MASTER OF SCIENCE IN NURSING

Clinical Options
- Adult-Gerontology Acute Care Nurse Practitioner
- Family Nurse Practitioner (FNP)
- Nurse Anesthetist
- Nurse Education

Post-master’s Certificates
- Adult-Gerontology Acute Care Nurse Practitioner
- Family Nurse Practitioner (FNP)
- Nurse Education

Non Degree Licensure Option
- School Nurse Licensure

MSN Program Director
Dr. Valerie O’Dell
3132 Cushwa Hall
(330) 941-2177
vmodell@ysu.edu

Program Description
The Master of Science in Nursing program is designed for baccalaureate-prepared nurses who have strong undergraduate foundations in critical thinking, decision-making, and nursing practice. The program consists of four program options, with specialization in Family Nurse Practitioner, Nursing Education, and Nurse Anesthesia and three post-master’s certificates in Adult-Gerontology Acute Care Nurse Practitioner, Family Nurse Practitioner and Nurse Education. The department also offers a non-degree School Nurse certificate.

The core curriculum centers on professional nursing issues, nursing science, and research methods for building nursing knowledge. The Family Nurse Practitioner option focuses on the delivery of primary care to families and persons of all ages within the health care delivery system. The Adult-Gerontology Acute Care Nurse Practitioner option focuses on providing direct acute care to adult and older adult individuals and families. The Nursing Education option focuses on delivery of nursing and patient education to individuals in academic, health-care delivery and community settings. The Nurse Anesthetist option focuses on the administration of anesthesia to individuals requiring surgical and non-surgical diagnostic procedures. The non-degree School Nurse certificate focuses on delivery of comprehensive care to individuals in the school environment.

The Master of Science in Nursing program is fully accredited by the Commission on Collegiate Nursing Education (CCNE). For additional information regarding accreditation, contact CCNE:

Commission on Collegiate Nursing Education
655 K Street, NW, Suite 750
Washington, DC 20001
Phone: (202) 887-6791
http://www.aacnnursing.org/CCNE

Accreditation Commission for Education in Nursing
3343 Peachtree Road NE
Suite 850
Atlanta, GA 30326
Phone: (404) 975-5000
http://www.acenursing.org/

In addition, the nurse anesthetist option is fully accredited by the Council on Accreditation of Nurse Anesthesia Educational Programs (COA). For information regarding accreditation, contact COA:

Council on Accreditation of Nurse Anesthesia Educational Programs (COA)
222 S. Prospect Avenue
Park Ridge, Ill. 60068-4001
Phone: (847)655-1160

The Master of Science in Nursing in Nurse Anesthesia is a cooperative program between Youngstown State University and St. Elizabeth Health Center School for Nurse Anesthetists, Inc. All courses are taught by YSU Graduate Faculty and Faculty from the anesthesia school. Bon Secours-Mercy Health Partners supports the program by providing clinical and other resources at St. Elizabeth Youngstown Hospital, St. Elizabeth Boardman Hospital, St. Joseph Warren Hospital, The Surgery Center Howland, and Akron Children’s of the Mahoning Valley. Students gain experience in the use of many anesthetic agents and techniques and are supervised by Certified Registered Nurse Anesthetists (CRNAs) and Staff Anesthesiologists from Bel-Park Anesthesia Associates, Inc. Upon successful completion of the degree program, graduates are eligible to sit for the National Certification Exam by the National Board on Certification and Recertification of Nurse Anesthetists (NBCRNA). Once certified, CRNAs must apply for licensure as an Advanced Practice Registered Nurse in the State of Ohio or abide by the laws of the state in which they intend to practice.

Acceptance into the YSU Master of Science in Nursing Program is contingent upon acceptance into the St. Elizabeth Health Center, School for Nurse Anesthetists, Inc.

Graduate Faculty
Chair
Nancy Wagner, D.N.P., Professor, Chair
Professor
Kimberly A. Ballone, D.N.P., Professor
Patricia L. Hoyson, Ph.D., Professor
Susan A. Lisko, D.N.P., Professor
Valerie Marie O'Dell, D.N.P., Professor
Cynthia M. Shields, D.N.P., Associate Professor
Amy Weaver, Ph.D., Associate Professor

Graduate Courses
NURS 6900 Healthcare Issues and Trends 3 s.h.
Exploration of nursing issues including changing roles and scope of practice and discipline concerns, with emphasis of interdisciplinary collaboration and social, cultural, political, economic, legal, regulatory, and ethical practice considerations.

NURS 6901 Nursing Science and Research 1 3 s.h.
Analysis of health-related evidence for practice. Exploration of the significance of theory, research, and research methods and strategies for translating evidence into practice.
Prereq.: Nursing graduate status.

NURS 6902 Advanced Pathophysiology 3 s.h.
Normal physiologic functions and pathologic mechanisms are examined to prepare nurses for advanced practice roles.

NURS 6903 Advanced Pharmacology 3 s.h.
Application of pharmacological concepts in clinical settings with examination of major categories of pharmacological agents.
Prereq.: NURS 6902.

NURS 6904 Advanced Health Assessment 3 s.h.
Development of advanced clinical knowledge and skills needed for comprehensive health assessment across the life span. Emphasis on health history, physical, cultural, developmental and nutritional assessments with differential diagnosis of common health problems.
Prereq.: NURS 6902 (or concurrent).

NURS 6906 Advanced Statistics 3 s.h.
Advanced inferential and multivariate statistical techniques used in nursing and other health professions, with emphasis on PASW computer analysis for interpretation of nursing and health data.
Prereq.: An undergraduate statistics course or equivalent.

NURS 6907 Health Assessment of School Children 3 s.h.
Development of advanced clinical knowledge and skills needed for assessment of school children. Emphasis on research from nursing, biological, behavioral, and social sciences.
Prereq.: enrollment in school nurse licensure program.

NURS 6908 Health Assessment of School Children Practicum 2 s.h.
Application of advanced nursing knowledge and skills from NURS 6907, focusing on assessment of children in school settings.
Concurrent: NURS 6907.

NURS 6909 Anesthesia Principles 1 2 s.h.
This course describes anesthesia equipment and hemodynamic monitoring in the operating room setting. It also explores the respiratory and cardiovascular systems and includes in depth assessment of the airway, lungs, heart, and vasculature. Evaluation of anesthesia considerations for patients who have pathological conditions of these systems will take place.
Prereq.: Admission to the YSU MSN program, Nurse Anesthesia option.
NURS 6910  Professional Aspects of Nurse Anesthesia  3 s.h.
Ethics, legal aspects, and professional issues associated with a career in nurse anesthesia. Includes a history of anesthesia and the role of certified registered nurse anesthetists (CRNA).
Prereq.: Acceptance into nurse anesthesia option.

NURS 6911  Pharmacology 1 for Nurse Anesthetists  3 s.h.
Basic principles of pharmacology including drug effectiveness, mechanism of action, and drug interactions. Emphasis on pharmacological action of drugs on specific organ systems and use in treatment of disease conditions.
Prereq.: Acceptance into nurse anesthesia option.

NURS 6912  Pharmacology 2 for Nurse Anesthetists  3 s.h.
Comprehensive study of drugs and adjunctive agents used in anesthesia practice. Includes a review of inhalation and intravenous anesthetics, local anesthetics, neuromuscular blocking agents, and adjunctive drugs.
Prereq.: NURS 6911.

NURS 6913  Medical Chemistry and Physics for Nurse Anesthetists  3 s.h.
Application of organic chemistry, biochemistry, and medical physics in the practice of anesthesia.
Prereq.: Acceptance into nurse anesthesia option.

NURS 6914  Human Anatomy, Physiology, and Pathophysiology 1 for Nurse Anesthetists  3 s.h.
Study of the structure and function of the human body.
Prereq.: Acceptance into nurse anesthesia option.

NURS 6916  Anesthesia Principles 2  3 s.h.
Introduction to anesthesia practice and techniques, including preoperative assessments, anesthesia drugs, care plan development and implementation, and safety issues.
Prereq.: NURS 6909 and acceptance into Nurse Anesthesia Option.

NURS 6917  Differential Diagnosis 3 s.h.
Developing diagnostic reasoning skill through comprehensive analysis of present and past histories, physical findings, and diagnostic studies that contribute to differential diagnoses of major health problems across the lifespan. The client is assessed from a holistic, advanced practice perspective with consideration of individual culture, social, family, and community environments.
Prereq.: NURS 6902.

NURS 6918  Advanced Diagnostics and Technologies  3 s.h.
Theory and technical skills essential to the advanced practice environment. Focuses on select technologies, informatics, telehealth, common procedures, and diagnostic tests encountered by advanced practice nurses in the clinical/practice setting.
Prereq.: NURS 6902.

NURS 6920  Special Topics  1-4 s.h.
Topics may vary from semester to semester and will be announced along with prerequisites and hours. May be repeated. S/U grading.

NURS 6998  Anatomy and Physiology of Aging  3 s.h.
Using a systems approach, this course will examine the anatomical and physiological changes that occur with aging. It will discuss age-related disorders and evaluate the impact of these changes on activities and daily function. This course will be cross-listed with GERO 6998.

NURS 7000  Adult and Gerontology Care  3 s.h.
Advanced nursing management of adult and geriatric health care needs. Taken concurrently with NURS 7001.
Prereq.: NURS 6904, NURS 6905, and NURS 6998.

NURS 7002  Nursing Science and Research 2  3 s.h.
Continuation of NURS 6901, focusing on design, instrumentation, data collection methods, data analysis and data interpretation.
Prereq.: NURS 6901 and NURS 6906.

NURS 7003  Role Development  3 s.h.
The examination of concepts, theories, and research related to advanced practice role. Explores the history and overview of the role of the advanced practice nurse as provider, consultant, educator, researcher, and leader in practice. Examines select legal, practice, and ethical issues in advanced practice.

NURS 7004  Role Development Practicum  2 s.h.
Application of concepts, theories, and research through practicum hours in a variety of settings.
Prereq.: NURS 7029 or NURS 7042.

NURS 7005  Capstone Practicum  2 s.h.
Synthesis of learned concepts and theories in the form of an individual scholarly project, and dissemination of findings under the direction of a graduate faculty member.
Prereq.: Completion of all coursework and approval of MSN faculty committee.

NURS 7006  Special Topics in Nursing  1-5 s.h.
Special interest nursing topics selected by the faculty which reflect current trends and issues in nursing practice. May be repeated as desired.

NURS 7008  Schools and Health  3 s.h.
Population focus survey of children's health issues and K-12 schools using CDC Coordinated School Health Program model as an organizing framework. Topics include school health policy, relationship of health and academic outcomes, and Youth Risk Behavioral Surveillance (YRBS). Current research infused into the course.
Prereq.: Enrollment in school nurse licensure program.
Cross-listed: MPH 7008.

NURS 7010  Human Anatomy, Physiology, and Pathophysiology 2 for Nurse Anesthetists  3 s.h.
NURS 6914 Continuation of Anatomy, Physiology, and Pathophysiology I with further emphasis on cardiovascular, respiratory, renal, hepatic, and endocrine systems.
Prereq.: NURS 6914.

NURS 7011  Anesthesia Principles 3  5 s.h.
Examines specific anesthetic techniques used in a variety of surgical procedures.
Prereq.: NURS 6916.

NURS 7012  Anesthesia Principles 4  6 s.h.
Administration of anesthesia for high-risk patients.
Prereq.: NURS 7011.

NURS 7014  Health Management in Schools  3 s.h.
Advanced nursing management of health care needs of children in schools, pre-K through high school.
Prereq.: NURS 6907 or enrollment in school nurse licensure program.

NURS 7015  Health Management in Schools Practicum  2 s.h.
Application of knowledge and skills from NURS 7014, focusing on advanced nursing management of health care needs of children in schools, pre-K through high school. To be taken concurrently with NURS 7014.
Prereq.: NURS 6907.

NURS 7016  School Nurse Role  3 s.h.
Examination of concepts, theories, and research related to advanced practice role development, teaching, learning, technology, evaluation strategies, leadership, marketing skills, and health care delivery in school settings.
Prereq.: NURS 7014 or enrollment in the school nurse licensure program.

NURS 7017  School Nurse Role Practicum  1-5 s.h.
Application of concepts, theories, and research from school nurse courses in a variety of settings. To be taken concurrently with NURS 7016.
Prereq.: NURS 7014 or enrollment in school nurse licensure program.

NURS 7018  Nursing Curriculum Design  3 s.h.
Foundations of nursing curriculum with designs, development of frameworks, and identification of learning strategies to achieve nursing education learning competencies and outcomes.
Prereq.: Enrollment in the MSN Nurse Education Option or Post-Graduate Nurse Education Option.
NURS 7019 Nursing Instructional Methods 3 s.h.
Theoretical foundations and analysis of teaching strategies in academic and clinical settings promoting critical thinking, assessment techniques, and learning outcomes in a variety of nursing education and healthcare settings. Prereq.: NURS 7018.

NURS 7020 Evaluation in Nursing Education 3 s.h.
Methods, frameworks, basic principles, and strategies for nursing educational evaluation, including assessment, designs, curriculum and program evaluation tools, agency accreditation processes, legal and ethical guidelines, and measurement tools of scoring and grading. Prereq.: NURS 7018, NURS 7019.

NURS 7021 Nurse Educator Role 4 s.h.
Examination of concepts, theories and research related to advanced practice role development, teaching, learning, technology, evaluation strategies, leadership, marketing skills, and nursing education practice in academic and health care delivery settings. Prereq.: NURS 7018, NURS 7019, and to be taken concurrently with NURS 7020.

NURS 7022 Nurse Educator Role Practicum 2 s.h.
Field experience and application of concepts, theories, research findings, teaching strategies, learning, technology, evaluation strategies, leadership, and marketing skills from nursing education courses in a variety of nursing education and healthcare settings. This practicum will consist of 150 hours and to be taken with NURS 7021. Prereq.: NURS 7018, NURS 7019, and NURS 7020.

NURS 7024 Family and Women's Health 3 s.h.
Primary health care management of family and women in diverse settings. Emphasizes health promotion, illness prevention, disease detection, and identification and management of health problems and concerns affecting families and women throughout the lifespan. Taken concurrently with NURS 7025. Prereq.: NURS 6903 (or concurrent), NURS 6902, NURS 6904.

NURS 7025 Family and Women's Health Practicum 2 s.h.
Application of concepts, theories and research from NURS 7024 in a variety of health care settings. Taken concurrently with NURS 7024. Prereq.: NURS 6903 (or concurrent), NURS 6902, NURS 6904.

NURS 7026 Infant, Child and Adolescent Health 3 s.h.
Primary health care management of infants, children and adolescents in diverse settings. Emphasis on health promotion, illness prevention, disease detection, and identification and management of health problems and concerns from infancy through adolescence. Taken concurrently with NURS 7027. Prereq.: NURS 6902, NURS 6903, NURS 6904, NURS 7024 and NURS 7025.

NURS 7027 Infant, Child and Adolescent Health Practicum 2 s.h.
Application of concepts, theories and research from NURS 7026 in a variety of health care settings. Taken concurrently with NURS 7026. Prereq.: NURS 6902, NURS 6903, NURS 6904, NURS 7024 and NURS 7025.

NURS 7028 Adult and Older Adult Health 3 s.h.
Primary health care management of young adults, adults, and older adults in diverse settings. Emphasizes health promotion, illness prevention, disease detection, and identification and management of health problems and concerns affecting young adults, adults, and older adults. Taken concurrently with NURS 7029. Prereq.: NURS 6902, NURS 6903, NURS 6904, NURS 7026 and NURS 7027.

NURS 7029 Adult and Older Adult Health Practicum 2 s.h.
Application of concepts, theories and research from NURS 7028 in a variety of health care settings. Taken concurrently with NURS 7028. Prereq.: NURS 6902, NURS 6903, NURS 6904, NURS 7026 and NURS 7027.

NURS 7037 Adult-Gero Acute Care 1 3 s.h.
Competencies (knowledge, skills and professional behaviors) required to provide comprehensive and holistic care to a culturally diverse, acutely ill population (young adult-fail elderly) is emphasized. Clinical manifestations of and patient response to particular patient care problems (e.g. cardiovascular, neurological etc.) with emphasis on physical assessment findings for determining a differential diagnosis and planning of patient care needs, health promotion and health maintenance. Taken concurrently with NURS 7038. Prereq.: NURS 6902, NURS 6903 (or concurrent), NURS 6904.

NURS 7038 Adult Gerontology Acute Care 1 Practicum 2 s.h.
Practicum experience in an acute care facility aligned with NURS 7037. Acute Care 1. Emphasis is placed on the APRN-patient/family relationship collaborating with the health care team and health information technology. Prereq.: NURS 7037, NURS 7039, NURS 7041.

NURS 7039 Adult-Gero Acute Care 2 3 s.h.
Competencies (knowledge, advanced skills and professional behaviors) required to provide comprehensive and holistic care to a culturally diverse, acutely ill adult population (young adult-frail elderly) is emphasized. Clinical manifestations of and patient response to particular patient care problems (e.g. integumentary, infectious disease) with emphasis on physical assessment findings for determining differential diagnosis and planning of patient care needs, health promotion and health maintenance. Taken concurrently with NURS 7040. Prereq.: NURS 7037 and NURS 7038.

NURS 7040 Adult-Gero Acute Care 2 Practicum 2 s.h.
Practicum in an acute care facility aligned to and taken concurrently with NURS 7040. Emphasis is placed on quality improvement and patient safety initiatives, interdisciplinary professional collaboration and functioning within the health system. Prereq.: NURS 7038.

NURS 7041 Adult-Gero Acute Care 3 3 s.h.
Focus on the integration of the role components delivered by the adult-gerontology nurse practitioner. Clinical manifestations of and patient response to particular patient care problems (i.e., endocrine, gastrointestinal, multisystem, trauma) with emphasis on physical assessment findings for determining a differential diagnosis and panning of patient care needs, health promotion and health maintenance. Emphasis on utilizing diagnostic reasoning, therapeutic interventions, pharmacological therapeutics, interdisciplinary treatment plans, consultation, referral, transitional care and research findings in the management and evaluation of culturally diverse acutely ill adult-gerontology patients. Taken concurrently with NURS 7042. Prereq.: NURS 7039.

NURS 7042 Adult-Gero Acute Care 3 Practicum 2 s.h.
Practicum designed to integrate the independent practice competencies. Emphasis is on preventing illness, promoting health and an optimal functional level. Stabilizing the ill client and minimizing complications through an interdisciplinary approach and transitional care. Possible clinical areas: acute care facilities, disease management clinics (diabetes, heart failure, pain management, dialysis), outpatient facilities (oncology, cardiac rehabilitation, short term rehabilitation, drug and alcohol centers), parish nursing, hospice and palliative care facilities. Taken concurrently with NURS 7041. Prereq.: NURS 7040.

NURS 7045 Family Nurse Practitioner 1 3 s.h.
Prereq.: NURS 6902, NURS 6903, NURS 6904

NURS 7046 Family Nurse Practitioner 2 3 s.h.
Focus is on clinical manifestations of and patient response to acute and chronic health problems (e.g. cardiovascular, pulmonary, endocrine, etc.) with emphasis on diagnosing and planning of patient care needs, health promotion and health maintenance. Prereq.: NURS 6902, NURS 6903, NURS 6904
NURS 7047  Family Nurse Practitioner 3  s.h.
Focus is on clinical manifestations of and patient response to acute and chronic health problems (e.g. renal, gastrointestinal, integumentary, etc.) with emphasis on diagnosing and planning of patient care needs, health promotion and health maintenance.
Prereq.: NURS 6902, NURS 6903, NURS 6904

NURS 8900  Pharmacology for Nurse Anesthetists 1  3 s.h.
Provides an opportunity to focus on the advanced principles of anesthesia related to pharmacology. Presents in-depth material and includes discussions on the pharmacology of various classes of anesthetics and adjuvant therapeutics employed by nurse anesthetists, including anesthetic induction agents, benzodiazepines, opioid agonists/antagonists/agonist-antagonist, neuromuscular blocking agents, and local anesthetics.
Prereq.: Admission and enrollment in the DNP Nurse Anesthesia program.

NURS 8901  Anatomy, Physiology and Pathophysiology for Nurse Anesthetists 1  3 s.h.
An advanced study of the structure and function of the human body, with an emphasis on the neural, muscular and endocrine systems and pathophysiological conditions involving those systems.
Prereq.: Acceptance and Enrollment in the DNP Nurse Anesthesia Program.

NURS 8902  Healthcare Biostatistics  3 s.h.
This course will cover principles of biostatistics in the context of public health applications. It will include the basic techniques for analyzing and investigating public health issues including disparities. Statistical package SPSS will be used.
Prereq.: Acceptance and Enrollment in the DNP Nurse Anesthesia Program.

NURS 8903  Professional Role of Nurse Anesthesia Practice 2  s.h.
This course is an introduction to the professional role development of the nurse anesthetist. It is designed to introduce the student to the basic aspects of the nurse anesthetist as an anesthesia provider. This course examines wellness and work life balance and identifies issues related to substance abuse within the profession. Students will be introduced to the nurse anesthesia code of ethics, scope of practice, and standards of practice as set forth by the American Association of Nurse Anesthetists (AANA).
Prereq.: Acceptance and Enrollment in the DNP Nurse Anesthesia Program.

NURS 8904  Chemistry, Biochemistry, and Physics for Nurse Anesthetists 3  s.h.
This course enables nurse anesthesia students to identify principles of chemistry, biochemistry, and physics in relation to anesthesia drug administration. The chemical composition of, and physiologic response to common anesthesia drugs are examined. Students will learn to predict the physiologic response of drugs based on gas laws and the nature of fluids and vapors as they apply to anesthesia.
Prereq.: Acceptance and Enrollment in the DNP Nurse Anesthesia Program.

NURS 8905  Clinical Practicum 1  1 s.h.
This practicum introduces students to the clinical setting, beginning with orientation to each of the clinical sites. Nurse anesthesia students are introduced to the construction and execution of an anesthesia care plan. Students will experience supervised participation in actual administration of anesthesia. Integrates internalization of theoretical concepts and techniques and application in anesthetic management toward the achievement of the terminal objectives for competency in entry-level anesthesia practice. 120 clocked clinical hours. Graded S/U.
Prereq.: Acceptance and Enrollment in the DNP Nurse Anesthesia Program.

NURS 8906  Pharmacology for Nurse Anesthetists 2  3 s.h.
Provides an opportunity to focus on the advanced principles of anesthesia-related pharmacology. Focuses on anesthesia related uses and considerations with antihypertensives, alpha and beta adrenergic receptor agonist/antagonists, and anticoagulants. Presents in-depth material and discussions on the pharmacology of various drugs that contribute to pathological conditions such as malignant hyperthermia, asthma and digestive heart failure.
Prereq.: NURS 8900.

NURS 8907  Anatomy, Physiology and Pathophysiology for Nurse Anesthetists II  3 s.h.
An advanced study of the structure and function of the human body, with an emphasis on the cardiovascular, respiratory, renal and hepatic systems as well as the pathological conditions involving those systems.
Prereq.: NURS 8901.

NURS 8908  Advanced Health Assessment  3 s.h.
This course explores advanced health assessment utilizing an extensive health history and physical exam. The course focuses on developing refined health history taking, psychological assessment, and physical assessment skills across the lifespan. Emphasis is placed on detailed health history assessment, differentiation, interpretation, and documentation of normal and abnormal assessment findings.
Prereq.: Acceptance and Enrollment in the DNP Nurse Anesthesia Program.

NURS 8909  Advanced Pathophysiology  3 s.h.
Normal physiologic functions and pathologic mechanisms are examined to prepare nurses for advanced practice roles.
Prereq.: Acceptance and Enrollment in the DNP Nurse Anesthesia Program.

NURS 8911  Clinical Practicum 2  1 s.h.
Nurse anesthesia students construct and execute an anesthesia care plan with clinical and faculty supervision and collaboration. Students experience slightly more independent participation in actual administration of anesthesia while still under direct supervision by clinical faculty. Determine theoretical concepts and techniques and application in anesthetic management toward the achievement of the terminal objectives for competency in entry-level anesthesia practice. Semester course; 150 plus clocked clinical hours. One day per week. Graded S/U.

NURS 8912  Principles and Practice of Nurse Anesthesia 3  s.h.
This course is designed to introduce the student to concepts necessary to construct and recommend a safe and individualized anesthetic while distinguishing various ethical and multicultural issues. Covers formulation of the anesthesia care plan, anesthetic techniques, prevention of complications, fluid management, monitoring and utilization of anesthesia equipment. Provides guided practical experience associated with course concepts, including practice with and evaluation of task-specific skills in both simulated and actual operating room environments.
Prereq.: Acceptance and Enrollment in the DNP Nurse Anesthesia Program.

NURS 8913  Principles of Anesthesia 1  3 s.h.
Introduces the nurse anesthetics student to concepts necessary to formulate, execute, and revise a safe, individualized anesthetics. Covers formulation of the anesthesia care plan, anesthetic techniques, prevention of complications, fluid management, monitoring and utilization of anesthesia equipment. Provides guided practical experience associated with course concepts, including practice with and evaluation of task-specific skills in both simulated and actual operating room environments. Includes advanced respiratory and cardiovascular systems and anesthetic considerations and/or implications.
Prereq.: Acceptance and Enrollment in the DNP Nurse Anesthesia Program.

NURS 8914  Clinical Practicum 3  3 s.h.
Provides intensive experience in all clinical anesthesia areas. Represents an integral phase of sequenced clinical progress toward the achievement of competency in entry-level anesthesia practice. Includes clinical rotations to various affiliate sites to gain experience in management of specialized anesthetic considerations. Emphasizes increased responsibility for the delivery of a comprehensive anesthetic regime along the educational/experiential continuum. 300 plus clocked hours. 3 full days per week in the operating room setting. Graded S/U.
Prereq.: NURS 8911.
NURS 8915  Principles of Anesthesia 2  3 s.h.
Introduces the nurse anesthesia student to concepts necessary to formulate, execute, and revise a safe, individualized anesthetics. Covers formulation of the anesthesia care plan, anesthetic techniques, prevention of complications, fluid management, monitoring and utilization of anesthesia equipment. Provides guided practical experience associated with course concepts, including practice with and evaluation of task-specific skills in both simulated and actual operating room environments. Includes advanced assessment of the autonomic nervous system and obese patients, while connecting anesthetic implications for both.
Prereq.: NURS 8913.

NURS 8916  Health Care Policy  3 s.h.
The primary focus of this course is to explore the leadership role of nurses in health policy development and implementation as well as the role of research in health care policy formation and planning. Special emphasis is placed on selected national and international health policy issues that form the socio-political and economic context of nursing care and practice. Ethical dimensions of public policy formulations and implementation are highlighted.

NURS 8917  Evidence Based Practice 1  3 s.h.
This course focuses on critically analyzing and evaluating research evidence. Evidence-based practice concepts will be used. Methods of generating evidence through research are discussed.
Prereq.: NURS 8902.

NURS 8918  Clinical Practicum 4  3 s.h.
Provides intensive experience in all clinical anesthesia areas. Represents an integral phase of sequenced clinical progress toward the achievement of competency in entry-level anesthesia practice. Includes clinical rotations to various affiliate sites to gain experience in management of specialized anesthetic considerations. Emphasizes increased responsibility for the delivery of a comprehensive anesthetic regime along the educational/experiential continuum. Semester course; 300+ clocked clinical hours. Graded S/U.
Prereq.: NURS 8914.

NURS 8919  Principles of Anesthesia 3  3 s.h.
Nurse anesthesia students will successfully formulate, execute, and revise a safe, individualized anesthetics. They will recommend anesthetic techniques and determine methods to prevent anesthetic complications. Students will outline fluid administration, intraoperative monitoring and utilization of anesthesia equipment. Provides guided practical experience associated with course concepts, including practice with and evaluation of task-specific skills in both simulated and actual operating room environments. Illustrates advanced concepts of the neurological system, and fluid & blood administration.
Prereq.: NURS 89XX.

NURS 8920  Ultrasound and Radiology  2 s.h.
Nurse anesthesia students investigate the practice of ultrasound-guided, regional anesthesia while supporting the core concepts of ultrasound machine operation, needle guidance, and sonoanatomy. An in-depth breakdown of the essential strategies used to identify radiological and sonographic landmarks for locating and identifying target nerves and key anatomy structures is presented.
Prereq.: Acceptance and Enrollment in the DNP Nurse Anesthesia Program.

NURS 8921  Evidence Based Practice 2  3 s.h.
This course focuses on identifying and evaluating current literature in order to identify evidence-based clinical practice recommendations. Methods for translating evidence-based knowledge to inform nursing clinical practice will be used.
Prereq.: NURS 8917.

NURS 8922  Clinical Practicum 5  3 s.h.
Provides intensive experience in all clinical anesthesia areas. Represents an integral phase of sequenced clinical progress toward the achievement of competency in entry-level anesthesia practice. Includes clinical rotations to various affiliate sites to gain experience in management of specialized anesthetic considerations. Emphasizes increased responsibility for the delivery of a comprehensive anesthetic regime along the educational/experiential continuum. Semester course; 300+ clocked clinical hours. Graded S/U.
Prereq.: NURS 8918.

NURS 8923  Principles of Anesthesia 4  3 s.h.
Provides intensive experience in all clinical anesthesia areas. Represents an integral phase of sequenced clinical progress toward the achievement of competency in entry-level anesthesia practice. Includes clinical rotations to various affiliate sites to gain experience in management of specialized anesthetic considerations. Emphasizes increased responsibility for the delivery of a comprehensive anesthetic regime along the educational/experiential continuum. Semester course; 450 clocked clinical hours. Graded S/U.
Prereq.: NURS 8919.

NURS 8924  Epidemiology  2 s.h.
Epidemiologic concepts of populations for understanding and using health research is the focus. Principles and methods of data analysis central to understanding health-related indicators for population health management will be used. Students will be prepared to function as members of a research team.
Prereq.: Acceptance and Enrollment in the DNP Nurse Anesthesia Program.

NURS 8925  Clinical Practicum 6  4 s.h.
Provides intensive experience in all clinical anesthesia areas. Represents an integral phase of sequenced clinical progress toward the achievement of competency in entry-level anesthesia practice. Includes clinical rotations to various affiliate sites to gain experience in management of specialized anesthetic considerations. Emphasizes increased responsibility for the delivery of a comprehensive anesthetic regime along the educational/experiential continuum. Semester course; 450 clocked clinical hours. Graded S/U.
Prereq.: NURS 8922.

NURS 8926  Principles of Anesthesia 5  3 s.h.
Nurse anesthesia students will successfully formulate, execute, and revise a safe, individualized anesthetics. They will recommend anesthetic techniques and determine methods to prevent anesthetic complications. Students will outline fluid administration, intraoperative monitoring and utilization of anesthesia equipment. Provides guided practical experience associated with course concepts, including practice with and evaluation of task-specific skills in both simulated and actual operating room environments. Illustrates advanced concepts of patients from across the lifespan.
Prereq.: NURS 8923.

NURS 8927  DNP Scholarly Project 1  3 s.h.
Focuses on identification of relevant clinical issues in anesthesiology with attendant formulation of critically applicable questions and examination of the relevant research evidence that addresses those questions. Students implement and evaluate a terminal project and disseminate the results through an oral and/or poster presentation, manuscript submission to a peer-reviewed journal or another appropriate medium.
Prereq.: NURS 8921.

NURS 8928  Healthcare Finance and Practice Management  2 s.h.
This course explores the role and examines healthcare finance and economics from the perspective of the advanced practice nurse. Emphasis is given to analysis and synthesis of practice behaviors specific to the development of the advanced practice role. Financial management principles, the healthcare reimbursement system, reimbursement process, and factors influencing the financial environment are discussed.
Prereq.: Acceptance and Enrollment in the DNP Nurse Anesthesia Program.
NURS 8929  Clinical Practicum 7  4 s.h.
Provides intensive experience in all clinical anesthesia areas. Represents an integral phase of sequenced clinical progress toward the achievement of competency in entry-level anesthesia practice. Includes clinical rotations to various affiliate sites to gain experience in management of specialized anesthetic considerations. Emphasizes increased responsibility and supervised autonomy for the delivery of a comprehensive anesthetic regime along the educational/experiential continuum. Semester course; 450 plus clocked clinical hours. Graded S/U.

NURS 8930  Ethics in Advanced Nursing Practice  2 s.h.
This course explores the philosophic basis and derived theories of ethics and their implications for advanced nursing practice. Using ethical principles, students will examine a variety of clinical, research and practice management dilemmas that arise in the provision of advanced practice nursing services to individuals, populations and communities. Cultural competence and transcultural nursing practices will also be explored.
Prereq.: Acceptance and Enrollment in the DNP Nurse Anesthesia Program.

NURS 8931  DNP Scholarly Project 2  3 s.h.
Focuses on identification of relevant clinical issues in anesthesiology with attendant formulation of critically applicable questions and examination of the relevant research evidence that addresses those questions. Students implement and evaluate a terminal project and disseminate the results through an oral and/or poster presentation, manuscript submission to a peer-reviewed journal or another appropriate medium.
Prereq.: NURS 8927.

NURS 8932  Teaching, Curriculum and Evaluation Seminar  1 s.h.
This course examines the principles of teaching and learning applicable to the anesthesia didactic and clinical environment. Strategies are presented in teacher/learner communication, presentation development and strategies, curriculum designs and methods of evaluation pertinent to nurse anesthesia education.
Prereq.: Acceptance and Enrollment in the DNP Nurse Anesthesia Program.

NURS 8933  Clinical Practicum 8  4 s.h.
Provides intensive experience in all clinical anesthesia areas. Represents an integral phase of sequenced clinical progress toward the achievement of competency in entry-level anesthesia practice. Includes clinical rotations to various affiliate sites to gain experience in management of specialized anesthetic considerations. Emphasizes increased responsibility and supervised autonomy for the delivery of a comprehensive anesthetic regime along the educational/experiential continuum. Semester course; 450 plus clocked clinical hours. Graded S/U.

NURS 8934  Leadership and Collaboration for the DNP Nurse Anesthetist  2 s.h.
This course focuses on nursing leadership incorporating theory and research as it applies to the role of the Doctor of Nursing Practice in a variety of settings. The focus is developing advanced leadership and management skills, organizational effectiveness, power and influence skills, change management.
Prereq.: Acceptance and Enrollment in the DNP Nurse Anesthesia Program.

NURS 8935  Clinical Practicum 9  4 s.h.
Provides intensive experience in all clinical anesthesia areas. Represents an integral phase of sequenced clinical progress toward the achievement of competency in entry-level anesthesia practice. Includes clinical rotations to various affiliate sites to gain experience in management of specialized anesthetic considerations. Emphasizes full responsibility for the delivery of a comprehensive anesthetic regime along the educational/experiential continuum with full supervision and guidance. Semester course; 450 plus clocked clinical hours. Graded S/U.
Prereq.: NURS 8933.

NURS 8936  Anesthesia Synthesis: Comprehensive Review  2 s.h.
This advanced course provides an opportunity for third-year doctoral anesthesia students to integrate the principle anesthesia concepts learned to date. Anesthesia Synthesis is not solely a traditional "board review". Instead, it includes the cerebral application of the concepts studied in previous courses. Graded S/U.
Prereq.: Acceptance and Enrollment in the DNP Nurse Anesthesia Program.
