Choral Track
The Bachelor of Music (B.M.) in Music Education provides exceptional instruction that prepares students for licensure as music teachers in the public schools and careers as music educators in all learning environments. Music Education students are musicians who want to teach, and the comprehensive curriculum includes significant applied studio instruction in multiple singing styles and genres, numerous opportunities as performers and conductors in diverse ensembles, technology-based experiences, and supportive courses in piano and music theory and history. Our Music Education graduates who seek a teaching position enjoy a 100% placement rate.

The Choral Music Education curriculum provides hands-on experience at all levels that allows students to specialize in idioms that focus on choral and vocal music, including concert choirs, Musical Theatre, Jazz and Pop, contemporary ensembles, and various commercial and chamber ensembles. Through an interactive curriculum that includes courses with the Dana School of Music, YSU's Department of Teacher Education, and extensive field experiences in local schools, music education students develop into reflective and passionate music educators. Dana's teaching candidates are dedicated to becoming culturally responsive music educators, reflective practitioners, and advocates for the arts, who are informed by student-centered pedagogical practices, creativity, and a broad understanding about music and music education in society.

All music education students conduct extensive pre-clinical field experiences in K-12 music classrooms where they apply their newly acquired music pedagogy to offer quality and meaningful musical learning experiences to K-12 students. The knowledge that develops during this field work enhances their understanding of teaching in diverse educational settings and prepares the candidate for student teaching. Throughout pre-clinical and clinical work, music education students provide artistic experiences that further enrich the lives of K-12 students.

Upon completion of the B.M. in Music Education program, our students may be found teaching in public and private classrooms throughout the region and country. Students who choose to pursue advanced degrees have received funding and assistantships to attend some of the finest music institutions in the country, including Cincinnati Conservatory, New England Conservatory, University of California (Berkeley), Arizona State University, and University of Illinois-Champaign. Alumni are also performing in professional ensembles; serving as composers, arrangers, and audio engineers; and working in university positions around the country and across the globe.
