. May be repeated up to a total of 15 s.h., if specific course content changes. Note: study abroad generally requires about one year's advance planning. Prereq.: Sophomore status and approval of the chair of Foreign Languages. 1-15 s.h.

4874. Advanced Writing. A course designed to develop skills in free composition on assigned topics. Prereq.: FRNC 3750 and one of the following: 3720, 3725, 3730.

4885. Special Topics. Studies in French language, literature, or civilization ranging from medieval to modern times. Topic announced each time course is offered. May be taken three times for credit if content is not repeated. Prereq.: FRNC 3750 and one of the following: 3720, 3725, 3730.

German—GRMN

Lower-Division Courses

1550. Elementary German. Intensive training in understanding, speaking, reading, and writing German. Geography and daily life, as well as appreciation of the culture of its speakers, are studied. Students should achieve an intermediate-low level of proficiency. Assignments in the Language Learning and Resource Center (LLRC). Grading is ABC/NC.

2600. Intermediate. Intensive training in understanding, speaking, reading, and writing German; knowledge of geography and daily life as well as appreciation of the cultures of German speakers. Students should achieve an intermediate-mid level of proficiency. Assignments in the LLRC. Prereq.: Placement test or GRMN 1550.

2605. Advanced Intermediate. Intensive training in understanding, speaking, reading, and writing German; knowledge of geography and daily life as well as appreciation of the cultures of German speakers. By the end of the course the students should achieve an intermediate-high level of proficiency. Assignments in the LLRC. Prereq.: Placement test or GRMN 2600.

2610. Translation 1. Techniques of translating complex sentence structures into English from general, business, technical, and scientific materials. Prereq.: GRMN 2600.

Upper-Division Courses

3705. German Film and Culture Since 1950. Significant German feature films portraying various aspects of German culture such as daily life, filmic versions of literature, life in East and West Germany, and post-unification cultural differences. Focus on listening comprehension and written expression. Prereq.: Placement test or GRMN 2600.

3720. German Literature. Reading of German prose and/or poetry focusing on an author, a genre, or a literary trend. Prereq.: GRMN 2605.

3725. Phonetics and History of the Language. Theory and practice in German phonetics with special emphasis on improving the pronunciation and intonation of second-language learners. A history of the German language with attention to changes in sounds, forms, word order, vocabulary, and writing systems. Prereq.: GRMN 2605.
3740. Conversation and Composition. Development of oral fluency, writing style, and understanding spoken German. Special emphasis on expanding active and passive vocabulary; advanced grammar structures. Prereq.: Placement test or GRMN 2605. 3 s.h.

3750. Cultural Heritage 1. A survey of German civilization from the beginnings to 1949, including such topics as literature, history, music, and art. Prereq.: Any 3700 German course. 3 s.h.

3751. Cultural Heritage 2. A survey of German civilization since 1949, including such topics as literature, history, music, and art. Prereq.: Any 3700 German course. 3 s.h.

3762. Translation 2. A continuation of Translation 1 with more advanced texts from students’ fields of interest including natural sciences, social sciences, business, and humanities. Prereq.: GRMN 2610 and any GRMN at 3700 level. 3 s.h.

3785. Special Topics. Studies in German language, literature, or civilization ranging from medieval to modern times. Topic announced each time course is offered. May be repeated for a maximum of 6 s.h. Prereq.: 6 s.h. GERMAN at 3700 level. 3 s.h.

4861. Literary Trends Since 1950. Study of a major author or a genre since World War II using appropriate German films. Prereq.: GRMN 3750 or 3751. 3 s.h.

4880. Research and Writing. A thorough investigation of a problem in German or German-American language, literature or culture, or in German-language education. Extensive oral and written reporting or research results. Capstone course. Prereq.: GRMN 3750 or 3751. 3 s.h.

**Greek (Ancient) — GRK**

**Lower-Division Courses**

1550. Elementary Ancient Greek. Introduction to Ancient Greek with emphasis on those aspects of grammar most essential for developing the ability to read Greek. Translation of simple Ancient Greek texts into English. Assignments in the Language Learning and Resource Center (LLRC). Grading is ABC/NC. 4 s.h.

2600. Intermediate. Continuation of GRK 1550 with emphasis on more complex aspects of Ancient Greek grammar. Translation of more advanced Ancient Greek texts, including some authentic passages. Assignments in the LLRC. Prereq.: Placement test or GRK 1550. 4 s.h.

2603. Directed Reading 1. Reading of selections from an Ancient Greek author or genre with emphasis on translation. Review of Ancient Greek grammar and introduction of some advanced grammatical constructions not covered in Ancient Greek 1550 or 2600. May be repeated once if topic is different. Prereq.: Placement test or GRK 2600 or permission of department chairperson. 3 s.h.

**Upper-Division Courses**

3753. Directed Reading 2. Reading of selections from an Ancient Greek author or genre with emphasis on translation and interpretation of text. Review of Ancient Greek grammar. Introduction to relevant modern scholarship. Writing of evaluative essays. May be repeated once if topic is different. Prereq.: GRK 2603 and permission of department chairperson. 3 s.h.

4883. Directed Reading 3. Reading of selections from an Ancient Greek author or genre with emphasis on translation and interpretation of text. Review of Ancient Greek grammar. Writing of a research paper. May be repeated once if topic is different. Prereq.: GRK 3753 and permission of department chairperson. 3 s.h.

**Hebrew — HBRW**

**Lower-Division Courses**

1550. Elementary Hebrew. Beginning training in understanding, speaking, reading, and writing Hebrew. Geography and daily life, as well as appreciation of the culture of its speakers, are studied. Assignments in the Language Learning and Resource Center (LLRC). Grading is ABC/NC. 4 s.h.

2600. Intermediate. Intensive training in understanding, speaking, reading, and writing Hebrew; knowledge of geography and daily life as well as appreciation of the culture of Hebrew speakers. Assignments in the LLRC. Prereq.: Placement test or HBRW 1550. 4 s.h.

2605. Advanced Intermediate. Reading and discussion in Hebrew of selections from the Old Testament. Prereq.: Placement test or HBRW 2600. 3 s.h.

**Upper-Division Courses**

3706. Readings in Hebrew Scripture. Reading and discussion in Hebrew of selections from the Hebrew Scriptures. May be repeated once if the texts studied are different. Prereq.: HBRW 2605. 3 s.h.

3799. Study Abroad in Hebrew. An individually-arranged program of foreign study in the Hebrew language. Programs can be of two general types: (1) trips or residential programs sponsored by consortial universities, and (2) independent academic coursework through institutions with which YSU does not have a consortial agreement. A written statement detailing the student’s academic plan must be approved by a member of the Hebrew faculty, the chair of Foreign Languages and the dean of CLASS prior to the trip. May be repeated up to a total of 15 s.h., if specific course content changes. Note: study abroad generally requires about one year’s advance planning. Prereq.: Sophomore status and approval of the chair of Foreign Languages. 1-15 s.h.
Italian—ITAL

Lower-Division Courses

1550. Elementary Italian. Intensive training in understanding, speaking, reading, and writing Italian. Geography and daily life, as well as appreciation of the culture of its speakers, are studied. Students should achieve an intermediate-low level of proficiency. Assignments in the Language Learning and Resource Center (LLRC). Grading is ABC/NC. 4 s.h.

2600. Intermediate. Intensive training in understanding, speaking, reading, and writing Italian; knowledge of geography and daily life as well as appreciation of the cultures of Italian speakers. Students should achieve an intermediate-mid level of proficiency. Assignments in the LLRC. Prereq.: Placement test or ITAL 1550. 3 s.h.

2605. Advanced Intermediate. Intensive training in understanding, speaking, reading, and writing Italian; knowledge of geography and daily life as well as appreciation of the cultures of Italian speakers. By the end of the course students should achieve an intermediate-high level of proficiency. Assignments in the LLRC. Prereq.: Placement test or ITAL 2600. 3 s.h.

2606. Intensive Italian Review. Intensive training in understanding, speaking, reading, and writing Italian. Grammatical structures and vocabulary in context. Prereq.: Placement test or ITAL 2600. 3 s.h.

Upper-Division Courses

3720. Advanced Grammar and Composition. In-depth study of Italian grammar through exercises and original composition. Prereq.: ITAL 2605. 3 s.h.

3725. Phonetics. Theory and practice in Italian phonetics with special emphasis on improving the pronunciation and intonation of second language learners. Prereq.: Placement test or ITAL 2600. 3 s.h.

3730. Conversation. Designed to develop oral facility through exercises and discussion of assigned topics, and through prepared and extemporaneous situational dialogues. Prereq.: ITALIAN 2605. 3 s.h.

3735. Civilization. A condensed study of the geography, history, literature, and social heritage of Italy, from the fall of the Roman Empire to the present. Includes class discussion for improvement of oral facility. Prereq.: ITALIAN 2605. 3 s.h.

3743. Topics in Italian Literature I. A study of a genre, author, or literary movement. May be repeated with a different topic. Prereq.: Any ITAL at 3700 level or above. 3 s.h.

3750. Literature of the 20th Century. A study of the literature of the 20th century and its movements and innovations, with concentration on D’Annunzio, Ungaretti, Quasimodo, Montale, Moravia, and Pirandello. Prereq.: ITAL 3720 and 3730. 3 s.h.

3760. Literature of the 19th Century. A study of the literature of the 19th century with concentration on Leopardi, Manzoni, Pascoli, and Carducci. Prereq.: ITAL 3720 and 3730. 3 s.h.

3799. Study Abroad in Italian. An individually-arranged program of foreign study in the Italian language. Programs can be of two general types: (1) trips or residential programs sponsored by consortial universities, and (2) independent academic coursework through institutions with which YSU does not have a consortial agreement. A written statement detailing the student’s academic plan must be approved by a member of the Italian faculty, the chair of Foreign Languages and the dean of CLASS prior to the trip. Credit toward fulfillment of requirements for the Italian major will be determined by the chair of Foreign Languages and the Italian faculty. May be repeated up to a total of 15 s.h., if specific course content changes. Note: study abroad generally requires about one year’s advance planning. Prereq.: Sophomore status and approval of the chair of Foreign Languages. 1-15 s.h.

4800. “Risorgimento,” Romanticism, and Rome (1800-1860). A study of the historical circumstances and the artistic and literary trends that preceded the “Risorgimento” or the unification of Italy. Prereq.: ITAL 3720 and 3730. 3 s.h.

4825. Viability, “Verismo,” and Verga (1860-1920). A study of the historical and cultural circumstances in addition to the artistic and literary trends that followed the “Risorgimento” or the unification of Italy. Prereq. ITAL 3720 and 3730. 3 s.h.

4850. Literature of the 16th Century. A course dealing with the literature of the Renaissance and concentrating on Ariosto, Bandello, Machiavelli, and Tasso. Prereq.: ITAL 3750 or 3760. 3 s.h.

4860. Literature of the 14th Century. A study of the Italian literature of the 14th century with concentration on Dante’s Divine Comedy. Prereq.: ITAL 3750 or 3760. 3 s.h.

4870. Topics in Italian Literature 2. A study of a genre, author, or literary movement. May be repeated with a different topic. Prereq.: 6 s.h. of Italian at 3700 level or above. 3 s.h.

4880. Research and Writing. In-depth investigation of a topic in Italian language, literature, history, or culture. Research results in extensive oral and written reports. Capstone course. Prereq.: ITAL 3720 and 3730. 3 s.h.

Latin—LATN

Lower-Division Courses

1550. Elementary Latin. Introduction to Latin, with emphasis on those aspects of grammar most essential for developing the ability to read Latin. Translation of simple Latin texts into English. Introduction to the culture of the late Roman Republic, including reading...
selected primary sources in English. Assignments in the Language Learning and Resource Center (LLRC). Grading is ABC/NC.  

2600. Intermediate. Continuation of Latin 1550 with emphasis on more complex aspects of Latin grammar. Translation of more advanced Latin texts, including some authentic passages. Introduction to the culture of the Augustan Age, including reading selected primary sources in English. Assignments in the LLRC. Prereq.: Placement test or LATN 1550.  

2603. Directed Reading 1. Reading of selections from a Latin author or genre with emphasis on translation. Review of Latin grammar and introduction of some advanced grammatical constructions not covered in Latin 1550 or 2600. May be repeated once if topic is different. Prereq.: Placement test or Latin 2600.  

3 s.h.

Upper-Division Courses

3753. Directed Reading 2. Reading of selections from a Latin author or genre with emphasis on translation and interpretation of text. Review of Latin grammar. Introduction to relevant modern scholarship. Writing of evaluative essays. May be repeated once if topic is different. Prereq.: Placement test or LATN 2603 and permission of department chairperson.  

4883. Directed Reading 3. Reading of selections from a Latin author or genre with emphasis on translation and interpretation of text. Review of Latin grammar. Writing of a research paper. May be repeated once if topic is different. Prereq.: LATN 3753 and permission of department chairperson.  

3 s.h.

Russian—RUSS

Lower-Division Courses

1550. Elementary Russian. Intensive training in understanding, speaking, reading, and writing Russian. Geography and daily life, as well as appreciation of the culture of its speakers, are studied. Students should achieve an intermediate-mid level of proficiency. Assignments in the Language Learning and Resource Center (LLRC). Grading is ABC/NC.  

2600. Intermediate. Intensive training in understanding, speaking, reading, and writing in Russian; knowledge of geography and daily life as well as appreciation of the culture of Russian speakers. Students should achieve an intermediate-low level of proficiency. Assignments in the LLRC. Prereq.: Placement test or RUSS 1550.  

2606. Advanced Intermediate 2. Reading and listening. Focus on morphology and syntax. Topics will vary according to the student's major area of interest. May be repeated if topic is different. Prereq.: Placement test or RUSS 2605.  

3 s.h.

Upper-Division Courses

3 s.h.
3735. Advanced Spanish Grammar and Composition. A systematic study of Spanish morphology, sentence structure, and usage applied to a variety of written discourse styles such as description, narration, and exposition. Discussion of contrasts with English discourse styles, and effective grammatical use. Prereq.: SPAN 2605. 3 s.h.

3736. Introduction to Spanish Linguistics. Examines some of the basic concepts and issues of modern Spanish linguistic theory in the areas of phonology, morphology, syntax and pragmatics, including readings and discussion on these topics. Prereq.: SPAN 3735 or 3736. 3 s.h.

3737. Translation and Composition. Study of translation techniques, and practice in translating from Spanish into English and from English into Spanish, working with a variety of texts from the social sciences, natural sciences, and technology. Emphasis on interpretation of vocabulary and idioms. Prereq.: SPAN 3735 or 3736. 3 s.h.

3752. Spanish Culture and Literature 1. Introduction to Peninsular culture and literatures from the Middle Ages to the Romantic period in the 19th century through representative selections of key historic and literary figures. Theoretical and critical approaches to help the student interpret key texts. Prereq.: SPAN 2605. 3 s.h.

3753. Spanish Culture and Literature 2. Introduction to Peninsular culture and literatures from the Romantic period to the present through representative selections of key historic and literary figures. Theoretical and critical approaches to help the student interpret key texts. Prereq.: SPAN 2605. 3 s.h.

3755. Conversation for Proficiency 2. Development of oral expression through discussion of current topics in the context of worldwide Hispanic culture, politics, and economics. Expansion of vocabulary. Laboratory work according to individual needs. Prereq.: SPAN 2655 and one 3700-level SPAN course. 3 s.h.

3756. Spanish-American Culture and Literature 1. This course traces the history and cultures of Spanish America from pre-Columbian and colonial times through independence (1820). Describes important literary currents and provides a historical context for the period. Prereq.: SPAN 2605. 3 s.h.

3757. Spanish-American Culture and Literature 2. This course traces the history and cultures of Spanish America from independence (1820) through the 20th century. Describes important literary currents and provides a historical context for the period. Prereq.: SPAN 2605. 3 s.h.

3758. Culture and Literature of Spanish-Speaking Groups in the U.S. Provides an overview of the significant culture and literature of the diverse Hispanic groups in the U.S. The relationship between literature and society broached through an in-depth discussion of several representative texts and their historical and political background. Prereq.: One 3700-level SPAN course. 3 s.h.

3799. Study Abroad in Spanish. An individually-arranged program of foreign study in the Spanish language. Programs can be of two general types: (1) trips or residential programs sponsored by consortial universities, and (2) independent academic coursework through institutions with which YSU does not have a consortial agreement. A written statement detailing the student's academic plan must be approved by a member of the Spanish faculty, the chair of Foreign Languages and the dean of CLASS prior to the trip. Credit toward fulfillment of requirements for the Spanish major will be determined by the chair of Foreign Languages and the Spanish faculty. May be repeated up to a total of 15 s.h., if specific course content changes. Note: study abroad generally requires about one year's advance planning. Prereq.: Sophomore status and approval of the chair of Foreign Languages. 1-15 s.h.

5855. Topics in Spanish Language and Linguistics. An introduction to the terminology, concepts, bibliography and current issues in Spanish language and linguistics. Major topics include phonology, morphology, semantics, syntax, applied linguistics, transformational grammar, and other topics related to language variation and society. May be repeated once when topic varies. Prereq.: Any 3700-level SPAN course. 3 s.h.

5870. Topics in Spanish Literature: Spain. Study of an author, a genre, or a movement in Spanish literature from 1492 to the present. The topic will be announced each time the course is offered. May be taken three times if content is not repeated. Prereq.: SPAN 3752 or 3753. 3 s.h.

5885. Topics in Hispanic Literature and Film. Examines the relationship between the Hispanic narrative discourse and cinema, including film adaptations of literary works. Modern social and cultural issues, as well as Hispanic self-images. May be taken three times if content is not repeated. Prereq.: one of SPAN 3752, 3753, 3756, 3757. 3 s.h.

5890. Topics in Spanish Literature: Spanish-America. Study of an author, a genre, or a movement in Latin America from 1492 to the present. The topic will be announced each time the course is offered. May be taken three times if content is not repeated. Prereq.: SPAN 3756 or 3757. 3 s.h.

Swahili—SWAH

1550. Elementary Swahili. Intensive training in understanding, speaking, reading, and writing Swahili. Geography and daily life, as well as appreciation of the culture of its speakers, are studied. Students should achieve intermediate low-level proficiency. Assignments in the Language Learning and Resource Center (LLRC). Grading is ABC/NC. 4 s.h.
2600. Intermediate. Intensive training in understanding, speaking, reading, and writing Swahili; knowledge of geography and daily life as well as appreciation of the culture. Students should achieve Intermediate Mid Level proficiency. Assignments in the LLRC. Prereq.: Placement test or SWAH 1550. 4 s.h.

FOUNDATIONS OF EDUCATION—FOUN
Department of Educational Administration, Research, and Foundations

1501. Introduction to Education. Historical, political, legal, cultural and ethical perspectives on the work and roles of teachers and schooling. Issues confronting educators, voters, parents and children. Twenty-five hours of field work, orienting students to classrooms and to the organization and governance of school districts. 3 s.h.

3708. Education and Society. School as a dynamic social institution. An analysis of how schools interact with diverse communities and with social, political, and cultural institutions and traditions. Twenty-five hours of field research. Prereq.: Admission to the College of Education or permission of chairperson. 3 s.h.

5875. Seminar in Foundations of Education. Selected topics for a focused study on problems, issues, or concerns to be addressed by a sociological, historical, philosophical, assessment, or research perspective. Prereq.: Permission of chairperson. 1-3 s.h.

5880. Special Topics in Foundations of Education. An advanced study of sociological, historical, and/or philosophically based research which provides analysis of a particular educational issue with special emphasis on implications for diverse populations and/or diverse school settings. Prereq.: Permission of chairperson. 1-3 s.h.

GEOGRAPHY—GEOG
Department of Geography

The following have been approved as General Education courses in the domain of Natural Sciences: 1503, Physical Geography; 2630, Weather. In Societies and Institutions, 2626, World Geography; 2640, Human Geography.

Physical Geography

Lower-Division Courses

1503. Physical Geography. An introductory analysis of selected elements of the natural habitat and their geographic distribution. Includes processes involved in weather, climates, soils, vegetation, and landforms. 3 s.h.

2630. Weather. An examination of basic weather elements, their interrelationships and the natural laws that govern them. Focus is on both global scale atmospheric processes and localized factors that influence weather conditions and patterns. 3 s.h.

2630L. Weather Lab. Observation, collection and analysis of atmospheric data, and determination and prediction of weather conditions. Atmospheric laws and meteorological principles, concepts, and processes are investigated using the scientific method. Two hours of laboratory per week. Optional lab to accompany GEOG 2630: Weather. Prereq.: GEOG 2630 or concurrently with GEOG 2630. 1 s.h.

2630H. Honors Weather. An examination of basic weather elements, their interrelationships and the natural laws that govern them. Focus is on both global scale atmospheric processes and localized factors that influence weather conditions and patterns. 3 s.h.

Upper-Division Courses

3703. Human Impacts on the Environment. Focus is on the interaction between natural systems and human activities that results in environmental change and degradation of the Earth’s atmosphere, waters, soil, vegetation, and animal life. Societal conflicts, mitigation, conservation, and sustainable resource strategies are discussed. Prereq.: GEOG 1503; or GEOL 1504 or 1506; or ENST 1500; or HIST 3774. 3 s.h.

3705. Mountain Geography. Investigates the physical, biological, and cultural processes that take place in selected mountain environments. Topics also include resource use, environmental change, and sustainable development at both regional and global scales. Prereq.: BIOL 1505 or ENST 1500 or ENST 2600 or GEOG 1503 or GEOL 1504 or GEOL 1505. 3 s.h.

3730. Global Climates. An examination of the earth’s climates and the processes and controls responsible for their occurrence, distribution and change. Prereq.: GEOG 1503 or 2630. 3 s.h.
3733. Severe and Hazardous Weather. Focus is on severe weather that may threaten harm to life and/or property. The scientific underpinning of severe weather types and their geographic distributions, hazards, and mitigation measures. Topics include extratropical cyclones; thunderstorms; lightning; tornadoes; hurricanes; floods; droughts; cold and heat waves; blizzards; snow; ice and wind storms; and El Niño/La Niña. Prereq.: GEOG 1503 or 2630. 3 s.h.

3735. Water in the Earth System. Focus is on the cycling of water within the Earth system. Covers the unique properties of water, the global water cycle, the distribution of water within the various reservoirs of the hydrosphere, the role of water in energy transfer and systems interactions, and human impacts on water resources. Prereq.: GEOG 1503 or 2630; or GEOL 1504 or 1505 or 2602; or ENST 1500 or 2600. 3 s.h.

3737. Soils and Land Use. Examination of soil characteristics influencing land use planning and development. Topics include the basic physical and chemical properties of soil, soil water, the soil-forming factors, the use and interpretation of county soil reports, and soil characteristics beneficial and detrimental to selected land use practices. Participation in field trips is required. Prereq.: GEOG 1503; or GEOL 1504 or 1505; or ENST 2600; high school chemistry recommended. 3 s.h.

**Geo-Spatial Techniques**

**Lower-Division Courses**

2610. Map Use and Interpretation. The use of maps, aerial photography, and satellite imagery to depict physical and cultural landscapes. Topics include map elements and how to locate, read, and interpret maps and remotely-sensed imagery. 3 s.h.

**Upper-Division Courses**

3711. Geo-Spatial Foundations. An overview of geo-spatial science and technology, including introductory concepts in spatial analysis, Geographic Information Systems, remote sensing, and GPS. The class provides a survey of theoretical Geo-Spatial topics and their applications in a computer lab setting. Prereq.: GEOG 1503 or 2610 or 2626 or 2640. 3 s.h.

3712. Thematic Map Design and Symbolization. An introduction to cartographic design. Emphasis is on composition elements and the construction and perception of point, line, and area map symbols. The use of color, statistical techniques, and animated maps are also explored. Prereq.: GEOG 2610, 2626, or 2640. 3 s.h.

5805. Remote Sensing I. Analysis and interpretation of earth features from both airborne and satellite observation platforms. Themes include photogrammetry, digital data manipulation, multispectral imagery, and interpretation of environmental features. Not available to students who have taken GEOG 3710. Prereq.: GEOG 2610 or 2611 or 3712; and Junior standing. 3 s.h.

5806. Remote Sensing II. A continuation of Remote Sensing I; focusing on advanced theory of image classification, image processing and enhancement, and spatial analytical methods. Prereq.: GEOG 5805. 3 s.h.

5810. Geographic Information Science I. Introduction to the principles of collection, storage, manipulation, retrieval, analysis and visualization of spatial data in a computer environment. Not available to students who have taken GEOG 3732. Prereq.: GEOG 2610 or 2611 or 3712; and Junior standing. 3 s.h.

5811. Geographic Information Science II. A continuation of GIScience I focusing on theory and application of advanced techniques in spatial data handling, modeling, and spatial analysis. Not available to students who have taken GEOG 3765. Prereq.: GEOG 5810. 3 s.h.

5812. Global Positioning Systems and GIScience. Background, application and theory of satellite positioning technology. Incorporates GPS field data collection and subsequent integration with GIS analysis tools. Prereq.: GEOG 5810. 3 s.h.

5814. 3D Modeling and GIS. 3D modeling and visualization techniques using GIS (Geographic Information Science) and Geo-Spatial technology. Topics include 3D surfaces, animations, design and rendering of spatial data. Prereq.: GEOG 5810. 3 s.h.

**Human and Regional Geography**

**Lower-Division Courses**

2626. World Geography. A comparative study of representative regions of the world. Attention is focused on an examination of the physical, cultural, social and political attributes of selected regions. 3 s.h.

2640. Human Geography. An examination of the place to place variation in people’s utilization of the earth. Topics include the distribution of people, spatial variations in culture, urbanization and politicization of space. 3 s.h.

2640H. Honors Human Geography. An examination of the place to place variation in people’s utilization of the earth. Topics include the distribution of people, spatial variations in culture, urbanization and politicization of space. 3 s.h.

2650. Global Economic Landscapes. Geographic patterns of economic activities such as agriculture, manufacturing, retailing and services, and regional patterns and issues in the emerging global economy. 3 s.h.

**Upper-Division Courses**

3713. Geography of South America. Spatial patterns found in the physical and cultural landscapes of South America. Prereq.: GEOG 2626 or 2640; or HIST 3728. 3 s.h.
3715. Geography of Middle America. Spatial patterns found in the physical and cultural landscapes of Middle America (Mexico, Central America, and the Caribbean). Prereq.: GEOG 2626 or 2640; or HIST 3727. 3 s.h.

3717. Geography of Europe. Spatial patterns found in the physical and cultural landscapes of Europe. Prereq.: GEOG 2626 or 2640. 3 s.h.

3719. Geography of the United States. Spatial patterns found in the physical and cultural landscapes of the United States. Prereq.: GEOG 2626 or 2640; or HIST 2605 or 2606. 3 s.h.

3721. Geography of Ohio. Spatial patterns found in the physical and cultural landscapes of Ohio. Prereq.: GEOG 2626 or 2640; or HIST 2605 or 2606 or 3748. 3 s.h.

3722. Historical Geography of the United States. Spatial patterns found in the United States over time. Topics include discovery and exploration, regional variation in settlement, ethnicity and material culture, and the role of transportation in the American landscape. Prereq.: GEOG 2626 or 2640; or HIST 2605 or 2606. 3 s.h.

3724. Themes in Cultural Geography. A seminar focusing on cultural traditions in geography in the United States. Primary focus is on scholars, traditions, theory and methodology of cultural geography as published in the professional literature. Prereq.: GEOG 2626 or 2640 or ANTH 1500 or SOC 1500. 3 s.h.

3726. Urban Geography. A study of the changing spatial patterns associated with the rise of urbanization, comparative urban developments and cities as a part of the urban system. Prereq.: GEOG 2626 or 2640; or HIST 3736; or SOC 3707. 3 s.h.

3740. Business Geographics. The application of geographic concepts and techniques to business problems, with emphasis on the use of geographic data, locational decision-making and the analysis of markets. Prereq.: GEOG 2640 or 2650. 3 s.h.

3741. Transportation Geography. Spatial properties of interregional and intraurban transportation. Topics include network development, movement patterns of people and commodities and the impact of transportation on other activities. Prereq.: GEOG 2626 or 2640 or 2650 or 3745. 3 s.h.

3745. The Automobile in American Culture. The impact of the automobile on the economic, cultural and environmental landscapes of the United States from a geographic standpoint. Prereq.: GEOG 2640 or 2650 or 3741. 3 s.h.

3750. Topics in Regional Geography. Application of the regional method to selected areas of the world. Topic is announced each time the course is offered. May be repeated three times for credit if content is not repeated. Maximum credit 9 s.h. Prereq.: GEOG 2626 or 2640. 3 s.h.

3755. Tourism Geography. Geographic analysis of leisure travel and the travel industry including patterns of travel, impacts of tourism and marketing of tourism sites. Prereq.: GEOG 2626 or 2640; or HMGT 1501. 3 s.h.

3775. Field Methods in Geography. Practical experiences in geographic data collection. Emphasis on applying techniques of observation, sampling, surveying, interviewing and mapping to both physical and human spatial phenomena. Participation in field trips is mandatory. Prereq.: GEOG 1503 or 2610 or 2640. 3 s.h.

3780. Medical Geography. A geographical and epidemiological approach to disease study. Examines the diffusion and distribution of illnesses and the social and environmental factors contributing to their occurrence. Global disease trends, health care issues and development are explored and compared. Prereq.: GEOG 2626 or 2640 or ANTH 1500 or BIOL 2602 or SOC 1500. 3 s.h.

4825. Geography Internship. Practical application of geographic principles and skills in the public or private workplace. A minimum of 40 clock hours per credit hour per semester is required in the work setting. An activities log must be maintained and oral and written reports of the internship experience are required. May be repeated for up to 6 s.h. Prereq.: 3 s.h. upper-division geography. By permit only. 1-3 s.h.

4840. Seminar in Geography. Selected aspects of geography not covered in existing courses. Topic to be announced each time the course is offered. May be taken up to two times for credit if topic is not repeated. Prereq.: 9 s.h. of geography. 3 s.h.

4890. Geography Capstone. Investigation of research topics, methods, and issues in geography. Students select a geographic research topic, collect and analyze data using appropriate methods and present findings in oral and written form. Prereq.: Senior standing in Geography. 3 s.h.

5802. Biogeography. The distribution and scale of flora and fauna and the factors and processes that produce these patterns. Topics also include disturbance events, dispersal, colonization and invasion, and biological hierarchy. Prereq.: BIOL 1505 or BIOL 2602 or GEOG 1503. 3 s.h.

5820. Directed Research in Geography. An in-depth study of a specific problem in geography. The problem is dependent upon the student's interest and competence, availability of faculty supervision and department equipment. May be repeated up to 3 s.h. Prereq.: 20 s.h. of Geography. 1-3 s.h.

5850. International Area Study. A course in the geography and history of a selected international area with emphasis on cultural development by traveling in the selected region. The class and travel is supervised by the geography and/or history faculty. The course grade is based upon a term paper which must be submitted within 60 days after the end of the course. Prereq.: permission of the chairperson. 3 s.h.
GEOL 1504, The Dynamic Earth; 1510, Geology of National Parks; 2602, Introduction to Oceanography. The following courses have been approved as substitutes in the domain of Natural Science. However, they are higher-level courses than the standard General Education courses; students should consult their advisors about taking them. They are: 1505, Physical Geology; 1513, Physical Evolution of North America; 1514, Life of the Geologic Past; 2611, Geology for Engineers.

Lower-Division Courses

Students cannot receive credit for both 1504 and 1505.

1500/1500L. Environmental Geology. An introductory course that examines interactions between human society and our changing planet, the affects of natural/geologic hazards on humans, and anthropogenic (human-caused) impacts on nature, geology, and society. Three hours of lecture and two hours lab per week. 4 s.h. +0 s.h.

1504. The Dynamic Earth. An examination of earth as consisting of interrelated geologic systems which are dynamic and constantly changing. Includes study of surface, lithologic and tectonic systems. 3 s.h.

1505/1505L. Physical Geology. A study of the various physical and chemical processes acting on and within the earth, and their products. The laboratory component includes identification of minerals and rocks, and the interpretation of topographic and geologic maps. Three hours of lecture, two hours of lab per week. 4 s.h. +0 s.h.

1505H. Honors Physical Geology. Concepts of the earth as a dynamic planet, investigated through a variety of lectures, text and journal readings, and independent library-research assignments. Prereq.: Eligibility for the Honors Program or consent of instructor. 3 s.h.

1508. Geology of Gemstones and Allied Minerals. Formation, occurrence, and distribution of gem materials. Properties and identification of gem stones; factors affecting their value. Introduction to synthetic/artificial gem materials. Not applicable toward the geology major. 3 s.h.

1509L. Geoscience Laboratory. Problem solving and assessment of case histories to illustrate the scientific method and geologic principles and concepts. Two hours laboratory per week. 1 s.h.

1510. Geology of National Parks. Geologic history of national parks; geologic processes observed in North American parks and Hawaii. Simulated field trips to several major parks. Not applicable toward the geology major. 3 s.h.

1512. Geology of Gemstones and Allied Minerals. Properties and identification of gem stones; factors affecting their value. Introduction to synthetic/artificial gem materials. Not applicable toward the geology major. 3 s.h.

Upper-Division Courses

3700. Mineralogy. The occurrence, composition, and crystallography of common and economically important minerals. Identification of minerals using physical, chemical, optical and x-ray properties. The theory and use of the polarizing microscope and its application to the study of crystalline material, including asbestos materials. Two hours lecture, four hours of lab per week. Prereq.: CHEM 1515 (may be concurrent) and GEOL 3713. 4 s.h.

3701. Geomorphology. A study of landforms and the processes which create them, using aerial photographs, geologic maps, and topographic maps. The laboratory work emphasizes recognition and interpretation of landforms. Two hours lecture, two hours laboratory per week. Prereq.: GEOL 1505. 3 s.h.

3702. Glacial Geology. A study of glacier types: their origin, movement, erosional/depositional contributions, and their relationship to various non-glacial features, sediments, organisms, and environments. 3 s.h.

2602. Introduction to Oceanography. Survey of geological, physical, chemical, and biological oceanography; description and distribution of properties and their relationship to circulation, shorelines, ocean features, sediments, organisms, and environments. 3 s.h.

2605. Historical Geology. An in-depth study of the origin and evolution of the Earth and its systems and life forms throughout geologic time. The course is designed to develop student critical thinking skills through analysis of concepts and issues, and the integration of maps, lithologic information, and fossil information. Three hours lecture and two hours lab per week. Field trips are an integral part of the course. Prereq.: GEOL 1505 and GEOL 1505L. 4 s.h.

2611. Geology for Engineers. Study of geologic principles, processes, and materials; focus on recognition of geologic factors as they apply to engineering operations and projects. Laboratory work includes examination of minerals, rocks, maps, and case histories. Two hours lecture, two hours laboratory per week. 3 s.h.

2614. Mesozoic Dinosaurs and Other Reptiles. A survey of major Mesozoic dinosaurs and reptiles, including discussion of their environment, organic evolution, diversity, and controversies pertaining to their classification and extinction. Prereq.: GEOL 3713. 3 s.h.

2615. Geology and the Environment I. A study of the interrelationship of human activity and the geologic environment. An examination of geologic hazards, geologic considerations in waste disposal, resource utilization, and land use. Prereq.: GEOL 1504 or 1505 or 2611. 3 s.h.

2699. Individual Study. The introductory study of problems or issues in geology, or a review of literature relating to a specific geologic topic. A maximum of 3 s.h. may be taken. Prereq.: 8 s.h. in Geology, consent of department chairperson and instructor. 1-3 s.h.
features. Emphasis is on the Pleistocene glacial succession in North America. Field trips are an integral part of the course. Prereq.: GEOL 1505. 3 s.h.

3704. Structural Geology. Description and interpretation of geologic structures, mechanical properties; stress-strain relationships, regional structure of North America, and major tectonic theories. Prereq.: GEOL 3713. Geology majors must take GEOL 3704L concurrently with 3704. 2 s.h.

3704L. Structural Geology Laboratory. Structural geology techniques and analyses, including orthographic solutions, stereographic projections, and interpretation of maps. Two hours lab per week. Prereq. or concurrent: GEOL 3704 and MATH 1504, or consent of instructor. 1 s.h.

3706. Geology of Economic Mineral Deposits. A study of the occurrence, origin, and distribution of mineral deposits, with special attention to their economic use. Field trips are mandatory. Prereq.: GEOL 1505 and 3713. 3 s.h.

3709. Subsurface Investigations. An introduction to subsurface investigative methods that integrate principles of geophysics, geochemistry, interpretation of well logs and other bore hole data, outcrops and published information in the solution of actual geological problems. Two hours lecture, two hours lab per week. Students are expected to perform field work in addition to regularly scheduled class time. Prereq.: GEOL 3713; MATH 1571 recommended. 3 s.h.

3714. Principles of Paleontology. A detailed study of fossil invertebrates, including their origin, classification, paleoecology and stratigraphic utilization. Two hours lecture and two hours lab per week. Prereq.: GEOL 1514. 3 s.h.

3716. Environmental Impact of Abandoned Mines. Mining methods, types of mines, information retrieval, mine stabilization, and the effects of abandoned mines on environmental and human activities, especially of deep coal mines in the Mahoning Valley and adjacent areas. Two hours lecture and two hours lab per week. Prereq.: GEOL 1505 and 3713 or equivalent. 3 s.h.

3718. Igneous and Metamorphic Petrology. An in-depth study of the petrogenesis of igneous and metamorphic rocks based on their chemical and petrographic characteristics. Three hours lecture, three hours lab per week. Prereq.: GEOL 3700. 4 s.h.

3719. Environmental Impact of Abandoned Mines. Mining methods, types of mines, information retrieval, mine stabilization, and the effects of abandoned mines on environmental and human activities, especially deep coal mines in the Mahoning Valley and adjacent areas. Two hours lecture and three hours of lab per week. Prereq.: GEOL 1505 or equivalent or permission of instructor. 3 s.h.

3720. Field Investigations in Geology. A field-based approach to the study of geologic concepts and problems. Class and travel supervised by the Geology faculty; location, duration of stay, hours, credit, and grading criteria dependent on the site and nature of the geologic concepts and problems investigated. The course may be repeated. A maximum of 4 s.h. may be applied toward Geology major requirements. Prereq.: By permit only. 1-4 s.h.

4804. Ground Water. A study of the geologic and hydrologic factors controlling the occurrence and behavior of water beneath the earth's surface. Two hours lecture, two hours lab per week. Prereq.: GEOL 1505 and 3713; MATH 1571 recommended. 3 s.h.

4824. Tectonics. Geodynamics and the workings of plate tectonics. Kinetics and dynamics of plate motion, plate driving forces, thermal structure of the earth, and thermal convection in the earth. Tectonic and structural features on the earth. Geophysical, stratigraphic and structural signatures of extensional rifting, strike-slip faulting, subduction zones, plate collisions and mountain belts. Prereq.: GEOL 3704, 3718 and 5802. 3 s.h.

4899. Special Topics. Selected aspects of geology not covered in existing courses. Topics to be announced each time course is offered. May be repeated for different topics. Prereq.: appropriate 3700- or 4800-geology course and permission of the chairperson. 1-3 s.h.

5802. Sedimentology and Stratigraphy. The study and interpretation of sedimentary rocks, including physical characteristics, petrography, depositional environments, principles of correlation, and principles of basin analysis. Two hours lecture, two hours lab per week. Prereq.: GEOL 1505, 3713 and 3 s.h. upper-division geology. 3 s.h.

5805. Special Problems in Geology. An in-depth study of a specific problem in one of the branches of geology. The problem depends on the student's interest and qualifications and the equipment availability. A maximum of 8 s.h. may be taken. Prereq.: 8 s.h. in Geology, consent of the department chairperson and instructor. 1-4 s.h.

5815. Geology and the Environment 2. In-depth examination of earth processes, earth resources, and properties of earth materials as they relate to human activities, and their geologic consequences. Prereq.: GEOL 2615 or ENST 2600. 3 s.h.

5817. Environmental Geochemistry. An application of low-temperature aqueous geochemistry and geochemical computer modeling to environmental problems such as acid mine drainage, geochemical cycling of trace elements and nutrients, hazardous waste remediation, nuclear waste disposal, and surface and ground-water contamination. Prereq.: GEOL 3700 and CHEM 1516. 3 s.h.
GERONTOLOGY—GERO
Department of Sociology and Anthropology

1501. Introduction to Gerontology. Basic introduction to the interdisciplinary study of aging. Includes social, psychological, economic, cultural, health, and policy issues. Discussion of normal vs. abnormal (disease-related) aspects of aging. 3 s.h.

3703. Aging and Society. An interdisciplinary introduction to studies in aging. Examines the impact of population aging and its effect on society at large. Also examines individual aging processes and social significance of aging. Prereq.: SOC 1500 or GERO 1501. Listed also as SOC 3703. 3 s.h.

3745. Sociology of Health, Illness, and Healthcare. Social attitudes toward illness. Cultural and social factors in disease definition of illness, and organization of the health professions and health facilities. Prereq.: SOC 1500, GERO 1501, or admission to NEOUCOM-YSU program. Listed also as SOC 3745. 3 s.h.

3755. Theories of Gerontology. Review and critical analysis of current theories of the social aspects of aging and their use in research. Prereq.: SOC 1500 or GERO 1501. Listed also as SOC 3755. 3 s.h.

3756. Aging and Ethnicity. Aging in American subcultures, noting differences in status/role systems, demographic distributions, life styles, methods of dealing with the elderly, and related problems. Listed also as SOC 3756. Prereq.: SOC 1500 or GERO 1501. 3 s.h.

3757. Aging and Social Policy. Critical examination of social policies and social systems which affect aging and retirement. Prereq.: SOC 1500, GERO 1501, or POL 1560. Listed also as SOC 3757 and POL 3757. 3 s.h.

3790. Aging in Cross-Cultural Perspective. Examines the phenomenon of aging from cross-cultural perspectives with an emphasis on cultural evolution and the impact upon the status, roles and cultural values associated with aging and the aged. Listed also as SOC 3790 and ANTH 3790. Prereq.: GERO 1501 or ANTH 1500, or GERO 1500. 3 s.h.

4804. Family, Health, and Aging. Examines family and health related aspects of aging. Positive and negative interactions among family members and caregivers, and their impact on mental and physical quality of life of the elderly. Listed also as SOC 4804. Prereq.: GERO 3703 or SOC 3703. 3 s.h.

4821. Internship in Gerontology. Application of gerontological knowledge in settings such as social agencies, government offices, hospitals, nursing homes, or industry. May be repeated up to 15 s.h., but only a maximum of 6 semester hours can be applied to the gerontology major. Prereq.: Junior standing, 9 s.h. of Gerontology, and permission of chairperson. 3-15 s.h.

4850. Research Methods. An introduction to methods employed in social research. Attention is given to (1) the logic of scientific inquiry and the relationship between theory and methods; (2) the various qualitative and quantitative methods; (3) research design, data collection, organization, analysis, interpretation and application; (4) the social, cultural, political, and ethical context of social research; and (5) computer skills employed in data analysis. Prereq.: SOC 3701, ANTH 3701, or GERO 3701. Listed also as ANTH 4850 or SOC 4850. 3 s.h.

4851. Capstone in Gerontology. A capstone experience for the interdisciplinary study of aging. Students will complete a major research project. Prereq.: Senior status in Gerontology and SOC 4850. 3 s.h.

HEALTH AND HUMAN SERVICES—HHS
College of Health and Human Services

3791. Community Medicine Seminar. Exploration of a variety of contemporary community health issues using problem-solving methods from a community medicine perspective. Prereq.: Admission to NEOUCOM-YSU BS/MD program. 3 s.h.

HISTORY—HIST
Department of History

The following have been approved as General Education courses in the domain of Societies and Institutions: 1511 and 1511H, World Civilization to 1500; 1512 and 1512H, World Civilization from 1500; 2605, Turning Points in U.S. History 1; 2606, Turning Points in U.S. History 2.

Lower-Division Courses

1500. Discovering World History. Introduction to the methods, problems, and content of world history from Antiquity to the present. Emphasizes the relevance of past events and developments to the modern world. Does not count toward the major or minor in history, nor toward integrated social science degrees. 3 s.h.

1501. American Dreams: Introduction to U.S. History. Survey of American history focusing on five strategic events in the American past. Emphasis is on cultural conflict and compromise, institutional developments and revolutions, and the emergence of democracy as concept and practice. This course is intended for those students for whom history is not a requirement. 3 s.h.

1511. World Civilization to 1500. Origins and growth of the major civilizations of the world from earliest times to about 1500. Placement into ENGL 1550 or completion of ENGL 1539 or 1540. 3 s.h.

1512. World Civilization from 1500. Development of the major civilizations of the world from 1500 to the present. Placement into ENGL 1550 or completion of ENGL 1539 or 1540. 3 s.h.
1511H. World Civilization to 1500. An honors course in the origins and growth of the major civilizations of the world from earliest times to about 1500 with emphasis on the analysis and critical evaluation of historical developments. Prereq.: Eligibility for admissions to University Honors Program, or recommendation of a history instructor. 3 s.h.

1512H. World Civilization from 1500. An honors course in the development of the major civilizations of the world from about 1500 to the present with emphasis on the analysis and critical evaluation of historical developments. Prereq.: Eligibility for admissions to University Honors Program, or recommendation of a history instructor. 3 s.h.

2601. American Military History. A survey of American military history from the origin of the United States Army to the present, with emphasis on how military policies and strategies have been influenced by the domestic and foreign affairs of the United States. Identical with MSCI 2601. 3 s.h.

2605. Turning Points in U.S. History 1. Key episodes in the social, economic, political and cultural developments of the United States to 1877, exploring how diverse peoples shaped the growing nation. Cross-listed with AMER 2605. Prereq.: Readiness for ENGL 1550. 3 s.h.

2605H. History of the United States 1. An honors course concerning the political, social, and economic development of the United States to 1877 with emphasis on the analysis and critical evaluation of historical developments. Prereq.: Eligibility for admission to University Honors Program, or recommendation of a history instructor. 3 s.h.

2606. Turning Points in U.S. History 2. Key episodes in the social, economic, political and cultural developments of the United States since 1877, exploring how diverse peoples shaped the growing nation. Cross-listed with AMER 2606. Prereq.: Readiness for ENGL 1550. 3 s.h.

2606H. History of the United States 2. An honors course concerning the political, social, and economic development of the United States from 1877 to the present with emphasis on the analysis and critical evaluation of historical developments. Prereq.: Eligibility for admission to University Honors Program, or recommendation of a history instructor. 3 s.h.

2655H. History of Western Civilization 1. An honors course in Western Civilization to 1715 with emphasis on the analysis of historical developments. 3 s.h.

2656H. History of Western Civilization 2. An honors course in Western Civilization from 1715 to the present with emphasis on the analysis of historical developments. 3 s.h.

Upper-Division Courses

3700. The Atlantic World. Development of the Atlantic rim from 1450 to 1700 with emphasis on the processes of exploration, cultural contact, and colonization. Cross-cultural focus on West Africa, the Caribbean and eastern North America. Prereq.: HIST 1511 or 2605. 3 s.h.

3702. Early America. From the first English interactions with the Native Americans and Africans, to the rebellion for Independence, to the struggles over the creation of the Constitution. Prereq.: HIST 2605. 3 s.h.

3704. Age of Jefferson and Jackson. Early 19th century America, with emphasis on politics and culture before 1845. Prereq.: HIST 2605. 3 s.h.

3706. Age of Lincoln and Grant. The period from 1845 to 1877, including the development of the North-South conflict, the war years, and the Reconstruction. Prereq.: HIST 2605. 3 s.h.

3710. Incorporation of America, 1877-1919. The history of the United States from Reconstruction to the Treaty of Versailles, focusing on the transformation from a rural, agricultural nation to an urban, industrial nation. The nation's political, social, economic and cultural development, along with foreign policy. Prereq.: HIST 2606. 3 s.h.

3712. United States in Crisis: 1920-1945. The Roaring Twenties, Great Depression, New Deal, and World War II. An examination of the social, economic, and political forces that enables America to cope with dramatic foreign and domestic crises. Prereq.: HIST 2606. 3 s.h.

3713. Cold War America: 1945-1990. An exploration of U.S. efforts to grapple with the Soviet Union, civil rights and equality, the role of government, changing sexual and social mores, the welfare state, and deindustrialization. Prereq.: HIST 2606. 3 s.h.

3715. Introduction to Historic Preservation. Introduction to the field of historic preservation. Provides historical context for the discipline as well as a basic grounding in the concepts and opportunities of the field. Prereq.: HIST 2605 and 2606. 3 s.h.

3717. Constitutional History of the United States. The development of the American constitutional system from colonial times to the present. Prereq.: HIST 2605 or 2606. 3 s.h.

3723. History of American Sports. An examination of sports within America from earliest times to the present. Special emphasis on the manner in which sports and society have influenced each other, such as racial and class relationships, social mobility, politics, religion, and foreign policy. Prereq.: HIST 2605 or 2606. 3 s.h.

3726. History of Women in the United States. Analysis of the various roles and contributions of women in American history. Prereq.: HIST 2605 or 2606. 3 s.h.

3727. Mexico and the Caribbean. Includes Mexico, Colombia, Venezuela, and the Central American republics. Special consideration is given to 20th century Mexico. Prereq.: HIST 2611, or consent of instructor. 3 s.h.
3728. History of South America. The Spanish-American Republics and Brazil. Prereq.: HIST 2611 or consent of instructor. 3 s.h.

3730. The Black Experience in American History. A historical study of Black people's roles in and contribution to the political, social, and economic development of American society. Prereq.: HIST 2605 or 2606, or AFST 2600. 3 s.h.

3731. History of African American Mayors. Study of African American mayors, beginning with the 1967 elections of Carl Stokes and Richard Hatcher to the present. Focus is on why African Americans were elected mayors, and what benefits they contributed to the African American community as well as to their respective cities. Prereq.: HIST 2606 or AFST 2600. 3 s.h.

3734. History of Organized Crime in the United States. The history or organized crime emphasizes the organization of the criminal underworld, the ethnic, racial, and religious composition of criminal groups, and the impact of organized crime on prostitution, gambling, Prohibition, and drugs. Prereq.: HIST 2605 or 2606. 3 s.h.

3735. History of American Cities. City politics, social change, ethnic and racial issues, industrialization, and city planning during the 19th and 20th centuries. Other issues include the provision of city services, the rivalry between cities, and the development of the federal-urban relationship. Prereq.: HIST 2606 or AFST 2600. 3 s.h.

3740. The Vietnam War. American involvement in Southeast Asia from the days of French rule to the fall of the Saigon government and beyond. Includes the war debate at home, and other consequences of the war. Prereq.: HIST 1512, 2606, or 2662. 3 s.h.

3741, 3742. Diplomatic History of the United States 1, 2. A study of American foreign relations as determined by interaction between domestic and international pressures (1) to 1900 and (2) since 1900. Prereq.: HIST 2605 for 3741, HIST 2606 for 3742. 3-3 s.h.

3743. Labor in United States History. Traces the transformation of American workers and the impact of the labor movement upon the United States. Emphasizes the diversity of the working class and the historical context of the political and social implications of the labor movement. Prereq.: HIST 2606. 3 s.h.

3744. The History of American Business. An examination of the growth and structural development of American business and its relationship to government from colonial times to the present with emphasis on the 20th century. Prereq.: HIST 2605 or 2606. 3 s.h.

3745. History of Jewish Labor. Examines Jewish labor history in Europe, the United States, and Israel. Explores the social history of the worker, gender and national differences, living and working conditions, as well as labor movements and worker political mobilization. Prereq.: HIST 1512 or 2606. 3 s.h.

3747. History of Appalachia. From 18th century settlement to present, emphasizing images of the region and its people, and focusing on issues of economic development, folk culture, religion, race, gender and outmigration. Prereq.: HIST 2605 or 2606. 3 s.h.

3748. History of Ohio. The important events and movements that have shaped Ohio history in the social, economic, religious and political areas. Prereq.: HIST 2605 or 2606. 3 s.h.

3749. History of African-United States Relations. Survey of African-U.S. relations from the transatlantic slave trade to the present with emphasis on the 20th century. Prereq.: HIST 2663 or consent of instructor. 3 s.h.

3750. History of Modern Africa. The impact of colonialism on the peoples of 20th century Africa, focusing on subSahara: Colonialism, colonial administration, urbanization, nationalism, pan-Africanism, decolonization and the challenges of modern Africa. Prereq.: HIST 2663 or consent of instructor. 3 s.h.

3751. History of South Africa. From the beginnings of the 19th century to the present. Prereq.: HIST 1512, 2605, 2606, or 2663. 3 s.h.

3752. Ancient History 1. From the Neolithic Revolution to the Peloponnesian Wars. Intensive study of civilizations of Mesopotamia and Egypt, as well as Hellenic history. Prereq.: HIST 1511. 3 s.h.

3753. Ancient History 2. The Hellenic Period to the fall of Rome. Intensive study of the Age of Alexander and the Roman Republic. Prereq.: HIST 1511. 3 s.h.

3755. Early Medieval Civilization. A political, economic, intellectual and cultural history which traces events and developments throughout Europe from the collapse of the Ancient World to the beginning of the High Middle Ages. Prereq.: HIST 1511. 3 s.h.

3756. High Medieval Civilization. A political, economic, intellectual and cultural history which traces events and developments throughout Europe during the High Middle Ages (eleventh through fifteenth centuries). Prereq.: HIST 1511. 3 s.h.

3757. History of Medicine. Practices and theories of healing, and their relation to social and intellectual context, from ancient times to the present. Prereq.: HIST 1511 or 1512, or a social science course. 3 s.h.

3758. Renaissance Europe. A survey of European history from the end of the High Middle Ages to the 16th century. Emphasizes the rise of humanism and of Renaissance culture in Italy, its dissemination beyond the Alps as well as the development of national states and the flowering of the Late Medieval tradition in western and eastern Europe. Prereq.: HIST 1511. 3 s.h.

3759. The Reformation Era. The history of Europe from the Lutheran Revolt to the Peace of Westphalia in 1648. Major themes of study are the causes of the Reformation, the impact of Luther, Calvin and the Radical Reformation, the Catholic Reform movement, the Wars of Religion, and the rise of the modern secular states. Prereq.: HIST 1512. 3 s.h.
3760. The Age of Louis XIV. The history of Europe from 1600 to the outbreak of the French Revolution in 1789. Emphasis on France under Louis XIV and Louis XV, Old Regime society, and the intellectual creativity of the Eighteenth-Century Enlightenment. Also focuses on the widening confrontation between science and religion, the growth of Europe's overseas empire, and the emergence of the modern nation-state. Prereq.: HIST 1512. 3 s.h.

3761. The French Revolution and Napoleon (1789-1815). The French Revolution is examined in detail, especially from its outbreak to the fall of Robespierre. The last portion deals with the rise of Napoleon, his political role, his military campaigns, the reconstruction of Europe, and his fall at Waterloo. Prereq: HIST 1512. 3 s.h.

3762. The Second World War. An examination of the war’s diplomatic and ideological origins; social, economic, and political factors; and strategic, tactical, and technological dimensions of the conflict in all major theaters. Prereq.: HIST 1512 or 2606. 3 s.h.

3763. Modern France, 1815 to Present. France from the fall of Napoleon to the present. Major cultural, intellectual, and political themes of the period. Impact of the two World Wars, France’s post-war revival, the student riots of 1968, and the changes which have transformed French politics and society in the 1980s. Prereq.: HIST 1512. 3 s.h.

3765. Europe from the Congress of Vienna to the Franco-Prussian War (1815-1871). Such movements as Nationalism, the impact of the Industrial Revolution, Marxism, the growth of Democracy, Liberalism and Conservatism, Romanticism and Realism, Reform and Revolution, from the main themes of the period. The course is divided into two historical periods, from 1815 to the Revolution of 1848, and from 1848 to 1871 with the emphasis on the unification of Italy and of Germany and the New Europe that arose as a consequence. Prereq.: HIST 1512. 3 s.h.

3766. Europe from the Franco-Prussian War to World War I. The impact of the Paris Commune; revolutionary movements and their contradictions; imperialism, political anti-Semitism, and the images of war; the Bismarckian international order and its suicide. Prereq.: HIST 1512. 3 s.h.

3767. Europe from World War I to the Present. War, revolutions, and the European order; Versailles and its contradictions; the Fascist response to Communism and Depression; the interaction of Democracies, Fascism, and Stalinism in the making of World War II and the Cold War. Prereq.: HIST 1512. 3 s.h.

3769. Modern Germany. Unification and modernization; scientific, technological, and cultural splendors; world power and disaster; Nazism, the Holocaust, and German society. Prereq: HIST 1512. 3 s.h.

3770. Asia to 1500. Political, economic, religious, artistic, and philosophical developments in India, China and along the Silk Road, from ancient times to 1500 C.E. Prereq.: HIST 1511. 3 s.h.

3772. History of Modern China. China from the mid-19th century to date, with emphasis on Western impact, industrialization, intellectual trends, the Revolution of 1911, national reconstruction, student movements, the rise of Communism, and the contemporary scene. Prereq.: HIST 2662 or consent of instructor. 3 s.h.

3774. Global Environmental History: Topics and Methods. The historical development and diversity of ideas and actions regarding the interaction of human societies and the natural environment. From 1492 to the present, with particular emphasis on the nineteenth and twentieth centuries. Economic growth and resource depletion. Emergence and development of conservation, environmentalism, ecology. Ideas, events, and institutions. Historiography and methods of environmental history. Prereq.: HIST 1511, 1512, 2605 or 2606. 3 s.h.

3776. History of Modern Japan. Japan’s history from the Meiji Restoration to date, including the industrialization, the party movement, intellectual development, the rise and fall of militarism, postwar reconstruction, and current problems. Prereq.: HIST 2662 or consent of instructor. 3 s.h.

3778. Russia to 1855. History of Russia from its ninth century origins to the eve of the Great Reforms of Tsar Alexander II. Surveys political, social, cultural, and intellectual developments, the Orthodox Church, and Russian expansion and colonization in Siberia and Alaska. Prereq.: HIST 1511 or 1512. 3 s.h.

3779. Russia 1855 to Present. The Russian Empire from the Great Reforms of Alexander II to its collapse during WWI, the Revolutions of 1917, the rise and fall of the Soviet Union (1922-1991), and Soviet successor states to the present. Prereq.: HIST 1512. 3 s.h.

3780. History of Eastern Europe. The histories of the nations that have made up Central and Eastern Europe from the earliest times to their present, and their contributions to world civilization. Prereq.: HIST 1511 or 1512. 3 s.h.

3782. History of the Balkans. Southeastern Europe from the 4th century to the present, including the impact of the Byzantine and Ottoman Empires and the two World Wars. Prereq.: HIST 1511 or 1512. 3 s.h.

3784. Britain and Its Empire 2: 1870-Present. An integrative history of Britain and its empire, from the opening of the Suez Canal to the present. Emphasis on how Britain’s decline as a world political, diplomatic, military and industrial power impacted its world empire during the twentieth century, noting how the empire changed Britain itself in the process. Prereq.: History 1512. 3 s.h.
3785. The Mediterranean World: Modern Italy, 1815-Present. Survey of Italian history from the Risorgimento to the present. Emphasis on the reasons for the late emergence of Italian nationhood, the rise of Italian nationalism, unification, the weakness of Italian democracy, the rise of Fascism, and the political instability Italians have experienced since 1945. Prereq.: HIST 1512. 3 s.h.

3787. History of Women in Europe. Analysis of the various roles and contributions of women in European history from the Renaissance to the present. Prereq.: HIST 1512. 3 s.h.

3788. The Holocaust. Study of the attempted genocide against the Jews in World War II. Special emphasis on racial theories that gave rise to Nazism, politics of collaboration, various forms of resistance, and ethical problems associated with the concentration camps. Prereq.: HIST 1512. 3 s.h.

3789. Jewish History. An overview of Jewish history in the past twenty centuries, with emphasis on achievements in the arts, sciences, and politics, and on precedents for the Holocaust. Prereq.: HIST 1511 and 1512. 3 s.h.

3790. Medieval Britain. From the Celtic times to 1485. Emphasizes the political and cultural evolution of the British people before and after the Norman Conquest, including the creation of the English identity, the development of constitutional monarchy, the propaganda value of architecture, art, and literature, and the role of the Church. Prereq.: HIST 1511. 3 s.h.

3793. Tudor-Stuart Britain. England, Scotland, Wales, and Ireland from the end of the War of the Roses to the ascension of George I to the British throne in 1714. Emphasis on the development of the centralized Tudor state, colonization of the New World and India, the English Civil War and Glorious Revolution, European wars for naval supremacy, and the culture of the Shakespearean age. Prereq.: HIST 1512. 3 s.h.

3794. The First World War. An examination of the origins of the war, the social, economic, intellectual and political repercussions, and the technical and military developments. Prereq.: HIST 1512. 3 s.h.

3795. The World since 1945. Global developments including the Cold War, decolonization and economic dependency in the non-western world; militarism and terrorism; pollution; and the internationalism of the world. Prereq.: HIST 1512. 3 s.h.

3796. Genocide and Mass Murder. The origins, definitions, causes and forms of genocide. Case studies will be drawn from across geographical regions and time periods such as Armenia, the Holocaust, Cambodia, the former Yugoslavia, Rwanda and the Sudan. Prereq.: HIST 1512 or consent of instructor. 3 s.h.

3797. Middle East 1: The Islamic Centuries. From Muhammad to the collapse of the Ottoman Empire. Intensive study of the medieval Islamic caliphates, Crusades, Turks, and European imperialism. Prereq.: HIST 1511 or 2661. 3 s.h.

3798. Middle East 2: The Modern Period. The 20th century. Impact of oil, Arab nationalism, Zionism, Islamic fundamentalism. Prereq.: HIST 1512 or 2661. 3 s.h.

4801. Select Problems in American History. Specific problems in American history in such areas as economics, political theory, and cultural and intellectual history. May be repeated with different content. Prereq.: Consent of instructor. 3 s.h.

4808. Oral Communication Projects in History. Development of oral communication skills for students of history. Emphasizes the understanding of effective speaking practices, the development of self-analysis, and the presentation of material gathered from a linked course. Concurrent: Enrollment in an upper division history course. 1 s.h.

4809. Documentation and Interpretation of Historic Sites. Methods of documenting historic properties especially as related to the National Register of Historic Places. Includes interpretation of historic sites for public exhibit. Prereq.: HIST 3715. 3 s.h.

4811. Practicum in Historic Preservation. Experience in historic preservation through student participation in a wide variety of historic preservation projects. Prepares students for internships outside the university. Prereq.: HIST 3715 and permission of Historic Preservation Committee. 3 s.h.

4812. Historic Preservation Internship. Practical application of principles and methods in the field of historic preservation with the goal of producing a completed project. Internship to be selected by student in conjunction with program director. May be repeated once. Prereq.: HIST 3715 and approval of internship committee. 3 s.h.

4815. American Material Culture. A discussion and analysis of the use and importance of material artifacts as texts for the recovery of the American past. Emphasis on sources not traditionally utilized by historians. Examples include the contextual analysis of children’s books, foodways, and sacred spaces. Prereq.: HIST 2605 and 2606, or AMER 2601 and 3701. Cross-listed with AMER 4815. 3 s.h.

4850. International Area Study. A course in the geography and history of a selected international area with emphasis on cultural development by traveling in the selected region. The class and travel is supervised by the Geography and/or History faculty. The course grade is based upon a term paper which must be submitted within 60 days after the end of the course. Prereq.: By permit only. 3-9 s.h.

4851. Select Problems in European History. Specific problems in European history in such areas as economics, political theory, and cultural and intellectual history. May be repeated with different content. Prereq.: Consent of instructor. 3 s.h.
4860. Select Problems in Transnational History. Transnational issues in African, Asian, Latin American, and/or Middle Eastern history in such areas as economic, political, social, cultural and intellectual history. May be repeated with different content. Prereq.: Consent of the instructor. 3 s.h.

4870. Senior Research Seminar. A seminar that requires the writing of an extensive paper based mainly on primary material. All history majors must take this course. Prereq.: Senior standing and completion of four upper-division history courses with a grade of C or better. 3 s.h.

5810. Conservation of the Historic Built Environment. The theory and practice of preserving and rehabilitating all aspects of the historic built environment. Provides broad exposure through field experience. Prereq.: HIST 3715. 3 s.h.

**HONORS PROGRAM—HONR**

**Interdisciplinary University Honors Study**

1500. Intro. To Honors. Prepares students for the expectations and requirements of the Honors Program. Students develop skills that aid in their overall academic endeavors and explore topics pertinent to their development within the Honors Program and as citizens of the university, local, national and global communities. Prereq.: Admission to the University Honors Program or eligibility for admission to the University Honors Program. 1 s.h.

1599. Special Topics. An introductory-level examination of some topic appropriate for honors study. Typically team-designed. In certain cases, students may arrange to have the course counted toward the major by negotiation with the major department. With approval of the director of Honors, may be repeated for credit with different topics. Prereq.: Admission to the Honors Program or permission of instructor and director of Honors. 3 s.h.

2601, 2602. Honor Seminar. An interdisciplinary seminar series dealing with topics appropriate to students in the Honors Program. The subjects include, but are not limited to, creativity, the organization and function of the university, the total human being, critical thinking, current events, etc. Prereq.: Eligibility for the Honors Program. 3 s.h.

2699. Special Topics. A close examination of some topic appropriate for lower-division honors study. Typically team-designed. In certain cases, students may arrange to have the course counted toward the major by negotiation with the major department. With approval of the director of Honors, may be repeated for credit with different topics. Prereq.: Admission to the Honors Program or permission of instructor and director of Honors. 1-2 s.h.

3701, 3702. University Honors Seminar. A critical investigation of selected areas underlying civilization, embracing and integrating the particular studies of science, society, and the humanities. Prereq.: Eligibility for the Honors Program. 3 s.h.

3799. Special Topics. A close examination of some topic appropriate for upper-division honors study. Typically team-designed. In certain cases, students may arrange to have the course counted toward the major by negotiation with the major department. With approval of the director of Honors, may be repeated for credit with different topics. Prereq.: Admission to the Honors Program or permission of instructor and director of Honors. 3 s.h.

4890. Senior Honors Thesis. Directed research for students pursuing senior honors thesis research. Prereq.: Junior status; completion of 18 s.h. of Honors coursework; submission of an approved Honors thesis proposal; and permission of the honors director. May be repeated for up to 3 s.h. 1-3 s.h.

**HOSPITALITY MANAGEMENT—HMGT**

Department of Human Ecology

1501. Survey of Lodging and Tourism. Survey of statistics and organization, history, growth and future, and demographics related to national and international travel. Study of all areas of leisure and business travel, restaurant and event markets. Includes site visits. 3 s.h.

2600. Front Office Management. Operation and supervision of a hotel-motel front office. Computerized property management systems, reservations, registration, checkout, guest accounting, and handling guest needs. Prereq.: CSIS 1500 or equivalent. 3 s.h.

2603. Hospitality Managerial Accounting 1. Using the “Uniform System of Accounting for Small Hotels, Motels, and Motor Hotels,” introduces the unique requirements of hospitality industry record keeping. Focus on using financial data to safeguard assets, control costs, budget and plan, and practice yield management. Prereq.: ACCT 2602. 4 s.h.

2620. Hospitality Security. Security techniques used to enhance safety of persons and property, including loss prevention, administration, organization, emergency planning, and liability. Prereq.: HMGT 1501. 2 s.h.

2691. Hospitality Cooperative Work Experience. Work experience in which the student assumes supervisory responsibilities within an assigned food-service or lodging facility. One hour seminar and 20 hours work experience per week. Prereq. 10 s.h. HMGT credit. Permit required. 3 s.h.

3719. Facilities Management. Maintenance and engineering principles for lodging and food service properties. Technical information, preventive maintenance, engineering and housekeeping department roles; electrical, plumbing, sewer, swimming pool, HVAC, elevator, acoustic and sound control, environmental management. Prereq.: HMGT 2620. 3 s.h.
3725. *Food and Beverage Management*. Managerial authority and responsibilities in setting goals, forecasting, controlling quality and costs, establishing policy in the successful operation of a food and beverage department. Two hours lecture, two hours lab. Prereq.: FNUT 2612. 3 s.h.

3745. *Hospitality Marketing and Sales*. Application of marketing principles to sales of hospitality services; methods, techniques, and services for successful meetings and conventions; computer application/simulation transferable to industry. Classroom-based industry marketing project. Prereq.: MKTG 3703 and HMGT 1501. 4 s.h.

4804. *Hospitality Industry Law and Ethics*. Legal aspects of managing a hotel, resort, or restaurant. Provides an understanding of preventive measures to avoid or successfully deal with litigation. Includes legal research, licensing, innkeepers' obligations. Prereq.: HMGT 2620, MGT 2604. 3 s.h.

4846. *Event Management*. Focus on the career of meeting and convention management, includes adult learning theory, finance, promotion, post-meeting evaluation, facility selection, budgeting, exhibit management, physical facilities, pre-event planning. Prereq.: HMGT 3745. 3 s.h.

4896. *Hospitality Operations Management*. Capstone course requiring a broad application of knowledge and skills. Students solve operational dilemmas and make decisions reflecting the diverse nature of managing a hotel, resort, and food-service property. Prereq.: HMGT 2691 and HMEC 4835. 3 s.h.

**HUMAN ECOLOGY—HMEC**

**Department of Human Ecology**

The following has been approved as a General Education course in the domain of Selected Topics: 3780, Consumer Economics.

The following course has been approved as Critical Thinking Intensive: 3780, Consumer Economics. The following course has been approved as Oral Intensive: 4890, Communicating Contemporary Issues in Human Ecology.

1550. *Human Ecology Professions*. Orientation to the history, philosophy, and human eco-system foundation of family and consumer science careers; standards for professional, ethical practice; decision making and career planning. An introductory course for all Human Ecology Department majors or those considering a human ecology major. 1 s.h.

3780. *Consumer Economics*. Managing personal and family economic resources through the critical thinking and rational decision-making processes. Includes discussion of current consumer issues and resources for consumer information. Prereq.: ECON 1501 or 2610. 3 s.h.

4800. *Teaching in Family and Consumer Sciences*. Methods of organization, instruction, and evaluation for teaching in vocational family and consumer sciences. Prereq.: HMEC 3799 or concurrent with HMEC 3799. 3 s.h.

4835. *Field Experiences in Human Ecology*. Internship in a community agency or commercial enterprise related to human ecology. Four hours experience or two hours of seminar weekly equal one credit hour. May be repeated up to 6 s.h. Prereq.: twelve s.h. of Human Ecology credit and junior standing. Student must file application one semester prior to registering. 3 s.h.

4836. *Internship*. Integration of theory and practice through supervised field-based experiences in a professional setting. May be taken over consecutive semesters with PR grading for first semester; 75 hours of field work per credit hour. May be repeated up to 12 s.h. Prereq.: Junior standing, HMEC 1550, 2.0 overall GPA., 2.5 GPA. in major, and 18 s.h. in required major courses. 1-9 s.h.

4852. *Family Resource Management*. A systems view of family functioning with the emphasis on managerial decision making and effective use of resources. Prereq.: CHFM 3731 and PSYC 3707 or SOC 3705. 3 s.h.

4875. *Directed Individual Study*. Individual study or research of a special problem or issue related to human ecology. Application must be made with the department prior to registration. Prereq.: 12 s.h. human ecology credit and senior standing. 1-3 s.h.

4876. *Undergraduate Research*. Individual research that addresses a significant family or consumer issue in the community; dissemination of results through written and oral reports. Requires work over two consecutive semesters for a maximum of 4 s.h. Prereq.: Senior standing, CHFM 3731, and PSYC 2617 or equivalent research methods course. 2 s.h.

4890. *Communication of Contemporary Issues*. This course enables students to understand the inter-relationships of the specializations in the field of family and consumer sciences while exploring public policy issues that impact the family and the profession. Students will develop skills in the application of demonstration, audiovisual, and public relations tools and techniques in communicating human ecology information to target groups from preschool to adult. Two hours of lecture and 2 hours of lab per week. Prereq.: CMST 1545, HMEC 1550 and junior standing. 3 s.h.

5870. *Human Ecology Workshop*. Special workshops in a professional area of human ecology as needed. Prereq.: junior standing. 1-3 s.h.

5892. *Community Programming in Human Ecology*. Development of human ecology programs for special populations including adults, aging, disadvantaged, displaced homemakers, teenage parents, handicapped, and others with special needs. Prereq.: CHFM 3731. 3 s.h.
5893. _Work and Family_. Interaction of work and family systems; implications for education, business, and human services; development of programs to assist individuals in balancing multiple roles. Prereq.: CHFM 3731, SOC 3705, or PSYC 3707. 3 s.h.

5895. _International Studies in Human Ecology_. Professional areas of human ecology and their relationship to native cultures are the focus of travel to designated countries. Class sessions and travel as well as pre-tour and post-tour assignments and evaluation based on course objectives supervised by human ecology faculty. Prereq.: CHFM 3731, junior standing, permission of instructor and H. E. department chairperson. 1-4 s.h.

**HUMAN PERFORMANCE AND EXERCISE SCIENCE—HPES**

**Department of Human Performance and Exercise Science**

The following have been approved as General Education courses. In the domain of Personal and Social Responsibility: 1500, _Physical Activity Core Concepts_. In the domain of Artistic and Literary Perspectives: 2698, _Survey of Dance_.

1500. _Physical Activity Core Concepts_. Essential concepts that document the relationship between physical activity and maintaining optimal health. Personal and social implications of physical inactivity are also explored. Two HPES activity courses must be taken in addition to this course to satisfy the requirements for GER credit. 1 s.h.

**Activity Classes**

Taking HPES 1500 and any two of the following activity courses—HPES 1502, 1507, 1510, 1511, 1512, 1513, 1514, 1515, 1519, 1520, 1521, 1522, 1523, 1524, 1525, 1526, 1528, 1529, 1530, 1531, 1532, 1544, 1545, 1548, 1554, 1555, 1556, 1557, 1564, 1565, 1566, 1588, 2697—counts as 3 s.h. for the PS Domain of the GER:

The three courses do not need to be taken concurrently.

1502. _Volleyball 1_. Basic rules and fundamental skills of volleyball including serves, bump, overhead pass, and block. 1 s.h.

1507. _Volleyball 2_. Intermediate-to-advanced volleyball skills including diving, rolling, and various team offensive and defensive strategies. Prereq.: HPES 1502. 1 s.h.

1510. _Archery_. Techniques of target archery. Selection, care, and repair of equipment. 1 s.h.

1511. _Badminton_. Skills, mechanics, and rules of badminton. 1 s.h.

1512. _Bowling 1_. Fundamentals of bowling the straight ball. Equipment selection, correction of errors, and scoring. For beginning bowlers. 1 s.h.

1513. _Bowling 2_. Intermediate bowling. Refinement of bowling skills and use of the hook delivery. Tournament planning, team strategy, and competition. Prereq.: HPES 1512. 1 s.h.

1514. _Fencing 1_. Fundamentals of foil fencing. Methods of attack and parry, and elementary boutting and judging. 1 s.h.

1515. _Fencing 2_. Intermediate strategies and techniques of foil fencing and boutting. Prereq.: HPES 1514. 1 s.h.

1519. _Racquetball_. Racquetball rules and techniques for singles and doubles play. Basic strategy and skill development. 1 s.h.

1520. _Golf 1_. Fundamental skills of golf. Includes grip, stance, swing patterns, and putting as well as rules of course play. 1 s.h.

1522. _Tennis 1_. Fundamental skills of tennis including forehand and backhand drives and service. Basic rules, strategy, and method. 1 s.h.

1523. _Tennis 2_. Theory and practice of intermediate-to-advanced tennis skills and play. Prereq.: HPES 1522. 1 s.h.

1524. _Physical Fitness and Exercise Programs_. Discussion and participation in activities designed to develop and improve the health-related aspects of physical fitness including weight and stress control. 1 s.h.

1526. _Marksmanship_. The safety and practice of handling firearms. Target shooting in prone, kneeling and standing positions. 1 s.h.

1528. _Advanced Physical Fitness and Exercise Programs_. Discussion of and participation in strenuous activities designed to develop and improve the health- and performance-related aspects of physical fitness. 1 s.h.

1529. _Recreational Games_. Fundamentals, skills, techniques, strategy, and rules of racquetball, paddle tennis, table tennis, shuffleboard, and other recreational games. 1 s.h.

1530. _Aquatics 1_. Introduction to swimming and survival skills, floating, drownproofing, basic swim strokes (side, elementary back and front crawl), beginning diving, and simple aquatic games. This course is designed for the student who cannot swim; it is not open to swimmers. 1 s.h.

1531. _Aquatics 2_. Intermediate swimming. Introduction to back crawl, breaststroke and butterfly. Techniques in underwater swimming; use of mask, snorkel and fins. Elementary lifesaving skills and refinement of basic springboard diving. Prereq.: HPES 1530. 1 s.h.
1537. Aquatic Exercise. Fitness through aquatic conditioning exercises tailored to the individual needs of the student. Open to swimmers and non-swimmers. 1 s.h.

1544. Step Aerobics. Rhythmic exercise and conditioning activities performed to music, utilizing a step platform as the foundation of the workout. Designed to improve cardio-respiratory endurance and flexibility. Emphasis on understanding the five basic components of fitness and basic principles and techniques involved in step training. 1 s.h.

1545. Folk and Square Dance. European and Mediterranean folk dances, American Square dances, and mixers. Beginning materials and practice. 1 s.h.

1548. Aerobic Dance. Rhythmic exercises and conditioning activities performed to music. Designed to improve cardiovascular fitness, flexibility, and general muscle tone. 1 s.h.

1549. Varsity Competition. Credit may be obtained through competition in varsity athletic programs. Prereq.: Consent of coach. 1 s.h.

1550. Pilates. Instruction in principles of body alignment and posture and participation as it pertains to fundamental Pilates techniques. 1 s.h.

1552. Yoga. Instruction in principles of meditation, body alignment and posture, and participation as it pertains to fundamental yoga techniques. 1 s.h.

1554. Fitness Walking. Information on the benefits of walking for fitness. Health advantages, appropriate conditioning, pace, warm-up and cool-down. Practical experience in the skills needed to achieve success in developing and adhering to a walking program. 1 s.h.

1555. Jogging. Holistic approach to the theory and practice of jogging with emphasis on the physiological benefits. 1 s.h.

1556. Racquetball 2. Advanced racquetball techniques, strategy, conditioning, and mental preparation for singles, doubles, and tournament play. Emphasis on the use of various advanced shots, positioning, and officiating. Prereq.: HPES 1519. 1 s.h.

1557. Weight Training. Introduction to progressive resistive exercise for men and women. Topics include strength training, types of equipment, exercise techniques, circuit training, competitive weightlifting, body building, and injury prevention. 1 s.h.

1558. Physical Fitness for Life. Participation in exercise and physical activities, and identification of resources and assessment instruments utilized in developing an individualized, well-rounded, effective, lifelong physical fitness program. One hour lecture, two hours lab. 2 s.h.

1559. Aerobic Conditioning Activities. Analyses and practices in activities designed to develop and improve cardiovascular endurance. Such activities include, but are not limited to, aquatics, fitness walking and jogging. One hour lecture, two hours lab. Prereq.: Major in Exercise Science or consent of instructor. 2 s.h.

1560. Resistance Training. Concepts and applications of progressive resistance exercise. Emphasis on advanced principles and techniques for developing muscular strength and endurance for fitness and athletic performance. Two hours lab. Prereq.: Major in exercise science or permission of instructor. 1 s.h.

1563. Rock Climbing. Instruction and participation in fundamental rock climbing techniques that include safely constructing anchor systems, employing belay methods, equipment selection, and beginning climbing skills. A weekend, off-campus field-experience is required. 1 s.h.

1564. Bicycling. Instruction and practice in bicycling skills, techniques, and procedures necessary for intermediate or long trips. Students must provide their own three-, five-, or ten-speed bicycle. 1 s.h.

1565. Self-Defense. The defensive techniques of Judo and Aikido designed to counter attacks with a knife, club, gun or bare fist. Balance, control, safety, falling. 1 s.h.

1566. Judo. Introduction to the history, philosophy and techniques of Judo. Fundamental techniques include falls, hand and leg throws, grappling, various holds and joint locks. 1 s.h.

1568. Taekwondo/Karate. An introduction to the history, philosophy and techniques of taekwondo/karate. Fundamental techniques include: stances, kicks, punches, and forms. 1 s.h.

1575 Performance and Analysis of Net/Wall Games. Analysis and practice in performing and teaching tennis, racquetball, badminton, volleyball and other net/wall games. One hour lecture, two hours lab. 2 s.h.

1588. Selected Activities in Human Performance and Exercise Science. Knowledge of and practice in a particular area of dance, fitness, or sport. Activity is announced each time the course is offered. May be repeated up to 4 s.h. with change in topic. 1-2 s.h.

2630. Lifeguard Training. Water rescue, preventive lifeguarding techniques, emergency procedures. Red Cross certificate granted upon satisfactory completion of all requirements. 2 s.h.

2631. Water Safety Methods for Instructors. Techniques for teaching and supervising swimming, emergency water safety, and basic water safety. Introduction to infant and preschool aquatic programs. A water safety instructor’s certificate granted upon satisfactory completion of all requirements. Prereq.: Current lifeguard training certificate or emergency water safety certificate. 2 s.h.

2632. Skin and Scuba Diving. Basic skin-diving with the use of mask, fins, and snorkel. Scuba diving skills with the use of tank and regulator. Emphasis on
dancing, physiology, lifesaving, first aid, and safety skills related to skin and scuba diving. Two hours lecture, two hours lab. Student must furnish mask, fins, and snorkel. 2 s.h.

2635. Openwater Scuba Diving. Practical experiences in physiological and psychological stress, underwater navigation, effects of hypothermia, decompression, repetitive diving, and rescue techniques. Students completing this course receive basic scuba certification. Five hours lecture, ten hours lab per semester. Prereq.: HPES 2632. 1 s.h.

2697. Camping. The specific skills and problems encountered in camping: shelter, clothing, food, transportation, and site selection. Two hours lab. 1 s.h.

Lecture-Laboratory Classes for Majors or Minors only

1506. Performance and Analysis of Track and Field. Skills, techniques, and rules of track and field events. Includes progressions, organizational strategies, and field day administration for teachers. Two hours lab. Prereq.: Physical education major. 1 s.h.

1567. Performance and Analysis of Invasion Games. Analysis and practice in performing and strategies for teaching invasion games including soccer, team handball, basketball, and variations of hockey and football. Information such as rules, terminology, etiquette, strategies, progressions, lead-up games, officiating, and assessment. One hour lecture, two hours lab. Prereq.: Physical education major. 2 s.h.

1573L. Tactical Approach to Teaching Team Sports. Analysis and practice in performance and strategy development, for teaching team sports using a concept-based model. Two hours lab per week. Prereq.: Physical education major. 1 s.h.

1574. Performance and Analysis of Lifetime Sports. Analysis and practice in performing and teaching golf, bowling and other lifetime sports. Two hours lab. Prereq.: Physical education major. 1 s.h.

1575. Performance and Analysis of Net/Wall Games. Analysis and practice in performing and teaching tennis, racquetball, badminton, volleyball and other net/wall games. One hour lecture, two hours lab. Prereq.: Physical education major. 2 s.h.

1577. Performance and Analysis of Aquatic Activities. Analysis and practice in performing and teaching swimming, diving, water safety skills, and aquatic exercise. Two hours lab. Prereq.: Physical education major. 1 s.h.

1579. Rhythmic Movement for Children. Content and teaching strategies related to rhythmic movement for children grades PreK-4. Rhythmic movement skills and concepts explored to provide successful dance experiences for children. One hour lecture, one hour lab. Prereq.: Physical education major. 1 s.h.

1589. Scientific Basis of Fitness. Introduction to components of physical fitness and their physiological basis. Role of exercise in prevention of cardiovascular and other hypokinetic diseases. Participation and application of training principles in a variety of fitness activities. Selection and proper use of exercise equipment. One hour lecture, two hours lab. Prereq.: Major in HPES or permission of instructor. 2 s.h.

1595. Introduction and Concepts of Physical Education and Exercise Science. Introduction to physical education, exercise science and related professions. Includes exploration of the general concepts, goals, aims, objectives, professional organizations, scholarly literature, sub-disciplines within the field, and career employment opportunities. 2 s.h.

2605. Sports First Aid and Injury Prevention. Basic injury prevention, evaluation, and emergency care. Certification in ARC Standard First Aid and Adult CPR. Basic wrapping and strapping techniques used with common sports injuries. Two hours lecture, two hours lab. Prereq.: Major in HPES or permission of instructor. 3 s.h.

2610. Introduction to Outdoor Pursuits. Philosophy and content of outdoor education including participation in activities such as canoeing, backpacking, orienteering, and initiative activities. Emphasis on risk management as it pertains to land and water-based outdoor pursuits. Two hours lab. Prereq.: Physical education major. 1 s.h.

2615. Methods of Teaching Rhythmic Aerobic Activity. Rhythm and movement fundamentals related to aerobic dance and step aerobics. Methods and materials of teaching rhythmic aerobic activity culminating in practical teaching experience in the classroom. One hour lecture, two hours lab. Prereq.: HPES 1589. 2 s.h.

2618. Physical Education Practicum. A supervised experience in a minimum of 14 physical activity sub-disciplines (e.g., sports management, sporting goods industry, not-for-profit organizations, physical activity administration, physical activity skill instruction, etc.) under the direction of a qualified individual. Prereq.: Physical education major and HPES 1595. 2 s.h.

2620. Exercise Equipment Management. Factors to consider when purchasing new or used exercise equipment, equipment repair and preventive maintenance procedures, and equipment-related risk management. Prereq.: Permission of instructor. 1 s.h.

2624. Physical Education for Children in Early Childhood Settings. Principles, methods, materials, and organization of activities for preschool-grade 3 children. Active participation, approximately 15-20 hours field work in area preschools/schools. Prereq.: 30 s.h. 3 s.h.

2625. Pedagogical Aspects of Exercise Science. Effective instructional practices and development of organizational skills and characteristics required for teaching in exercise programs. Two hours lecture, two hours lab. Prereq.: HPES 1559 and 1595. 3 s.h.
2628. Movement for Early Childhood. Laban’s movement approach to teaching fundamental movement patterns, educational dance, gymnastics, games, and creative activities for grades PreK-3. Two hours lecture, two hours lab. 3 s.h.

2661. Games Analysis. Selection, analysis, adaptation, and creation of games for varying developmental levels and environmental situations in grades 3-12. Large and small group, coeducational, fielding/running, self-challenging, and multicultural activities. Two hours lecture, two hours lab. Prereq.: 4 s.h. from among HPES 1506, 1567, 1574, and 1575. 3 s.h.

2670. Introduction to Biomechanics. Knowledge and methods of mechanics as they apply to the structure and function of the living human system. Includes the physical characteristics of the human body and principles of mechanical physics. Prereq.: BIOL 1552 or 1545. 2 s.h.

2671. Principles and Analysis of Motor Development. Application of a lifespan motor development approach to critically analyzing movement patterns. Motor patterns, applications to teaching. Two hours lecture, two hours lab. Prereq.: HPES 1595 and 4 s.h. from among HPES 1506, 1567, 1574, 1575 and 2610. 3 s.h.

2699. Sport in American Culture. Sport in American culture from the colonial period to the present as it relates to such areas as education, literature, film and drama, minorities, politics, professional sport, religion and urbanization. 3 s.h.

3700. Exercise Testing and Prescription 1. Introductory exercise leadership skills including exercise testing and prescription, and design of safe and effective programs. Includes a minimum of 30 hours of field experience in exercise testing, leadership, observation, and career exploration. Content based on American College of Sports Medicine objectives. Prereq.: HPES 2625. 4 s.h.

3702. Health Education Theory and Methods. Overview of health education theory, history, ethics, and methods for the community, school, workplace and health care setting. Provides a foundation in teaching methods. Prereq.: PHLT 1568. Also listed as PHLT 3702. 3 s.h.

3710. Physiology of Exercise. Acute responses and chronic adaptations of the body to physiological demands of physical activity. Topics related to the optimization of performance in sport and exercise include neuromuscular and cardiorespiratory function, energy production and utilization, and environmental influences. Concurrent with HPES 3710L. Prereq.: CHEM 1515, and BIOL 1552 or BIOL 3730; or consent of instructor. 4 s.h.

3710L. Physiology of Exercise Laboratory. Experiments and basic laboratory procedures in the field of exercise physiology. Concurrent with HPES 3710. 1 s.h.

3715. Health Education for Grades PreK-6. Comprehensive school health education curricula, methods and materials for teaching pre-kindergarten through sixth grade students. Prereq.: PHLT 1568, 3702 and BIOL 1545 or AHLT 1500 and 1501. Also listed as PHLT 3715. 3 s.h.

3716. Health Education for Grades 7-12. Comprehensive School Health Education curricula, methods and materials for teaching seventh through twelfth grade students. Prereq.: PHLT 1568, 3702 or HLT 3702, and BIOL 1545 or AHLT 1500 and 1501. 3 s.h.

3720. Kinesiology and Applied Anatomy. Muscular structure and function in relation to physical movement; analysis of fundamental movements. Prereq.: BIOL 1545 or PHYS 1501. 3 s.h.

3720L. Kinesiology and Applied Anatomy Laboratory. Analysis and basic laboratory procedures in relation to physical movement and biomechanics. Two hours lab. Prereq.: PHYS 1501. Concurrent with HPES 3720. 1 s.h.

3722. Physical Education in Elementary Grades for Classroom Teachers. Principles, methods, materials, and organization of activities for elementary school children. Active participation required, including approximately 15 hours of field work in area schools. Prereq.: HPES 2622. 2 s.h.

3730. Exercise Testing and Prescription 2. Intermediate exercise testing, exercise prescription based on metabolic calculations and program development for special populations. Supervised field experience in exercise leadership involving 5-8 hours per week. Content based on American College of Sports Medicine objectives. Prereq.: HPES 3700 and 3710. 4 s.h.

3740. Exercise Program Administration. Provides an overview of legal, management, and marketing skills necessary to develop and implement health/fitness programs and analysis of exercise equipment and facility design. Emphasis on administration. Prereq.: Junior standing in exercise science or permission of instructor. 4 s.h.

3750. Principles of Coaching. The scientific, psychological, and management aspects of coaching. Includes ethics and management responsibilities, personnel management, community relations, conditioning, and other related topics. Prereq.: Junior standing. 2 s.h.

3765. Athletic Training 1. Practical and theoretical aspects of the prevention of athletic injuries. Includes supplies, wrapping and strapping, protective equipment. Emphasizes prevention, evaluation, and emergency care. One hour lecture, two hours lab. Prereq.: BIOL 1552 or 1545, HPES 1589 and 2605, and involvement as a student athletic trainer. 2 s.h.
3767/L. Pedagogy in P-12 Physical Education. Effective teaching practices and development of skills including classroom management, lesson planning, and selection of appropriate methods of instruction. Liability issues. Clinical experiences (observation and peer teaching). Three hours lecture, two hours lab. Prereq.: 20 s.h. in major and HPES 2661, and 3766.
4 s.h.+0 s.h.

3780. Methods of Teaching Dance. Rhythm and movement fundamentals and forms: folk, square, social and aerobic. Methods and materials of teaching dance culminating in clinical or field experiences. One hour lecture, two hours lab. Prereq.: HPES upper-division status and 1595, 2628, 2661, and 2671 or consent of chairperson.
2 s.h.

4803. Issues and Trends in Exercise Science. Current issues and trends and their impact on exercise science and the general public as they relate to the American College of Sports Medicine’s behavioral objectives for various professional certificates. Prereq.: 64 s.h. or permission of instructor.
1 s.h.

4808. Assessment Instruments and Strategies in Physical Education. Various assessment instruments and strategies used in teaching physical education P-12, including cognitive, motor, and affective domains. Practical experience in designing and completing a research project. Two hours lecture, two hours lab. Prereq.: 72 s.h.
3 s.h.

5 s.h.

4820. Research Design and Statistics in Exercise Science. Scientific methods in exercise science including basic research design and elementary statistical techniques. Practical experience in using computer statistical software, understanding published research, and designing and completing a research project. Two hours lecture, two hours lab. Prereq.: CSIS 1514 and HPES 3710.
3 s.h.

4850. Exercise Testing and Prescription for the Health Professions. Introduction to exercise testing and prescription for healthy adults as well as clinical (cardiovascular, pulmonary, diabetes, obesity, osteoporosis, arthritis) and other special (pregnancy, children, elderly) populations. For Health Professions majors. Not applicable to the major in Exercise Science. Two hours lecture, two hours lab. Prereq.: Senior standing or permission of instructor.
3 s.h.

4851. Cultural Aspects of Physical Education and Sport. Survey of major historical, psychosocial developments, and philosophical issues in physical education and sport from ancient times to the present. Prereq.: 20 s.h. in physical education major.
3 s.h.

4852. Psychosocial Aspects of Physical Education and Sport. Survey of major psychosocial principles, developments and concerns as they relate to the participant in physical activity and sport. Prereq.: 20 s.h. in major.
2 s.h.

4855. Organization and Administration of Human Performance and Exercise Programs. Organizational patterns and administrative methods in activities, including instructional programs, intramurals and recreation. Prereq.: 20 s.h. in major.
3 s.h.

4865. Athletic Training 2. Advanced techniques of athletic training with emphasis on evaluation, treatment and rehabilitation of athletic injuries. Topics include application of therapeutic modalities, reconditioning programs, and the role of the athletic trainer in sports medicine. One hour lecture, two hours lab. Prereq.: HPES 3765.
2 s.h.

4870. Exercise and Aging for Health Professions. For majors in Gerontology/Health Professions who work with older adults in exercise/physical activity programs. Emphasis on physical aspects/limitations of aging, exercise testing, prescription, and programs for the elderly. Not applicable to the major in Exercise Science. Prereq.: Senior standing or permission of instructor.
3 s.h.

4876. Teaching of Elementary Physical Education. Curriculum principles, methods and materials for teaching elementary physical education. Includes development of a portfolio and field work in area schools. Two hours lecture, two hours lab. Prereq.: HPES 3767 and UDS COE.
3 s.h.

4878. Teaching of Middle/Secondary Physical Education. Curriculum, principles, methods and materials for teaching secondary physical education. Includes the development of a reflective teaching journal and portfolio, and field work in area schools. Two hours lecture, two hours lab. Prereq.: HPES 4876.
3 s.h.

4880. Internship. A culminating experience in an approved fitness or sports-related setting under the direct supervision of a qualified individual and coordinated by a supervising faculty member. Requires 400 hours to obtain 8 s.h. Prereq.: Completion of Exercise Science core requirements through HPES 4820.
8-12 s.h.

4884. Physical Education Internship. A culminating experience in an approved sport or fitness-related facility or place of business under the direct supervision of a site and university supervisor. Capstone course. Requires 600 contact hours to obtain 12 s.h. Prereq.: Completion of all HPES major core courses.
12 s.h.

4888. Selected Topics in Human Performance and Exercise Science. In-depth study of special subject matter within the field of physical education. Topic announced each time course is offered. May be repeated for a maximum of 6 s.h. with change in topic. Prereq.: 72 s.h. or consent of instructor.
1-3 s.h.
4890. Undergraduate Research. Research participation under the direction and guidance of a full-time faculty member. Provides the advanced student with research experience in HPES. May be repeated to a maximum of six s.h. Junior standing or permission of instructor. 1-3 s.h.

4895. Adapted Physical Education. The organization of physical education activities selected to meet the individual needs of exceptional students. Approximately 15 hours of field work. Prereq.: HPES 3720. 2 s.h.

4898. Seminar: Human Performance and Exercise Science. Special and current problems in HPES. Prereq.: 72 s.h. 1 s.h.

4899. Physiology of Exercise for Physical Education. Acute responses and chronic adaptations of the body to the physiological demands of physical activity. Prime focus is application to the teaching of physical education. Prereq.: HPES 3720. 2 s.h.

4899L. Physiology of Exercise for Physical Education Laboratory. Experiments and basic laboratory procedures in the field of exercise physiology. Concurrent with HPES 4899. 1 s.h.

INDUSTRIAL AND SYSTEMS ENGINEERING—ISEN
Department of Mechanical and Industrial Engineering

2625. Industrial Organization and Management. The general principles of industrial organization and management. Prereq.: MATH 1571. 3 s.h.

3710. Engineering Statistics. Applications of data collection and analysis techniques to engineering problems. Techniques for data structuring, data modeling, parameter estimation, and design of experiments utilizing engineering data. Prereq.: MATH 1571. 3 s.h.

3716. Systems Analysis and Design. Analysis and design of systems. Decomposition of large systems into subsystems. Analysis, modeling, and design of subsystems. Integration of subsystems. Visual BASIC programming as a modeling tool. Prereq.: MATH 1571, ENGR 1560. 3 s.h.

3723. Manufacturing Processes. Modern continuous, batch, and hybrid manufacturing processes; metrology, tolerances, testing and inspection; semi-finished product manufacturing; macro-processing (forming, casting, powder metallurgy, metal working, composite fabrication); joining; nontraditional manufacturing processes; and surface processing. Prereq. or concurrent with MTEN 2606 or MECH 2606. Must take with ISEN 3723. Listed also as MTEN 3723 and MECH 3723L. 2 s.h.

3723L. Manufacturing Processes Laboratory. Experimental work in metrology, injection and blow molding of plastic parts, use of 3D-printer to make prototypes or molds, making of sand molds, casting of aluminum parts, tensile testing of castings, inspection of the casting quality using the scanning electron microscope. Operation of numerically controlled machines and simple NC programming. Three hours laboratory. Must take with ISEN 3723. Listed also as MECH 3723L and MTEN 3723L. 1 s.h.

3724. Engineering Economy. The analysis and evaluation of factors that affect the economic success of engineering projects. Topics include interest, depreciation, cost classification, comparison of alternatives, make-buy decisions, replacement models and after-tax analysis. Prereq.: MATH 1571, ENGR 1560. 3 s.h.

3727. Simulation of Industrial Engineering Systems. Techniques for the digital simulation of industrial engineering systems which can be represented via discrete event models. The generation of random variables, shaping of probability distributions, model structuring, model verification, and the simulation of inventory, queuing, and quality control systems in a high-level structured programming language. A special-purpose simulation language for expanding the class of problems which can be economically modeled. Prereq.: ISEN 3710, 3716. 3 s.h.

3736. Methods Engineering. Techniques for analysis of task performance, the use of process charts, and various methods of work simplification, human-machine relation analysis. Theory and practice of time study and other methods of measuring and establishing performance level and productivity. Prereq.: ISEN 3710 or equivalent. 2 s.h.

3736L. Methods Engineering Laboratory. Practice in analyzing and recording tasks. Determination of time standards and productivity requirements. Analysis and evaluation of actual plant operations. Taken concurrently with ISEN 3736. Three hours laboratory per week. 1 s.h.

3745. Accounting for Engineers. Fundamentals of financial and cost accounting as applied to engineering. Prereq.: ISEN 3724 or equivalent. 3 s.h.

4810. Special Topics. Special topics and new developments in Industrial Engineering. Subject matter, credit hours, and special prerequisites to be announced in advance of each offering. Prereq.: senior standing in Industrial Engineering or consent of instructor. 3 s.h.

4815. Production Planning and Control. The application of the fundamentals and techniques of forecasting, aggregate planning, material requirement planning, scheduling, machine assignment and inventory to the design of production control systems. Prereq.: ISEN 3710 and 5801. 3 s.h.
4821. Capstone Design 1: Manufacturing and Service Systems. The application of engineering techniques to the analysis, design, layout, and justification of manufacturing and service facilities. Subjects covered include, equipment selection, process flow, and material flow. The system design involves field investigation, acquisition and analysis of data, use of computer-aided facilities planning and design software, preparation of drawings, and writing a final report. Grading is Traditional/PR. Prereq.: ISEN 3723, ISEN 3736, ISEN 5801, and 96 s.h. of engineering degree credits. 3 s.h.

4822. Capstone Design 2: Logistics Systems. Analysis, planning and design of material handling, storage/warehouse and logistics systems. The fundamental analytic tools, approaches, and techniques which are useful in the planning, design, layout, and operation of logistics systems and integrated supply chains. Development and use of fundamental models to illustrate the underlying concepts involved in both intra- and inter-company logistics operations. Prereq.: ISEN 4821. 3 s.h.

4840. Reliability Engineering. Introduction to reliability as a probabilistic concept, including: measurement, control, maintenance, repair and replacement, and life testing. Prereq.: MATH 2673. 3 s.h.

4860. Operations Engineering. Application of analytical tools of operations research and linear programming to operational problems of industry. Emphasis on the practical aspects of applying the tools, including data collection, modeling, model verification, and the interpretation, documentation, and presentation of the results. Prereq. or concurrent: ISEN 3727. Prereq.: ISEN 5801 and 5850. 3 s.h.

4870. Robotics. Manipulator kinematics, robot dynamics and programming, sensors and machine vision, machine intelligence, and robot planning. Prereq.: MATH 2673. 3 s.h.

5801. Operations Research 1. Formulation and solution of engineering problems using linear programming. Model formulation, the primal, dual, and transportation simplex methods, duality theory, and sensitivity analysis. Prereq.: MATH 2673. 3 s.h.

5820. Advanced Quality for Engineers. Applications and practices of quality control in industry. Engineering and administrative aspects of quality control programs, process control, and acceptance sampling. Application of quantitative methods to the design and evaluation of engineered products, processes, and systems. Prereq.: ISEN 3720. 3 s.h.

5823. Automation and Computer-Aided Manufacturing. Fundamental concepts in manufacturing, automation and automation strategies. Analysis of high volume discrete parts production lines. Automated flow lines and line balancing. Introduction to numerical control, computer-aided manufacturing/design, and robotics. Fundamentals of manufacturing support systems, group technology, and flexible manufacturing systems. Prereq.: ISEN 3723 or consent of instructor. 3 s.h.

5825. Advanced Engineering Economy. An extension of the topics in engineering economy. Analysis of rationale and norm of decision making, risk and uncertainty models, utility theory, measurement of productivity, and advanced project comparison methods. Prereq.: ISEN 3724. 3 s.h.

5830. Human Factors Engineering. Various aspects of human factors in the design of human-machine systems and environments. Study of human sensory, perceptual, mental, psychomotor, and other characteristics; techniques of measuring human capabilities, limitations, safety, comfort, and productivity. Prereq.: MATH 2673. 3 s.h.

5850. Operations Research 2. Formulation and solution of industrial engineering problems using operational research models. Topics include queuing models and the specialization of linear models to equipment replacement, project planning, assignment, and transshipment problems. Prereq.: ISEN 5801. 3 s.h.

5880. Management of Technology. Addresses two important aspects of technology management. The general aspects of forecasting, planning for adoption, and the effective use of technology in a production/service environment. The technical aspects of the projects as related to the design, production, and support of the products and systems. Prereq.: Senior standing or consent of instructor. 3 s.h.

5881. Competitive Manufacturing Management. Basic principles of manufacturing competitiveness. The role of engineers in promoting competitiveness. Discussion of new technologies used in modern manufacturing management including, continuous improvement, waste elimination, JIT, lean production systems, setup time reduction, equipment maintenance/improvement, total quality management, and supply chain management. Prereq.: ISEN 3723 or consent of instructor. 3 s.h.

INFORMATION TECHNOLOGY—INFO
Department of Computer Science and Information Systems

Lower-Division Courses

1520. Beginning Keyboarding. Beginning keyboarding for all students. Taught on microcomputers; some practice on electronic typewriters. Includes use of word processing procedures, report and business letter preparation. One hour lecture and three hours lab per week. 2 s.h.

1575. Document Preparation. Preparation of documents using information processing and standard and advanced electronic productivity tools such as templates, tables, columns, forms macros, graphics, and merging. Integration of documents with other software. Creating and maintaining hypertext documents. Prereq.: Knowledge of word processing or ENGL 1550. 4 s.h.
2600. Concepts of Information Technologies. The foundation and general principles behind information technology, including data representation, encoding systems, encryption methods, database fundamentals, logic for programming, basic data analysis, and graph applications in networking. 3 s.h.

2663. Information Technology Management. Principles and practices of effective information systems management. Includes organization environment, leadership issues, information system types, strategic role of information technology, planning issues, managing and supporting essential technologies, system development and computing, and successful integration of people and technology. Prereq.: CSIS 1590 or IT 2600. 3 s.h.

2672. Desktop Publishing 1. Document creation using desktop publishing software on a microcomputer. Application must be mastered on a software package used by industry. Lab time required. Prereq.: CSIS 1590. 3 s.h.

2673. Desktop Publishing 2. Specialized and advanced document creation using desktop publishing software used by industry. A second software package must be mastered. Lab time required. Prereq.: OIS 2672. 3 s.h.

2698. Special Topics. An in-depth study of information technologies. Topics vary. May be repeated for different topics. Prereq.: Permission of chairperson. 1-3 s.h.

Upper-Division Courses

3714. Advanced Spreadsheets. Includes macros, look-up tables, advanced problems, templates, and projects with emphasis on accounting and finance applications. Prereq.: CSIS 1514 or 1590. 3 s.h.

3775. Multimedia Authoring. A study of multimedia authoring tools. Methods for integrating text, graphics, sound, and video. Project required. Three hours lecture and two hours lab. Prereq.: INFO 3774. 4 s.h.

3776. Web Site Development. Foundations of web site development including e-commerce, multimedia, database integration, security, and accessibility. Use of scripting languages for interactivity. Three hours lecture and two hours lab. Prereq.: INFO 3774. 4 s.h.

3787. Training and Employee Development. Theory and practice of designing training programs. Analyzing training needs, selecting instructional strategies, and implementing and evaluating training programs. Prereq.: INFO 3774 or both INFO 1575 and CSIS 1590. 3 s.h.

3790. Integrated Information Systems. Students organize and operate an information center utilizing decision-making skills, and information systems procedures and components. Lab time required. Prereq.: INFO 3714 or CSIS 3723. 3 s.h.

4880. Information Technology Analysis and Design. Information systems integration and modeling. Analysis of dynamic information flow, functional requirements, and system design in theory and practice. Prereq.: CSIS 3722 and either 3723 or 3782. 3 s.h.

4895. Special Topics. A study of special topics in information technologies. Subject matter and credit hours will be announced in advance. May be repeated multiple times if topic is different. Prereq.: At least 3 s.h. of upper-division departmental courses and permission of chair. 2-4 s.h.

5875. Advanced Multimedia Authoring. Advanced study of multimedia authoring tools. Analysis of commercial applications. Group project required. Three hours lecture and two hours lab. Prereq.: INFO 3775. 4 s.h.

JOURNALISM—ENGL

Department of English

2632. Introduction to Photojournalism. The basics of photojournalism. Students will learn about composition, lighting, editing, news judgment, and ethics. Listed also as ENGL 2632. 3 s.h.

LIBERAL ARTS AND SOCIAL SCIENCES—LASS

College of Liberal Arts and Social Sciences

3750. Study Abroad. An individually-arranged program of foreign study. Programs can be of 3 general types: (1) study trips conducted by YSU faculty, (2) trips or residential programs sponsored by consortial universities, and (3) independent trips. For independent trips, YSU faculty will design appropriate educational objectives and evaluate students’ performance in meeting these objectives. A written
3760. Washington Center Internship. Qualified students will work in selected public and private agencies in the Washington, D.C. area, thus providing access to government and community leaders and activities, and gaining experience by participating in projects, seminars, and courses. A final project is required. Students must take an additional academic credit course at Washington Center. Additional details are available through the Department of Political Science. Credit may be applicable to the major.

Grading for this course will be CR/NC. Prereq.: Junior or senior standing, acceptance by the Washington Center, and permission of the chairperson of the major.

1-15 s.h.

3780. Lifetime Learning Experience. Credit for significant life or work experience specifically related to their primary concentration area. Prereq.: Junior standing in General Studies.

1-6 s.h.

4805. Integrated Social Studies Seminar. A study of selected topics integrating the concepts and methods of the social studies disciplines. May be repeated with a different topic. Prereq.: Senior standing in the Integrated Social Studies Curriculum with at least 40 semester hours of social studies courses and a minimum of one course in each discipline, or senior standing as a major in one of the social studies disciplines.

3 s.h.

4851. Capstone in Gerontology. A capstone experience for the interdisciplinary study of aging. Students will complete a major research project. Prereq.: Senior status in Gerontology and SOC 4850.

3 s.h.

4880. General Studies Capstone. Practical learning within the primary concentration area. May be an internship, field experience or scholarly thesis. The capstone experience must be approved by the student's general studies advisor or committee. Prereq.: Completion of 20 s.h. in the primary concentration area and consent of the advisor.

3 s.h.

4890. Internship. Integrate theory and practice through supervised learning experiences provided by an appropriate working professional and an Arts and Sciences faculty member. Students will submit a proposal for the internship, maintain a journal of experiences, and submit a final project paper. Students should expect to spend at least 4 hours/week per credit. Prereq.: Junior standing with at least 6 s.h. of coursework in the discipline of the internship, and consent of the appropriate chairperson. May be repeated for a maximum of 6 s.h.

2-3 s.h.

Linguistics—ENGL

Department of English

3 s.h.

Group 1

ENGL 2651. Introduction to Language. Introduction to language principally for prospective teachers, with emphasis on the nature and function of language and its history, variations, and acquisition. Prereq.: ENGL 1551.

3 s.h.

ENGL 3750. Language and Culture. Language structure as an instrument in human behavior and social institutions with emphasis on cross-cultural and intercultural communication. Prereq.: ENGL 1551.

3 s.h.

ENGL 3757. Development of the English Language. Sounds, vocabulary, grammar, and usage, from old to contemporary English.

3 s.h.

3 s.h.

ENGL 4855. Advanced Linguistics. In-depth study of selected issues in contemporary linguistic theory. Especially recommended for students pursuing advanced studies or a minor in linguistics or planning graduate studies. Prereq.: ENGL 3755.

3 s.h.

3 s.h.

FRNC 3710. Applied Phonetics. A systematic study of French phonetics to correct defects in pronunciation and intonation and give students a better understanding of the differences between the French and English sound systems. Prereq.: FRNC 2605.

3 s.h.

FRNC 3715. Conversation and Composition. Skills in written and oral expression developed through directed composition and conversation, discussion of assigned topics, extemporaneous situational dialogues, and written papers on topics of special interest to the participants. Prereq.: FRNC 2605.

3 s.h.

FRNC 4885. Special Topics. Studies in French language, literature, or civilization ranging from medieval to modern times. Topic announced each time course is offered. May be taken three times for credit if content is not repeated. Prereq.: FRNC 3750 and one of the following: 3720, 3725, 3730.

3 s.h.
GRMN 3725. Phonetics and History of the Language. Theory and practice in German phonetics with special emphasis on improving the pronunciation and intonation of second language learners. A history of the German language with attention to changes in sounds, forms, word order, vocabulary, and writing systems. Prereq.: GRMN 2605 or Placement exam. 3 s.h.

ITAL 3720. Advanced Grammar and Composition. Study in depth of Italian grammar through exercises and original composition. Prereq.: ITAL 2605. 3 s.h.

ITAL 3725. Phonetics. Theory and practice in Italian phonetics with special emphasis on improving the pronunciation and intonation of second language learners. Prereq.: ITAL 2605. 3 s.h.

SPAN 3724. Spanish Pronunciation. Theory and practice of Spanish pronunciation. Description of production of Spanish speech sounds and general characteristics of Spanish pronunciation. Topics on intonation. Audio-lingual practice in class and in language laboratory. Prereq.: SPAN 2605. 3 s.h.

SPAN 3735. Advanced Spanish Grammar and Composition. A systematic study of Spanish morphology, sentence structure, and usage applied to a variety of written discourse styles such as description, narration, and exposition. Discussion of contrasts with English discourse styles, and effective grammatical use. Prereq.: SPAN 2605. 3 s.h.

SPAN 3736. Introduction to Spanish Linguistics. Examines some of the basic concepts and issues of modern Spanish linguistic theory in the areas of phonology, morphology, syntax and pragmatics, including readings and discussion on these topics. Prereq.: SPAN 2605. 3 s.h.

SPAN 5855. Topics in Spanish Language and Linguistics. An introduction to the terminology, concepts, bibliography and current issues in Spanish language and linguistics. Major topics include phonology, morphology, semantics, syntax, applied linguistics, transformational grammar, and other topics related to language variation and society. May be repeated once when topic varies. Prereq.: Any 3700-level SPAN course. 3 s.h.

**Group 2**

ENGL 4851. Language Acquisition. A study of research on the learning of first and second languages. Topics include developmental sequences, learner variables, critical periods and conditions for learning, and the roles of input and interaction. The course is designed for those planning to teach languages. Listed also as FNGL 4851. Prereq.: ENGL 3755. 3 s.h.

ENGL 4856. TESOL Methods. Introduction to teaching English as a Second Language (ESL), including reading, writing, listening, and speaking. Focus on using communicative methods with non-native speakers. Prereq.: ENGL 3755. 3 s.h.

ENGL 4857. TESOL Practicum. Supervised teaching in English as a second language (ESL) program. Additionally, weekly seminar attendance required. Prereq.: ENGL 4856. 3 s.h.

ENGL 4858. English Grammar. Descriptions and analysis of English language structure. Prereq.: ENGL 3755. 3 s.h.

ENGL 4859. Selected Topics in Discourse. Study in depth of a specific topic such as stylistics, semantics, or rhetoric. May be repeated once with different topic. Prereq.: ENGL 3740, 3741, or 3755 as appropriate to topic. 3 s.h.

PHIL 2619. Introduction to Logic. Introduction to syllogistic or classical logic, symbolic and inductive logic. Emphasis on the rules of syllogism, propositional functions, classes, truth tables, Venn diagrams; the use of analogy, generalization, the verification of hypotheses, and the scientific method. 3 s.h.

PHIL 3714. Language and Mind. Introduction to the study of traditional philosophical problems in the analysis of linguistic structures and functions and of their implications for the nature of mind, including meaning, mental representation and causation, information processing, and psychological explanation. Prereq.: One 2600-level PHIL course. 3 s.h.

PHIL 3719. Symbolic Logic. The structure and properties of axiomatic systems; the theory of propositional and relational logic; the algebra of classes; related topics. Prereq.: PHIL 2600. 3 s.h.

CSCI 5835. Artificial Intelligence. Study of the theory and applications of intelligent systems. Topics may include general problem-solving techniques, knowledge representation and expert systems, vision and perception, and natural language processing, AI systems and languages. Prereq.: CSCI 2617 and 3710. 3 s.h.

PSYC 3761. Cognition. Experimental methods, research findings, and current theories concerned with human cognitive processes. The information-processing approach, focusing on how information is transformed, stored, manipulated, and retrieved. Topics include attention, pattern recognition and categorization, memory, and language. Concurrent: PSYC 3761L. Prereq.: PSYC 2618. 3 s.h.

PSYC 3761L. Cognition Laboratory. Laboratory demonstrations and experiments using research techniques in cognition. Two hours per week. Concurrent: PSYC 3761. 1 s.h.

PSYC 3764. Psycholinguistics. An overview of language production, use, and comprehension including the biological basis of speech and language development, social aspects of language, and bilingualism. Prereq.: PSYC 2618 or ENGL 3755. 3 s.h.

PSYC 3764L. Psycholinguistics Laboratory. Research techniques in basic and applied psycholinguistics. Two hours per week. Concurrent: PSYC 3764. 1 s.h.
PSYC 4850. Seminar. Major topics in psychology not covered in listed courses. Two s.h. may be applied to the psychology major. Prereq.: Senior standing in psychology. 2 s.h.

**MANAGEMENT—MGT**

**Department of Management**

**Business Core**

2604. Legal Environment of Business 1. Various sources of laws, basic legal reasoning and application. Emphasis on basic legal concepts of contracts, labor, tax, antitrust and business organizations, and their relationship to business and society. 3 s.h.

3725. Fundamentals of Management. Emphasizes the basic principles of management rather than those involved in business organization. The nature of managerial action within an organization, formal and informal structure, process of making decisions, and interrelated activities in management. Prereq.: Junior standing and declared major. 3 s.h.

4850. Strategic Management and Leadership. Analysis of problems and issues faced by organizations operating in today’s dynamic environment interspersed with multiple stakeholders. Students integrate concepts and techniques learned from a range of disciplines and apply them to all levels of firms functioning in a wide variety of industries. Prereq.: MGT 3725, MKTG 3703, FIN 3720. 3 s.h.

**Management Core**

3750. Human Behavior in Organization. Study of human factors in the administration function. Emphasis on the contributions of the behavioral sciences to the student of business. Topics include a history of human relations, leadership and its development, labor-management relations, group dynamics, and communication and group processes. Prereq.: Junior standing. 3 s.h.

3789. Operations Management. Study of current operations management theories and practices with emphasis on direction, planning, and control of production systems. Includes detailed analysis in such areas as materials management, work measurement, quality control, scheduling, maintenance, and forecasting. Prereq.: MGT 3725, ECON 3780. 3 s.h.

4890. International Business. Management problems of firms engaged in international business, including the strategy of foreign involvement and control of foreign activities. Emphasis on management issues unique to firms in international operations. Prereq.: MGT 3725. 3 s.h.

**Human Resource Management**

1510. Union Leadership Skills. Introduction to basic leadership skills with emphasis on human relations, motivation, communication skills, decision making, problem solving, parliamentary procedure. 3 s.h.

3705. Fundamentals of Occupational Safety. Overview of the broad concepts of occupational safety and health that provide a proper foundation for understanding the basic principles of workplace safety and health programs. Analysis of the regulatory environment including OSHA and Workers’ Compensation; the development of safety management programs; the evaluation of workplace hazards; and discussion of the economic, political, and societal implications involving workplace safety and health. Prereq.: MGT 1510 or ENST 2600 or CJFS 1500 or BUS 1500 or consent of instructor. 3 s.h.

3715. Labor Law and Negotiations. Introduction to private and/or public sector labor law. Includes the study of the legal principles surrounding employee organizing, unfair labor practices, bargaining, striking, and picketing; involves participation in a negotiations simulation. Prereq.: MGT 1510 or MGT 2604 or BUS 1500 or consent of instructor. 4 s.h.

3720. Contract Administration and Grievance Procedure. Study of the development of economic and non-economic contract language for collective bargaining agreements, and the preparation and participation in grievance processing and labor arbitration cases. Prereq.: MGT 1510 or BUS 1500 or consent of instructor. 4 s.h.

3734. Human Resources Management. Management and the human resource field; organization and jobs; employment and development of people. Review of applications of job design and analysis, human resource planning, recruitment and selection, equal employment opportunity legislation, training and development, career management. Human resource management theories and concepts integrated into experiential exercises which simulate practical applications. Prereq.: MGT 3725. 3 s.h.

3740. Labor Studies Seminar. Study of selected issues and problems on the basis of interest and need. May be repeated for a maximum of 9 s.h. Prereq.: Permission of instructor. 3 s.h.

3755. Managing Diversity. Current topics in diversity: national and international demographics of the changing face of the work force; processes that create diversity including the organization of work; managing differences in work settings; management responses to diversity; and connections to larger institutional dynamics. Prereq.: Junior standing in a declared major and one lower level GER approved SI course or permission of the instructor. 3 s.h.

4819. Selection, Training, and Development. Intensive analysis of programs for personnel acquisition, the training and development of employees. Includes
the human resources planning process. Examination of federal and other employment legislation where applicable. Prereq.: MGT 3734. 4 s.h.

4820. Supply Chain Management. A comprehensive description of supply chain management practices and principles to achieve a competitive advantage in a global society and integrating these principles as a core competency in enterprise strategy. Topics include logistics, technology (information networks, ERP, SAP, operations (inventory management, transportation, warehousing, and material handling) and network designs. Prereq.: MGT 3789. 3 s.h.

5845. Work in America. Examines the changing characteristics, expectations, and representations of work in America. Includes the exploration of demographic, historic, economic, technological, sociological, religious, ethical, popular, and poetic perspectives on work. Prereq.: MGT 3715 or Concurrent. 3 s.h.

Management Information Systems

3761. Information Systems for Management. Study of information systems and their interaction with individuals and organizations, providing a basis for understanding of hardware, software, and computer technology used in information systems. Prereq.: Junior standing. 3 s.h.

3771. Electronic Commerce. Presents an understanding of E-commerce/E-business (B2B, B2C, and Intranet) and their technologies from the managerial perspective. Underlying Web development issues and methodologies (HRML, URL, TCP/IP, privacy/security, critical success factors) are investigated. A business Web presence is developed. Prereq.: MGT 3761 or Concurrent. 3 s.h.

5825. PC Applications in Business. In-depth study of business microcomputer applications with emphasis on the development of personal decision support systems using database and spreadsheet software packages. Prereq.: MGT 3761. 3 s.h.

5835. Systems Analysis and Design. Information systems and system development life cycle (SDLC) sizing tools and techniques used to document an information system. Prereq.: MGT 3725, and MGT 3761. 3 s.h.

5865. Database Management Systems. Design and management of organizational data resources. Database issues include design, definition, creation, documentation update, maintenance, revision, selection, acquisition, and use. The implementation of the hierarchical, network, and relational models with emphasis on business applications. Prereq.: MGT 3725, and MGT 3761. 3 s.h.

5875. Decision Support/Expert Systems. Fundamental techniques, construction, and use of decision support systems, expert systems, and management support systems. Prereq.: MGT 3761. 3 s.h.

Operations Management

3737. Management Science. An understanding of methods of management science from an executive or managerial viewpoint, emphasizing formulation of business problems in quantitative terms. Topics such as linear programming, dynamic programming, game theory, Monte Carlo method, probability theory, queuing theory, inventory theory, transportation method, and simulation discussed and evaluated. Prereq.: MATH 1548, ECON 3780. 3 s.h.

4815. Total Quality Management. Study of the influence of quality on all phases of business operations from strategic planning to process control, quality measurement to systems and process design. Statistical process control in detail, but all aspects of quality management are reviewed. Prereq.: MGT 3789. 3 s.h.

4881. Project Management. Study of project management topics regarding project planning, work breakdown structure, scheduling, PERT/CPM, controlling and managing the costs, resource allocation, project control, and project termination. Includes the environment in which project managers work and its organizational structures: functional, project, and matrix organizations. Computer-based project management software is also introduced. Prereq.: MGT 3725, and MGT 3761. 3 s.h.

4882. Seminar in Logistics. In-depth study of selected topic(s) in logistics. Application to practical logistics problems culminating in a written report and an oral presentation. Intended for students in the logistics minor. Prereq.: Senior status and completion of 9 s.h. in the minor. 3 s.h.

4896. Logistics Internship. Work and study in the public or private sector centered upon the development of a significant logistics project under the direction of university faculty and designated member(s) of the participating agency. Intended for students in the logistics minor. Prereq.: MGT 4882 or completion of 12 s.h. in the minor. 3 s.h.

Other Management Courses

2600. Management Field Experience. Internship and/or cooperative education experiences in management. Students may be assigned to corporate, non-profit, or government entities on a semester basis. Can repeat this course once for a different field experience. Prereq.: 2.5 GPA, department approval, and sophomore standing. 1-2 s.h.

2699. Industry Studies Seminar. Specialized course for students from a specific industry involving selected issues and problems on the basis of interests and needs. Prereq.: Permission of instructor. 1-2 s.h.

3714. Legal Environment of Business 2. In-depth analysis of commercial law areas covered on the CPA exam, with emphasis on sales, secured transactions, real and personal property, insurance, bankruptcy, and commercial paper. Prereq.: MGT 2604, junior standing. 3 s.h.
3735. Communications for Management and Business. Analyzes communication and information processes as means for coordinating and controlling organizational activities. Analytical writing activities required including a long, formal report. Prereq.: ENGL 1551, MGT 3725, permission of instructor. 3 s.h.

4840. Managing Organizational Environments. Dynamics of structure, design, strategy and culture in the context of an organization’s relationships to external environments; included are institutional forces, the global environment, and the new technological environment. Organizational ethics as cultural components that define appropriate ways for stakeholders to deal with one another and with the organization’s environments. Prereq.: MGT 3725, permission of instructor. 3 s.h.

4854. Globalization and Worker Rights. The study of worker rights in the global economy. This includes comparative labor standards, political debates over worker rights, and responses to globalization by corporations, unions, and human rights organizations in the form of codes of conduct, social monitoring, framework agreements, and strategic campaigns. Prereq.: Junior standing and MGT 3725 or MGT 3715. 3 s.h.

4855. Business Ethics. Analysis of ethical considerations involved in the management of a business in relation to society, stockholders, customers, employees, competitors, and government. Prereq.: MGT 3725 and 3750. 3 s.h.

4870. Small Business/Entrepreneurship. Study of the small business environment and the problems in starting a business. How small businesses apply the managerial functions in using their resources. Cross-listed with MKTG 4870. Prereq.: Senior standing or permission of instructor. 3 s.h.

4871. Small Business Enterprise. Students work with actual problems faced by small businesses under faculty supervision. Problems are defined, analyzed, researched. Recommendations are developed and presented to clients for evaluation. Cross-listed with MKTG 4871. Prereq.: MGT 4870 or permission of instructor. 3 s.h.

4880. Special Topics in Management. Subject matter, credit hours, and specific prerequisites to be announced in advance of each offering. Prereq.: Senior standing in MGT or permission of instructor. 1-4 s.h.

4895. Management Internship. Offers the student the opportunity to relate theory to practice through on-the-job work experience with participating organization. Mandatory bi-weekly meetings with faculty advisor to insure maximum learning from the experience. Offered all three semesters each year based on the availability of internships. A written evaluation of the job experience is required. Prereq.: 20 s.h. of MGT courses including 3725 and 3750, and department screening and approval. 3 s.h.

4899. Independent Study. Development of a special topic of interest to the student under the direct supervision of a management faculty member. Credit hours vary according to the nature of the project. Prereq.: MGT core and permission of department chairperson. 1-3 s.h.

5860. Comparative Management. Comparative Study of organization, managerial styles, and leadership in foreign countries based on historical and environmental factors. Analysis of the reasons that managerial activity and the effectiveness of management vary among different business systems. Prereq.: MGT 3725 and 3750. 3 s.h.

MARKETING—MKTG

Department of Marketing

Lower-Division Course

1520. Selected Marketing Topics. Topics vary each semester. Subject matter and number of credit hours announced in advance of each offering. May be taken twice with change of topic. 1-3 s.h.

Upper-Division Courses

3702. Business Professionalism. This course is intended to help students prepare for and accomplish a successful transition from college to a professional career. Students will be challenged to understand the various elements of business professionalism including etiquette, communications, image, conflict resolution, career exploration and job search. Prereq.: BUS 1500 and junior standing, and course must be taken concurrently with MKTG 3703. 1 s.h.

3703. Marketing Concepts and Practice. The activities involved in marketing products, services, and ideas examined within a framework of customer management. Topics include global marketing environment, market analysis and segmentation, consumer behavior, product development and management, pricing, promotion, and distribution. Marketing is examined from its role as a central function of business and non-profit organizations, and from its dominant role in a market economy. Prereq.: BUS 1500 and junior standing. 3 s.h.

3709. Retail Marketing. Retailing is the largest industry and the dominant employer in the U.S. economy. The industry is explored, with particular emphasis on understanding the activities of retailers, both large and small. Topics include shopper behavior, store location, store layout, product presentation, and customer service. The criteria for success in retailing, the impact of technology on retailing, and the retail process examined within the larger domain of marketing. Beneficial to all marketing and business majors, as well as others engaged in shopping activities. Prereq.: MKTG 3703. 3 s.h.
3713. Retail Merchandise Buying. The product dimension of retailing. The strategies and philosophies that determine excellence in merchandise selection. Topics include the organization of the buying function, determining what to buy based on customer needs, visiting the market, vendor analysis and selection, Quick Response (QR) and Efficient Consumer Response (ECR), and the retailer's responsibilities in other areas of the retail firm. Extensive attention to global sourcing. Prereq.: MKTG 3703. 3 s.h.

3720. Industrial Marketing. Characteristics of Manufacturers' goods, channels of distribution, functions of intermediaries, distribution costs, marketing research, government control, and legal limitations. Product policies, service policies, packaging policies, price policies. Industrial advertising organization, planning and budgeting, uses of advertising agencies and national advertising media, sales manuals, dealer helps. Prereq.: MKTG 3703. 3 s.h.

3726. Consumer Behavior. Individual and group behavior as related to marketing consumer behavior, considered from both the standpoint of the marketing manager and from that of the individual as a consumer. The behavioral sciences serve as a background to provide standards for the social and human evaluation of current marketing activities. Topics include the buyer as problem solver, buying decision processes and models, measurement of promotional effectiveness, and life style analysis. Prereq.: MKTG 3703. 3 s.h.

3732. Non-Textiles/Furnishings. The principles and functions of non-textiles and furnishings. The sources of raw materials, manufacturing processes, care, use, and selling points of these types of merchandise: paper, leather, furs, jewelry, metals, stones, and cosmetics. The furnishings industry is examined with emphasis on forecasting, planning, selecting, negotiating, pricing, and recording of merchandise. Prereq.: MKTG 3703. 3 s.h.

3740. Professional Selling. Personal selling and sales management examined within the marketing environment. Emphasis on marketing relationships, buyer motivation and behavior, selling strategy and sales management techniques. Prereq.: BUS 1500 and sophomore standing. 3 s.h.

3755. Shopping Center Fundamentals. General survey of the elements in the development of planned shopping centers. The history and social significance of planned shopping centers, their present position and future directions. Prereq.: MKTG 3703. 3 s.h.

3757. Shopping Center Development. Examination of shopping centers from a marketing and development standpoint. Topics include marketing strategies, site selection, promotions, tenant mix, and public relations. Prereq.: MKTG 3703. 3 s.h.

4815. Marketing Research. Introduction to the major areas of research marketing. Problem definition, research design, gathering information and analysis to assist marketing management with the decision making process. Both empirical and theoretical concepts. Review of research problems, approaches and trends in industrial retailing, wholesaling, trade associations, advertising, publishing and consulting firms. Prereq.: MKTG 3703. 3 s.h.

4825. Marketing Management. Comprehensive study of the management functions in marketing including organization, planning, research, merchandising, sales, advertising and promotion, marketing channels, and control related to corporate policies and objectives. Management practices covering recruiting, selection, training, equipping, compensating, and supervising. Prereq.: MKTG 3703 and, MKTG 3726 and, MKTG 3740. 3 s.h.

4842. Special Topics in Marketing. Topics vary each semester. Subject matter, number of credits, and prerequisites announced in advance of each topic. No more than one Special Topic per semester is permitted. May be taken twice with change of topic. Prereq.: Permission of chairperson. 1-3 s.h.

4845. International Marketing. Development of United States trade, foreign trade promotion, organization, export and import procedures and practices. Presented from the viewpoint of the international marketing manager who must recognize differences between markets in various countries as influenced by their particular cultural and economic environments. Prereq.: MKTG 3703. 3 s.h.

4846. Marketing Channels and Logistics. Consideration of the problems likely to arise in the planning for and movement of goods through channels of distribution from producer to end-user. Elements of the logistical system, including transportation modes, plant and warehouse location, and inventory size determinations. Behavioral and functional relationships with and between channel members in a supply chain. Prereq.: MKTG 3703 and ECON 3780. 3 s.h.

4848. Marketing and Social Responsibility. Present marketing practices and their impact on the values of society and the impact of social and ethical trends upon marketing. Search for the consumers' interest, the social audits, marketing responsibilities, product safety, ecological considerations, legal restraints, and pricing and sales practices. Prereq.: MKTG 3703. 3 s.h.

4850. Marketing Internship. Through employment with participating business organizations the student receives professional marketing experience. Candidates work for the entire semester at a local business organization under the direct guidance of a faculty advisor. Required paper at the end of the course on the relationship of marketing theory and practice. Prereq.: MKTG 3703. 3 s.h.

4851. Services Marketing. Cross-functional approach to the marketing of customer services in profit and non-profit organizations, including domestic and international opportunity analysis, customer analysis, financial analysis, strategy formulation, process and systems management, and quality improvement. Prereq.: MKTG 3703. 3 s.h.
4865. Shopping Center Operations. Comprehensive review of the practices and procedures involved in the operation of shopping mall properties, including merchandising, maintenance, security, landlord-tenant relations, and community relations. Prereq.: MKTG 3703. 3 s.h.

4870. Small Business/Entrepreneurship. Study of the small business environment and the problems in starting a business. How small businesses apply the managerial functions in using their resources. Cross-listed with MGT 4870. Prereq.: MKTG 3703. 3 s.h.

4871. Small Business Enterprise. Students work with actual problems faced by small businesses under faculty supervision. Problems are defined, analyzed, researched. Recommendations are developed and presented to clients for evaluation. Cross-listed with MGT 4871. Prereq.: MKTG 3703. 3 s.h.

MATERIALS
ENGINEERING—MTEN
College of Engineering

2606. Engineering Materials. Properties and uses of engineering materials, manufacturing processes, including heat treatments and forming operations. Introduction to mechanical testing methods. Listed also as MECH 2606. Prereq.: MATH 1572. 3 s.h.

3721. Engineering Plastics. Preparation, characterization, manufacture, properties and applications of commercial polymers. Prereq.: CHEM 1516/1516L, CHEN 2683, and MTEN 3721L or concurrent. 3 s.h.

3721L. Engineering Plastics Laboratory. Preparation of thermoplastics and thermoset plastics utilizing injection molding. Measurement of plastics properties using Instron analysis to predict performance. Prereq.: CHEM 1516/1516L, CHEN 2683 and MTEN 3721L or concurrent. 1 s.h.

3723. Manufacturing Processes. Modern continuous, batch, and hybrid manufacturing processes; metrology, tolerances, testing and inspection; semifinished product manufacturing; macro-processing (forming, casting, powder metallurgy, metal working, composite fabrication); joining; nontraditional manufacturing processes; and surface processing. Prereq. or concurrent with MTEN 2606 or MECH 2606. Must take with MTEN 3723L. Listed also as MECH 3723 and ISEN 3723. 2 s.h.

3723L. Manufacturing Processes Laboratory. Experimental work in metrology, injection and blow molding of plastic parts, use of the 3D-printer to make prototypes of molds, making of sand molds, casting of aluminum parts, tensile testing of castings, inspection of the casting quality using the scanning electron microscope. Operation of numerically controlled machines and simple NC programming. Three hours laboratory. Must take with MTEN 3723. Listed also as MECH 3723L and ISEN 3723L. 1 s.h.

3745L. Corrosion of Engineering Materials Laboratory. Measurement of corrosion rates of engineering materials, especially metals, IR compensation, polarization resistance, and electrochemical impedance spectroscopy for coated and uncoated materials. Prereq.: CHEM 1516L, MTEN 3745 (or concurrent). 1 s.h.

3752. Ceramic Materials. Composition, microstructure, processing, and properties of commonly used ceramics and glasses. Advanced ceramics including piezoelectric ceramics, optical fibers, microelectromechanical systems (MEMS), and carbon polymorphs such as fullerenes and carbon nanotubes. Prereq.: MECH 2606 or MTEN 2606. 3 s.h.

3753. Materials used in Electrical Devices. Properties and processing of materials used in modern electronic devices. Manufacturing techniques used to make common electronic devices such as p-n rectifying junctions, MOSFET transistors, integrated circuits, magnetic storage devices, LEDs, and lasers. Prereq.: MECH 2606 or MTEN 2606. 3 s.h.

3768. Engineering Forensics using the SEM. Use of Scanning Electron Microscope (SEM) for forensic and failure analysis investigations. Individual term projects using the stereomicroscope, preparing SEM samples, taking SEM photomicrographs, and using the energy dispersive x-ray analyzer. Two hours lecture and three hours lab per week. Prereq.: MECH 2606 or MTEN 2606. 3 s.h.

3783. Properties, Processing, and Applications of Metals. Composition, processing, heat treatment, microstructure, and properties of commonly used engineering alloys. Alloy and heat treatment selection for the optimization of desired properties for engineering applications. Two hours lecture, three hours lab per week. Prereq.: MECH 2606 or MTEN 2606. 3 s.h.

4815. Introduction to Biomaterials. The uses of synthetic materials including metals and alloys, ceramics, pyrolytic carbon and polymers within a human body. Reaction of human body to devices made out of the synthetic materials. Impact of human environment on the materials. Use of biomaterials in orthopedic, drug delivery, skin grafts, etc. Prereq.: MTEN 3721. 3 s.h.

4820. Fiber-reinforced Composite Materials. Introduction to the manufacture and applications of fiber-reinforced composite materials. Topics covered include polymer, ceramic and metallic matrix composite materials. Principles in selection and processing of composite materials are considered. Prereq.: MTEN 3721. 3 s.h.
4825. Foamed Materials. Properties, processing, and applications of foamed materials with an emphasis on metallic foams. Prereq.: MTEN 3783 or permission of instructor. 3 s.h.

4888. Materials Engineering Design. Development of materials engineering designs from the proposal phase to the detailed engineering phase. The application of materials engineering concepts to the design of processes and products including societal, aesthetic, environmental and safety considerations. Prereq.: ISEN 3724 and senior standing. 3 s.h.

5868. Failure Analysis Using the SEM. Advanced methods in failure analysis of products and structures. Failure modes and mechanisms. Characteristics of fracture surfaces. Failure analysis investigations using the stereomicroscope and the Scanning Electron Microscope (SEM). Two hours lecture, three hours lab per week. Prereq.: 96 s.h. of degree credit and permission of instructor. 3 s.h.

MATHEMATICS—MATH
Department of Mathematics and Statistics

The following have been approved as General Education courses in the Basic Skills area of Mathematics: 2623. Survey of Mathematics; MATH 2625, Mathematical Literacy and Critical Reasoning.

The following courses are substitutes for Math 2623 or Math 2625: 1549, College Business Mathematics; 1570, Applied Calculus II; 1571, Calculus I; 1572H, Calculus II; 1581H, Biomathematics; 1585H, Calculus Honors; 2652, Mathematics for Early Childhood Teachers; 2665, Foundations of Middle School Mathematics; 2670, Applied Calculus 2.

Lower-Division Courses

1500. Number Concepts and Beginning Algebra. Activity-based approach to signed numbers, fractions, percentages, solving equations, word problems, proportional reasoning, graphing, slope, Pythagorean theorem and square roots. Does not count toward a degree. 5 s.h.

1501. Elementary Algebraic Models. Arithmetic of integers and of rational numbers; linear equations and inequalities in one variable; polynomials, factoring, algebraic fractions, radicals and quadratic equations; linear systems in two variables; graphs. Prereq.: Level 10 on Math Placement Test or MATH 1500. Does not count toward a degree. 5 s.h.

1502, 1503. Beginning Algebra 1, 2. Topics include arithmetic of integers and rational numbers, linear equations and inequalities, quadratic equations, factoring, systems of linear equations, word problems and graphing quadratic functions. MATH 1502 and MATH 1503 are equivalent to MATH 1501. Prereq.: Level 10 on Math Placement Test or MATH 1500. Does not count toward a degree. 3+3 s.h.

1507. Intermediate Algebra. Topics include functions of the following: linear, polynomial, rational, exponential, and logarithmic. Emphasis on function relations and graphing by algebraic techniques and technology. Solving linear, nonlinear equations and inequalities. Prereq.: MATH 1501 or Level 20 on Math Placement Test. Does not count toward a degree, 3 s.h.

1508. Introduction to Trigonometry. Angle measurement, similar triangles, trigonometric ratios in the plane, right triangle trigonometry, cosine and sine laws. Sine, cosine, and tangent functions and their graphs. Fundamental trigonometric identities, equation solving, and inverse trigonometric functions. Prereq.: MATH 1501 or Level 2 on the Math Placement Exam. 2 s.h.

1513. Algebraic and Transcendental Functions. Function concepts including trigonometric, exponential, and logarithmic functions. Application problems and graphing. Supplemental topics. Prereq.: At least Level 40 on the Mathematics Placement Test or MATH 1504. 5 s.h.

1552. Applied Mathematics for Management. Apply functions, linear systems, linear programming to business including use of technology; mathematics of finance and an introduction to limits, derivatives and integrals with business applications. No credit for students who have completed MATH 1570 or 1571. Prereq.: MATH 1507 or at least Level 40 on the Mathematics Placement Test. 4 s.h.

1564, 2665. Foundations of Middle School Mathematics. Conceptual foundations of topics from number theory, operations, functions, algebra, geometry, measurement, probability, and data analysis. Emphasis on multiple approaches and representations, problem solving, and communication of mathematical reasoning. Includes inquiry-based laboratory experiences with manipulatives and computing technology. Prereq.: At least Level 40 on the Mathematics Placement Test or concurrent registration in MATH 1504 for MATH 1564, MATH 1564 for MATH 2665. 4+4 s.h.

1570, 2670. Applied Calculus 1, 2. The elements of differential and integral calculus, with emphasis on applications. Analytical geometry, differentiation and integration techniques and series representations. Introduction to differential equations, transform calculus, and Fourier analysis. This is a basic methods course particularly adapted for those who require applied topics in mathematics. Not applicable toward the Mathematics major. Credit will not be given for both MATH 1549 and 1570. Prereq.: MATH 1513 or at least Level 50 on the Mathematics Placement Test. MATH 1570 for MATH 2670. 4+4 s.h.

1571, 1572, 2673. Calculus 1, 2, 3. A sequence of integrated courses in analytic geometry and calculus. A detailed study of limits, derivatives, and integrals of functions of one and several variables with applications. Prereq.: MATH 1571 requires at least Level 70 on the Mathematics Placement Test, or MATH 1513. MATH 1571 for MATH 1572, MATH 1572 for MATH 2673. 4+4+4 s.h.
1580H. Biomathematics 1. Counting techniques, probability, matrices and linear systems. Emphasis on the role of mathematical models in explaining and predicting phenomena in life sciences. Prereq.: Admission to NEOUCOM-YSU program. 2 s.h.

1581H. Biomathematics 2. A study of functions, differential and integral calculus. Emphasis on the role of mathematical models in explaining and predicting phenomena in life sciences. Credit will not be given for both MATH 1581H and 1571. Prereq.: Admission to NEOUCOM-YSU program 4 s.h.

1585H, 2686H. Calculus 1, 2 Honors. A sequence of honors courses in analytical geometry and calculus which cover essentially the same material as MATH 1571, 1572, 2673, in two semesters instead of three. A detailed study of limits, derivatives, and integrals of functions of one and several variables and their applications. Prereq.: Level 90 on the Mathematics Placement Test for MATH 1585H. MATH 1585H for MATH 2686H. This sequence will be offered at most once during each academic year. 5+5 s.h.

1586H, 2687H. Honors Calculus Laboratory 1, 2. Introduction to mathematical modeling of topics covered in calculus. Emphasizes the use of technology such as computer algebra systems, technical document processing, and graphics software for solving problems and reporting solutions. Prereq.: MATH 1571 or concurrent with 1585H for MATH 1586H. MATH 1572 or concurrent with MATH 1586H for MATH 2687H. 1+1 s.h.

2623. Survey of Mathematics. Mathematics models emphasizing basic ideas in mathematics and statistics, stressing concept formation rather than manipulative skills. Prereq.: MATH 1501 or Level 30 on the Mathematics Placement Test. Credit will not be given for both MATH 2623 and 2625. 3 s.h.

2624. Probability and Critical Reasoning. Finite probability with supportive material from logic and set language. Connection between critical reasoning in probability and in deterministic settings. Prereq.: MATH 1504 or at least Level 30 on the Mathematics Placement Test. 3 s.h.

2625. Mathematical Literacy and Critical Reasoning. An introduction to contemporary mathematics and its applications. Topics include basic scientific methods and a variety of practical problems that can be modeled and solved by quantitative means. Prereq.: Math 1501 or at least Level 30 on the Mathematics Placement Test. 3 s.h.

2651, 2652. Mathematics for Early Childhood Teachers 1, 2. A conceptual development of mathematics topics underlying today’s Pre-K-grade 3 curriculum. Emphasis on multiple approaches, problem solving, and communication of mathematics. Incorporates classroom activities, manipulatives, technology, and activities developmentally appropriate for young children. Prereq.: MATH 1501 or at least Level 3 on the Mathematics Placement Test for 2651, MATH 2651 for MATH 2652. 3+3 s.h.

Upper-Division Courses

3701. Biomathematics Seminar. Introduction to interdisciplinary research in biology and mathematics. Topics include current research by faculty and students, cross disciplinary communication, report writing, technical presentations, literature reading, laboratory techniques and safety. May be repeated once. Listed also as BIOL 3701. Prereq.: MATH 1571 or BIOL 2601 or BIOL 2602. 1 s.h.

3702. Problem Solving Seminar for Secondary Mathematics. Approaches to and practice with problem solving with examples from a broad spectrum of mathematics. Emphasizes problems at the level of the Praxis II examination for mathematics and problems suitable for high school contests such as the American Mathematics Competition 10 and 12. Prereq.: MATH 1572 or consent of instructor. 3 s.h.

3715. Discrete Mathematics. A course in discrete mathematical structures to prepare students for advanced courses. Topics include set theory, functions and relations, logic and quantifiers, truth tables and Boolean expressions, induction and other techniques of proof, and graphs. Credit will not be given for both CSCI 3710 and MATH 3715. Prereq.: MATH 1572. 3 s.h.

3720. Linear Algebra and Matrix Theory. Matrices; matrix operations; linear transformations; applications. Prereq.: MATH 1572. 3 s.h.

3721. Abstract Algebra 1. Introduction to abstract algebra investigating fundamental concepts in group and ring theory. Topics include groups, subgroups, cyclic groups, permutation groups, cosets, direct products, homomorphisms, factor groups, rings, integral domains and polynomial rings. Prereq.: MATH 3715 and 3720. 4 s.h.

3750. History of Mathematics. A survey of the historical development of mathematics. Prereq.: MATH 2673 or 3715. 3 s.h.

3751. Real Analysis 1. Introduction to the properties of the real number system and metrics and metric properties, with critical analysis of limits, continuity, differentiability, integration, and other fundamental concepts underlying the calculus. Prereq.: MATH 2673 and 3715. 4 s.h.

3760. Numerical Analysis 1. The theory and techniques of numerical computation. The solution of a single equation, interpolation methods, numerical differentiation and integration, direct methods for solving linear systems. Prereq.: MATH 3720 and CSIS 2610. 3 s.h.
3767, 3768. Algebra/Geometry for Middle School Teachers. An integrated, conceptual, and function-centered approach to the foundations of algebra, geometry, and trigonometry for preservice middle childhood mathematics specialists. Emphasis on multiple approaches and representations, problem solving, and communication of mathematical reasoning. Includes inquiry-based laboratory experiences. Not applicable to the mathematics major. Prereq.: MATH 2665 for MATH 3767 and MATH 3767 for MATH 3768. 4-4 s.h.

3785. Numerical Methods. Matrices, matrix operations, and the application of numerical methods. Not applicable to the Mathematics major. Prereq.: MATH 2670 and ENTC 1505, or equivalent. 3 s.h.

3795. Topics in Mathematics. The study of a mathematical topic or the development of a special area of mathematics. May be repeated once. Prereq.: MATH 1549 or 1570 or 1571 or 2623 or 2651. 2-3 s.h.

4830. Foundations of Geometry. The development of Euclidean and non-Euclidean geometries from postulate systems. Prereq.: MATH 3715. 3 s.h.

4857. Partial Differential Equations. Introduction to partial differential equations (PDE) including solution techniques and applications. Classifications of the basic types of PDEs (hyperbolic, parabolic and elliptic) and dependence on boundary and initial conditions. Topics include Fourier series, integral transforms (Fourier, Laplace), and applications in vibrations, electricity, heat transfer, fluids or other selected topics. Prereq.: MATH 3705 and MATH 3720. 3 s.h.

4869. Functions, Calculus, and Applications for Middle School Teachers. Polynomial and exponential functions, limits, derivatives, integrals, and applications. Interpretation of slope and area in graphs of functions from applied settings. Applications of limits to the derivations of geometric formulas. Relations between tables, graphs, and the symbolic representation of functions. Prereq.: MATH 3768 or consent of instructor. 3 s.h.

4870. Mathematics Seminar for Middle School Teachers. Approaches to and practice with problem solving from a broad spectrum of mathematics. Equal emphasis on problems suitable for contests in the seventh or eighth grade (such as the American Mathematics Competition 8 and MathCounts) and at the level of the Praxis II examination for Middle School Mathematics. May be repeated 2 times. Prereq.: MATH 2624 or STAT 2601 and either MATH 4869 or concurrent with MATH 4869. 2 s.h.

4882. Biomathematics Research. Interdisciplinary and individualized study of a topic in biology and mathematics. Student project mentored jointly by faculty in biology and mathematics. May be repeated once. Grading is Traditional/PR. Listed also as BIOL 4882. Prereq.: MATH/BIOL 3701, senior status and permission of the department chairperson. 1-2 s.h.

4893. Mathematics Internship. A program of work and study in the public or private sector centered upon the development of a significant mathematics project, under the direction of University faculty member(s) and designated member(s) of the participating agency. This course can be substituted for MATH 4896 to fulfill the major requirements with approval from the department chairperson. See department for more details. Prereq.: 24 s.h. of mathematics applicable to the mathematics major including either MATH 3721 or 3751 and consent of the department chairperson. May be repeated twice. 2 s.h.

4896. Senior Undergraduate Research Project. Individualized study of a topic in mathematics culminating in a written report and an oral presentation at a national or regional meeting or a local seminar. May be repeated once. Prereq.: 24 s.h. of mathematics applicable to the mathematics major including either MATH 3721 or 3751 and permission of the department chairperson. 2 s.h.

4897H. Thesis. Individualized study of a topic in mathematics culminating in a written report and an oral presentation at a national or regional meeting or a local seminar. Prereq.: 24 s.h. of mathematics applicable to the mathematics major including both MATH 3721 and 3751 and permission of the department chairperson. 2 s.h.

5821. Topics in Abstract Algebra. A course in abstract algebra aimed at developing a broad understanding of the subject. Credit will not be given for both MATH 3721 and 4821. Prereq.: MATH 3715 and 3720. 3 s.h.

5822. Abstract Algebra 2. A continuation of MATH 3721 with special emphasis of fields. Additional topics in pure or applied algebra. Prereq.: MATH 3721 or equivalent. 3 s.h.

5823. Abstract Algebra III. This course introduces advanced topics in field theory. Topics may include principal ideal domains, irreducibility, quotient rings, algebraic extensions, finite fields, splitting fields, and the Galois group. Prereq.: MATH 4822. 3 s.h.

5825. Advanced Linear Algebra. A study of abstract vector spaces, linear transformations, duality, canonical forms, the spectral theorem, and inner product spaces. Prereq.: MATH 3721. 3 s.h.

5828. Number Theory. A study of congruences, Diophantine equations, quadratic residues, special number theory functions, and selected applications. Prereq.: MATH 3721. 3 s.h.

5832. Euclidean Transformations. General properties of functions and transformations; isometries and transformations of the Euclidean plane; the complex plane, its geometry and subfields; transformational, analytical, and vector approaches to Euclidean geometry; connections to other branches of mathematics and applications. Prereq.: MATH 3720 and 4830. 3 s.h.
5835. Introduction to Combinatorics and Graph Theory. The pigeonhole principle; permutations, combinations, the binomial theorem; the inclusion-exclusion principle; recurrence relations; graphs and digraphs, paths and cycles, trees, bipartite graphs and matchings. Prereq.: MATH 3715 and 3720. 3 s.h.

5843. Theory of Probability. The mathematical foundation of probability theory including the study of discrete and continuous distributions. Other topics selected from limit theorems, generating functions, applications. Credit will not be given for MATH 5843 and STAT 5843. Prereq.: STAT 3743 and MATH 2673. 3 s.h.

5845. Operations Research. An introduction to operations research with emphasis on mathematical methods. Topics may include: linear programming, sensitivity analysis, duality theory, transportation problems, assignment problems, transshipment problems, and network problems. Prereq.: MATH 3715 and 3720. 3 s.h.

5851. Topics in Analysis. A course in analysis aimed at developing a broad understanding of the subject. Credit will not be given for both MATH 3751 and 5851. Prereq.: MATH 2673, 3720, and 3715. 3 s.h.

5852. Real Analysis 2. Uniform convergence of sequences of functions and some consequences; functions on n-space: derivatives in vector spaces, mean value theorem, Taylor’s formula, inverse mapping theorem, implicit mapping theorem. Prereq.: MATH 3720 and 3751 or equivalent. 3 s.h.

5855. Ordinary Differential Equations. A second course in differential equations with emphasis on nonlinear problems and qualitative methods or on boundary value problems. Topics are chosen from: proofs of fundamental theorems, phase plane analysis, limit cycles and the Poincare-Bendixon theorem, biological models, stability via Liapunov functions, asymptotic methods, and boundary value problems. Prereq.: MATH 3705 and 3720. 3 s.h.

5860. Topics in Numerical Analysis. A course in numerical analysis aimed at developing a broad understanding of the subject. Credit will not be given for both MATH 3760 and 5860. Prereq.: MATH 3720 and CSIS 2610. 3 s.h.

5861. Numerical Analysis 2. Numerical methods of initial-value problems, eigenvalue problems, iterative methods for linear and nonlinear systems of equations, and methods involving least squares, orthogonal polynomials, and fast Fourier transforms. Prereq.: MATH 2673 and 3760 or equivalent. 3 s.h.

5875. Complex Variables. Complex numbers and their geometric representation, analytic functions of a complex variable, contour integration, Taylor and Laurent series, residues and poles, conformal mapping. Prereq.: MATH 3751 or equivalent. 3 s.h.

5880. Introduction to Topology. An introduction to the basic concepts of general topology: compactness, connectedness, and continuity in topological spaces. Prereq.: MATH 3721 and 3751. 3 s.h.

5884. Mathematical Logic. An introduction to the study of theories in formalized languages and to the theory of models. Prereq.: MATH 3721 or PHIL 3719. 3 s.h.

5895. Selected Topics in Mathematics. The study of a standard mathematical topic in depth or the development of a special area of mathematics. May be repeated twice. Prereq.: 24 s.h. of mathematics applicable to the mathematics major including either MATH 3721 or 3751. 2-3 s.h.

MECHANICAL ENGINEERING—MECH
Department of Mechanical and Industrial Engineering

Lower-Division Courses

1500. Drawing Fundamentals. Visualization of objects for engineering communication. Freehand sketching, orthographic projection, multiview drawing, auxiliary views, sectional views, and dimensioning. Prereq.: High school geometry or equivalent. 3 s.h.

1501. Engineering Communication with CAD. Computer-aided drawing for engineering communication. 2D multiview drawings, 3D modeling including wire frame, solid, and surface models. Final design project using these tools is required. Two hours lecture, three hours laboratory per week. Prereq.: MECH 1500 or equivalent. 3 s.h.

2603. Thermodynamics 1. Thermodynamic properties of gases and vapors, and their relationships in energy transformations. The First and Second Laws of thermodynamics. Introduction to thermodynamic cycles and efficiencies of power and refrigeration systems. Prereq.: MATH 1572. 3 s.h.

2604. Thermodynamics 2. Irreversibility and exergy, mixtures and solutions; psychometry. Introduction to phase and chemical equilibrium. Prereq.: MECH 2603, CHEM 1515. 3 s.h.

2606. Engineering Materials. Properties and uses of engineering materials, manufacturing processes, including heat treatments and forming operations. Introduction to mechanical testing methods. Listed also as MTEN 2606. Prereq.: MATH 1572. 3 s.h.

2641. Dynamics. Kinematics of particles and rigid bodies. Newton’s laws of motion, work-energy, and impulse momentum techniques applied to particle and rigid body motion using a vector approach. Prereq.: CEEN 2601. 3 s.h.

Upper-Division Courses

3708. Dynamic Systems Modeling. Mathematical modeling of linear mechanical, electrical, thermal, fluid, and mixed systems. State space variables. Frequency response. Computer simulation using modern computer tools. Two hours lecture and three hours laboratory per week. Prereq.: ENGR 1560, MECH 2641, ECEN 2632, MATH 3705. 3 s.h.
3720. Fluid Dynamics. Study of stationary fluids, and fluid dynamics of compressible and incompressible flows; dimensional analysis; boundary layers; subsonic and supersonic flows; lift and drag on bodies immersed in incompressible flows. Prereq.: MECH 2604, MATH 3705, MECH 2641. 3 s.h.

3720L. Fluid Dynamics Laboratory. Experiments on incompressible and compressible fluid flows in the subsonic and supersonic regions. Three hours laboratory per week. Prereq.: MECH 3720. 1 s.h.

3723. Manufacturing Processes. Modern continuous, batch, and hybrid manufacturing processes; metrology, tolerances, testing and inspection; semi-finished product manufacturing; macro-processing (forming, casting, powder metallurgy, metal working, composite fabrication); joining; nontraditional manufacturing processes; and surface processing. Prereq. or concurrent with MECH 2606. Must take with MECH 3723L. Listed also as MTEN 3723 and ISEN 3723. 3 s.h.

3723L. Manufacturing Processes Laboratory. Experimental work in metrology, injection and blow molding of plastic parts, use of the 3D-printer to make prototypes or molds, making of sand molds, casting of aluminum parts, tensile testing of castings, inspection of the casting quality using the scanning electron microscope. Operation of numerically controlled machines and simple NC programming. Three hours laboratory. Must take with MECH 3723. Listed also as MTEN 3723L and ISEN 3723L. 2 s.h.

3742. Kinematics of Machines. Position, velocity, and acceleration analysis of mechanisms. Design of line and cam mechanisms to perform desired machine functions. Graphical, analytical, and commercial software applications. Prereq.: MECH 2641, ENGR 1560. 3 s.h.

3751. Stress and Strain Analysis 1. Analysis of internal forces, stresses, strains, and deflections in three dimensions. Dynamic loading including impact and fatigue. Theories of failure and energy methods. Prereq.: CEEN 2602, MECH 2606. Must be taken concurrently with MECH 3751L. 3 s.h.

3751L. Stress and Strain Analysis 1 Laboratory. Transmission and reflection photoelasticity. State and dynamic strain gage applications using computer-aided data acquisition. Three hours laboratory per week. Concurrent with MECH 3751. 1 s.h.

3762. Design of Machine Elements. Application of fundamental engineering principles to the design of various elements found in machines. Elements include connections, shafts, keys, couplings, springs, gears, belts, chains, bearings, clutches, brakes, screws, etc. Prereq.: MECH 2641 and 3751. Must be taken concurrently with MECH 3762L. 3 s.h.

3762L. Design of Machine Elements Laboratory. Practical design problems incorporating analysis, material selection, and sizing of machine components utilizing the computer. Three hours laboratory per week. Must be taken concurrently with MECH 3762. 1 s.h.

4800. Special Topics. Special topics and new developments in mechanical engineering. Subject matter, credit hours, and special prerequisites are announced in advance of each offering. May be repeated to a maximum of 8 s.h. with different content. Prereq.: Junior standing in Mechanical Engineering, or consent of instructor. 3 s.h.

4808, 4809. Mechanical Systems Design 1, 2. Detailed design of a mechanical engineering system utilizing expertise expected of a new graduate in an industry setting. Design methodology, case studies, oral presentations, and written reports prepare the student to function as part of a design team on a capstone project. MECH 4809 must be taken at the next offering after completing 4808. Grading in MECH 4808 is Traditional/PR. Two hours lecture per week for 4808, three hours lecture for 4809. Prereq. for 4808: MECH 3708, 3725, 3742, and 3762. Prereq. for 4809: MECH 4808. 2+3 s.h.

4808L. Mechanical Systems Design Laboratory. Supplemental activities related to MECH 4808, such as discussion and seminars on industry practices and standards, computer software applications, experimental verification, etc. Three hours laboratory per week. Must be taken concurrently with MECH 4808. 1 s.h.

4825L. Thermal Fluid Applications Laboratory. Experiments involving basic measurement techniques, power and refrigeration cycles, heat transfer, heat exchangers, and energy systems. Three hours laboratory per week. Prereq.: MECH 3720, 3725. 1 s.h.

4835. Thermal Fluid Applications. Application of the principles of thermodynamics, fluid dynamics, and heat transfer to design. Design, analysis and computer simulation of thermal fluid systems and components. Prereq.: MECH 3725, MECH 3708. Must be taken concurrently with MECH 4835L. 3 s.h.

4842. Kinetics of Machines. Three dimensional kinematics and dynamics of machines. Dynamic analysis and design; balancing of machines. Prereq.: MECH 3742. 3 s.h.

4872L. Engineering Acoustics Laboratory. Applications of acoustics instrumentation to problems involving room acoustics, sounds in pipes, noise barriers, and machinery noise. Taken concurrently with MECH 5872. Three hours laboratory a week. 1 s.h.
4881. Mechanical Vibrations. Introduction to mechanical vibrations: single and multi-degree of freedom systems, free and forced vibrations, impedance and modal analysis including applications. Prereq.: MECH 3708. 3 s.h.

4881L. Mechanical Vibrations Laboratory. Introduction to vibrations measurements. Experiments with mechanical systems, computer simulation of vibration systems. Experimental determination of component models and parameters. Three hours laboratory per week. Prereq.: MECH 4881. 1 s.h.

4885. Computational Fluid Dynamics. Applied numerical analysis, including solution of linear algebraic equations and ordinary and partial differential equations; modeling of physical processes, including fluid flow and heat and mass transfer; use of general purpose computer codes, including commercial computational fluid dynamics software packages. Prereq.: MECH 3720 and 3725. 3 s.h.

5811. Solar Engineering. Radiational characteristics of solar energy, glass materials and selective coatings. Analysis of flat plate collectors, concentrators, and thermal storage. System simulation and economic analysis for optimization of basic solar systems. Prereq.: PHYS 2611, MECH 3725 or consent of chairperson. 3 s.h.

5825. Heat Transfer 2. Advanced topics in heat transfer. Multi-dimensional conduction, free convection, phase change heat transfer and thermal radiation. Integration of analytical, numerical, and computational methods into design projects. Prereq.: MECH 3708 and 3725. 3 s.h.

5852. Stress and Strain Analysis 2. Continuation of MECH 3751. Introduction to applied elasticity theory including plane stress and strain and stress functions. Plastic and creep behavior of materials. Introduction to instability. Emphasis on design applications. Prereq.: MECH 3751, MECH 3751L, MATH 3705. 3 s.h.

5872. Engineering Acoustics. The nature of sound and its propagation; analysis and control of sound and noise production in mechanical equipment; transmission and absorption of sound in engineering materials, ultrasonics, structural acoustics, base measurements, and equipment. Prereq.: MECH 3708. 3 s.h.

5884. Finite Element Analysis. Fundamental principles of finite element analysis with emphasis on applications to design in areas of stress analysis, vibrations, and heat transfer. Use of commercial software. Prereq.: MECH 3708, 3725, 3751. 3 s.h.

5892. Control of Mechanical Systems. Introduction to theory of feedback and control. Performance and stability of linear systems. Design of feedback control systems. Practical application and introduction to state-space methods. Two hours lecture and three hours laboratory per week. Prereq.: MECH 4881. 3 s.h.

MECHANICAL ENGINEERING TECHNOLOGY—MET

Engineering Technology

Lower-Division Courses

1515. Mechanics 1. Study of forces as vector quantities; resultants of force systems; principles of mechanical equilibrium; application of principles to problems, devices and structures commonly encountered in industry. Two hours lecture, three hours lab per week. Prereq.: ENTC 1505, Prereq. or Concurrent: MATH 1513. 3 s.h.

2616. Mechanics 2. Continuation of MET 1515 with further application of statics, introduction to dynamics of solids, study of various types of motion, Newton's second law, work and energy, impulse and momentum. Two hours lecture, three hours lab per week. Prereq.: MET 1515, MATH 1513. 3 s.h.

2630. Manufacturing Techniques. The study of materials and processes used in manufacturing, including casting, heat treatment, hot and cold working, plastics processing and machining. 2 s.h.

2630L. Manufacturing Techniques Laboratory. Practice and procedures of machine tool operation including lathes, drill presses, shapers, and milling machines. Two hours lab per week. Concurrent with MET 2630. 1 s.h.

Upper-Division Courses

3700. Physical Measurements. Use and selection of instruments for measuring pressure, temperature, strain, force and flow, including the interpretation of data and the principles of Statistical Quality Control. Two hours lecture, two hours lab per week. Prereq.: EET 3725. 3 s.h.

3705. Thermodynamics. Properties of ideal and real gases, first and second laws of thermodynamics, application to thermodynamic cycles involving power plants and cyclic machinery. Two hours lecture and three hours lab per week. Prereq.: MATH 1570, MET 1515 and MET 2616 or PHYS 1501. 3 s.h.

3706. Machine Design 1. Principles of stresses and deflections, combined stresses, fatigue, and theories of failure. Application of these principles to design of machine components. Two hours lecture, three hours lab per week. Prereq.: DDT 1505 or equivalent, CCET 2604, C or better in MET 1515. 3 s.h.
3707. **Machine Design 2.** Continuation of MET 3706, progressing to the design of machine elements such as gears, belts, clutches, chains, bearings, welded and bolted joints. Two hours lecture, three hours lab per week. Prereq.: C or better in MET 3706. 3 s.h.

3710. **Tool Design.** Design and selection of cutting tools, fixtures, bending and forming dies, inspection and gauging instruments, and material feed mechanisms. Two hours lecture, two hours lab per week. Prereq.: MET 3714, C or better in MET 3705. 3 s.h.

3711. **Heat and Power Cycles.** A continuation of MET 2605, including the study of heat transfer, the Rankine cycle, the Otto cycle, the Diesel cycle, and the performance of pumps and heat exchangers. Two hours lecture, two hours lab per week. Prereq.: MET 3714, C or better in MET 3705. 3 s.h.

3714. **Fluid Mechanics.** Principles of fluid statics and fluid dynamics and their application to incompressible flow in pipes and channels; Bernoulli’s equation, laminar and turbulent flow; energy and momentum in fluid flow. Three hours lecture and 1-1½ lab. Prereq.: MET 3714, C or better in MET 3705. 3 s.h.

3714L. **Fluid Mechanics Laboratory.** Tests and applications of concepts covered in MET 3714. Three hours lab per week. Concurrent with MET 3714. 1 s.h.

3715. **Fluid Power Systems.** Principles of hydraulic and pneumatic systems, including device selection and application. Typical industrial systems are constructed and tested. Two hours lecture, two hours lab per week. Prereq.: MET 2616. 3 s.h.

3720. **Mechanisms.** Graphical and analytical solution of problems involving displacement, velocity, and acceleration in machine mechanisms. Design of linkages to provide required motions of machine members. Two hours lecture, two hours lab per week. Prereq.: MET 2616, MATH 1570. 3 s.h.

3730. **Energy and Financial Modeling.** The analysis and evaluation of financial factors that affect alternative energy systems explored in several common systems, such as solar, fuel cells, biodiesel, and wind, along with existing fuels such as coal, oil, natural gas, and nuclear. Prereq.: MET 3705. 4 s.h.

3731. **Grant Proposal.** The field of Alternative Energy Technologies requires significant writing skills to prepare the many parts of a proposal. Students will learn about funding sources for grants, prepare all portions of a grant proposal including Statement of Need, Work Plans, Budgets, Outcomes and Periodic Reports. Prereq.: ENGL 1551 and MET 3730. 4 s.h.

3735. **Hydrogen Production and Storage.** The methods of hydrogen production are discussed, including stem reforming, coal gasification, fermentation, and electrolysis. Storage systems are presented, along with national codes for the storage equipment, and best practices. Three hours lecture and 1-1½ lab. Prereq. or concurrent with MET 3705 and Prereq. of CHEM 1505/L or CHEM 1515/L. 4 s.h.

3736. **Design of Solar Systems I.** Use of the sun as an energy source is explored in forms of electricity or heat. Topics include regions that are best suited for solar, solar energy capture methods, energy conversion to electricity, steam or hot water. Actual systems are evaluated, including electrical and mechanical design, economic calculations, and related codes. Three hours lecture and 1-1½ lab. Prereq. or concurrent with EET 1502/L and Prereq. of CHEM 1505/L or CHEM 1515/L. 4 s.h.

3737. **Design of Solar Systems II.** This course builds upon MET 3736 Design of Solar Systems I and adds more detailed analysis to the capture and use of solar energy. The radiation spectrum is defined and integration methods presented. Further discussion of solar use in heat pumps and absorption systems is explored. Three hours lecture and 1-1½ computational lab. Prereq.: MET 3705. 4 s.h.

3739. **Geothermal Processes.** This course provides students with basic knowledge on geothermal systems, the most-favorable areas for geothermal, principles of heat pumps and geothermal steam systems, common design principles, followed by economics, code requirements and LEED contributions. Three hours lecture and 1-1½ computational lab. Prereq.: MET 3705. 4 s.h.

3740. **Design of Wind Systems I.** Evaluation of wind energy as a low-impact alternative energy source. Topics include selection of an appropriate wind site, types of turbines, and capture efficiency of wind devices. The electrical and mechanical systems are reviewed in detail, along with economic calculations and discussion of related codes. Three hours lecture and 1-1½ computational lab. Prereq. or concurrent with EET 1502/L. 4 s.h.

3742. **Biodiesel Processes.** Several methods of biodiesel production are surveyed, such as algae, palm, and soy. The chemical process of each method is explored and analyzed. Existing production systems and campus research projects are used in class demonstrations. Three hours lecture and 1-1½ computational lab. Prereq. CHEM 1505/L or CHEM 1515/L, BIOL 2601/L, and MET 3705. 4 s.h.

3743. **Fuel Cell Systems.** Several methods of fuel cells are explored including Proton Exchange Membrane Fuel Cells (PEMFC), Solid Polymer Electrolyte Fuel Cells (SPEFC) and Solid Oxide Fuel Cells (SOFC). The principles of operation existing barriers for each system will be presented, along with the current reach and economical feasibility. Three hours lecture and 1-1½ computational lab. Prereq.: MET 3705 and CHEM 1515/L or CHEM 1505/L. 4 s.h.

4810. **Manufacturing Systems Analysis.** Study of manufacturing systems including manufacturing process design, analysis, selection and sequencing; value analysis, machine tool cost and functions. Computer simulation of production systems. Prereq.: MET 2630 and 3700. 3 s.h.
4812. Numerical Control. A study of the programming of numerically-controlled machine tools. Students program NC machines using manual and computer-assisted techniques. Two hours lecture, two hours lab per week. Prereq.: DDT 1505, MET 2630 or consent of instructor. 3 s.h.

4820. Machine Systems. Analysis and design of complex machine systems incorporating hydraulic and pneumatic subsystems and electrical controls, including PLCs. Comprehensive design projects. Two hours lecture, two hours lab per week. Prereq.: MET 3715, EET 3725, C or better in MET 3707. 3 s.h.

4850. Air Conditioning Principles and Practice. The practical techniques used in the design of heating, ventilating, and air conditioning systems, including load calculations, unit selection, and duct system layout. The laboratory work includes the use of design charts and manufacturer’s catalogs in a project. Two hours lecture, two hours lab per week. Prereq.: MET 3711. 3 s.h.

4860. Robotics Technology. An application-oriented course on the technology and use of industrial robots, including classification, tooling, sensors, workcell design, safety, and programming. Prereq.: MET 4820, prereq. or concurrent with MET 3720 and concurrent with MET 4860L. 2 s.h.

4860L. Robotics Technology Laboratory. Practice in the programming and application of industrial robots and associated equipment. Construction of simulated robotic workcells using actual industrial robots, programmable controllers, sensors, and grippers. Two hours lab per week. Concurrent with MET 4860. 1 s.h.

4870. Applied Finite Element Method. Principles of the finite element method and its application to the analysis of stress, strain, and heat transfer. Computer-aided solutions to two- and three-dimensional problems in structural analysis, mechanical design and heat transfer. Two hours lecture, two hours lab per week. Prereq.: C or better in either MET 3707 or CCET 3709. 3 s.h.

4890. Special Topics in Mechanical Engineering Technology. New developments in Mechanical Engineering Technology. Subject matter, special prerequisites, and credit hours to be announced in advance of each offering. May be repeated with different subject matter to a maximum of 8 s.h. Prereq.: Senior standing in MET or consent of the instructor. 1-4 s.h.

4895. Capstone Design Project. The course provides an overview of the requirements and design procedures for alternative energy projects. Systems will be designed using all the tools presented in previous course work. Actual systems that may include wind, solar, biodiesel, or geothermal components will be built, tested, and evaluated. Includes a major interdisciplinary group project. Three hours lecture and 3 hours lab. Prereq.: senior standing in MET (AET option) and permission of the instructor. 4 s.h.

MEDICAL ASSISTING TECHNOLOGY — MATC

Department of Health Professions

1501. Medical Terminology. Structure of medical words, pronunciation, and meaning of medical terms. 3 s.h.

1502. Medical Law and Ethics. Types of medical practices. Legal relationship of physician to patient, i.e., professional liability, implied and informed consent, malpractice, invasion of privacy. Emphasis on professional attitude and behavior. 3 s.h.

2600. Medical Insurance Forms. A study of private group and government insurance programs; Medicare, Medicaid, Worker’s Compensation and Disability Insurance and the completion of required forms. Prereq.: MATC 1501. 2 s.h.

2602. Diagnostic and Procedural Coding. Emphasis on identifying and use of coding systems (ID-9-CM, CPT) directly related to medical practices and current government regulations. Prereq.: MATC 1501. 2 s.h.

2604. Intermediate Diagnostic and Procedure Coding. Higher level of ICD-9-CM and CPT/HCPCS coding, knowledge of Prospective Payment System (PPG) to confirm DRG assignment and professional fee billing. Two hours lecture. Prereq.: MATC 1501 and 2602. 2 s.h.

2605. Introduction to Pharmacology. Identification and interactions of drugs used in patient care including the pharmacological action and effects on the patient. Various modes of administration and patient education regarding the effects of common drugs. Prereq.: MATC 1501, BIOL 1551. 3 s.h.

2606. Automated Coding Systems. Integration of computer system packages that incorporate the text and logic of coding systems in an automated form. Two hours lecture and three hour lab. Prereq.: MATC 1501 and 2602. 3 s.h.

2610. Introduction to Disease Processes. Introduction to the disease process including diagnostic symptoms and treatment aspects. Emphasis on the physical, psychological, and environmental conditions which influence the individual’s well being. Prereq.: MATC 1501. 3 s.h.

2611L. Clinical Procedures Lab. Techniques of patient interviewing and history taking, performance of patient assessment, application of principles of body mechanics, and instructions for examinations and diagnostic procedures. Three hours lab. Prereq.: MATC 1501 and 1502. 1 s.h.

2612. Medical Records Management. Includes medical record administration in order to create, maintain, protect, and preserve records. Emphasis on the development and maintenance of appropriate filing systems and the ethical and legal requirements and restrictions of medical records. Prereq.: MATC 1501 and 1502. 2 s.h.
2614. Medical Office Procedures. Fundamentals in patient reception, appointment scheduling, communication techniques, office management systems and preparation of an office policy manual. Three hours lecture, six hours assigned practicum per week. Prereq.: MATC 1501 and 1502. 3 s.h.

2616. Coding Specialist Internship. The student will be assigned to a hospital, physician’s office, clinic and/or health care setting to practice coding and interface with the billing methodologies. Fourteen hours at the assigned clinical site and one-hour seminar class on campus per week. Prereq.: MATC 2604.

2620. Advanced Clinical Procedures. Orientation to minor surgical and specialized examination techniques, physical examinations, preparation and administration of medication, performing electrocardiograms, application of physical therapy, and x-ray techniques including maintaining medical supplies and inventory. Prereq.: MATC 2610, 2611L. 3 s.h.

2620L. Advanced Clinical Procedures Lab. Practice in diagnostic laboratory procedures performed in the physician’s office. Principles and techniques of laboratory procedures. Prereq.: MATC 2610, 2611L. 1 s.h.

2680. Medical Laboratory Procedures. An introduction to diagnostic laboratory procedures performed in the physician’s office. Principles and techniques of laboratory procedures. Prereq.: MATC 2610, 2611L.

2680L. Medical Laboratory Procedures Lab. Study of textiles, including fibers, yarns, construction, finishes, and textile legislation. Two hours lecture, four hours lab per week. Prereq.: MATC 2620, 2614, 2680. 3 s.h.

2692. Medical Assisting Externship. A practical experience in the offices of qualified physicians, accredited hospitals, and/or clinics. This is a non-paid experience. 20 hours per week for a total of 300 hours per semester at the site. One-hour weekly seminar. Prereq.: MATC 2620, 2614, 2680. 3 s.h.

MERCHANDISING: FASHION & INTERIORS—MRCH

Department of Human Ecology

The following courses are approved as Intensive Courses: 3730 Social-Psychology of Clothing and Appearance and 4879 History of Furnishings and Interiors are Writing Intensive. 3660 Visual Merchandising is Critical Thinking Intensive.

1506. Clothing and Image Development. Purpose and meaning of dress and adornment as a means of communication and social identity. 3 s.h.

1508. Apparel Production. Methods, materials and the fundamental techniques and skills required in the production of apparel. Two hours lecture, four hours lab per week. 3 s.h.

1510. Apparel Evaluation. Analysis and evaluation of aspects of garment construction and styling relating to making merchandising decisions. 3 s.h.

2625. The World of Fashion. An introduction to the interrelated levels of the fashion industry; international designers and schools of thought in fashion. 3 s.h.

2661. Fundamentals of Interior Design. Studio course in theory, elements and principles of interior design. An introduction to planning, materials, furnishings, work methods, and problem solving to meet human needs. Introduces architectural drawing including plans, elevations, details, and basic drafting skills within the context of interior design. 3 s.h.

2662. Computer Applications for Housing and Interiors. Computer-aided drafting and design using the basic commands of AutoCAD to produce architectural and interior drawings, including dimensional plans, evaluations, and details. Two hours lecture and 3 hours lab per week. Prereq.: MRCH 2661 or permission of the instructor. 3 s.h.

2663. Materials and Methods. Principles and functions of materials and methods used in the construction of furnishings and housing materials. Raw materials, selection, use, care, and selling points of paper, leather, fur, woods, metals, glass, ceramics, and plastics. Examines the furnishings industry with emphasis on forecasting, planning, selecting, negotiating, pricing, and recording merchandise. Prereq.: MRCH 2662. 3 s.h.

3705/L. Fashion Textiles. Study of textiles, including their characteristics, functions, purposes, and care. Fibers, yarns, construction, finishes, and textile legislation. Two hours lecture, two hours lab. Prereq.: MRCH 1506, and CHEM 1500/1500L or CHEM 1505/1505L, or CHEM 1515/1515L. 3 s.h.

3713. Merchandise Buying. Strategies and philosophies of merchandise selection. Topics examined include the organization of the buying function, determining what to buy based on customer needs, visiting the market, vendor analysis and selection, and the buyer’s responsibilities in other areas of the firm. The product dimension and global sourcing are explored in depth. Prereq.: MATH 2623 or 1570; CSIS 1514, MRCH 2625, MKTG 3703. 3 s.h.

3730. Social Psychology of Clothing and Appearance. Interdisciplinary study of clothing and appearance within contexts of cultural, social-psychological, physical, and aesthetic relationships. Emphasize origins and motives of dress and adornment, relationship of clothing and appearance to self, and appearance as a factor in interpersonal and collective behavior. Explicitly connects the fields of fashion and social psychology. Prereq.: ENGL. 1551 and CMST 1545, and either MRCH 1506, PSYC 1560, or SOC 1500. 3 s.h.
3740/L. Computer Applications for Textiles & Apparel. Exploration of computer and software applications used in the fashion industry. The use of computer aided design (CAD) to produce technical drawings, sketches, color stories and textile prints for design and merchandising presentations. Two hours lecture, three hours lab. Prereq.: MRCH 1506 and sophomore standing. 3 s.h.

3742. Applied Textile Design. Use of color application and needlework processes in production of clothing and home furnishings. Exploration into the process of fabric design as a part of textile end product development. Students will design their own fabrics and textile products using dyeing, printing and needlework methods. Two hours lecture, three hours lab. Prereq.: MRCH 3705; or junior standing and permission of the instructor. 3 s.h.

3760. Visual Merchandising. Evaluation and creation of visual displays for the purpose of selling fashion, home furnishings, and other merchandise. Independent and cooperative work in analyzing store displays in the field, making recommendations for fixtures and displays, creating class projects, and working on visual displays and plans. Two hours lecture, two hours lab. Prereq.: BUS 1500 or HMEC 1550; or MRCH 1506, 2625, or ART 1501. 3 s.h.

3764. Family Housing and Technology. Planning the home environment to meet family needs and resources; consumer decisions in selection of residences, floor plans, and household technology. Prereq.: MRCH 2661 or 2663, or SOC 1500. 3 s.h.

3795. Fashion Industry Tour. Concentrated on-site study of the fashion industry including tours of laboratories, designer workrooms, showrooms, buying offices and related organizations. Pre-tour orientations and written report of experiences required. Prereq.: MRCH 2625 and 2660. 1 s.h.

4877. History of Fashion. Chronological study of fashion from antiquity through the twentieth century. The focus will be on style identification as well as the influence of social, political, and economic conditions as well as cultural and technological changes upon fashion and appearance. Prereq.: Junior standing and any one of the following: MRCH 1506 or 3730, or HIST 1511, 1512, 2605, or 2606 or ART 1541 or 1542. 3 s.h.

4879. History of Furnishings and Interiors. A chronological study of interiors and furnishings from antiquity to the twentieth century will be explored. The focus will be on style identification as well as the influence of social, political, and economic conditions upon furnishings and development. Prereq.: ENGL 1551, CMST 1545, and MRCH 2663 or 3764; or HIST 1511, 1512, 2605, or 2606; or ART 1541 or 1542. 3 s.h.

4880. Merchandising Management. Principles of merchandising applied to planning, development, and presentation of product lines in both the produc-

tion and marketing of apparel, soft line, and other consumer goods. Relates the role of merchandising to other business fundamentals. Prereq.: HMEC 1550, MRCH 3713, MGT 3725. 3 s.h.

MILITARY SCIENCE—MSCI

Department of Military Science

1510. Introduction to ROTC. Team and individual study and activities in basic drill, physical fitness, rapelling, leadership recreation course, first aid, making presentations, and basic marksmanship. Fundamental concepts of leadership in a profession in both classroom and outside laboratory environments. One hour lecture and Leadership Laboratory (MSCI 1530L) per week. 1 s.h.

1520. Introduction to Leadership. Learn/apply principles of effective leading. Reinforce self confidence through participation in physically and mentally challenging exercises. Develop communication skills to improve individual performance and group interaction. Relate organizational ethical values to the effectiveness of a leader. One hour lecture and Leadership Laboratory (MSCI 1530L) per week. 1 s.h.

1530L or 2630L. Basic Course Leadership Laboratories. Practical exercises with different roles for students at different levels in the program. Build self confidence, and team-building leadership skills that can be applied throughout life. Open only to (and required of) students in the respective MSCI courses. For MSCI 1510 and 1520 it is MSCI 1530L. For MSCI 2610 and 2620 it is 2630L. 0 s.h.

2610. Self Team Development. Apply ethics-based leadership skills that develop individual abilities and contribute to the building of effective teams. Develop skills in oral presentations, writing concisely, planning of events, coordination of group efforts, advanced first aid, land navigation, and basic military tactics. Fundamentals of ROTC’s Leadership Development Program. Two hours lecture and leadership lab (MSCI 2630L) per week. 2 s.h.

2620. Individual/Team Military Tactics. Introduction to individual and team aspects of military tactics in small unit operations. Includes use of radio communications, safety assessments, movement techniques, planning for team safety/security and methods of pre-execution checks. Practical exercises with upper-division ROTC students. Techniques for training others. Two hours lecture and leadership lab (MSCI 2630L) per week. 2 s.h.

2640. Basic ROTC Summer Camp Challenge. A five-week summer camp conducted at an army post. The student receives pay. Travel, lodging, and most meal costs are defrayed by the Army. The environment is rigorous, and similar to Army Basic Training. No military obligation is incurred. 3 s.h.
2650. American Military Operations. American Military Operations teaches the development and implementation of United States Army doctrine, philosophy, strategy, tactics, logistics, leadership, and battle and campaign analysis in an historical context. Prereq.: none. 2 s.h.

3710. Leading Small Organizations 1. Practical opportunities to lead small groups and lead again in situations of increasing complexity. Uses small unit tactics and opportunities to plan and conduct training for lower-division students both to develop such skills and as vehicles for practicing leading. Three hours lecture and leadership lab (MSCI 3730L) per week. Prereq.: Permission of department chairperson. 3 s.h.

3720. Leading Small Organizations 2. Continues methodology of MSCI 3710. Analyze tasks; prepare written/oral guidance for team to accomplish tasks. Delegate tasks and supervise. Plan for the unexpected in organizations under stress. Apply lessons from leadership studies. Examine importance of ethical decision making in setting a positive climate that enhances team performance. Three hours lecture and leadership lab (MSCI 3730L) per week. Prereq.: Permission of department chairperson. 3 s.h.

3730L or 4830L. Advanced Course Leadership Laboratories. Practical exercises with different roles for students at different levels in the program. Involves leadership responsibilities for the planning, coordination, execution, and evaluation of training and activities. Open only to students in the respective MSCI courses. For MSCI 3710 and 3720 it is 3730L; for MSCI 4810 and 4820 it is 4830L. 0 s.h.

3740. ROTC Advanced Camp. A five-week camp conducted at an Army post. Student receives pay. Travel, lodging and meal costs are defrayed by the Army. The Advanced Camp environment is structured and demanding, stressing leadership at small unit levels under varying conditions. Individual leadership and basic skills performance are evaluated. Three hours lecture and leadership lab (MSCI 3730L) per week. Prereq.: Permission of department chairperson. 3 s.h.

3750. Individual Study. The individual study of a particular military problem or review of the literature relating to a specific military problem. May be repeated with a different problem for a maximum of 3 s.h. Prereq.: Six s.h. of Military Science and consent of the instructor. 1-3 s.h.

4810. Leadership Challenges and Goal-Setting. Plan, conduct and evaluate activities of the ROTC cadet organization. Articulate goals, put plans into action. Assess organizational cohesion and develop strategies to improve it. Develop confidence in skills to lead people and manage resources. Learn/apply various Army policies and programs. Two hours lecture and leadership lab (MSCI 4830L) per week. Prereq.: Permission of department chairperson. 3 s.h.

4820. Transition to Lieutenant. Continues the methodology from MSCI 4810. Identify and resolve ethical dilemmas. Refine counseling and motivation techniques. Examine aspects of tradition and law as related to leading as an officer in the Army. Prepare for a future as a successful Army lieutenant. Two hours lecture and leadership lab (MSCI 4830L) per week. Prereq.: Permission of department chairperson. 3 s.h.

MUSIC, APPLIED CLASSES—MUAC

Dana School of Music

A series of instrumental and vocal classes at the beginning level to explore technics and approaches appropriate to school music instruction. Music education majors select varying numbers of these courses in addition to pedagogy as described in the curriculum outline section. A minimum level of performance is required. Each class meets two hours a week.

1556. Singer’s Diction: English/Italian.

1557. Singer’s Diction: German.

1558. Singer’s Diction: French.

Application of the principles of Lyric diction; utilization of the International Phonetic Alphabet in developing and reading phonetics transcriptions of English, Italian, German, and French song texts.

1 s.h. each.

3732. Brass Methods. Designed to prepare students for instrumental music teaching relative to brass instruments. Emphasis on tone production, the harmonic series, technique development, ranges and transposition, pedagogy, troubleshooting, and arranging techniques for brass instruments. Prereq.: FOUN 1501 and MUTC 1532. Meets 2 hours per week. 1 s.h.

3733. Woodwind Methods. Designed to prepare students for instrumental music teaching relative to woodwind instruments (flute, clarinet, oboe, bassoon, saxophone). Components include concepts of tone production, embouchure, articulation, and technique. Study material stresses common features as well as differences. Prereq.: FOUN 1501. 1 s.h.

3734. String Methods. Designed to prepare students for instrumental music teaching relative to string instruments (violin, viola, cello, string bass). Com-
ponents include concepts of tone production, bowing, fingering as well as appropriate evaluation of pedagogy. Study material stresses common features as well as differences. Prereq.: FOUN 1501. 1 s.h.

3755. Guitar Class. Study of the guitar at the beginning level to explore techniques and approaches appropriate to school music instruction. A minimum level of performance is required. Prereq.: FOUN 1501. 1 s.h.

3759. Voice Class. A study of voice at the beginning level to explore techniques and approaches appropriate to school music instruction. A minimum level of performance is required. May be repeated. Prereq.: FOUN 1501. 1 s.h.

3763. Percussion Methods. Study of snare drum, marching percussion, timpani, jazz drum set, keyboard, Latin percussion, and orchestral accessories. Topics include instrument selection and maintenance techniques as well as pedagogical approaches. Designed to prepare students for instrumental music teaching careers. Prereq.: FOUN 1501. 1 s.h.

Keyboard Musicianship Classes

1581, 1582. Keyboard Musicianship 1. Elements of keyboard techniques, with emphasis on sight-reading, interpretation of simple music, transposition, and analysis. All major and minor scales and related chords, hands together. Required of all non-keyboard majors. Must be taken in sequence. 1+1 s.h.

2681, 2682. Keyboard Musicianship 2. A continuation and intensification of studies begun in Music 1581 and 1582, with emphasis on accompanying, modulation, repertoire, and stylistic analysis. Must be taken in sequence. Prereq.: MUAC 1582 or equivalent. 1+1 s.h.

2691, 2692. Accompanying 1. A study of techniques useful in playing the piano for vocalists, with supervised studio and recital experience. May be repeated for credit. 1+1 s.h.

2693, 2694. Accompanying 2. A study of techniques useful in playing the piano for instrumentalists, with supervised studio and recital experience. May be repeated for credit. 1+1 s.h.

Jazz

1525. Jazz Fundamentals. A study of harmony and ear training in the jazz idiom: intervals, chord construction, terminology and symbols, modal scales, pentatonic and blues scales, symmetrically altered scales, thirteenth chords and harmonic substitutions and functions, and ear training and diction. Meets two hours per week. Prereq.: MUTC 1520 with a grade of B or better or placement in MUTC 1531. 2 s.h.

2667, 2668. Jazz Improvisation 1, 2. Jazz techniques with emphasis on analysis of harmonic progressions, form, style, and performance requirements of the jazz idiom. Prereq.: MUAC 1525 or a grade of B or better on the Jazz Placement Test. Classes must be taken in sequence. 3+3 s.h.

3781, 3782. Jazz Keyboard 1, 2. (For keyboard and non-keyboard majors). Class instruction and keyboard experience in jazz chordal voicing techniques and jazz accompanying techniques. Prereq.: MUAC 1525, a grade of B or better on the Jazz Placement Test, or permission of instructor. Classes must be taken in sequence. Meets two days per week. 1+1 s.h.

4867, 4868. Jazz Improvisation 3, 4. Advanced jazz techniques with emphasis on analysis of harmonic progressions, form, style, and performance requirements of the jazz idiom. Prereq: MUAC 2668. Courses must be taken in sequence. 3+3 s.h.

Applied Studio Instruction

An audition is required for placement in applied studio instruction. Applied instruction is offered in the following areas:

Keyboard

<table>
<thead>
<tr>
<th>Harpsichord</th>
<th>HARP</th>
</tr>
</thead>
<tbody>
<tr>
<td>Organ</td>
<td>ORGN</td>
</tr>
<tr>
<td>Piano</td>
<td>PIAN</td>
</tr>
</tbody>
</table>

Voice

| VOIC |

String Instruments

| Cello       | CELL |
| Guitar      | GUIT |
| String Bass | SBSS |
| Viola       | VIOL |
| Violin      | VION |

Woodwind Instruments

| Bassoon      | BASS |
| Clarinet     | CLAR |
| Flute        | FLUT |
| Oboe         | OBOE |
| Saxophone    | SAX  |

Brass Instruments

| Baritone Horn/ Euphonium | BHRN |
| French Horn             | FHRN |
| Trombone                | TROM |
| Trumpet                 | TRUM |
| Tuba                    | TUBA |

Percussion

| PERC |

Minor level applied studio instruction is intended for approved music minors who have not met the requirements for major level study and for students who need minor level applied instruction for their degree program. All minor level studio instruction must be approved by both the appropriate faculty...
member and the Director of the Dana School of Music. Minor level applied studio instruction carries one (1) semester hour of credit and is offered at the following levels.

1500A. Freshman level
1500B. Freshman level
2600A. Sophomore level
2600B. Sophomore level
3700A. Junior level
3700B. Junior level
5800A. Senior/graduate level
5800B. Senior/graduate level

Major level applied studio instruction is intended for a student majoring in one of the programs offered by the Dana School of Music. A student may progress to the next level in applied studio instruction by successfully completing an applied jury. Applied juries take place each semester during finals weeks. Specific requirements for each jury are available through the applied teacher in each performance area and on a syllabus for each applied course. Major level applied studio instruction courses are:

Music Theater
1501 T. Freshman level 2 s.h.
1502 T. Freshman level 2 s.h.
2601 T. Sophomore level 2 s.h.
2602 T. Sophomore level 2 s.h.

Music Education & Music Recording
1501. Freshman level 2 s.h.
1502. Freshman level 2 s.h.
2601. Sophomore level 2 s.h.
2602. Sophomore level 2 s.h.
3701. Junior level 2 s.h.
3702. Junior level 2 s.h.
4801.** Senior level 2 s.h.
4802.** Senior level 2 s.h.

Music Composition
1501. Freshman level 2 s.h.
1502. Freshman level 2 s.h.
2601. Sophomore level 2 s.h.
2602. Sophomore level 2 s.h.
3703. Junior level 3 s.h.
3704.* Junior level 3 s.h.
4803. Senior level 3 s.h.
4804.** Senior level 3 s.h.

Jazz Performance
1501. Freshman level 2 s.h.
1502. Freshman level 2 s.h.
2603. Sophomore level 3 s.h.
2604. Sophomore level 3 s.h.

Performance
1501. Freshman level 2 s.h.
1502. Freshman level 2 s.h.
2605. Sophomore level 4 s.h.
2606. Sophomore level 4 s.h.
3705. Junior level 4 s.h.
3706.* Junior level 4 s.h.
4805. Senior level 4 s.h.
4806.** Senior level 4 s.h.

*M: Junior recital
**S: Senior recital

MUSIC, CONDUCTING—MU CO
Dana School of Music

3715. Choral and Instrumental Conducting. Designed to develop skills, hone competencies, and share conceptual knowledge relative to the art and pedagogy of conducting. Students develop skills in conducting, score analysis and preparation, rehearsal techniques, and error detection, and create artistic interpretation with peer-lab ensemble. Prereq.: MUTC 2632. 3 s.h.

MUSIC EDUCATION—MU ED
Dana School of Music

The following has been approved as a General Education course in the domain of Artistic and Literary Perspectives: 2621, Music Literature and Appreciation.

2611. Computer Applications in Music Education. An overview of computer applications as they relate to the music educator. Specific hardware and software in music education will be discussed. Project topics: administrative software, music notation, MIDI, arranging and improvisation with computers, and designing multimedia. Meets two hours per week. 2 s.h.

2621. Music Literature and Appreciation. The development of listening techniques applicable to Western and non-Western music through the comparison and contrast of the music of significant historical periods. For non-music majors. 3 s.h.

3721. Music Education for Elementary Teachers. The development of an understanding of the theoretical aspects of music through discussion and demonstration of repertoire and techniques for teaching music in the elementary school. Prereq.: Upper-division status in the College of Education. 3 s.h.
3722. Music in Early Childhood. Fundamental skills, repertoire, materials, and techniques for teaching music to pre-school and kindergarten children. For non-music majors. 3 s.h.

5814. Selected Topics in Music Education. Course title will be listed each semester in the Schedule of Classes. May be repeated for credit with different topics. Prereq.: MUED 4823 or 4825. 2 s.h.

Topics may include:

Vocal Ensembles in the High School. A study of methods and materials for small vocal groups at the high school level including madrigals, swing choirs, and other small chamber ensembles.

Orff and Kodaly for the Classroom. A study of the philosophies, materials, and methods of Carl Orff and Zoltan Kodaly with applications to the elementary school classroom.

Music and the Related Arts. Techniques and materials for teaching humanities or related-arts classes at the elementary or secondary level. Relationships among music, art, architecture, literature, drama, and film.

Marching Band Arranging. A study of the instrumentation, suitable instrumental ranges, and scoring procedures for attaining the sound power for outdoor performance.

Instrument Repair. Practical experience in the basic skills needed by the prospective instrumental teacher in repairing string, brass, woodwind, and percussion instruments.

Jazz Ensemble in the Secondary School. Organizing, scheduling, and rehearsing the jazz ensemble, and a study of suitable jazz materials for the secondary school with emphasis on interpretation, style characteristics, and improvisation procedures.

4823. Music Teaching in Early Childhood (Pre-K-4). A study of the role of music in the life of the child. An examination of principles, repertoire, and techniques of teaching music to children (ages pre-k through third grade). Prereq.: Upper-division status in the College of Education. 3 s.h.

4824. Music Teaching in the Middle School. Music materials and methods of instruction in middle schools with emphasis on understanding the physiological and psychological development of early adolescents in the context of the general music class. Course content includes managing the learning environment, motivating students, developing music curricula, planning musical experiences and assessing musical behaviors. Prereq.: Upper-division status in the College of Education. 2 s.h.

4825. Music Teaching in the High School. Methods of organizing, administering, and conducting music in the high schools; instruction methods, library organization, scheduling, curriculum, philosophy, technology, classroom management, festivals and competitive events. Includes an average of two hours of field experience or laboratory work per week. Prereq.: Upper-division status in the College of Education and MUED 3715. 2 s.h.

4826. Instrumental Music Education. Materials, methods and literature for teaching and administering elementary, middle school, and high school instrumental music programs. Emphasis on curriculum design, pedagogy, orchestration/arranging techniques, and learning theories related to jazz, concert, marching band, and orchestra. Prereq.: Upper-division status in the College of Education and completion or concurrent enrollment in MUED 4823 or MUED 4824 or MUED 4825. 2 s.h.

4827. Choral Music Education. Materials, methods and literature for school vocal ensembles. Additional emphasis is on vocal pedagogy, show choir curriculum, and show design, including arranging/adapting literature for show choir ensemble. Prereq.: Upper-division status in the College of Education and completion or concurrent enrollment in MUED 4823 or MUED 4824 or MUED 4825. 2 s.h.

5841. Music Workshop. For students and teachers in service; topics may vary from year to year. Specific topics are announced each time the workshop is offered. May be repeated with different topic. 1-3 s.h.

5858. Piano Pedagogy. Methods and materials involved in teaching piano in private and classroom settings. Fundamentals of technique as well as repertoire. Supervised practice teaching. Prereq.: Two years of applied keyboard. 3 s.h.

5880. Vocal Pedagogy. A comparative study of physiological and psychological approaches to voice instruction and their application to private and class instruction. Prereq.: Two years of applied voice classes. 1 s.h.

MUSIC ENSEMBLES—MUEN Dana School of Music

Major Ensembles

0002. Dana Chorale 0-1 s.h.
0003. Dana Madrigal 0-1 s.h.
0004. University Chorus* 0-1 s.h.
0005. Concert Band 0-1 s.h.
0006. Marching Band (fall only)* 0-1 s.h.
0007. Wind Ensemble 0-1 s.h.
0008. Symphony Orchestra 0-1 s.h.
0023. Jazz Ensemble 0-1 s.h.
0040. Symphonic Band (spring only) 0-1 s.h.

Chamber Ensembles

0009. Percussion Ensemble 0-1 s.h.
0010. String Ensemble 0-1 s.h.
0012. Opera Workshop 0-3 s.h.
0013. Studio Ensemble 0-1 s.h.
0014. Women’s Chorus 0-1 s.h.
MUSIC HISTORY AND LITERATURE—MUHL Dana School of Music

The following have been approved as General Education courses in the domain of Artistic and Literary perspectives: 2616, Survey of Jazz; 2618, Rock ‘n Roll to Rock. Substitute courses for music majors are the following: 3771, Music History and Literature I; 3772, Music History and Literature II; 3773, Music History and Literature III; 3774, Music History and Literature IV.

2616. Survey of Jazz. A historical survey of the origins, influences, and stylistic features of jazz from its beginnings to the present, with emphasis on performers, compositions, and innovations. 3 s.h.

2617. Film Music. A historical survey of the use of music in the motion picture. Examination of different styles in works by major composers. 3 s.h.

2618. Rock ‘n’ Roll to Rock. A historical survey of the evolution of rock ‘n’ roll into rock with emphasis on the interrelationships of the music and social and political influences and the interaction of rock with other musical styles. 3 s.h.

2619. Music of Non-Western Societies. A historical survey of music as it relates to the different cultures, with emphasis on the development of instruments, vocal practices and performance media within specific cultures. 3 s.h.

2622. Popular Music in America. The changing styles in American popular music from its origins to the present day studied through an examination of representative compositions and performers. 3 s.h.

3771. Music History and Literature 1. An exploration of the development of musical style in Medieval and Renaissance Europe. Representative vocal and instrumental works are examined from historical perspectives of music theory and practice, while closely considering the social, political, and artistic contexts that produced them. Prereq.: Sophomore standing. 3 s.h.

3772. Music History and Literature 2. An exploration of the development of European Baroque and Rococo musical styles. Representative vocal and instrumental works are examined from historical perspectives of music theory and practice, while closely considering the social, political, and artistic contexts that produced them. Prereq.: Sophomore standing. 3 s.h.

3773. Music History and Literature 3. An exploration of the development of European musical style from the Classic era through the 19th century. Representative vocal and instrumental works are examined from historical perspectives of music theory and practice, while closely considering the social, political, and artistic contexts that produced them. Prereq.: Sophomore standing. 3 s.h.

3774. Music History and Literature 4. An exploration of late 19th and early 20th century European and American musical styles and of selected non-Western musics. Representative vocal and instrumental works are examined from historical perspectives of music theory and practice, while closely considering the social, political, and artistic contexts that produced them. Prereq.: Sophomore standing. 3 s.h.

3787. History and Appreciation of Art and Music. (General) Illustrated lectures on art and music to develop the cultural growth of the non-art and non-music student. Art and music forms, comparisons of compositional styles, and discussion of the developments, influences, and experiments of the important periods to date. No prior training in art or music required. Not intended for Art majors. Listed also as ART 3787. 3 s.h.

5860. Keyboard Literature. An investigation of the solo keyboard works of major composers from the earliest times to the present day. Prereq.: MUTC 2632. 3 s.h.

5871. Baroque Music. The evolution of musical styles during the period 1600-1750. A historical survey of documents and music literature of the time: opera from Monteverdi to Handel; keyboard and instrumental works; significant choral works, etc. Prereq.: MUTC 2632, MUHL 3771, MUHL 3772, MUHL 3773, and MUHL 3774. 3 s.h.

5872. Eighteenth Century and the Viennese Classical School. Musical developments from the decline of the baroque to the turn of the century; historical and stylistic elements contributing to the rise of classicism and culminating in the works of Mozart, Haydn, Beethoven. Prereq.: MUTC 2632, MUHL 3771, MUHL 3772, MUHL 3773 and MUHL 3774. 3 s.h.
5873. Opera History. A historical survey of opera: its development as an art form from its beginnings to the present. Prereq.: MUTC 2632, MUHL 3771, MUHL 3772, MUHL 3773 and MUHL 3774. 3 s.h.

5874. Nineteenth Century. Musical developments from Beethoven through Wagner; aesthetic, formal, technical and historical trends with special emphasis on nationalism and the music drama. Prereq.: MUTC 2632, MUHL 3771, MUHL 3772, MUHL 3773, and MUHL 3774. 3 s.h.

5878. Selected Topics in Music History. A study of a specific topic to be announced each time the course is offered. May be repeated once with different topic. Prereq.: MUTC 2632, MUHL 3771, MUHL 3772, MUHL 3773, and MUHL 3774. 3 s.h.

5879. Vocal Literature. A study of vocal literature from all periods. Special emphasis on English language repertoire and on material especially suitable for high school students. Songs are prepared for performance in class. Prereq.: MUTC 2632, MUHL 3771, MUHL 3772, MUHL 3773, and MUHL 3774. 3 s.h.

MUSIC RECORDING—MURC

Dana School of Music

1561. Music Recording Workshop. Introduction to the music recording process and the recording studio. An overview of music recording grounded in History and the principles of acoustics. An exploration of analog and digital technology involved in music recording. Two hours lecture, two hours lab. 4 s.h.

3762. Digital Sound Production. An overview of MIDI and electronic musical instrument technology. Sequencers and mixing in the MIDI environment. Basic compositional techniques using MIDI and the computer, and the application of MIDI in the music recording environment. Prereq.: MURC 1561. 2 s.h.

3763. Digital Recording and Editing. A study of both linear and non-linear music recording and editing. Various hardware and software options, as well as the production of recording projects in both domains. Prereq.: MURC 1561. 2 s.h.

3764. Advanced Microphone Techniques. Investigation of the characteristics of different microphones, microphone design, microphone selection, and microphone placement. The accesssories of various miking situations will be investigated. Experiments with different microphone techniques in both the analogue and digital domains. Prereq.: MURC 3763. 2 s.h.

3765. Advanced Recording Techniques. Investigates advanced elements of music recording from the recording session procedures to product manufacture. Advanced techniques in noise reduction, amplification, sound compression, and synchronization. Prereq.: 3764. 2 s.h.

4866. Recording Internship. Practicum in appropriate music recording environments. Addresses all aspects of the music recording industry. Students meet once a week on campus to share and discuss experiences from the intern position. A minimum of 12 hours per week will be spent in the field. Prereq.: MURC 3765 and senior standing in MURC. 6 s.h.

4867. Senior Project. Independent student project to showcase skills and techniques learned in the content courses. Presentation of project in a public exhibition required. Prereq.: MURC 3765 and senior standing in MURC. 4 s.h.

MUSIC THEORY AND COMPOSITION—MUTC

Dana School of Music

1501. Applied Theory. Applications of theory of diatonic harmony; development of independent study and research projects in such areas as analysis, aural perception, scoring, and arranging. May be repeated once. Prereq.: Permission of instructor. 2 s.h.

1501, 1502, 2601, 2602. Composition. Composition for composition majors. Creative use of materials of music; beginning study of instrumentation; composition of short works for solo and chamber media. Analysis of representative compositions in various styles. Learning computer music applications appropriate for score and parts preparation. Prereq.: Grade of B or better in lower-division theory courses or concurrent with MUTC 1531, 1532. 2+2+2+2 s.h.

1520. Materials of Music. Musical styles, listening concepts, and harmonic technics as they relate to the literature of music. For students who do not qualify for MUTC 1531. 3 s.h.

1531. Musicianship 1. Materials in tonal music. Harmonic progression, voice leading, counterpoint, harmonic and formal analysis, composition and arranging. Prereq.: MUTC 1520 with a grade of B or better or a minimum score of 80% on the theory placement test. 2 s.h.

1531L. Musicianship 1 Laboratory. Practice and mastery of the fundamental skills of musicianship. Sight singing with practice in score-reading transpositions, aural recognition, and functional keyboard. Prereq.: Concurrent enrollment in MUTC 1531 expected. MUTC 1520 with a grade of B or better or a minimum of 80% on the theory placement test. 2 s.h.

1532. Musicianship 2. Materials in tonal music. Harmonic progression, voice leading, counterpoint, harmonic and formal analysis, composition and arranging. Prereq.: MUTC 1531 and MUTC 1531L with grades of C or better. 2 s.h.

1532L. Musicianship 2 Laboratory. Practice and mastery of the fundamental skills of musicianship. Sight singing with practice in score-reading transpositions, aural recognition, and functional keyboard. Prereq.: MUTC 1531 and MUTC 1531L with grades of C or better. Concurrent enrollment in MUTC 1532. 2 s.h.
2601. Applied Theory. Applied instruction in music theory of chromatic harmony; development of independent study and research projects in such areas as analysis, aural perception, scoring, and arranging. May be repeated once. Prereq.: Permission of instructor. 2 s.h.

2631. Musicianship 3. Chromatic materials in tonal music. Part writing, harmonization, harmonic and formal analysis, and score-reading transpositions. Prereq.: MUTC 1532 and MUTC 1532L with grades of C or better. 2 s.h.

2631L. Musicianship 3 Laboratory. Practice and mastery of advanced sight singing, aural recognition and piano skills. Prereq.: MUTC 1532 and MUTC 1532L, both with grades of C or better. Concurrent enrollment in MUTC 2631. 2 s.h.

2632. Musicianship 4. Chromatic materials in tonal music. Part writing, harmonization, harmonic and formal analysis, and score-reading transpositions. Prereq.: MUTC 2631 and MUTC 2631L with grades of C or better. Concurrent enrollment in MUTC 2632. 2 s.h.

2632L. Musicianship 4 Laboratory. Practice and mastery of advanced sight singing, aural recognition and piano skills. Prereq.: MUTC 2631 and MUTC 2631L, both with grades of C or better. Concurrent enrollment in MUTC 2632. 2 s.h.

3701. Applied Theory. Applied instruction in music theory of tonal and/or non-tonal music; development of independent study and research projects in such areas as analysis, aural perception, scoring, and arranging. May be repeated once. Prereq.: Permission of instructor. 2 s.h.

3703, 3704, 4803, 4804. Composition. Composition for composition majors. Private instruction employing contemporary techniques; composition for solo instruments, vocal and instrumental chamber groups, and large ensembles. Computer editing and proofing of scores and parts to prepare compositions for performance or publication. A recital of at least one hour duration of selected works of the students is required for graduation. Prereq.: MUTC 2602 or 3705 as appropriate. 3+3+3 s.h.

3712, 3713. Jazz Arranging 1, 2. Scoring in the jazz idiom with emphasis on harmonic concepts, voicing procedures, form, and stylistic trends developed by major jazz composer-arrangers. Detailed study of instrumental techniques with projects scored for various size ensembles. Student arrangements are performed in reading sessions and concerts. Prereq.: MUTC 1532 and MUAC 2668 or permission of instructor. Classes must be taken in sequence. 3+3 s.h.

3750. Analytical Techniques. Analysis of representative repertoire from the Renaissance, Baroque, Classical, Romantic, and Contemporary periods. Prereq.: MUTC 2632 and MUTC 2632L with grades of C or better. 3 s.h.

5821, 5822. Composition for Minors. Composition in two- and three-part forms, and other compositions of small scope, such as variation and sonatina. Works are composed both for piano alone, and in combination with other instruments or voice. May be repeated by composition majors to meet requirements for freshman and sophomore composition for majors. Prereq.: MUTC 2632 with a grade of C or better, or permission of instructor for composition majors. 2+2 s.h.

5828. Music Technology. An exploration of the use of computers and technology in music. Applications related to composition, performance, analysis, teaching, and research. Prereq.: MUTC 2632 with grade of C or better or permission of instructor. 3 s.h.

5830. Materials of 20th Century Music. Study of the various elements of 20th century compositions, including melody, harmony, rhythm, texture, and form. Prereq.: MUTC 2632 with a grade of C or better. 3 s.h.

5831. Modal Counterpoint. Sixteenth century contrapuntal style including introduction of species technique; analysis of liturgical and secular repertoir; writing of imitative counterpoint with stylistic rhythms and cadences. Prereq.: MUTC 2632 with a grade of C or better. 3 s.h.

5832. Tonal Counterpoint. Contrapuntal style of baroque music including an analysis of examples in imitative and invertible counterpoint; writing two-and three-part inventions and three- and four-part fugal expositions. Prereq.: MUTC 2632 with a grade of C or better. 3 s.h.

5833. Theory Seminar. Topics in music theory not covered in regular upper-division offerings. May be repeated once with different topic. Prereq.: MUTC 2632 with a grade of C or better. 3 s.h.

5834. Electronic Music. Techniques of analog and digital synthesis including tape composition, musique concrete; advanced MIDI applications such as sequencing and sampling; and digital audio editing. Composition in electronic and mixed media. Prereq.: For composition majors, COMP 1502 or equivalent; for non-composition majors, MUTC 2632 with a grade of C or better; for non-majors, permission of instructor. 3 s.h.

5840. Instrumentation. Ranges, transposition, technical characteristics, and tonal features of the instruments. Scoring for large and small ensembles which are available as laboratory reading groups. Prereq.: MUTC 2632 with a grade of C or better. 3 s.h.

NURSING—NURS
Department of Nursing

Lower-Division Courses

2601. Family Concepts for Providers. Interdisciplinary study of family theories, dynamics, roles, and cultural considerations across the lifespan related to issues of concern for providers of health and human services. Open to nursing and non-nursing majors. 3 s.h.
2610. Contemporary Nursing. Concepts related to professional nursing practice including nursing as a developing profession; educational perspectives and patterns; legal and ethical accountability; economic and political aspects; health care delivery systems; and nursing management and leadership roles. Open to nursing and non-nursing majors. 3 s.h.

2643/2643L. Health Assessment. Development of communication and assessment skills for obtaining health data from various age groups, as well as reporting and recording findings. Three hours lecture, three hours clinical experience in a variety of settings per week. Prereq.: NURS 2643, 2610, 2646 and BIOL 1560/L. 8 s.h.+0 s.h.

2646. Pathophysiology. Concepts related to pathophysiologic mechanisms of illness. Emphasis on application to nursing using the nursing process. Prereq.: BIOL 1552/L and CHEM 1506/L. 4 s.h.

2650. Pharmacology. Concepts of pharmacology applies to major drug classes. Emphasis on application of nursing process to drug therapy across the lifespan. Prereq.: NURS 2646. 3 s.h.

Upper-Division Courses

3710/3710L. Nursing in the Community. Nursing in the community including families in health and illness needs; culturally competent health care; teaching and learning aspects; psychosocial concepts, spirituality, and home health concepts and skills. Three hours lecture, six hours clinical experience in a variety of settings per week. Prereq.: NURS 2645, BSN Generic Program. 5 s.h.+0 s.h.

3720. Contemporary Nursing for RNs. Concepts related to professional nursing practice for graduates of ADN and diploma programs. Prereq.: Valid RN Licensure. 3 s.h.

3731/3731L. Child Bearing, Family, and Women’s Health Nursing. Family-centered nursing concentrating on health promotion and illness prevention, acute and chronic health care needs for (parent(s) during the reproductive expanding phase of the family cycle and for women from adolescence through old age. Three hours lecture and six hours clinical experiences in a variety of settings per week. Prereq.: NURS 3741, BSN Generic Program. 5 s.h.+0 s.h.

3741/3741L. Professional Nursing 2. Principles and practices of health promotion and rehabilitation of clients with acute and chronic health needs. Three hours lecture, nine hours clinical experience in a variety of settings per week. Prereq.: NURS 2645, BSN Generic Program. 6 s.h.+0 s.h.

3743/3743L. Professional Nursing 3. Advanced principles and practices of health promotion and rehabilitation of patients with acute and chronic health needs. Three hours lecture, six hours clinical experience in a variety of settings per week. Prereq.: NURS 3741, BSN Generic Program. 5 s.h.+0 s.h.

3749. Nursing Research. Process of research using reasoning and scientific rigor in critical analysis of nursing research. Prereq.: MATH 2625, BSN Generic Program. 3 s.h.

3770. Pathophysiology and Pharmacology I. Coordinates drugs in context with therapeutic use emphasizing connection between pharmacology, pathophysiology, and nursing care. The content focuses on core concepts and neuropharmacology. Prereq.: Valid RN license. 3 s.h.

3772. Pathophysiology and Pharmacology II. Coordinates drugs in context with therapeutic use emphasizing connection between pharmacology, pathophysiology, and nursing care. The content focuses on core concepts and body systems—cardiac, respiratory, immune, endocrine, renal, and integumentary. Prereq.: Valid RN license and NURS 3770. 3 s.h.

4800/4800L. Legal Nurse Consulting. Theory and practical components of legal nurse consulting are explained. This course fulfills requirements to sit for the American Association of Legal Nurse Consultant’s Certification examination. Prereq.: Valid RN Licensure. 5 s.h.

4804. Health Assessment for RNs. Increase clinical knowledge and skills in health assessment of clients of various age groups, and the reporting and recording of findings. (Content will be online with lab meeting 4-5 times per semester for practicing assessment skills). Prereq.: Valid RN license. 3 s.h.

4832/4832L. Nursing Care of Children and Families. Family-centered nursing concentrating on health promotion/illness prevention and acute/chronic health care needs of the developing child and family. Three hours lecture and six hours clinical experience in a variety of settings per week. Prereq.: NURS 3743, BSN Generic Program. 5 s.h.+0 s.h.

4833. Health Assessment Practices for RNs. Knowledge and application necessary for registered nurses to conduct a comprehensive health history and physical assessment. Prereq.: RN status. 3 s.h.

4840/4840L. Complex Care. High acuity, restorative, and health promoting care of clients with complex health problems. Three hours lecture, six hours clinical experience in a variety of settings per week. Prereq.: NURS 3743, BSN Generic Program. 5 s.h.+0 s.h.

4842/4842L. Mental Health Nursing. Mental health theories and strategies as the foundation in the management of individuals, families, and groups experiencing acute and chronic mental illness. Em-
phasis on the promotion of optimal level functioning and mental wellness. Three hours lecture, six hours clinical experience in a variety of settings per week. Prereq.: NURS 3743, BSN Generic Program. 5 s.h.+0 s.h.

4844. Community Health Nursing. Synthesis of nursing and public health sciences with emphasis on promotion and maintenance of healthy communities through the assessment and analysis of at-risk population groups. Includes nursing role in healthcare policy. Prereq.: NURS 3743, BSN Generic Program. 3 s.h.

4846/4846L. Community Health Nursing for RNs. A synthesis of nursing and public health sciences emphasizing health of communities through assessment analysis of at-risk population groups. Includes nursing role in healthcare policy. Three hours of lecture and three hours clinical experience in a variety of settings per week. Prereq.: Valid RN Licensure and NURS 3720, 4804, 3770, and 3772. 4 s.h.+0 s.h.

4852. Senior Capstone Seminar. Provides students with opportunities to integrate and synthesize nursing knowledge through research, writing, and presentations on current topics and issues. Prereq.: Last semester in program, BSN Generic Program. 1 s.h.

4853/4853L. Nursing Transitions. Analysis, synthesis, and evaluation of care delivered by the healthcare team with emphasis on development of leadership and research roles. Two hours lecture and eight hours clinical experience in a variety of settings per week. Prereq.: NURS 4840 or concurrent, BSN Generic Program. 4 s.h.+0 s.h.

4854/4854L. Nursing Transitions for Registered Nurses. Analysis, synthesis, and evaluation of care delivered by the healthcare team with emphasis on development of leadership and research roles for the registered nurse. Three hours lecture per week and 4 hours of clinical hours experience per week, totalling 60 hours. Prereq.: Completion of all other curriculum requirements except NURS 4852. 4 s.h.+0 s.h.

4855. Comprehensive Nursing Summary. Identifies individual strengths and weaknesses with emphasis on improving students’ understanding and demonstration of essential nursing knowledge. Must be taken concurrently with NURS 4853 and NURS 4852. Prereq.: Senior standing in nursing. 2 s.h.

Nursing Electives

3746. Geriatric Health. An examination of the aging person’s physical changes with implications for determining healthcare needs and for interpreting the impact of these upon the elder’s life and current health practices. Prereq: Junior status. 2 s.h.

3747. Individual Studies. The study of special problems or a review of the literature relating to specific problems or issues. May be repeated for a maximum of 6 s.h. with different problems. Prereq: Admission to program or permission of department chairperson. 1-3 s.h.

4860. Home Health Nursing. Current trends, issues, and approaches related to caring for clients in the home environment. Emphasis on the nursing role in client transition from the acute care setting to home. Three hours lecture, three hours clinical experience in a variety of settings per week. Prereq.: NURS 3741 or permission of instructor. 4 s.h.

5870. School Nurse Role Development. Contemporary topics related to the professional school nurse role, including standards of practice, certification, ethical, legal, and practice issues. Prereq.: NURS 4833 or RN status. 3 s.h.

5871. Health Problems of School-Age Children. Concepts related to specialized skills for conducting comprehensive assessments of children in a school setting, with special attention to children with disabilities. School nurse responsibilities in management of common health problems. Prereq.: NURS 4831 or RN status. 3 s.h.

5872. School Nurse Practicum. Supervised clinical experience in school settings for RN students participating in the delivery of school health services. Includes one hour per week on campus. Field experience of 300 hours required for state of Ohio certification eligibility. 300 hours equals 9 s.h. May be taken in segments of 3-9 s.h. per semester. Prereq.: NURS 4870 and 5871 and RN status. 3-9 s.h.

PHILOSOPHY—PHIL

Department of Philosophy and Religious Studies

The following have been approved as general education courses in the domain of Personal and Social Responsibility: 2609, Technology and Human Values; 2625, Introduction to Professional Ethics, 3711, General Ethics, 3727, Environmental Ethics. In Selected Topics: 2600, Introduction to Philosophy; 2619, Introduction to Logic; 2630, Critical Thinking. The following have been approved as general education intensive courses: Oral Communication Intensive: 3702, History of Modern Philosophy; 3728, Engineering Ethics. Critical Thinking Intensive: 2600, Introduction to Philosophy; 2619, Introduction to Logic; 2630, Critical Thinking. The following have been approved as general education intensive courses: Oral Communication Intensive: 3702, History of Modern Philosophy; 3728, Engineering Ethics. Critical Thinking Intensive: 2600, Introduction to Philosophy; 2619, Introduction to Logic; 2630, Critical Thinking. The following have been approved as general education intensive courses: Oral Communication Intensive: 3702, History of Modern Philosophy; 3728, Engineering Ethics. Critical Thinking Intensive: 2600, Introduction to Philosophy; 2619, Introduction to Logic; 2630, Critical Thinking. The following have been approved as general education intensive courses: Oral Communication Intensive: 3702, History of Modern Philosophy; 3728, Engineering Ethics. Critical Thinking Intensive: 2600, Introduction to Philosophy; 2619, Introduction to Logic; 2630, Critical Thinking. The following have been approved as general education intensive courses: Oral Communication Intensive: 3702, History of Modern Philosophy; 3728, Engineering Ethics. Critical Thinking Intensive: 2600, Introduction to Philosophy; 2619, Introduction to Logic; 2630, Critical Thinking. The following have been approved as general education intensive courses: Oral Communication Intensive: 3702, History of Modern Philosophy; 3728, Engineering Ethics.

Lower-Division Courses

2600. Introduction to Philosophy. The nature of philosophy and its relation to science, religion, and art; study of the philosophical approach and attitude, the basic problem areas in philosophy, and some typical philosophical viewpoints. 3 s.h.

2608. The Examined Life. Considers the nature of happiness and well-being and their relation to social institutions. Addresses the roles that civic and personal relations, morality, aesthetics, education, and religion play in providing happiness, purpose, and meaning in one’s life. Cross listed as REL 2608. 3 s.h.
2609. Technology and Human Values. Examination of the impact of technology and science on contemporary human values and investigations of social and political perspectives on modern technocracy, based on case studies in science, medicine, and engineering.  3 s.h.

2616. Character and Virtue. Considers a variety of historical views on the nature of character and virtue, as well as their relation and development, in light of current empirical research.  3 s.h.

2619. Introduction to Logic. Introduction to syllogistic or classical logic, symbolic and inductive logic. Emphasis on the rules of syllogism, immediate inferences, propositional functions, classes, truth tables, Venn diagrams; the use of analogy, generalization, the verification of hypotheses, and scientific method.  3 s.h.

2625. Introduction to Professional Ethics. An examination of the ideals and virtues central to professionalism; study of selected codes of professional ethics and their roots in classical ethical traditions; and analysis of selected ethical issues and problems in a variety of professions.  3 s.h.

2626. Engineering Ethics. An examination of ethical problems in the major fields of engineering and an explanation of the methodology needed to address them; an analysis of the rights and duties of engineers in their relations to clients, employers, the public, and the engineering profession. Prereq.: One 2600-level PHIL course, or ENTC 1505 or ENGR 1550.  3 s.h.

2627. Law and Criminal Justice Ethics. Examination of major theories in philosophy of law and justice, and the study of ethical issues and professional standards in criminal justice practice. Prereq.: Any 2600-level PHIL course or CJFS 2601, 2602 or 2603.  3 s.h.

2630. Critical Thinking. An examination of the logical skills needed for critical thinking in practical situations. Topics include procedures and guidelines for identifying and evaluating arguments, recognizing and eliminating informal fallacies, and writing and critiquing argumentative essays.  3 s.h.

2698. Introductory Individual Study in Philosophy. Introductory study of a philosophical problem, movement, thinker, or the relationship of philosophy to problems in other disciplines. Intended to be an independent study course with subject matter dependent upon approval of the faculty member and student. May be repeated up to 3 s.h.  1 s.h.

Upper-Division Courses

3700. Ancient and Medieval Philosophy. An examination of philosophers and philosophical systems in Western civilization from the pre-Socrates until the Renaissance. Prereq.: One 2600-level PHIL course.  3 s.h.

3702. History of Modern Philosophy. Study of major Western philosophical figures and movements from the Renaissance through the 19th century. Prereq.: One 2600-level PHIL course.  3 s.h.

3705. 20th Century Philosophy. A survey of Western philosophy in the 20th century, including American pragmatism, British analytic and scientific philosophy, ordinary language and conventionalist theories, continental movements in phenomenology and existentialism, and the emergence of cognitive science. Prereq.: One 2600-level PHIL course.  3 s.h.

3706. Philosophy in America. A study of philosophers and philosophical systems in America from the colonial era to the present and their relation to philosophical developments abroad. Prereq.: One 2600-level PHIL course.  3 s.h.

3708. Social and Political Philosophy. A study of the philosophical foundations of democracy, dictatorship, and communism, especially their views of reality, knowledge, human nature, and morality, with attention to rights, duties, freedom, authority, dissent, censorship, crime and punishment, and religion. Prereq.: PHIL 2600.  3 s.h.

3709. Feminist Philosophy. Examination of feminist philosophical theory and issues concerning women, including gender and socialization, sexuality and reproduction, self-image, and the dialogue among various feminist philosophical movements. Prereq.: PHIL 2600 or WMST 2601.  3 s.h.

3710. Philosophy of Art. Study of classical and modern philosophical theories of beauty and aesthetic judgement, how they apply in criticism of the fine arts, and the problem of the relative and the absolute in matters of taste. Prereq.: One 2600-level PHIL course.  3 s.h.

3711. General Ethics. Examination and evaluation of the major ethical theories in classical, dialectic, pragmatic and naturalistic, analytic and positivist, and existentialist thought. Prereq.: PHIL 2600.  3 s.h.

3712. Philosophy of Religion. The philosophical investigation of religious questions such as existence and nature of the divine, the problem of evil, death and immortality, religion and science, and religious experience. Prereq.: PHIL 2600 or REL 2601.  3 s.h.

3713. Philosophy of the Family. Examines the family from philosophical, political, and historical perspectives and considers issues of justice in familial relationships. Explores the relationship among parents, children, and the state, and reviews the evolving conceptions of childhood, child well-being, and children's rights. Prereq.: ENGL 1551.  3 s.h.

3714. Language and Mind. Introduction to the study of traditional philosophical problems in the analysis of linguistic structures and functions and of their implications for the nature of mind, including meaning, mental representation and causation, information processing, and psychological explanation. Prereq.: One 2600-level PHIL course.  3 s.h.

3715. Philosophy of Science. A philosophical consideration of some of the fundamental concepts and assumptions of the sciences: the nature of scientific knowledge; the relation of scientific to other kinds of knowledge and experience. Prereq.: PHIL 2600.  3 s.h.
3719. Symbolic Logic. The structure and properties of axiomatic systems; the theory of propositional and relational logic; the algebra of classes; related topics. Prereq.: PHIL 2600. 3 s.h.

3723. Philosophy of Law. Examination of the nature and limits of law, the justification of the legal system, the relationship between law and morality, state punishment of individuals, the justification for punishment, citizens’ rights and issues of privacy, liberty, discrimination, and civil disobedience. Prereq.: One 2600-level PHIL course. 3 s.h.

3725. Biomedical Ethics. An examination of ethical issues posed by biomedical research and technology, including issues of informed consent, patients’ rights, experimentation, genetic research and intervention, death and dying, and the allocation of scarce resources. Prereq.: One 2600-level PHIL course or SOC 3703 or SOC 3745 or PSYC 3780 or admission to the NEOUCOM-YSU program or the B.S. in Nursing program. 3 s.h.

3727. Environmental Ethics. Application of ethical theories in evaluating human interaction with the natural environment, analysis of rights and duties regarding other species and future generations, the ethics of environmental activism, and philosophical and religious perspectives on environmental issues. Prereq.: PHIL 2600 or ENST 2600. 3 s.h.

3730. Metaphysics. An examination of the major metaphysical issues in Western philosophy: problems of freedom and determinism, idealism vs materialism, personal identity, space-time problems, concepts of Being and Reality and other representative issues. Prereq.: PHIL 2600. 3 s.h.

3735. Ethics and Scientific Research. Definition and examination of the ethical basis of scientific conduct in reporting experimental results, using human and animal subjects, adopting protocols, and pursuing research with broad impact on human rights and social welfare. Prereq.: PHIL 2600 or 2625. 3 s.h.

3760. Ethics of War and Peace. Examines reasons for making war, for restrain on the conduct of war, and for rejecting war as an instrument of national policy as understood within a variety of moral traditions, both secular and religious. Prereq.: PHIL 2600 or REL 2621. 3 s.h.

3780. Theories of Knowledge. The epistemological problem; position of the skeptic, pragmatist, empiricist, idealist, moderate realist, existentialist, and phenomenologist. Prereq.: PHIL 2600. 3 s.h.

3798. Intensive Individual Study of Philosophy. Intensive study of a philosophical problem, movement, thinker, or the relationship of philosophy to problems in other disciplines. Intended to be an independent study course with subject matter dependent upon approval of the faculty member and student. Prereq.: One 3700-level PHIL course. May be repeated up to 3 s.h. 1 s.h.

4805. Direct Readings in Philosophy. Independent study course with subject matter dependent upon approval of the faculty member in consultation with student. Prereq.: Any 3700 level PHIL course. 3 s.h.

4820. Seminar in Philosophy. Study in depth of a particular philosopher, topic, or area in philosophy, as determined by the instructor; may be repeated once with different course content. Prereq.: One 3700-level PHIL course. 3 s.h.

4861. Senior Capstone Project. Research and writing of a paper, or other committee approved project, on a philosophical topic, under the supervision of a full-time faculty member and in consultation with a committee of at least two other members of the department. Prereq.: Philosophy major with senior standing and completion of at least 21 s.h. of PHIL courses. 3 s.h.

4870. Internship in Ethical Practice. Students work with professionals in a local organization, thereby gaining direct access to the ethical issues involved in such an environment. Students will be supervised by an appropriate working professional and either a faculty member of the Dr. James Dale Ethics Center or another faculty member in the department selected for this purpose. The course grade shall be assigned by the YSU supervisor, based on the project journal, an evaluation of the student’s on-site work by the participating professional and the YSU supervisor, and a final project paper. Registration by permit only. Prereq.: One 3700-level PHIL or REL course. 1 s.h., repeatable to a total of 3 s.h.

PHYSICAL THERAPY—PHYT

Department of Physical Therapy

4801. Independent Study. Individual study and projects under faculty supervision. Prereq.: Permission of instructor and department chair. May be repeated for a total of 6 s.h. Prereq.: Admission to MPT program. 1-6 s.h.

4802. Research. Research under the supervision of a graduate faculty member. Prereq.: Permission of the instructor and department chair. May be repeated for a total of 6 s.h. Prereq.: Admission to MPT program. 1-6 s.h.

5800. Pathology. Disease processes and trauma in humans from a structural and functional level; relationship between pathology and clinical signs and systems, etiology, differential diagnosis, prognosis, and treatment. Prereq.: Admission to MPT program. 4 s.h.
PHYSICS—PHYS
Department of Physics and Astronomy

The following have been approved as General Education courses in the domain of Natural Science: 1500, Conceptual Physics; 2607, Physical Science for Early & Middle Childhood Education; 2608, Sound. The following courses have been approved as substitutes in the domain of Natural Science. However, they are higher-level courses than the standard General Education courses; students should consult their advisors about taking them. They are: 1501 and 1501L, Fundamentals of Physics 1; 1502 and 1502L, Fundamentals of Physics 2; 2601 and 2601L, General Physics for Applied Medical Studies 1; 2602 and 2602L, General Physics for Applied Medical Studies 2; 2610 and 2610L, General Physics 1; 2611 and 2611L, General Physics 2.

Lower-Division Courses

1500. Conceptual Physics. A conceptual treatment of selected theories and laws of classical and modern physics and their application to the understanding of natural phenomena. The evolution of these laws from hypotheses to functional relationships examined in a historical context. Not applicable to the major in Physics or to the combined major in Physics and Astronomy. 3 s.h.

1500L. Conceptual Physics Laboratory. Experimental work designed to supplement PHYS 1500. Three hours per week. Prereq. or concurrent: PHYS 1500. 1 s.h.

1501. Fundamentals of Physics 1. Topics include kinematics, forces, energy, momentum, rotational kinematics, torque, angular momentum, simple harmonic motion, and mechanical waves. Not recommended for mathematics, chemistry, physics, or engineering majors. Prereq.: MATH 1504 or equivalent or at least level 4 on the Mathematics Placement Test. 4 s.h.

1501L, 1502L. Fundamentals of Physics Laboratory 1, 2. Experimental work designed to supplement the PHYS 1501, 1502 sequence. Two hours per week. Prereq. or concurrent: PHYS 1501L, PHYS 1502 for 1502L. 1+1 s.h.

1502. Fundamentals of Physics 2. Study of electricity, magnetism, and light. Topics include electric charge, electric forces and fields, electric potential, capacitance and resistance in direct current circuits, basic circuit analysis, magnetic forces and fields, induced emf, inductance, reflections, refraction, geometric optics as applied to lenses and mirrors, interference, and diffraction. Prereq.: PHYS 1501 or equivalent. 3 s.h.

1506. Physics for Health Care. The basic laws of physics applied to various biological and physiological problems. Designed for majors in the allied health fields, e.g., Respiratory care. Not applicable to the major in Physics or to the combined major in Physics and Astronomy. 3 s.h.

1507. Energy and the Environment. Broad survey of the origin and distribution of the various forms of energy found in nature. Examination of the physical laws governing society’s use of energy and environmental consequences resulting therefrom. Not applicable to the major in Physics or to the combined major in Physics and Astronomy. 3 s.h.

1520H. Perspectives in Physics. Introduction to past and recent ideas in physics with specific emphasis on their impact on historical and contemporary thought. The treatment, largely non-mathematical, is enhanced by selected readings suitable for the beginning honors student in any field. Not applicable to the major in Physics or to the combined major in Physics and Astronomy. Prereq.: Admission to the Honors Program or permission of instructor and Director of Honors. 3 s.h.

2601. General Physics for Applied Medical Studies 1. Description and analysis of motion including kinematics and dynamics of translation and rotation; analysis of equilibrium, energy, and momentum of objects; gravity; mechanical oscillations and waves. This course is designed primarily for students enrolled in the NEOUCOM-YSU program or in pre-medical curricula. Prereq.: MATH 1504 or equivalent and high school trigonometry. Prereq. or concurrent: MATH 1571, 1581H, or 1585H. 4 s.h.

2602. General Physics for Applied Medical Studies 2. Description and analysis of electrical and magnetic effects; geometric and physical optics and the wave nature of light; introduction to atomic physics, quantum mechanics, nuclear structure and radiation. Prereq.: PHYS 2601. 4 s.h.

2607. Physical Science for Middle and Secondary Education. Selected topics in physical science appropriate to the middle- and secondary-level curriculum. Emphasis on diverse hands-on classroom activities, and multiple approaches to communicating basic concepts in physical science. Topics include simple machines, light and sound, batteries and bulbs, physical properties of solids, liquids and gases. Prereq.: MATH 1501 or at least level 3 on the Mathematics Placement Test and admission to BCOE upper-division status. 4 s.h.

2608. Sound. The physical principles accounting for the production, propagation, and perception of sound waves. The relevance of these principles to phenomena ranging from hearing to the operation of various musical instruments. Introduction to auditorium acoustics. This course is designed for Music majors. Not applicable to the Physics major or to the combined Astronomy and Physics major. 3 s.h.

2610. General Physics 1. A course in mechanics; the kinematics and dynamics of masses in translation and rotation; Newton’s Laws; gravity; the conservation laws of energy and momentum; simple harmonic motion and introduction to wave motion and sound. Prereq.: High school physics or PHYS 1501. Prereq. or concurrent: MATH 1571. 4 s.h.
2610L, 2611L. General Physics Laboratory 1, 2. Experimental work designed to supplement the PHYS 2610, 2611 sequence. Three hours per week. Prereq. or concurrent: PHYS 2610 or 2611 for 2610L, PHYS 2611 or 2602 for 2611L. 1+1 s.h.

2611. General Physics 2. Study of electric and magnetic fields and their effects; introduction to electric circuits; light as an electromagnetic wave; introduction to geometrical and physical optics. Prereq.: PHYS 2610. Prereq. or concurrent: MATH 1572. 3 s.h.

Upper-Division Courses

3701, 3702. Intermediate Classical Mechanics 1, 2. Kinematics and dynamics of particles and rigid bodies in inertial and non-inertial reference systems. Linear and nonlinear oscillations and oscillating systems. Gravitational and central forces. Lagrangean and Hamiltonian mechanics. Prereq.: PHYS 2611. Prereq. or concurrent: MATH 3705. Must be taken in sequence. 3+3 s.h.

3704. Modern Physics. Special Theory of Relativity. Quantum phenomena related to electromagnetic radiation and material particles. The Bohr model of the hydrogen atom; the Schroedinger equation; the Heisenberg Uncertainty Principle. Selected topics in atomic and nuclear physics. Prereq.: PHYS 2611 and Prereq. or concurrent: MATH 2673. 3 s.h.

3704L. Modern Physics Laboratory. Experimental work designed to supplement PHYS 3704. Three hours per week. Prereq. or concurrent: PHYS 3704. 1 s.h.

3705. Thermodynamics and Classical Statistical Dynamics. Principles and theorems of thermodynamics derived from the observable macroscopic properties related to temperature, heat, and the underlying statistical origins of thermodynamic processes. Includes the laws of thermodynamics, entropy, state functions, differential equations of state, Maxwell relations, and Maxwell-Boltzmann statistics. Prereq.: PHYS 2611 and Prereq. or concurrent MATH 2673. 3 s.h.

3705L. Thermodynamics and Classical Statistical Mechanics Laboratory. Experimental work designed to supplement PHYS 3705. Three hours per week. Prereq. or concurrent: PHYS 3705. 1 s.h.

3722L. Advanced Optics Laboratory. Experimental work designed to supplement PHYS 3722. Three hours per week. Prereq. or concurrent: PHYS 3722. 1 s.h.

3730. Electronic Instrumentation. Laboratory-based course in digital and analog electronics. Topics include AC and DC circuit theory; digital and analog electronics including filters, op amps, counters, digital integrated logic circuits, and A/D and D/A conversion; computer interfacing. Prereq.: PHYS 2611. 3 s.h.

3741, 3742. Electromagnetic Field Theory 1, 2. Intermediate theory of electric and magnetic fields. Topics include electric field, scalar potential, techniques for calculating scalar potential (method of images, Laplace's and Poisson's equations, multipole expansion, Green's Function approach), dielectrics and polarization, Maxwell's equations and their application to the propagation of electromagnetic waves including reflection, refraction, transmission, and absorption; guided waves, retarded potentials, radiating systems, special relativity. Prereq.: PHYS 2611 and MATH 3705. Must be taken in sequence. 3+3 s.h.

3750. Mathematical Physics. The mathematics techniques required in the study of classical, statistical, and quantum mechanics, and field theory. Prereq.: PHYS 2611 and MATH 3705. 3 s.h.

4805. Undergraduate Physics Research. Research conducted under the direction of a faculty member. May be repeated to a maximum of 6 s.h. The grading is Traditional/PR. Prereq.: PHYS 3702 and 3704. 3 s.h.

5810, 5811. Quantum Mechanics and Quantum Statistical Mechanics 1, 2. The postulates of wave mechanics, Matrix mechanics, angular momentum coupling, scattering, perturbation theory, intrinsic spin, emission and absorption of radiation. Fermi-Dirac and Bose-Einstein statistics with applications in quantum theory. Prereq.: PHYS 3702 and 3704, MATH 3705. Must be taken in sequence. 3+3 s.h.

5823. Laser Physics and Photonics. Emission and absorption of radiation, including stimulated emission. Optical cavities and wave guides. Introduction to lasers. Modulation and detection of light. Applications of lasers to information processing and other technologies. Introduction to nonlinear optical and opto-electronic phenomena and nonlinear optical materials. Prereq.: PHYS 3722. 3 s.h.

5826. Nuclear Physics. General properties and behavior of the nucleus; nuclear models; nuclear reactions; radioactivity and decay processes; accelerators; current topics; elementary particles. Laboratory experiments. Prereq. PHYS 3704, 3704L, and MATH 3705. 3 s.h.

5830. Condensed Matter Physics. Selected topics in condensed matter physics: mechanical, thermal, electrical, and magnetic properties of amorphous and crystalline materials; crystal structures. Prereq.: PHYS 3704. 3 s.h.

5835. Spectroscopy. Treatment of atomic, molecular, and nuclear structure based on the analysis of electromagnetic and other spectra. Prereq.: PHYS 3704. 3 s.h.
POLITICAL SCIENCE—POL

Department of Political Sciences

The following have been approved as General Education courses in the domain of Societies and Institutions: 1550, Politics and Globalization; 1560, American Government; 2640, Comparative Governments.

Lower-Division Courses

1550. Introduction to Political Science. Study of politics, government, and societal institutions at both national and international levels. 3 s.h.

1560. American Government. The foundations of American democratic government with an emphasis on the responsibilities of citizenship, civil rights, and civil liberties, parties and elections, and American political institutions. Students are encouraged to understand and discuss issues of social justice, equality and freedom, and majoritarianism. Topics include the civil rights movement, campaign finance reform, federalism, and affirmative action. 3 s.h.

2640. Contemporary World Governments. A comparative analysis of the development of institutions, attitudes, public policy, economic, and social systems of a number of foreign political systems. Prereq.: POL 1550 or 1560. 3 s.h.

2660. International Relations. An examination of theoretical and practical issues in the development of modern international politics, law and organization and political economy, with special attention to contemporary global and regional issues. Prereq.: POL 1550 or 1560. 3 s.h.

2695. Model United Nations. A comparative study of foreign policy, contemporary global issues, international law, and international governmental organizations. Stresses interactive and role playing educational methodologies. Students are required to participate in one or more approved conference or field trips. May be repeated to a maximum of 3 s.h. Prereq.: Consent of instructor. 1 s.h.

Upper-Division Courses

3700. American Presidency. An examination of the role of the chief executive officer within the governmental framework. The offices of mayor and governor are treated, but the primary emphasis is on critical evaluation of the American presidency. Prereq.: POL 1560. 3 s.h.

3702. Law and Society. The American judicial system, its institutional development and its role in policy determination, as evidenced in leading Supreme Court decisions. Limited coverage of state judicial systems. Prereq.: POL 1560. 3 s.h.

3703. American Constitutional Law. An inquiry into constitutional interpretation by the Supreme Court based on examination of leading cases, with particular emphasis on questions of federalism, executive power, civil liberties, and economic regulation. Prereq.: POL 3702. 3 s.h.

3704. American Political Parties and Elections. A descriptive analysis of the role of political parties in a democratic society, with emphasis on development of a theory of party, an examination of the history and characteristics of the American party system, and a quantitatively structured description of the national electorate. Prereq.: POL 1560. 3 s.h.

3706. African-American Politics. The politics of African Americans within American society in terms of organization, behavior, objectives, relative influence and power. Prereq.: POL 1560 or AFST 2600. 3 s.h.

3712. Political Behavior. An introduction to the primary research theories, perspectives and methodologies common to the study of government and global affairs, including computerized quantitative analysis. Prereq.: POL 1550 or 1560. 3 s.h.

3714. American Public Opinion. An introduction to the origins, uses, effects, and analysis of public opinion, including a practicum in opinion polling requiring field work and computerized quantitative analysis. Prereq.: POL 1550 or 1560. 3 s.h.

3717. Health Care Policy. Seminar on the politics of health care formation and alternative proposals for the organization of health care delivery, manpower, and finance systems; interviews with administrative and planning personnel. Prereq.: POL 1560, or admission to NEOUCOM-YSU, or junior standing in a health field. 3 s.h.

3718. American Public Policy and Policy Analysis. The formation, implementation, and evaluation of contemporary American public policy. Prereq.: POL 1560. 3 s.h.

3720. Public Management. A study of administrative organizations in American federal and state
governments, with special attention to their role in the formulation and implementation of public policy as demonstrated in case studies. Prereq.: POL 1560. 3 s.h.

3721. Urban Government. The structure and politics of urban government, with special attention to intergovernmental relationships. Prereq.: POL 1560. 3 s.h.

3722. State and Local Government. The political processes and institutions of state and local governments, with special attention to Ohio government. Prereq.: POL 1560. 3 s.h.

3724. Public Budgeting. Study of the politics, theories, and techniques of public budgeting. Includes the process of budget preparation, adoption and execution. Topics include debt management and capital budgets. This course is cross-listed with ECON 3724. Prereq.: POL 3720. 3 s.h.

3725. Individualized Study. A supervised individual study of a special topic or issue in any area of contemporary politics and political science. An academic plan of study including a syllabus is required and will be placed in the student's file. May be repeated for up to 6 s.h. Prereq.: POL 1560 or 2640 or 2660, and permission of the chairperson. 1-3 s.h.

3741. Russia and China: From Revolution to Reform. A comparative analysis of politics in the Russian Federal Republic and the People's Republic of China, emphasizing contemporary issues of domestic governance and regional international relations as seen in the context of revolutionary Communism and the appearance of post-Communist reform politics. Prereq.: POL 2640 or 2660. 3 s.h.

3742. Political Development and Political Regimes. A comparative analysis of political development of selected states, with a focus on the social and political forces that lead to the formation of democracies and dictatorships. Prereq.: POL 2640 or 2660. 3 s.h.

3744. European Politics. Comparative analysis of the political development, governing systems, political behavior, public policy, and interrelations of selected European states, emphasizing the role of the European Union and the formation of new democracies in Eastern Europe. Prereq.: POL 2640 or 2660. 3 s.h.

3751. Latin American Politics. A comparative analysis of the political development, governing systems, political behavior, public policy, and international relations of selected Latin American states. Prereq.: POL 2640 or 2660. 3 s.h.

3757. Aging and Social Policy. Critical examination of the social policies and social systems which affect aging and retirement. Prereq.: SOC 1500, GERO 1501, or POL 1560. 3 s.h.

3760. International Political Economy. Study of the relationship between global capitalism and the interstate political system, with emphasis on post-Cold War issues and American policy. Prereq.: POL 2660. 3 s.h.

3761. U.S. Foreign Policy. Examination of the domestic political formulation and international execution of U.S. foreign policy, emphasizing regional issues of security and political economy and the changing U.S. role in the post-Cold War world. Prereq.: POL 2640 or 2660. 3 s.h.

3763. International Law. Analysis of the principles and formation of international law as it has developed through customs and international agreement. Prereq.: POL 2640 or 2660. 3 s.h.

3764. International Organizations. Analysis of the development, organizational structure, public policy and political behavior of regional and international organizations, with focus on the United Nations. Prereq.: POL 2640 or 2660. 3 s.h.

3765. Asian Politics. A comparative analysis of the political development, governing systems, political behavior, public policy, and international relations of selected Asian states, with emphasis on their role in the global economy relative to the U.S. Prereq.: POL 2640 or 2660. 3 s.h.

3768. International Conflict. Examination of the dynamics of international political conflict, with special attention to issues of the use of force, the nature of ethnopolitical conflict, and the relative effectiveness of various approaches to negotiation, conflict management, and conflict resolution. Prereq.: POL 2660. 3 s.h.

3785. Political Thought 1. The development of western political thought from the time of classical Greece through the Medieval period. Among major figures treated: Plato, Aristotle, Cicero, Augustine, Aquinas, and Machiavelli. Prereq.: 9 s.h. of Political Science. 3 s.h.

3786. Political Thought 2. The development of western political thought from the Renaissance to the Modern period. Among the major figures treated: Hobbes, Locke, Rousseau, Burke, Smith, Publius, Tocqueville, and Mill. Prereq.: 9 s.h. of Political Science. 3 s.h.

3787. Political Thought 3. The development of western political thought of the 19th and 20th centuries. Among the major figures treated: Hegel, Marx, Nietzsche, Arendt, and Rawls. Prereq.: 9 s.h. of Political Science. 3 s.h.

4801. Senior Research Seminar. Investigation and presentation of a research project. Students explore a research topic, using appropriate political science methods, and present their results in oral and written form. Prereq.: 24 hours of political science. 3 s.h.

4805. Public Administration and the Political Process. Political factors which condition the structure and function of public agencies, including the public interest, agency constituencies, and political influence. Prereq.: YSU/CSU MPA or permission of chair. 4 s.h.

4850. Sustainability, Climate Change, and Society. Explores environmental, economic, and social aspects of sustainable development, with an emphasis on
economy and society. Examines the roles of institutions, humans and policies in sustainable development as well as reconfiguring relationships between our institutions and the natural world. Listed also as ENST 5850. Prereq.: Minimum junior standing. 3 s.h.

5800. Select Problems, American Government. Seminar/capstone course examining topical issues of American Government. Prereq.: 15 s.h. of Political Science and consent of chairperson. 2-4 s.h.

5830. Public Human Resource Management. The issues and public policies that have an impact on the management of human resources in the public sector. Differences between public and private personnel administration; the American civil service system; recruitment, placement, promotion, training, and compensation; performance assessment; rights and duties of public employees. Prereq.: YSU/CSU MPA or permission of the chair. 4 s.h.

5860. Select Problems of Global Affairs. Seminar/capstone course examining topical issues of contemporary global affairs and international relations. This course may be repeated once. Prereq.: 15 s.h. of Political Science and consent of chairperson. 2-4 s.h.

5865. Global Environmental Policy and Law. An analysis of the development, foundations, and principles of international environmental policy and law; includes consideration of the relationship between domestic and international environmental law; and the role of international organizations in the implementation of international environmental policy and law. Prereq.: POL 3760, or 3742, or ENST 3760. 3 s.h.

5880. Select Problems, Political Thought. Seminar/capstone course examining selected political issues and ideologies within the context of the broader traditions of political thought. Prereq.: 15 s.h. of Political Science and consent of chairperson. 2-4 s.h.

PSYCHOLOGY — PSYC
Department of Psychology

The following courses have been approved as General Education courses in the domain of Personal and Social Responsibility: 1560, General Psychology; 3707, Intimate Relationships; 3755, Child Development; 3758, Lifespan Development.

Lower-Division Courses

1502. Workshop in Applied Psychology. Study of selected contemporary psychology-related topics requiring no previous exposure to psychological theory. The department announces the topic and determines the credit, based on frequency and duration of workshop meetings. May be repeated for a total of 4 s.h. with change in topics. Not applicable to the psychology major nor the social studies area requirement. 1-2 s.h.

1560. General Psychology. An examination of scientific and clinical approaches to understanding the relationships between one’s physical, mental, and emotional well-being, and quality of life, including the basic principles governing the growth and maintenance of behavior, emotion, and cognition. 3 s.h.

1560H. Honors General Psychology. An examination of scientific and clinical approaches to understanding the relationships between one’s physical, mental, and emotional well-being, and quality of life, including the basic principles governing the growth and maintenance of behavior, emotion, and cognition. 3 s.h.

2617. Research Methods and Statistics 1. An introduction to psychological research methods and descriptive statistics. Students learn how to conduct ethical research and report their findings as well as to critically evaluate the research of others. Three hours of lecture, two hours of lab per week. Prereq.: C or better in PSYC 1560 and psychology major, or consent of instructor. 4 s.h.

2618. Research Methods and Statistics 2. Further exploration of psychological research methods and statistical analysis, with emphasis on inferential techniques. Prereq.: C or better in PSYC 2617 and psychology major, or consent of instructor. 3 s.h.

2692. Human Sexuality. An interdisciplinary approach to the study of human sexuality. Listed also as HSC 2692. 3 s.h.

Upper-Division Courses

3700. Social Psychology. Examination of the influence of social interactions on the thoughts, feelings, and behaviors of the individual and the group. Prereq.: PSYC 1560 or SOC 1500. 3 s.h.

3700H. Honors Social Psychology. Examination of the influence of social interactions on the thoughts, feelings, and behaviors of the individual and the group. Prereq.: PSYC 1560 or SOC 1500. 3 s.h.

3700L. Social Psychology Laboratory. An introduction to planning and conducting social psychological research. Topics include creating participant impact while minimizing loss of control, reducing demand characteristics and experimenter bias, and enhancing mundane and experimental realism. Two hours per week. Concurrent: PSYC 3700. 1 s.h.

3701. Psychology of Music. Examines psychological research and theories pertaining to music. Topics include perception of musical attributes such as pitch, musical illusions, cognitive organization of music, and music and emotion. Previous musical knowledge is not required. Prereq.: PSYC 1560. 3 s.h.

3702. Abnormal Psychology. Patterns of deviant behavior, including current systems of classification; classic syndromes; the nature and trend of major maladjustments; possible causative factors; and methods of prevention and treatment. Prereq.: PSYC 1560. 3 s.h.
3702L. Abnormal Psychology Laboratory. An introduction to conducting research on psychological disorders, to include a critical review of research literature, examination of case studies, and gathering field-based data. Two hours per week. Prereq.: PSYC 2617 with C or better; and Prereq. or Concurrent: PSYC 3702 or 3702H. 1 s.h.

3705L. Psychology of Learning Laboratory. Laboratory studies of learning processes. Students use observational and data-recording techniques as they apply to investigations of learning processes. Laboratory activities include investigations of classical conditioning, reinforcement, shaping, extinction, practice effects or other phenomena. Two hours per week. Concurrent: PSYC 3705. 1 s.h.

3707. Psychology of Intimate Relationships. Psychological principles pertaining to intimate relationships, both marital and non-marital, and family dynamics. Includes topics such as communication, problem solving, domestic violence, and sexuality. Prereq.: PSYC 1560. 3 s.h.

3709. Psychology of Education. Principles of psychology as applied to the educational process, including characteristics of the individual learner, the classroom, the instructor, methods and techniques, and other factors in the learning process. Prereq.: PSYC 1560. 3 s.h.

3709L. Psychology of Education Lab. Application of principles of psychology in a K-12 educational setting. Evaluation and synthesis of psychological principles, theories, and research. Three hours per week, one hour to be arranged. Concurrent: PSYC 3709 or consent of instructor. Prereq.: PSYC 1560. 2 s.h.

3710. Psychophysiology. An introduction to the relationship between the psychological and physiological basis of behavior. Response systems, such as cardiovascular, respiratory, and gastrointestinal, as well as applications of principles and theories. Prereq.: PSYC 2617, concurrent with 3710L. 3 s.h.

3710L. Psychophysiology Laboratory. Measurement and research techniques in basic and applied psychophysiology. Two hours laboratory-discussion. Prereq.: PSYC 2617, concurrent with 3710L. 1 s.h.

3712. Industrial/Organizational Psychology. Principles of psychology applied to business and industry with emphasis upon both personnel and organizational behavior. Topics include job analysis, selection, performance appraisal, organizational development, job satisfaction, motivation, and leadership. Prereq.: PSYC 2617 or equivalent. 3 s.h.

3724. Advanced Statistical Methods in Psychology. A continuation of inferential statistics: complex analysis of variance and nonparametric statistics; additional study of special correlational techniques and concepts of regression and prediction. Recommended for the student preparing to seek an advanced degree. Prereq.: C or better in PSYC 2618. 3 s.h.

3728. Physiological Psychology. The structural-functional relationships of the various divisions of the neural system, their relationship to the organism as a whole, and their contributions to human behavior. Prereq.: PSYC 2617. 3 s.h.

3728L. Physiological Psychology Laboratory. An introduction to experimental methods for studying effects of environmental stimuli on brain function and behavior in animals. Two hours per week. Prereq.: PSYC 3728 with C or above or concurrent. Permit required. 1 s.h.

3730. Psychology of Women. An exploration of psychological research and theories as they apply to girls and women. A critical examination of gender similarities and differences. Prereq.: PSYC 1560. 3 s.h.

3730L. Psychology of Women Laboratory. Laboratory and field-based research techniques relating to the study of women and to gender similarities and differences. Two hours per week. Prereq.: PSYC 2617 and 2618 with C or better; PSYC 3730 must be taken concurrently. 1 s.h.

3734. ABA Principles I: Applied Behavior Analysis. Scientific and conceptual foundations of applied behavior analysis. Basic principles of behavior analysis and application in applied settings are emphasized. The behavioral approach is contrasted with other approaches to the understanding and treatment of behavior, with a focus on scientific criteria and methodological differences. Ethical standards are covered. Prereq.: PSYC 1560. 3 s.h.

3740. Psychological Measurement. Theories and principles of test construction, and an overview of psychological tests and questionnaires use in mental health, educational, and vocational settings. Prereq.: PSYC 2618. 3 s.h.

3745. The Minority Individual. Psychological research on the intrapersonal, interpersonal, and intergroup dynamics of being labeled a minority individual as the result of one’s race, ethnicity, religion, or gender. The behavioral effects of minority group membership and its impact on the relationship between the individual and the society. Prereq.: PSYC 3700, and either 3755, 3756, or 3757. 3 s.h.

3748. Stress: Theoretical and Clinical Models. Theories and empirical research on the role of stress in physical and emotional illnesses, and an examination of the psychological and physiological aspects of stress. Prereq.: PSYC 3700 or 3702. 3 s.h.

3750. Special Topics in Psychology. Selected areas of study not covered in the mainstream curriculum. May be repeated with different topics to a maximum of 9 s.h. toward the major. Prereq.: PSYC 1560. 3 s.h.
3755. Child Development. Foundations of human development from conception through approximately the first decade of life. Fundamental issues of developmental processes in biological, cognitive, and social-emotional domains and their broader implications for society and later development of the individual. Prereq.: PSYC 1560. 3 s.h.

3755L. Child Development Laboratory. Experimental and nonexperimental research methods for gathering data on the development of children. Two hours per week. Prereq.: PSYC 2617 with C or better and 3755 (may be taken concurrently). A criminal background check is required to take the course. 1 s.h.

3756. Adolescent Development. Human development from preteen to young adulthood. Prereq.: PSYC 1560. 3 s.h.

3757. Adult Development. Human development from adulthood through old age. Prereq.: PSYC 1560. 3 s.h.

3758. Lifespan Development. Study of theory and research on development from conception to death. Focus upon psychological, physiological, social, and cultural influences. May not be taken for credit if the student has received credit for two or more of PSYC 755, 756, 757, 3755, 3756, 3757. Prereq.: PSYC 1560. 3 s.h.

3760. Perception. Theories and experimental evidence on how environmental, physiological, and personal factors influence the reception, organization, and interpretation of sensory input. Concurrent: PSYC 3760L. Prereq.: PSYC 2618. 3 s.h.

3760L. Perception Laboratory. Laboratory demonstrations and experiments using research techniques in perception. Two hours per week. Concurrent: PSYC 3760. 1 s.h.

3761. Cognition. Experimental methods, research findings, and current theories concerned with human cognitive processes. The information-processing approach, focusing on how information is transformed, stored, manipulated, and retrieved. Topics include attention, pattern recognition and categorization, memory, and language. Concurrent: PSYC 3761L. Prereq.: PSYC 2618. 3 s.h.

3761L. Cognition Laboratory. Laboratory demonstrations and experiments using research techniques in cognition. Two hours per week. Concurrent: PSYC 3761. 1 s.h.

3763. Comparative Psychology. The variety of behaviors within the animal world. Prereq.: PSYC 2618. 3 s.h.

3764. Psycholinguistics. An overview of language production, use, and comprehension including the biological basis of speech and language development, social aspects of language, and bilingualism. Prereq.: PSYC 2618 or ENGL 3755. 3 s.h.

3764L. Psycholinguistics Laboratory. Research techniques in basic and applied psycholinguistics. Two hours per week. Concurrent: PSYC 3764. 1 s.h.

3765. Experimental Social Psychology. Problems, principles, methods and techniques of experimental social psychology including field and laboratory work culminating in the presentation of an individual project. Two hours lecture, two hours laboratory per week. Prereq.: PSYC 2618 and 3700. 3 s.h.

3770. Individual Study. Individual study of a special problem, or a review of the literature relating to a specific psychological problem or issue. A written report is required, one copy of which remains on file in the department. May be repeated for a maximum of 4 s.h. with different problems. Prereq.: PSYC 1560 and consent of the chairperson. 1-2 s.h.

3777. Cross-Cultural Social Psychology. A psychological examination of the impact of culture on individual social behavior as applied to topics such as attribution, moral reasoning, gender differences, and group dynamics. Prereq.: A minimum of 15 s.h. of Psychology including PSYC 3700. 3 s.h.

3775. Personality. Investigation of the variables that determine personality. Normal patterns of behavior and prominent theories of personality. Prereq.: PSYC 1560. 3 s.h.

3779. Careers in Psychology. Overview of career preparation and professional development. Students obtain information on career preparation, job search strategies, and graduate studies. Prereq.: PSYC 1560 and PSYC 2617. 3 s.h.

3780. Psychological Aspects of Disease and Death. The primary factors affecting an individual's attitude toward illness, bereavement, and mortality. The psychological and physiological aspects of disease processes and death. Prereq.: PSYC 1560. 3 s.h.

3785H. Honors Seminar in Psychology. Study of selected topics within psychology suitable to the honors program. Prereq.: Admission to the Psychology Honors Program, permit required. 1 s.h.

3790. Field Work in Psychology. Work in a community agency or organization. The work is supervised and evaluated on site. A paper is required which integrates the work experience with background reading. A maximum of 2 s.h. may be applied to the Psychology major. One s.h. for each 3 hours of field work per week. May be repeated up to 4 s.h. Prereq.: 9 s.h. in Psychology. 1-2 s.h.

4804. Conflict and Group Dynamics. Social psychological research and theory as applied to topics of conflict and group dynamics. Topics include: integrative bargaining, mediation, coalition formation, distributive and procedural justice, PD game, social facilitation, leadership, social dilemmas, group polarization and cohesiveness. Prereq.: PSYC 3700 or consent of chairperson. 3 s.h.

4804L. Conflict Laboratory. Experimental research methods used to gather data in group dynamics, bargaining, and conflict settings. Two hours per week. Prereq.: PSYC 2617 with C or better; PSYC 3700 with C or better; and PSYC 4804 (may be taken concurrently). 1 s.h.
4815. Health Psychology. Psychosocial factors that affect the promotion and maintenance of health, as well as the prevention and treatment of illness. Prereq.: 6 s.h. of 3700-level PSYC courses. 3 s.h.

4833. Principles of Operant Behavior. Experimental Analysis of behavior from an operant viewpoint, emphasizing simple and complex schedules of reinforcement and stimulus control. Concurrent: PSYC 4833L. Prereq.: PSYC 3705. 3 s.h.

4833L. Principles of Operant Behavior Laboratory. Experimental techniques for controlling the behavior of organisms with positive reinforcement. Laboratories include computer simulations. Two hours laboratory-discussion per week. Concurrent: PSYC 4833. 1 s.h.

4835. Special Topics in Developmental Psychology. Advanced and specialized topics in developmental psychology. Topics vary over semesters, and may include the study of infancy, the development of exceptional children, cross-cultural developmental psychology, among others. May be repeated with different topics to a maximum of 6 s.h. toward the major. Prereq.: PSYC 3755 or 3756 or 3757 or 3758. 3 s.h.

4836. ABA Principles II: Behavioral Assessment and Methodology. Behavior analytic techniques of functional analysis and descriptive analysis, demonstrating functional relationships and basic ABA research designs. Appropriate measurement, display, and interpretation of data with focus on research and evaluation methodology to evaluate interventions with single systems, including individuals, families, organizations, or other social systems. Prereq.: PSYC 3734. 3 s.h.

4837. ABA Principles III: Behavior Change Procedures. Behavior analytic techniques of functional analysis, functional assessment, descriptive analysis, establishing, strengthening, and weakening behaviors in applied settings. Guidelines on the selection of target behaviors, outcomes, the selection of effective procedures, management of emergency situations, and methods of maintenance and generalization of successful behavior change. Emphasis on ethical conduct. Prereq.: PSYC 4834. 3 s.h.

4841. History of Psychology. The development of scientific psychology, with major emphasis on trends since the mid-19th century. Prereq.: 9 s.h. of psychology. 3 s.h.

4850. Seminar. Major topics in psychology not covered in listed courses. Two s.h. may be applied to the psychology major. Prereq.: Senior standing in psychology, or consent of instructor. 2 s.h.

4857. Biopsychological Aspects of Health and Aging. Broad overview of development and change across the adult lifespan, focusing on an examination and understanding of biological aging and how they affect functioning, adjustment, and wellness. Distinction between primary aging (normal, universal biological changes) and secondary aging (disease, lifestyle-determined changes) will be made. Prereq.: PSYC 3757 or 3758. 3 s.h.

4860. Motivation. Classical and contemporary theories of motivation. Overview of research and theory on the interactive role of biological, learned, and cognitive components in motivation of human behavior, including emotion, need for achievement, affiliation, and power. Prereq.: PSYC 3705. 3 s.h.

4890. Senior Thesis. Data collection and a research paper on a topic approved by the thesis advisor. This project takes two semesters to complete. Must be repeated for a maximum of 2 s.h. Prereq.: 16 s.h. in psychology, including a C or better in PSYC 2618, and consent of thesis advisor and departmental chairperson. 1 s.h.

4891H. Honors Thesis. The student prepares an empirical research paper on a topic approved by an honors thesis advisor and honors thesis committee. May be repeated for a maximum of 4 s.h. Prereq.: Admission to the Psychology Honors Program. 1-2 s.h.

4895. Senior Psychology Capstone Experience. A capstone experience for the major in psychology. Prereq.: Senior status in psychology, PSYC 2618, and completion in one psychology laboratory course. 2 s.h.

5807. Introduction to Counseling. The role of the pre-professional in helping the clinical and counseling psychologist; theories of adjustment; area resources; referral; professional problems. Prereq.: PSYC 3702 or 4802. 3 s.h.

PUBLIC HEALTH—PHLT

Department of Health Professions

The following has been approved as a General Education course in the domain of Personal and Social Responsibility: 1568, Healthy Lifestyles.

1531. Fundamentals of Public Health. Provides an introduction to public health concepts and practice by examining the philosophy, purpose, history, organization, functions, tools, activities, and results of public health at the national, state, and community levels. Introduces the core disciplines of public health, and current events and issues in the field. 3 s.h.

1568. Healthy Lifestyles. Personal and consumer health issues and prevention of premature death analyzed from physical, emotional, social and spiritual perspectives. Plans for disease prevention and healthful living. Importance of health promotion to the individual, region, nation and world. 3 s.h.

3701. Pre-Professional Field Experience. Students participate in an approved community health education program under faculty supervision. Students observe and assist in the organization and/or delivery of programs. Prereq.: HSC 1568. 1 s.h.
3702. Health Education Theory and Methods. Overview of health education theory, history, ethics, and methods for the community, school, workplace and health care setting. Provides a foundation in teaching methods. Prereq.: PHLT 1568. Also listed as HPES 3702. 3 s.h.

3703. Health Education for Grades PreK-3. Comprehensive School Health Education curricula, methods and materials for teaching pre-kindergarten through third grade students. Prereq.: HSC 1568, 3702 and BIOL 1545 or AHLT 1500 and 1501. 3 s.h.

3704. Health Education for Grades 4-6. Comprehensive School Health Education curricula, methods and materials for teaching fourth through sixth grade students. Prereq.: HSC 1568, 3702 and BIOL 1545 or AHLT 1500 and 1501. 3 s.h.

3705. Health Education for Grades 7-12. Comprehensive School Health Education curricula, methods and materials for teaching seventh through twelfth grade students. Prereq.: HSC 1568, 3702 and BIOL 1545 or AHLT 1500 and 1501. 3 s.h.

3709. Elements of Urban Environmental Health Practices. Focus on development and implementation issues of environmental and public health programs necessary for urban and rural communities to meet acceptable public health standards at the local health department level with emphasis on resources and staffing, AHLT 3708, or permission of instructor. Also listed as AHLT 3709. 3 s.h.

3715. Health Education for Grades PreK-6. Comprehensive School Health Education curricula, methods and materials for teaching pre-kindergarten through sixth grade students. Prereq.: PHLT 1568, 3702 and BIOL 1545 or AHLT 1500 and 1501. Also listed as HPES 3715. 3 s.h.

3716. Health Education for Grades 7-12. Comprehensive School Health Education curricula, methods and materials for teaching seventh through twelfth grade students. Prereq.: PHLT 1568, 3702 and BIOL 1545 or AHLT 1500 and 1501. 3 s.h.

3731. Drug Use and Abuse. Alcohol, tobacco, and other drug use and their relationship to behavior and society. Emphasis on prevention, early intervention, and treatment in the behavioral medicine, health care, educational and criminal justice systems. Prereq.: HSC 1568. 3 s.h.

3757. Health and Disease. Study of the major chronic and communicable diseases affecting humans. Emphasis on etiology, prevention through health education and health promotion methods, and materials. Prereq.: HSC 1568, BIOL 1545 or AHLT 1500 and 1501. 4 s.h.

3791. Community Health. Study of the need for organized community health efforts: problems of chronic and communicable diseases, environmental health, world health, and the public and private agencies involved in their solutions. Prereq.: HSC 1568. 3 s.h.

4801. Field Work in Health Education. Provides the health education major with a supervised teaching or agency experience. Three hours per week. Prereq.: HSC 3701L and 3791. 1 s.h.

4826. Community Health Planning and Promotion. Fundamental techniques for assessing needs, planning, marketing and implementing health promotion programs in the workplace and community. Prereq.: HSC 3791 and AHLT 5807. 4 s.h.

4827. Evaluation of Health Promotion Programs. Theories and methods of program evaluation for assessing the quality of health promotion programs. Prereq.: HSC 4826. 3 s.h.

4828. Grant Writing. Methods and techniques for writing grant proposals related to health. Emphasis on competence in development of narrative, program plan, evaluation design, time line, identifying grant sources and managing funded projects. Prereq.: HSC 4826 and HSC 4827. 3 s.h.

4891. Community Health Internship. Supervised experience designed to provide an opportunity to plan, implement and evaluate a program in an approved community health setting. Approximately 35 hours per week. Prereq.: HSC 4828. 8 s.h.

5893. Workshop in Health Education. Concentrated study of a selected topic related to health education. The department will select and announce the topic and determine the credit hours based on the frequency and duration of workshop meetings. May be repeated for a maximum of 6 s.h. with change in topic. Prereq.: HSC 3701, 3791 or permission of instructor. 1-3 s.h.

PUBLIC RELATIONS—PREL

Department of Marketing

3710. Basic Public Relations. Study of the management function which investigates and evaluates public attitudes, policies, means, and techniques used in the field to earn public understanding and acceptance. Prereq.: ENGL 1551. 3 s.h.

RADIOGRAPHY—RADG

Department of Health Professions

1501. Introduction to Radiography. History of radiology, basic radiation production and protection, communication skills, introduction to medical terminology, primary exposure factors, image production, processing, legal issues, ethics, and radiographic equipment will be covered. Prereq.: BIOL 1545 and admission to the Radiography program. 4 s.h.
1501L. Introduction to Radiography Lab. An introduction to methods of providing basic patient-care skills, infection control, safety; body mechanics, emergency medical procedures, and legal issues. Three hours of lab per week. Concurrent with RADG 1501. Prereq.: BIOL 1545. 1 s.h.

1505/1505L. Radiography Procedures I. Orientation to detailed skeletal anatomy and positioning principles, including, mobile and surgical radiography. Practice with X-ray, processing, and darkroom equipment; positioning principles and image evaluation. Two hours of lecture, three hours of laboratory, and sixteen hours of clinical per week. Concurrent with RADG 1501. 4 s.h.

1511. Radiographic Technique. Detailed study of X-ray interactions, primary exposure factors and their effect on contrast and density, image receptor characteristics, intensifying screens, processing, primary and secondary radiation, technique formulation and exposure compensation. Prereq.: RADG 1505/1505L. 4 s.h.

1512. Radiologic Physics. Principles of X-ray production to include atomic structure, electromagnetic spectrum, electricity, electromagnetism, X-ray circuit, X-ray tubes, generators, transformers, fluoroscopic imaging, grids, automatic exposure control devices, principles of tomography, and digital radiography. Prereq.: RADG 1501 and 1505/1505L. 4 s.h.

1515/1515L. Radiographic Procedures 2. Detailed skeletal anatomy and positioning principles for urinary, gastrointestinal, vertebral column, skull, sinus, facial bones and trauma radiography. Application and practice of positioning principles and image evaluation. Two hours of lecture, three hours of laboratory, and sixteen hours of clinical per week. Prereq.: RADG 1505/1505L. 4 s.h.

2600. Advanced Radiologic Procedures and Modalities. Advanced contrast procedures including angiography, cardiac catheterization, CT, MRI, mammography, ultrasound and nuclear medicine. Selected clinical experience in hospital X-ray departments. Two hours of lecture and thirty-two hours of clinical experience. Prereq.: RADG 1515/1515L. 4 s.h.

2601. Radiographic Image Critique. Critical evaluation of the radiograph, with emphasis on quality control, improvement of the radiograph, and adjustment to the radiographic technique. Concurrent RADG 2602 and 2605. Prereq.: RADG 2600. 2 s.h.

2602. Radiographic Pathology. Study of diseases relating to radiography; signs, symptoms, etiology, and prognosis, as well as radiographic appearance of disease; and explanations of radiographic technical factors related to pathology. Concurrent RADG 2601 and 2605. Prereq.: RADG 2600. 2 s.h.

2605/2605L. Radiographic Imaging Science. An overview of radiologic imaging science, and an in-depth evaluation of photographic and geometric factors affecting radiographic quality; technical formulae, film, film processing, sensitometry and quality control. Three hours of lecture, three hours of laboratory, and twenty-four hours of clinical per week. Prereq.: RADG 2600. 5 s.h.

2611. Radiobiology and Protection. Radiobiology including sources of radiation, effects of radiation on the human, protection techniques, analysis of dose-response models, risk assessment techniques, and methods of determining and evaluating patient dose. Prereq.: RADG 2601, 2602, and 2605. 3 s.h.

2615. Advanced Topics in Radiography. Radiology information systems, PACS systems, quality management, quality assurance, ethical and legal issues, and other current topics. Three hours of lecture and twenty-four hours of clinical per week. Prereq.: RADG 2601, 2602, and 2605. 4 s.h.

READING AND STUDY SKILLS—RSS
Department of Counseling

1510A. Advanced College Success Skills. A course designed to develop students’ skills essential for college studying. The primary focus is improving the comprehension and retention of college textbooks. Major topics include reading rate flexibility, vocabulary growth, learning style preferences, and critical reading skills. Students meet for classroom instruction, computer-aided instruction, and small group tutoring sessions to discuss and practice strategies. Open to students based on Composition and Reading Placement Test (CRPT). Grading is A, B, C, NC. Does not count toward a degree. 3 s.h.

1510B. Basic College Success Skills. A course designed to acquaint and assist students in their transition to studying at the college level. Course content stresses development of skills in word recognition, vocabulary, and reading to find main ideas, supporting evidence and conclusions in college textbooks. Students meet for classroom instruction and small group tutoring sessions to discuss and practice various thinking, listening, and reading strategies to improve college performance. Open to students based on Composition and Reading Placement Test (CRPT). Grading is A, B, C, NC. Does not count toward a degree. 3 s.h.

1510C. STEM Advanced College Success Skills. Develops study skills in STEM disciplines by improving comprehension and retention of textbook and lecture materials. Covers reading rate flexibility, vocabulary growth, learning style preferences, critical reading, and problem solving. Uses classroom instruction, computer-aided instruction, and small-group tutoring sessions to apply strategies, including STEM-based lecture applications. Also listed as STEM 1510. Prereq.: placement into MATH 1501 and ENGL 1540 or above and either RSS 1510A or no reading placement. Grading: A, B, C, N/C. 4 s.h.

1570. Approaches to Professional Assessments. A course designed to assist students in preparation for graduate and professional-level standardized tests.
Students will critically analyze the basic components of such tests. Emphasis will be placed on test requirements, test formats, guidelines for answering and scoring, and test-taking strategies.  2 s.h.

1571. Approaches to Professional Assessments—Applications. A course designed to prepare students for graduate and professional-level standardized tests. In study groups, students will critically analyze the basic components of the test for which they are preparing, including requirements, test formats, guideline for answering and scoring, and test-taking strategies, in conjunction with effective pedagogical procedures.  1 s.h.

RELIGIOUS STUDIES—REL
Department of Philosophy and Religious Studies

The following have been approved as general education courses. In the domain of Personal and Social Responsibility, 2621, Religion and Moral Issues; 2631, Religion and the Earth. In the Societies and Institutions: 2601, Introduction to World Religions; 2617, Introduction to Eastern Religions. In Special Topics: 2605, Myth, Symbol, and Ritual. The following courses have been approved as general education intensive courses: Oral Communication Intensive: 2605, Myth, Symbol and Ritual. Writing Intensive: 3720, Islam; 3743, Ethics and Politics in Islam.

Lower-Division Courses

2601. Introduction to World Religions. A survey of the major world religions exploring their distinctive features and common threads. A study of their founders, systems of thought, symbols, and sacred literatures.  3 s.h.

2605. Myth, Symbol, and Ritual. An introduction to the nature and function of myth, symbol, and ritual. Myth interpretation, the relationship between societies and their myths, and the cultural use of myths, symbols, and rituals in religious and spiritual contexts.  3 s.h.

2608. The Examined Life. Considers the nature of happiness and well-being, their relation to social institutions, and the roles that civic and personal relations, morality, aesthetics, education, and religion play in providing happiness, purpose, and meaning in one’s life. Cross listed as PHIL 2608.  3 s.h.

2617. Introduction to Eastern Religions. A survey of the religions of India, China, and Japan, their systems of thought, moral values, and methods of personal transformation.  3 s.h.

2621. Religion and Moral Issues. The relation of specific religious and moral issues to questions of personal conduct and social policy.  3 s.h.

2631. Religion and the Earth. A cross-cultural survey of the religious beliefs and values that have shaped our thinking about the earth. An exploration of the shifts in religious thought called for by the ecological crisis of sustainability.  3 s.h.

2699. Introductory Individual Study in Religious Studies. Introductory study of a religious studies problem, movement, thinker, or the relationship of religious studies to problems in other disciplines. Intended to be an independent study course with subject matter dependent upon approval of the faculty member and student. May be repeated up to 3 s.h.  1 s.h.

Upper-Division Courses

3708. African-American Religion. Development of African-American religion and theology from the days of slavery to the present. Prereq.: One 2600-level REL or AFST course.  3 s.h.

3710. African and Neo-African Religion. A study of African religious traditions and their pivotal role in the formation of African civilizations and communities in the African diaspora, including their adaptations of Islam and Christianity. Prereq.: REL 2601 or PHIL 2600 or AFST 2600.  3 s.h.

3720. Islam. The study of the origins and development of classical and modern Islam, including the Prophet Muhammad, the Qur’an, and Muslims in America. Prereq.: REL 2601.  3 s.h.

3722. Christianity. The origin and development of Christianity; examination of the life and teachings of Jesus; Christian theology, liturgy, and symbolism; discussion of divisions of contemporary Christianity. Prereq.: REL 2601 or PHIL 2600.  3 s.h.

3724. Judaism. The study of the origin and development of Judaism, including scriptural legacy, the Talmudic period, and the transformations of the classical tradition in modern times. Prereq.: REL 2601.  3 s.h.

3726. Buddhism. A study of the origin of Buddhism in India and its development through East Asia and Tibet, its systems of thought, institutions, and medi- tational practices; and Buddhists in America. Prereq.: REL 2601 or 2617.  3 s.h.

3731. Hebrew Scriptures. A critical analysis of the Hebrew scriptures in terms of historical background, textual development, and religious and ethical themes. Prereq.: One 2600-level REL or PHIL course.  3 s.h.

3732. Jesus and the Gospels. The life and teachings of Jesus in their historical context. Examination of the ways in which Jesus is interpreted within the synoptic gospels. Prereq.: One 2600-level REL or PHIL course.  3 s.h.

3733. Women And the Bible. A study of Biblical interpretation utilizing narratives that portray women in Hebrew and Christian Scriptures. Students will learn analytical skills required for narrative interpretation and exegetical analysis. Prereq.: One 2600-level REL course.  3 s.h.

3741. Islamic Mysticism and Philosophy. Investigates the rise and growth of Islamic mysticism, including its major themes and principle figures, and of the Islamic philosophical tradition and the Greek influences on it. Prereq.: One 2600-level REL course.  3 s.h.
3743. Ethics and Politics in Islam. Study of ethical reflection in Islam, including major works, principal themes, and Islamic ethics today; Muslim theories of the state, dissent and schism in Islamic history, the position of non-Muslims in Islam, and modern developments in political theory. Prereq.: One 2600-level REL course. 3 s.h.

3751. Liberation Theologies and Revolutionary Change. Study of liberation theologies in the Third World and in minority communities in the West, in relation to questions of underdevelopment, poverty, and oppression. Prereq.: REL 2601. 3 s.h.

3754. Feminism, Ecology and Religion. Investigation of religious perspectives related to women and nature, the relationship of the sacred to the natural world, scriptural and theological influences, and deep ecology and other environmental movements from a feminist perspective. Prereq.: REL 2601 or 2631 or WMST 2601. 3 s.h.

3756. Psychology of Religion. Survey of developments in depth psychology that have shaped our understanding of religious experience and spirituality. Prereq.: PSYC 1560 or one 2600-level REL course. 3 s.h.

3758. Transpersonal Studies. A critical study of contemporary developments in consciousness research including such topics as near-death episodes, reincarnation, nonordinary states of consciousness, and the implications of quantum theory. Prereq.: REL 2601 or 2617. 3 s.h.

3799. Intensive Individual Study in Religious Studies. Intensive study of a religious studies problem, movement, thinker, or the relationship of religious studies to problems in other disciplines. Intended to be an independent study course with subject matter dependent upon approval of the faculty member and student. Prereq.: One 3700 level REL course. May be repeated up to 3 s.h. 1 s.h.

4810. Directed Readings in Religious Studies. Independent study course with subject matter dependent upon approval of the faculty member in consultation with student. Prereq.: Any 3700 level REL course. 3 s.h.

4850. Seminar in Religious Studies. Study in depth of a particular figure, topic or area in religious studies, as determined by the instructor; may be repeated once with different course content. Prereq.: One 3700-level REL course. 3 s.h.

4860. On-Site Studies in Religion. An on-site investigation of the beliefs and practices of a particular religion or sect through readings, lectures, interviews, and travel to locations vital to its origin or development. Prereq.: Two 3700-level REL courses. 3-9 s.h.

4871. Senior Capstone Project. Research and writing of a paper, or other committee approved project, on a topic in religious studies, under the supervision of a full-time faculty member and in consultation with a committee of at least two other members of the department. Prereq.: Religious Studies major with senior standing and completion of at least 21 s.h. of REL courses. 3 s.h.

RESPIRATORY CARE—RESC
Department of Health Professions

Lower-Division Courses

1503. Respiratory Procedures 1. Appropriate use of selected respiratory care procedures. Two hours lecture, three hours lab. Prereq.: RESC 1530. 3 s.h.

1520. Respiratory Care Assessment 1. Diagnostic techniques used in evaluating patients with cardiopulmonary disorders. Two hour lecture, two hours lab. Prereq.: RESC 1530. 3 s.h.

1529. Respiratory Care Orientation. Scope of profession including key organizations, role within healthcare system and career options. Includes applied anatomy and physiology of respiratory system and basic assessment and therapeutic procedures. Hospital experiences included. One hour lecture and two hours lab. 2 s.h.

1531. Respiratory Care Essentials. Application of basic scientific principles to the respiratory-care profession. Includes coverage of basic equipment, assessment techniques, and therapeutic procedures. Two hours lecture and two hours lab. 3 s.h.

2620. Respiratory Assessment 2. Advanced techniques in the assessment of cardiopulmonary disorders. Two hours lecture, two hours lab. Prereq.: RESC 1520. 3 s.h.

2621. Cardiopulmonary Disease. Comprehensive overview of cardiopulmonary disorders encountered by respiratory therapists. Includes applications to clinical protocols. Prereq.: RESC 2620. 4 s.h.

2699. Clinical Practice 1. Orientation to hospital and department policies, including exposure to and practice with basic respiratory care procedures. Five hours a week in clinics. Prereq.: RESC 2621. 1 s.h.

3706. Respiratory Procedures 2. Airway management techniques and other critical care procedures. Two hours lecture, three hours lab. Prereq.: RESC 2620. 3 s.h.

3708. Respiratory Clinical Specialties. Fundamentals of hemodynamic monitoring, management of burn patients, and assessment of neurotrauma. Two hours lecture, three hours lab. Prereq.: RESC 3706. 3 s.h.

3709. Neonatal/Pediatric Respiratory Care. Respiratory care applications in neonatal/pediatric settings. Three hours lecture, three hours lab. Prereq.: RESC 3706. 4 s.h.

3720. Mechanical Ventilation 1. Basic theory and application of mechanical ventilation in critical care areas. Two hours lecture, three hours lab. Prereq.: RESC 3708. 3 s.h.
3725. Mechanical Ventilation 2. Advanced theory and application of mechanical ventilation. Includes home care ventilators. Two hours lecture; three hours lab. Prereq.: RESC 3720. 3 s.h.

3731. Respiratory Care Management. A study of the basic managerial process, organizational concepts, budgeting, quantitative planning, decision-making, and issues of control as they relate to the manager of a hospital-based respiratory care department. Prereq.: RESC 3725. 3 s.h.

*3740. Clinical Practice 2. Application of basic and advanced respiratory care modalities. Three hour lab, twenty clinical hours per week. Prereq.: RESC 2699. 4 s.h.

3741. Clinical Practice 3. Application of basic and advanced respiratory care modalities for pediatric and adult patients. Twenty hours a week. Prereq.: RESC 3740. 3 s.h.

3750. Pulmonary Rehabilitation. Demonstration of the multidisciplinary nature of a pulmonary rehabilitation program. The role of the respiratory care practitioner in preventive care activities. Prereq.: RESC 3706. 2 s.h.

3765. Advanced R.C. Diagnostics. RCPs role in EKG, EEG, and Holter monitoring. Clinical significance of various stress testing regimens. One hour lecture, two hours lab. Prereq.: RESC 3708 or permission of instructor. 2 s.h.

4831. Pulmonary Care Management. Pathology as it relates to care of patients with pulmonary-related disorders. Prereq.: RESC 3725. 3 s.h.

4835. Clinical Practice 4. Application of advanced respiratory modalities and diagnostics for pediatric and adult patients. Capstone course for RC program. Fifteen hours a week. Prereq.: RESC 3741. 3 s.h.

4838. Respiratory Seminar 1. Review of current aspects of clinical respiratory care. A content analysis of the updated NBRC Entry-Level exam will be included. Prereq.: RESC 3741. 1 s.h.

4842. Respiratory Seminar 2. Review of current aspects of clinical respiratory care. A content analysis of the updated NBRC Advanced Practitioner exam will be included. Prereq.: RESC 4838. 1 s.h.

4846, 4848. Sleep Diagnostics. Scientific theory and clinical techniques needed to perform polysomnography. Two hours lecture, two hours lab. Prereq.: Senior standing and RESC 3740 for 4846, RESC 4846 for 4848. 3 s.h.

4847, 4849. Sleep Clinics 1, 2. Polysomnographic techniques in the clinical setting. Approximately 100 contact hours for each course. Prereq.: Senior standing and RESC 4846 for 4847, RESC 4848 and 4847 for 4849. 1 s.h.

### SCIENCE, TECHNOLOGY, ENGINEERING, AND MATH—STEM

#### College of Science, Technology, Engineering, and Math

The following has been approved as a General Education course in the domain of Natural Sciences: 2600, Explorations in Science.

1510. STEM Advanced College Success Skills. Develops study skills in STEM disciplines by improving comprehension and retention of textbook and lecture materials. Covers reading rate flexibility, vocabulary growth, learning style preferences, critical reading, and problem solving. Uses classroom instruction, computer-aided instruction, and small-group tutoring sessions to apply strategies, including STEM-based lecture applications. Also listed as RSS 1510C. Prereq.: placement into MATH 1501 and ENGL 1540 or above and either RSS 1510A or no reading placement. Grading: A, B, C, N/C. 4 s.h.

1599. Medical Professions Seminar. Introduction to the doctoral medical professions. Review of careers including allopathic medicine, osteopathic medicine, dentistry, optometry, podiatric medicine, chiropractic medicine, veterinary medicine, and pharmacy; also entrance requirements for medical programs and advising resources at YSU. Grading is CR/NC. 1 s.h.

2600. Explorations in the Sciences. Student investigations in the natural sciences using a variety of laboratory approaches focused on a single theme or concept; a multidisciplinary study from two of the following science areas (biology, chemistry, physical geography, geology, physics, astronomy, environmental science) segmented in three five-week units (6 hrs/wk including 2 to 3 hours of instruction). 4 s.h.

2601H. BSMD Honors Seminar. An interdisciplinary course dealing with topics appropriate to students in the BSMD program. The subjects include, but are not limited to, MCAT preparation, study skills appropriate for the accelerated curriculum, the organization and function of the university, critical thinking, current events, etc. Prereq.: Acceptance into BSMD program. 2 s.h.

3700. Human Values in Medicine. A behavioral science and humanities perspective on individual and social issues which affect medical care delivery. In addition to classes, seminars, and workshops, it may include field projects, participation in health-related investigations and presentations, and personal development programs. Credit toward fulfillment of the area requirement will be determined by the dean of the College of Arts and Sciences and will be based upon the selection of courses. May be repeated once. Prereq.: PSYC 1560 and PHIL 2600 or consent of dean. For current students. 1-7 s.h.
4800. Materials and Manufacturing Co-op Assignment. Cooperative educational experience within Materials and Manufacturing Co-op Consortium for STEM students with junior or senior standing. Students will be assigned as a full-time Co-op for 15 weeks with an industrial consortium partner to obtain practical learning and training in the major field of study focused toward the industrial partners needs. Consult department for requirements. Prereq.: junior or senior standing, STEM major, selection of employer, and approval of student's program. May be repeated. 3 s.h.

4890. Internship. Integrate theory and practice through supervised learning experiences provided by an appropriate working professional and an Arts and Sciences faculty member. Students will submit a proposal for the internship, maintain a journal of experiences, and submit a final project paper. Students should expect to spend at least 4 hours/week per credit. Prereq.: Junior standing with at least 6 s.h. of coursework in the discipline of the internship, and consent of the appropriate chairperson. May be repeated for a maximum of 6 s.h. 2-3 s.h.

SECONDARY EDUCATION—SED

Department of Teacher Education

3706. Principles of Teaching Adolescents. Lesson/unit planning using instructional strategies that motivate diverse students. Integrates content knowledge, pedagogy, technology, and cross-disciplinary curriculum exploration. Critical reflection and analysis of teaching experiences through peer teaching and classroom teaching in local secondary schools. Prereq.: BCOE upper-division status and approval of chairperson. Coreq.: TERG 3711, FOUN 3710 and one of SED 4800B, 4800C, 4800E, 4800, 4800M, 4800S or HMEC 4800 or FNGL 4801 or HSC 3703, 3704 and 3705. 3-5 s.h.

4800B. Special Methods: Integrated Business. Techniques used in teaching integrated business subjects. Observation of teaching in a vocational setting, presentation of a lesson in a secondary or vocational school, unit development, reflective writing. Organization, administration, implementation, and evaluation of vocational business education programs at the secondary and adult education levels. Prereq.: BCOE upper-division status and approval of chairperson. Coreq.: SED 3706, TERG 3711 and FOUN 3710. 3 s.h.

4800C. Special Methods: Science. Using NSTA/NCATE and Ohio content standards, candidates establish and maintain learning environments that provide diverse students with a holistic, interdisciplinary understanding of science. Background for teaching science, instructional strategies, classroom management, planning instruction, assessment, professional development, integration of content with inquiry emphasized. Field experience combining pedagogy/methodology in a middle grades or adolescent classroom required. Prereq.: BCOE upper-division status, 24 s.h. science, and approval of chairperson. 3 s.h.

4800S. Special Methods: Social Studies. Theory and practice in learning how to plan, execute, and evaluate social studies lessons that are empowering, interesting, and reflective. Topics include: creating thematic unit plans; interpreting academic standards; writing instructional objectives; creating authentic learning activities; authentic assessment; classroom management and democratic discipline. Prereq.: BCOE upper-division status and approval of chairperson. Coreq.: SED 3706, TERG 3711 and FOUN 3710. 3 s.h.

4827. Supervised Student Teaching: Language (K-12). Grading is CR/NC. See requirements for student teaching under COE. Prereq.: BCOE upper-division status, passing scores on PRAXIS II content and PLT tests, criminal background check, and completion of foreign language program excluding student teaching and student teaching seminar. Coreq.: SED 4842A. 1-15 s.h.

4842. Supervised Student Teaching: High School. Full-time 16-week student teaching in grades 7-12 supervised by University faculty and experienced AYA practitioners licensed in the teaching subject of the candidate. To be taken concurrently with SED 4842A. Grading is CR/NC. Prereq.: BCOE upper-division status, passing scores on PRAXIS II content and PLT tests, criminal background check, and completion of adolescent/young adult or career/technical program excluding student teaching and student teaching seminar. Coreq.: SED 4842A. 1-10 s.h.

4842A. Student Teaching Seminar for Secondary Education. Seminar topics are based on pedagogy, knowledge and application of professional practice and standards, critical theory, and knowledge of the
adolescent and young adult learner. Completion of the Teacher Work Sample is required. Coreq.: One of SED 4827, 4842, 4843, 4844, 4845, or 4846.  1-2 s.h.

4843. Supervised Student Teaching: Visual Art (K-12). Grading is CR/NC. See requirements for student teaching under COE. Prereq.: BCOE upper-division status, passing scores on PRAXIS II content and PLT tests, criminal background check, and completion of visual art program excluding student teaching and student teaching seminar. Coreq.: SED 4842A.  1-15 s.h.

4844. Supervised Student Teaching: Music (K-12). Grading is CR/NC. See requirements for student teaching under COE. Prereq.: BCOE upper-division status, passing scores on PRAXIS II content and PLT tests, criminal background check, and completion of music program excluding student teaching and student teaching seminar. Coreq.: SED 4842A.  1-15 s.h.

4845. Supervised Student Teaching: Health (K-12). Grading is CR/NC. See requirements for student teaching under COE. Prereq.: BCOE upper-division status, passing scores on PRAXIS II content and PLT tests, criminal background check, and completion of health program excluding student teaching and student teaching seminar. Coreq.: SED 4842A.  1-15 s.h.

4846. Supervised Student Teaching: Physical Education (K-12). Grading is CR/NC. See requirements for student teaching under COE. Prereq.: BCOE upper-division status, passing scores on PRAXIS II content and PLT tests, criminal background check, and completion of physical education program excluding student teaching and student teaching seminar. Coreq.: SED 4842A.  1-15 s.h.

4850. Supervised Student Teaching: Career/Technical. Full-time 16 week student teaching in grades 4-adult supervised by University faculty and experienced career/technical practitioners licensed in the teaching subject of the candidate. Grading is CR/NC. Prereq.: BCOE upper-division status, passing scores on PRAXIS II content and PLT test, criminal background check, and completion of adolescent/young adult or career/technical program excluding student teaching and student teaching seminar. Coreq.: SED 4842A.  1-15 s.h.

1510. Introduction to Social Work. An overview of the values, systems, policy, theories and concepts central to the profession of social work. This course will also review roles, licensure requirements and history of the social work profession. This is the first course orienting students to the social work profession. Prereq: SOC 1500.  3 s.h.

2622. Social Work Processes. Addresses the full range of communication skills in systems of all sizes for professional social work practice. Includes principles of effective communication, functions and purposes of communication, and the roles of social workers. Arranged volunteer experience required. Three hours lecture, three hours of field. Prereq.: SCWK 1510.  3 s.h.

2641. American Social Welfare. Overview of the history and evolution of social welfare programs and services in America. Emphasis on the identification and interrelationships of social values and structures, political factors, and economic conditions on resource allocation, including meeting the needs of special populations. Prereq.: SCWK 1510.  3 s.h.

2642. Human Behavior and the Social Environment for Social Workers 1. A general social systems approach as a conceptual framework to the understanding of culture and society, communities, organizations, groups, families, and individuals as they develop over the lifespan. Application of theory and research to social work. Prereq.: AHLT 1500, 1501, SCWK 1510, and PSYC 1560.  3 s.h.

2644. Human Behavior and the Social Environment for Social Workers 2. An ecosystems perspective in understanding families, groups, organizations and communities. Focus on individuals and their transactions with each other and their environment. Application of theory and research to social work. Prereq.: SCWK 2642.  3 s.h.

2695. Applied Social Work. A practicum in human service agencies for the Social Services Technology major. The student must spend 225 hours in an agency for a total of 6 s.h. credit. Prereq.: Completion of all courses for admission to the two-year Social Services Technology Internship.  6 s.h.

Upper-Division Courses

3728. Social Services for Children. Social welfare agencies and services developed by communities for the care and training of children. Development of a conceptual framework for understanding the issues, problems, and policies in children's services. Prereq.: SCWK 1510.  3 s.h.

3730. Social Services and the Aged. An empirical and analytical base for understanding the policies, problems, and trends in services for the aged. Prereq.: SCWK 1510.  3 s.h.

3731. Social Services and the Disabled. Problems arising from or related to illness and disability; adjustment of disabled persons. General interventive techniques for working with the disabled; recent research and treatment innovations. Prereq.: SCWK 1510.  3 s.h.

3736. Social Work Methods with Individuals. Overview of generalist practice methods with client systems of varying sizes. In-depth analysis of problem solving strategies and skills in working
with individuals. Theory and research relating to practice. Social work purposes, functions, and values are addressed from the systems perspective. Prereq.: Admission to SCWK Program. 3 s.h.

3737. Social Work Methods with Groups. In-depth analysis of problem-solving strategies and skills in working with small groups. Theory and research relating to practice. Social work purpose, functions, and values are addressed from the systems perspective. Prereq.: SCWK 3738. 3 s.h.

3738. Social Work Methods with Families. In-depth analysis of problem-solving strategies and skills in working with families. Theory and research relating to practice. Social work purposes, functions, and values are addressed from the systems perspective. Prereq.: SCWK 3736. 3 s.h.

3750. Analysis of Social Work Practice Data. Techniques of data description and introduction to analytical methods used to evaluate service delivery at all levels of social work practice. Prereq.: SCWK 2622, 2641, 2642, 2644. 3 s.h.

3760. Research Methods for Social Workers. Quantitative and Qualitative research methodologies for building knowledge for social work practice. Systematic evaluation of outcomes, theoretical bases, relevant technological advances, and ethical standards. Prereq.: SCWK 3750. 3 s.h.

4825. Field Work in Social Services. Professionally supervised practice in an approved social agency. The student must complete 225 hours per semester in an agency for each 6 s.h. of credit. Must be taken two consecutive semesters for a total of 12 s.h. Credit/no credit grade option only. Prereq.: Admission to Social Work Internship. 6 s.h.

4826. Integrated Field Work Seminar. Integration and evaluation of conceptual, affective, and experiential learning achieved from previous social work courses and field-based assignments. Concurrent: SCWK 4825 first enrollment. Prereq.: Completion of courses required to enter field work. 3 s.h.

4827. Integrated Capstone Seminar. Provides opportunities to synthesize and integrate all the previous coursework from social work education. Includes both theoretical and experiential assignments to assist students with increased self-awareness and to prepare them for the transition from college to entry-level generalist practice. Concurrent: SCWK 4825 second enrollment; Prereq.: Completion of courses required to enter field work and SCWK 4826. 3 s.h.

4860. Seminar Special Topics in Social Work. Study of selected topics in social work theory, methods and research. May be repeated with different topics. Prereq.: Junior standing or permission of instructor. 3 s.h.

5820. Social Policy. Review of the programs, structure, and functions of social services including historical development and social, political, and economic issues. Application of scientific method to analyze and develop social work policies designed to achieve social work goals and purposes. Prereq.: SCWK 2641, POL 1560. 3 s.h.

5822. Social Work Methods with Organizations and Communities. In-depth analysis of problem-solving strategies and skills in working with organizations and communities. Theory and research relating to practice. Social work purpose, functions, and values are addressed from the systems perspective. Prereq.: SCWK 3738. 3 s.h.

5823. Cultural Diversity in Practice. Emphasis on understanding the experiences, beliefs, and inherent problems of racial and ethnic minority groups. Focuses also on populations distinguished by socioeconomic status, gender, age, sexual orientation, religion, and physical or mental disability. Application of theories, differential assessment, and intervention skills necessary for effective social work practice. Prereq.: SCWK 3736 or permission of instructor. 3 s.h.

SOCIOLOGY—SOC
Department of Sociology and Anthropology

The following has been approved as a General Education course in the domain of Societies and Institutions: 1500, Introduction to Sociology.

Lower-Division Courses

1500. Introduction to Sociology. An introduction to the science of human societies and groups: analysis of the structures, functions, and processes that bring about changes in societies, groups, communities, classes, and institutions. 3 s.h.

2601. Social Problems. A sociological overview of various contemporary social issues, analyzing significant discrepancies between standards of expectation and actual social behavior, attempting to ascertain possible causes, and discussing trends and possible changes. 3 s.h.

2630. Criminology. Study of the social context of crime in America. Review of historical theories offered in explanation of criminal behavior. 3 s.h.

2640. Women in Society. Attention to cross-cultural and historical issues. Major focus on the contemporary status of women in the U.S. Effects of the political and economic institutions upon women, particularly the effect of stratification, gender roles, and the socialization process. Prereq.: SOC 1500. 3 s.h.

2690. Identities and Differences. A study of personal and social issues that shape the understanding and development of identity and diversity. 3 s.h.

Upper-Division Courses

3700. Minority Groups. Survey of the origins and characteristics of ethnic and racial minority groups, with emphasis on the significance of membership in such a group for in-group, out-group, and community solidarity. Cross-listed with AMER 3700. Prereq.: SOC 1500. 3 s.h.
3701. Social Statistics. Measurement and interpretation of social data by use of descriptive techniques. Examines methods of probability theory as a basis for statistical inference, hypothesis testing, correlation, chi-square, and variance analysis. Prereq.: SOC 1500 or ANTH 2602, successful completion of ENGL 1551 and MATH 1501 or a level 3 or higher on the math placement exam. Listed also as ANTH 3701. 4 s.h.

3703. Aging and Society. An interdisciplinary introduction to studies in aging. Examines the impact of population aging and its effect on the society at large. Also examines individual aging processes and social significance of aging. Prereq.: SOC 1500 or GERO 1501. Listed also as GERO 3703. 3 s.h.

3705. The Family. Family and kinship systems as major institutions; their development, functions, and relation to other basic institutions found in different cultures and social strata. Prereq.: SOC 1500 or ANTH 2602. 3 s.h.

3707. Urban Sociology. A comparative study of cities of pre-industrial and industrial societies, historical and contemporary. The process of urbanization and changing urban structure and functions. Prereq.: SOC 1500. 3 s.h.

3708. Political Sociology. The social conditions that affect government and politics and that may help to determine political order and regulate struggles for power; associations and movements leading to stability or change. Prereq.: SOC 1500. 3 s.h.

3720. Applied Sociology. Uses of sociology in practical affairs, providing theory and data for public policy, institutional reform, social action programs, and social inventions. Contributions to architectural design, industrial engineering, community planning, and innovative legislation. Cross-listed with AMER. Prereq.: SOC 1500. 3 s.h.

3735. Juvenile Delinquency. Social and psychological factors underlying delinquency; the juvenile court and probation; treatment and preventive measures. Prereq.: SOC 1500. 3 s.h.

3740. Complex Organizations. Structures and processes of large-scale organizations: leadership, control techniques, tensions, bureaucratic pathologies, organizational change. Prereq.: SOC 1500. 3 s.h.

3741. Social Movements. Analysis of the role of social movements, intellectual criticism, and socio-economic trends; study of the dynamics of change initiated outside of regular and institutionalized channels, including mobs and crowds. Prereq.: SOC 1500. 3 s.h.

3742. Small Group Processes. A study of small group behavior; influence, attitudes, and values of social microsystems. Prereq.: SOC 1500. 3 s.h.

3743. Social Stratification and Inequality. Comparative analysis of social stratification systems with major emphasis on modern Western societies. Prereq.: SOC 1500. 3 s.h.

3744. Social Deviance. Problems of drug abuse, sexual deviation, crime, and other forms of deviance. Theoretical approaches to deviant behavior; etiologies and methods of social control. Prereq.: SOC 1500. 3 s.h.

3745. Sociology of Health, Illness, and Healthcare. Social attitudes toward illness. Cultural and social factors in disease definition of illness, and organization of the health professions and health facilities. Prereq.: SOC 1500, GERO 1501, or admission to NEOUCOMYSU program. Listed also as GERO 3745. 3 s.h.

3749. Sociological Theory. The major theoretical traditions in Sociology emerging from the enlightenment period and evolving to the present. Prereq.: SOC 1500 or ANTH 2602. 3 s.h.

3752. Evaluation Research. Introduction to the field of evaluation research of social policy and programs. Current procedures, concepts, and techniques. Social and ethical issues of research. Prereq.: SOC 3701. 3 s.h.

3755. Theories of Gerontology. Review and critical analysis of current theories of the social aspects of aging, and their use in research. Prereq.: SOC 1500 or GERO 1501. Listed also as GERO 3755. 3 s.h.

3756. Aging and Ethnicity. Aging in American subcultures, noting differences in status/role systems, demographic distributions, life styles, methods of dealing with the elderly, and related problems. Listed also as GERO 3756. Prereq.: SOC 1500 or GERO 1501. 3 s.h.

3757. Aging and Social Policy. Critical examination of social policies and social systems which affect aging and retirement. Prereq.: SOC 1500, GERO 1501, or POL 1560. Listed also as GERO 3757 and POL 3757. 3 s.h.

3759. Sociology of Dementia. The understanding of the nature, causes, symptoms, and social consequences of dementia. Attention to the status of aging, and to the status of those who suffer from dementia in contemporary society. Prereq.: SOC 1500. 3 s.h.

3760. Sociology of Death and Dying. Analysis of the social aspects of human death, dying, and bereavement using various sociological approaches. Explores data from secondary sources, surveys, and field investigations that relate to the institutional contexts of dying and grieving processes. Includes practical application of sociological analysis of dying and death. Prereq.: SOC 1500. 3 s.h.

3789. Technology and Society. A critical exploration of how societal needs affect the creation of technologies and how technology affects society. An interdisciplinary approach in examining the complex interactions between humans and their tools. Prereq.: BIOL 2601 or ENGR 1550 or SOC 1500, and junior standing. Listed also as BIOL 3789 and CEEN 3789. 3 s.h.

3790. Aging in Cross-Cultural Perspectives. Examines the phenomenon of aging from cross-cultural perspectives with an emphasis on cultural evolution
and its impact upon the status, roles, and cultural values associated with aging and the aged. Listed also as ANTH 3790 and GERO 3790. Prereq.: SOC 1500 or ANTH 1500 or GERO 1501. 3 s.h.

3798. Select Topics in Sociology. In-depth examination of various sociological topics and issues of both current and long-standing interest. May be taken twice with different topics. Prereq.: 3 s.h. in Sociology. 3 s.h.

4800. Undergraduate Research. Research participation under the direction of a faculty member. Designed to acquaint the advanced student with special research problems associated with various aspects of the discipline. May be repeated for a maximum of 4 s.h. Prereq.: Permission of chairperson and 20 s.h. in Sociology. 1-2 s.h.

4801. Later Life Issues. An examination of contemporary issues and concerns among the elderly. Topics include family relations, finances, entitlements, Social Security, quality of life, and euthanasia. Prereq.: SOC 3703. 3 s.h.

4804. Family, Health, and Aging. Examines family and health related aspects of aging. Positive and negative interactions among family members and caregivers, and their impact on mental and physical quality of life of the elderly. Listed also as GERO 4804. Prereq.: SOC 3703 or GERO 3703. 3 s.h.

4821. Internship in Sociology. Application of sociological knowledge in settings such as social agencies, government offices, hospitals, nursing homes, correctional facilities, and industry. Maximum of 6 s.h. may be applied to the Sociology major. Prereq.: Junior standing and at least 9 s.h. of Sociology, and permission of chairperson. 3-9 s.h.

4850. Research Methods. An introduction to methods employed in social research. Attention is given to (1) the logic of scientific inquiry and the relationship between theory and methods; (2) the various qualitative and quantitative methods; (3) research design, data collection, organization, analysis, interpretation and application; (4) the social, cultural, political, and ethical context of social research; and (5) computer skills employed in data analysis. Prereq.: SOC 3701, ANTH 3701, or GERO 3701. Listed also as ANTH 4850 or GERO 4850. 3 s.h.

4851. Social Research. A seminar in social research wherein participants apply research methods in the theoretical and/or empirical investigation of a social issue and/or problem. Participants are involved in all phases of the research process. Prereq.: SOC 4850. Listed also as ANTH 4851. 3 s.h.

4898. Selected Problems in Sociology and Anthropology. Readings in sociology and anthropology dealing with current problems in theory and methods. Credit is given according to the nature and extent of the problems and the readings. For students planning to enter graduate school. Prereq.: Departmental major in senior year. 1-3 s.h.

SPECIAL EDUCATION—SPED

Department of Counseling and Special Education

The following course has been approved as a General Education course in the area of Special Topics and Electives: 2630, Individuals with Exceptionalities in Society.

2630. Individuals with Exceptionalities in Society. Characteristics, adjustment problems, special needs with emphasis on educational solutions, co-teaching, and inclusionary practices. The laws and implementation; placement, programming, due process, resources recommended for accommodation of exceptional learners in diverse settings. 3 s.h.

2631. Intervention Strategies with Special Needs Children in Early Childhood. Development of teaching skills of the regular early childhood educator in meeting the intervention needs of young children with special needs (disabilities, at-risk, and/or gifted) in inclusive classrooms and programs. Emphasis on classroom support for IEP/IFSP goals and objectives. Prereq.: PSYC 3755. 3 s.h.

3715. Characteristics and Needs of Children and Youth with Mild/Moderate Disabilities. Description, classification, development, and academic and social adjustment of children with learning disabilities. Relates the contributions of diverse disciplines to theory and practice. Developmental approach to motor, perceptual, cognitive, language and social-emotional functioning within an educational context. Prereq.: SPED 2630 or 2631. 3 s.h.

4831. Assessment and Referral in Early Childhood. Development of skills in referral and assessment techniques for the regular early childhood educator with emphasis on both formal and informal methods such as observation, authentic assessment, standardized measures and interviewing. Attention to children with disabilities and/or gifts and talents. Prereq.: Upper-division status. 3 s.h.

4839. Supervised Student Teaching: Moderate/Intensive Intervention Specialist. Concurrent with SPED 4869. Grading is CR/NC. Prereq.: FOUN 1501, 3708; PSYC 3709; EDTC 3771; SPED 2630 or 2631, 5828, 5833, 5835, 5851, 5853, 5863, 5864, 5866, 5867; senior status and approval of the chair. 4-12 s.h.

4849. Supervised Student Teaching: Mild Moderate/Disabilities. Concurrent with SPED 4869. Grading is CR/NC. Prereq.: FOUN 3708, completion of the reading block (TERG 2601, 3701, 3702, 3703) & STEP block (SPED 4854, 5835, 5864, TERG 3703) SPED 2630 or 2631, 5853, 5863, 5866, senior status, and approval of the chairperson; see requirements for student teaching under BCOE. 4-12 s.h.

4854. Cross-Curricular Interventions. Field application of principles of reading in the content areas, organization and implementation of cross-curricular
content areas across grade levels. Includes management of special education/inclusionary classrooms; part of a ten-week intensive field experience entitled STEP (Special Teacher Education Program). Prereq.: SPED 5853, 5867, and 5868. 4 s.h.

4857. Applied Technology in the Education of Children and Youth with Disabilities. Explores various concepts related to the use of applied technology for children and youth with disabilities. Includes assistive technology and alternative modes of communication as well as the use of appropriate software. Prereq.: Admission to upper-division COE status. 4 s.h.

4869. Student Teaching Seminar for Special Education. Applied behavior management and classroom environment, reflective teaching techniques. Daily lessons, the student teacher's interactions with children and youth, teachers and administrators. Concurrent with student teaching. Grading is CR/NC. Prereq.: Admission to student teaching; SPED 4839. 2 s.h.

5810. Introduction to Sign Language. Deaf Culture, ASL, and English Sign Language differences will be discussed. Students will acquire basic proficiency in sign language. Prereq.: Admission to upper-division COE status. 3 s.h.

5828. Education of Seriously Emotionally Disturbed Children and Youth. Instruction, curriculum and program development for youth in serious conflict. Advanced behavior change interventions. Practicum consisting of work in the field with emotionally disturbed youth required. Prereq.: Upper-division status in COE and 2630. 4 s.h.

5833. Characteristics and Needs of Exceptional Children and Youth with Moderate/Intensive Disabilities. Identification and intervention in critical areas of development for individuals with moderate/intensive disabilities including autism. Developing objectives, planning and implementing adapted curriculum in consultation with interdisciplinary specialists. Prereq.: Upper-division status in COE, SPED 3715. 3 s.h.

5834. Educational Strategies and Methods for Children and Youth with Moderate/Intensive Disabilities. Curriculum planning, teaching methods, habilitation and rehabilitation for persons with multiple and/or severe developmental disabilities. Practicum included. Prereq.: Upper-division status in COE; SPED 5833, 2630. 4 s.h.

5835. Classroom Management for Exceptional Children and Youth. Management of the exceptional person's behavior; adaptations of the classroom environment to facilitate learning and personal social adjustment. Communicating effective management programs to parents. Prereq.: Upper-division status in BCOE; SPED 5802 or 2630 or 2631. 4 s.h.

5851. Transition Planning, Social Skill Development and Health-Related Issues. Emphasis on lifelong career orientation and the development and implementation of a K-12 prevocational/vocational curriculum. Effective teaching of interpersonal communication and social skills. Classroom climate, self-esteem, health-related issues. Integration of practical experiences in the classroom, home, and community. Prereq.: Upper-division status and SPED 2630 or 2631 or 5802. 3 s.h.

5853. Diagnosis and Intervention in Mathematics for Special Education. Principles, practices, materials and aids for teaching mathematics in special education. Diagnostic and evaluation procedures; individualized instructional techniques; observation, tutoring, and participation. Field experience required. Prereq.: Upper-division status in COE, SPED 2630. 3 s.h.

5858. Intervention Concepts and Strategies in Early Childhood Special Education. Review and analysis of the methods by which young children can construct knowledge about their physical, social and intellectual worlds. Study of patterns of normal and atypical development from birth through age eight, as well as the development of appropriate models for effective intervention. Prereq.: PSYC 3755. 2 s.h.

5864. Service Coordination, Collaboration, and Consultation for Students with Special Needs. Enables teachers of exceptional individuals to gain cooperation and involvement of professionals, parents, and children. Communication skills and sensitivity to individual and cultural differences. Prereq.: Upper-division status in COE, SPED 5802 or 2630 or 2631. 3 s.h.

5865. Workshop in Special Education. Intensive study and related activities in one or more of the following special education curriculum areas: trainable mentally retarded, educable mentally retarded, learning disability/behavior disorder, multi-handicapped. May be repeated if content is different. Prereq.: Admission to upper-division COE status. 1-4 s.h.

5866. Assessment and Referral of Exceptional Children and Youth for the Intervention Specialist. Development of skills in referral and assessment techniques in the areas of mild/moderate and moderate/intensive disabilities. Informal and formal methods including observation, authentic assessments, standardized measures, interviewing. Referral, initial and subsequent evaluation, annual review concerns. Prereq.: Upper-division status in BCOE; SPED 5802 or 2630 or 2631. 3 s.h.

5867. Intervention and Remediation of Receptive/Expressive Language Dysfunction. Theory and practice of intervention and remediation of basic cognitive processes especially in the areas of receptive and expressive language and cognitive skills for the intervention specialist. Prereq.: Upper-division status in COE, SPED 2630, 3715, 5866. 3 s.h.

5868. Mild/Moderate Disabilities Practicum. Diagnostic procedures used to develop a comprehensive assessment of a child's current functioning. Individualized education program/case study developed and partially implemented. Prereq.: Upper-division status, in COE, SPED 2630, 3715, 5866, and 5867. 4 s.h.
5870. Independent Study in Special Education. Individual work under special education staff guidance; curriculum development or special education areas; individual problems in community agencies or school. Prereq.: Admission to upper-division BCOE status. 1-4 s.h.

5871. Characteristics and Needs of Gifted Children. Introduction to gifted education. Overview of the theoretical and research base for gifted education, including appropriate classroom environments, teacher qualifications, and support services to meet the diverse social, emotional, and intellectual needs of gifted children. Current program standards. Prereq.: Admission to COE upper-division status. 3 s.h.

5878. Teaching Gifted and Talented Students. Theory and organization of curriculum with design and integration of content subjects into varying models. Wide range of strategies and identification of curriculum with design and organization of curriculum with design and regression. Prereq.: MATH 1504 or equivalent. 3 s.h.

STATISTICS—STAT Department of Mathematics and Statistics

Lower-Division Courses

2601. Introductory Statistics. Designed for students from different disciplines who desire an introduction to statistical reasoning. Topics include collecting and summarizing data, concepts of randomness and sampling, statistical inference and reasoning, correlation and regression. Prereq.: MATH 1504 or equivalent. 3 s.h.

Upper-Division Courses

3717. Statistical Methods. Probability and statistics designed for students majoring in the natural sciences. Topics include descriptive statistics, probability, estimation, testing hypotheses, analysis of variance, regression and nonparametric statistics. Use of personal computers with computer software will be required. Credit will not be given for both STAT 3717 and 3743. Prereq.: Math 1549 or 1570 or 1571 or 1585H or equivalent. 4 s.h.

3743. Probability and Statistics. A calculus-based probability and statistics course. Topics include descriptive statistics, probability models and related concepts and applications, statistical estimation, and hypothesis testing. Prereq.: MATH 1572 or 1585H. Credit will not be given for both STAT 3717 and 3743. 4 s.h.

3781H. Biostatistics. Descriptive statistics, testing hypotheses, analysis of count data, correlation, regression, nonparametric statistics, and analysis of variance with applications relating to biological and health sciences. Prereq.: MATH 1580H and 1581H, or equivalent. 3 s.h.

4804. Actuarial Models I. The statistical foundation of actuarial contingency models including the study of survival and severity distributions. Other topics selected from life insurance and annuities, benefit premiums, reserves, and applications. Prereq.: STAT 3743 or consent of department chairperson. 3 s.h.

4805. Actuarial Models II. The statistical foundation of actuarial contingency models including the analysis of benefit reserves. Other topics selected from multiple life functions and decrement models, insurance models, and applications. Prereq.: STAT 3743 or consent of department chairperson. 3 s.h.

4806. Seminar in Actuarial Science. Approaches to and practice with problem solving in actuarial science. Topics may include financial mathematics, financial economics, or actuarial modeling. May be repeated once. Not applicable to the mathematics major. Prereq.: MATH/STAT 5843 or consent of the instructor. 2-3 s.h.

4820. Modern Decision Making. Introduction to the mathematics and statistics of decision making with application to contemporary problems. Topics include: decision trees, influence diagrams, the analytic hierarchy process, risk analysis, and applications. Prereq.: STAT 3717 or 3743 or equivalent. 3 s.h.

4845. Stochastic Process Models. Introduction to the mathematical foundations of the theory and application of stochastic processes. Topics include Markov processes, Poisson processes, queueing theory, and simulation. Other topics selected from limit theorems, Brownian Motion, and stationary processes. Prereq.: STAT/MATH 5843. 3 s.h.

4888. Actuarial Models in Financial Economics. An introduction to actuarial models in financial economics. Topics include the Black-Scholes framework for pricing derivatives, the binomial pricing model, and interest rate models. Prereq.: STAT 5843. 3 s.h.

4893. Statistical Internship. A program of work and study in the public or private sector centered upon the development of a significant statistics project, under the direction of University faculty member(s) and designated member(s) of the participating agency. May be repeated twice. Prereq.: STAT 5817. 2 s.h.

4896. Statistical Project. Individualized study of a topic in statistics culminating in a written report and an oral presentation. May be repeated once. Prereq.: STAT 5817 and permission of chairperson. 2 s.h.

5800. Mathematical Foundations of Actuarial Science. A survey of probability theory and an introduction to risk management. Emphasis of the course will be on problem solving with applications in actuarial science. Prereq.: MATH/STAT 5843 or consent of instructor. 3 s.h.

5802. Theory of Interest. Mathematical theory and techniques in analysis of interest. Topics include measurement of interest, force of interest, annuities, amortization, pricing of investment products, and applications to actuarial sciences. Prereq.: MATH 1572 and any 3700 level MATH, STAT, ECON, or FIN course. 3 s.h.
5814. Statistical Data Mining. A systematic introduction to data mining with emphasis on various data mining problems and their solutions. Topics include data mining processes and issues, exploratory data analysis, supervised and unsupervised learning, classification, and prediction methods. Prereq.: STAT 3717 or 3743, or consent of department chairperson. 3 s.h.

5817. Applied Statistics. Application of regression, survey sampling, analysis of variance, design and analysis of experiments, and related topics. Prereq.: STAT 3717 or 3743 or equivalent. 3 s.h.

5840. Statistical Computing. Computational methods used in statistics. Topics include generation and testing of random numbers, computer intensive methods, and simulation studies. Prereq.: STAT 3717 or 3743. 3 s.h.

5843. Theory of Probability. The mathematical foundation of probability theory including the study of discrete and continuous distributions. Other topics selected from limit theorems, generating functions, stochastic processes, and applications. Listed also as MATH 5843. Credit for STAT 5843 will not be given to students with MATH 5843. Prereq.: STAT 3743 and MATH 2673 or consent of department chairperson. 3 s.h.

5844. Theory of Statistics. The mathematical theory of statistical inferences including likelihood principle, sufficient statistics, theory of statistical estimation, hypothesis testing and related topics. Credit will not be given for MATH 5844 and STAT 5844. Prereq.: MATH 5843. 3 s.h.

5846. Categorical Data Analysis. Discrete distributions, contingency table analysis, odds ratios, relative risk, logistic regression, hierarchical models. Prereq.: STAT 5817 or 5844, or MATH 5844. 3 s.h.

5847. Nonparametric Statistics. Nonparametric statistical inference including tests of hypotheses for one sample, two or more related independent samples, dependence, goodness-of-fit, trend, and related topics. Prereq.: STAT 3717 or 3743 or equivalent. 3 s.h.

5848. Applied Regression and Time Series. Statistical methods for regression and time series analysis. Topics include applied linear regression with model fitting and diagnostics, data analysis, and forecasting with time series models. Prereq.: STAT 3717 or STAT 3743. 3 s.h.

5849. Multivariate Statistical Analysis. The statistical analysis of multivariate observations. Topics include multivariate probability distribution theory, regression, analysis of variance, and techniques in data analysis. Prereq.: MATH 3720 and MATH 5844 or STAT 5844 or equivalent. 3 s.h.

5895. Special Topics in Statistics. The study of a standard statistical topic in depth or the development of a special area of statistics. May be repeated twice. Prereq.: STAT 3717 or 3743. 2-3 s.h.  

TEACHER EDUCATION—TCED

Department of Teacher Education

4830. Senior Seminar. In place of student teaching, requiring career/field placement and reflection of self in field. Placement(s) are negotiated and secured by candidates. CR/NC. Prereq.: Education as a major, at least junior status. 3 s.h.

TEACHER EDUCATION

MIDDLE CHILDHOOD—TEMC

Department of Teacher Education

3702. Teaching & Learning in Middle Schools. Physical, social, emotional, intellectual, and moral development within social and cultural contexts to uncover implications for developmentally and culturally responsive curriculum and instruction. Prereq.: BCOE upper-division status. 3 s.h.

3703. Thematic Instruction and Assessment Methods in Social Studies. Investigation and application of principles from history, geography, civics, economics, and related fields to create appropriate learning experiences for early adolescents. Exploration of middle grade level group and individual assessment, thematic, problem-solving instructional approaches, and reflective evaluation of learning in a field-based setting. Prereq.: TEMC 3702, BCOE upper-division status, and approval of chairperson. Coreq.: TEMC 4801 and one of TEMC 3704, 3705, or 3706. 4 s.h.

3704. Teaching Mathematics in the Middle School. Prereq.: Admission to upper-division COE status. 3 s.h. with a mathematics concentration focus on identifying and modeling strategies used for problem solving, communicating, and reasoning in mathematics. Learning to use mathematical connections to stimulate diverse students’ development of math concepts and skills and creating learning environments in which students feel free to take risks. Field experience combining mathematics pedagogy/methodology in a middle grade classroom. Prereq.: TEMC 3702, BCOE upper-division status and approval of chairperson. Coreq.: TEMC 4801 and one of TEMC 3703, 3705, or 3706. 4 s.h.

3705. The Teaching of Science in the Middle School. Using NSTA/NCATE and Ohio Model guidelines as a framework, students focus on establishing and maintaining learning environments that provide diverse students with a holistic, interdisciplinary understanding of science. Topics include goals formation, planning instruction, instructional strategies, resource selection, assessment procedures. Promotion of the use of science processes and problem-solving skills for life-long learning, the integration of science/technology/society. Field experience combining science pedagogy/methodology in a middle grades
classroom. Prereq.: TEMC 3702, 12 s.h. science, BCOE upper-division status, and approval of chairperson. Coreq.: TEMC 4801 and one of TEMC 3703, 3704, or 3706.

4801. The Middle School Learning Community. History, philosophy, and concepts of middle level education, including interdisciplinary instruction, collaborative teams, cooperative learning, classroom management, teacher-based advisory programs, flexible scheduling, cross-age grouping, departmentalized/core curriculum, adapting curriculum to the needs of culturally diverse populations, and working with families, resource persons, and community groups. Concurrent with TEMC 4803. Prereq.: TEMC 3702, BCOE upper-division status, and approval of chairperson. Coreq.: Two of TEMC 3703, 3704, 3705, or 3706.

4 s.h.

4802C. Student Teaching in Middle Childhood Science Education. Demonstration of ability to integrate knowledge of early adolescents, learning theory, best-practice information, and science in diverse teaching/learning settings. Full-time 8-week student teaching in grades 4-9 supervised by University faculty and experienced middle-level science practitioners. CR/NC. Concurrent with TEMC 4803. Prereq.: BCOE upper-division status. 5 s.h.

4802E. Student Teaching in Middle Childhood Language Arts Education. Demonstration of ability to integrate knowledge of early adolescents, learning theory, best-practice information, and language arts in diverse teaching/learning settings. Full-time 8-week student teaching in grades 4-9 supervised by University faculty and experienced middle-level language arts practitioners. CR/NC. Concurrent with TEMC 4803. Prereq.: BCOE upper-division status. 5 s.h.
of reading, various approaches to teaching reading, and creative integrative literature strategies to meet the needs of diverse learners. Prereq.: Admission to COE upper-division status. 3 s.h.

3703. Assessment and Instruction in Reading Internship, PreK-9. Application of selected formal and informal assessment tools in the context of reading instruction to identify individual strengths and needs. Strategies for continuing diverse students’ growth in reading and the related language arts including home/school connections, integration of reading and writing, self-monitoring strategies, and ongoing assessment. Prereq.: TERG 3701, 3702. 3 s.h.

3704. Assessment and Instruction in Reading Internship. Required of students seeking licensure in Reading and Language Arts. Practicum experience involving assessment of reading needs of the middle school student, planning and carrying out a program of remedial assistance, reporting results. Concurrent with TERG 3703. Prereq.: TERG 3701 and 3702. 1 s.h.

3705. Advanced Literature Strategies. Advanced reading and language arts, holistic teaching strategies with emphasis on non-textbook approaches. Field experience. Prereq.: TERG 3703. 3 s.h.

3706. Reading Practicum. Supervised experiences in reading assessment and instruction in the elementary, middle, or secondary school setting. Six hours per week in a designated school, two hour seminar. Prereq.: TERG 3705. 3 s.h.

3710. Reading Application in Content Areas, Middle Years. Study of the Ohio Academic Content Area Standards, comprehension skills, word attack skills, pre-reading strategies, and writing development as they relate to middle years, multi-age and special education reading in the content area. The role of literature in the content-area classroom. Prereq.: Admission to BCOE upper-division status. 3 s.h.

3711. Reading Application in Content Areas, Secondary Years. Study of the Ohio Academic Content Area Standards, comprehension skills, word attack skills, pre-reading strategies, and writing development as they relate to secondary and career/technical reading in the content area. The role of literature in the content-area classroom. Prereq.: Admission to BCOE upper-division status. 3 s.h.

TELECOMMUNICATION STUDIES—TCOM
Department of Communication

The following has been approved as a General Education course in the domain of Societies and Institutions: 1595, Survey of American Mass Communication.

The following has been approved as a General Education course in the area of writing intensive: 2682 Scriptwriting for the Electronic Media.

The following has been approved as a General Education course in the area of critical thinking intensive: 4887 Theories and Criticism of Telecommunication.

Lower-Division Courses

1500. Orientation to Telecommunication Studies. Survey of University and Department programs, policies, practices and facilities with particular emphasis on needs of telecommunication studies majors. Creation of telecommunication studies portfolio materials and other aspects of the Telecommunication Studies program. To be taken prior to TCOM 2682 and 2683. 1 s.h.

1510. Media Production Staff I. Assignment to one or more production crew, such as YSU Sports TV, Homework Express, or Light the Wick. Student responsibilities will be determined in light of the student's skills and interests, as well as the production need. May be repeated. 1 s.h.

1580. Introduction to Telecommunication Studies. A survey course designed to familiarize students with the principles and practices involved in radio and television broadcasting, cable, and other electronic communication systems. 3 s.h.

1581. Telecommunication Technologies. Operational principles of audio, data, and video telecommunication technologies. One hour lecture and two hours lab per week. 2 s.h.

1595. Survey of American Mass Communications. A rhetorical examination of the development, operation, and function of radio, television, film, and print media in America. Television documentaries and films illustrate the implication of mass communication. Students examine how a person may be individually affected by mass communication. 3 s.h.

2610. Media Production Staff II. Assignment to one or more production crew, such as YSU Sports TV, Homework Express, or Light the Wick. Student responsibilities will be determined in light of the student’s skills, interests, and production experience, as well as the production need. May be repeated. Prereq.: TCOM 1510. 1 s.h.

2682. Scriptwriting for Electronic Media. Fundamentals of telecommunication media writing with emphasis on the theory, analysis, and practices in the preparation of continuity, news, and documentaries. Prereq.: TCOM 1580, 1581, and ENGL 1550 with a grade of C or better in all. 3 s.h.

2683. Media Operations and Performance. An introduction to practices and procedures basic to media production facilities. The equivalent of three hours lecture and two hours lab per week. Prereq.: TCOM 1580 and ENGL 1550 with a grade of C or better in both. 3 s.h.

requirements of broadcast media and broadcast newsroom operation. The equivalent of three hours lecture and two hours lab per week. Prereq.: TCOM 2682 and 2683 with a grade of C or better in both.  3 s.h.

2685. Studio Operations 1. A supervised application of operations and performance skills to audio and/or video programming. Repeatable to a maximum of 2 s.h. Prereq.: TCOM 2682 and 2683 with a grade of C or better in both.  1 s.h.

Upper-Division Courses

3710. Media Production Staff III. Assignment to one or more production crew, such as YSU Sports TV, Homework Express, or Light the Wick. Student responsibilities will be determined in light of the student's skills, interests, and production leadership experience, as well as the production need. May be repeated. Prereq.: TCOM 2610.  1 s.h.

3780. Principles and Practices of Media Announcing. A study of the announcer's role in electronic mass media. Examination of theories, techniques, and major styles of media announcing. Three hours lecture, two or more hours of individualized lab per week. Prereq.: TCOM 2682 and 2683 with a grade of C or better in both; major in Telecommunication Studies.  3 s.h.

3781. Audio Production. Study of the concepts of audio production, including student production of various types of programs. The equivalent of three hours lecture and two hours lab per week. Prereq.: TCOM 2682 and 2683 with a grade of C or better in both; major in Telecommunication Studies.  3 s.h.

3782. Video Production 1. Study of studio production elements such as equipment, lighting, scene design, graphics, and special effects. The equivalent of three hours lecture and two hours lab per week. Prereq.: TCOM 2682 and 2683 with a grade of C or better in both; major in Telecommunication Studies.  3 s.h.

3783. Telecommunications Regulation. Responsibilities of electronic media communicators as prescribed by law and administrative agency policies, and court decisions. Analysis of the regulatory environment of broadcasters, common carriers, and cable. Prereq.: TCOM 2682 and 2683 with a grade of C or better in both; major or minor in Telecommunication Studies.  3 s.h.

3784. Telecommunication Programming. A study of contemporary broadcast and cable programming, including development, scheduling, and competitive strategies. Prereq.: TCOM 2682 and 2683 with a grade of C or better in both; major or minor in Telecommunication Studies.  3 s.h.

3785. Studio Operations 2. Individual projects or assignments in planning, coordinating and assessing production and programming related to studio procedures. Prereq.: TCOM 2682 and 2683 with a grade of C or better in both; acceptance of project Proposal Form by coordinating faculty member and department chairperson.  1 s.h.

3786. Video Production 2. Study and application of television production elements. Production values of composition, transition, and sequence explored from a communication perspective. Students produce, videotape, and critique several field-based productions. Three hours lecture, two hours lab. Prereq.: TCOM 3782.  3 s.h.

3787. Practicum in Telecommunication. Individual study and practical application of communication principles to various telecommunication problems. Repeatable to a maximum of 6 s.h. Prereq.: TCOM 2682 and 2683 with a grade of C or better in both.  1-3 s.h.

3788. Professional Residency. Professional telecommunication-related experience under direction of University faculty members and employees of firms participating in the residency program. The student is responsible for securing the professional residency with assistance of Telecommunication Studies program faculty. Prereq.: TCOM major, junior standing.  2 s.h.

3791. Electronic Media Sales and Promotion. An examination of the principles and practices of selling electronic media. Analysis of rating-based sales and promotion strategies, as well as relations with agencies and station representatives. The equivalent of three hours lecture and two hours lab per week. Prereq.: TCOM 2682 and 2683 with a grade of C or better in both.  3 s.h.

4850. Advanced Audio/Video Production. Advanced techniques and procedures in audio/video production. Techniques include digital editing and video post-production procedures. Recognize current video and audio technology and how to troubleshoot problems associated with such technology. Prereq.: TCOM 3781 or 3782 with a grade of C or better.  3 s.h.

4881. Telecommunication Management. A study of the relationships of communication management with government, networks, ownership and other groups. Organization and procedures of typical units; common planning models. Prereq.: TCOM 2682 and 2683 with a grade of C or better in both; major or minor in Telecommunication Studies.  3 s.h.

4882. Studio Operations Management 3. Advanced individual projects or assignments in planning, coordinating and assessing production and programming related to studio procedures. Repeatable for a maximum of 4 s.h. Prereq.: TCOM 3785; acceptance of Project Proposal Form by coordinating faculty member and department chairperson.  2 s.h.
4884. **Video Production Direction.** A study and application of the communication roles and skills associated with video directing. Emphasis on audience analysis. The equivalent of three hours lecture and two hours lab per week. Prereq.: TCOM 3782. 3 s.h.

4885. **Developments in Telecommunication Media.** Study and application of uses of telecommunication media apart from commercial broadcasting. Study of new technologies and their potential. Prereq.: TCOM 2682 and 2683 with a grade of C or better in both. 3 s.h.

4886. **Audience and Market Measure.** Methods of collecting, analyzing, and using information about media markets. Includes quantitative and non-quantitative techniques. Prereq.: TCOM 2682 and 2683 with a grade of C or better in both. 3 s.h.

4887. **Theories and Criticisms of Telecommunication.** Study of contemporary theories and research in telecommunication. Prereq.: TCOM 2682 and 2683 with a grade of C or better in both; major or minor in Telecommunication Studies. 3 s.h.

4888. **Internship in Telecommunication.** An application of telecommunication theory and practices within organizations primarily concerned with telecommunication. Students are selected on the basis of special qualifications, including GPA, courses taken, and competitive interview. Enrollment is contingent on the availability of internship positions. Twenty hours a week. Prereq.: Junior standing in telecommunication and permission of internship coordinator. 6 s.h.

4897. **Seminar in Telecommunication.** Designed to investigate contemporary aspects of telecommunications. May be repeated for credit if topic is different. Prereq.: TCOM 2682 and 2683 with a grade of C or better in both; major in Telecommunication Studies. 3 s.h.

4899. **Capstone.** Students demonstrate mastery of knowledge in a variety of degree assessment areas. Students prepare and present a portfolio of their work. The course assists students in assembling and presenting the portfolio to department faculty and other interested parties. To be taken after achieving senior status as a Telecommunications Studies major. Prereq.: senior status in Telecommunication Studies. 2 s.h.

**THEATER — THTR**

**Department of Theater and Dance**

The following have been approved as General Education courses in the domain of Artistic and Literary Perspectives: 1512, Survey of Musical Theater; 1560, Understanding Theater; 1590, History of Motion Pictures; 2690, The Art of Motion Pictures. Substitute courses for Theater 1560 and 1590 are 4860, Theater History after 1700, and 4891, Theater History before 1700; THTR 1512, Survey of Musical Theater.

**Lower-Division Courses**

1500. **Auditions and Portfolios.** Survey of the department programs, policies, practices, and facilities, with particular emphasis on the needs of theater majors. Various aspects of theater study which may increase chances for success in the field. Creation of production records, portfolios, and vitae pertinent to the theater artist. To be taken within the first 30 hours of coursework. 1 s.h.

1512. **Survey of Musical Theater.** The history and development of the musical theater genre, including an in-depth study of significant works and individual practitioners. 3 s.h.

1559. **Play Production.** An introduction to the processes of analyzing, directing, staging, and producing plays; demonstration and practice. 3 s.h.

1560. **Understanding Theater.** The theory, history, cultural role, and physical characteristics of the theater as an institution in human society. 3 s.h.

1561. **Stagecraft.** The technical elements of play production, with emphasis on stage mechanics, set construction, and scene painting. 3 s.h.

1563. **Costume Construction and Craft.** Introduction to stage costuming through the study and application of costume construction techniques and costume crafts, the use of appropriate equipment, and costume maintenance through various projects involving the special techniques used for stage costuming. 3 s.h.

1590. **History of Motion Pictures.** The history of the motion picture from its beginnings to the present, with emphasis on the milestones of film as a performing art. Viewing of significant films from various periods and countries. 3 s.h.

2600. **Theater Participation.** Expected involvement in the main stage productions of the department. Students will audition for all main stage productions, or accept a significant assignment in stage management, costume, scenery, lighting or other technical element of production. Must be taken once each semester during the time that a student is in residence as a theater major, for a minimum of 3, or its equivalent. Prereq.: a declared major in theater, and faculty permission. 1 s.h.

2607. **Puppetry.** An overview of the history of puppets in world drama, combined with practical exercises in making inanimate objects come to "life" for the purpose of creating works of theater. Includes puppet construction and performance. Prereq.: Sophomore standing. 3 s.h.

2661. **Stage Management.** Basic principles and techniques of stage management including job functions and responsibilities, production organization, problem solving and specialized paperwork. Stage management of a production and one hour lecture per week. Stage management of a production is a requirement of the class. Prereq.: THTR 1559. Grade: Traditional/P. 1 s.h.
2662. Practicum in Theater and Dance. Practical application of theater or dance skills through participation in special programming of the department, or specified studio/laboratory activities. Expected participation should amount to a minimum of thirty hours per semester. May be repeated for a maximum of 5 s.h. Prereq.: THTR 1561 or 1559 or special permission. 1 s.h.

2664. Musical Theater Lab. Applied skills course dealing with styles and techniques of performing for the musical theater. Covers auditioning, rehearsal process, and expressive delivery and gesture through song. Culminates in public recital. Prereq. or concurrent with THTR 2668 and VOIC 1501T or other evidence of vocal training; and sophomore standing. 3 s.h.

2667. Acting 2: Voice for the Actor. Technical elements of voice for the stage. Physical exercises designed to improve stage speech, vocal projection, articulation and clarity. Application of principles and skills to a variety of texts from a performer’s perspective. Prereq.: THTR 2668. 3 s.h.

2668. Acting 1: Fundamentals. The fundamental theories and techniques of acting. Major emphasis on theater acting, but consideration is given to radio and television acting. Prereq.: THTR 1559 or permission of instructor. 3 s.h.

2670. Oral Interpretation. The development of skills necessary for the oral interpretation of various types of literature: prose, poetry, and drama. The thorough analysis of each work and communication of the work to an audience. 3 s.h.

2690. The Art of Motion Pictures. Analysis of the structure of the motion picture, the development of the script, the function of editing, the approach to acting in film production, and the problems faced by a director in film production. Criteria of artistic film making. Examples from motion pictures are screened and discussed. Prereq.: Sophomore standing. 3 s.h.

Upper-Division Courses

3700. Theater Participation 2. Advanced involvement in the main stage productions of the department. Students will audition for all main stage productions, or accept a significant assignment in stage management, costume, scenery, lighting or other technical element of production. Must be taken each semester during the time that a student is in junior/senior residence as a theater major, for a minimum of 4 or its equivalent. Prereq.: 3 s.h. of THTR 2600 or permission of the instructor. 1 s.h.

3761. Stage Makeup. Design and application of makeup for the stage including techniques for character and age makeup, making and applying facial hair, and other specialized makeup procedures. Prereq.: THTR 1559 or permission of instructor. 3 s.h.

3762. Directing 1. An intensive study of the process of directing plays. Whenever possible, students direct the equivalent of a one-act play for public presentation. Lab hours by arrangement. Prereq.: THTR 1559 or permission of instructor. 3 s.h.

3763. Scene Design. The history of design in terms of stage scenery; an investigation of current trends, techniques, and media; practical execution of models and sketches by the student. Prereq.: THTR 1559 and 1561 or consent of the instructor. 3 s.h.

3764. History of Stage Costume. A survey of stage costumes based on western styles from the ancient Egyptians to the present with emphasis on periods in which the theater flourished. Prereq.: THTR 1559 or permission of instructor. 3 s.h.

3765. Lighting Design. A study of historical development, basic electrical theory, switch boards and lighting instruments; color theory, principles and practices in stage lighting. Lab hours to be arranged. Prereq.: THTR 1559 and 1561 or consent of instructor. 3 s.h.

3766. Stage Combat. Applied skills class specializing in armed and unarmed combat for the stage. Safety factors in stage fighting, including safe use of rapier and dagger. Performance in public required. Prereq.: THTR 2668 or MUEN 0012 or HPES 1514 or permission of instructor. 3 s.h.

3768. Script Analysis. Critical approaches to dramatic literature. Analysis of dramatic works for production values. Prereq.: THTR 1559 and 2668. 3 s.h.

3769. Costume Design. Costume design for the stage through a study of script analysis, design concepts and principles, and costume rendering techniques. Prereq.: THTR 1559 or permission of instructor. 3 s.h.

3791. Rehearsal and Performance. Faculty-supervised study and practical application of the performance aspects of a play. Credit given for significant acting roles, assistant directing, or stage management assignments in University Theater productions. For students with appropriate experience. May be taken twice. Prereq.: THTR 2668 or HPES 1542, and theater faculty approval. 3 s.h.

4860. Theater History after 1700. History of the physical theater and representative dramatic texts from 1700 to the modern era. Prereq.: 9 s.h. of THTR coursework, of which must be upper division. 3 s.h.

4863. Acting 3: Styles. A study of specific theories, techniques, and approaches to creating the various styles of acting. Emphasis on scene study featuring important historical styles of performance. Prereq.: THTR 1559 and 2668. 3 s.h.

4866. Summer Theater Workshop. Participation in the summer theater program involving all aspects of theatrical production. Positions of significant responsibility. Prereq.: Junior standing in Theater, or permission of instructor. 1-3 s.h.
4868. *Children's Theater*. A study of the process of theater production by and for elementary school children, including theory, objectives, and methods. Prereq.: THTR 3762 or senior standing in Elementary Education with permission of instructor. 3 s.h.

4869. *Creative Dramatics*. Basic elements of playmaking, improvisation, story dramatization, pantomime, dialogue, and characterization. Experience with area school children provided when possible. Intended for elementary education majors and drama certification. Prereq.: Junior standing with 9 s.h. of theater courses (including 1559 and 2668) or junior standing in Elementary Education with permission of instructor. 3 s.h.

4870. *Acting 4: Acting on Camera*. A exploration of the theory and technique of film and video performance, and the special demands they make upon an actor. Prereq.: THTR 2667 and 2668 and junior standing, or consent of instructor. 3 s.h.

4891. *Theater History before 1700*. History of the physical theater and representative dramatic texts from the Classical period through the Renaissance. Prereq.: 9 s.h. of THTR coursework, 3 of which must be upper division. 3 s.h.

4893. *Independent Study in Theater*. Independent work in theater production under faculty/staff guidance. Intended as a continuation of individualized creative work beyond THTR 3791 or THTR 3792. Project dependent upon approval of the evaluating faculty member and the student. May be repeated with different topics for a total of 9 s.h. Prereq.: THTR 3791 or 3792. 1-3 s.h.

4895. *Arts in Education Internship: Theater*. A practical application of drama/theater in education theories and skills in a field-based lab experience in the schools. Students submit project proposals geared either to the elementary or secondary level. Proposals must be approved by a theater faculty committee. Repeatable for a total of 6 s.h. Prereq.: THTR 1561, 1559 and 3762; or THTR 1559, 3761 and 4868. 1-3 s.h.

4898. *Senior Project*. Capstone experience expected of all seniors in the degree programs of the department. Significant demonstration of practical or scholarly ability in one of the sub-disciplines comprising the disciplines of theater or dance, and showing evidence of solid writing, speaking, and critical thinking skills. Prereq.: Senior standing with the expectation of graduating by the end of the following semester. Grading is A,B,C,NC/PR. 3 s.h.

4899. *Topics in Theater*. In-depth study of selected aspects in theater scholarship, theory or practice. May be repeated if the topic changes. Prereq.: Junior standing or permission of instructor. 3 s.h.

5864. *Directing 2*. A study of specific theories, techniques, and various important styles in play directing. Prereq.: THTR 1559 and 3762. 3 s.h.

### WOMEN’S STUDIES—WMST Interdisciplinary

*The following has been approved as a General Education course in the domain of Societies and Institutions: 2601, Introduction to Women’s Studies.*

2601. *Introduction to Women’s Studies*. Introduces key concepts, theoretical frameworks, and interdisciplinary research drawn from current scholarship about women. Concentrates on major issues relevant to the status and roles of contemporary women, including examination of effects of sexism, racism, ethnicity, and class distinction. 3 s.h.

3750. *Special Topics in Women’s Studies*. May be repeated for a maximum of 6 s.h. with different topics. Prereq.: WMST 2601 3 s.h.

4850. *Senior Research Project*. Research and writing of a paper on a topic in women’s studies, under the supervision of full-time faculty. Prereq.: Senior standing and completion of a minimum of 15 s.h. in Women’s Studies. Grading is Traditional/PR. 1-3 s.h.

Vacant .............................. Executive Director Student Services and Ombudsperson

Division of Technology
Richard J. Marsico, B.S. ............................. Interim Chief Technology Officer/Director, Computer Services
Michael Hrishenko, M.S. ............................. Interim Executive Director Technology Services/Director, Media and Academic Computing
Jason Rakers, D.Sc. ............................. Interim Executive Director Technology Services/Director, Network Telecommunications and Security
FULL-SERVICE FACULTY

MARTIN A. ABRAHAM
Dean and Professor of Civil/Environmental and Chemical Engineering
B.S., Rensselaer Polytechnic Institute, 1982
Ph.D., University of Delaware, 1987

SAMUEL ADU-POKU
Associate Professor of Art
B.A., University of Science & Technology (UST), Ghana, 1987
Dip. Ed., University of Science & Technology (UST), Ghana, 1988
M.Ed., University of New Brunswick, (UNB), Canada, 1995
Ph.D., University of British Columbia (UBC), Canada, 2002

SUNIL AHUJA
Professor of Political Science
B.S., Northwest Missouri State, 1990
M.A., University of Nebraska, 1992
Ph.D., University of Nebraska, 1995

JAVED ALAM
Professor of Civil/Environmental and Chemical Engineering
B.E., Indian Institute of Technology, 1977
M.E., Asian Institute of Technology, 1979
Ph.D., Case Western Reserve University, 1983

ISAM E. AMIN
Associate Professor of Geological and Environmental Sciences
B.S., University of Khartoum, 1977
M.S., New Mexico Inst. of Mining & Technology, 1983
Ph.D., University of Nevada, Reno, 1987

CYNTHIA E. ANDERSON
Vice President of Student Affairs and Professor of Marketing
B.S., Youngstown State University, 1972
M.A., The Ohio State University, 1975
Ed.D., University of Akron, 1990

COREY E. ANDREWS
Associate Professor of English
B.A., Miami University, Ohio, 1992
M.A., Ohio University, 1995
Ph.D., Ohio University, 2000

JAMES ANDREWS
Professor of Physics and Astronomy
B.A., Bucknell University, 1979
J.D., University of Virginia School of Law, 1982
B.S., Cleveland State University, 1989
Ph.D./M.S., Case Western Reserve University, 1995, 1992

JOSEPH ANTENUCCI
Professor of Accounting and Finance
B.A., Harvard University, 1975
M.A., University of New Mexico, 1977
Ph.D., Virginia Polytechnic Institute & State Univ., 1993

FELICIA P. ARMSTRONG
Assistant Professor of Geological and Environmental Sciences
B.S., University of Dayton, 1987
M.S., Alabama A&M University, 1996
Ph.D., Oklahoma State University, 2003

ABDURRAHMAN ARSLANYILMAZ
Assistant Professor of Computer Science and Information Systems
B.E., Gazi University, Turkey, 1998
M.Ed., University of Missouri, Columbia, 2002
Certificate, Intensive English School, Middle East Technical Univ., Turkey, 2000
Ph.D., Texas A&M University, 2007

DAVID K. ASCH
Associate Professor of Biological Sciences
B.S., University of Nebraska-Lincoln, 1981
M.S., Creighton University, 1983
Ph.D., University of Kansas Medical Center, 1991

LOUISE A. AURILIO
Associate Professor of Nursing
B.S., Youngstown State University, 1982
M.S.N., University of Akron, 1986
Ph.D., University of Pittsburgh, 2000

STEPHEN W. AUSMANN
Professor of Music/Teacher Education
B.M., Capital University, 1975
M.A., The Ohio State University, 1984
Ph.D., The Ohio State University, 1991

DANIEL AYANA
Professor of History
B.A., Addis Ababa University, 1980
M.A., Addis Ababa University, 1984
Ph.D., University of Illinois at Urbana Champaign, 1995

CHRISTOPHER M. BACHE
Professor of Philosophy and Religious Studies
B.A., University of Notre Dame, 1971
M.A., Cambridge University, 1973
Ph.D., Brown University, 1978

DORA L. BAILEY
Professor of Teacher Education
B.S., Youngstown State University, 1969
M.S. in Ed., Youngstown State University, 1980
Ph.D., Kent State University, 1984

GANESARATNAM BALENDIRAN
Associate Professor of Chemistry
B.S., University of Sri Lanka, 1985
Ph.D., The University of Wisconsin/Madison, 1991

KEVIN E. BALL
Associate Professor of English
B.A., Truman State University, 1992
M.A., Truman State University, 1994
Ph.D., University of Nebraska-Lincoln, 2000
RICHARD C. BARINGER
Assistant Professor of Educational Foundations, Research, Technology and Leadership
B.S.Ed., Kent State University, 1969
M.S.Ed., University of Akron, 1975
Ed.D., Youngstown State University, 2002

DIANE BARNES
Associate Professor of History
B.S., Fairmont State College, 1987
M.A., West Virginia University, 1995
Ph.D., West Virginia University, 2000

REBECCA A. BARNHOUSE
Professor of English
B.A., Florida State University, 1983
M.A., University of North Carolina, 1986
Ph.D., The University of North Carolina at Chapel Hill, 1994

PATRICK BATEMAN
Assistant Professor of Management
B.S., Rutgers University, School of Business, 1995
M.S., Temple University, Fox School of Business, 2002
Ph.D., The University of Pittsburgh, 2008

SERVIO T. BECERRA
Professor of Foreign Languages and Literatures
M.A., University of Wisconsin-Milwaukee, 1967
Ph.D., University of Wisconsin-Madison, 1973

ROBERT J. BEEBE
Professor of Educational Foundations, Research, Technology and Leadership
A.B., Harvard University, 1966
M.Ed., The College of William and Mary, 1971
Ed.D., The College of William and Mary, 1974

RAYMOND EMIL BEIERSDORFER
Professor of Geological and Environmental Sciences
B.A., Queens College, City University of New York, 1979
M.S., University of California at Davis, 1982
Ph.D., University of California at Davis, 1992

CHRISTOPHER BELLAS
Instructor of Criminal Justice and Forensic Sciences
B.A., Edinboro University of Pennsylvania, 1997
A.S., Edinboro University of Pennsylvania, 1998
M.S., Youngstown State University, 2001
ABD, Kent State University, 2006

JAMES BENEDICT
Instructor of Physical Therapy
B.S., Allied Health, The Ohio State University, 1982
M.Ed., Kent State University, 1989

RANDALL W. BENNER
Instructor of Health Professions
B.S., Youngstown State University, 1992
M.Educ., Kent State University, 1994

TERRY BENTON
Instructor of English
B.S., Youngstown State University, 1999
M.A., Youngstown State University, 2001

Ewelina Boczkowska
Assistant Professor
Dana School of Music
B. Mus., McGill University, 2002
Ph.D., University of California, 2009
D.E.C., Jean-de-Brébeuf College and Vincent-D’Indy School of Music, 2000

THOMAS A. BODNOVICH
Associate Professor of Computer Science and Information Systems
B.S., Youngstown State University, 1979
M.S., The Ohio State University, 1981
M.B.A., Youngstown State University, 1995

JULIE BLASKEWICZ BORON
Assistant Professor of Psychology
B.S., Slippery Rock University, 2001
M.S., Pennsylvania State University, 2003
Ph.D., Pennsylvania State University, 2005

THEODORE R. BOSELA
Professor in the School of Technology
B.E., Youngstown State University, 1981
M.S., University of Akron, 1985
Ph.D., University of Pittsburgh, 1993
P.E., Ohio, Pennsylvania

CHERYL L. BOSLEY
Associate Professor of Nursing
B.S.N., Kent State University, 1979
M.S.N., Kent State University, 1984
Ph.D., Kent State University, 2005

FRANK J. BOSSO
Professor of Human Performance and Exercise Science
B.S., Slippery Rock University, 1978
M.S., West Virginia University, 1979
Ph.D., NEOUCOM/Kent State University, 1990

BEDE KAYE BOWERS
Professor of English
B.A., Vanderbilt University, 1971
M.A., University of Tennessee, 1973
Ph.D., University of Tennessee, 1984

JOAN BOYD
Professor of Health Professions
B.S., Youngstown State University, 1975
M.A., Central Michigan University, 1980
Ph.D., The Union Institute, 1993
PHILIP S. BRADY
Professor of English
B.A., Bucknell University, 1977
M.A., University of Delaware, 1979
M.A., San Francisco State University, 1986
Ph.D., State University of New York, 1990

MARGARET L. BRILEY
Assistant Professor of Counseling and Special Education
B.S., Spec. Educ., Indiana Univ. of PA, 1976
Ph.D., University of Pittsburgh, 1999

STEVEN R. BROWN
Professor of English
B.A., University of California at Santa Cruz, 1974
M.A., San Diego State University, 1979
Ph.D., The University of Pittsburgh, 1996

JEFFREY M. BUCHANAN
Associate Professor of English
A.B. University of Michigan, 1990
M.A., University of Pittsburgh, 1997
Ph.D., University of Michigan, 2002

WILLIAM R. BUCKLER
Associate Professor of Geography
B.A., Wayne State University, 1969
M.A., Michigan State University, 1973
Ph.D., Michigan State University, 1981

ANNETTE M. BURDEN
Associate Professor of Mathematics and Statistics
B.S., Youngstown State University, 1976
M.S., Youngstown State University, 1980
Ph.D., Union Institute and University, 2002

DIANA BURKHART
Assistant Professor of Foreign Languages and Literatures
B.A., Reed College, 1997
M.A., University of Colorado, 2004
Ph.D., University of Virginia, 2008

MICHAEL BUTCHER
Assistant Professor of Biological Sciences
B.S., Christopher Newport University
M.S., Wake Forest University
Ph.D., University of Calgary, 2006

JONATHAN J. CAGUIAT
Associate Professor of Biological Sciences
B.S., University of Michigan Ann Arbor, 1988
Ph.D., Michigan State University, 1995

MARTIN CALA
Professor of Mechanical and Industrial Engineering
B.S.E., Duke University, 1978
M.S., Binghamton University, 1987
Ph.D., Binghamton University, 1991

CRAIG S. CAMPBELL
Professor of Geography
B.A., Indiana University (Purdue University at Indianapolis), 1984
M.A., University of Kentucky, 1987
Ph.D., University of Kansas, 1993

PAUL R. CARR
Associate Professor of Educational Foundations, Research, Technology and Leadership
B.A., York University, Toronto, 1987
M.Ed., University of Toronto, 1992
M.P.A., Queen's University, Kingston, Ontario, 1988
Ed.D., University of Toronto, 1996

JAMES J. CARROLL
Professor of Physics and Astronomy
B.S., Central State University, Oklahoma, 1980
M.S., Oklahoma State University, 1984
Ph.D., The University of Texas at Dallas, 1991

FRANK A. CASTRONOVO
Professor of Theater and Dance
B.A., Case Western Reserve University, 1965
M.A., University of Arizona, 1970
Ph.D., Kent State University, 1980

LINDA A. CAUSEY
Assistant Professor of Social Work
B.A., Michigan State University, 1971
M.S.W., University of Michigan, 1973
Ph.D., Michigan State University, 2004

DAWNA LYNN CERNEY
Assistant Professor of Geography
B.S., University of Lethbridge, Canada, 1994
M.E.Des., University of Calgary, Canada, 2000
Ph.D., Texas State University, 2006

PHILLIP CHAN
Professor of Art
B.A., University of California at Berkeley, 1971
M.F.A., University of California at Berkeley, 1976

GUANG-HWA (ANDY) CHANG
Professor of Mathematics and Statistics
B.S., Nat’l. Taiwan Col. of Marine Sc. & Tech., China, 1981
M.S., Texas Tech University, Lubbock, 1987
Ph.D., Texas Tech University, Lubbock, 1993

HUAIYU (PETER) CHEN
Associate Professor of Accounting and Finance
B.A., Wuhan University, P.R.China, 1997
M.B.A., Clarkson University, New York, 1999
Ph.D., Syracuse University, 2003

CARL F. CHUEY
Professor of Biological Sciences
B.S. in Ed., Youngstown State University, 1966
M.S., Ohio University, 1969

GREGORY A. CLAYPOOL
Professor of Accounting and Finance
B.A., Kent State University, 1969
A.S., University of Chicago, 1974
M.B.A., Kent State University, 1977
Ph.D., Kent State University, 1988

MICHAEL C. CLAYTON
Associate Professor of Psychology
B.A., California State University, 1989
A.A., College of San Mateo, 1987
Ph.D., University of Nevada, 1998
MARIANNE K. DOVE
Professor of Counseling and Special Education
B.S., Wittenberg University, 1969
M.Ed., Youngstown State University, 1983
Ph.D., Kent State University, 1986

VIRGINIA ANN DRAA
Assistant Professor of Human Ecology
B.S., Ed., Bowling Green State University, 1977
M.S., Ed., Bowling Green State University, 1978
Ed.D., Youngstown State University, 2005

PATRICK R. DURRELL
Associate Professor of Physics and Astronomy
B.S. Astronomy, University of Victoria, Canada, 1990
M.S. Physics, McMaster University, Canada, 1992
Ph.D. Physics, McMaster University, Canada, 1996

ADAM C. EARNHEARDT
Assistant Professor of Communication
B.S., Clarion University of Pennsylvania, 1995
M.S., Clarion University of Pennsylvania, 1999
Ph.D., Kent State University, 2007

MARY BETH EARNHEARDT
Assistant Professor of English
B.A./B.S., Clarion University, 1997
M.S., Clarion University, 1999
Ph.D., Kent State University, 2006

RENEE M. EGGERS
Associate Professor of Educational Foundations, Research, Technology and Leadership
B.A., Youngstown State University, 1978
A.A.S., 1983, & B.S.A.S., 1986, Youngstown State University
M.S., Youngstown State University, 1982
Ph.D., Kent State University, 1994

JANE G. ELIAS
Professor of Human Ecology
B.S., Ohio University, 1971
M.S., Ohio University, 1978
Ph.D., The Ohio State University, 1989

STEVE L. ELLYSON
Professor of Psychology
B.A., Washington College, 1970
M.A., University of Delaware, 1973
Ph.D., University of Delaware, 1974

KENT J. ENGLHARDT
Professor of Music
B.M., Youngstown State University, 1986
M.M., Youngstown State University, 1993
M.A., University of Pittsburgh, 1999
Ph.D., University of Pittsburgh, 2001

JOY CHRISTIANSEN ERB
Assistant Professor of Art
B.F.A., Miami University, 2001
M.F.A., Texas Woman's University, 2005

RANGAMOHAN V. EUNNI
Associate Professor of Management
M.S., University of Bath, Bath, UK, 1997
DBA, Boston University, 2003

JACEK FABRYKOWSKI
Professor of Mathematics and Statistics
Masters, University of Warsaw, Poland, 1973
Ph.D., University of Warsaw, Poland, 1989

DIANA L. FAGAN
Professor of Biological Sciences
B.S., University of Texas Medical Branch, 1976
Ph.D., University of Texas Southwestern Medical Center, 1986

JOYCE A. FEIST-WILLIS
Associate Professor of Teacher Education
A.B., West Liberty State College, 1971
A.M., West Virginia University, 1974
Ed.D., West Virginia University, 1983

KATHRYN L. FELD
Professor of Health Professions
B.S., Youngstown State University, 1971
M.S., Westminster College, 1975

JOHN J. FELDMEIER
Assistant Professor of Physics and Astronomy
B.A. and B.S., University of Texas, 1994
Ph.D., Pennsylvania State University, 2000

MICHAEL FINNEY
Professor of English
B.A., Stanford University, 1962
M.A., University of Iowa, 1968
Ph.D., University of Iowa, 1975

DORCAS FITZGERALD
Professor of Nursing
B.S.N., University of Alabama, 1965
M.S.N., University of Alabama, 1969
D.N.S., The Catholic University of America, 2001

STEPHEN R. FLORA
Professor of Psychology
B.A., University of North Carolina, Chapel Hill, NC, 1985
M.S., University of Georgia, Athens, GA, 1987
Ph.D., University of Georgia, 1990

NEIL FLOWERS
Assistant Professor of Mathematics and Statistics
B.S., Michigan State University, 1986
M.A., Temple University, 1988
Ph.D., Michigan State University, 1996

FRANCOIS P. FOWLER
Assistant Professor of Dana School of Music
B.M., University of Ottawa, 1996
M.M., Florida State University, 1998
D.M., Florida State University, 2002

TIMOTHY FRANCISCO
Associate Professor of English
B.A., Western Connecticut State University, 1987
M.A., Western Connecticut State University, 1993
Ph.D., University of Alabama, 2001

GORDON G. FRISOSORA
Assistant Professor of Criminal Justice and Forensic Sciences
B.A., Mercyhurst College, Erie, PA, 1975
M.S., Youngstown State University, 1990
Ph.D., Kent State University, 1996
WILLIAM R. FR Y
Professor of Psychology
B.S., Western Illinois University, 1972
M.A., Wayne State University, 1976
Ph.D., Wayne State University, 1979

DARLA FUNK
Professor of Music/Teacher Education
B.A., University of Northern Colorado, 1967
M.A., University of Northern Colorado, 1975
Ph.D., Kent State University, 1985

JEANETTE M. GARR
Professor of Civil/Environmental and Chemical Engineering
B.A., State University of New York at Buffalo, 1978
M.A., State University of New York at Buffalo, 1984
Ph.D., State University of New York at Buffalo, 1989

RICHARD J. GAYDOS
Assistant Professor of Computer Science and Information Systems
B.S., Youngstown State University, 1979
M.S., Youngstown State University, 1980
M.S., Kent State University, 1983

W E IQ ING GE
Assistant Professor of Physical Therapy
B.S., Tianjin University, Tianjin, China, 1987
M.S., Xi’ An Medical University, Xi’ An, China, 1992
Ph.D., Peking Union Med. Coll. & Chinese Acad. of Med Sc., Beijing, China, 1996

M ICH AEL D. GEL FAN D
Professor of Music
B.M., Indiana University, 1971
M.M., Cleveland Institute of Music, 1974

G ALADRIEL MEHER A GERARDO
Assistant Professor of History
B.A., San Francisco State University, May 2000
M.A., University of California, January 2003
Ph.D., University of California, Los Angeles, 2007

J U L I A M. GERGITS
Professor of English
B.A., DePaul University, 1978
M.A., Penn State University, 1980
Ph.D., University of Minnesota, 1987

J ILL M. GIFFORD
Assistant Professor of Biological Sciences
B.S., Arizona State University, 1996
Ph.D., Kent State University, 2001

DA V ID VINCENT GILL
Assistant Professor of Art/Teacher Education
B.F.A., University of Illinois, Urbana Champaign, 1989
M.A., University of Illinois, Urbana Champaign, 1996
Ph.D., Northern Illinois University, 2008

P ATRICIA GIL M A R T IN
Professor of Sociology and Anthropology
A.B., Youngstown State University, 1972
M.S., Ball State University, 1976
Ph.D., Kent State University, 1983

P H ILIP E. GINNETTI
Dean and Professor of Teacher Education
B.S., Youngstown State University, 1974
M.S., Youngstown State University, 1978
Ph.D., University of Akron, 1989

K AREN GIORGETTI
Associate Professor of Psychology
B.S., Sweet Briar College, 1995
M.S., Purdue University, 1997
Ph.D., Purdue University, 2004

P R I SCILLA N. GITIMU
Assistant Professor of Human Ecology
B.S., Moi University, Kenya, 1996
M.S., Ed. Southern Illinois University at Carbondale, 1999
Ph.D., Southern Illinois University at Carbondale, 2005

M A R G A R E T M. GITTIS
Professor of Psychology
B.S., St. Lawrence University, 1969
M.A., The Ohio State University, 1973
Ph.D., The Ohio State University, 1975

S UZANNE M. GIUFFRE
Associate Professor of Physical Therapy
B.S. P.T., Daemen College, 1992
Ed.D., University of Pittsburgh, 2007

R AND A L L E. GOLDBERG
Instructor/Degree Completion
Dana School of Music
B.M., University of Texas, 1996
A.B.D., Indiana University, Jacobs School of Music, Bloomington expected 2009-10

RICH A R D G. GOL DTHW AIT, JR.
Assistant Professor of Mathematics and Statistics
B.S., Carnegie Mellon University, 1976
M.S., University of Pittsburgh, 1981
Ph.D., University of Texas at Dallas, 1988
LEAH GONGOLA
Assistant Professor of Counseling and Special Education
B.S., Ashland University, 2002
M.Ed., Kent State University, 2004
Ph.D., Kent State University, 2008

PAUL B. GORDIEJEW
Associate Professor of Sociology and Anthropology
B.A., Southern Connecticut State College, 1977
M.S., Southern Connecticut State College, 1980
Ph.D., University of Pittsburgh, 1993

JAY L. GORDON
Associate Professor of English
B.A., Brandeis University, 1991
M.A., Carnegie Mellon University, 1995
Ph.D., Carnegie Mellon University, 2001

DEBORAH DENISE GRAHAM
Assistant Professor of Teacher Education
B.A., Education, The University of Akron, 1984
M.Divinity Degree, Duke University, Durham, North Carolina, 1987
Ph.D., Secondary Educ., The University of Akron, 1998

BEVERLY ANN GRAY
Professor of Psychology
B.A., Adelphi University, 1971
M.A., Fordham University, 1974
Ph.D., Fordham University, 1986

BETTY L. GREENE
Instructor of Teacher Education
B.S., Elem. Educ., Miami University, 1974
M.Ed., Curriculum & Supervision, Miami University, 1983

WILLIAM H. GREENWAY
Professor of English
B.A., Georgia State University, 1970
M.A., Tulane University, 1977
Ph.D., Tulane University, 1984

ALICE GUERRA
Professor of Health Professions
B.S. in Ed., The Ohio State University, 1979
M.S., Boston University, 1980

STANLEY D. GUZELL, JR.
Professor of Management
B.A., The Ohio State University, 1969
M.P.I.A., University of Pittsburgh, 1973
Ph.D., University of Pittsburgh, 1980

GUOHONG (HELEN) HAN
Assistant Professor of Management
B.A., Shandong Normal University, China, 1991
M.A., Shandong University, China, 1994
M.A., University of Minnesota, 2002
Ph.D., University of Illinois, 2007

SUZAN C. HARPER
Assistant Professor of Computer Science and Information Systems
B.F.A., University of Nebraska, 1969
M.S., Duquesne University, 2001
M.E., St. Lawrence University, 1977

PATRICIA HAUSCHILDT
Professor of English/Teacher Education
B.S., University of Wisconsin-River Falls, 1983
M.A., University of Wisconsin-Madison, 1992
Ph.D., University of Wisconsin-Madison, 1995

CAROL HAWKINS
Associate Professor of Human Ecology
B.S., Kent State University, 1968
M.A., Kent State University, 1988
Ph.D., Kent State University, 1996

VERNON F. HAYNES
Professor of Psychology
B.A., University of Central Florida, 1980
M.S., University of Florida, 1983
Ph.D., University of Florida, 1984

JOHN M. HAZY
Associate Professor of Criminal Justice and Forensic Sciences
B.A., Youngstown State University, 1988
M.A., Kent State University, 1990
Ph.D., Kent State University, 1995

DENNIS R. HENNEMAN
Professor of Theater and Dance
B.A., North Central College, 1962
M.A., University of Minnesota, 1965
Ph.D., University of Nebraska, 1975

CARMELLA M. HILL
Instructor of Counseling and Special Education
B.S., John Carroll University, Cleveland, 1998
M.Ed., Cleveland State University, 2003

CYNTHIA S. HIRTZEL
Professor of Civil/Environmental and Chemical Engineering
A.B., Washington University, 1973
M.S., Northwestern University, 1977
Ph.D., Northwestern University, 1980

ROBERT A. HOGUE
Associate Professor of Computer Science and Information Systems
B.A., Grove City College, 1969
M.A., Bucknell University, 1970
M.S., Pennsylvania State University, 1983

RANDY L. HOOVER
Professor of Teacher Education
B.A., The Ohio State University, 1969
M.A., Edinboro State University, 1977
Ph.D., The Ohio State University, 1984

CARY HORVATH
Associate Professor of Communication
B.A., Youngstown State University, 1989
M.A., Kent State University, 1993
Ph.D., Kent State University, 1999

PATRICIA L. HOYSON
Professor of Nursing
B.S.N., Pennsylvania State University, 1986
M.S.N., Kent State University, 1991
Ph.D., University of Pittsburgh, 2001

OU HU
Associate Professor of Economics
B.A., Logistics Management, Beijing Inst. of Business, 1997
M.A., Financial Economics, West Virginia University, 2001
Ph.D., West Virginia University, 2004
ALLEN D. HUNTER
Professor of Chemistry
B.S., University of British Columbia, Canada, 1981
Ph.D., University of British Columbia, Canada, 1985

SHAKIR HUSAIN
Professor of Civil/Environmental and Chemical Engineering
B.S., The Aligarh Muslim University, 1974
M.S., The Aligarh Muslim University, 1976
M.S., University of Mississippi, 1984
Ph.D., University of Mississippi, 1987

MARLEEN IANNUCCI
Professor of Physical Therapy
B.A., Kent State University, 1973
B.S., Marquette University, 1979
M.S., Ohio State University, 1986
Ph.D., Ohio State University, 1990

Sylvia Imler
Associate Professor of Counseling and Special Education
B.S., Education, East Texas State University (Texas A&M at Commerce), 1975
M.S., Education, Youngstown State University, 1986
Ph.D., Religion & Society, Oxford Graduate School, Tennessee, 1993

A.K.M. Anwarul Islam
Associate Professor of Civil/Environmental and Chemical Engineering
B.S., Bangladesh Univ. of Engin. & Tech., 1992
M.S., Florida State University, 2000
Ph.D., Florida State University, 2005

Cryshanna A. Jackson
Assistant Professor of Political Science
B.S., Miami University
M.S., West Virginia University
Ph.D., Urban Studies & Public Affairs, University of Akron, Dec. 2006

Deborah L. JuruaZ
Professor of Health Professions
B.S., The Ohio State University, 1975
D.D.S., The Ohio State University, 1983

Carl G. Johnston
Professor of Management
B.S., University of Manitoba, 1981
M.S., University of Alaska, 1986
Ph.D., University of Cincinnati, 1992

Debbie JuruaZ
Associate Professor of Health Professions
R.D.H., Ohio State University, 1984
B.S. Ed., Ohio State University 1984
M.Ed., Kent State University, 1990

Birsen Karpak
Professor of Management
B.B.A., University of Istanbul, Turkey, 1974

Ram M. R. Kasuganti
Professor of Management
B.S.M.E., Osmania University, India, 1968
M.S.I.E., Purdue University, 1970
M.B.A., Kent State University, 1974
D.B.A., Kent State University, 1976

Peter J. Kasvinsky
Dean and Professor of Biochemistry
B.S., Bucknell University, 1964
Ph.D., University of Vermont, 1970

Louis E. Katz
Professor of Management
B.A., Kent State University, 1971
J.D., Cleveland State University, 1974
B.S., Illinois State University, 1977
BRUCE KEILLOR  
Associate Professor of Marketing  
B.A., University of Minnesota, 1987  
M.B.A., Minnesota State University, 1989  
Ph.D., University of Memphis, 1994  

SHIRLEY M. KELLER  
Associate Professor of Social Work  
B.A., Michigan State University, 1968  
M.S., Case Western Reserve University, 1981  
Ph.D., Case Western Reserve University, 1999  

STEVEN L. KENT  
Professor of Mathematics and Statistics  
B.A., Adelphi University, 1976  
M.A., University of Pittsburgh, 1979  
Ph.D., University of Pittsburgh, 1982  

G. JAY KERNS  
Associate Professor of Mathematics and Statistics  
B.A., Glenville State College, 1999  
M.A., Math/Statistics, Bowling Green State University, 2000  
Ph.D., Bowling Green State University, 2004  

JANE E. KESTNER  
Professor of Psychology  
B.S., Ball State University, 1973  
M.A., University of Notre Dame, 1975  
Ph.D., University of Notre Dame, 1978  

HONG YUNG KIM  
Professor of Teacher Education  
B.A., Sung-Kyun-Kwan University, 1964  
M.E., Seoul National University, 1969  
Ph.D., Ball State University, 1974  

HYUN W. KIM  
Professor of Mechanical and Industrial Engineering  
B.S., Seoul National University, 1968  
M.S., University of Michigan, 1975  
Ph.D., University of Toledo, 1980  
P.E., Ohio  

SUNGSOO KIM  
Assistant Professor of Human Ecology  
B.S., Kyonggi University, 2001  
M.S., Pennsylvania State University, 2003  
Ph.D., University of Florida, 2008  

TAMMY CALLIHAN KING  
Associate Professor of Criminal Justice and Forensic Sciences  
B.S., Youngstown State University, 1987  
M.S., Youngstown State University, 1990  
Ph.D., Indiana University of Pennsylvania, 1996  

BRIAN D. KISER  
Assistant Professor of Dana School of Music  
B.M.E. University of Northern Iowa, 1998  
M.M., (Tuba Performance), University of Illinois, 2000  
D.M.D., Indiana University of Jacobs School of Music, 2007  

JAMES M. KOHUT  
Associate Professor of Marketing  
B.S., Bowling Green State University, 1974  
M.B.A., Youngstown State University, 1980  
Ed.D, University of Akron, 1988  

ANTHONY J. KOS  
Associate Professor of Management  
B.S. in B.A., Youngstown State University, 1983  
M.B.A., Youngstown State University, 1987  
Ph.D., Kent State University, 1997  

ROBERT W. KRAMER  
Associate Professor of Computer Science and Information Systems  
B.S., Youngstown State University, 1987  
M.S., University of Pittsburgh, 1991  
Ph.D., University of Pittsburgh, 1998  

VICTORIA E. KRESS  
Professor of Counseling and Special Education  
M.A. Ed., The University of Akron, 1995  
Ph.D., The University of Akron, 1999  

JHONNA K. KRONTIRIS-LITOWITZ  
Professor of Biological Sciences  
B.A., Case Western Reserve University, 1974  
M.S., Case Western Reserve University, 1977  
Ph.D., Cleveland State University, 1984  

CHRISTOPHER KRUMMEL  
Professor of Music  
B.M., Miami University, Oxford, OH, 1985  
M.M., University of Illinois at Urbana Champaign, 1992  
D.M.A., University of Illinois at Urbana Champaign, 1997  

GANESH KUDAV  
Professor of Mechanical and Industrial Engineering  
B.S., University of Bombay, 1977  
M.S., Mississippi State University, 1981  
Ph.D., Texas Tech University, 1988  

DAVID G. KURTANICH  
Associate Professor of Engineering Technology  
B.E.C.E., Youngstown State University, 1978  
M.S.C.E., Carnegie Mellon University, 1980  
P.E., Ohio, Pennsylvania  

BONNIE YOUNG LAING  
Associate Professor of Social Work  
M.S.W., West Virginia University, 1992  
Ph.D., Virginia Commonwealth University, 2003  

CAROL M. LAMB  
Associate Professor of Engineering Technology  
B.S., Youngstown State University, 2001  
M.S.E., Youngstown State University, 2005  

NANCY CRUM LANDGRAFF  
Associate Professor of Physical Therapy  
B.S., University of Pittsburgh, 1982  
M.H.S., University of Florida, 1988  
Ph.D., University of Pittsburgh, 2004  

DENNIS R. LATESS  
Assistant Professor of Human Performance and Exercise Science/Teacher Education  
B.S., Youngstown State University, 1975  
M.S., Youngstown State University, 1985  
Ph.D., The Ohio State University, 1988
DAVID B. LAW  
Professor of Accounting and Finance  
B.A., Youngstown State University, 1975  
M.B.A., Youngstown State University, 1985  
Ph.D., Cleveland State University, 1994  

ALINA LAZAR  
Associate Professor of Computer Science and Information Systems  
B.S., Western University of Timisoara, Romania, 1995  
Ph.D., Wayne State University, 2002  

KENNETH LEARMAN  
Associate Professor of Physical Therapy  
B.S., P.T., State University of New York at Buffalo, 1989  
M.E., H.E., Pennsylvania State University, 1993  
Ph.D., University of Pittsburgh, 2007  

THOMAS E. LEARY  
Associate Professor of History  
B.A., John Fisher College, 1969  
Ph.D., Brown University, 1985  

LOREN R. LEASE  
Associate Professor of Sociology and Anthropology  
B.A., Kenyon College (Ohio), 1994  
M.A., The Ohio State University, 1996  
Ph.D., The Ohio State University, 2003  

HAE-JONG LEE  
Associate Professor of Music  
B.M., Seoul National University, 1989  
M.M., Westminster Choir College, 1995  
D.M.A., University of Illinois at Urbana, Champaign, 2003  

ROBERT E. LEIPHEIMER  
Professor of Biological Sciences  
B.A., Thiel College, 1972  
M.S., Slippery Rock State College, 1979  
Ph.D., The Ohio State University, 1981  

ALYSSA LENHOF  
Instructor of English  
B.S., Northwestern University, 1985  
M.A., Youngstown State University, 2003  

SCOTT A. LEONARD  
Professor of English  
B.A., Humboldt State University, 1987  
M.A., Humboldt State University, 1987  
Ph.D., The Ohio State University, 1992  

KEITH J. LEPAK  
Associate Professor of Political Science  
B.A., Carroll College, 1976  
M.A., University of Virginia, 1980  
Ph.D., University of Virginia, 1986  

BRIAN D. LESKIW  
Associate Professor of Chemistry  
B.S., Niagara University, 1998  
Ph.D., The Pennsylvania State University, 2003  

SUZANNE LESON  
Instructor of Human Ecology  
B.S., College of St. Teresa, 1974  
M.S., Northern Illinois University, 1982  
Ph.D., Kansas State University, 2009  

SALLY A. LEWIS  
Assistant Professor of Counseling and Special Education  
B.S., Kent State University, 1969  
M.A., Kent State University, 1975  
Ph.D., Kent State University, 1999  

FRANK XIYING LI  
Assistant Professor of Electrical and Computer Engineering  
B.S.E.E., Ohio State University, 1996  
M.S.E.E., Youngstown State University, 1999  
Ph.D., Case Western Reserve University, 2005  

MIN LI  
Assistant Professor of Sociology and Anthropology  
B.A., Fudan University, 1982  
M.S., University of Wisconsin–Madison, 1992  
Ph.D., University of Illinois at Chicago, 2004  

BETTY JO LICATA  
Dean and Professor of Management  
B.A., State University College of New York at Geneseo, 1973  
M.B.A., Rensselaer Polytechnic Institute, New York, 1981  
Ph.D., Rensselaer Polytechnic Institute, New York, 1982  

SOON-SIK LIM  
Professor of Civil/Environmental and Chemical Engineering  
B.S., Yonsei University, Korea, 1971  
M.S., Wayne State University, 1975  
Ph.D., Wayne State University, 1981  
P.E., Ohio  

SHERRY L. LINKON  
Professor of English  
B.A., Macalester College, 1980  
M.A., University of Denver, 1983  
Ph.D., University of Minnesota, 1990  

CLOVIS LINKOUS  
Professor of Chemistry  
B.S., Purdue University  
Ph.D., Michigan State University, 1983  

SUSAN A. LISKO  
Assistant Professor of Nursing  
B.S.N., Youngstown State University, 1984  
M.S.N., Gannon University, 1992  
D.N.P., Case Western Reserve University, 2009  

HEATHER E. LORIMER  
Associate Professor of Biological Sciences  
A.B., The University of Chicago, 1982  
M.A., Columbia University, 1988  
M.Phil., Columbia University, 1989  
Ph.D., Columbia University, 1992  

SHERRI R. LOVELACE-CAMERON  
Associate Professor of Chemistry  
B.S., Drexel University, 1986  
Ph.D., University of Pittsburgh, 1992  

THOMAS A. MARAFFA  
Professor of Geography  
B.A., The Ohio State University, 1975  
M.A., The Ohio State University, 1977  
Ph.D., The Ohio State University, 1980
HAZEL MARIE
Assistant Professor of Mechanical and Industrial Engineering
B.S.M.E., University of Texas-Austin, 1984
M.S.E., Youngstown State University, 1998
Ph.D., University of Akron, 2005

DON MARTIN
Professor of Counseling and Special Education
B.A., Roanoke College, 1974
M.S., Radford University, 1976
Ph.D., North Texas State, 1981

SCOTT C. MARTIN
Professor of Civil/Environmental and Chemical Engineering
B.A., Clarkson College of Technology, 1977
M.S., Clarkson College of Technology, 1979
Ph.D., Clarkson College of Technology, 1984

NDINZI MASAGARA
Associate Professor of Foreign Languages and Literatures
M.A., University of Southern California, 1986
Ph.D., University of Southern California, 1991

MARCIA MATANIN
Professor of Human Performance and Exercise Science
B.S., Youngstown State University, 1987
M.E., Kent State University, 1990
Ph.D., Ohio State University, 1993

WALTER T. MATHEWS
Associate Professor of Communication
A.B., Oberlin College, 1974
M.S., Case Western Reserve University, 1977
Ph.D., Michigan State University, 1987

Michele L. McCarroll
Assistant Professor of Human Performance and Exercise Science
B.S., Ohio University, Athens, 1997
M.Ed., Cleveland State University, 1998
Ph.D., The Ohio State University, 2005

PATRICIA A. McCARTHY
Professor of Nursing
B.S., Mercy College of Detroit, 1964
M.S.N., Wayne State University, 1966
Ph.D., University of Pittsburgh, 1982

George McCLOUD
Professor of Communication
B.A., Eastern Michigan University, 1967
M.A., University of Michigan, 1968
Ph.D., University of Michigan, 1975

Christine McCULLOUGH
Assistant Professor of Art
B.F.A., University of Maryland, Baltimore County, 1978
M.F.A., Maryland Institute College of Art, 1993

DiANE R. McDOUGAL
Professor of Nursing
B.S.N., Pennsylvania State University, 1970
MNED, University of Pittsburgh, 1977

RICHARD A. McEWING
Professor of Educational Foundations, Research, Technology and Leadership
B.S., Northern State College, 1968
M.A.T., Harvard University, 1973
Ed.D., University of Colorado, Boulder, 1978

Benjamin L. McGee
Assistant Professor of Counseling and Special Education
B.A., Ed., Ohio State University, 1972
M.S., Ed., Youngstown State University, 1978
Ph.D., Youngstown State University, 2006

Renee McManus
Assistant Professor of Nursing

Donna J. McNiery
Professor of Educational Foundations, Research, Technology and Leadership
B.S., Ball State University, 1967
M.S., Butler University, 1973
M.A., Ball State University, 1981
Ed.D., Ball State University, 1983
M.S., Kent State University, 2004

Hojjat Mehri
Professor of Mechanical and Industrial Engineering
B.Sc., Abadan Institute of Technology, 1968
M.S., Illinois Institute of Technology, 1973
Ph.D., Illinois Institute of Technology, 1981

Anthony P. Messuri
Professor in the School of Technology
B.E., Youngstown State University, 1977
M.S., Youngstown State University, 1979
Doctor of Engr., Cleveland State University, 1987
P.E., Ohio and Pennsylvania

Howard D. Metttee
Professor of Chemistry
B.A., Middlebury College, 1961
Ph.D., University of Calgary, 1964

Carolyn K. Mikakowicz
Professor of Health Professions
R.N., Mercy Hospital School of Nursing, 1962
B.S., Mansfield University, 1978
M.S., Pennsylvania State University, 1985
Ph.D., Pennsylvania State University, 1990

Kenneth L. Miller
Professor of Counseling and Special Education
B.A., Purdue University, West Lafayette, 1979
M.S., Purdue University, Calumet, 1985
Ph.D., Purdue University, West Lafayette, 1990

Xiangjia Min
Assistant Professor of Biological Sciences
B.S., Laiyang Agricultural College, China, 1984
M.S., Beijing Agricultural University, 1987
Ph.D., University of Hawaii, 1995
M.S., University of British Columbia, 2002

Daryl W. Mincey
Professor of Chemistry
B.S., University of Cincinnati, 1972
M.S., University of Cincinnati, 1974
Ph.D., University of Cincinnati, 1979
JEANINE L. MINCHER  
Instructor of Human Ecology  
B.S., Youngstown State University, 1985  
M.S., Youngstown State University, 1989

MUSTANSIR MIR  
Professor of Philosophy and Religious Studies  
B.A., Punjab University, Lahore, Pakistan, 1967  
M.A., Punjab University, Lahore, Pakistan, 1969  
M.A., University of Michigan, Ann Arbor, 1980  
Ph.D., University of Michigan, Ann Arbor, 1983

JOSEPH J. MISTOVICH  
Professor of Health Professions  
A.A.S., Youngstown State University, 1982  
B.S., Youngstown State University, 1985  
M.Ed., Kent State University, 1988

DENNIS MORAWSKI  
Associate Professor of Social Work  
B.S., Lake Superior State College, 1978  
M.S.W., Wayne State University, 1980  
Ph.D., University of Tennessee, 1990

DAVID S. MORGAN  
Associate Professor of Dana School of Music  
B.M., University of Texas, 1990  
M.M., University of Texas, 1993  
D.M.A., University of Texas, 1996

GREG MORING  
Professor of Art  
B.F.A., State University of New Paltz, New Paltz, NY, 1973  
M.F.A., Rinehart School of Sculpture, Maryland Inst. College of Art, Baltimore, MD, 1975

JOSEPH L. MOSCA  
Dean and Professor of Health and Human Services  
B.S.W., University of Illinois at Chicago, 1980  
M.S.W., University of Illinois at Chicago, 1981  
Ph.D., University of Pittsburgh, 1992

NANCY W. MOSCA  
Professor of Nursing  
B.S.N., University of Illinois, 1977  
M.S., University of Illinois, 1982  
Ph.D., Case Western Reserve University, 1995

MICHAEL T. MOSELEY  
Professor of Art  
B.F.A., Texas Tech University, 1973  
M.F.A., Texas Tech University, 1976

ALLAN MOSHER  
Professor of Music  
B.A., San Francisco State University, 1974  
B.A., University of California at Berkeley, 1977  
M.M., Eastman School of Music, 1978  
D.M.A., University of Cincinnati, 1986

FARAMARZ MOSSAYEBI  
Associate Professor of Electrical and Computer Engineering  
B.E., Youngstown State University, 1981  
M.S., Youngstown State University, 1987  
M.S., Youngstown State University, 1990  
Ph.D., University of Akron, 1994

DEBORAH S. MOWER  
Assistant Professor of Philosophy and Religious Studies  
B.A., Pacific University, 1998  
M.A., University of Wisconsin-Madison, 2003  
Ph.D., University of Wisconsin-Madison, 2007

KIN PING MOY  
Associate Professor of School of Technology  
B.E., Youngstown State University, 1971  
M.S., Youngstown State University, 1973

NICOLE MULLINS  
Associate Professor of Human Performance and Exercise Science  
B.S., University of New Hampshire, 1994  
M.A., Kent State University, 1997  
Ph.D., Kent State University, 2002

PHILIP C. MUNRO  
Professor of Electrical Engineering  
B.S.E.E., Washington University, 1960  
M.S., Washington University, 1964  
Ph.D., Purdue University, 1973

KATHLEEN MUMAW  
Assistant Professor of Accounting and Finance

JOHN MURPHY  
Professor of Theater and Dance  
B.A., Arizona State University, 1977  
M.F.A., The University of Arizona, 1979

DENISE A. NARCISSE  
Assistant Professor of Sociology and Anthropology  
B.A., University of Illinois at Chicago, 1977  
M.A., University of Illinois at Chicago, 1997  
M.P.A., Roosevelt University, Chicago, 1980  
Ph.D., University of Illinois at Chicago, 2006

CHARLES A. NELSON  
Professor of English  
B.A., Augustana College, 1967  
M.A., University of Wisconsin, 1968  
Ph.D., University of Wisconsin, 1974

MICHELLE NELSON  
Associate Professor of Art  
B.F.A., Herron School of Art, 1993  
M.F.A., Indiana University, 1998

PETER NORRIS  
Professor of Chemistry  
B.S., The University of Salford (England), 1986  
Ph.D., The Ohio State University, 1992

BARBARA NYKIEL-HERBERT  
Assistant Professor of English  
Diploma, Marie Curie-Sklodowska University  
M.A., Marie Curie-Sklodowska University, 1977  
Ph.D., Adam Mickiewicz University, 1984
VALERIE MARIE O’DELL
Assistant Professor of Nursing
B.S.N., Youngstown State University, 1985
M.S.N., Kent State University, 1993
D.N.P., Case Western Reserve University, 2009

TOM NELSON ODER
Associate Professor of Physics and Astronomy
B.S., Makerere University, Uganda, 1984
M.S., University of St. Andrews, UK, 1986
Ph.D., Auburn University, Alabama, 1999

GAIL OKAWA
Professor of English
B.A., University of Hawaii, 1964
M.A., Duke University, Durham, NC, 1964
Ph.D., Indiana University of Pennsylvania, 1994

ANITA C. O’MELLAN
Professor of Mathematics and Statistics
B.S., Southern Illinois University, Carbondale, 1987
M.S., Texas A & M University, College Station, 1988
Ph.D., Memphis State University, 1993

MATT O’MANSKY
Assistant Professor of Sociology and Anthropology
B.A., Indiana University, 1991
Ph.D., Vanderbilt University, 2007

DANIEL J. O’NEILL
Professor of Communication
B.A., Wayne State University, 1961
M.A., Bowling Green State University, 1962
Ph.D., Michigan State University, 1969

CHRISTIAN C. ONWUDIWE
Assistant Professor of Criminal Justice and Forensic Sciences
B.A., Southern Univ. and A & M College, 1986
M.A., Southern Univ. and A & M College, 1988
Ph.D., Howard University, 1995

TOMI P. OVASKA
Assistant Professor of Economics
M.A., West Virginia University, 2001
M.A., University of Jyvaskyla (Finland), 1997
Ph.D., West Virginia University, 2003

ALFRED W. OWENS
Professor of Communication
B.A., Baldwin-Wallace College, 1969
M.A., Kent State University, 1971
Ph.D., Kent State University, 1983

JOSEPH PALARDY
Associate Professor of Economics
B.S., Frostburg State University, 1997
Ph.D., West Virginia University, 2002

MARTHA PALLANTE
Professor of History
B.A., Youngstown State University, 1977
M.A., College of William and Mary, 1982
Ph.D., University of Pennsylvania, 1988

GABRIEL PALMER-FERNANDEZ
Professor of Philosophy and Religious Studies
B.S., Florida International University, 1977
M.A., West Georgia College, 1978
M.T.S., Harvard University, The Divinity School, 1981
A.M., Harvard University, 1988
Ph.D., Harvard University, 1992

J. RAJENDRAN PANDIAN
Assistant Professor of Management
B.Tech. in Elec. Engr., Indian Institute of Technology, Madras, India, 1971
M.Tech., Elec. Engr., Regional Engineering College, Warangal, Osmania University, 1973
M.B.A., Xavier Labor Relations Institute, Jamshedpur, India, 1983
Ph.D., University of Illinois at Urbana-Champaign, 1995

SALVATORE R. PANSINO
Professor of Electrical Engineering
B.S., Carnegie Institute of Technology, 1957
M.S., Franklin and Marshall College, 1961
Ph.D., Carnegie-Mellon University, 1968

YOGENDRA PANTA
Assistant Professor of Mechanical and Industrial Engineering
B.S., Tribhuvan University, 1995
M.S., Youngstown State University, 2004
Ph.D., University of Nevada (UNLV), 2008
B.E., Tribhuvan University, 2000

CATHY BIEBER PARROTT
Assistant Professor of Physical Therapy
B.S. in P.T., University of Texas Medical Branch, 1984
Advanced Masters in Sports Medicine, University of Pittsburgh, 1994

LOUISE PAVIA
Professor of Human Ecology
B.A., Carlow College, Pittsburgh, PA, 1971
M.S., University of Pittsburgh, 1974
Ph.D., University of Alabama at Birmingham, 1993

MATTHEW PAYLO
Assistant Professor of Counseling and Special Education
B.S., Grove City College, 2000
M.A., Slippery Rock University, 2004
Ph.D., University of Virginia, 2007

GANG PENG
Assistant Professor of Management
B.S., Shandong University, China, 1992
M.B.A., Southeastern Louisiana University, 1999
Ph.D., University of Washington, 2006
GRACIELA C. PERERA  
Assistant Professor of Computer Science and Information Systems  
B.S., Metropolitan University, Venezuela, 1992  
M.S., Simon Bolivar University, Venezuela, 1997  
Ph.D., University of South Florida, 2007  
TEDROW L. PERKINS  
Professor of Music  
B.Mu., California State University at Fullerton, 1975  
M.Mu., California State University at Fullerton, 1978  
D.M.A., North Texas State University, 1986  
DENNIS A. PETRUSKA  
Professor of Economics  
B.A., University of Pittsburgh, 1973  
M.A., The Ohio State University, 1975  
Ph.D., The Ohio State University, 1984  
KARIN PETRUSKA  
Assistant Professor of Accounting and Finance  
B.S., Youngstown State University, 1989  
M.B.A., Youngstown State University, 1993  
C. ALLEN PIERCE  
Professor of Criminal Justice and Forensic Sciences  
A.A., Bay City Junior College, 1961  
B.S., Michigan State University, 1968  
M.S., Michigan State University, 1970  
Ph.D., Kent State University, 1980  
JENNIFER PINTAR  
Associate Professor of Human Performance and Exercise Science  
M.S., University of Pittsburgh, 1995  
Ph.D., University of Pittsburgh, 2001  
M.P.H., University of Pittsburgh, 2004  
ZBIGNIEW PIOTROWSKI  
Professor of Mathematics and Statistics  
B.S., University of Wroclaw, Poland, 1974  
M.S., University of Wroclaw, Poland, 1976  
Ph.D., University of Wroclaw, Poland, 1979  
RACHAEL J. POHLE-KRAUZA  
Assistant Professor of Human Ecology  
B.S., D'Youville College, Buffalo, NY, 2001  
M.S., D'Youville College, Buffalo, NY, 2001  
Ph.D., University at Buffalo, SUNY, 2007  
DAVID H. POLLACK  
Associate Professor of Mathematics and Statistics  
B.S., University of Illinois, 1976  
M.S., University of Illinois, 1982  
Ph.D., University of Illinois, 1989  
DAVID S. PORTER  
Professor of Political Science  
B.S., Grand Valley State College, 1975  
M.P.A., Grand Valley State College, 1981  
M.A., Michigan State University, 1984  
Ph.D., Michigan State University, 1987  
TOD PORTER  
Professor of Economics  
B.A., Syracuse University, 1978  
M.A., Syracuse University, 1981  
Ph.D., Syracuse University, 1984  
DOUGLAS M. PRICE  
Associate Professor of Civil/Environmental and Chemical Engineering  
B.S., Pennsylvania State University, 1984  
M.S., University of Notre Dame, 1986  
Ph.D., University of Notre Dame, 1988  
JAKE J. PROTIVNAK  
Assistant Professor of Counseling and Special Education  
B.S., Andres University, 1998  
M.Ed., Kent State University, 2002  
Ph.D., Ohio University, 2005  
CLEMENT C. PSENICKA  
Professor of Management  
B.S., Dyke College, 1969  
M.A., Kent State University, 1972  
D.B.A., Kent State University, 1976  
LASHALE DIANE PUGH  
Assistant Professor of Geography  
B.S./B.A., Youngstown State University, 2000  
M.S., Youngstown State University, 2002  
Ph.D., University of Maryland, 2009  
JAMES D. PUSCH  
Associate Professor of Educational Foundations, Research, Technology and Leadership  
B.S., State University of New York College at Buffalo, 1973  
M.S., Russell Sage College, 1976  
Ph.D., University of Virginia, 1988  
FRANK R. RAGOZZINE  
Assistant Professor of Psychology  
B.A., Youngstown State University, 1990  
M.A., University of California, San Diego, 1993  
Ph.D., University of California, San Diego, 1998  
THOMAS L. RAKESTRAW JR.  
Associate Professor of Management  
B.S., Florida State University, 1976  
M.S., Purdue University, 1980  
Ph.D., Purdue University, 1983  
STEVEN M. REALE  
Assistant Professor  
Dana School of Music  
B.A., Indiana University, 2001  
M.A., University of Michigan, 2003  
Ph.D., University of Michigan, 2009  
PETER A. REDAY  
Associate Professor of Marketing  
B.A., Oakland University, Rochester, Michigan, 1971  
M.I.M., American Graduate School of International Management, 1977  
Ph.D., Nanyang Technological University, Singapore, 2002  
REGINA M. REES  
Assistant Professor of Teacher Education  
B.S., Youngstown State University, 1974  
M.Ed., Youngstown State University, 2000  
Ph.D., University of Akron, 2005
STEVEN REESE  
Professor of English  
B.A., Bucknell University, 1981  
M.A., University of Delaware, 1983  
Ph.D., University of Delaware, 1988  
IAN J. RENNE  
Assistant Professor of Biological Sciences  
B.S., Syracuse University, 1992  
M.S., Clemson University, 1996  
Ph.D., Clemson University, 2001  
TERESA RILEY  
Professor of Economics  
B.A., Wittenberg University, 1978  
M.A., Syracuse University, 1983  
Ph.D., Syracuse University, 1984  
NATHAN P. RITCHEY  
Professor of Mathematics and Statistics  
B.A., Mansfield University of Pennsylvania, 1984  
M.S., Carnegie Mellon University, 1986  
Ph.D., Carnegie Mellon University, 1989  
KEISHA ROBINSON  
Assistant Professor of Health Professions  
B.S., Xavier University of Louisiana, 1999  
M.P.H., St. Louis University, 2002  
DrPH, University of Pittsburgh, 2007  
STEPHEN E. RODABAUGH  
Professor of Mathematics and Statistics  
B.A., University of Missouri, 1970  
M.A., University of Missouri, 1971  
Ph.D., University of Missouri, 1974  
ROBERT L. ROLLIN  
Professor of Music  
B.A., City College of New York, 1968  
M.F.A., Cornell University, 1971  
D.M.A., Cornell University, 1973  
JENA ROOT  
Assistant Professor of Dana School of Music  
B.M., Composition, Shenandoah Conservatory, 1993  
M.M., Composition, Syracuse University, 1996  
Ph.D., University of Minnesota, Twin Cities, 2000  
ROCIO ROSALES  
Assistant Professor of Psychology  
B.A., University of Nevada, 2001  
M.S., Southern Illinois University, 2005  
Ph.D., Southern Illinois University, 2009  
ZARA CHARMAINE ROWLANDS  
Assistant Professor of Human Ecology  
B.S., Howard University, 1991  
M.S., Howard University, 1995  
Ph.D., Florida International University, 2003  
ROMAN V. RUDNYTSKY  
Associate Professor of Music  
B.S., Juilliard School of Music, 1964  
M.S., Juilliard School of Music, 1965  
JOHN B. RUSSO  
Professor of Management  
B.S., Michigan State University, 1969  
M.S., State University of New York at Brockport, 1973  
Ed.D., University of Massachusetts, 1977  
GARY M. SALVNER  
Professor of English  
B.A., Valparaiso University, 1968  
M.Ed., University of Missouri, 1970  
Ph.D., University of Michigan, 1977  
SALVATORE SANDERS  
Associate Professor of Health Professions  
B.S.A.S., Youngstown State University, 1985  
M.S., University of Akron, 1988  
Ph.D., University of Akron, 2006  
JOHN E. SARKISSIAN  
Professor of Foreign Languages and Literatures  
B.A., Michigan State University, 1971  
Ph.D., Duke University, 1977  
PATRICIA J. SARRO  
Professor of Art  
B.A., Fordham University, 1971  
M.A., University of Missouri, 1975  
M.A., Columbia University, 1988  
M.Phil., Columbia University, 1989  
Ph.D., Columbia University, 1995  
GAIL SAUNDERS-SMITH  
Assistant Professor of Teacher Education  
B.S., Kent State University, 1974  
M.A., Kent State University, 1977  
M.S., Youngstown State University, 1980  
Ph.D., The University of Akron, 1994  
GLENN SCHAFT  
Associate Professor of Dana School of Music  
B.M., Baldwin-Wallace College Conservatory of Music, 1982  
M.A., Eastern Illinois, 1983  
D.M.A., University of Illinois, Champaign-Urbana, 1993  
JAMES J. SCHRAMER  
Professor of English  
B.A., University of Washington, 1966  
M.A., University of Washington, 1974  
Ph.D., University of Minnesota, 1987  
KRIS A. SCHUELLER  
Professor of Computer Science and Information Systems  
B.A., Youngstown State University, 1981  
M.S., Youngstown State University, 1982  
Ph.D., Northwestern University, 1987  
PAMELA A. SCHUSTER  
Professor of Nursing  
B.S.N., The Ohio State University, 1975  
M.S.N., Kent State University, 1982  
Ph.D., Case Western Reserve University, 1990  
MICHAEL A. SERRA  
Associate Professor of Chemistry  
B.S., Biology, Adrian College, Michigan, 1984  
B.A., Mathematics, Adrian College, Michigan, 1984  
Ph.D., Iowa State University, 1990  
KIMBERLY A. SERRORA  
Associate Professor of Nursing  
B.S.N., Youngstown State University, 1987  
M.S.N., Kent State University, 1989  
D.N.P., Case Western Reserve University, 2009
RAYMOND J. SHAFFER
Professor of Accounting and Finance
B.A., Grove City College, 1974
M.B.A., Youngstown State University, 1985
D.B.A., University of Kentucky, 1990
RONALD V. SHAKLEE
Professor of Geography
B.A., University of Kansas, 1975
M.A., University of Kansas, 1979
Ph.D., University of Kansas, 1983
RICHARD A. SHALE
Professor of English
B.A., Ohio Wesleyan University, 1969
M.A., University of Michigan, 1972
Ph.D., University of Michigan, 1976
JANE L. SHANABARGER
Associate Professor of Theater and Dance
A.B., West Virginia University, 1967
A.M., West Virginia University, 1969
BRADLEY A. SHELLITO
Associate Professor of Geography
B.S., Youngstown State University, 1994
M.A., Ohio State University, 1996
Ph.D., Michigan State University, 2001
CYNTHIA SHIELDS
Assistant Professor of Nursing
ELVIN B. SHIELDS
Professor of Mechanical and Industrial Engineering
B.E.M.E., Youngstown State University, 1974
M.S.M.E., The University of Akron, 1979
Ph.D., The University of Akron, 1991
SHARON P. SHIPTON
Professor of Nursing
A.S., Community College of Beaver County, 1973
B.S.N., Slippery Rock State College, 1976
M.S.N., Edinboro State College, 1982
Ph.D., University of Pittsburgh, 1994
THELMA SILVER
Associate Professor of Social Work
B.A., McGill University, 1969
M.S.W., McGill University, 1971
Ph.D., Mandel School of Applied Social Sciences, 1995
JOSEF B. SIMEONSSON
Associate Professor of Chemistry
B.S., University of North Carolina, Chapel Hill, 1986
Ph.D., University of Florida, Gainesville, 1990
DAVID SIMONELLI
Associate Professor of History
B.A., University of Connecticut, 1988
M.A., Tulane University, 1991
Ph.D., Tulane University, 2001
CARL SIMS
Assistant Professor of Biological Sciences
B.A., Youngstown State University, August 1982
M.S., Kent State University, December 1992
Ph.D., Case Western Reserve University, August 2004
HELENE J. SINNREICH
Associate Professor of History
B.A., Smith College, 1997
M.A., Brandeis University, 2003
Ph.D., Brandeis University, 2004
DOLORES V. SISCO
Assistant Professor of English
B.A., University of Baltimore, 1995
M.A., Central Michigan University, 1998
Ph.D., Michigan State University, 2005
LEE R. SLIVINSKE
Professor of Social Work
B.A., Ohio University, 1969
M.S.S.A., Case Western Reserve University, 1976
Ph.D., Case Western Reserve University, 1984
WILLIAM B. SLOCUM
Professor of Music
B.F.A., University of New Mexico, 1959
M.M., University of New Mexico, 1965
JEROME K. SMALL
Professor of Psychology
B.A., University of Virginia, 1965
M.A., University of Georgia, 1969
Ph.D., University of Georgia, 1972
MELISSA T. SMITH
Professor of Foreign Languages and Literatures
B.A., Barnard College, Columbia University, 1973
M.A., Middlebury College, Vermont, 1976
Ph.D., University of Pittsburgh, 1984
SHANE V. SMITH
Assistant Professor of Geological and Environmental Sciences
B.A., The University of Montana, 1997
M.S., New Mexico State University, 1999
Ph.D., Washington State University, 2005
STEPHANIE SMITH
Associate Professor of Art
B.A., Washington & Lee University, 1989
M.A., Rutgers University, 1998
Ph.D., Rutgers University, 2000
THOMAS SMOTZER
Professor of Mathematics and Statistics
B.M., Baldwin Wallace, 1988
M.S., Indiana University, Bloomington, 1991
Ph.D., Indiana University, Bloomington, 1995
FRANCIS SOLE
Assistant Professor of Management
VIRGIL C. SOLOMON
Assistant Professor of Mechanical and Industrial Engineering
Ph.D., Kumamoto University, 2002
Engineer’s Diploma (equiv. BS/M.Sc.), Mechanical Eng.: Gheorghe Asachi Polytechnic Institute, Iasi, Romania
ANGELA SPALSBURY
Associate Professor of Mathematics and Statistics
B.S., Kent State University, 1989
M.A., Kent State University, 1991
M.Sc., University of Pretoria (South Africa), 1992
Ph.D., Kent State University, 1996
JOZEF S. SPIEGEL
Assistant Professor of Social Work
B.S., Point Park University, Pittsburgh, 1980
M.S., Columbia University, School of Social Work, New York, 1989
Ph.D., Florida State University, School of Social Work, Tallahassee, 1995
PATRICK T. SPEARMAN
Assistant Professor of Educ. Found., Res., Tech., and Ldrshp.
B.A., University of Cincinnati, 1992
M.Ed., University of Cincinnati, 2000
Ph.D., Temple University, 2005
JONATHAN DANA SPERRY
Assistant Professor of Art
B.F.A., Southern Methodist University, 1995
M.F.A., Indiana University, 2001
PAUL A. SRACIC
Professor of Political Science
B.A., Albright College, 1984
M.A., The State University of New Jersey Rutgers, 1990
Ph.D., The State University of New Jersey Rutgers, 1993
GARY L. STANEK
Professor of Mathematics and Statistics
B.A., Kent State University, 1975
M.A., Kent State University, 1977
Ph.D., Kent State University, 1982
NINA V. STOURMAN
Assistant Professor of Chemistry
B.S. / M.S., Honors Degree in Chemistry, Moscow State University, Russia, June 1984
M.S., Honors Degree in Chemistry, Moscow State University, Russia, June 1984
Ph.D., Moscow State University, Russia, April 1992
DAVID E. STOUT
Professor and Endowed Chair of Accounting and Finance
Ph.D., University of Pittsburgh Grad. Schl. of Business, 1982
SHARON A. STRINGER
Professor of Psychology
B.S., Georgetown University, 1977
M.S., University of Miami, 1980
Ph.D., University of Miami, 1982
LINDA J. STROM
Associate Professor of English
B.A., Portland State University, Oregon, 1983
M.A., Portland State University, Oregon, 1986
Ph.D., University of Oregon, 1992
WILLIAM G. STURRUS
Professor of Physics and Astronomy
B.S., Hope College, 1983
Ph.D., University of Notre Dame, 1989
DANIEL H. SUCHORA
Professor of Mechanical and Industrial Engineering
B.E., Youngstown State University, 1968
M.S., Youngstown State University, 1970
Ph.D., Case Western Reserve University, 1973
P.E., Ohio
JOHN R. SULLINS
Associate Professor of Computer Science and Information Systems
B.S., Massachusetts Institute of Technology, 1983
M.S., University of Rochester, NY, 1985
Ph.D., University of Maryland, 1990
ALBERT J. SUMELL
Assistant Professor of Economics
B.A., Salisbury State University, 1999
M.A., Georgia State University, 2003
Ph.D., Georgia State University, 2005
DAVID C. SWEET
President/Professor of Geography
B.A., University of Rochester, 1961
M.A., University of North Carolina, 1963
Ph.D., The Ohio State University, 1970
RONALD TABAK
Professor of Physics and Astronomy
B.S., Youngstown State University, 1968
M.S., University of Washington, 1969
Ph.D., The Ohio State University, 1976
JAMES A. TACKETT
Professor of Accounting and Finance
B.S.B.A., Youngstown State University, 1977
M.B.A., Youngstown State University, 1978
Ph.D., The Ohio State University, 1983
JAMAL K. TARTIR
Associate Professor of Mathematics and Statistics
B.A., Hiram College, 1991
M.A., Miami University, 1993
Ph.D., Ohio University, 1998
PADRAIC (“PADDY”) W. TAYLOR
Assistant Professor of Mathematics and Statistics
B.A., McDaniel College (fka Western Maryland College), 1999
M.S., North Carolina State University, 2003
Ph.D., North Carolina State University, 2006
LINDA J. TEISSIER
Professor of Philosophy and Religious Studies
B.A., Chapman College, 1982
M.A., Claremont Graduate School, 1985
Ph.D., Claremont Graduate School, 1987
MICHAEL THEALL
Associate Professor of Teacher Education
B.A., St. Anselms College, 1963
M.S., Syracuse University, NY, 1976
Ph.D., Syracuse University, NY, 1980
JULIE E. THOMAS
Associate Professor of Psychology
B.A., Sophia College, 1986
M.A., University of Bombay, 1988
Ph.D., The University of Tennessee, Knoxville, 1993

STEPHANIE A. TINGLEY
Professor of English
B.A., Wittenberg University, 1980
M.A., University of Illinois at Urbana Champaign, 1981
Ph.D., University of Illinois at Urbana Champaign, 1987

ALAN E. TOMHAVE
Assistant Professor of Philosophy and Religious Studies
B.A., University of Texas at Austin, 1996
M.A., St. John’s College-Santa Fe, 1997
Ph.D., University of Missouri, 2008
M.A., University of Missouri, 2007

MARK F. TONCAR
Professor of Marketing
B.B.A., Kent State University, 1979
M.B.A., Kent State University, 1981
Ph.D., Kent State University, 1994

HANS TRITICO
Assistant Professor of Civil, Environmental and Chemical Engineering
B.S., University of Michigan, 1999
M.S., Washington State University, 2002
Ph.D., University of Michigan, 2009

TACIBAH TUREL
Assistant Professor of Human Ecology
B.S., Ege University, Izmir, Turkey, 1997
M.S., Auburn University, 2002
Ph.D., Auburn University, 2008

JEFFREY L. TYUS
Assistant Professor of Communication
B.S.C., School of Telecommunication, Ohio University, 1993
M.A., School of Telecommunication, Ohio University, 1995
Ph.D., School of Interpersonal Communication, Ohio University, 1999

JAMES C. UMBLE
Professor of Music
B.M., Susquehanna University, 1978
M.M., Bowling Green State University, 1984
D.M.A., University of Michigan, 1995

KATHRYN T. UMBLE
Associate Professor of Music
B.S., Youngstown State University, 1989
B.M., University of Michigan, 1983
M.M., Bowling Green State University, 1985
D.M.A., Michigan State University, 1998

YOGESH UPPAL
Assistant Professor of Economics
B.A., University of Delhi, 1998
M.A., Delhi School of Economics, University of Delhi, 2000
Ph.D., The University of California, Irvine, 2006

EBENGE E. USIP
Professor of Economics
B.S., State University of New York at Albany, 1974
M.A., State University of New York at Albany, 1976
Ph.D., University of Connecticut, 1984

JOHN D. USIS
Professor of Biological Sciences
B.S., University of California, 1971
M.S., Youngstown State University, 1985
Ph.D., Kent State University, 1990

DANIEL J. VAN DUSSEN
Assistant Professor of Sociology and Anthropology
B.A., Mount Union College, 1997
M.A., The University of Akron, 2001
Ph.D., University of Maryland (Baltimore), 2005

MAUREEN C. VENDEMIA
Professor of Health Professions
B.S. in Ed., The Ohio State University, 1980
M.Ed., Kent State University, 1982

WILLIAM G. VENDEMIA
Associate Professor of Management
B.S. in B.A., The Ohio State University, 1980
M.B.A., Kent State University, 1981
Ph.D., Kent State University, 1991

CHARLES B. VERGON
Professor of Educational Foundations, Research, Technology and Leadership
B.A., Denison University, 1968
J.D., University of Michigan Law School, 1971

FRED W. VIEHE
Professor of History
B.A., Lewis and Clark College, 1971
M.A., University of California at Santa Barbara, 1974
Ph.D., University of California at Santa Barbara, 1983

CYNTHIA VIGLIOTTI
Assistant Professor of English

RONALD P. VOLPE
Professor of Accounting and Finance
B.S. in B.A., Youngstown State University, 1964
M.B.A., Central Michigan University, 1968
Ph.D., University of Pittsburgh, 1975

TERESA A. VOLSVO
Assistant Professor of Health Professions
B.A., Youngstown State University, 1987
M.H.H.S., Youngstown State University, 2004
A.A.S., Youngstown State University, 1981

RICHARD W. VAN VOORHIS
Assistant Professor of Counseling and Special Education
B.A., Ohio University, 1990
M.A., The Ohio State University, 1992
MARK D. WOMBLE
Associate Professor of Biological Sciences
B.S., Texas Christian University, 1975
M.S., University of Kentucky, 1978
Ph.D., The University of Michigan, 1983

JENNIE M. WOOD
Associate Professor of Nursing
L.P.N., Salem Vocational School, 1971
A.A.S., Youngstown State University, 1977
B.S.N., Youngstown State University, 1982
M.S.N., Kent State University, 1986
Ph.D., Kent State University, 2008

PETER WOODLOCK
Professor of Accounting and Finance
B.S.B.A., Youngstown State University, 1979
M.S., Ohio State University, 1990
Ph.D., Ohio State University, 1990

MARY YACOVONE
Assistant Professor of Health Professions
B.S., Youngstown State University, 1982
M.S., Kent State University, 1990

XIAOLOU YANG
Assistant Professor of Accounting and Finance
B.A., Jilin University, China, 1996
M.S., The University of Texas at Austin, 2003
Ph.D., The University of Texas at Austin, 2006

GEORGE YATES
Associate Professor of Mathematics and Statistics
B.S., Purdue University, 1971
M.S., California Institute of Technology, 1972
Ph.D., California Institute of Technology, 1977

ANNE YORK
Professor of History
B.A., University of California at Los Angeles, 1974
M.A., University of California at Los Angeles, 1979
Ph.D., University of California at Los Angeles, 1992

MISOOK YUN
Associate Professor of Dana School of Music
B.M., Han-Yang University, Korea, 1986
M.M., Han-Yang University, Korea, 1989
M.M., The University of Oregon, 1995
D.M.A., The University of Oregon, 1999

YONG ZHANG
Assistant Professor of Computer Science and Information Systems
B.S., Ocean University of QingDao, China, 1986
M.S., University of South Florida, 2001
M.S., Ocean University of QingDao, China, 1989
Ph.D., University of South Florida, 2005

LOUIS A. ZONA
Professor of Art
B.S. in Ed., Youngstown State University, 1966
M.S. in Ed., University of Pittsburgh, 1969
D.A., Carnegie-Mellon University, 1973

THE HERITAGE AWARD
The Heritage Award is given each year to a former faculty or administrative staff member who has given exemplary service to the University.

1982 Heritage Award
Louis A. Deesz
First Dean of the School of Engineering
Nellie G. Dehnbostel
Assistant Dean of the Dana School and Associate Professor of Biology
Karl W. Dykema
Dean of the College of Arts and Sciences
Vera R. Jenkins
Professor of Accounting and Finance
Joseph E. Smith
Dean of the University

1983 Heritage Award
Mary B. Smith
Registrar and Director of Career Planning and Placement
George M. Wilcox
Chair of the Department of Education and Dean of Youngstown College
Clair L. Worley
Chair of the Department of Biology

1984 Heritage Award
David M. Behen
Chair of the Department of History
Pauline E. Botty
Dean of Women, Chair and founder of the Department of Sociology
Christine R. Dykema
Chair of the Department of Foreign Languages and founding member of the University Senate

1985 Heritage Award
Frank M. Ellis
First Chair of the Physics Department
Edward T. Rielly
Professor and Chair of the Department of Business Administration
Willard L. Webster
Chair of the Department of Biology, University Athletic Director

1986 Heritage Award
P.C. Pickard
Business Manager

1987 Heritage Award
Paul C. Luginbill
Founder and first Chair of the Department of Chemical Engineering

1988 Heritage Award
R. Donald Elser
First Chair of the Department of Speech and Drama; instrumental in founding WYSU-FM
Morris Slavin
Professor of History

1989 Heritage Award
Robert L. Miller
First Dean of the School of Business Administration

1990 Heritage Award
Earl E. Edgar
First Dean of the Graduate School and Vice President for Academic Affairs
Eugene D. Scudder
Chair of the Department of Chemistry

1991 Heritage Award
George H.G. Jones
University Librarian
1992 Heritage Award
Philip C. Buchanan
Registrar
Carol J. Gay
   Director of Graduate Studies in English;
   co-founder of the YSU English Festival

1993 Heritage Award
Mae D. Turner
   Chair of Business Education and Secretarial Studies

1994 Heritage Award
Edna K. McDonald
   Founder and coordinator of the International
   Educational Programs; instrumental in
   establishing YSU's nursing program
Joseph F. Swartz, Jr.
   First Dean of the School of Education

1995 Heritage Award
Frank A. D'Isa
   Chair of the Mechanical Engineering
   Department and instrumental in developing the
   Master of Science in Engineering
Dominic L. Roselli
   Head Coach of basketball and baseball

1996 Heritage Award
Nicholas Paraska
   Founding Dean of the College of Applied
   Science and Technology
Hildegard Schnuttgen
   Head Reference Librarian

1997 Heritage Award
Gratia Murphy
   Professor of English, leader of YSU English
   Festival and Early English Composition
   Assessment Program of Ohio Board of Regents
Bernard Yozwiak
   Dean of the College of Arts and Sciences

1998 Heritage Award
Robert L. Dove
   Assistant Football Coach; academic advisor and
   instructor in the Department of Health and
   Physical Education
Sally M. Hotchkiss
   Provost and Dean of Graduate Studies

1999 Heritage Award
Irwin Cohen
   Professor of Chemistry
Martin A. Greenman
   Chair of the Department of Philosophy and
   Religious Studies

2000 Heritage Award
James E. Dale
   Professor of Philosophy and Religious Studies
Richard G. Weber
   Superintendent of Buildings and Grounds

2001 Heritage Award
Hugh G. Earnhart
   Professor of History
Thomas Gay
   Professor of English

2002 Heritage Award
Jon N. Naberezny
   Professor of Art
Robert W. Peterson
   Director of WYSU-FM

2003 Heritage Award
Janet E. DelBene
   Professor of Chemistry
Joseph F. Malmisur
   Executive Director of Intercollegiate Athletics

2004 Heritage Award
Donald W. Byo
   Professor and Director of The Dana School of Music
Frank J. Tarantine
   Professor of Mechanical Engineering

2005 Heritage Award
Mary Alice Budge
   Professor of English
Thomas J. Kane
   Director of Payroll and Fringe Benefits

2006 Heritage Award
George D. Beelen
   Professor of History
John P. Gillespie
   Dean of Men and Assistant Professor of Marketing

2007 Heritage Award
Philip Hirsch
   Director of Kilcawley Center
Philip A. Snyder
   Director of Public Relations

2008 Heritage Award
Anthony S. Leonardi
   Professor of Jazz
James P. Tressel
   Head Football Coach

2009 Heritage Award
Edward DiGregorio
   Head of Women's Basketball
Thomas Shipka
   Professor of Philosophy & Religious Studies

2010 Heritage Award
Ann Harris
   Professor of Geology
Harold Yiannaki
   Executive Director of External Relations
APPENDIX A—Ohio Residency

Ohio student residency for state subsidy and tuition surcharge purposes

A. Intent and authority

1. It is the intent of the chancellor of the Ohio board of regents in promulgating this rule to exclude from treatment as residents, as that term is applied here, those persons who are present in the state of Ohio primarily for the purpose of receiving the benefit of a state-supported education.

2. This rule is adopted pursuant to Chapter 119 of the Revised Code, and under the authority conferred upon the chancellor of the Ohio board of regents by section 3333.31 of the Revised Code.

B. Definitions

1. “Resident” shall mean any person who maintains a twelve-month place or places of residence in Ohio, who is qualified as a resident to vote in Ohio and receive state public assistance, and who may be subjected to tax liability under section 5747.02 of the Revised Code, provided such person has not, within the time prescribed by this rule, declared himself or herself to be or allowed himself or herself to remain a resident of any other state or nation for any of these or other purposes.

2. “Financial support” as used in this rule, shall not include grants, scholarships and awards from persons or entities which are not related to the recipient.

3. An “institution of higher education” shall have the same meaning as “state institution of higher education” as that term is defined in section 3345.011 of the Revised Code, and shall also include private medical and dental colleges which receive direct subsidy from the state of Ohio.

4. “Domicile” as used in this rule is a person’s permanent place of abode, so long as the person has the legal ability under federal and state law to reside permanently at that abode. For the purpose of this rule, only one domicile may be maintained at a given time.

5. “Dependent” shall mean a student who was claimed by at least one parent or guardian as a dependent on that person’s internal revenue service tax filing for the previous tax year.

6. “Residency Officer” means the person or persons at an institution of higher education that has the responsibility for determining residency of students under this rule.

7. “Community Service Position” shall mean a position volunteering or working for:
   a. VISTA, Americorps, city year, the peace corps, or any similar program as determined by the chancellor of the Ohio board of regents; or
   b. An elected or appointed public official for a period of time not exceeding twenty-four consecutive months.

C. Residency for subsidy and tuition surcharge purposes

The following persons shall be classified as residents of the state of Ohio for subsidy and tuition surcharge purposes:

1. A student whose spouse, or a dependent student, at least one of whose parents or legal guardian, has been a resident of the state of Ohio for all other legal purposes for twelve consecutive months or more immediately preceding the enrollment of such student in an institution of higher education.

2. A person who has been a resident of Ohio for the purpose of this rule for at least twelve consecutive months immediately preceding his or her enrollment in an institution of higher education and who is not receiving, and has not directly or indirectly received in the preceding twelve consecutive months, financial support from persons or entities who are not residents of Ohio for all other legal purposes.

3. A dependent student of a parent or legal guardian, or the spouse of a person who, as of the first day of a term of enrollment, has accepted full-time, self-sustaining employment and established domicile in the state of Ohio for reasons other than gaining the benefit of favorable tuition rates. Documentation of full-time employment and domicile shall include both of the following documents:
   a. A sworn statement from the employer or the employer’s representative on the letterhead of the employer or the employer’s representative certifying that the parent, legal guardian or spouse of the student is employed full-time in Ohio.
b. A copy of the lease under which the parent, legal guardian or spouse is the lessee and occupant of rented residential property in the state; a copy of the closing statement on residential real property located in Ohio of which the parent, legal guardian or spouse is the owner and occupant; or if the parent, legal guardian or spouse is not the lessee or owner of the residence in which he or she has established domicile, a letter from the owner of the residence certifying that the parent, legal guardian or spouse resides at that residence.

(D) Additional criteria which may be considered in determining residency may include but are not limited to the following:

1. Criteria evidencing residency:
   a. If a person is subject to tax liability under section 5747.02 of the Revised Code;
   b. If a person qualifies to vote in Ohio;
   c. If a person is eligible to receive Ohio public assistance;
   d. If a person has an Ohio’s driver’s license and/or motor vehicle registration.

2. Criteria evidencing lack of residency
   a. If a person is a resident of or intends to be a resident of another state or nation for the purpose of tax liability, voting, receipt of public assistance, or student loan benefits (if the student qualified for that loan program by being a resident of that state or nation);
   b. If a person is a resident or intends to be a resident of another state or nation for any purpose other than tax liability, voting, or receipt of public assistance (see paragraph (D)(2)(a) of this rule).

3. For the purpose of determining residency for tuition surcharge purposes at Ohio’s state-assisted colleges and universities, an individual’s immigration status will not preclude an individual from obtaining resident status if that individual has the current legal status to remain permanently in the United States.

(E) Exceptions to the general rule of residency for subsidy and tuition surcharge purposes:

1. A person who is living and is gainfully employed on a full-time or part-time and self-sustaining basis in Ohio and who is pursuing a part-time program of instruction at an institution of higher education shall be considered a resident of Ohio for these purposes.

2. A person who enters and currently remains upon active duty status in the United States military service while a resident of Ohio for all other legal purposes and his or her dependents shall be considered residents of Ohio for these purposes as long as Ohio remains the state of such person’s domicile.

3. A person on active duty status in the United States military service who is stationed and resides in Ohio and his or her dependents shall be considered residents of Ohio for these purposes.

4. A person who is transferred by his employer beyond the territorial limits of the fifty states of the United States and the District of Columbia while a resident of Ohio for all other legal purposes and his or her dependents shall be considered residents of Ohio for these purposes as long as Ohio remains the state of such person’s domicile as long as such person has fulfilled his or her tax liability to the state of Ohio for at least the tax year preceding enrollment.

5. A person who has been employed as a migrant worker in the state of Ohio and his or her dependents shall be considered a resident for these purposes provided such person has worked in Ohio at least four months during each of the three years preceding the proposed enrollment.

6. A person who was considered a resident under this rule at the time the person started a community service position as defined under this rule, and his or her spouse and dependents, shall be considered a resident of Ohio while in service and upon completion of service in the community service position.

7. A person who returns to the state of Ohio due to marital hardship, takes or has taken legal steps to end a marriage, and reestablishes financial dependence upon a parent or legal guardian (receives greater than fifty percent of his or her support from the parent or legal guardian), and his or her dependents shall be considered residents of Ohio.

8. A person who is a member of the Ohio National Guard and who is domiciled in Ohio, and his or her spouse and dependents, shall be considered residents of Ohio while the person is in Ohio national guard service.
9. A person who is eligible, or whose benefits have been exhausted or have expired, for benefits under the Post 9/11 Veterans Educational Assistance Act of 2008 or any prior federal act establishing veterans' education benefits, who has been honorably discharged or released from service, who, as of the first day of a term of enrollment, is domiciled in Ohio, and his or her spouse and dependents, shall be considered residents of Ohio for these purposes as long as Ohio remains the state of such person's domicile.

Documentation determined to be acceptable by the institution: (1) DD214 or other military document showing honorable discharge. (2) Documentation of domicile shall include a copy of the lease under which the person or spouse is the lessee and occupant of rented residential property in the state; a copy of the closing statement on residential real property located in Ohio of which the person or spouse is the owner and occupant; or if the person or spouse is not the lessee or owner of the residence in which he or she has established domicile, a letter from the owner of the residence certifying that the person or spouse resides at that residence.

F. Procedures

1. A dependent person classified as a resident of Ohio for these purposes under the provisions of paragraph (C)(1) of this rule and who is enrolled in an institution of higher education when his or her parents or legal guardian removes their residency from the state of Ohio shall continue to be considered a resident during continuous full-time enrollment and until his or her completion of any one academic degree program.

2. In considering residency, removal of the student or the student's parents or legal guardian from Ohio shall not, during a period of twelve months following such removal, constitute relinquishment of Ohio residency status otherwise established under paragraph (C)(1) or (C)(2) of this rule.

3. For students who qualify for residency status under paragraph (C)(3) of this rule, residency status is lost immediately if the employed person upon whom resident student status was based accepts employment and establishes domicile outside Ohio less than twelve months after accepting employment and establishing domicile in Ohio.

4. Any person once classified as a nonresident must apply to the institution he or she attends for reclassification as a resident of Ohio for these purposes if such person in fact wants to be reclassified as a resident. It is the student's responsibility to initiate contact. Should such person present clear and convincing proof that no part of his or her financial support is or in the preceding twelve consecutive months has been provided directly or indirectly by persons or entities who are not residents of Ohio for all other legal purposes, such person shall be reclassified as a resident. Evidentiary determinations under this rule shall be made by the institution which may require, among other things, the submission of documentation regarding the sources of a student's actual financial support.

5. Any reclassification of a person who was once classified as a nonresident for these purposes shall have prospective application only from the date of such reclassification.

6. Any institution of higher education charged with reporting student enrollment to the chancellor of the Ohio board of regents for state subsidy purposes and assessing the tuition surcharge shall provide individual students with a fair and adequate opportunity to present proof of his or her Ohio residency for purposes of this rule. Such an institution may require the submission of affidavits and other documentary evidence which it may deem necessary to a full and complete determination under this rule.

Revised 7/22/09
Institutional Report on the Quality of Teacher Preparation: 
**Title II, Higher Education Act**
**2008-2009 Academic Year**

All institutions that offer teacher-preparation programs are now required to make annual public reports under Title II of the Higher Education Act.

Information is provided about the statewide pass rate on these tests, as well as other basic information about the institution’s teacher preparation programs. Pass rates are reported in programs with ten or more students who completed the teacher education program within the reporting period, the 2008-2009 academic year. PRAXIS II is the test currently required for students to gain licensure to teach.

PRAXIS II is a standardized test developed and administered by the Educational Testing Service. Teacher candidates in Ohio take one or more of these tests, depending upon the content area and age level they seek to teach. There are 36 different PRAXIS II tests in use in Ohio: most of the tests are in arts and sciences or fine and applied arts content areas (e.g. music, mathematics, science, art, etc.), while some are in professional education. There are also some fields for which tests are still being developed. These tests represent the performance of teacher preparation candidates on paper and pencil tests of either content-area knowledge or professional-education knowledge.

The institution will report scores for all teacher candidates who completed their programs in 2008-2009. If those students subsequently re-took a test in 2009, their scores will not be reported in this April’s data but in later years. Also, if for any given test there were fewer than 10 test takers from an institution, the scores for that test will not be reported. Delaying the reporting of these small numbers prevents conclusions being drawn from insufficient numbers of teacher candidates and preserves student confidentiality. In later years when the numbers of test takers for a test reach 10 or more, the institution will report the scores.

The scores can be compared to the expectations for passing as set by the Ohio Department of Education. When passing scores were established for PRAXIS II tests, the board set them high, among the highest in the nation, as a way to communicate its high standards for those who enter the profession. The scores can also be compared to the anticipated pass rates across the nation and the average score for Ohio test-takers. These comparisons provide indicators of the expectations of the Ohio Department of Education for Ohio test takers as well as comparisons of the success rate of Youngstown State University students to the average in the state.

The State of Ohio reports the scores from all teacher education institutions. All institutions are grouped into quartiles to reflect their passing rates. Because some institutions require passage of PRAXIS II as a component of completing a program and other programs may differ in the kinds of students they recruit into teaching (undergraduate or graduate), comparisons among institutions, to be meaningful, must take into account the program designs at the institutions and their impact on students’ likelihood of passing the tests prior to completing the program. Youngstown State University does require passing of PRAXIS II for student teaching eligibility and program completion.

Teacher candidates must pass the appropriate licensure test to receive a license to teach from the state of Ohio. Employers prefer—and are often obliged by law—to hire licensed teachers. For the institution, the passing score provides one measure of quality of the institution as it prepares teachers. If an institution is determined to be low-performing as defined by the state of Ohio, it and its students can lose certain forms of federal aid. The state of Ohio has not yet approved a definition of low-performing, but will within the next year.

All full-time entry-year teachers hired in their area of licensure are assessed according to the PRAXIS III performance criteria. The passage rate on PRAXIS III for 2008-2009 YSU entry-year teachers was 99.5%.

1. The number of program completers found, matched and used in the passing rate calculation will not equal the sum of the column labeled “Number Taking Assessment” since a completer can take more than one assessment.
2. Institutions and/or States did not require the assessments within an aggregate where data cells are blank.
3. Number of completers who took one or more tests in a category and within their area of specialization.
4. Number who passed all tests they took in a category and within their area of specialization.
5. Summary Totals and Pass Rate: Number of completers who successfully completed one or more tests across all categories used by the state for licensure and the total pass rates.

HEA–Title II Follow-Up
2005-2006 Academic Year

This HEA-Title II Follow-Up Report updates the passage rate of our program completers from the 2003-2004 cohort. These data include all candidates from this cohort group who have taken PRAXIS II tests beyond the completion year and have subsequently passed their respective PRAXIS II tests.
