## Course Description

1551L. Anatomy and Physiology 1 Laboratory. Anatomical study of skeletal, muscular, and nervous systems. For students in nursing and associated health professions. Two hours of laboratory per week. Not applicable to the Biology major. BIOL 1551 must be taken either previous or concurrent. 1 s.h.

## Course Readings

| Group | Title                               | Author                                      | ISBN          |
|-------|-------------------------------------|---------------------------------------------|---------------|
|       | Hole's Human Anatomy and Physiology | Charles J. Welsh and Cynthia PrenticeCraver | 9781264398508 |

**Hole's Human Anatomy and Physiology. Authors: Charles J. Welsh and Cynthia PrenticeCraver. McGraw-Hill Co. Publisher. ISBN10: 1264398506 | ISBN13: 9781264398508**

- You will use this textbook for BIOL 1551 lecture, 1551 lab, 1552 lecture, & 1552 lab.
- Labs will use: McGraw Hill Lab Suite

The course readings are subject to change in the event of extenuating circumstances, research developments, current events, and/or to ensure better learning.

## Schedule of Topics and Assignments

| Week of | Reading(s)                                   | Proposed Topic                                                                                                          | Due/To Prepare for Class                                                                                          |
