The Lariccia School of Accounting and Finance prepares students for careers in Accounting and Finance. Accounting majors learn how to gather, analyze, record and audit financial information - with this information being of central importance when making business decisions. Graduates of accounting programs can pursue careers in general accounting, tax, audit, consulting, government accounting, or nonprofit accounting. There are many professional accounting certifications including Certified Public Accounting (CPA), Certified Management Accounting (CMA), Certified Fraud Examiner (CFE), and Certified Internal Auditor (CIA).

Finance professionals use financial information to analyze a company’s future prospects and manage its money, assess markets to make investment decisions, assist individuals in planning their financial future, or assess the financial risk of company decisions. Those with a major in finance pursue careers in areas such as manufacturing, investments, financial services including banking and insurance, risk management, or financial planning. Professional certifications include Certified Financial Planner (CFP) and Chartered Financial Analyst (CFA).

The Lariccia School of Accounting and Finance faculty offers several programs to help students become career-ready upon graduation including Accounting & Finance Student Practitioner Day, VITA Program, Professional Development Summit, Meet the Employers Day and on-campus internship interviews.
