Course Description

6989. Teaching Practicum. Techniques and strategies for teaching college composition, including course design and classroom practice. Required of and limited to graduate assistants who are teaching in the English Department. First-year graduate assistants must register for three semester hours of Teaching Practicum in two successive semesters for a total of six semester hours. Does not count toward degree credit. Grading is S/U. 1-3 s.h.

Writing is something that can be improved through practice. Every writer, regardless of their prior writing experiences, can succeed in this course if they apply effort, use resources effectively, reflect on their writing strategies, and make changes as needed. My hope is that all students will develop the knowledge they need to do well and that all students—even those who perform well early in the semester—will develop greater knowledge and skills through practice.

In this course, you will critically examine theories and practices for teaching first-year writing to develop effective pedagogical approaches that you can use within and beyond your first semester of teaching.
