Program Description
The Master of Business Administration program is designed to prepare individuals for increasing levels of managerial and leadership responsibilities. The program helps qualified individuals to develop their understanding of decision making, management, leadership, and business strategy & policy concepts, and how to apply these across a variety of business contexts.

The program is delivered in a fully online format (https://online.ysu.edu/degrees/business/mba/).

Accreditation
The Master of Business Administration program is fully accredited by the Association to Advance Collegiate Schools of Business (AACSB) International. Fewer than one-third of the 1200 business schools in the United States have earned this prestigious accreditation.

In response to the COVID-19 pandemic, YSU is expanding the opportunity to earn a Master of Business Administration (MBA). The admission criteria to the program have been revised to create more pathways to admission to increase the opportunity for, and access to, an outstanding educational experience.

The MBA Program offers applicants multiple pathways to admission, many of which do not require a standardized test score and/or full-time professional work experience.

For Regular Admission, applicants must meet one of four criteria:
1. Earned an undergraduate degree in business, economics, or S.T.E.M. [3], with a 3.0+ GPA. No work experience or standardized test score required.
2. Earned an undergraduate degree in a discipline other than business, economics, or S.T.E.M.[3], with a 2.7+ GPA and a minimum of 2 years full-time professional work experience[1]. No standardized test score required.
3. Earned a graduate or terminal degree (e.g., PhD, MD, or JD) in any field. No work experience or standardized test required.
4. Earned an active professional certification[2]. No work experience or standardized test score required.

For Provisional Admission, applicants must meet one of two criteria:
1. Earned an undergraduate degree (in any field), with a 2.70 to 2.99 GPA and a GMAT (or GRE equivalent) score of 500. No work experience required.
2. Earned an undergraduate degree (in any field), with a 2.5 – 2.7 GPA and a minimum of 5 years of full-time professional work experience. [1] No standardized test score required.

[1] Professional/managerial experience is determined using an applicant’s chronological resume and any requested supporting documents. Professional/managerial experience is not simply a count of the years of employment, but strongly considers the relevance of the full-time experience as it relates to the nature of the program. This is typically demonstrated through a history of full-time positions where an applicant has documentable experience of overseeing people, projects, operations, and/or customer accounts. For strong applicants, the work experience qualification is supported by a career progression evidenced by increased roles, responsibilities, accomplishments and/or formal promotions. Please note: the chronological resume should not include non-professional positions, part-time (i.e., less than 40 hours per week) professional positions, volunteerism, or internships. These types of work are not considered in assessing the professional/managerial experience criteria.

[2] List of professional certifications eligible for waiver approval: CPA, CFA, CMA, PMP, Six Sigma Black Belt, SHRM-CP, and SHRM-SCP.

[3] S.T.E.M. is collective term for the disciplines of science, technology, engineering and math. S.T.E.M. degrees include: physics, actuarial science, chemistry, biology, mathematics, applied mathematics, statistics, computer science, computational science, psychology, biochemistry, robotics, computer engineering, electrical engineering, electronics, mechanical engineering, industrial engineering, information science, information technology, civil engineering, aerospace engineering, chemical engineering, astrophysics, astronomy, optics, nanotechnology, nuclear physics, mathematical biology, operations research, neurobiology, biomechanics, bioinformatics, acoustical engineering, geographic information systems, atmospheric sciences, educational/instructional technology, software engineering, and educational research.

Admission standards to resume after August 2021:
In addition to the minimum requirements for admission to the YSU College of Graduate Studies, admission to the MBA program is based on a determination of the applicant’s professional work experiences and a determination of readiness for the program. This determination incorporates applicant’s:

1. cumulative, undergraduate GPA
2. the nature and years of relevant, full-time, managerial and/or professional work experience

Considering these factors, an applicant has two paths to admission.

Experienced Professional Path
For Regular Admission, an applicant must meet one of the following criteria:

1. 3.00 - 4.00 GPA; 3 years of full-time professional and/or managerial work experience[1], OR
2. 2.70 - 2.99 GPA; 5 years of full-time professional and/or managerial[1], OR
3. 2.70 - 4.00 GPA; An active professional certification from the approved certification list[7]
4. 2.70 - 4.00 GPA; Successfully completed another graduate or a terminal degree (e.g., PhD, MD, or JD).

Traditional Path
For Regular Admission, an applicant must meet BOTH of the following criteria:

1. GPA of 3.25 or higher
2. GMAT (or GRE equivalent) score of 500 (or higher)

For Provisional Admission, an applicant must meet ALL THREE of the following criteria:

1. GPA of 2.7 to 3.24
2. GMAT (or GRE equivalent) score of 450 (or higher)
3. 2 years of full-time professional and/or managerial work experience

Additional Requirements (all)

• current chronological resume, which details full-time professional/managerial experience

1 Professional/managerial experience is determined using an applicant’s chronological resume and any requested supporting documents. Professional/managerial experience is not simply a count of the years of employment, but strongly considers the relevance of the full-time professional/managerial experience as it relates to the nature of the program. The relevance is typically demonstrated through a history of full-time positions where an applicant has documentable experience of overseeing people, projects, operations, and/or customer accounts. For strong applicants, the work experience qualification is supported by a career progression evidenced by a history of increased roles, responsibilities, accomplishments and/or formal promotions.

2 Please note, the chronological resume should not include non-professional positions, part-time (i.e., less than 40 hours per week) professional positions, volunteerism, or internships. These types of work are not considered in assessing the professional/managerial experience criteria.

3 Professional Certification List: CFA (Charted Financial Analyst), CFP (Certified Financial Planner), CPA (Certified Public Accountant)(CPA), CSM (Certified ScrumMaster), Lean Black Belt (certified by either ASQ or IISE), PMI PMP, SHRM-CP, SHRM-SCP, Six Sigma Black Belt (certified by either ASQ or IISE).
