Piano Track
The Bachelor of Music (B.M.) in Music Performance, Piano Track provides exceptional individualized applied studio instruction, solo and collaborative performance experiences, and supportive courses in music history and theory, as well as avenues for students to diversify their studies with elective classes and professional skills that are relevant to their areas of interest. The B.M. in Performance focuses on the professional development and unique goals of each student.

B.M. in Music Performance students work closely with a world-class faculty of performers, composers, and scholars who hold advanced degrees from some of the world’s finest institutions, including Juilliard, Cincinnati Conservatory, Eastman, Cleveland Institute of Music, New England Conservatory, University of Southern California, Florida State University, and University of Texas. Our faculty work with students to support their unique aspirations through the development of strategic experiences, thus enabling them to pursue a variety of professional opportunities in multiple contexts. Students are encouraged to develop their own specialized interests, including additional studies in pedagogy or collaborative performance; involvement in competitions, festivals, or recordings; or focused repertoire studies in areas such as new music or music of underrepresented composers.

Students pursuing the B.M. in Music Performance in Piano have a broad range of performance opportunities that include diverse repertoire and provide professional training as soloists and collaborators. Examples include solo recitals, concerto competitions, large and small ensembles, and contemporary ensembles. Chamber Ensembles provide students the chance to form groups that explore varied literature and entrepreneurship, and many groups are active playing gigs and concerts throughout the region.

Our students regularly win regional, national, and international recognition in performance and garner competition awards. They routinely perform as artists and chamber musicians at summer music festivals in the U.S. and abroad and are accepted to prestigious graduate programs around the country and across the globe.

The B.M. in Music Performance prepares students to develop careers in a myriad of fields. Our alumni are Grammy®Award winning artists and may be found performing with national and international ensembles; recording in Hollywood studios; touring with diverse acts; performing with the Jazz at Lincoln Center Orchestra; serving as award-winning producers, arrangers, and audio engineers; and working as academic faculty. Our degree helps students define future professional goals and equips them with exceptional skills for a successful career.

Learning Outcomes

The student learning outcomes for the major in music are as follows:
• Students will perform a public recital in their applied area.
• Students will analyze music, discriminate pitch, harmony, and rhythm and perform harmonic progressions at the piano.
• Students will demonstrate critical thinking about the various historical periods, cultural contexts, and social forces that influence musical activity.
• Students will demonstrate basic keyboard proficiency including scales, arpeggios, harmonization, repertoire, transpositions, and score reading.
