

BACHELOR OF SCIENCE IN APPLIED SCIENCE IN FAMILY AND CONSUMER STUDIES, CONSUMER STUDIES TRACK

Dr. Abel Waithaka
Program Coordinator
330-941-2635
agwaithaka@ysu.edu

The Family Studies and Consumer Studies tracks are designed to provide an in-depth understanding of individuals and families across the life span, and to prepare students to work in agencies serving children, families, and consumers. Students may create a unique program that reflects their career interests or graduate school goals or find employment in a variety of community agencies and businesses related to their areas of study. The Family and Consumer Studies degree prepares the student to obtain Certified in Family and Consumer Sciences (CFCS) certification.

The Family and Consumer Sciences Instructor track prepares students to teach in educational programs, grade four through adult levels, and meets the course requirements for the Family and Consumer Sciences Career/Technical Teaching License required in Ohio's schools. The track includes 100 hours of supervised field work and one semester of student teaching in a secondary school. Graduates will be required to pass the State examination for teachers in order to receive a teaching license.

For more information, contact Dr. Abel Waithaka or visit the Department of Human Ecology in Cushman Hall 3325.

Learning Outcomes

Graduates in the family and consumer studies major will be able to:

- Use family science research and human systems theory to describe the internal dynamics of families and the interrelationships of individuals and families with their environments.
- Identify factors that influence human development across the life span.
- Apply appropriate technologies, critical-thinking, research methods, and communication skills to address significant family and consumer issues.
- Use concepts of resource development, management, and sustainability to evaluate individual, family, and community resource allocation practices.
- Analyze ethical questions that affect families and consumers.
- Relate to others with concern and respect for diversity of family forms, cultural variations among families, and individual differences.
- Follow professional and ethical standards in professional practice settings.
- Evaluate public policies that impact the well-being of individuals, families, consumers, and communities.
- Plan, implement, and evaluate educational programs serving children, families, and consumers.
