

# FORENSIC SCIENCE CERTIFICATE

---

The Forensic Sciences Certificate is an 18 hour program that emphasizes crime scene investigation and basic information regarding the use of forensic work within multiple career fields. The student can pick their own advanced courses based upon their desired career.

Upon completion of the Forensic Science Certificate, the student will be able to:

- Describe various subfields of forensic science, and identify where forensic sciences fit into the Criminal Justice system
- Examine crime scenes, recover evidence, and perform basic scientific tests within a laboratory setting
- Apply biological, chemical, mathematical, and physics theory towards solving crimes
- Evaluate the probative value of forensic evidence such as hair examination, drug analysis, and fire investigation
